Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Regulation 170]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period October 29-November 4, 1978. Such action is needed to provide for orderly marketing of fresh lemons for this period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: October 29, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: *Findings.* Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, and upon other information, it is found that the limitation of handling of lemons, as hereafter provided, will tend to effectuate the declared policy of the act.

The committee met on October 24, 1978, to consider supply and market conditions and other factors affecting the need for regulation and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is good on 115's and larger and easier on 140's and smaller.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effecuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

§ 910.470 Lemon Regulation 170.

Order. (a) The quantity of lemons grown in California and Arizona which may be handled during the period October 29, 1978, through November 4, 1978, is established at 200,000 cartons.

(b) As used in this section, "handled" and "carton(s)" mean the same as defined in the marketing order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated October 26, 1978.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 78-30687 Filed 10-26-78; 1:03 pm]

[3410-02-M]

PART 971—LETTUCE GROWN IN LOWER RIO GRANDE VALLEY IN SOUTH TEXAS

Expenses and Rate of Assessment

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation authorizes expenses of $23,000 and a rate of assessment of 1½ cents ($0.015) per carton of lettuce for the functioning of the South Texas Lettuce Committee. This enables the committee to collect assessments from first handlers of lettuce grown in the Lower Rio Grande Valley in south Texas and to use the resulting funds for its expenses.

EFFECTIVE DATE: August 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250; telephone 202-447-6393.

SUPPLEMENTARY INFORMATION: *Findings.* The expenses and rate of assessment specified herein are found to tend to effectuate marketing agreement No. 144 and order No. 971 regulating the handling of lettuce grown in Cameron, Hidalgo, Starr, and Willacy Counties in Texas, and the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), under which the program operates.

These expenses and rate of assessment were recommended by the South Texas Lettuce Committee, established under the order and responsible for its local administration, in an open meeting on October 12, 1978, in McAllen, Tex. All interested persons were given an opportunity to submit information and views on the expenses and assessment rate at this meeting. No objections were offered.

It is further found that it is infeasible and contrary to the public interest to give preliminary notice and engage in public rulemaking, and that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553). This is because the order requires that the rate of assessment for a particular fiscal period shall apply to all lettuce from the beginning of such period.

The regulation is as follows:

§ 971.218 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending July 31, 1979, by the South Texas Lettuce Committee for its maintenance and functioning and for such purposes as the Secretary determines to be appropriate amount to $23,000.

(b) The rate of assessment to be paid by each handler in accordance with this part shall be 1½ cents ($0.015) per carton of assessable lettuce handled by him as the first handler during the fiscal period.

(c) Unexpended income in excess of expenses for the fiscal period may be carried over as a reserve to the extent authorized in § 971.43(a)(2).

(d) Terms used in this section have the same meaning as when used in the marketing agreement and this part.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674).)

Dated: October 23, 1978.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[3410-34-M]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 78—BRUCELLOSIS

Subpart D—Designation of Brucellosis Areas, Specifically Approved Stockyards, and Slaughtering Establishments

BRUCELLOSIS AREAS

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: The Animal and Plant Health Inspection Service is amending its Brucellosis Regulations. These amendments update the Brucellosis regulations by providing the current status of various counties and States which have been designated Certified Brucellosis-Free Areas, Modified Certified Brucellosis Areas, or Noncertified Areas for purposes of interstate movement of cattle and bison from such areas. This action is required because of the change in the Brucellosis status of the areas affected.

EFFECTIVE DATE: October 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Dr. A. D. Robb, U.S. Department of Agriculture, Animal and Plant Health Inspection Service, Veterinary Services, Hyattsville, Md. Room 805, 301-436-8713.

SUPPLEMENTARY INFORMATION: The amendments delete the following areas from the list of Certified Brucellosis-Free Areas in § 78.20 and add such areas to the list designated as Modified Certified Brucellosis Areas in § 78.21 because it has been determined that they now come within the definition of a Modified Certified Brucellosis Area in § 78.1(m): Escambia, Jackson, Washington Counties in Florida.

The amendments delete the following areas from the list of Modified Certified Brucellosis Areas in § 78.21

V

and add such areas to the list desig-

Edwards, Effingham, Fayette, Ford, Frank-

shall, McCook, McPherson, Meade, Mel-

Talladege, Tallapoosa, Tuscaloosa, Walker, Washington, Wilcox, Winston.

Muhlenberg, Nelson, Nicholas, Ohio, Oldham, Owen, Powell, Pulaski, Rockcastle,

ington, Wayne, Weakley, White, Williamson, Wilson.

V 43 / 209 0 C 27 7 8

and add such areas to the list designated as Certified Brucellosis-Free Areas in § 78.20 because it has been determined that they now come within the definition of a Certified Brucellosis-Free Area in § 78.1(1): Jefferson County in Illinois; Osborne, Seward, Woodson Counties in Kansas.

Accordingly, §§ 78.20, 78.21, and 78.22 of Part 78, Title 9, Code of Federal Regulations, designating Certified Brucellosis-Free Areas, Modified Certified Brucellosis Areas, and Noncertified Areas, respectively, are amended to read as follows:

§ 78.20 Certified brucellosis-free areas.

The following States, or specified portions thereof, are hereby designated as Certified Brucellosis-Free Areas:

(a) *Entire States.*

Arizona, California, Connecticut, Delaware, Hawaii, Indiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Carolina, Virginia, Washington, West Virginia, Wisconsin, Virgin Islands.

(b) *Specific counties within States.*

Alabama. Dale, Geneva.

Arkansas. Baxter, Bradley, Carroll, Cleveland, Columbia, Dallas, Drew, Fulton, Garland, Jefferson, Marion, Monroe, Montgomery, Newton, Ouachita, Searcy, Sharp, Stone, Union.

Colorado. Adams, Alamosa, Arapahoe, Archuleta, Baca, Bent, Boulder, Chaffee, Cheyenne, Clear Creek, Conejos, Costilla, Crowley, Custer, Delta, Denver, Dolores, Douglas, Eagle, Elbert, El Paso, Fremont, Garfield, Gilpini, Grand, Gunnison, Hinsdale, Huerfano, Jackson, Jefferson, Kiowa, Kit Carson, Lake, La Plata, Larimer, Las Animas, Lincoln, Logan, Mineral, Moffat, Montezuma, Montrose, Morgan, Otero, Ouray, Park, Phillips, Pitkin, Prowers, Pueblo, Rio Blanco, Rio Grande, Routt, Saguache, San Juan, San Miguel, Sedgwick, Summit, Teller, Washington, Weld, Yuma.

Florida. Baker, Bay, Citrus, Dixie, Franklin, Holmes, Leon, Liberty, Monroe, Okaloosa, Orange, Santa Rosa, Seminole, St. Johns, Taylor, Wakulla, Walton.

Georgia. Appling, Atkinson, Bacon, Banks, Brantley, Bryan, Bulloch, Burke, Butts, Camden, Candler, Charlton, Chatham, Chattahoochee, Clarke, Clayton, Cook, Crawford, De Kalb, Echols, Effingham, Evans, Fannin, Franklin, Glascock, Glynn, Greene, Habersham, Jeff Davis, Johnson, Lanier, Laurens, Liberty, Long, McIntosh, Monroe, Peach, Rabun, Richmond, Screven, Stephens, Taylor, Toombs, Treutlen, Twiggs, Upson, Ware, Wayne, Wheeler, White, Wilkinson.

Idaho. Ada, Adams, Bear Lake, Benewah, Bingham, Blaine, Boise, Bonner, Boundary, Butte, Camas, Canyon, Caribou, Clark, Clearwater, Custer, Gem, Idaho, Kootenai, Latah, Lemhi, Lewis, Minidoka, Nez Perce, Owyhee, Payette, Power, Shoshone, Valley, Washington.

Illinois. Adams, Alexander, Bond, Boone, Brown, Bureau, Calhoun, Carroll, Cass, Champaign, Christian, Clark, Clay, Clinton, Coles, Cook, Crawford, Cumberland, De Kalb, De Witt, Douglas, Du Page, Edgar, Edwards, Effingham, Fayette, Ford, Franklin, Fulton, Gallatin, Greene, Grundy, Hamilton, Hancock, Hardin, Henderson, Henry, Iroquois, Jackson, Jasper, Jefferson, Jersey, Johnson, Kane, Kankakee, Kendall, Lake, La Salle, Lawrence, Lee, Livingston, Logan, Macon, Macoupin, Madison, Marion, Marshall, Mason, McDonough, McHenry, McLean, Menard, Mercer, Monroe, Montgomery, Morgan, Moultrie, Ogle, Peoria, Perry, Piatt, Pike, Pope, Pulaski, Putnam, Randolph, Richland, Rock Island, St. Clair, Saline, Sangamon, Schuyler, Scott, Shelby, Stark, Stephenson, Tazewell, Union, Vermilion, Wabash, Warren, Washington, Wayne, White, Whiteside, Will, Williamson, Winnebago, Woodford.

Iowa. Adair, Allamakee, Audubon, Benton, Black Hawk, Boone, Bremer, Buchanan, Buena Vista, Butler, Calhoun, Carroll, Cass, Cedar, Cerro Gordo, Cherokee, Chickasaw, Clarke, Clay, Clayton, Clinton, Crawford, Dallas, Davis, Decatur, Delaware, Des Moines, Dickinson, Dubuque, Emmet, Fayette, Floyd, Franklin, Fremont, Greene, Grundy, Hamilton, Hancock, Hardin, Harrison, Henry, Howard, Humboldt, Ida, Iowa, Jackson, Jasper, Jefferson, Johnson, Jones, Keokuk, Kossuth, Lee, Linn, Louisa, Lucas, Lyon, Madison, Mahaska, Marion, Marshall, Mills, Mitchell, Monona, Monroe, Montgomery, Muscatine, O'Brien, Osceola, Palo Alto, Pocahontas, Polk, Pottawattamie, Poweshiek, Plymouth, Sac, Scott, Shelby, Sioux, Story, Tama, Union, Van Buren, Wapello, Warren, Washington, Webster, Winnebago, Winneshiek, Woodbury, Worth, Wright.

Kansas. Anderson, Barber, Bourbon, Brown, Chase, Chautauqua, Cherokee, Cheyenne, Clark, Clay, Coffey, Comanche, Decatur, Doniphan, Douglas, Edwards, Ellsworth, Finney, Ford, Gove, Graham, Grant, Gray, Greeley, Hamilton, Haskell, Hodgeman, Jewell, Johnson, Kearny, Kingman, Kiowa, Labette, Lane, Logan, Marion, Marshall, Meade, Mitchell, Ness, Norton, Osborne, Pawnee, Phillips, Pottawatomie, Pratt, Rawlins, Republic, Riley, Rooks, Rush, Saline, Scott, Seward, Shawnee, Sheridan, Sherman, Smith, Stanton, Stevens, Thomas, Trego, Wallace, Washington, Wichita, Woodson, Wyandotte.

Kentucky. Bell, Breathitt, Campbell, Clay, Floyd, Harlan, Johnson, Kenton, Knott, Knox, Lawrence, Lee, Leslie, Letcher, Lewis, Magoffin, Martin, McCreary, Menifee, Morgan, Owsley, Pendleton, Perry, Pike, Robertson, Trimble, Whitley, Wolfe.

Mississippi. Alcorn, Hancock, Harrison, Jackson, Stone, Tishomingo.

Missouri. Audrain, Dunklin, Gasconade, Hickory, Lewis, Moniteau, Montgomery, Perry, Platte, Pulaski, St. Louis, Schuyler, Shelby.

Nebraska. Banner, Box Butte, Cheyenne, Dakota, Deuel, Dodge, Douglas, Perkins, Thurston.

New Mexico. Catron, Colfax, De Baca, Dona Ana, Grant, Guadalupe, Harding, Hidalgo, Lincoln, Los Alamos, Luna, McKinley, Otero, Rio Arriba, Sandoval, San Juan, Santa Fe, Sierra, Socorro, Taos, Torrance, Union.

South Dakota. Aurora, Beadle, Bennett, Bon Homme, Brookings, Brown, Brule, Buffalo, Butte, Cambell, Charles Mix, Clark, Clay, Codington, Corson, Custer, Davision, Day, Deuel, Dewey, Douglas, Edmunds, Fall River, Faulk, Grant, Gregory, Haakon, Hamlin, Hand, Hanson, Harding, Hughes, Hutchinson, Hyde, Jackson, Jerauld, Kingsbury, Lake, Lawrence, Lincoln, Lyman, Marshall, McCook, McPherson, Meade, Mellette, Miner, Minnehaha, Moody, Pennington, Perkins, Potter, Roberts, Sanborn, Shannon, Spink, Sully, Todd, Tripp, Turner, Union, Walworth, Washabaugh, Yankton, Ziebach.

Tennessee. Anderson, Blount, Campbell, Carter, Claiborne, Davidson, Fentress, Grainger, Greene, Hamblen, Hancock, Jefferson, Johnson, Knox, Lake, Lewis, Meigs, Morgan, Perry, Polk, Roane, Robertson, Scott, Sequatchie, Sevier, Sullivan, Unicoi, Union, Van Buren.

Texas. Armstrong, Bandera, Borden, Brewster, Childress, Comal, Crane, Cubierson, Ector, Gillespie, Glasscock, Gray, Hansford, Hartley, Hemphill, Hudspeth, Hutchinson, Irion, Jeff Davis, Kendall, Kerr, Kimble, Lipscomb, Llano, Loving, Martin, Mason, Menard, Midland, Moore, Newton, Ochiltree, Pecos, Presidio, Reagan, Real, Roberts, Schleicher, Sherman, Sterling, Sutton, Terrell, Val Verde, Ward, Winkler, Yoakum.

Utah. Beaver, Cache, Carbon, Daggett, Davis, Duchesne, Emery, Grand, Iron, Juab, Kane, Millard, Morgan, Piute, Rich, Salt Lake, San Juan, Sanpete, Sevier, Summit, Tooele, Uintah, Utah, Wasatch, Washington, Wayne, Weber.

Vermont. Bennington, Caledonia, Essex, Grand Isle, Lamoille, Orange, Rutland, Washington, Windham, Windsor.

Wyoming. Albany, Big Horn, Campbell, Carbon, Converse, Crook, Fremont, Goshen, Hot Springs, Johnson, Laramie, Natrona, Niobrara, Park, Platte, Sheridan, Sublette, Sweetwater, Teton, Uinta, Washakie, Weston.

Puerto Rico. Adjuntas, Aguada, Aguadilla, Aguas Buenas, Aibonito, Anasco, Arroyo, Barceloneta, Barranquitas, Bayamon, Cabo Rojo, Caguas, Canovanas (Loiza), Catano, Cayey, Ceiba, Ciales, Cidra, Coamo, Comerio, Corozal, Culebra, Dorado, Fajardo, Guanica, Guayama, Guaynabo, Guayanilla, Hormigueros, Humacao, Jayuya, Juana Diaz, Juncos, Lajas, Lares, Las Marias, Luquillo, Manati, Maricao, Maunabo, Mayaguez, Moca, Morovis, Naranjito, Orocovis, Patillas, Penuelas, Ponce, Rincon, Rio Grande, Rio Piedras, Sabana Grande, Salinas, San German, San Juan, San Lorenzo, Santa Isabel, Toa Alta, Toa Baja, Trujillo Alto, Utuado, Vega Alta, Vega Baja, Vieques, Villalba, Yabucoa, Yauco.

§ 78.21 Modified certified brucellosis Areas.

The Following States, or specified portions thereof, are hereby designated as Modified Certified Brucellosis Areas:

(a) *Entire States.*

Alaska, Louisiana, Oklahoma.

(b) *Specific counties within States.*

Alabama. Autauga, Baldwin, Barbour, Bibb, Blount, Bullock, Butler, Calhoun, Chambers, Cherokee, Chilton, Choctaw, Clarke, Clay, Cleburne, Coffee, Colbert, Conecuh, Coosa, Covington, Crenshaw, Cullman, Dallas, De Kalb, Elmore, Etowah, Escambia, Fayette, Franklin, Greene, Hale, Henry, Houston, Jackson, Jefferson, Lamar, Lauderdale, Lawrence, Lee, Limestone, Lowndes, Macon, Madison, Marengol Marion, Marshall, Mobile, Monroe, Montgomery, Morgan, Perry, Pickens, Pike, Randolph, Russell, St. Clair, Shelby, Sumter,

Talladege, Tallapoosa, Tuscaloosa, Walker, Washington, Wilcox, Winston.

the United States Code, the following amendments to title 10, chapter I, Code of Federal Regulations, part 50,

V 43/209 OCT 27 78

be of maximum benefit to persons subject to the restrictions which are relieved. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 19th day of October 1978.

NOTE.—The Animal and Plant Health Inspection Service has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

E. A. SCHILF,
Acting Deputy Administrator,
Veterinary Services.

PART 113—STANDARD REQUIREMENTS

Miscellaneous Amendments

Correction

In FR Doc. 78-25857 appearing at page 41185 in the issue for Friday, September 15, 1978, make the following changes:

1. On page 41186, second column, second line of § 113.123(b)(5), "the" should be changed to "a".

2. On page 41187, second column, sixth line of § 113.140(c)(4)(v), "now" should be changed to "show".

Title 10—Energy

CHAPTER I—NUCLEAR REGULATORY COMMISSION

PART 50—DOMESTIC LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

Standards for Combustible Gas Control Systems

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission is amending its regulations to clarify the Commission's position on its general design criterion regarding the Containment Design Basis and to provide a new section specifying the standards for combustible gas control systems.

EFFECTIVE DATE: November 27, 1978.

FOR FURTHER INFORMATION CONTACT:

James A. Norberg, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, telephone 301-443-5921.

SUPPLEMENTARY INFORMATION: On October 21, 1976, the Nuclear Regulatory Commission (NRC), published the notice of proposed rulemaking in the FEDERAL REGISTER (41 FR 46167). Interested persons were invited to comment on the proposed rule by December 23, 1976. The notice concerned proposed amendments to 10 CFR Part 50, "Domestic Licensing of Production and Utilization Facilities," to require the applicant or licensee to show that during the time period immediately following a postulated loss-of-coolant accident (LOCA) but prior to effective operation of the combustible gas control system, either: (1) An uncontrolled hydrogen-oxygen recombination would not take place in the containment; or (2) the plant could withstand the consequences of uncontrolled hydrogen-oxygen recombination without loss of safety function. If neither of these conditions can be shown, the containment shall be provided with an inerted atmosphere in order to provide protection against hydrogen burning and explosions during this time period. Standards for combustible gas control systems also were included in the proposed amendments.

It should be noted that under either the proposed rule or the final rule (1) inerting of containment will not likely be required for plants with small containment volume (Mark I and II Boiling Water Reactors) if the licensee or applicant can show that the calculated metal-water reaction will be well within the acceptance criteria for emergency core cooling systems and (2) inerting of containment will not likely be needed for plants with large containment volume (Pressurized Water Reactors and Mark III Boiling Water Reactors) as long as ECCS acceptance criteria are met. The NRC staff has estimated that for all except two of the plants currently operating or under construction inerting containment would not be needed under this rule.

Fifteen interested persons submitted comments regarding the proposed amendments. The letters generally included numerous specific comments, but the most frequent comments could be roughly divided into three categories:

1. This inerting rule poses risks to plant personnel safety, reduces the number of unscheduled visual inspections, and increases plant operating cost.

2. The rule is too conservative in defining the amount of metal-water reaction.

3. The containment air dilution system requirement of the rule should be clarified and the manner in which the NRC will implement the rule should be clarified.

Copies of the comments may be examined in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. 20555. A summary of the NRC's response to these comments is presented below.

1. The risks to plant personnel and reduced inspection capability accociated with inerting the containment were carefully considered and discussed in the notice of proposed rulemaking. The NRC concluded that the risk to plant personnel of an inerted plant would be small provided that special procedures and personnel safety precautions are taken. The NRC also concluded that, on the inspection issue, inerting does not necessarily cause a reduction in the number of unscheduled visual inspections. Even assuming that a reduction in the number of unscheduled visual inspections does occur, such reduction does not adversely affect the protection of public health and safety since an adequate program of scheduled inspections can be maintained to insure safe operation of the plant. The NRC position on additional cost associated with requiring inerting is that the cost associated with inerting and de-inerting activities would be insignificant.

2. The NRC agrees that the proposed rule contains conservatisms, but disagrees that the rule is too conservative in defining the amount of metal-water reaction that must be assumed. It should be noted that in the proposed rule the amount of metal-water reaction assumed to occur after a

LOCA is 5 times the amount calculated in accordance with § 50.46 or is the amount that would result from cladding surfaces surrounding the fuel to a depth of 0.00023 inch (0.0058 mm), whichever amount is greater. Therefore, the amount of metal-water reaction assumed in the proposed rule is less conservative for certain plants when compared with the 5 percent previously assumed by NRC. The detailed technical discussion for making this revision was presented in the notice of proposed rulemaking (41 FR 46167). In short, the factor of 5 or 0.00023-inch (0.0058 mm) depth number is based on an engineering judgment that this method provides a sufficient margin for the purpose of containment design. It is assumed for conservatism that the emergency core cooling does not fail completely but that its performance is degraded to such an extent that a small fraction of the core becomes overheated. This could be caused by conservatively assuming the existence of a hot-spot effect of assumed coolant flow starvation resulting from (1) delivery of less-than-planned cooling to a localized area and (2) local flow blockage that might be associated with excessive fuel deformation, partial core support failure, etc. While such conditions are not assumed to lead to core meltdown, they are assumed to result in additional hydrogen production above that calculated by Appendix K, "ECCS Evaluational Models."

Currently NRC conducts several Loss-of-Coolant Accident/Emergency Core Cooling System (LOCA/ECCS) experimental verification and code development programs that have the potential for establishing the amount of conservatism in metal-water reaction. Pending further progress on the present LOCA/ECCS programs, the NRC has concluded at this time that no further consideration need be given to this matter.

3. Comments regarding clarification of the rule have been incorporated in the final rule but have not significantly changed the position expressed by the NRC in the proposed rule.

One commenter opposed adoption of the rule. This commenter believed that the change was unnecessary, because General Design Criteria 41, 42, 43, and 50 of Appendix A to 10 CFR Part 50 impose the requirements for combustible gas control, and revised Regulatory Guide 1.7,[1] "Control of Combustible Gas Concentrations in Containment Following a Loss-of-Coolant Accident," will provide adequate criteria and guidelines for combustible gas control systems. However, the NRC believes that the change is necessary because (1) General Design Criterion 41 states that containment atmosphere cleanup systems must be provided as necessary, but it is not specific in defining the types of cleanup systems (e.g., a combustible gas control system), (2) the method and basis for the calculation of hydrogen after a LOCA should be established, (3) the degraded ECCS operation is subject to many different interpretations if not specifically defined, (4) publishing a final rule would resolve a complex technical issue that was raised on inerting by the Atomic Safety and Licensing Appeal Board during the Vermont Yankee licensing proceeding, and (5) the rule has set forth limits of domain within which potential hydrogen explosion is possible as a result of degradation, but not total failure, of emergency core cooling functioning. The rule would thus provide guidance to future designers, who could design their plants to avoid the range of hydrogen concentrations that could have potential for explosion.

Assumptions acceptable to the NRC staff for evaluating and designing a combustible gas control system are presented in Revision 2 of Regulatory Guide 1.7. Regulatory Guide 1.7 (originally Safety Guide 7) was published in March 1971. Revision 1 to this guide was published in September 1976. After consideration of the comments received on the guide, Revision 2 to this guide is now being published.

Revision 2 to Regulatory Guide 1.7 is essentially the same as in Revision 1 with minor clarifying changes. Some concerns were raised in the guide about the meaning of partial burning of hydrogen in the containment. For hydrogen concentrations in the range of 4 to 6 volume percent, partial burning of the hydrogen above 4 volume percent may occur. However, in this range of 4 to 6 volume percent, the rate of flame propagation is less than the rate of rise of the flammable mixture. Therefore, the flame can propagate upward, but not horizontally or downward. In this case, only a fraction of hydrogen will burn in the containment, and complete combustion will not occur until the hydrogen concentration is increased above 6 volume percent.

Interested persons were invited to submit written comments by December 20, 1976, for consideration in connection with the proposed amendments. After consideration of the comments received and other factors involved, the Commission has adopted the amendments as set forth below.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and sections 552 and 553 of title 5 of the United States Code, the following amendments to title 10, chapter I, Code of Federal Regulations, part 50, are published as a document subject to codification.

[1] Copies of the Revision 2 to Regulatory Guide 1.7 may be obtained by written request to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Technical Information and Document Control.

Appendix A [Amended]

1. In 10 CFR Part 50, Appendix A—Criterion 50 is amended to read as follows:

CRITERION 50—CONTAINMENT DESIGN BASIS

The reactor containment structure, including access openings, penetrations, and the containment heat removal system, shall be designed so that the containment structure and its internal compartments can accommodate, without exceeding the design leakage rate and with sufficient margin, the calculated pressure and temperature conditions resulting from any loss-of-coolant accident. This margin shall reflect consideration of (1) the effects of potential energy sources that have not been included in the determination of the peak conditions, such as energy in steam generators and, as required by § 50.44, energy from metal-water and other chemical reactions that may result from degradation, but not total failure, of emergency core cooling functioning; (2) the limited experience and experimental data available for defining accident phenomena and containment responses; and (3) the conservatism of the calculational model and input parameters.

2. A new § 50.44 is added to 10 CFR Part 50 to read as follows:

§ 50.44 Standards for combustible gas control system in light water cooled power reactors.

(a) Each boiling or pressurized light-water nuclear power reactor fueled with oxide pellets within cylindrical zircaloy cladding, shall, as provided in paragraphs (b) through (d) of this section, include means for control of hydrogen gas that may be generated, following a postulated loss-of-coolant accident (LOCA), by (1) metal-water reaction involving the fuel cladding and the reactor coolant, (2) radiolytic decomposition of the reactor coolant, and (3) corrosion of metals.

(b) Each boiling or pressurized light-water nuclear power reactor fueled with oxide pellets within cylindrical zircaloy cladding shall be provided with the capability for (1) measuring the hydrogen concentration in the containment, (2) insuring a mixed atmosphere in the containment, and (3) controlling combustible gas concentrations in the containment following a postulated LOCA.

(c) For each boiling or pressurized light-water nuclear power reactor fueled with oxide pellets within cylindrical zircaloy cladding, it shall be shown that during the time period following a postulated LOCA but prior to effective operation of the combustible gas control system, either: (1) An uncontrolled hydrogen-oxygen recombination would not take place in the con-

tainment; or (2) the plant could withstand the consequences of uncon-

population zone outer boundary from purging and the postulated LOCA cal-

not postulated to be sufficient to cause core meltdown.

compensating bumped passengers to include in any advertisement the fact

and would have the responsibility to insure that travel agents authorized to sell air transportation for it give the

tices, and we believe the scales incline in favor of the former.

In adopting FR-1050, the Board

V 43 / 209 / OC 27 78

tainment; or (2) the plant could withstand the consequences of uncontrolled hydrogen-oxygen recombination without loss of safety function. If neither of these conditions can be shown, the containment shall be provided with an inerted atmosphere or an oxygen deficient condition in order to provide protection against hydrogen burning and explosions during this time period.

(d)(1) For facilities that are in compliance with § 50.46(b), the amount of hydrogen contributed by core metal-water reaction (percentage of fuel cladding that reacts with water), as a result of degradation, but not total failure, of emergency core cooling functioning shall be assumed either to be five times the total amount of hydrogen calculated in demonstrating compliance with § 50.46(b)(3), or to be the amount that would result from reaction of all the metal in the outside surfaces of the cladding cylinders surrounding the fuel (excluding the cladding surrounding the plenum volume) to a depth of 0.00023 inch (0.0058 mm), whichever amount is greater. A time period of 2 minutes shall be used as the interval after the postulated LOCA over which the metal-water reaction occurs. (2) For facilities as to which no evaluation of compliance in accordance with § 50.46(b) has been submitted and evaluated, the amounts of hydrogen so contributed shall be assumed to be that amount resulting from the reaction of 5 percent of the mass of metal in the cladding cylinders surrounding the fuel, excluding the cladding surrounding the plenum volume.

(e) For facilities whose notice of hearing on the application for a construction permit was published on or after November 5, 1970, purging and/or repressurization shall not be the primary means for controlling combustible gases following a LOCA. However, the capability for controlled purging shall be provided. For these facilities, the primary means for controlling combustible gases following a LOCA shall consist of a combustible gas control system, such as recombiners, that does not result in a singificant release from containment.

(f) For facilities with respect to which the notice of hearing on the application for a construction permit was published between December 22, 1968, and November 5, 1970, if the incremental radiation dose from purging (and repressurization if a repressurization system is provided) occurring at all points beyond the exclusion area boundary after a postulated LOCA calculated in accordance with § 100.11(a)(2) of this chapter is less than 2.5 rem to the whole body and less than 30 rem to the thyroid, and if the combined radiation dose at the low population zone outer boundary from purging and the postulated LOCA calculated in accordance with § 100.11(a)(2) of this chapter is less than 25 rem to the whole body and less than 300 rem to the thyroid, only a purging system is necessary, provided that the purging system and any filtration system associated with it are designed to conform with the general requirements of Criteria 41, 42, and 43 of Appendix A to this part. Otherwise the facility shall be provided with another type of combustible gas control system (a repressurization system is acceptable) designed to conform with the general requirements of Criteria 41, 42, and 43 of Appendix A to this part. If a purge system is used as part of the repressurization system, the purge system shall be designed to conform with the general requirements of Criteria 41, 42, and 43 of Appendix A to this part. The containment shall not be repressurized beyond 50 percent of the containment design pressure.

(g) For facilities with respect to which the notice of hearing on the application for a construction permit was published on or before December 22, 1968, if the combined radiation dose at the low population zone outer boundary from purging (and repressurization if a repressurization system is provided) and the postulated LOCA calculated in accordance with § 100.11(a)(2) of this chapter is less than 25 rem to the whole body and less than 300 rem to the thyroid, only a purging system is necessary, provided that the purging system and any filtration system associated with it are designed to conform with the general requirements of Criteria 41, 42, and 43 of Appendix A to this part. Otherwise, the facility shall be provided with another type of combustible gas control system (a repressurization system is acceptable) designed to conform with the general requirements of Criteria 41, 42, and 43 of Appendix A to this part. If a purge system is used as part of the repressurization system, it shall be designed to conform with the general requirements of Criteria 41, 42, and 43 of Appendix A to this part. The containment shall not be repressurized beyond 50 percent of the containment design pressure.

(h) As used in this section:

(1) Degradation, but not total failure, of emergency core cooling functioning means that the performance of the emergency core cooling system is postulated, for purposes of design of the combustible gas control system, not to meet the acceptance criteria in § 50.46 and that there could be localized clad melting and metal-water reaction to the extent postulated in paragraph (d) of this section. The degree of performance degradation is not postulated to be sufficient to cause core meltdown.

(2) A combustible gas control system is a system that operates after a LOCA to maintain the concentrations of combustible gases within the containment, such as hydrogen, below flammability limits. Combustible gas control systems are of two types: (i) Systems that allow controlled release from containment, through filters if necessary, such as purging systems and repressurization systems, and (ii) systems that do not result in a significant release from containment such as recombiners.

(3) A purging system is a system for the controlled release of the containment atmosphere to the environment through filters if needed.

(4) A repressurization system is a system used to dilute the concentration of combustible gas within containment by adding inert gas or air to the containment. Dilution of the combustible gas results in a delay in time until a flammable concentration is reached and permits fission product decay. Operation is limited to a containment repressurization to 50 percent of the containment design pressure. A purging system is normally part of the repressurization system.

(Sec. 161, as amended, Pub. L. 83-703, 68 Stat. 948 (42 U.S.C. 2201); Sec. 201, as amended, Pub. L. 93-438, 88 Stat. 1242, Pub. L. 94-79, 89 Stat. 413 (42 U.S.C. 5841).)

Dated at Washington, D.C. this 23d day of October 1978.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

Title 14—Aeronautics and Space

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-1078, Amdt. 11]

PART 250—OVERSALES

Advertising Disclosure of Noncompliance With Oversale Rules

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., October 20, 1978.

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The Board is adopting a rule requiring U.S. carriers, operating internationally, and foreign route air carriers that have not filed tariffs implementing the Board's new rules for

compensating bumped passengers to include in any advertisement the fact that they have not conformed to U.S. Government rules for consumer protection on oversold flights.

DATES: Effective: November 11, 1978. Adopted: October 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Jacob Goldberg, Trial Attorney, Bureau of Pricing and Domestic Aviation, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5019.

SUPPLEMENTARY INFORMATION: By ER-1050 (43 FR 2477, June 5, 1978), the Board revised part 250 of its rules for the protection of passengers on oversold flights (14 CFR Part 250). The principal requirements of the new rules are: Air carriers must (1) minimize the number of passengers involuntarily denied boarding, by, among other things, requesting volunteers for denied boarding before bumping any passengers against their will; (2) pay increased levels of compensation to involuntarily bumped passengers; and (3) give greater public notice of the boarding procedures used by carriers in the event of overbooked flights. Carriers were required to file tariffs implementing the rules by July 20, 1978, and the rules became effective on September 3, 1978.[1]

By Notice of proposed rulemaking, EDR-363 (43 FR 39806, Sept. 7, 1978), docket 33348, the Board stated that a number of carriers engaged in foreign air transportation, particularly foreign air carriers, had not filed the tariff rules required by the revised part 250. Accordingly, the Board proposed to add a new § 250.12 to its overbooking rules, requiring every carrier engaged in foreign air transportation that does not have on file the requisite tariff rules to include prominently and clearly in any advertisement placed in any printed publication, or on radio or television circulated, heard or carried in the United States, its territories, and possessions, a statement that the carrier does not conform to U.S. Government rules for consumer protection on oversold flights. Additionally, each such carrier would be required to include the same notice with each ticket sold by it or its agents in the United States, its territories and possessions; and would have the responsibility to insure that travel agents authorized to sell air transportation for it give the same notice.

Comments on EDR-363 have been filed by seven foreign air carriers,[2] Aviation Consumer Action Project (ACAP), and the Department of State. After considering these comments, we have decided to make the proposed rule final.

ACAP generally supports the proposed rule. The comment from the State Department includes a diplomatic note from the British Government objecting to EDR-363 on the ground that Bermuda II [3] prohibits the Board from requiring British air carriers to file any particular form of tariff.[4] The State Department agrees with this interpretation of Bermuda II, but expressly refrains from acknowledging that the requirement of EDR-363 constitutes a tariff under that agreement. The State Department does agree that a rule along the lines proposed would be in the public interest. The foreign carriers generally contend that they have complied with part 250 by filing tariffs effective as of September 3, 1978, covering flights departing from the United States for foreign countries; but they state that flights departing foreign countries for the United States are subject to the denied boarding tariffs or rules of the foreign country only. They add that their governments object to the extraterritorial effect of part 250, and that some of the governments have delivered diplomatic notes to the Department of State requesting consultations.

The Board rejected similar contentions when part 250 was first given extraterritorial effect by ER-880, August 13, 1974 (39 FR 38087); and again by ER-1050. The Board made it plain in ER-880 that part 250 would also extend to confirmed reserved space, verified in the United States, for a passenger inbound on a foreign air carrier to the United States from a foreign country:

> The reasons why persons whose inbound trips to the United States have been confirmed in the United States should be protected, even though utilizing a foreign air carrier, far outweigh the cost and inconvenience alleged by some of the foreign air carriers. For the most part, we are balancing the interests of United States nationals utilizing confirmed round trip bookings as against foreign air carriers which have complete control of their own reservation practices, and we believe the scales incline in favor of the former.

In adopting ER-1050, the Board reaffirmed that its overbooking rules "should be given the same extraterritorial application as our existing oversale regulations:"

> • • • the arguments now raised in opposition to applying our oversale regulations to international operations are essentially the same as those raised and rejected when part 250 was first given extraterritorial effect, in order to extend an umbrella of protection to U.S. travelers abroad. (Footnote omitted.)

These same foreign air carriers have been complying with part 250 since 1975,[5] thus indicating that compliance does not present the kinds of difficulties that they are now alleging.

We do not reach the question of whether Bermuda II or other bilaterals allow the Board unilaterally to require the filing of any particular tariff. Like all sovereign states,[6] the United States has the power to regulate its marketplace to eliminate practices unfair to consumers making purchases in it, to provide consumers with information adequate to support intelligent choices, and to require foreign sellers who wish to do business in the market to conform to domestic laws. The relevant sections of our act give this responsibility in air transportation markets to the Board. Our laws make no distinction in this respect between inbound and outbound international transportation, nor is one required. Part 250 is designed to protect consumers from unfair reservations practices.

Beyond these considerations, the disclosure rule we are adopting here regulates conduct in the U.S. marketplace only and is designed to afford consumers there adequate notice with respect to sales and service practices of considerable importance to them. We do not read Bermuda II or other bilateral agreements as preventing the Board from applying consumer protection rules in foreign air transportation as defined in our statutes, and we do not consider part 250 to be a tariff matter within the context of Bermuda II or other bilaterals. And we cannot accept the contention that regulating advertising and sales practices within the United States to insure adequate disclosure to consumers (an activity undertaken by domestic authorities in most if not all of the home States of the complaining airlines)[7] is any more precluded by bilateral tariff agree-

[1] By order 78-9-6, Sept. 1, 1978, the Board waived the requirements, until further order of the Board, of § 250.3(b) of part 250 dealing with the tariff filing of boarding priority rules and criteria. The same order waived for a period of 30 days the requirements of part 250 insofar as they apply on flights from a foreign point to a point in the United States, provided that any carrier availing itself of this waiver continue to apply the provisions of part 250 in effect on Sept. 2, 1978.

[2] Air Canada (joined by CPAir), Air France, Alitalia, British Airways, British Caledonian, Lufthansa, and Swissair.

[3] United States-United Kingdom Air Services Agreement of July 23, 1977.

[4] The State Department also has delivered a note from the Embassy of Switzerland objecting to the proposed rule on the principal ground that the Board has no authority to impose tariff regulations unilaterally.

[5] See ER-890, Dec. 17, 1974 (39 FR 44197), which extended the effective date of ER-880 to Mar. 1, 1975.

ments than are laws respecting commercial credit transactions, consumer fraud, or racial discrimination in sales.[8]

Several carriers raise section 1102[9] of the act as a barrier. A similar contention was rejected by the Board in ER-880:

> Similarly, the argument that the extension of part 250 to foreign air carriers would unilaterally alter various bilateral agreements in contravention of section 1102 cannot be accepted.
>
> . . . . .
>
> While the agreements do not contemplate unilateral alterations in the air transport rights bargained for and agreed upon, they do contemplate that such rights be exercised in accordance with nondiscriminatory laws and rules applicable to all air carriers, whether foreign or domestic. Neither the bilaterals nor section 1102 have been breached.

The issue here, however, is how to fashion a remedy to be applied to those carriers which have failed to conform to ER-1050. Turning to the specific rule proposed by EDR-363, several of the carriers contend that section 411 of the Act entitles them to a hearing, and that the Board must issue a cease and desist order before imposing such remedial action. The reliance on section 411 is misplaced. This rulemaking is not a proceeding to determine if a carrier is engaged in unfair or deceptive practices or unfair methods of competition. It was only when we discovered that many carriers engaged in foreign air transportation had failed to conform to ER-1050 that we decided to issue the proposed rule.[10] The problem here requires use of rulemaking procedures; which have general applicability, and not independent enforcement procedures for action against one carrier.

Finally, turning to the specific remedy, several of the foreign air carriers complain that requiring notice of noncompliance is disproportionate to the problem sought to be alleviated. These carriers do, however, advertise in the United States, urging the public to make reservations for confirmed space. At the same time, they engage in overbooking, which results in the "bumping" of passengers who have been led to believe that they have a confirmed seat on the flight of their choice, and have made arrangements on that assumption. Although ER-1050 did not prohibit overbooking altogether, it did attempt to ameliorate the often severe effect of that practice on some travelers. Inasmuch as these foreign air carriers use the newpapers, radio, and television in the Untied States to advertise their services, it is only fair that the same media be used to add the further fact that if a confirmed passenger is bumped, the protection and remedies afforded by part 250 may not be available because of the carrier's failure to conform to part 250. They also argue that the notice required by EDR-363 goes beyond "corrective advertising."[11] The argument that "corrective advertising" can be required only to correct previous false and misleading statements stretches form over substance. At the very least, the Board can require "corrective advertising" to be carried alongside the very advertisement that, without the corrections, would be false and misleading.

Since as part 250 is now effective, and given the widespread publicity and public information about the denied boarding compensation rules, passengers can be expected to rely on carrier observance of Board regulations established for their protection. To avoid surprise and confusion on their part, and to avoid their being misled, we consider it necessary to require nonconforming carriers to so notify consumers in the advertisements by which they solicit the patronage of the public.

As we stated in EDR-363, since the revised part 250 is now effective, it is important to alert the traveling public as to the actual reservations and boarding practices prevailing in the industry. We therefore gave notice in EDR-363 of our intent to make the final rule effective upon adoption. We continue to believe that an early effective date is in the public interest, but we have decided to allow 15 days so that affected carriers will have time to change their advertising in accordance with this rule. Therefore, we find good cause that the rule may become effective 15 days after publication in the FEDERAL REGISTER.

Accordingly, part 250 of the Board's Economic Regulations (14 CFR 250) is amended as follows:

1. We amend the table of contents by adding a new § 250.12 identified to read:

Sec.

. . . . .

250.12 Public disclosure of noncompliance with rules for consumer protection on oversold flights.

2. We add a new § 250.12 to read:

§ 250.12 Public disclosure of noncompliance with rules for consumer protection on oversold flights.

(a) Every carrier engaged in foreign air transportation the does not have on file with the Board tariffs conforming with §§ 250.3 and 250.4 shall include prominently and clearly in any advertisement placed in any printed publication, or on radio or television circulated, heard, or carried in the United States, its territories and possessions, the following statement:

> We do not conform to U.S. Government rules for consumer protection on oversold flights.

(b) Each such carrier shall include with each ticket sold by it or its agents in the United States, its territories, and possessions that notice set forth in paragraph (a) of this section. This statement shall be printed on a separate piece of paper and inserted with the ticket in the ticket envelope.

(c) It shall be the responsibility of each such carrier to insure that travel agents authorized to sell air transportation for that carrier comply with the provisions of paragraph (b) of this section.

(Secs. 204, 403, 404, 411, Federal Aviation Act of 1958, as amended; 72 Stat. 743, 758, 760, and 769 (49 U.S.C. 1324, 1373, 1374, and 1381).)

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

Title 17—Commodities and Securities Exchanges

CHAPTER I—COMMODITY FUTURES TRADING COMMISSION

PART 140—ORGANIZATION, FUNCTIONS, AND PROCEDURES OF THE COMMISSION

Vacancy in Position of Chairman

AGENCY: Commodity Futures Trading Commission.

ACTION: Final rule.

SUMMARY: The Commodity Futures Trading Commission is adding a new section to subpart B, part 140, title 17 of the Code of Federal Regulations.

Currently, the Commission has no policy concerning who shall exercise the Chairman's administrative authority in the event that a vacancy exists in that position. The new § 140.13 will authorize the election by the Commission of one of its members, at any time that a vacancy exists, to exercise the executive and administrative functions of the Commission that would otherwise be exercised by a Chairman in accordance with section 2(a)(6) of the Commodity Exchange Act, as amended.

EFFECTIVE DATE: October 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Nancy A. Petranto, Office of General Counsel, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581, telephone 202-254-7588.

SUPPLEMENTARY INFORMATION: On July 7, 1976, the Commission adopted subpart B, 17 CFR part 140, consisting of § 140.10, setting forth the general statutory composition of the Commission, and § 140.11, providing, in the absence of a quorum of the Commission, that the senior member of the Commission present in Washington, D.C., at the time an emergency situation arises may act on behalf of the Commission. 41 FR 28473 et seq. (July 12, 1976). Neither of these provisions, however, address the question who shall perform the day-to-day administrative and executive functions of the Commission when a vacancy exists in the chairmanship of the Commission.

The new § 140.13, which will be effective immediately upon publication, provides that at any time that a vacancy exists in the position of Chairman, the members of the Commission shall elect a member to serve as acting Chairman to exercise the administrative and executive functions of the Commission that would otherwise be exercised by a Chairman in accordance with section 2(a)(6) of the Commodity Exchange Act, as amended. If the President should appoint a new Chairman from among the existing members of the Commission, however, the rule will further provide that that Commissioner shall serve as acting Chairman until such time as his appointment as Chairman has been confirmed or rejected by the Senate.

The Commission finds that the foregoing action relates solely to agency practice and procedure and that the public procedures and publication prior to the effective date of the rules in accordance with the Administrative Procedure Act, as codified, 5 U.S.C. 553, are not required.

Pursuant to authority contained in section 2a(11) of the Commodity Exchange Act, as amended, 7 U.S.C. 4(a)(j) (1976), the Commodity Futures Trading Commission hereby adopts a new § 140.13 of subpart B of part 140 of chapter I of title 17 of the Code of Federal Regulations as set forth below.

§ 140.13 Vacancy in position of Chairman.

At any time that a vacancy exists in the position of Chairman of the Commission the remaining members of the Commission shall elect a member to serve as acting Chairman who shall exercise the executive and administrative functions of the Commission that would otherwise be exercised by a Chairman in accordance with section 2(a)(6) of the Commodity Exchange Act, as amended, until a new Chairman has been appointed by the President and confirmed by the Senate: *Provided, however,* That if the President shall appoint a new Chairman from among the existing members of the Commission, that Commissioner shall serve as acting Chairman for these purposes until such time as his appointment as Chairman has been confirmed or rejected by the Senate.

Issued in Washington, D.C., on October 24, 1978, by the Commission.

WILLIAM T. BAGLEY,
Chairman, Commodity Futures Trading Commission.

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL ENERGY REGULATORY COMMISSION

PART 154—RATE SCHEDULES AND TARIFFS

Modification of Purchased Gas Cost Adjustment Clause Regulations

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule (order No. 13 issued in docket No. R-406).

SUMMARY: This order amends the Federal Energy Regulatory Commission's purchased gas cost adjustment (PGA) clause regulations to limit to two a year the number of purchased gas cost adjustment rate filings an interstate pipeline may make and to allow these pipelines to accrue and collect carrying charges on amounts carried in their deferred purchased gas cost accounts. The number and frequency of PGA filings caused by constantly rising costs have reached such magnitude that they impose an undue financial and administrative burden on all affected parties. The rule is intended to relieve that burden.

EFFECTIVE DATE: January 1, 1979.

FOR FURTHER INFORMATION CONTACT:

Charles E. Bullock, Office of the General Counsel, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, 202-275-4232.

SUPPLEMENTARY INFORMATION:

BACKGROUND

Section 154.38(d) of title 18 of the Code of Federal Regulations (CFR), permits natural gas pipeline companies to include a purchased gas adjustment provision (PGA clause) in their FERC gas tariffs under certain specified conditions. The Federal Power Commission (FPC) initially decided to permit PGA clauses in order to avoid frequent consideration of rate increase filings caused by constantly rising costs of purchased gas. It now appears that the number and frequency of PGA filings have reached such magnitude that they impose an undue financial and administrative burden upon the pipeline companies, their customers, the staff of the Federal Energy Regulatory Commission (Commission), the State commissions, and the ultimate consumers.

On May 10, 1976, the FPC[1] issued a notice of proposed rulemaking, docket No. R-406, which proposed to limit the number of filings of future PGA clause rate changes to two per year, and prescribe semiannual filing dates for each pipeline company. The proposal was intended to relieve all affected parties of the tremendous burden created by the current system of PGA filings. Recognizing that the semiannual limitation would force pipeline companies to carry larger balances of deferred purchased gas costs, the Commission also indicated that it would consider rate base treatment or carrying charges for the deferred amounts.

In response to requests for reconsideration of the assigned dates, a conference was held on January 11, 1977. A revised schedule of semiannual effective dates was established.[2] On April 26, 1977, a notice for further comments was issued. Comments were due by May 11, 1977. Nine parties filed comments at that time.

SUMMARY OF COMMENTS

A total of 47 parties filed comments to the notice of proposed rulemaking and the notice for further comments. All but a few supported the limitation

[1] In fact, the Board's earlier rulemaking in ER-987 (42 FR 12420), amending pt. 221 to require disclosure to consumers of overbooking practices for persons buying tickets in the United States, received support from many foreign air carriers operating in U.S. air transportation, including more than one of the carriers objecting here.

[9] Sec. 1102 in pertinent part provides that in exercising its powers, the Board shall do so consistently with any obligation assumed by the United States in any treaty, convention, or agreement with any foreign country.

[10] It should be noted that EDR-363 applies to both U.S. flag carriers and foreign air carriers engaged in foreign air transportation.

[11] Citing *Warner Lambert Co. v. F.T.C.*, 562F. 2d 749 (CADC 1977).

[1] This proceeding was commenced before the FPC. By the joint regulation of October 1, 1977 (10 CFR 1000.1), it was transferred to the FERC. The term "Commission" when used in the context of action taken prior to October 1, 1977, refers to the FPC; when used otherwise, the reference is to the FERC.

to two filings per year. More than half of the commentators that expressed support for the proposal indicated, however, that they could not support it unless carrying charges for the deferred balances were allowed. Most of the commentators further indicated that:

(1) Carrying charges rather than rate base treatment should be adoped for any deferred balance; and

(2) Exceptions from the semiannual filing limitation should be allowed so that purchasing pipelines can simultaneously track general section 4(e) filings of their pipeline suppliers and changes in the cost of Canadian gas.

The Interstate Natural Gas Association of America (INGAA) supports carrying charges over rate base treatment for the following reasons:

(1) A carrying charge is fair because it is computed on the actual deferred balance;

(2) The pipeline is protected because it receives reimbursement for the substantial carrying costs it incurs;

(3) The pipeline customers are protected because the carrying charge is computed on the actual amount carried and the customers receive credit for interest if overcollections result;

(4) This method is easier to administer.

INGAA opposes rate base treatment because of the difficulty in accurately projecting the balance in the deferred account and the regulatory lag involved.

Many commentators suggested specific methods of allowing carrying charge rates. The suggestions included allowing carrying charges equal to:

(1) The rate of return included in the effective rate of the pipeline;

(2) The short-term borrowing rate available to the pipeline in the then current borrowing market; or

(3) The interest rate on amounts to be refunded that is prescribed by the Commission.

The American Public Gas Association (APGA) favored the two filings per year proposal but opposed any form of relief on the deferred balances. APGA argues that PGA clauses deviate from the general ratemaking principle that a utility not be permitted to reflect an increase in one item of cost without reviewing that utility's other costs and its total revenues. Thus, APGA states the "two a year" proprosal should be adopted because it limits the alleged deviation of the PGA clause from the aforementioned ratemaking principle. However, for the same reason (i.e., the deviation), APGA argues that carrying charges should not be adopted because they further aggravate the problems purportedly caused by PGA clauses.

The notice of proposed rulemaking included a suggestion that supplier pipelines should make extra efforts to provide information on proposed rate levels to their purchasers who must make concurrent PGA filings. One commentator expressed the opinion that this suggestion should be incorporated as a requirement.

The proposal was opposed by one commentator. That commentator stated that implementation of the proposal would concentrate purchased gas costs during certain periods and cause an intensified impact on the consumer. The commentator also states the proposal would result in an inequitable distribution of costs among customers since the proposal would allow the gas to be used in one season and paid for in the next. Finally, the commentator states that the proposal would create a financial burden on intermediate pipelines.

Several commentators originally expressed concern with the suggested schedule of effective dates. The January 11, 1977, conference was held in response to this concern and a revised schedule was subsequently adopted to incorporate the suggestions made in the meeting.

Findings of the Commission

The Commission finds that due to the higher number of PGA filings it is receiving and processing, pipeline companies should be limited to two PGA filings annually, pursuant to the attached schedule in appendix A, and that carrying charges should be allowed. The Commission is not persuaded that implementation of this rule will result in inequitable distribution of purchased gas costs among a pipeline's customers. To the contrary, by reducing the number of PGA filings the rule should tend to result in a more equitable distribution of costs.

The parties' argument that carrying charges are preferable to rate base treatment of the deferred account are persuasive. While the Commission has allowed a number of pipeline companies carrying charges, these were allowed only in individual rate cases where a strong showing was made in support thereof. The support included a showing of large and recurring deferred balances. The Commission's experience gained during the 6 years PGA clauses have been permitted in pipeline company tariffs indicates that carrying charges should be provided for deferred purchased gas balances for all interstate pipelines. For example, deferred purchased gas costs recorded by major class A and B companies at the end of calendar year 1972 through 1976 are as follows: (1) 1972—$29,470,000; (2) 1973—$137,244,000; (3) 1974—$226,434,000; (4) 1975—$116,956,000; and (5) 1976—$570,050,000.[3]

Additionally, the 1977 form 2's of the 18 largest companies indicate recorded deferred purchased gas cost balances at December 31, 1977, of $558 million. The rapid buildup in these balances over the 6-year period, especially balances in excess of one-half billion dollars the last 2 years, indicates a substantial economic burden on the industry. Fairness dictates that some form of compensation be permitted on the deferred balances. The carrying charges shall be limited to the charge prescribed for interest on refunds under § 154.67(c).

In response to the APGA comments discussed previously, neither the PGA clause itself nor the carrying charge proposal violates the principle that rate adjustments must be premised upon a showing that all costs rather than just one item of cost justify the rate adjustment.[4] For example, § 154.38(d)(4)(vi) requires a cost of service review of the pipeline's overall rates at least every 3 years. In addition, given the large increases in purchased gas costs which have flowed through the various PGA clauses since 1972, it is very probable that, absent the PGA clause, this Commission's dockets would have been clogged with numerous general section 4 pipeline rate filings made pursuant to § 154.63 as pipelines attempted to protect themselves against possible undercollections due to increasing purchased gas costs. Thus, contrary to the implication contained in APGA's comments, PGA clauses have been of benefit to pipelines and consumers. However, in spite of the PGA clause's avowed purpose to insure dollar for dollar collection of PGA costs, pipelines have experienced large amounts of undercollections being accrued in the deferred account which are recoverable, after a delay, by way of subsequent surcharges. Given the benefits of the PGA to all concerned, and given the financial problems that could result to pipelines as their balances increase due to changes in purchase pattern, as well as the impact of the "two a year" proposal adopted in this order, we find again that the carrying charges proposed in this order are sound regulatory practice and should be adopted.

The Commission recognizes that the deferral of purchased gas cost creates a timing difference between the period during which the gas cost enters into the determination of taxable income and the period during which the cost enters into the determination of pretax book income. This timing difference has the effect of reducing a company's net outlays for unrecovered gas costs when the Account 191 balances are positive and conversely increasing its outlay for income taxes when the Account 191 balances are negative. Accordingly, in compliance with the provisions of FPC Orders 530 (40 FR 26987) and 530B, we shall therefore require that in order for a company to be eligible for carrying charges, the company adopt the principles of interperiod income tax allocation in connection with balances recorded in the unrecovered purchased gas cost account with the resulting tax effects to be recorded in Account 283, Accumulated deferred income taxes—Other, or Account 190, Accumulated deferred income taxes, as appropriate, in accordance with the provisions of those accounts (18 CFR Parts 201 and 204). The carrying charges shall be computed monthly on the net balances in Account 191 and the related amounts in Account 283 or 190 as appropriate as of the end of the immediately preceding month.

The Commission also finds that there should be no exceptions to the two PGA filings per year limitation. Allowing exceptions would increase the frequency of PGA filings and would reduce the effectiveness of this rulemaking. While some cash-flow problems may occur to those companies carrying large deferred balances, the implementation of carrying charges should effectively compensate pipelines for the time value of the amounts carried in the deferred account and thus protect the financial integrity of the pipeline. It is appropriate, at this point, to refer to a proposed rulemaking, in docket No. RM79-1 (published elsewhere in today's issue) which, if adopted, would require pipelines to elect to reflect changes in purchased gas costs either through a PGA clause, or through general rate filings made pursuant to § 154.63. The purpose of the proposal is to limit the ways that purchased gas costs can be recovered. If a pipeline elects to adopt or maintain a PGA clause, it will be precluded from reflecting changes in purchased gas costs in a general rate adjustment filing pursuant to § 154.63. The election will be for 3 years unless the pipeline can demonstrate good cause, as described more fully in the notice, to justify the grant of a waiver of the PGA clause election by the Commission.

There are five pipeline companies which file annual PGA rate adjustments.[5] Currently they are permitted to file annually and to reflect those supplier rate changes for the forthcoming year that are already known. This procedure was permitted in order to facilitate the recovery of purchased gas costs by the distribution customers. The companies will not be required to file semiannual PGA rate changes but will be allowed to continue annual adjustments, as provided in their present tariffs, provided that they make no more than two PGA filings a year. These companies will be allowed carrying charges consistent with the regulation.

For the smooth and effective execution of this order, it is necessary that supplier pipelines provide information concerning their proposed adjustments to their purchasers who must make concurrent PGA filings. Such information should be provided at least 15 days prior to the filing date of the purchasing pipeline. The Commission intends to monitor the practices of pipelines in this regard, and, if it finds the information is not provided in a timely manner, the Commission will initiate a rulemaking procedure prescribing the necessary procedures for providing the information.

To avoid possible complications for the affected pipelines, this rulemaking will become effective on January 1, 1979. Therefore, pipelines must file tariff sheets conforming their existing PGA clauses to these regulations on or before December 1, 1978, to become effective no earlier than and no later than January 1, 1979. After January 1, 1979, pipelines will not be permitted to reflect changes in purchased gas costs through PGA clauses unless they have PGA clauses in effect which conform to the provisions of the amendments promulgated in this order. Finally, pipelines shall also revise the effective dates for other approved rate adjustment provisions to comply with the PGA effective dates prescribed by this order.

Miscellaneous Comment

A few comments expressed concern about coordination between the Commission adjustment procedures and various states' adjustment procedures. The State of Kansas and the Public Service Co. of Colorado requested that the Commission refrain from granting retroactive approvals. In Kansas, it is alleged, a retroactive approval can cause distribution companies employing cycle billing to absorb the wholesale rate changes, sometimes only temporarily, since the State Corporation Commission requires FERC approval before a wholesale rate increase may be passed on to consumers. The Public Utility Co. of Colorado does not allow rate changes to become effective retroactively. Thus, it is stated, where a retroactive rate increase is approved by the FERC, the distribution company is forced to absorb it. Indiana Gas Co., Inc. (Indiana Gas) requested the Commission to adopt the policy of suspending PGA filings whenever action cannot be taken within 30 days. When more than 30 days lapses, Indiana Gas states that it is forced by State requirements to absorb the costs that arise between the effective date of the filing and the date of FERC approval.

This Commmission shares the concern of these parties that adequate notice be given to distributors who must pass on FERC—approved purchased gas costs. In view of this, the Commission shall grant waiver of the 30 day notice requirement for all section 4 rate filings, including PGA filings, only where the pipeline has carried the burden of demonstrating good cause for such waiver.

The following suggestions were also made by various commentators:

(1) Offset the amounts in the carrying charges with the amounts which are subject to refund.

(2) Suspend the semiannual PGA filings due date when an adjustment falls within a test period contained in a pipeline's general rate increase.

(3) Exclude additional companies from the effect of the rulemaking.

In regard to No. 1 above, the suggestion assumes on its face that pipeline companies are not entitled to any funds collected subject to refund. This is an incorrect assumption and the Commission declines to adopt this suggestion. In regard to No. 2 above, the cost of purchased gas constitutes the largest single component of a pipeline company's cost of service and any deferral of a justified filing would unduly penalize the company and create administrative burdens upon its customers. For this reason, the Commission declines to adopt this suggestion. In regard to No. 3 above, the notice of proposed rulemaking recognized that certain pipeline companies already had effective PGA clauses that were consistent with the purpose of the proposal and suggested that such clauses should not be affected by this rulemaking. Finally, the Commission shall not adopt the suggestion to exclude more companies from the effect of this rulemaking.

Summary of the Amendments

Section 154.38(d)(4)(iv)(*a*) requires purchased gas adjustments to be filed semiannually and on the dates specified in this order.

Section 154.38(d)(4)(iv)(*b*) allows carrying charges on all balances in Account 191, provided the company adopts the principles of interperiod income tax allocation in connection with the balances recorded in the unrecovered purchased gas cost account. Carrying charges shall be equal to the current rate of interest on pipeline refunds established by the Commission.

Section 154.38(d)(4)(viii) requires the pipelines to file tariff sheets to conform their existing PGA clauses on or before December 1, 1978. These

(*b*) To assure recovery of all purchased gas costs, the Commission has prescribed a deferred purchased gas cost account, "Account 191, Unrecovered Purchased Gas Costs," 18 CFR Part 201, Balance Sheet Accounts, 191 and "Account 731.1, Purchased Gas Cost Adjustments," 18 CFR Part 201, Balance Sheet Accounts, 731.1. Pipelines using deferred accounting procedures shall be subject to the provisions of these accounts. In order to qualify for carrying charges, the company is required to adopt the principles of interperiod income tax allocation in connection with the balances recorded in the unrecovered purchased gas cost account.

(*c*) Carrying charges shall be computed based on the ending balances in Account 191, exclusive of accumulated interest each month. Interest will not be compounded. The rate for computation of carrying charges shall be the current rate of interest on pipeline refunds established by the Commission. Carrying charges shall be debited to Account 191 if the ending balance in Account 191 for the month is positive and shall be credited to Account 191 if the ending balance is negative. The carrying charges shall be computed monthly on the net balances in Account No. 191 and the related amounts in Account Nos. 283 or 190, as appropriate, as of the end of the immediately preceding month.

* * * * *

(viii) Pipelines must file tariff sheets pursuant to this part to conform their existing PGA clauss on or before December 1, 1978, which shall become effective as of January 1, 1979. After January 1, 1979, a pipeline shall not be permitted to track changes in purchased gas costs under a PGA clause unless the PGA clause in effect at that time conforms to the rule promulgated in Order No. 13.

Title 19—Customs Duties

CHAPTER I—U.S. CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 78-408]

PART 159—LIQUIDATION OF DUTIES

Carbon Steelplate and High Strength Steelplate From Mexico—Revocation of Countervailing Duty Determination

AGENCY: U.S. Customs Service, Treasury Department.

ACTION: Revocation of countervailing duty determination.

SUMMARY: This notice is to advise the public that the countervailing duty determination on carbon steelplate and high strength steelplate from Mexico is being revoked because the subsidies paid to exporters of this merchandise have been eliminated and there is no likelihood of resumption.

EFFECTIVE DATE: October 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles F. Goldsmith, Economist, Office of Tariff Affairs, U.S. Department of the Treasury, 15th Street and Pennsylvania Avenue NW., Washington, D.C. 20220, telephone 202-566-2323.

SUPPLEMENTARY INFORMATION: A notice entitled "Countervailing Duties—Carbon Steelplate and High Strength Steelplate from Mexico," T.D. 76-7, was published in the FEDERAL REGISTER of January 7, 1976 (41 FR 1273). The notice stated that it had been determined that exports of carbon steelplate and high strength steelplate from Mexico were subject to bounties or grants, within the meaning of section 303 of the Tariff Act of 1930, as amended (19 U.S.C. 1303), by virtue of the freight rate rebate provided to Mexican steel manufacturers who shipped to geographical zones along border areas. Virtually all such shipments were destined for export; therefore, the rebate was determined to constitute a bounty or grant. Accordingly, imports of carbon steelplate and high strength steelplate from Mexico were subject to countervailing duties.

Concurrent with the above determination, a notice entitled "Waiver of Countervailing Duties," T.D. 76-8, concerning the subject merchandise was published in the FEDERAL REGISTER (41 FR 1273).

Treasury has been informed that the reduced freight rates for the subject merchandise have been ended. Accordingly, it is determined that a bounty or grant within the meaning of section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303), is no longer being paid or bestowed upon the manufacture, production, or exportation of carbon steelplate and high strength steelplate from Mexico, and that there is no likelihood of resumption of the payment or bestowal of a bounty or grant on such merchandise.

T.D. 76-7 is hereby revoked with respect to all entries of dutiable carbon steelplate and high strength steelplate from Mexico which have not been liquidated, or the liquidation of which has not become final, on or after October 27, 1978. Customs officers will be instructed to proceed with liquidation of all such entries without regard to countervailing duties.

The table in § 159.47(f) of the Customs regulations (19 CFR 159.47(f)), is amended by deleting from the column headed "Country," the name "Mexico"; from the column headed "Commodity," the words "Carbon steel and high strength steelplate"; from the column headed "Treasury Decision," the numbers "76-7" and "76-8"; and from the column headed "Action," the words "Bounty declared-rate" and "Imposition of countervailing duties waived." (R.S. 251, sections 303, as amended, 624, 46 Stat. 687, 759, 88 Stat. 2049, 19 U.S.C. 66, 1303, as amended, 1624.)

Pursuant to Reorganization Plan No. 26 of 1950 and Treasury Department Order 190, Revision 15, March 16, 1978, the provisions of Treasury Department Order No. 165, Revised, November 2, 1954, and § 159.47 of the Customs regulations (19 CFR 159.47), insofar as they pertain to the issuance of a revocation order by the Commissioner of Customs, are hereby waived.

ROBERT H. MUNDHEIM,
General Counsel of the Treasury.

OCTOBER 23, 1978.

Title 20—Employees' Benefits

CHAPTER VI—EMPLOYMENT STANDARDS ADMINISTRATION, DEPARTMENT OF LABOR

SUBCHAPTER A—LONGSHOREMEN'S AND HARBOR WORKERS' COMPENSATION ACT AND RELATED STATUTES

PART 702—ADMINISTRATION AND PROCEDURES

Office of Workers' Compensation Programs; Longshoremen's and Harbor Workers' Compensation

AGENCY: Employment Standards Administration, Labor.

ACTION: Final rule.

SUMMARY: One new compensation district is added and the boundaries of another are altered for the purpose of better serving the public and for improved administration of the Longshoremen's and Harbor Workers' Compensation Act.

DATE: This admendment shall be effective October 27, 1978.

FOR FURTHER INFORMATION CONTACT:

John D. Stocker, Associate Director for Longshore and Harbor Workers' Compensation, U.S. Department of Labor, Washington, D.C. 202-523-8721

SUPPLEMENTARY INFORMATION: This document changes compensation districts under § 702.101 of part 702, title 20 of the Code of Federal Regulations, establishing compensation districts pursuant to section 39(b) of the Longshoremen's and Harbor Workers' Compensation Act and its extensions.

The boundaries of the existing district 13 are revised as follows: That part of the State of California north of the northern boundaries of the counties of San Luis Obispo, Kern, and San Bernardino, and the States of Arizona and Nevada. The headquarters city remains San Francisco. District 18 is established and is comprised of that part of the State of California south of the northern boundaries of the counties of San Luis Obispo, Kern, and San Bernardino. The headquarters city is Long Beach.

The regulations at 20 CFR § 704.101, § 704.201, § 704.301, and § 704.401 are unchanged by this amendment. The authority for issuance of this part is revised to reflect a new delegation of authority.

Accordingly part 702 is amended as follows:

1. The authority for the issuance of this part is revised to read as follows:

AUTHORITY: 5 U.S.C. 301; Reorganization Plan No. 6 of 1950, 15 FR 3174, 64 Stat. 1263; 33 U.S.C. 939; 42 U.S.C. 1651 et seq; 36 D.C. Code 501 et seq.; 43 U.S.C. 1331; 5 U.S.C. 8171 et seq.; Secretary of Labor's Order 16-75, 40 FR 55913, Employment Standards Order 78-1, September 28, 1978.

2. Section 702.101 is amended as follows:

§ 702.101 Establishment of compensation districts

* * * * *

District No. 13. Comprises the States of Arizona, Nevada, and that part of the State of California north of the northern boundaries of the counties of San Luis Obispo, Kern, and San Bernadino; with headquarters at San Francisco, Calif.
District No. 14.* * *
District No. 15.* * *
District No. 16. [Reserved.]
District No. 17. [Reserved.]
District No. 18. Comiprises that part of the State of California south of the northern boundaries of the counties of San Luis Obispo, Kern, and San Bernadino; with headquarters in Long Beach, Calif.

Signed at Washington, D.C., this 20th day of October 1978.

DONALD ELISBURG,
Assistant Secretary for Employment Standards.

[FR Doc. 78-30470 Filed 10-26-78; 8:45 am]

[4510-27-M]

SUBCHAPTER B—FEDERAL MINE SAFETY AND HEALTH ACT OF 1977, AS AMENDED

PART 725—CLAIMS FOR BENEFITS UNDER PART C OF TITLE IV OF THE FEDERAL MINE SAFETY AND HEALTH ACT, AS AMENDED

Black Lung Benefits Program

AGENCY: Employment Standards Administration, Department of Labor.

ACTION: Amendment to regulations.

SUMMARY: On August 18, 1978, in FR Document 78-23004, standards for processing, adjudication, and payment of claims for benefits under the Black Lung Benefits program were published in the FEDERAL REGISTER. The Department of Labor has been advised that part B miner-beneficiaries (the miner is receiving compensation benefits from the Social Security Administration) have failed to file claims for part

C medical benefits with the Labor Department. Part B miner-beneficiaries

§ 725.308 Time limits for filing claims.

[Docket No. R-78-535]

§ 201.9 Refinancing.

industry (Pub. L. 94-29, 89 Stat. 140); and permits the subject of an identifi-

PART 16—PRODUCTION OF DISCLOSURE OF MATERIAL OR INFORMA-

V 43 / 209 OCT 27 78

C medical benefits with the Labor Department. Part B miner-beneficiaries were advised by the Department of Health, Education, and Welfare on May 3 and 4, 1978, that they had the right to file for part C benefits. As there seems to be a misunderstanding among the claimant population regarding their rights to claim benefits, the Department is amending § 725.308(b) and § 725.701A(a). There was a 6-month limitation on filing claims under part C for medical benefits. This rule extends the time period until June 30, 1979.

EFFECTIVE DATE: This amendment is effective on October 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert B. Dorsey, Chief, Branch of Claims Determination, Division of Coal Mine Workers' Compensation, U.S. Department of Labor, Room C-3526, 200 Constitution Avenue NW., Washington, D.C. 20210, telephone 202-523-6727.

SUPPLEMENTARY INFORMATION: The Department of Health, Education, and Welfare notified all part B miner-beneficiaries of their right to file claims for part C medical benefits on May 3 and 4, 1978. The Department of Labor has been advised that many part B miner-beneficiaries have failed to file claims under section 11 of the Black Lung Benefits Reform Act of 1977 because they believe that an adverse decision on their claim for medical benefits may result in a termination of the right to continuing compensation benefits under part B of title IV of the Act. Although a part B miner-beneficiary's continued entitlement to such benefits cannot and will not be affected in any way by a decision on the claim for part C medical benefits, experience to date, as well as the review of materials circulated prior to the August 18, 1978, publication of the final regulations governing the processing of such claims, indicates that a misunderstanding does exist among the claimant population.

To insure that no otherwise eligible miner is deprived of the right to seek medical benefits, I find that it is in the public interest to amend the provisions of §§ 725.308(b) and 725.701A(a) to provide that claims for medical benefits under section 11 of the Reform Act may be filed up to and including June 30, 1979. I further find that since the current 6-month period will expire on or about November 3, 1978, that notice and public procedure on this amendment to the rules are contrary to the public interest.

Accordingly, 20 CFR Part 725 is amended as follows:

1. Paragraph (b) of § 725.308 is revised to read as follows:

§ 725.308 Time limits for filing claims.

• • • • •

(b) A miner who is receiving benefits under part B of title IV of the Act and who is notified by HEW of the right to seek medical benefits, may file a claim for medical benefits under part C of title IV of the Act and this part. The Secretary of Health, Education, and Welfare is required to notify each miner receiving benefits under part B of this right. Notwithstanding the provisions of paragraph (a) of this section, a miner notified of his or her rights under this paragraph may file a claim under this part on or before June 30, 1979. Any claim filed after that date shall be untimely unless the time for filing has been enlarged for good cause shown.

• • • • •

2. Paragraph (a) of § 725.701A is revised to read as follows:

§ 725.701A Claims for medical benefits only under section 11 of the Reform Act.

(a) Section 11 of the Reform Act directs the Secretary of Health, Education, and Welfare to notify each miner receiving benefits under part B of title IV of the Act that he or she may file a claim for medical treatment benefits described in this subpart. Section 725.308(b) of this subpart provides that a claim for medical treatment benefits shall be filed on or before June 30, 1979, unless the period is enlarged for good cause shown. This section sets forth the rules governing the processing, adjudication, and payment of claims filed under section 11.

• • • • •

Signed this 24th day of October 1978, at Washington, D.C.

RAY MARSHALL,
Secretary of Labor.

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING—FEDERAL HOUSING COMMISSIONER, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-78-535]

PART 201—PROPERTY IMPROVEMENT AND MOBILE HOME LOANS

Refinancing of Loans

AGENCY: Department of Housing and Urban Development.

ACTION: Final rule.

SUMMARY: These rules would extend the maximum permissible repayment terms for property improvement loans that are refinanced. They would permit certain refinanced obligations (primarily loans made for the improvement or rehabilitation of single family homes) to have a term of up to 15 years and 32 days provided that the new obligation would not mature later than 25 years from the date of the original obligation. The maximum term for other types of loans refinanced would be 12 years and 32 days provided that the new obligation would not mature later than 22 years from the date of the original obligation. The purpose of the rule is to implement Title III of the Housing and Community Development Act of 1977, section 306(a)(2).

EFFECTIVE DATE: November 27, 1978.

FOR FURTHER INFORMATION CONTACT:

William B. Stansbery, Director, Title I Loan Insurance Division, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-8686.

SUPPLEMENTARY INFORMATION: On May 23, 1978 at 43 FR 22059, the Department published proposed amendments to 24 CFR 201.9 to assist homeowners who due to changed circumstances are unable to make loan payments they originally contracted for. Refinancing enables such homeowners to lower their payments by lengthening the term of the loans. One comment was received, which was favorable.

A Finding of Inapplicability with respect to the Environmental Impact has been prepared in accordance with HUD Handbook 1390.1. Copies of the Finding are available for inspection during business hours in the Office of the Rules Docket Clerk, Room 5218, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Accordingly, the Department amends 24 CFR 201.9 as follows:

§ 201.9 Refinancing.

(a) • • •

(b) *Maximum maturity.* (1) A Class 1(a) loan may be refinanced for an additional period not in excess of 15 years and 32 days from the date of the refinancing, except that the term of the new note shall not extend beyond 25 years from the date of the original note.

(2) A Class 1(b) or 2 loan may be refinanced for an additional period not in excess of 12 years and 32 days from the date of the refinancing, except that the term of the new note shall not extend beyond 22 years from the date of the original obligation.

(3) A Class 2(b) loan secured by a first mortgage, first deed of trust, or other security instrument constituting a first lien upon the improved property may be refinanced for an additional period not in excess of 15 years and 32 days from the date of the refinancing, except that the term of the new note shall not extend beyond 25 years from the date of the original obligation.

(4) A new note combining any of the above classes of loans shall not have a term in excess of the loan having the shortest permissible maturity.

(c) • • •

• • • • •

(Sec. 7(d), 79 Stat. 670 (42 U.S.C. 3535(d)); sec. 2, 48 Stat. 1246, (12 U.S.C. 1703 as amended).)

Issued at Washington, D.C., October 16, 1978.

MORTON BARUCH,
Acting Assistant Secretary for Housing—Federal Housing Commissioner.

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 805-78]

FEDERAL BUREAU OF INVESTIGATION

Identification Records; Miscellaneous Amendments

AGENCY: Department of Justice.

ACTION: Final rule.

SUMMARY: This document makes technical changes to the Department of Justice regulations. The amendments concern procedures for the exchange of identification records with the banking community (Pub. L. 92-544, 86 Stat. 1115); authorize the Federal Bureau of Investigation (FBI) to exchange records with the securities industry (Pub. L. 94-29, 89 Stat. 140); and permits the subject of an identification record to challenge the accuracy or completeness of his record by writing directly to the FBI (*Tarlton* v. *Saxbe*, 407 F. Supp. 1083 (D.D.C. 1976)).

EFFECTIVE DATE: October 17, 1978.

FOR FURTHER INFORMATION CONTACT:

John A. Mintz, Assistant Director, Legal Counsel Division, Federal Bureau of Investigation, Washington, D.C. 20535, 202-324-5018.

By virtue of the authority vested in me by 28 U.S.C. 509, 5 U.S.C. 301 and 552, parts 0, 16, 20 and 50 of Chapter I, Title 28, Code of Federal Regulations are amended as follows:

1. Subpart P of part 0 is amended by revising paragraphs (b) and (j) of § 0.85 to read as follows:

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

§ 0.85 General functions.

• • • • •

(b) Conduct the acquisition, collection, exchange, classification, and preservation of identification records, including personal fingerprints voluntarily submitted, on a mutually beneficial basis, from law enforcement and other governmental agencies; provide expert testimony in Federal or local courts as to fingerprint examinations; and provide identification assistance in disasters and in missing-persons type cases, including those from insurance companies.

• • • • •

(j) Exercise the power and authority vested in the Attorney General by section 201 of the Department of Justice Appropriation Act, 1973, Pub. L. 92-544, 86 Stat. 1115, to approve and conduct exchanges of identification records with officials of federally chartered or insured banking institutions to promote or maintain the security of those institutions and, if authorized by State statute and approved by the Attorney General, to officials of State and local governments for purposes of employment and licensing; and exercise the power and authority vested in the Attorney General by section 14(f)(2), Pub. L. 94-29, 89 Stat. 140, to approve and conduct exchanges of identification records with certain segments of the securities industry.

PART 16—PRODUCTION OF DISCLOSURE OF MATERIAL OR INFORMATION

2. Subpart C of part 16 is amended by revising §§ 16.32 and 16.34 to read as follows:

§ 16.32 Procedure to obtain an identification record.

The subject of an identification record may obtain a copy thereof by submitting a written request via the U.S. mails directly to the FBI, Identification Division, Washington, D.C. 20537, or may present his written request in person during regular business hours to the FBI Identification Division, Room 11262, J. Edgar Hoover Building, Tenth Street and Pennsylvania Avenue NW., Washington, D.C. Such request must be accompanied by satisfactory proof of identity, which shall consist of name, date and place of birth and a set of rolled-inked fingerprint impressions placed upon fingerprint cards or forms commonly utilized for applicant or law enforcement purposes by law enforcement agencies.

§ 16.34 Procedure to obtain change, correction or updating of identification records.

If, after reviewing his identification record, the subject thereof believes that it is incorrect or incomplete in any respect and wishes changes, corrections or updating of the alleged deficiency, he should make application directly to the agency which contributed the questioned information. The subject of a record may also direct his challenge as to the accuracy or completeness of any entry on his record to the Assistant Director of the FBI Identification Division, Washington, D.C. 20537. The FBI will then forward the challenge to the agency which submitted the data requesting that agency to verify or correct the challenged entry. Upon the receipt of an official communication directly from the agency which contributed the original information, the FBI Identification Division will make any changes necessary in accordance with the information supplied by that agency.

PART 20—CRIMINAL JUSTICE INFORMATION SYSTEMS

3. Subpart C of part 20 is amended by revising paragraph (b) of § 20.34 to read as follows:

§ 20.34 Individual's right to access criminal history record information.

• • • • •

(b) If, after reviewing his identification record, the subject thereof believes that it is incorrect or incomplete

in any respect and wishes changes, corrections or updating of the alleged deficiency, he should make application

[4510-29-M]

Title 29—Labor

pants, beneficiaries, or fiduciaries of the plan so request in writing in a manner prescribed by the Secretary,

pursuant to authority provided in sections 502(b)(2) and 505 of the Act (29 U.S.C. 1132(b)(2) and 1135).

PART 128—TRANSACTIONS IN FOREIGN EXCHANGE, TRANSFERS OF CREDIT, AND EXPORT OF COIN

were sent to present C Series reporters for their comments. In addition, there is good cause to make the amendments

V 43/209 0 C 27 78

in any respect and wishes changes, corrections or updating of the alleged deficiency, he should make application directly to the agency which contributed the questioned information. The subject of a record may also direct his challenge as to the accuracy or completeness of any entry on his record to the Assistant Director of the FBI Identification Division, Washington, D.C. 20537. The FBI will then forward the challenge to the agency which submitted the data requesting that agency to verify or correct the challenged entry. If the contributing agency corrects the record, it shall promptly notify the FBI and, upon receipt of such a notification, the FBI will make any changes necessary in accordance with the correction supplied by the contributor of the original information.

PART 50—STATEMENTS OF POLICY

4. Part 50 is amended by revising paragraph (b) of § 50.12 to read as follows:

§ 50.12 Exchange of FBI identification records.

* * * * *

(b) The Director of the FBI is authorized by 28 CFR 0.85(j) to approve procedures relating to the exchange of identification records to federally chartered or insured banking institutions, officials of State and local governments for purposes of employment and licensing, and to certain segments of the securities industry. Under this authority, effective July 1, 1974, the FBI Identification Division will not include arrest data more than 1-year old not accompanied by dispositions in identification records exchanged with banking institutions, certain segments of the securities industry, and State and local agencies for employment and licensing purposes. The 1-year provision will provide the time necessary for the adjudication of most offenses. This procedural change in policy is being placed in effect to reduce possible denials of employment opportunities or licensing privileges to individuals as a result of the dissemination of identification records not containing final dispositional data concerning criminal charges brought against such individuals.

Dated: October 17, 1978.

GRIFFIN B. BELL,
Attorney General.

[4510-29-M]

Title 29—Labor

CHAPTER XXV—PENSION AND WELFARE BENEFIT PROGRAMS, DEPARTMENT OF LABOR

SUBCHAPTER G—ADMINISTRATION AND ENFORCEMENT UNDER THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

PART 2560—RULES AND REGULATIONS FOR ADMINISTRATION AND ENFORCEMENT

Regulation Governing Requests by Participants, Beneficiaries, or Fiduciaries for the Secretary of Labor to Exercise Certain Enforcement Authority

AGENCY: Department of Labor.

ACTION: Final rule.

SUMMARY: This document announces the adoption of a final regulation which sets forth the procedure for participants, beneficiaries, or fiduciaries of certain employee benefit plans to request the Secretary of Labor to exercise his authority to enforce certain provisions of the Employee Retirement Income Security Act of 1974 (the Act). The regulation will affect participants, beneficiaries, and fiduciaries of employee benefit plans subject to Title I of the Act and qualified under certain provisions of the Internal Revenue Code of 1954.

DATES: Effective from January 1, 1975.

FOR FURTHER INFORMATION CONTACT:

Robert R. Bitticks, Office of the Solicitor, Plan Benefits Security Division, Room C-4508, 200 Constitution Avenue NW., Washington, D.C. 20210, telephone 202-523-8620 (not a toll free number).

SUPPLEMENTARY INFORMATION: Under the Act, the Secretary of Labor (the Secretary) has primary responsibility for civil enforcement of Title I. However, section 502(b) of the Act provides that with regard to a violation of, or the enforcement of, parts 2 and 3 of Title I (concerning minimum standards for participation, vesting, benefit accrual, and funding), the Secretary may exercise his civil enforcement authority under section 502(a)(5) of the Act with respect to certain employee benefit plans qualified under the Internal Revenue Code of 1954 (or with respect to which an application to so qualify has been filed and has not been finally determined) only if requested by the Secretary of the Treasury or if one or more participants, beneficiaries, or fiduciaries of the plan so request in writing in a manner prescribed by the Secretary. Under section 502(b), the Secretary may exercise civil enforcement authority under section 502(a)(5) pursuant to such requests with respect to the types of plans described only if he determines that such violation affects, or such enforcement is necessary to protect, claims of participants or beneficiaries under the plan.

On April 25, 1978, the Department of Labor (Department) published in the FEDERAL REGISTER [1] an interim regulation § 2560.502-1, effective retroactively from January 1, 1975. The interim regulation was also proposed for permanent adoption and public comments were solicited.

The interim regulation prescribes the manner in which requests for enforcement pursuant to section 502(b)(2) of the Act are to be made and considered. It provides that such requests shall be in writing, and shall contain information from which the participant, beneficiary, or fiduciary and the plan can be identified. It also provides that such requests will be considered filed if they are directed to and received by any office or official of the Department, or if they are referred to and received by any such office or official by any party to whom the request is directed.

One letter of comment on the interim regulation was received by the Department, and no public hearing was requested or held. The commentator argues that the content of a request for enforcement which is required by the interim regulation does not provide sufficient information for the Secretary to determine whether enforcement proceedings should be commenced, and suggests that more specific information should be required. The commentator suggests that, if more detailed information is not required, unfounded requests might be filed.

After consideration of the comment received, the Department has decided to adopt the interim regulation as a final regulation without change. The Department recognizes that there will undoubtedly be requests filed under the regulation which do not contain enough information to permit a determination as to whether enforcement action should be commenced, and that in such cases further inquiry by the Department will be necessary. However, the Department believes that any burden which such inquiries might involve is justified by the benefit of minimizing impediments to communication with the Department regarding allegations of violations of the Act.

STATUTORY AUTHORITY: The final regulation contained in this document is adopted pursuant to authority provided in sections 502(b)(2) and 505 of the Act (29 U.S.C. 1132(b)(2) and 1135).

In consideration of the matters discussed above, Chapter XXV of Title 29 of the Code of Federal Regulations is hereby amended, effective January 1, 1975, by adding a new § 2560.502-1 to read as follows:

§ 2560.502-1 **Requests for enforcement pursuant to section 502(b)(2).**

(a) *Form, content and filing.*—All requests by participants, beneficiaries, and fiduciaries for the Secretary of Labor to exercise his enforcement authority pursuant to section 502(a)(5), 29 U.S.C. 1132(a)(5), with respect to a violation of, or the enforcement of, parts 2 and 3 of Title I of the Employee Retirement Income Security Act of 1974 (the Act) shall be in writing and shall contain information sufficient to form a basis for identifying the participant, beneficiary, or fiduciary and the plan involved. All such requests shall be considered filed if they are directed to and received by any office or official of the Department of Labor or referred to and received by any such office or official by any party to whom such writing is directed.

(b) *Consideration.*—The Secretary of Labor retains discretion to determine whether any enforcement proceeding should be commenced in the case of any request received pursuant to paragraph (a) of this section, and he may, but shall not be required to, exercise his authority pursuant to section 502(a)(5) of the Act only if he determines that such violation affects, or such enforcement is necessary to protect claims of participants or beneficiaries to benefits under the plan.

(Secs. 502(b)(2), 505, Pub. L. 93-406, 88 Stat. 829, 891, 894 (29 U.S.C. 1132(b)(2) and 1135).)

Signed at Washington, D.C., this 20th day of October 1978.

IAN D. LANOFF,
Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

Title 31—Money and Finance: Treasury

CHAPTER I—MONETARY OFFICES, DEPARTMENT OF THE TREASURY

PART 128—TRANSACTIONS IN FOREIGN EXCHANGE, TRANSFERS OF CREDIT, AND EXPORT OF COIN AND CURRENCY

Form Revisions

AGENCY: Department of the Treasury.

ACTION: Form revisions.

SUMMARY: The Department of the Treasury herewith promulates amendments to the Treasury international capital reporting requirements. Treasury International Capital (TIC) forms C-1/2 and C-3 are being replaced by new forms which will greatly improve the value of the reports for analysis of international financial developments and the data will relate more usefully to information reported by banks in the United States on other TIC forms.

EFFECTIVE DATE: October 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Gary A. Lee, Manager, Treasury International Capital Reporting System, Office of Statistical Reports. Department of the Treasury, Room 905, Global Building, Washington, D.C. 20220, 202-376-0692.

SUPPLEMENTARY INFORMATION: The principal features of the new Treasury nonbanking forms are:

(1) Separation of the financial liabilities and claims of reporting firms from their commercial liabilities and claims.

(2) Adoption of time remaining to maturity as the basis of the maturity analysis of claims and liabilities, instead of the present original maturity basis.

(3) Simplification of the monthly form to require only a single figure.

(4) Reduction of the reporting burden by:

(a) raising the level of the reporting exemption on the monthly form from $2 million to $10 million and allowing the application of the current $2 million exemption level on the quarterly form to financial and commercial items separately;

(b) elimination of geographical detail on the monthly form;

(c) substantial reduction in maturity analysis detail by requiring a maturity breakdown of grand totals only rather than country by country as presently required.

The Department finds that notice and public procedures under the provisions of 5 U.S.C. 553 are not necessary in this case, since the amendments pertain only to rules of agency procedure and serve generally to reduce the reporting burden upon the public. Moreover, drafts of the new forms were sent to present C Series reporters for their comments. In addition, there is good cause to make the amendments effective immediately on October 27, 1978. The amendments shall apply to all reports filed as of December 31, 1978 and for any period ending after December 31, 1978. For reports filed as of December 31, 1978 only, reporters shall file both the old and new monthly forms.

Primary author: Mr. John G. Murphy, Jr., Attorney/Advisor, Office of the General Counsel, Department of the Treasury, Room 2014, Main Treasury Building, Pennsylvania Avenue at 15th Street NW., Washington, D.C. 20220, 202-566-8184.

The text of the amendments is as follows:

1. Section 128.15 is amended to read as follows:

§ 128.15 **International Capital Form CM: Dollar deposit and certificate of deposit claims on banks abroad.**

On this form exporters, importers, industrial and commercial concerns and other nonbanking persons in the United States are required to report monthly, as of the last business day of the month, to the Federal Reserve Bank of New York their U.S. dollar deposit and certificate of deposit claims on banks located abroad held in their name or held for their account in banks abroad by U.S. or foreign custodians.

2. Section 128.16 is amended to read as follows:

§ 128.16 **International Capital Form CQ-1: Financial liabilities to, and claims on, unaffiliated "foreigners."**

On this form exporters, importers, industrial and commercial concerns and other nonbanking persons in the United States are required to report quarterly as of the last business day of each March, June, September and December, to the Federal Reserve Bank of New York their financial liabilities to, and claims on, unaffiliated "foreigners" acquired or held, either in the United States or abroad, by reporters for their own account or for the account of others.

3. Section 128.16a is added to read as follows:

§ 128.16a **International Capital Form CQ-2: Commercial liabilities to, and claims on, unaffiliated "foreigners."**

On this form exporters, importers, industrial and commercial concerns and other nonbanking persons in the United States are required to report quarterly as of the last business day of

each March, June, September and December, to the Federal Reserve Bank of New York their commercial liabi-

bananas. The amendment to the regulations was requested by BASF Wyandotte Corp. This rule establishes a

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 995-3; PP 6E1670/R162]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

2,6-Dimethyl-4-Tridecylmorpholine

AGENCY: Office of Pesticide programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for residues of the fungicide 2,6-dimethyl-4-tridecylmorpholine on bananas. The amendment to the regulations was requested by BASF Wyandotte Corp. This rule establishes a maximum permissible level for residues of 2,6-dimethyl-4-tridecylmorpholine on bananas.

EFFECTIVE DATE: Effective on October 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Mountforth, Acting Product Manager (PM) 21, Registration Division (TS-767), Office of Pesticide Programs, EPA, 202-426-2454.

SUPPLEMENTARY INFORMATION: On May 26, 1978, the EPA published a notice of proposed rulemaking in the FEDERAL REGISTER (43 FR 22751), in response to a pesticide petition (PP 6E1670), submitted to the Agency by BASF Wyandotte Corp., 100 Cherry Hill Road, P.O. Box 181, Parsippany, N.J. 07054.

This petition proposed that 40 CFR 180.372 be amended by the establishment of a tolerance for residues of the fungicide 2,6-dimethyl-4-tridecylmorpholine in or on the raw agricultural commodity bananas at 0.1 part per million (ppm). No comments or requests for referral to an advisory committee were received in response to this notice of proposed rulemaking. The compound has been removed from the list of Rebuttable Presumption Against Registration (RPAR) candidates after a review by the Special Pesticide Review Division.

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.372 should be adopted without change, and it has been concluded that this regulation will protect the public health.

Any person adversely affected by this regulation may, on or before November 27, 1978, file written objections with the Hearing Clerk, EPA, Room M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested the objections must state the issue for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective on October 27, 1978, Part 180 is amended by adding a new section as set forth below.

Dated: October 20, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

(Sec. 408(e) Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).)

Part 180, Subpart C, is amended by adding the new § 180.372 containing a tolerance for residues of 2,6-dimethyl-4-tridecylmorpholine on bananas to read as follows:

§ 180.372 **2,6-dimethyl-4-tridecylmorpholine; tolerances for residues.**

A tolerance is established for residues of the fungicide 2,6-dimethyl-4-tridecylmorpholine in or on the following raw agricultural commodity:

Commodity:	*Parts per million*
Bananas	0.1

Title 41—Public Contracts and Property Management

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

SUBCHAPTER F—ADP AND TELECOMMUNICATIONS

[FPMR Amendment F-34]

PART 101-36—ADP MANAGEMENT

Reutilization of Automatic Data Processing Equipment (ADPE) and Supplies

AGENCY: Automated Data and Telecommunications Service, General Services Administration.

ACTION: Final rule.

SUMMARY: GSA is changing its ADPE regulations by incorporating provisions that were transmitted by two temporary regulations and by implementing Pub. L. 94-519. These changes are intended to insure that Government agencies use their ADPE to obtain maximum benefits from the equipment.

EFFECTIVE DATE: October 27, 1978.

FOR FURTHER INFORMATION CONTACT:

I. S. Bayol, Excess Equipment Section, Equipment Control Branch, Agency Services Division, Office of Agency Services and Procurement, General Services Administration, Washington, D.C. 20405, 202-566-1284.

SUPPLEMENTAL INFORMATION: This regulation codifies FPMR Temporary Regulation E-49, "Acquisition of exchange/sale automatic data processing equipment (ADPE) through the ADP Fund," and FPMR Temporary Regulation E-50, "Care and management of excess automatic data processing equipment (ADPE)." The information contained in this regulation

is essentially the same as that contained in FPMR temporary regulations E-49 and E-50. Only six letters were received commenting on the temporary regulations, and these comments were reconciled. In addition, this regulation makes some editorial changes and adds to the FPMR the requirements of Pub. L. 94-519 with regard to excess ADPE.

The table of contents for part 101-36 is amended by adding the following entries:

Sec.
101-36.301-18 Project grants.
101-36.301-19 Grants.
101-36.309-5 Use of the ADP Fund for acquisition of exchange/sale ADPE.
101-36.310-1 Use of excess ADPE on cost-reimbursement type contracts.
101-36.310-2 Use of excess ADPE on grants: Eligibility.
101-36.310-3 Use of excess ADPE on project grants: Federal and project grantee responsibility.
101-36.4702-4 Annual reporting requirements.

Subpart 101-36.3—Reutilization of Automatic Data Processing Equipment and Supplies

1. Section 101-36.301-1(d) is revised to read as follows:

§ 101-36.301-1 **Automatic data processing equipment.**

• • • • •

(d) ADP supplies such as but not limited to electronic data processing tapes, canisters, reels, control panels and wires, cabinets, tape storage, and safes and racks peculiar to ADP operations.

2. Sections 101-36.301-18 and 101-36.301-19 are added to read as follows:

§ 101-36.301-18 **Project grants.**

The term "project grants" means grants made to specific institutions and organizations for a specific purpose with established costs and termination dates.

§ 101-36.301-19 **Grants.**

The term "grants" means grants-in-aid. Grants-in-aid are grants or subsidies from public resources in aid of public undertakings.

3. Section 101-36.302 is amended by revising paragraph (b) and adding paragraphs (d) and (e) to read as follows:

§ 101-36.302 **Reassignment of ADPE within Federal agencies.**

• • • • •

(b) The reassignment of Government-leased ADPE that has not been declared excess and that is no longer required for the purpose and use for which it was originally acquired is a sole source procurement action and, therefore, must be accomplished as specified in regulations governing sole source procurements.

• • • • •

(d) Reassignment of ADPE to Federal agency grantees shall not be made until Federal requirements are determined in accordance with this subpart 101-36.3 and § 101-36.4702.

(e) The use of ADPE for maintenance by redundancy (backup) or cannibalization for a parts source of supply shall not be made until Federal requirements are determined in accordance with this subpart 101-36.3 and § 101-36.4702.

4. Section 101-36.303 is revised to read as follows:

§ 101-36.303 **Reutilization of excess ADPE.**

The primary source of supply for meeting ADPE requirements is excess. To obtain maximum reutilization and to minimize the procurements of new ADPE, excess and exchange/sale ADPE shall be made available for transfer to other Federal agencies in accordance with the provisions of this subpart 101-36.3. Any need for excess ADPE expressed by a Federal agency, including the Senate, the House of Representatives, the Architect of the Capitol and any activities under the Architect's direction, the District of Columbia, and mixed ownership Government corporations, shall take precedence over disposal, provided such need is made known to GSA prior to shipment or delivery in case of donation or prior to removal of the property for Government control in case of sale.

5. Section 101-36.303-1 is revised to read as follows:

§ 101-36.303-1 **Designation of agency ADPE point of contract.**

(a) Each agency head shall designate an agency ADPE point of contract to promote the maximum reutilization of excess ADPE, to provide proper coordination on an interagency basis, and to insure the excess ADPE is acquired in accordance with agency plans and program efforts. The name, address, and phone number of this individual shall be submitted promptly after designation to General Services Administration (CDSDE), Washington, D.C. 20405.

(b) To provide guidance to GSA concerning excess property management by agencies, each agency ADPE point of contact shall provide to GSA a copy of each agency implementing regulations for excess ADPE and each current change. Copies of regulations shall be submitted to General Services Administration (CDSDE), Washington, D.C. 20405.

6. Section 101-36.304(b) is revised to read as follows:

§ 101-36.304 **Availability list.**

• • • • •

(b) Requests for additions, changes, and deletions to the mailing list for the availability list shall be made to the General Services Administration (CDSDE), Washington, D.C. 20405. Agencies sponsoring contractors or grantees, when forwarding requests for distribution of the availability list to such contractors or grantees, shall include the appropriate grant or contract number in their request.

• • • • •

7. Section 101-36.306 is amended by revising the introductory paragraph and paragraphs (a), (b), (c), and (d) to read as follows:

§ 101-36.306 **Requests for transfer of excess ADPE or exchange/sale ADPE**

Requests for transfer of excess ADPE or reimbursable transfer of exchange/sale ADPE between Federal agencies shall be accomplished by completing an SF 122, Transfer Order Excess Personal Property. The SF 122 shall contain the name and telephone number (commercial and FTS) of the agency official to be contracted regarding transportation details.

(a) The SF 122 (illustrated at § 101-36.4901-122) shall be signed by an authorized official of the requesting agency when the ADPE is to be used by the agency or by a Federal contractor or grantee of the agency. All standard forms 122 furnished by a Federal agency for excess or exchange/sale ADPE to be used by the agency or by Federal contractors shall provide the contract number under which the excess or exchange/sale ADPE is to be acquired and the expiration date of the contract. All standard forms 122 furnishing excess ADPE to project grantees shall affirm that the transfer is requested for use by a project grantee in accordance with this subpart 101-36.3 and shall include the name of the project grantee, the grant number, the scheduled date of grant termination, and the purpose of the transfer. If a transfer is being requested pursuant to § 101-36.310-2(e), the transfer order shall certify that, upon transfer of the ADPE, the granting agency will deposit to miscellaneous receipts in the U.S. Treasury an amount equal to 25 percent of the original acquisition cost (as documented by GSA) less the cost of care and handling.

(b) When excess owned ADPE is to be used for maintenance by redundancy or cannibalization for a parts source

of supply, a statement to indicate such use shall be included on the SF 122.

ADPE over the allowable free rental period in the applicable contract. Any

§ 101-36.309-5 **Use of the ADP Fund for acquistion of exchange/sale ADPE.**

cost-reimbursement type contracts, grants, and project grants.

may be transferred under section 608 of the Foreign Assistance Act of 1961,

§ 101-36.310-3 **Use of excess ADPE on project grants: Federal and project**

V 43 / 209 OCT 27 78

of supply, a statement to indicate such use shall be included on the SF 122. When title to excess owned ADPE is to be vested in a Federal grantee or title is to otherwise pass from the Federal Government, a statement to indicate this fact shall be included on the SF 122. Title will not be transferred unless such a statement is included. Preference will be given to Federal agency requests and to requests which will retain title in the Federal Government.

(c) An SF 122 used for requesting excess leased or exchange/sale ADPE shall contain a statement to indicate either that the requested equipment represents the least overall cost or that a sole source determination has been made and documented. In either case, if the equipment cost exceeds the dollar threshold established in subpart 1-4.11, then a delegation of procurement authority is required. Federal agency requests for the provision of excess to satisfy contractor requirements will be considered secondary to Federal agency requirements.

(d) The original and four copies of the SF 122 shall be submitted for approval to the General Services Administration (CDSDE), Washington, D.C. 20405.

* * * * *

8. Section 101-36.307(a) is revised to read as follows:

§ 101-36.307 Care and handling of excess or exchange/sale ADPE.

(a) The reporting or holding agency shall be responsible for and bear the costs of care and handling of excess or exchange/sale ADPE pending disposition. In cases where reported Government-owned excess ADPE has potential for replacement of leased ADPE, GSA will require the holding activity to obtain a certificate of maintenance acceptability or an estimate to refurbish. If the holding agency has allowed the maintenance contract on ADPE to lapse and/or allowed the warehousing of ADPE and if subsequent refurbishment for purposes of reutilization is required, the holding agency shall be responsible for those refurbishment charges. Only direct costs incurred incident to a transfer (such as packing, loading, and transporting) shall be borne by the requesting agency when billed by the holding agency. Overhead or administrative costs, equipment disconnect charges, and other costs not directly related to and resulting solely from requests for transfer shall not be included. The requesting agency shall be responsible for any movement or temporary storage required after the date the transfer is approved; transportation of ADPE to the requesting agency; and rental costs, if any, for excess leased ADPE over the allowable free rental period in the applicable contract. Any question or controversy regarding responsibility for costs shall be referred for resolution to the General Services Administration (CDSDE), Washington, D.C. 20405. The holding agency is not required to retain excess leased ADPE in a lease status when the reporting requirements of § 101-36.4702 have been satisfied.

* * * * *

9. Section 101-36.309(b) is revised to read as follows:

§ 101-36.309 Use of the ADP Fund.

* * * * *

(b) When excess leased ADPE with purchase option credits or exchange/sale ADPE can satisfy agency data processing requirements, GSA will consider using the ADP Fund to purchase the equipment for the requesting agency.

10. Section 101-36.309-3 is revised to read as follows:

§ 101-36.309-3 Transfer of ADP Fund equipment.

In followup to a telephone reservation of ADP Fund equipment, the requesting agency shall submit a letter of commitment to the General Services Administration (CDSDE), Washington, D.C. 20405. This letter shall include the lease term and the dollar amount of the lease agreement (as discussed), the agency point of contact (with address and telephone number), the shipping address and instructions, and the applicable agency appropriation symbol. GSA then will prepare the SF 122, Transfer Order Excess Personal Property, to initiate equipment shipment and will submit the lease agreement and the approved SF 122 to the requesting agency's designated official.

11. Section 101-36.309-4(a) is revised to read as follows:

§ 101-36.309-4 Guarantee of ADP Fund equipment.

(a) Agencies participating in the leaseback program shall pay charges for transportation of the equipment to the designated site(s); obtain an estimate of refurbishment to bring the ADP Fund equipment up to maintenance standards; and, within 6 months of the date that GSA sends the ADP Fund lease, forward the estimate of refurbishment to the General Services Administration (CDSDE), Washington, D.C. 20405.

* * * * *

12. Section 101-36.309-5 is added to read as follows:

§ 101-36.309-5 Use of the ADP Fund for acquistion of exchange/sale ADPE.

(a) A Federal agency may seek use of the ADP Fund if it determines that the acquisition is economically advisable and the following requirements are met and can be certified:

(1) Subpart 101-35.2 (formerly FMC 74-5), § 101-36.403, FPMR Temporary Regulation E-42, and subpart 1-4.11 have been complied with.

(2) The agency does not have funds programed, nor can it reprogram funds for this purpose.

(3) The agency cannot divert funds planned for other ADPE procurements with lesser rates of return, if any, for this purpose.

(4) The proposed acquisition of a new system is consistent with the agency's presently authorized programs, and the need for the ADPE has been approved by OMB. (For purposes of this paragraph, a "new system" is defined as any acquisition other than purchase of presently installed ADPE with like equipment.)

(5) When the procurement action involves purchase of like equipment to replace installed systems, a study shall be made to determine that there is a continued economic justification for in-house ADPE as opposed to alternate sources such as the use of other agency equipment or commercial service bureaus. Agency studies should be consistent with the guidelines of OMB Circular A-76. As required, GSA will forward the agency certification to OMB.

(b) In followup to a telephone reservation (see § 101-36.305) on exchange/sale ADPE proposed to be acquired through the ADP Fund, the requesting agency shall submit a letter of intent to the General Services Administration (CDSDE), Washington, D.C. 20405. This letter shall include the projected period of equipment use; the requested terms of reimbursement, e.g., quarterly reimbursement for 3 years; the agency point of contact (with address and telephone number); and the shipping address, instructions, and fund citations for transportation and ADP Fund reimbursement. In addition, there shall be certifications which specify the Federal agency's compliance with the conditions listed in paragraph (a) of this section.

(c) The use of the ADP Fund for the acquisition of exchange/sale ADPE must be approved by GSA.

13. Section 101-36.310 is revised and §§ 101-36.310-1, 101-36.310-2, and 101-36.310-3 are added to read as follows:

§ 101-36.310 Use of excess ADPE on cost-reimbursement type contracts and project grants.

This section provides policies and procedures for use of excess ADPE on cost-reimbursement type contracts, grants, and project grants.

§ 101-36.310-1 Use of excess ADPE on cost-reimbursment type contracts.

(a) Federal contractor requirements will be considered secondary to Federal agency requirements.

(b) Excess ADPE can be used to reduce the Government's contract costs and shall be considered by Federal agencies in their cost-reimbursement type contracts. For the purpose of this section, the term "cost-reimbursement type contract" means a type of contract providing for payment to the contractor of allowable costs incurred in the performance of the contract. The use of excess ADPE instead of payment offsets allowable costs and thereby reduces the total cost of the contract.

(c) If a contract provides for the use of excess ADPE, it shall also include adequate safeguards to insure the authorized use, maintenance, and return to Government custody of Government-furnished property. Accountability for such property shall be in accordance with contractual and agency procedures. Records shall be subject to audit by the contracting Federal agency and by the General Accounting Office.

(d) If a determination is made by the contracting Federal agency that the use of excess ADPE will result in a reduction of the contract cost to the Government or in an enhancement of the product or benefit of the contract, excess ADPE may be furnished to a contractor in accordance with § 101-36.306. The transfer order must certify the cost reduction or product enhancement and shall be executed by an authorized official of the contacting agency and forwarded to the General Services Administration (CDSDE), Washington, D.C. 20405.

(e) Generally, title to Government-furnished excess property remains vested in the Government; however, certain Federal agencies have specific statutory authority to vest title in contractors. When competing Federal requests are made on an item of excess ADPE, GSA will give the lowest priority to a request which vests title in the contractor.

(f) Upon expiration of a contract, Government-furnished ADPE may be reassigned to other Federal activities within the agency or to its cost-reimbursement type contractors.

§ 101-36.310-2 Use of excess ADPE on grants: Eligibility.

Federal agencies are prohibited from obtaining excess ADPE to furnish to their grantees, except as follows:

(a) Excess ADPE which GSA determines is not needed for donation under subparts 101-44.2 and 101-44.4, may be transferred under section 608 of the Foreign Assistance Act of 1961, as amended (22 U.S.C. 2358).

(b) Excess ADPE may be furnished through the U.S. Forest Service under section 203 of the Department of Agriculture Organic Act of 1944 (16 U.S.C. 580a) for use in connection with cooperative State forest-fire-control programs, provided that title to the ADPE is retained in the Government.

(c) Excess ADPE may be furnished in connection with grants to Indian tribes (as defined in section 3(c) of the Indian Financing Act (25 U.S.C. 1452(c))). Title may be vested in the grantee pursuant to specific statutory authority only.

(d) Excess scientific equipment (which includes ADPE as defined by § 101-36.301-1) may be transferred pursuant to section 11(e) of the National Science Foundation Act of 1950, as amended (42 U.S.C. 1870(e)).

(e) Excess ADPE may be otherwise transferred with title by Federal agencies to their project grantees only when all the following conditions apply:

(1) The non-Federal recipient is an institution or organization which is either a public agency as defined in § 101-44.001-10 or is nonprofit and exempt from taxation under section 501 of the Internal Revenue Code of 1954, and

(2) The property will be furnished to the non-Federal recipient for use in connection with a federally sponsored project pursuant to a grant made for a specific purpose with a specific termination date, and

(3) Authorization for the project grantee to use excess property is contained in the grant document, and

(4) A determination has been made by the sponsoring Federal agency that the acquisition will result in a reduction of cost to the Government or in enhancement of the product or benefit from the grant, and

(5) The property will not be stockpiled by the project grantee but will be placed into use within a reasonable period of time (as determined by the granting agency) following acquisition, and

(6) The transfer of ADPE will be accomplished in accordance with § 101-36.306 and approved by an authorized Federal official of the granting agency, and

(7) The sponsoring Federal agency deposits in miscellaneous receipts of the U.S. Treasury an amount equal to 25 percent of the original acquisition cost (as documented by GSA) less the costs of care and handling.

§ 101-36.310-3 Use of excess ADPE on project grants: Federal and project grantee responsibility.

The use of excess ADPE furnished to project grantees as provided in § 101-36.310-2 (d) and (e) is also subject to the following provisions:

(a) Grantee accountability for and disposal of such ADPE shall be governed by procedures established by the granting agency.

(b) Federal granting agencies shall limit the amount (in terms of original acquisition cost) of excess personal property transferred to a project grantee to the dollar value of the grant. Transfers in excess of this amount shall be fully justified. Federal approval or disapproval shall be made at a level above the project officer administering the grant.

(c) Federal granting agencies shall insure that provisions for use, maintenance, and return to Government custody or other disposal procedures for excess ADPE are included in the grant document.

(d) Federal grantor agencies shall develop and maintain procedures for the prevention or detection of situations involving the nonuse, improper use, or unauthorized disposal or destruction of excess ADPE loaned to or vested in grantees. This responsibility shall include compliance reviews, field inspections, and other enforcement procedures to monitor such property.

(e) Federal grantor agencies shall include the following information in their grant recordkeeping systems:

(1) The number of grantees using excess property;

(2) Total dollar value of property loaned to or vested in all grantees;

(3) Dollar value of property loaned to or vested in each grantee;

(4) Acquisition cost of loaned or vested items;

(5) Dollar value of each grant;

(6) Percentage of acquisition cost of loaned or vested excess property to the dollar value of each grant; and

(7) Date(s) of grant termination.

NOTE.—Records are subject to audit by the Federal granting agency and by the General Accounting Office.

(f) Except when specifically authorized by statute to vest title in the grantee, Federal agencies, upon termination of a project grant in whole or in part, shall reassign Government-furnished ADPE to other Federal activities within the agency or to its cost-reimbursement type contractors. If no reassignment is made, the ADPE shall be reported as excess by the agency to GSA in accordance with § 101-36.4702 and held by the grantee in accordance with §§ 101-36.307 and 101-36.308.

(g) Property obtained by a Federal agency from excess sources for other

purposes shall not subsequently be furnished to a project grantee. (See

on the utilization and disposal of all personal property.

U.S.C. 2010). The implementation of the authorities vested in the Adminis-

hicle class submitted by executive agencies to GSA on or before Decem-

ministration (A), Washington, D.C. 20405, and shall state the reasons sup-

(7) Rubber or vinyl floor covering, front and rear;

V 43 / 209 0 C 27 7 8

purposes shall not subsequently be furnished to a project grantee. (See § 101-36.302(d).)

Subpart 101-36.47—Reports

14. Section 101-36.4702 is amended by revising the introductory paragraph to read as follows:

§ 101-36.4702 Reporting excess or exchange/sale ADPE.

Excess ADPE or exchange/sale ADPE shall be reported on an original and four copies of SF 120, Report of Excess Personal Property (illustrated at § 101-36.4901-120), and when necessary, SF 120A, Continuation Sheet (Report of Excess Personal Property). The SF 120 shall be submitted to the General Services Administration (CDSDE), Washington, D.C. 20405, by the holding agency at least 90 calendar days before the anticipated release date as determined by the holding agency. This report is exempt from reports control in accordance with subpart 101-11.11. ADPE in the hands of Government contractors may be reported on an appropriate contractor inventory appended to an SF 120 provided the reporting format includes an adequate commercial description and other appropriate data required by paragraph (a) of this section.

. . . . .

15. Section 101-36.4702-2(a) is revised to read as follows:

§ 101-36.4702-2 Withdrawal of reports of excess or exchange/sale ADPE.

(a) A written request (letter or amended SF 120) for the withdrawal of ADPE previously reported on an SF 120 will normally be approved by GSA only if received within 15 workdays from the date the SF 120 was received by GSA. This request shall reference the assigned GSA case number and provide a statement which indicates the specific use to be made of the withdrawn equipment. Examples of specific use are contained in § 101-36.303 2(a)(2). Disposition of property shall not be made until after approval of withdrawal is received from GSA. GSA will not approve the withdrawal of equipment for cannibalization or maintenance by redundancy until it is first determined that there is not a more ecomonical use within the Government.

. . . . .

16. Section 101-36.4702-4 is added to read as follows:

§ 101-36.4702-4 Annual reporting requirements.

Subpart 101-43.47 provides guidance on the annual reporting requirements on the utilization and disposal of all personal property.

Subpart 101-36.49—Illustrations of Forms

Section 101-36.4901-120 (a) and (b) are revised to change the GSA correspondence symbol from CDP to CDSDE and to change the FSC group number from 74 to 70.

§ 101-36.4901-120 Standard form 120, Report of Excess Personal Property.

NOTE.—The form illustrated in § 101-36.4901-120 (a) and (b) is filed as part of the original document.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 466 (c).)

Dated: October 11, 1978.

JAY SOLOMON,
Administrator of General Services.

SUBCHAPTER G—TRANSPORTATION AND MOTOR VEHICLES

[FPMR Amendment G-47]

PART 101-38—MOTOR EQUIPMENT MANAGEMENT

Acquisition of Fuel-Efficient Passenger Automobiles

AGENCY: General Services Administration.

ACTION: Final rule.

SUMMARY: This regulation establishes policy and procedures governing the acquisition of fuel-efficient passenger automobiles by executive agencies. This regulation supersedes and cancels FPMR Temporary Regulation G-32 and incorporates its provisions into the permanent regulations.

EFFECTIVE DATE: October 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. John I. Tait, Director, Regulations and Management Control Division, Office of the Executive Director, Federal Supply Service, General Services Administration, Washington, D.C. 20406, 703-557-1914.

SUPPLEMENTARY INFORMATION:

a. Title III of the Energy Policy and Conservation Act added title V, Improving Automotive Efficiency, to the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1901 et seq.). Executive Order 11912, dated April 13, 1976, designated and empowered the Administrator of General Services to perform the functions vested in the President by section 510 of the Motor Vehicle Information and Cost Savings Act, as amended (89 Stat. 915, 15 U.S.C. 2010). The implementation of the authorities vested in the Administrator by Executive Order 11912 was accomplished by the issuance of FPMR Temporary Regulation G-28, dated October 1, 1976, for fiscal year 1977.

b. Subsequent to the issuance of FPMR Temporary Regulation G-28, Executive Order 12003, dated July 20, 1977, was issued, which provided additional requirements to those already established by the documents cited above. This necessitated the issuance of FPMR Temporary Regulation G-32, dated October 20, 1977, which superseded FPMR Temporary Regulation G-28 and established policy and procedures governing the acquisition of passenger automobiles by executive agencies for fiscal year 1978.

c. FPMR Temporary Regulation G-32 (42 FR 56982, October 31, 1977) is canceled and deleted from the appendix at the end of subchapter G in 41 CFR chapter 101.

The table of contents for part 101-38 is amended to add §§ 101-38.1306, 101-38.1306-1, 101-38.1306-2, and 101-38.1306-3 as follows:

101-38.1306 Acquisition of fuel-efficient passenger automobiles.
101-38.1306-1 Definitions.
101-38.1306-2 Agency forecasts of planned acquisitions.
101-38.1306-3 GSA assistance.

Subpart 101-38.13—Energy Conservation in Motor Vehicle Management

Sections 101-38.1306, 101-38.1306-1, 101-38.1306-2, and 101-38.1306-3 are added to read as follows:

§ 101-38.1306 Acquisition of fuel-efficient passenger automobiles.

This section sets forth policy and procedures governing the acquisition of fuel-efficient passenger automobiles by executive agencies and provides for the administration of a consolidated Federal fleet plan for use in monitoring those acquisitions. The authority for this § 101-38.1306 derives from Executive Order 11912, dated April 13, 1976, and Executive Order 12003, dated July 20, 1977, which designate and empower the Administrator of General Services to perform without approval, ratification, or other action by the President the functions vested in the President by section 510 of the Motor Vehicle Information and Cost Savings Act, as amended (89 Stat. 915, 15 U.S.C. 2010).

(a) In compliance with Executive Orders 11912 and 12003, GSA administers a consolidated Federal fleet plan for passenger automobiles acquired by executive agencies. The plan is based on forecasts of total passenger automobile acquisition requirements by vehicle class submitted by executive agencies to GSA on or before December 1 of each fiscal year. This forecast will serve as substantiation that each agency's acquisition plan is in conformance with the act; i.e., the agency plan will result in the achievement of the fleet average fuel economy prescribed for the applicable fiscal year. GSA will administer the plan by maintaining a master record of the miles per gallon rating for passenger automobiles actually acquired by each agency during the fiscal year. Periodically, each agency will be furnished a listing of automobiles acquired with the cumulative fleet average fuel economy attained to compare with its forecast. This will enable an agency to adjust future vehicle acquisitions, when necessary, to comply with the act by the end of the fiscal year.

The Federal fleet plan will enable GSA to predict the total fleet average fuel economy to be achieved by all executive agencies prior to the end of the fiscal year and to provide management assistance to agencies, when necessary, to insure compliance with the act. Forecasts of planned acquisitions shall be forwarded to the General Services Administration (FZ), Washington, D.C. 20406, not later than December 1st of each fiscal year, in accordance with the requirements set forth in § 101-38.1306-2. Interagency report control number 0162-GSA-AN has been assigned to this requested forecast.

(b) All passenger automobiles acquired by executive agencies must achieve the fleet average fuel economy set forth below for the appropriate fiscal year, and, except as provided in subparagraph (c) of this section, each vehicle acquired must meet or exceed the average fuel economy standard also set forth below. The applicable fleet average fuel economy objectives and average fuel economy standards by fiscal year are as follows:

Miles per gallon

Fiscal year	Average fuel economy standard[1]	Fleet average fuel economy[2]
1978	18.0	20.0
1979	19.0	22.0
1980	20.0	24.0
1981	22.0	26.0
1982	24.0	28.0
1983	26.0	30.0
1984	27.0	31.0
1985	27.5	31.5

[1] Established by section 502 of the Motor Vehicle Information and Cost Savings Act (89 Stat. 902, 15 U.S.C. 2002) and the Secretary of Transportation.
[2] Established by Executive Order 12003.

(c) An agency may request exemptions from the provisions of this § 101-38.1306 for individual passenger automobiles used for special purposes. These requests shall be submitted in writing to the General Services Administration (A), Washington, D.C. 20405, and shall state the reasons supporting the proposed acquisition of a passenger automobile which does not meet the fuel economy standard. The Administrator of General Services will review the request and, with the concurrence of the Secretary of Energy, determine if the request is appropriate. The requesting agency will be informed of the determination. Automobiles exempted under the provisions of this § 101-38.1306(c) shall be included in the calculation of an agency's fleet average fuel economy.

(d) The provisions of this subpart are not applicable to passenger automobiles designed to perform combat-related missions for the U.S. Armed Forces or designed to be used in law enforcement or emergency rescue work.

§ 101-38.1306-1 Definitions.

As used in §§ 101-38.1306, 101-38.1306-1, 101-38.1306-2, and 101-38.1306-3, the following terms shall have the stated meanings:

(a) "Executive agency" means an executive department, a Government corporation, or an independent establishment.

(b) "Fleet average fuel economy" means the total number of passenger automobiles acquired during a fiscal year by executive agencies (excluding passenger automobiles designed to perform combat-related missions for the U.S. Armed Forces or designed to be used in law enforcement work or emergency rescue work) divided by a sum of terms, each term of which is a fraction created by dividing the number of passenger automobiles so acquired of a given model type by the fuel economy of that model type.

(c) "Passenger automobile designed to be used in law enforcement work" means an automobile which is specifically approved in an agency's appropriation act or certified by the head of an agency for use in law enforcement work. For automobiles so certified, the following heaviest duty components available shall be ordered for the model automobile being acquired:

(1) Chassis frame, body mounts, and chassis components (i.e., radiator, fan blades, battery, alternator, starter, transmission, coolers, etc.);

(2) Suspension (springs, shock absorbers, wheels, and stabilizer bar(s));

(3) Power disc/drum brakes and linings;

(4) Inside hood latch release (if applicable for model acquired);

(5) Transmission low gear lockout (if available for model acquired);

(6) At least the next higher cubic inch displacement (CID) engine than is standard for the automobile concerned;

(7) Rubber or vinyl floor covering, front and rear;

(8) Seat assemblies;

(9) Vinyl interior upholstery and trim;

(10) 120 mph speedometer (head calibrated to 2 percent accuracy); and

(11) Police-pursuit-type tires.

When a law enforcement agency does not need automobiles equipped with the above components because of its mission requirements, then items (1) through (6) constitute the minimum requirements for an automobile designed to be used in law enforcement work. Additionally, the agency shall certify that this automobile is being used for law enforcement work and items (7) through (11) were not ordered for reasons related to the intended use of the automobile; e.g., surveillance work.

§ 101-38.1306-2 Agency forecasts of planned acquisitions.

(a) Executive agencies shall furnish to the General Services Administration (FZ), Washington, D.C. 20406, automobile acquisition requirements for each fiscal year based on the combined city/highway mileage ratings for passenger automobiles (for 49 States and California vehicles) developed by the Environmental Protection Agency (EPA). The forecast shall be submitted to GSA by December 1 of each fiscal year. GSA will publish information concerning the EPA mileage ratings, a sample agency forecast, and the miles per gallon ratings to be used for the forecast in a bulletin (FPMR) each year in sufficient time to enable agencies to plan the acquisitions and to prepare the forecasts. Agencies not planning any of these acquisitions (purchases or commercial leases) or those that satisfy the total motor vehicle requirements through the GSA Interagency Motor Pool System shall furnish a negative forecast.

(b) The forecast of the total agency passenger automobile acquisition requirements shall include automobiles to be procured or leased in the coterminous United States, Alaska, Hawaii, Guam, the Virgin Islands, the Commonwealth of Puerto Rico, and the Canal Zone. The forecast shall not include passenger automobiles (1) procured or leased and to be used outside the foregoing area, (2) designed to perform combat-related missions for the Armed Forces, or (3) designed to be used in law enforcement work or emergency rescue work.

(c) Requisitions for passenger automobiles sent to GSA for procurement action but for which a contract is not effected during the same fiscal year the requisitions are submitted shall be included in the acquisition forecast for the following fiscal year.

(d) When a passenger automobile lease contains an option to renew and

cordingly, the interim final regulations, published at 43 FR 6020, Febru-

The statutory authority of the Secretary to donate surplus personal prop-

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

V 43 / 209 / OCT 27 78

(d) When a passenger automobile lease contains an option to renew and the option is exercised, that renewal action shall be included in the forecast as a new acquisition.

(e) In order to maintain a master record of all leased passenger automobiles, agencies shall forward to the General Services Administration (FZ), Washington, D.C. 20406, copies of all agreements for the leasing of passenger automobiles for a period of 60 continuous days or more, including agreements to renew existing leases. When the lease agreement does not provide the following information, it shall be submitted as an attachment to the lease.

(1) Year.
(2) Make.
(3) Model.
(4) Transmission type (if manual, number of forward speeds).
(5) Cubic inch displacement.
(6) Fuel system (fuel injection or carburetor (number of barrels)).
(7) If leased in California.

(f) Submission of requisitions for procurement or requests for authority to lease passenger automobiles which, in the opinion of GSA, will result in noncompliance with the fleet average fuel economy by the end of the fiscal year may result in requisitions being held in abeyance pending adjustment to the agency's acquisition plan.

(g) Requisitions submitted to GSA for passenger automobiles shall be in conformance with the requirements of § 101-26.501 and this subpart 101-38.13.

§ 101-38.1306-3 GSA assistance.

(a) GSA will furnish each agency a list showing the status of passenger automobiles acquired with the fleet average fuel economy achieved, to enable the agency to determine the extent to which it is in conformance with the forecast originally submitted to GSA. This listing will enable an agency to make any necessary adjustments to its acquisition plan to ensure that its fleet average fuel economy is achieved for the applicable fiscal year.

(b) Agencies may request GSA assistance when preparing the forecasts of passenger automobile acquisition requirements by contacting the General Services Administration (FZM), Washington, D.C. 20406.

(Section 205(c), 63 Stat. 390; 40 U.S.C. 486(c).)

Dated: October 11, 1978.

JAY SOLOMON,
Administrator of General Services.

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER J—HEALTH CARE DELIVERY SYSTEMS

PART 110—HEALTH MAINTENANCE ORGANIZATIONS

AGENCY: Public Health Service, HEW.

ACTION: Final regulations.

SUMMARY: Interim regulations regarding Federal financial assistance for health maintenance organizations (HMO's) were published on February 10, 1978. Those regulations expanded and clarified the requirements of the existing regulations with respect to entities requesting Federal financial assistance for feasibility surveys, planning and initial development, and initial operating costs of health maintenance organizations. Federal financial assistance for grant and loan support for the development and initial operating costs of health maintenance organizations is authorized under title XIII of the Public Health Service Act, "Health Maintenance Organizations" (42 U.S.C. 300e et seq.) as amended by the Health Maintenance Organization Amendments of 1976 (Pub. L. 94-460). This document announces the adoption of final regulations.

EFFECTIVE DATE: These regulations are effective on October 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Howard R. Veit, Director, Office of Health Maintenance Organizations, 12420 Parklawn Drive, Park Building, Room 3-30, Rockville, Md. 20857, 301-443-4106.

SUPPLEMENTARY INFORMATION: On February 10, 1978, there were published in the FEDERAL REGISTER (43 FR 6020-27) interim regulations governing the provision of Federal financial assistance to HMO's under title XIII of the Public Health Service Act, as amended. These regulations included the following subparts of part 110 of title 42, Code of Federal Regulations:

Subpart C—Grants for Feasibility Surveys;
Subpart D—Grants and Loan Guarantees for Planning and Initial Development Costs; and
Subpart E—Loans and Loan Guarantees for Initial Operating Costs.

Interested persons were invited to submit written comments, suggestions, or objections to these regulations by April 11, 1978, and the public was advised that the regulations would be revised if warranted by the comments received.

One comment was received on these regulations. The commenter proposed that § 110.404(c), setting forth project elements for initial development projects, be revised to require that an applicant provide evidence that "Free Standing, Outpatient Ambulatory Surgical Centers" intend to provide basic health services to the proposed HMO, as well as the providers already listed in that section. The Secretary has rejected this suggestion because he believes that the present requirement is adequate with respect to grant or loan guarantee applications for initial development projects. The present requirement set forth at § 110.404(c) is that the applicant provide—

Evidence from physicians and from one or more hospitals indicating that they intend to become providers of basic health services for the proposed health maintenance organization:

(1) In the case of an individual practice association-type health maintenance organization, there must be such evidence from a number of physicians adequate to serve the proposed enrollment; and

(2) In the case of a nonindividual practice association-type health maintenance organization, there must be such evidence from at least three physicians, indicating that they are willing to be employed by or to contract with the proposed health maintenance organization.

In publishing the interim regulations on February 10, 1978, the Department inadvertently failed to revise one provision regarding eligibility of for-profit entities for loan guarantees for planning and initial development projects. Sections 1304 and 1305 of the Public Health Service Act provide that for-profit entities are eligible for loan guarantee assistance if they will serve medically underserved populations, but these sections do not specify the proportion of the HMO's enrollment that this underserved population must be. While the eligibility provision for loan guarantees for initial operating costs under section 1305 was revised to reduce from 30 percent to 10 percent the projected members of the HMO who must be from medically underserved populations (see § 110.503(b)(2)), the comparable eligibility provision for loan guarantees for planning and initial development projects under section 1304 (§ 110.402(b)(2)(ii)) was inadvertently left at 30 percent. In order to have uniform eligibility provisions, and because no public comments objecting to the 10-percent level in § 110.503(b)(2) were received, the Secretary has decided to amend this provision regarding planning and initial development projects to conform to the 10-percent requirement of the initial operating costs provision. This section has also been revised for greater clarity. Accordingly, the interim final regulations, published at 43 FR 6020, February 10, 1978, are adopted as final regulations with the following revision:

Section 110.402(b)(2)(ii) is revised to read as follows:

§ 110.402 Eligibility.

. . . . . .

(b) . . .
(2) . . .

(ii) In the case of private entities (other than nonprofit private entities), guarantees may be made pursuant to section 1304 of the Act and the regulations of subpart B of this part and this subpart to eligible applicants. The guarantees shall be for the payment of the principal of and the interest on loans for planning or initial development projects for (A) the establishment of health maintenance organizations, or (B) the significant expansion of health maintenance organizations. For any of these projects, at least 10 percent of the projected members of the health maintenance organization must be from medically underserved populations.

Dated: September 18, 1978.

JULIUS B. RICHMOND,
Assistant Secretary for Health.

Approved: October 18, 1978.

JOSEPH A. CALIFANO, JR.,
Secretary.

Title 45—Public Welfare

SUBTITLE A—OFFICE OF THE SECRETARY, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 13—ALLOCATION AND UTILIZATION OF SURPLUS PERSONAL PROPERTY FOR EDUCATIONAL, PUBLIC HEALTH, AND CIVIL DEFENSE PURPOSES

PART 14—MINIMUM STANDARDS OF OPERATION FOR STATE AGENCIES FOR SURPLUS PROPERTY

Rescission of Parts

AGENCY: HEW.

ACTION: Repeal of regulations.

SUMMARY: This action repeals 45 CFR Parts 13 and 14, "Allocation and Utilization of Surplus Personal Property for Educational, Public Health, and Civil Defense Purposes," and "Minimum Standards of Operation for State Agencies for Surplus Property." The statutory authority of the Secretary to donate surplus personal property was terminated on October 17, 1977, by Pub. L. 94-519.

EFFECTIVE DATE: Immediately.

FOR FURTHER INFORMATION CONTACT:

C. A. Patterson, Director, Office of Real Property, Office of Facilities Engineering, Department of Health, Education, and Welfare, Room 4624, 330 Independence Avenue SW., Washington, D.C. 20201, 202-245-1900.

SUPPLEMENTAL INFORMATION: 45 CFR Parts 13 and 14 prescribed basic procedures, terms and conditions, and operating standards for the donation of Federal surplus personal property for educational, public health, and civil defense purposes as authorized by section 203(j) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484). Pub. L. 94-519, effective October 17, 1977, amended the Federal Property and Administrative Services Act of 1949 to provide that the General Services Administration, rather than the Department of Health, Education, and Welfare, would administer the donation of personal property, and to expand eligibility to include any public agency for use in carrying out or promoting a broad array of public purposes. The Administrator of General Services has issued regulations at 41 CFR 10-44 concerning its donation procedures.

The repeal of parts 13 and 14 reflects the change made by Pub. L. 94-519, therefore, no notice of proposed rulemaking was provided.

Parts 13 and 14 of title 45 of the Code of Federal Regulations are deleted.

Dated: September 14, 1978.

LEONARD D. SCHAEFFER,
Assistant Secretary for Management and Budget.

Approved: October 18, 1978.

JOSEPH A. CALIFANO, JR.,
Secretary.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. No. 1343]

PART 1033—CAR SERVICE

Chicago, Milwaukee, St. Paul & Pacific Railroad Co. Authorized To Operate Over Tracks of Chicago & North Western Transportation Co.

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order (service order No. 1343).

SUMMARY: The line of the Chicago, Milwaukee, St. Paul & Pacific Railroad Co. (MILW) between Clinton, Iowa, and Tama, Iowa, is deteriorated and is in need of rehabilitation because of track conditions. Service order No. 1343 authorizes the MILW to operate over tracks of the Chicago & North Western Transportation Co. (CNW) between Clinton, Iowa, and Tama, Iowa; between Otis, Iowa, and Cedar Rapids, Iowa; and between Beverly, Iowa, and Cedar Rapids, Iowa. This order will permit continued through service between Clinton, Iowa, and Tama, Iowa, and continued service to Cedar Rapids.

DATES: Effective 12:01 a.m., October 25, 1978; expires 11:59 p.m., December 15, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, telephone 202-275-7840, Telex 89-2742.

SUPPLEMENTARY INFORMATION: The order is printed in full below.

Decided October 23, 1978.

The line of the Chicago, Milwaukee, St. Paul & Pacific Railroad Co. (MILW) between Clinton, Iowa, and Tama, Iowa, has deteriorated, and the line is in need of rehabilitation. Traffic moving over this line is subject to delays on account of the poor condition of the track. These delays are causing the loss of utilization of badly needed freight cars. An alternate route is available over tracks of the Chicago & North Western Transportation Co. (CNW).

The MILW has requested and the CNW has agreed to use by MILW of CNW parallel track between Clinton, Iowa, and Tama, Iowa, in order to continue service to shippers in western Iowa. MILW plans to file an application for abandonment of its line between Green Island, Iowa, and Tama,

Iowa, when operations commence be-

(f) *Expiration date.* The provisions

FOR FURTHER INFORMATION

proposed rules

V 4 3 / 2 0 9 0 C 2 7 7 8

Iowa, when operations commence between Clinton and Tama over the CNW. MILW has requested and CNW has agreed to use by MILW of 3.8 miles of CNW track from Otis, Iowa, to Cedar Rapids, Iowa, in order to have acess to MILW's trainyard, and of 1.8 miles of CNW track from Beverly, Iowa, to Cedar Rapids, Iowa, to have access to MILW's trainyard and to serve various industries. MILW plans to file an application for permanent authority to operate over these tracks.

It is the opinion of the Commission that an emergency exists requiring operation of MILW trains over these tracks of the CNW in the interest of the public; that notice and public procedure are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered,

Section 1033.1343 Service order No. 1343. Chicago, Milwaukee, St. Paul & Pacific Railroad Co. authorized to operate over tracks of Chicago & North Western Transportation Co. (a) The Chicago, Milwaukee, St. Paul & Pacific Railroad Co. (MILW) is authorized to operate over tracks of the Chicago & North Western Transportation Co. (CNW) between milepost 0.1 at Clinton, Iowa, and milepost 133.2 at Tama, Iowa, a distance of approximately 133.1 miles; between milepost 77.8 at Otis, Iowa, and milepost 81.6 at Cedar Rapids, Iowa, a distance of approximately 3.8 miles; and between milepost 86.1 at Beverly, Iowa, and milepost 84.3 at Cedar Rapids, Iowa, a distance of approximately 1.8 miles.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(c) *Rates applicable.* Inasmuch as this operation by the MILW over tracks of the CNW is deemed to be due to carrier's disability, the rates applicable to traffic moved by the MILW over the tracks of the CNW shall be the rates which were applicable on the shipments at the time of shipment as originally routed.

(d) Nothing in this order shall be deemed to prejudge the decisions of the Commission in the applications of the MILW seeking permanent authority to operate over these tracks of the CNW.

(e) *Effective date.* This order shall become effective at 12:01 a.m., October 25, 1978.

(f) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., December 15, 1978, unless otherwise modified, changed, or suspended by order of this Commission.

(49 U.S.C. 1(10-17).)

This order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association. Notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington, and John R. Michael.

H. G. HOMME, JR.,
Acting Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Opening of DeSoto National Wildlife Refuge, Nebr., to Muzzleloader Deer Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to muzzleloader deer hunting of the DeSoto National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: December 16, 1978 through December 20, 1978, both dates inclusive.

FOR FURTHER INFORMATION CONTACT:

George Gage, Refuge Manager, DeSoto National Wildlife Refuge, R-1, Box 114, Missouri Valley, Iowa 51555, telephone AC 712-642-4121.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Muzzleloader hunting of deer on the DeSoto National Wildlife Refuge, Nebr., is permitted only on the area designated by signs as being open to hunting. This area contains approximately 3,350 acres.

All hunting shall be in accordance with applicable State regulations subject to the following conditions:

1. A total of 100 special permits will be issued for the hunt by the Nebraska Game and Parks Commission. Only those persons possessing a valid permit will be allowed to enter the open area;

2. Muzzleloader rifles are the only weapons allowed and deer are the only legal wildlife species that may be taken during the hunt;

3. Discharging firearms from or across all roads open to vehicle traffic, including adjacent rights-of-way, is prohibited;

4. Parking is restricted to designated parking areas and road shoulders of unpaved roads. Parking on shoulders of paved roads is prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuges generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

(Sec. 2, 33 Stat. 614, as amended; sec. 5, 43 Stat. 651; sec. 5, 45 Stat. 449; sec. 10, 45 Stat. 1224; sec. 4, 48 Stat. 402, as amended; sec. 4, 48 Stat. 451, as amended; sec. 2, 48 Stat. 1270; sec. 4, 80 Stat. 927; 5 U.S.C. 301, 16 U.S.C. 685, 725, 690d, 715i, 664, 718d, 43 U.S.C. 315a; 16 U.S.C. 460k, 668dd; sec. 2, 80 Stat. 926; 16 U.S.C. 668bb.)

NOTE: The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring the preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: October 20, 1978.

GEORGE E. GAGE,
Refuge Manager.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[3410-30-M]

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

[7 CFR Part 230]

NONFOOD ASSISTANCE PROGRAM

Change of Title of Program to Food Service Equipment Assistance Program

AGENCY: Food and Nutrition Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed rule would amend the Nonfood Assistance Program regulations to change the title of the Program to "Food Service Equipment Assistance Program" and to bring the regulations into conformance with Pub. L. 95-166 which contains several provisions designed to encourage the onsite preparation of hot meals. To accomplish this objective the regulations are being amended to: (a) Change the types of schools eligible to recieve reserved funds to include schools without facilities to prepare and cook hot meals; (b) extend the reserve provision for 3 years; (c) give priority in the use of unreserved funds to schools without a food service, schools without the facilities to prepare and cool hot meals or receive hot meals, and schools having equipment that is so antiquated or impaired as to endanger the continuation of an adequate food service program or the ability to prepare and cook hot meals and; (d) provide food service equipment purchased with food service equipment assistance funds to public or private nonprofit institutions for use in providing food service to children attending schools eligible for food service equipment assistance funds. Additional technical changes are being made for clarification.

DATES: Comments just be postmarked on or before December 22, 1978 to be assured of consideration.

ADDRESS: Send comments to Margaret O'K. Glavin, Acting Director, School Programs Division, Food and Nutrition Service, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT:

Margaret O'K. Glavin, Acting Director, School Programs Division, Food and Nutrition Service, USDA, Washington, D.C. 20250, 202-447-8130. All written submissions received pursuant to this notice will be made available for public inspection in room 4300B, Auditors Building School Programs Division, Food and Nutrition Service, during regular business hours (8:30 am to 5 pm) (7 CFR 1.27(b)).

SUPPLEMENTARY INFORMATION:

CHANGE OF PROGRAM TITLE

Section 3 of Pub. L. 95-166 amended the National School Lunch Act and the Child Nutrition Act of 1966 to change the title of the Nonfood Assistance Program to Food Service Equipment Assistance Program. Such change in the regulations would make the title more descriptive of the type of services offered to schools through this Program.

USE OF RESERVED FUNDS

Section 4 of Pub. L. 95-166 amended section 5 of the Child Nutrition Act of 1966 to encourage and give strong preference to the onsite preparation of hot meals. Prior to the enactment of Pub. L. 95-166, one-third of the funds appropriated for the Nonfood Assistance Program was reserved to assist schools without a food service program and schools without the facilities to prepare or receive hot meals meeting requirements of the National School Lunch Program or the School Breakfast Program. ("reserved funds"). Pub. L. 95-166 extends this reserve provision for 3 years and changes the types of schools eligible to receive reserved food service equipment assistance funds to include "schools without facilities to prepare and cook hot meals". The proposed regulations would define schools without facilities to prepare and cook hot meals as schools whose food service equipment is limited to the service of cold meals only and schools that can only heat frozen or chilled individual preportioned meals. The proposed regulations would address the intent of the legislation that schools without facilities to prepare and cook hot meals or receive hot meals be eligible for reserved funds. Such schools may use the reserved funds only to convert to a food service operation that has facilities to prepare and cook hot meals or receive hot meals. Reserved funds cannot be used to purchase or rent equipment for the continuation or expansion of an ongoing food service operation which lacks facilities to prepare and cook hot meals or receive hot meals.

USE OF UNRESERVED FUNDS

Unreserved funds may be used in any school eligible for food service equipment assistance funds. Generally, such funds are used to purchase food service equipment needed to maintain or expand existing school food service operations. These proposed regulations would implement the provision of Pub. L. 95-166 that unreserved funds be distributed to schools on a priority basis. Funds would be made available in the following order: (1) Schools without a food service, (2) schools without the facilities to prepare and cook hot meals or receive hot meals and, (3) schools having equipment that is so antiquated or impaired as to endanger the continuation of an adequate food service program or the ability to prepare and cook hot meals.

Schools without the facilities to prepare and cook hot meals or receive hot meals may receive unreserved funds on a priority basis only to convert to a food service operation that has facilities to prepare and cook hot meals or receive hot meals. If funds remain for distribution after satisfying the needs of the schools in the three (3) priority categories, such funds may be used for the purchase or rental of equipment to maintain or expand existing food service operations.

EXPANDED USE OF FOOD SERVICE EQUIPMENT ASSISTANCE FUNDS

Also, as a result of the new legislation, the proposed regulations would expand the use of food service equipment assistance funds to certain public or private nonprofit institutions which do not themselves participate in the school nutrition programs. In circumstances where schools are unable to establish a food service program that has the facilities to prepare and cook hot meals or receive hot meals, the school may contract with such an institution to provide meals to children attending such schools. Equipment acquired with food service equipment assistance funds may be used to equip the food service operations of the institution. For example, if a school is without a food service program and eligible for food service

equipment assistance funds, but lacks space to install a kitchen, the school

4. In § 230.2, a new paragraph (n-1) is added and paragraph (ee) is revised

for further apportionment among the remaining States in the manner and

Authorities or from other State or local sources and payments made by

public or private nonprofit institutions under the conditions prescribed in

program funds. State agencies and School Food Authorities may follow their own

V 43/209 OCT 27 78

equipment assistance funds, but lacks space to install a kitchen, the school may contract with a community center to provide meals to its children. The school may equip the community center's kitchen with equipment purchased with food service equipment assistance funds. However, there are several restrictions to this provision namely; (1) The school must retain legal title to the equipment and (2) if reserved funds are used, the institution would otherwise have been without food service equipment.

OTHER LEGISLATIVE CHANGES

The legislation also requires other changes in the operation of the Program. These include the Secretary's approval of the State's criteria for determining especially needy schools under the Food Service Equipment Assistant Program and deleting the section pertaining to the disposition of equipment in private schools.

In order to effect the former change, the proposed rule would require State agencies and FNSROs, as applicable, to include their criteria for especially needy schools in the State Plan of Child Nutrition Operations.

Under the current legislation, reserved funds are reapportioned as reserved funds as many times per fiscal year as the Secretary determines a reapportionment is necessary. The proposed rule would change this provision to allow only one reapportionment of reserved funds as reserved funds per fiscal year. Any funds remaining in that fiscal year would be reapportioned as unreserved funds.

Currently, the property management requirements in the regulations require different procedures for the disposition of personal property in public and private schools. These proposed regulations would require private school property to be disposed of in the same manner as public school property. This is in accordance with OMB Circular No. A-102 and Pub. L. 95-166.

Accordingly, part 230 would be amended as follows:

1. The title "Nonfood Assistance Program" is deleted each time such title appears in this part and the title "Food Service Equipment Assistance Program" is inserted in lieu thereof.

2. The phrase "nonfood assistance" is deleted each time such phrase appears in this part and the phrase "food service equipment assistance" is inserted in lieu thereof.

3. The phrase "prepare or receive hot meals" is deleted each time such phrase appears in this part and the phrase "prepare and cook hot meals or receive hot meals" is inserted in lieu thereof.

4. In § 230.2, a new paragraph (n-1) is added and paragraph (ee) is revised to read as follows:

§ 230.2 Definitions.

. . . . . .

(n-1) "Frozen or chilled individual preportioned meal" means a preportioned combination of foods meeting the National School Lunch Program or School Breakfast Program requirements that are received chilled or frozen at the school to be served as an individual meal. Such meal may be packaged in one or more containers and may require heating at the school prior to serving.

. . . . . .

(ee) "School without facilities to prepare and cook hot meals or receive hot meals" means a school that lacks adequate facilities to prepare, cook, and serve hot meals onsite which meet the requirements of the National School Lunch and School Breakfast Programs and also lacks facilities to receive meals hot and serve them hot when such meals are available from a kitchen operated by the School Food Authority. A school that lacks the facilities to prepare, cook, and serve hot meals onsite or to receive meals hot and serve them hot, and that receives chilled or frozen meals that are not cooked onsite but are delivered to the school and heated at the school, shall be considered a "school without facilities to prepare and cook hot meals or receive hot meals."

. . . . . .

5. In § 230.4, paragraph (b) is deleted and paragraphs (c), (d) and (e) are revised and redesignated as (b), (c), and (d).

§ 230.4 Apportionment of funds to States.

. . . . . .

(b) For the fiscal years ending September 30, 1979, and September 30, 1980, 33⅓ percent of the funds appropriated for food service equipment assistance under the Act shall be apportioned among the States on the basis of the ratio of the number of children in each State enrolled in schools without a food service and in schools without the facilities to prepare and cook hot meals or receive hot meals to the number of children in all States enrolled in schools without a food service and in schools without the facilities to prepare and cook hot meals or receive hot meals.

(c) If any State agency, or FNSRO, where applicable, cannot use all the funds apportioned to it under paragraph (a) or (b) of this section, it shall release such funds to the Department for further apportionment among the remaining States in the manner and for the purpose of the respective initial apportionment: Provided, however, That no further apportionment shall be made if the Department determines that the amount of such funds is too small to make a further apportionment. If funds apportioned under paragraph (b) of this section remain unused after one reapportionment of these funds as reserved funds the Secretary shall immediately apportion such funds among the States as unreserved funds in accordance with the provisions of paragraph (a) of this section.

(d) A share of the Program funds apportioned to any State in accordance with paragraph (a) or (b) of this section shall be withheld by FNS for schools of that State if the State agency is prohibited by law from administering the Program with respect to such schools. The amount withheld from the funds apportioned under paragraph (a) of this section shall bear the same ratio to such apportioned funds as the number of lunches, meeting the requirements of § 210.10 of Part 210 of this chapter and served in such schools in such State in the latest preceding fiscal year for which the Secretary determines data are available at the time such funds are withheld, bears to the total number of such lunches served in all schools within such State in such preceding fiscal year. The amount withheld under paragraph (b) of this section shall bear the same ratio to such funds as the number of children, enrolled in such State in such schools without a food service and without the facilities to prepare and cook hot meals or receive hot meals, bears to the total number of children enrolled in such State in such fiscal year, in all schools without a food service and without the facilities to prepare and cook hot meals or receive hot meals.

6. In § 230.7, paragraph (a) is revised to read as follows:

§ 230.7 Matching of funds.

(a) During any fiscal year, payments made by FNS to each State agency and payments made by FNSRO to School Food Authorities shall be upon the condition that at least one-fourth of the cost of the equipment financed under this subsection shall be borne by funds from sources within the State: Provided, however, That payments used to assist schools that are especially needy, as determined by criteria established by the State agency, or FNSRO where applicable, and approved by the Secretary, shall not be so matched. Payments made by FNS to a State agency may be matched, where matching is required, either by the respective recipient School Food Authorities or from other State or local sources and payments made by FNSRO to a School Food Authority may be matched either by the recipient School Food Authority or from other funds available to such School Food Authorities within the State in which the Program is administered by FNS.

. . . . . .

7. In § 230.8, the paragraph is designated as paragraph (a) and the last sentence is deleted and new paragraphs (b), (c), (d), and (e) are added to read as follows:

§ 230.8 Use of funds.

. . . . . .

(b) Funds apportioned under paragraph (a) of § 230.4 may be used to reimburse School Food Authorities of any eligible school. However, States shall use their share of unreserved funds as described under paragraph (a) of § 230.4 by giving priority to three (3) types of schools in the following order: (1) Schools without a food service, (2) schools without the facilities to prepare and cook hot meals or receive hot meals, and (3) schools having equipment that is so antiquated or impaired as to endanger the continuation of an adequate food service program or the ability to prepare and cook hot meals. After making funds available to such schools, the State shall make the remaining funds available to schools with a food service and with the facilities to prepare and cook hot meals or receive hot meals for the purpose of purchasing or renting needed replacement equipment.

(c) States shall use their share of reserved funds as described under paragraph (b) of § 230.4 to reimburse School Food Authorities of schools without a food service and School Food Authorities of schools without the facilities to prepare and cook hot meals or receive hot meals. In schools without the facilities to prepare and cook hot meals or receive hot meals reserved funds may be used only to convert to a food service operation that has facilities to prepare and cook hot meals or receive hot meals. In such schools, reserved funds cannot be used to purchase or rent equipment for the continuance or expansion of an ongoing food service operation which lacks the facilities to prepare and cook hot meals or receive hot meals. This restriction does not apply to schools without a food service, although the provisions of paragraph (d) of this section are applicable to schools without a food service.

(d) Food service equipment assistance funds shall be used only for facilities that enable schools or local public or private nonprofit institutions under the conditions prescribed in paragraph (e) of this section to prepare and cook hot meals or receive hot meals at the school or institution unless the School Food Authority can demonstrate to the satisfaction of the State agency or FNSRO where applicable, that an alternate method of meal preparation is necessary for the introduction or continued existence of the school lunch or breakfast programs in the schools or to improve the consumption of food or the participation of eligible children in the programs.

(e) If a School Food Authority authorized to receive funds under this section cannot establish a food service program of hot meals prepared and cooked by the school, or received by the school, and the School Food Authority enters into an agreement with a public or private nonprofit institution to provide lunches or breakfasts meeting program nutritional requirements for children attending the school, the funds provided under this section may be used for food service equipment to be located at such institution, if the school retains legal title to such food service equipment and if, in the case of funds made available under § 230.4(b), the institution would otherwise be without food service equipment.

8. In § 230.12, a new paragraph (i) is added to read as follows:

§ 230.12 Special responsibilities.

. . . . . .

(i) In accordance with the State Plan of Child Nutrition Operations submitted under § 210.4 (a) the State agency, or FNSRO where applicable, shall include the criteria for especially needy schools under the Food Service Equipment Assistance Program. Such criteria shall include as a minimum, the percentage of enrolled children eligible for free and reduced price meals. The percentage shall not be established at a level to exclude all or nearly all schools in the State.

9. In § 230.16 the title of the paragraph (b)(3) is amended to read "Disposition"; paragraph (b)(4) is deleted; paragraph (b)(5) is redesignated as paragraph (b) (4); and paragraphs (a) and (c) are amended to read as follows:

§ 230.16 Property management requirements.

(a) *General purpose and scope.* This section prescribes policies and procedures governing title, use, and disposition of personal property obtained by a State agency or School Food Authority for eligible schools, whose cost was borne in whole or in part with Food Service Equipment Assistance Program funds. State agencies and School Food Authorities may follow their own property management policies and procedures provided they observe the requirements of this section.

. . . . . .

(c) *Expendable personal property.* The State agency or School Food Authority may at its option either retain or sell items of expendable personal property on hand when no longer needed for any federally sponsored activity (including activities sponsored by other Federal agencies). Compensation to the Department or State agency, as applicable, is required if the aggregate fair market value of all expendable personal property on hand acquired under the grant or contract exceeds $1,000 when no longer needed for any federally sponsored activity. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original property to the current fair market value of items retained and to the sale proceeds of items sold.

. . . . . .

(Catalog of Federal Domestic Assistance No. 10.554, National Archives Reference Services.)

NOTE.—The Food and Nutrition Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: October 20, 1978.

CAROL TUCKER FOREMAN,
Assistant Secretary for Food and Consumer Services.

Rural Electrification Administration

[7 CFR Part 1701]

DATA PROCESSING SYSTEMS

Proposed Revision of REA Bulletin

AGENCY: Rural Electrification Administration.

ACTION: Proposed rule.

SUMMARY: REA proposes to revise REA Bulletin 107-1:407-1 to increase the amount borrowers may spend for data processing equipment without prior REA approval from $25,000 to $50,000; to incorporate earlier recommendations dated March 5, 1973, regarding the need for backup in the event of disaster; and to change REA's recommendations regarding lease versus purchase of computer equipment.

REA is changing its recommendations regarding lease versus purchase because in recent years the computer industry has changed its marketing strategy to encourage purchase. Lease expense often exceeds purchase costs in 3 years. REA wants to give borrowers more freedom to manage; therefore, the amount borrowers can spend for data processing equipment was increased. The increase in the amount borrowers can spend will also result in fewer requests to REA for approval to use general funds to purchase data processing equipment.

DATE: Public comments must be received by REA no later than December 26, 1978.

ADDRESS: Persons interested in the revised bulletin may submit written data, views, or comments to the Director, Electric Borrowers' Management Division, Rural Electrification Administration, Room 3342, South Building, U.S. Department of Agriculture, Washington, D.C. 20250. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Electric Borrowers' Management Division, during regular business hours.

MEAT OR POULTRY PRODUCTS

Availability of Net Weight Study and Reopening of Comment Period

AGENCY: Food Safety and Quality Service, USDA.

ACTION: Proposed rule: Notice of availability of study and reopening of comment period.

SUMMARY: On December 2, 1977, the Department published in the FEDERAL REGISTER (42 FR 61279) a proposal containing uniform requirements and compliance procedures for label statements of net quantity of contents for meat and poultry products. The comment period was to end March 2, 1978, but later was extended to June 2, 1978 (43 FR 8807). In order to make an informed decision on the proposed rule, the Department contracted for a study to determine the economic impact of the prosposal on consumers. The study is available to the public and comments on this study are solicited. Therefore, the comment period on the proposed rules is reopened until December 26, 1978, for the limited purpose of obtaining public comment on the study.

DATES: Comments must be received on or before December 26, 1978.

ADDRESSES: Copies of the study may be obtained by contacting: Executive Secretariat, Attn: Ann Langlois, Room 3167, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-2142. Send written comments to Ann Langlois, Executive Secretariat, Room 3167, U.S. Department of Agriculture, Washington, D.C. 20250.

[9 CFR Part 381]

CHARGES FOR INSPECTION FOR PURPOSES OF EXPORT CERTIFICATION

Clarification

AGENCY: Food Safety and Quality Service, USDA.

ACTION: Proposed rule.

SUMMARY: As the result of a 1975 amendment to § 381.37(c) of the poultry products inspection regulations (9 CFR 381.37(c)), exporters of poultry products shall be provided inspection service, without charge, for up to 8 consecutive hours per shift during the basic workweek. However, § 381.105(a) of the regulations (9 CFR 381.105(a)), which applies to inspection for purposes of export certification, requires such inspection service to be performed only at official establishments. When taken together, these regulations appear to permit free inspection service, for purposes of export certification, only if the poultry products to be exported are presented for inspection at official establishments. This is contrary to the intent of § 381.37(c), as amended. This document proposes the deletion of the portion of the export certification regulation that, in effect, restricts the provision of free inspection service for such purposes to those inspections performed at official establishments.

DATES: Comments must be received on or before December 26, 1978.

ADDRESS: Written comments to: Executive Secretariat, Attention: Ann Langlois, U.S. Department of Agriculture, Room 3167, South Agriculture Building, Washington, D.C. 20250. Oral comments to: Dr. A. V. Giesemann 202-447-3219. (For additional information on comments, see supplementary information.)

FOR FURTHER INFORMATION CONTACT:

Dr. A. V. Giesemann, Acting Chief Staff Officer, Inspection Standards and Regulations Staff, Technical Services, Food Safety and Quality Service, U.S. Department of Agriculture, Room 4444, South Building, Washington, D.C. 20250, 202-447-3219.

SUPPLEMENTARY INFORMATION:

COMMENTS

Interested persons are invited to submit comments concerning this proposal. Written comments must be sent in duplicate to the office of the Executive Secretariat. Comments should bear a reference to the date and page number of this issue of the FEDERAL REGISTER. Any person desiring opportunity for oral presentation of views concerning the proposed amendments to the poultry products inspection regulations must make such request to Dr. Giesemann so that arrangements may be made for such views to be presented. A transcript shall be made of all views orally presented. All comments submitted pursuant to this notice will be made available for public inspection in the office of the Executive Secretariat during regular hours of business.

BACKGROUND

This document, in effect, proposes a clarification. As a result of a 1975 amendment to § 381.37(c) of the poultry products inspection regulations (9 CFR 381.37(c)), poultry exporters are now furnished free inspection service for up to 8 consecutive hours per shift during the basic workweek. (see 40 FR 45798). Prior to the amendment, exporters had been required to pay for all inspection services provided. The change in policy was intentional, and fully, though briefly discussed in the rulemaking. However, § 381.105(a) of the regulations (9 CFR 381.105(a)), currently limits inspection, for purposes of export certification, to the products presented for inspection at official establishments. When the two regulations are taken together, they could be constituted as limiting the provision of free inspection service, for purposes of export certification, to the products that are presented for inspection at official establishments. Since this is not the intention of § 381.37(c), as amended, this document proposes the deletion of the portion of the export certification regulation (9 CFR 381.105) which, in effect, limits the provision of free inspection service for such purposes to those inspections performed at official establishments.

§ 381.105 [Amended]

Accordingly, the Federal poultry products inspection regulations (9 CFR 381.1 et seq.) would be amended to delete the proviso in the first sentence of § 381.105(a).

NOTE.—The Department of Agriculture has determined that this regulation does not have major economic consequences requiring preparation of a regulatory analysis in accordance with section 3 of Executive Order 12044 (March 24, 1978).

Done at Washington, D.C., on October 19, 1978.

SYDNEY J. BUTLER,
Acting Administrator,
Food Safety and Quality Service.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 2.34 of the Commission's rules of practice (16 CFR 2.34), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, has been placed on the public record, together with material submitted to the Commission that is not exempt from public disclosure under the Freedom of Information Act, for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with § 4.9(b)(14) of the Commission's rules of practice (16 CFR 4.9(b)(14)).

UNITED STATES OF AMERICA BEFORE FEDERAL TRADE COMMISSION

In the matter of New Jersey Pest Control Association, Inc., a corporation, file No. 7610003, agreement containing consent order to cease and desist.

The Federal Trade Commission having initiated an investigation of certain acts and practices of New Jersey Pest Control Association, Inc., a corporation, hereinafter sometimes referred to as proposed respondent, and it now appearing that proposed respondent is willing to enter into an agreement containing an order to cease and desist from the use of the acts and practices being investigated.

It is hereby agreed, by and between New Jersey Pest Control Association, Inc., by its duly authorized officer, and its attorneys, and ocunsel for the Federal Trade Commission that:

1. Proposed respondent New Jersey Pest Control Association, Inc. is a corporation organized, existing, and doing business under and by virtue of the laws of the State of New Jersey, with its office and principal place of business located at 475 Prospect Avenue, West Orange, N.J.

2. Proposed respondent admits all the jurisdictional facts set forth in the draft of complaint here attached.

3. Proposed respondent waives:

(a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

4. This agreement shall not become a part of the official record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission it, together with the draft of complaint contemplated thereby, will be placed on the public record for a period of sixty (60) days information in respect thereto publicly released; and such acceptance may be withdrawn by the Commission if comments or views submitted to the Commission disclose

facts or considerations which indicate that the order contained in the agree-

in, or carrying out any agreement, understanding, or combination, express

It is further ordered, That respondent shall within thirty (30) days of

days after service upon it of this order, file with the Commission a report, in

maintaining, or aiding their members to act together to initiate or maintain:

Proposed Rulemaking Which Would Require Interstate Natural Gas Pipelines To Elect To

facts or considerations which indicate that the order contained in the agreement is inappropriate, improper, or inadequate.

5. This agreement is for settlement purposes only and does not constitute an admission by proposed respondent that the law has been violated as alleged in the draft of complaint here attached.

6. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 2.34 of the Commission's rules, the Commission may, without further notice to proposed respondent, (1) issue its complaint corresponding in form and substance with the draft of complaint here attached and its decision containing the following order to cease and desist in disposition of the proceeding and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified, or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Mailing of the complaint and decision containing the agreed to order to respondent's address as stated in this agreement shall constitute service. Respondent waives any right it may have to any other manner of service. The complaint may be used in construing the terms of the order, and no agreement, understanding, representation, or interpretation not contained in the order or the agreement may be used to vary or to contradict the terms of the order.

7. Proposed respondent has read the proposed complaint and order contemplated hereby, and it understands that once the order has been issued, it will be required to file one or more compliance reports showing that it has fully complied with the order, and that it may be liable for a civil penalty in the amount provided by law for each violation of the order after it becomes final.

ORDER

It is ordered, That respondent New Jersey Pest Control Association, Inc., a nonprofit corporation, and its officers, directors, agents, representatives, employees, successors, and assigns, directly or indirectly, through any corporation, subsidiary, division, committee, or other device, in connection with respondent association's business, or with the offering for sale, sale, distribution, or promotion of pest control goods or services, in or affecting commerce, as commerce is defined in the Federal Trade Commission Act, as amended, shall forthwith cease and desist from entering into, cooperating in, or carrying out any agreement, understanding, or combination, express or implied, or unilaterally to do, adopt or perform any of the following acts, policies, or practices:

1. Failing to grant equal, uniform, and nondiscriminatory membership upon written application therefor, to any dealer in pest control goods or services actually doing business within the territorial limits served by respondent association; except that this order paragraph shall not prohibit the respondent from denying membership to an applicant who has not complied with State or Federal laws pertaining to qualification for the practice of pest control within the territorial limits served by respondent association.

2. Fixing, maintaining, establishing, setting, or attempting to fix, maintain, establish, or set, prices, terms, or conditions of sale or price floors or minimum charges to consumers for pest control goods or services.

3. Eliminating or attempting to eliminate the granting or offering of discounts, or the advertisement of prices or discounts.

4. Requesting, suggesting, encouraging, requiring, or demanding the reporting to respondent of dealers believed to be engaged in price cutting, or believed to be engaged in the granting, offering, or advertisement of price cuts or discounts.

5. Requesting, suggesting, requiring, demanding, or prevailing upon any advertising medium to refuse, condition, qualify, or change advertising placed or sought to be placed by any dealer in pest control goods or services, because such dealer is not a member of respondent, or because such advertising contains representations relating to prices, terms, or conditions of sale not approved by respondent or any member of the respondent; except that this paragraph shall not be construed in such a way as to prohibit the respondent from informing advertising media that a firm is representing itself to be a member of respondent or is using respondent's logo when, in fact, such firm is not a member of respondent.

6. Restricting or preventing, or attempting to restrict or prevent, dealers in pest control goods or services from carrying on lawful courses of action, and engaging in trade and commerce by lawful methods of their own choosing.

7. Eliminating or attempting to eliminate competition between or among dealers in pest control goods and services.

8. Requiring or requesting members of, or applicants for, membership in respondent to submit or disclose prior, current, or planned advertising, or prior, current, or planned prices.

It is further ordered, That respondent shall within thirty (30) days of the effective date of this order:

(1) Advise in writing and by mail all dealers in pest control services discovered through the best efforts of respondent to be doing business within the territorial limits served by respondent, that all dealers so engaged, and complying with State and Federal laws pertaining to qualification for engaging in pest control services within such territorial limits, are eligible to join respondent association on equal, uniform, and nondiscriminatory terms.

(2) Mail a copy of this order to each dealer in pest control services discovered through the best efforts of respondent to be doing business within the territorial limits served by respondent.

It is further ordered, That immediately upon completion of the above mailings, respondent obtain from the person actually performing the required mailing of each notice and order, an affidavit verifying the mailing of each such document, and specifying the particular business entity and address to which each such document had been mailed.

It is further ordered, That respondent shall within thirty (30) days after the date of service of this order, amend its charter, bylaws, rules, and regulations by eliminating therefrom any provision which is contrary to or inconsistent with any provision of this order, and that respondent shall thereafter require as a condition of membership that all present and future members of respondent act in accordance with the provisions of this order.

It is further ordered, That respondent shall keep full and complete records relating to the following and shall retain the same for 3 years:

(a) Standards for admission to and retention of membership in the respondent;

(b) All denials of membership in the respondent;

(c) All expulsions or withdrawals from, or nonrenewals of membership in the respondent;

(d) All correspondence and minutes, formal or informal, kept by or on behalf of the respondent and its committees.

It is further ordered, That respondent trade association notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondent herein shall within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it complied with this order including copies of all affidavits required by this order to be obtained by the respondent.

NEW JERSEY PEST CONTROL ASSOCIATION, INC. DOCKET NO. ——

ANALYSIS OF PROPOSED CONSENT ORDER TO AID PUBLIC COMMENT

The Federal Trade Commission has accepted an agreement to a proposed consent order from New Jersey Pest Control Association, Inc.

The proposed consent order and material submitted by New Jersey Pest Control Association, Inc. to the Commission that is reasonably related to the merits of the order and is not exempt from disclosure under the Freedom of Information Act have been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

The New Jersey Pest Control Association, Inc., a New Jersey coporation, is a trade association representing a number of pest control dealers serving the New Jersey residential and commercial markets for pest control goods and services designed to eliminate insects and rodents, and several suppliers to the trade.

The complaint, in brief, alleges that the above association, along with others, including certain of its members, has violated section 5 of the Federal Trade Commission Act by:

1. Denying and restricting membership in such association by means of arbitrary rules and standards, thereby refusing the substantial competitive advantages of such membership to bona fide dealers in pest control goods and services;

2. Conspiring and combining to maintain price floors and higher prices for pest control goods and services; and to prevent price cutting and discounting by such means as encouraging the reporting of offers of discounts and through intimidation;

3. Denying full access to advertising media by prevailing upon such media to refuse, condition, qualify, or change advertising sought to be placed for such reasons as that such advertising contains prices, terms, or conditions of sale not approved by such association or its members.

The consent order is designed to protect consumers and competitors by preventing respondent from initiating, maintaining, or aiding their members to act together to initiate or maintain:

1. Practices resulting in the unfair exclusion of qualified and bona fide pest control dealers from the advantages of full and unrestricted membership in respondent association;

2. Practices having the purpose or effect of fixing or raising prices for pest control goods or services, such as attempts to eliminate the advertisement of discounts or to encourage the reporting of dealers believed to be making or advertising discounts; or

3. Practices designed to influence advertising media to refuse, condition, qualify, or change advertising sought to be placed by a pest control dealer because such dealer is not a member of respondent, or because such advertising contains prices, terms, or conditions of sale not approved by respondent or a member of the respondent.

The purpose of this analysis is to facilitate public comment on the proposed order and is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

CAROL M. THOMAS,
Secretary.

[18 CFR Part 154]

RATE SCHEDULES AND TARIFFS

Proposed Rulemaking Which Would Require Interstate Natural Gas Pipelines To Elect To Use Either a Purchased Gas Cost Adjustment Clause, or General Rate Cases, To Reflect in Its Rates Changes In Purchased Gas Costs

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of proposed rulemaking in docket No. RM79-1.

SUMMARY: The notice of proposed rulemaking, if adopted by the Federal Energy Regulatory Commission, would require interstate natural gas pipelines subject to the Commission's rate jurisdiction to elect every 3 years whether to recover changes in purchased gas costs through purchased gas cost adjustment clauses or general rate case filings.

It is the Commission's goal to reduce the time and effort spent reviewing filings to recover purchased gas costs either through general section 4 rate cases filed pursuant to § 154.63 or through PGA clause rate filings. It is also the goal of the Commission to reduce the burden upon pipeline companies by reducing the number of filings which they must prepare and prosecute, as well as to provide more rate stability for distributors and ultimate consumers of natural gas.

DATES: Comments are due on or before November 20, 1978.

ADDRESS: Interested persons may participate in this proposed rulemaking by submitting written data, views, or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT:

Charles E. Bullock, Office of the General Counsel, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, 202-275-4232.

The Federal Energy Regulatory Commission (the Commission) hereby gives notices that it proposes to adopt a regulation requiring jurisdictional pipeline companies to elect, on a 3-year basis beginning in 1979, whether to reflect changes in the purchased gas costs as defined by § 154.38(d)(4) of the regulations through purchase gas adjustment (PGA) clauses or through general rate filings made pursuant to 18 CFR § 154.63. Data, views, comments, and suggestions on the matter are invited in order to assist the Commission in its review of the proposal. The Commission requests discussion of the merits of the proposal and al-

ternative means, if any, of realizing its purpose.

PGA clause. At the end of the 3 years, if the pipeline had not made a filing to

comments shall be placed in the Commission's public files and will be avail-

election for an additional 3 years, subject to § 154.38(d)(4)(vi). If a company

clauses conforming to section 154.38(d)(4) of the regulations shall

In the event adjustments are made to the volumes of gas taken from any source

V 43 / 209 OCT 27 78

ternative means, if any, of realizing its purpose.

BACKGROUND

It is the Commission's goal to reduce the time and effort spent reviewing filings to recover purchased gas costs either through general section 4 rate cases filed pursuant to § 154.63 or through PGA clause rate filings. It is also the goal of the Commission to reduce the burden upon pipeline companies by reducing the number of filings which they must prepare and prosecute, as well as to provide more rate stability for distributors and ultimate consumers of natural gas.

This goal was in part implemented by Commission order No. 13, issued October 18, 1978, in docket No. R-406, published also in today's issue which limits to two the number of PGA filings that a pipeline may make in a year and specifies the dates on which the filings are made. However, even though the purpose of order No. 13 is to reduce the number of PGA filings, that goal may not be realized if the pipelines respond to that order by including changes in purchased gas costs in general section 4 rate filings made pursuant to § 154.63 and by increasing the frequency of such filings. The purpose of this proposal is to avoid substitution of general section 4 rate filings for PGA filings.

A pipeline can recover changes in purchased gas costs in a timely manner either through adoption of PGA procedures or section 4 procedures. Reliance on both are necessary only in cases where a pipeline company seeks to recover purchased gas costs that may not be included in PGA clauses, such as liquefied natural gas (LNG) or synthetic natural gas (SNG), and where a pipeline company can demonstrate to the Commission that it is (1) unable to arrange for financing of the balances being carried in the deferred account, or (2) is unable to earn its allowed rate of return because there is such a significant difference between the costs of financing the deferred amounts and the carrying charges allowed by the Commission.

Pursuant to this proposal, pipeline companies would be precluded for 3 years from including in section 4(e) rate filings pursuant to § 154.63 changes in purchased gas costs, except in certain specified circumstances, if they have elected to adopt or maintain a PGA clause.

SUMMARY OF THE PROPOSAL

Under the proposal, pipeline companies electing to adopt or maintain PGA clauses would be precluded from including changes in purchased gas costs in general section 4 rate cases, filed pursuant to § 154.63, for a period of 3 years from the date of electing a PGA clause. At the end of the 3 years, if the pipeline had not made a filing to the contrary with the Commission, it would be deemed to have elected to renew its election for an additional 3 years, subject to the provisions of § 154.38(d)(4)(vi). However, when a company could demonstrate to the Commission that it (1) is unable to arrange for the financing of the balances being carried in the deferred account, or (2) is unable to earn its allowed rate of return because there is a significant difference between the costs of financing the deferred amounts and the carrying charges allowed by the Commission, it could request a waiver of the PGA clause election to include in a general section 4(e) rate filing made pursuant to § 154.63, changes in purchased gas costs, as well as changes in other items of cost.

Under the proposal, as under the Commission's present regulations, PGA treatment (§ 154.38) would be applicable only to purchased gas costs as defined by § 154.38(d)(4). The costs of other purchased gas, such as LNG and SNG, cannot, under the present or the proposed regulations, be recovered through a PGA clause except where a company has obtained a waiver of the PGA regulations to allow recovery of these costs through the PGA clause. Thus where a waiver has not been obtained, the company would continue to use section 4 procedures pursuant to § 154.63 to collect those costs in its rates. When a company that had elected PGA procedures made a general section 4 rate filing to recover changes in other costs of operations, including the costs of LNG or SNG, the company would use the unit purchased gas cost reflected in its then effective PGA adjustment. In the section 4 proceeding, the company or any other party would be permitted to place in issue the appropriate volume of purchased gas.

Conforming amendments to § 154.63 have also been proposed.

PUBLIC COMMENT PROCEDURES

Interested persons may participate in this proposed rulemaking by submitting written data, views, or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on or before November 20, 1978. Each person submitting a comment should include his name and address, identify the notice (docket No. RM79-1), and give reasons for any recommendations. An original and 14 conformed copies should be filed with the Secretary of the Commission. Comments should indicate the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. Written comments shall be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street NE., Washington, D.C. 20426, during regular business hours.

(Natural Gas Act, as amended, 15 U.S.C. § 717 et seq., Department of Energy Organization Act, Pub. L. 95-91, E. O. 12009, 42 FR 46267.)

In consideration of the foregoing, it is proposed to amend part 154, chapter I of title 18 of the Code of Federal Regulations, as set forth below.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

1. Section 154.38 is amended in paragraph (d) by revising the introductory language in subparagraph (4) to read as follows:

§ 154.38 Composition of rate schedule.

* * * * *

(d) *Statement of rate.* * * *

(4) A natural gas pipeline company may elect to submit a purchased gas cost adjustment clause (PGA clause) to flow through changes in its cost of purchased gas.[1] Natural gas pipeline companies shall elect on a 3-year basis as of January 1, 1979, whether to recover all changes in purchased gas costs through general rate change filings or to recover changes in purchased gas costs through the PGA provisions. If a company elects to adopt or maintain a PGA clause § 154.38(4) shall be applicable. If a company elects to recover all changes in purchased gas costs through general rate changes filings made pursuant to § 154.63 of this part, such election shall be effective for 3 years, during which time the company may not adopt a PGA clause. At the end of the 3 years if the pipeline has not made a filing with the Commission to the contrary, the pipeline shall be deemed to have elected to renew its PGA clause

[1] For the purposes of this paragraph, purchased gas cost represents the cost of wellhead purchases, field line purchases, plant outlet purchases, transmission line purchases, and pipeline production from leases acquired on and after Oct. 7, 1969. Nonconcurrent exchange transactions may be reflected as a cost of purchased gas. If a company has underground storage, the cost of purchased gas included in accounts 800, 801, 802, 803, and where applicable, account 806, shall be debited or credited to reflect the net injections or withdrawals from underground storage. This adjustment shall be prorated between pipeline and producer supply. New pipeline supplies (contractual daily delivery obligations) and liquefied natural gas, synthetic natural gas, and gas from coal gasification shall not be reflected in a PGA clause without prior Commission approval.

election for an additional 3 years, subject to § 154.38(d)(4)(vi). If a company elects to adopt a PGA clause it may not include changes in purchased gas costs covered by the PGA clause in a general section 4 rate case filed pursuant to § 154.63 unless the commission has granted a waiver of the pipeline's election. To receive a waiver, the pipeline must demonstrate that it is unable to arrange for financing of the balances being carried in the deferred account, or is unable to earn its allowed rate of return because there is a significant difference between the costs of financing the deferred amounts and the carrying charges allowed by the Commission. No PGA clause shall become effective until approved by the Commission. No request for approval of a PGA clause will be considered by the Commission unless the proposed PGA clause indicates the following terms and conditions:

* * * * *

2. Section 154.63 is amended by revising subparagraphs (3) and (4) of paragraph (b) and by revising schedule H(1)-3 of paragraph (f) to read as follows:

§ 154.63 Changes in a tariff, executed service agreement or part thereof.

* * * * *

(b) *Material to be submitted.* * * *

(3) *Major rate increase.* Class A companies (as defined in Subchapter F, Uniform System of Accounts for Natural Gas Companies, of this chapter) shall submit, in addition to the material required by subparagraph (1) of this paragraph, statements A to M inclusive and O and P described in paragraph (f) of this section. Class B, C, and D companies, defined as above, shall file only statements L, M, N, O, and P. Statement P, which is required to be submitted by all classes of companies, may be furnished not later than 15 days after the date of the filing. A natural gas company filing another major increase in rates or charges within a period of 12 months after the date of filing of statements A through M and O and P or after the end of the test period used therein including the period of adjustments shown on statements A through M may submit for such other increase statements L, M, and N in lieu of statements A through M if the proposed new rate increase is filed to compensate only for an increase in the cost of purchased gas and there has been no material change in the company's facilities, sales volumes, and cost of service other than cost of purchased gas since such prior rate increase was filed. However, pipelines with Commission approved PGA clauses conforming to section 154.38(d)(4) of the regulations shall not be permitted to include changes in purchased gas costs in filings made pursuant to this subparagraph unless they have received a waiver of their PGA election pursuant to § 154.38(d)(4). Pipelines with Commission-approved PGA clauses making filings pursuant to this subparagraph shall reflect the unit cost of purchased gas costs as of the pipeline's latest Commission-approved PGA rate adjustment, unless the pipeline has received a waiver of its PGA election pursuant to § 154.38(d)(4).

(4) *Minor rate increase or rate decrease.* Only statements L through N need be filed in addition to the material required by subparagraph (1) of this paragraph. (Statements L through N are not required to make effective rate changes or tariff provisions ordered by the Commission.) A pipeline with an effective Commission-approved PGA clause conforming to § 154.38(d)(4) shall not be permitted to include changes in purchased gas costs in rate filings made pursuant to this subparagraph unless the pipeline has received a waiver of its PGA election pursuant to § 154.38(d)(4). A pipeline with an effective Commission-approved PGA clause shall reflect in any filing made pursuant to this subparagraph the unit cost of purchased gas cost as of the pipeline's latest Commission-approved PGA rate adjustment, unless the pipeline has received a waiver of its PGA election pursuant to § 154.38(d)(4).

* * * * *

(g) *Description of statements.* * * *

Schedule H(1)-3, a schedule showing either: (a) In the case of a pipeline which has a Commission-approved PGA clause in its tariff, its unit cost of purchased gas as set forth in the pipeline's latest Commission-approved PGA rate adjustment. However, the pipeline may adjust its purchased gas volumes as provided in (b) hereof; or (b) in the case of a pipeline which does not have a Commission-approved PGA clause in its tariff or in the case of a pipeline which has a Commission-approved PGA clause but obtains a waiver of its PGA clause election pursuant to § 154.38(d)(4), the total annual cost of gas purchased for the 12 months of actual experience, the adjustments thereto, and the total adjusted cost for test period, with the data grouped by States and producing areas and detailed by contract or rate schedule designation, field, volumes in Mcf at a common pressure base and price in total for the contracts or rate schedules under which actual or adjusted volumes exceed 1,000,000 Mcf annually. Field purchases under rate schedules where the actual or adjusted volumes are less than 1,000,000 Mcf annually may be grouped by field or producing area. Purchases from pipelines in any volume shall be shown in full detail by rate schedule including splits between demand and commodity charges.

In the event adjustments are made to the volumes of gas taken from any source during the 12 months of actual experience, a detailed explanation and data in support of the adjusted volumes shall be furnished. No adjustments are to be made to reflect the attachment of new gas supplies unless both the filing company and the supplier have each obtained the required permanent or temporary certificates of public convenience and necessity and the necessary facilities by both are or will have been in operation during the test period.

In the event the adjustments to volume aggregate more than 10 percent of the total volume of gas purchased during the 12 months of actual experience, and are due to change in gas purchase pattern or additional gas supply, the minimum take-or-pay-for quantities for each source of supply, applicable at the end of the test year period, and the reasons for making such adjustments shall be submitted.

If the company purchases and sell gas under exchange agreements, the method of recording on books, total gross volumes exchanged, net dollar amounts involved and details of each major exchange shall be submitted.

TOCOPHEROLS AND DERIVATIVES

Proposed Affirmation of Gras Status for Certain Tocopherols and Removal of Certain Others From Gras Status as Direct Human Food Ingredients

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: This is a proposal to affirm the generally recognized as safe (GRAS) status of *dl*-α-tocopherol, mixed tocopherol concentrate, *d*-α-tocopheryl acid succinate, *d*-α-tocopheryl acetate, and *dl*-α-tocopheryl acetate as direct human food ingredients and to remove *d*-α-tocopherol and *d*-α-tocopheryl acetate concentrate from GRAS status as direct human food ingredients. The safety of these ingredients has been evaluated under a comprehensive safety review being conducted by the agency. The proposal would list *dl*-α-tocopherol, mixed tocopherol concentrate, *d*-α-tocopheryl acid succinate, *d*-α-tocopheryl acetate, and *dl*-α-tocopheryl acetate as direct food substances affirmed as GRAS.

DATES: Comments by December 26, 1978.

ADDRESS: Written comments to the Hearing Clerk (HFA-305), Food and

Drug Administration, Room 4-65, 5600

TER of November 20, 1959 (24 FR 9368) and subsequently recodified and in-

added tocopherols in ingested foods may not necessarily be absorbed by the intestine

V 43/209 OCT 27 78

Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Corbin I. Miles, Bureau of Foods (HFF-335), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C. 20204, 202-472-4750.

SUPPLEMENTARY INFORMATION: A comprehensive safety review of human food ingredients classified as generally recognized as safe (GRAS) or subject to a prior sanction is being conducted by the Food and Drug Administration (FDA). The Commissioner of Food and Drugs has issued several notices and proposals (see the FEDERAL REGISTER of July 26, 1973 (38 FR 20040)) initiating this review, under which the safety of *d*-α-tocopherol, *dl*-α-tocopherol, mixed tocopherol concentrate, *d*-α-tocopheryl acid succinate, *d*-α-tocopheryl acetate, *dl*-α-tocopheryl acetate, and *d*-α-tocopheryl acetate concentrate has been evaluated. In accordance with the provisions of § 170.35 (21 CFR 170.35), the Commissioner proposes to affirm the GRAS status of *dl*-α-tocopherol, mixed tocopherol concentrate, *d*-α-tocopheryl acid succinate, *d*-α-tocopheryl acetate, and *dl*-α-tocopheryl acetate as direct human food ingredients and to remove *d*-α-tocopherol and *d*-α-tocopheryl acetate concentrate from GRAS status as direct human food ingredients.

The tocopherols are a group of chemically related, lipid-soluble substances that possess vitamin E activity. Eight *d*-form tocopherols occur naturally in many plant and animal tissues. The tocopherols are present in vegetable oils, cereals, nuts, and leafy vegetables. Vegetable oils are the most important sources. Wheat germ and cotton seed oils contain *d*-α-tocopherol as the major tocopherol. This form is the most widely distributed, the most effective antioxidant of the naturally occuring forms, and the most potent vitamin E compound.

Commercially, *d*-α-tocopherol and mixed tocopherol concentrate (consisting mostly of *d*-α-tocopherol and small amounts of beta, gamma, and delta tocopherols) are isolated from edible vegetable oils. *d*-α-tocopheryl acetate concentrate (also called *d*-α-tocopheryl acetate preparation), *d*-α-tocopheryl acetate, and *d*-α-tocopheryl acid succinate are synthesized from *d*-α-tocopherol, while *dl*-α-tocopherol, and *dl*-α-tocopheryl, acetate are synthesized from other starting materials. Varying degrees of purity of these products can be obtained by distillation.

Tocopherols are listed as GRAS in § 182.3890 (21 CFR 182.3890) for use as chemical preservatives, under a regulation published in the FEDERAL REGISTER of November 20, 1959 (24 FR 9368) and subsequently recodified, and in § 182.5890 (21 CFR 182.5890) for use as nutrients and/or dietary supplements, under a regulation published in the FEDERAL REGISTER of January 31, 1961 (26 FR 938) and subsequently recodified. Alpha-tocopherol acetate is listed in § 182.5892 (21 CFR 182.5892) as GRAS for use as a nutrient and/or dietary supplement, under a regulation published in the FEDERAL REGISTER of November 20, 1959 (24 FR 9368). Tocopherols also are prior-sanctioned for use in food as antioxidants at 0.03 percent.

A representative cross-section of food manufacturers was surveyed to determine the specific foods in which tocopherols and certain derivatives were used and the levels of usage. Information from surveys of consumer consumption was obtained and combined with the manufacturing information to obtain an estimate of consumer exposure to these ingredients. The total amount of tocopherols and their derivatives used in food in 1970 was reported to be 157 pounds of *dl*-α-tocopherol, 617 pounds of mixed tocopherol concentrate, 55 pounds of *d*-α-tocopheryl acid succinate, 18,000 pounds of *d*-α-tocopheryl acetate, and 79,000 pounds of *dl*-α-tocopheryl acetate. No food use data were reported for *d*-α-tocopherol or *d*-α-tocopheryl acetate concentrate (*d*-α-tocopheryl acetate preparation).

Tocopherols and derivatives have been the subject of a search of the scientific literature from 1920 to the present. The criteria used in the search were chosen to discover any articles that considered (1) chemical toxicity, (2) occupational hazards, (3) metabolism, (4) reaction products, (5) degradation products, (6) any reported carcinogenicity, teratogenicity, or mutagenicity, (7) dose response, (8) reproductive effects, (9) histology, (10) embryology, (11) behavioral effects, (12) detection, and (13) processing. A total of 2,691 abstracts on tocopherols and derivatives was reviewed and 86 particularly pertinent reports from the literature survey have been summarized in a scientific literature review.

The scientific literature review shows, among other studies, the following information as summarized in the report of the Select Committee on GRAS Substances (the Select Committee), selected by the Life Sciences Research Office of the Federation of American Societies for Experimental Biology:

Not all ingested tocopherols in raw foods are available for absorption. Numerous studies have shown that the Vitamin E activity of tocopherols in foods may be destroyed by cooking. Commercial processing and storage result in relatively larger losses of tocopherols than those resulting from ordinary cooking. Thus, both naturally occurring and added tocopherols in ingested foods may not necessarily be absorbed by the intestine.

According to Horwitt, there is no significant difference in the rate at which the several tocopherols are absorbed from the intestine. The tocopheryl acetate derivatives are partially hydrolysed by intestinal esterases and absorbed; they are also partialy absorbed as intact esters. Pearson and Barnes observed that α- and δ-tocopherols are absorbed more rapidly than the β- or γ-forms. They injected 600 to 800 μg of each tocopherol in 0.2 ml glycerol trioleate into isolated intestinal loops of female hooded rats. After 6 hours, absorption of the α-, β-, γ-, and δ-tocopherols was 32, 18, 1.8, and 30 percent, respectively.

The importance of bile in the absorption of tocopherols from the intestinal tract has not been clearly established. Although it was reported that bile promotes absorption of *dl*-α-tocopheryl acetate in the rat, Greaves and Schmidt, and Sternberg and Pascoe-Dawson presented data that did not support this view. Weber *et al.* observed that the oral administration of *d*-α-tocopherol and *l*-α-tocopherol in a 1:1 ratio resulted in a 55 percent greater absorption of each than when fed singly. In addition, they found that *l*-α-tocopherol is absorbed and excreted more rapidly than *d*-α-tocopherol. In the rat, α-tocopherol absorption is mainly via lymphatic pathways and by the portal vein. Based on studies with dogs fed several tocopherols, Kaludin suggested that β-, γ-, and δ-tocopherols are converted to α-tocopherol in the body. However, Dju *et al.* found no evidence for conversion of either γ- or δ-tocopherols to α-tocopherol in laying hens fed either isomer.

In man, physiologically active amounts of tocopherols are readily absorbed in the gastrointestinal tract and distributed throughout the body tissues. Depending upon the amount ingested, a significant amount may be excreted unchanged in the feces. For example, Schmandke *et al.* reported the following data on absorption of *dl*-α-tocopherol in thirty 18 to 34 year old men:

Oral dose (mg)	Percent absorbed (24 hours)
10	96.9 ± 13.0
30	87.3 ± 13.5
50	72.6 ± 11.6
100	81.5 ± 6.1
500	67.6 ± 19.4
1500	70.3 ± 27.9
2000	55.2 ± 28.8

Following the oral administration of 0.5, 1.0, 1.5, and 2.0 g of *dl*-α-tocopherol to healthy male test subjects, Schmandke recovered from the urine 3.11, 12.32, 8.18, and 9.31 mg, respectively, of the compound in the form of tocopheronolactone. Simon et al. have reported that the oral administration of 3 to 5 g of *dl*-α-tocopherol to human subjects resulted in two metabolites, mainly conjugated 2(3-OH-4-CH_3-5-carboxy-pentyl)-3,5,6-trimethylbenzoquinone and its gamma lactone.

After oral administration of 1 g *dl*-α-tocopherol to healthy men, Schmandke and Schmidt found that about 40 percent is absorbed and that 6 percent of the absorbed tocopherol is reduced to tocopheronolactone; of 1 g of orally administered *dl*-α-tocoquinone, about 75 percent is absorbed and 1.8 percent of that absorbed is reduced to tocopheronolactone. On the basis of the low

rate of change of *dl*-α-tocoquinone to tocopheronolactone in comparison with *dl*-α-tocopherol, the authors suggested that the mechanism of α-tocopherol catabolism is by way of α-tocoquinone to tocopheronolactone in man.

In subjects receiving oral doses of 2.0 g α-tocopherol or α-tocopheryl acetate, Gounelle et al. found that α-tocopherol is more readily absorbed than the acetate form and that peak blood levels for both forms occurred at 6 hours after ingestion and absorption.

In man, bile appears to be involved in the absorption of tocopherols; normally, at least 50 percent of the oral dose is absorbed, and the remainder is excreted unchanged in the feces. In addition, limited breakdown results in production of urinary metabolites. MacMahon and Neal administered oral doses of tritium-labeled-α-tocopherol to seven fasted normal subjects and found that 55 to 79 percent of the dose was absorbed and 3 to 16 percent of the total radioactivity was recovered from the urine in 3 days. Peak plasma levels were reached in 5 to 9 hours; and they calculated that the metabolic half-life was 53 hours. Radioactivity in the blood plasma was almost all associated with free α-tocopherol. These investigators also observed relatively poorer absorption of tocopherol in patients with malabsorption problems, biliary obstruction, steatorrhea, and gastrectomies than that in normal subjects. In another study, Kelleher et al. found essentially similar patterns of absorption in 50 fasting subjects given tritium-labeled-*dl*-α-tocopherol orally. Six to twelve hours after administration, absorption was 72 percent; after 6 to 12 days, less than 6 percent of the activity was recovered in the urine and 80 percent was found in the plasma as unchanged α-tocopherol. Subjects with steatorrhea absorbed less (59 percent) than those without steatorrhea (72 percent).

Blomstrand and Foresgren fed two patients with cannulated thoracic ducts a formula meal with doses of several tritium-labeled derivatives of tocopherol and then analyzed lymphatic lipids serially for up to 24 hours. Absorption of the tocopherols was 21 to 91 percent of the administered dose within 24 hours. Peak absorption occurred 2 to 8 hours after dosing; the major portion of the recovered radioactivity was located in the chylomicrons. These investigators concluded that tocopherol and tocopheramine are absorbed via the lymphatic pathway in man, and enter the thoracic duct intact; but that the acetate derivative is split after absorption and is recovered as tocopherol. They concluded that ingestion of a diet high in polyunsaturated fatty acids increases the requirement for vitamin E and could result in a deficiency state.

In some premature infants, fat-soluble forms of α-tocopherol acetate are poorly absorbed. Hemolytic anemia has been described in premature infants receiving commercially prepared formulas containing iron and high concentrations of polyunsaturated fatty acids. The anemia responds to treatment with water-soluble forms of tocopherols.

The distribution of α-tocopherol in the rat was determined with both carbon-14 labeled and unlabeled *dl*-α-tocopherol administered orally. A rapid uptake by the liver was noted (maximum after 4 hours); however, redistribution in the body occurred rapidly. The highest concentration of radioactivity was found in the adrenal glands and high radioactivity was present in the pituitary, heart, liver, kidney, fat, testes, and skin. Radioactivity was present 88 days after dosing with the highest activity in the brain. The percentage intracellular distribution of radioactivity 24 hours after the oral administration of α-[5-methyl-^{14} C] tocopherol in the spleen has been reported to be: Mitochondria, 59 percent; microsomes, 19 percent; supernatant, 12 percent. In the liver, distribution was as follows: Mitochondria, 12 percent; microsomes, 44 percent; supernatant, 31 percent; and nuclei, 14 percent. Krishnamurthy and Bieri administered carbon-14-labeled α-tocopherol orally to rats (and chickens) and reported that α-tocopherol in rat liver and intestinal mucosal cells was distributed 50 to 60 percent in mitochondria and 15 to 20 percent in the microsomal and supernatant fractions. They observed that in the plasma, tocopherols appeared in neutral fat and were bound to globulins. Presumably, the distribution of tocopherols in body tissues of other mammals would be similar to that found in the rat.

The metabolic roles and activities of tocopherols have been studied extensively. It is recognized that vitamin E is associated closely with lipids throughout the body, stabilizing highly unsaturated fatty acids within the cell and cell membrane against oxidation. Noguchi et al. have suggested that the tocopherols appear to prevent exudative diathesis by neutralizing free radicals within lipid membrances, thereby preventing a chain-reactive autooxidation of capillary membrane lipids. Chow et al. concluded that dietary tocopherols may protect erythrocytes against oxidative stress (lipid peroxidation) by regulating the level of reduced glutathione via an effect on the enzyme, glutathione peroxidase.

When administered in relatively small doses the following metabolic effects have been reported:

- Ingestion of 0.12 ml of a 10-mg-per-g solution of tocopherol (type unspecified) by young chicks resulted in increased agglutinin and complement titers as well as enhanced phagocytic activity of the leucocytes; and
- Injection of 10 mg per day of α-tocopherol for 7 days into female golden hamsters (route unspecified) after ovariectomy produced estro-progesterone effects;
- A dose of 0.15 mg per rat per day for 10 days depressed the "anticoagulative system activity."

With relatively larger amounts, the following observations have been reported from several animal studies:

- Inclusion of 100 mg per day of α-tocopheryl acetate in the diet of male albino rats resulted in increased concentrations of adenosine di- and triphosphate and coenzyme A in the liver;
- Administration (route not specified) of 150 to 600 mg per day α-tocopherol resulted in decreased urinary excretion of thiamine by rats;
- Supplementation of daily rations of vitamin E deficient male albino rats with 25, 50, or 100 mg per day of vitamin E (not otherwise identified) for 22 days produced increased concentrations of copper and calcium in the liver, muscle and bone. At the lowest dose, there was a decrease in concentration of iron in liver and muscle; with the intermediate dose, the decrease in concentration of iron in the liver was accompanied by an increase in muscle and bone content. With the largest dose there was an increase in concentration of iron in the liver and muscle but a decrease in bone;
- Feeding male albino rats a ration with 100 mg α-tocopheryl acetate per rat per day for 8 days increased the phospholipids as well as total and esterified cholesterol found in liver homogenates of the experimental but not the control animals;
- Dietary supplementation with 150 mg per rat per week of vitamin E concentrate (34 percent mixed tocopherols) administered orally by syringe in ethyl laurate solution for 20 to 27 weeks, resulted in localized sclerosis and deposition of cholesterol in the aorta which were prevented by high dietary cholesterol and bile salt.

The number of controlled investigations of the metabolic effects of large doses of tocopherol to human subjects is limited. Baroni and Casa reported that a single intramuscular injection of 300-mg α-tocopherol in 10 subjects decreased the basal metabolic rate; prolonged administration of 300-mg α-tocopherol by intramuscular injection on alternate days for 4 weeks to 7 patients with elevated basal metabolic rates produced decreases in basal metabolic rates. Oral administration of 100 mg α-tocopherol acetate to 12 subjects each day for 10 days resulted in greater plasma levels of phospholipids, total cholesterol, and α_2-globulins, but a decrease in plasma amino acid levels. Prosperi, and Feruglio and Petrin have reported shorter blood coagulation times following single oral doses of 100 mg α-tocopherol.

The scientific literature on the effects of vitamin E administered orally or ingested in diets at various dosages is extensive. In general, these reports document alterations in several parameters of growth, development, and metabolism. The majority of the effects are elicited at dosage levels that exceed by severalfold, the normal daily intake levels. The deviations from the expected norm are eliminated by cessation of dosing with vitamin E.

The LD_{50} values for acute oral toxicity of the tocopherols are relatively high (table below). In addition to these data, Demole determined that frogs, rabbits, cats, dogs, and monkeys can tolerate without apparent toxic signs, oral doses of 200 mg per kg *dl*-α-tocopherol or tocopheryl acetate.

ACUTE TOCICITY OF TOCOPHEROLS

Demole also observed that mice exhibited no adverse effects from oral doses of 50 g per kg of either *dl*-α-tocopherol or its acetate ester. Male rats tolerated daily doses of 1.0 g per kg *dl*-α-tocopherol or *dl*-α- acetate for 10 days while female rats tolerate 0.5 g per kg of either form without toxic effects. Male and female rats received a total does of 4.0 g per kg of either *dl*-α-tocopherol or its acetate by stomach tube over a period of 2 months without any adverse health effects. Den Tonkelaar et al. observed that male and female Wistar rats exhibited no adverse effects from a 15-percent lard diet containing 20 to 40 mg per kg (0.002 percent and 0.004 percent in the diet) α-tocopherol over 13 weeks.

On the other hand, Ichihara has reported that daily intramuscular administration of 10 mg *dl*-α-tocopherol acetate for 20 days in mice resulted in enlargement of the testicular interstitial cells and marked enlargement of smooth endoplasmic reticulum. Huter reported that the oral administration of 5.5 to 12.5 mg tocopherol acetate per kg body weight per day for 1 to 3 months resulted in highly active but normal thyroid glands in female rabbits, and abnormal changes in weight and volume as well as enhanced epithelial cell proliferation in the thyroid glands of male rabbits.

Costa et al. gave guinea pigs α-tocopherol at approximately 13 mg per kg per day by mouth for 10 days. All treated animals developed hyperemia of the thyroid and greater iodine uptake but no other adverse effects were reported. In a series of studies with guinea pigs weighing 250 to 300 g, Prosperi and Borselli found that intramuscular injection of vitamin E (presumably *dl*-α-tocopheryl acetate) in adult guinea pigs produced the following effects:

- 364 mg per kg per day for 10 days: Increase in body weight and no demonstrable pathology;
- 727 mg per kg per day for 10 days: Lesser increase in body weight but histologically evident degenerative changes in hepatic and myocardial cells;
- 1,091 or 1,454 mg per kg (single injection): Elicited similar evidence of myocardial, hepatic, and neural pathology; and,
- 4,363 mg per kg (single injection): Resulted in roughened fur, hyperemia of spleen, and hyperplasia of interfascicular endothelia and Kupfer cells of the liver.

In another series of experiments, Prosperi and Borselli observed morphological and histological degeneration of cells in tissues of several endocrine glands of guinea pigs following intramuscular injection of *dl*-α-tocopheryl acetate at 1,091 mg per kg for 3 days followed by 727 mg per kg for 2 days. Stimulation of mitotic activity in testicular and ovarian cells was also noted.

Excessive intake of tocopherols leads to hypervitaminosis E in several animal species. Conditions described as hypervitaminosis E have been reported in guinea pigs, hamsters, rats, and chicks. Some of the effects reported include changes in estrus cycle (length of phases, periodicity in rats), degenerative lesions of liver and myocardium (following intramuscular administration in guinea pigs). In these instances, the doses used to elicit the effects described are in the range of 1 g per kg body weight.

The oral administration of 296 g *dl*-α-tocopheryl acetate to one human subject over a period of 93 days resulted in gastrointestinal distress and muscle weakness which disappeared when the treatment was stopped. Greenblatt fed six male subjects 667 mg per kg *d*-α-tocopheryl acetate daily for 1 month. No adverse effects were noted but serum cholesterol was lowered. The oral administration of 0.67 ot 0.84 mg per kg of α-tocopheryl acetate each day for 9 to 10 days to 26 patients resulted in higher blood tocopherol levels and an increase in thyroid uptake of iodine.

Adult humans have tolerated oral doses of 1 g per day of vitamin E for months, or larger doses for shorter periods with no undesirable effects. Welch treated 67 patients with lupus erythematosus with preparations of pantothenic acid and *dl*-α-tocopheryl acetate for periods up to 3 years. Patients received doses of the tocopherol as high as 33 mg per kg per day over this period with no adverse effects beyond transient nausea and gastric distress. Similar massive dosages (up to 33 mg per kg per day) of the vitamin E preparation were also administered to 154 patients with diseases other than lupus and no complications were reported.

There is no convincing evidence that high intake of tocopherols leads to hypervitaminosis E in humans; similarly, physiological benefits from the addition of large amounts of vitamin E to the diet have not been demonstrated. Horwitt and Mason have stated, "No state or syndrome of hypervitaminosis E has been described, nor is there evidence that tocopherols per se exert any deleterious effect in animals or man." Recently, Alfin-Slater reported that a hypervitaminosis E is only a possibility in those patients who are ingesting very large amounts of vitamin E (over 400 mg per day) for long periods of time. Cohen reported that ingestion of 564 mg of α-tocopherol daily for 7 days resulted in fatigue, malaise, and loss of energy. The clinical symptoms disappeared when the treatment was withdrawn. He suggested that patients with "fatigue" who were consuming large doses of vitamin E might exhibit similar symptoms because of the vitamin intake. In view of the estimated average daily adult intake of all tocopherols added to foods (0.6 mg), the probability of reaching intake levels in excess of 400 mg per day is extremely remote.

No reports of controlled long-term studies on the possible toxicity of tocopherols to man have come to the attention of the Select Committee.

Telford et al. administered total doses of 1.0 g per kg *dl*-α-tocopheryl acetate, in the diet to pregnant Walter Reed-Carsworth Farms rats for 20 days during gestation. Similar experiments were run using 350 mg and 1.0 g per kg *d*-γ-tocopherol. Based on fetal resorption data, they concluded that both maternally administered compounds reduced the frequency of resorption below that in the control animals except for 14.0 percent reabsorptions with the *dl*-α-tocopheryl acetate administered at 500 mg per kg. In studies with other animals, the daily subcutaneous administration of 75 mg *dl*-α-tocopherol acetate to male adult hamsters for 8 to 30 days resulted in significantly lower testicular weights than those of control animals, a transitional disruption in spermatogenesis, but no alteration in testicular endocrine function. The addition of *dl*-α-tocopherol to the feed (20 mg per lb) of Broad-Breasted Bronze turkey hens resulted in a slight increase in hatchability. The parenteral administration of a total dose of 3,000 mg of *dl*-α-tocopherol over a 10-week period to male and female chicks resulted in inhibited growth, including delay of sexual maturity in males, but not in females.

Using normal adolescent schoolgirls as subjects, Winkler observed that the oral administration of 30 mg of α-tocopherol daily for one or two menstrual cycles, resulted in an increase in urinary hormone excretion. He suggested that these latter effects may involve the anterior pituitary.

The Select Committee has not found any specific tests of mutagenic activity of the several tocopherols that are generally recognized as safe. However, tests with plant material suggest that vitamin E may protect meristematic cells from radiation damage.

The administration of oral doses up to 1,600 mg per kg body weight of *dl*-α-tocopherol acetate immediately after conception to mice and rats for 10 days, to hamsters for 5 days, and to rabbits for 13 days had no discernible effects on nidation or on maternal or fetal survival. However in the tests with pregnant rabbits at 0, 16.0, 74.3, 345.0, and 1,600.0 mg per kg, 1 of the 16 animals in the control group died; 2 of 16 died at the 16 mg per kg level; 3 of 20 at the 74.3 mg per kg level died; 2 of 18 receiving 345.0 mg per kg died; and 6 of 19 died at the highest dosage level. Soliman has reported that simultaneous injection of 0.1 g α-tocopherol diminishes the teratogenic effects of vitamin A palmitate (250,000 I.U.) in rats. Reid has reported that *dl*-α-tocopheryl acetate failed to demonstrate a significant increase in the occurrence of abnormalities in the avian embryo teratology test series at doses from 16.0 to 120.0 mg per kg.

Telford measured the growth of lung tumors in mice at three levels of *d*-α-tocopherol in the diet. The tumors were induced in susceptible mice (Bar Harbour hereditary lung tumor strain) with 1.0 mg of the carcinogen, 1, 2, 5, 6-dibenzanthrene. At 7 months, mice on a stock diet and on a diet to which 2.0 mg of d-α-tocopherol was added every other day, had 91 percent and 100 percent tumors, respectively. Mice on a diet deficient in *d*-α-tocopherol had 71 percent tumors. Telford indicated that the incidence of lung tumors was greatest in the hypervitaminosis groups and that vitamin E deficiency appeared to decreased incidence in this susceptible mouse strain.

Several investigators have fed or injected mice or rats with various doses of α-tocopherol, *dl*-α-tocopherol, of *dl*-α-tocopheryl acetate and have reported no tumor formation or increased incidence of tumors. Furthermore, the addition of α-tocopherol to the laboratory chow diet of mice at 0.67 g per kg of diet appreciably inhibited the carcinogenic effect of methylcholanthrene. The addition of vitamin E (5 percent w/w) to the diet of mice did not affect their response to 3,4,9,10-dibenzpyrene. There was neither significant decrease in body weight nor in average tumor incidence; there was no significant increase in average time to tumor-induced death.

In studies of dermal carcinogenicity, the painting of 10 percent *dl*-α-tocopherol solution in sesame oil on the depilated skin of adult mate mice, three times per week for 8 weeks did not elicit any observable effects whereas no growth of hair, thickening and callosity of the skin, as well as papilloma were reported in positive controls treated with benzpyrene in benzene. In a companion study, some of the mice that were exposed to benzpyrene were treated with a daily dose of 10 mg *dl*-α-tocopherol per os for one month. There were no differences observed between animals that received α-tocopherol and those that did not. α-Tocopherol (60 mg per week for 39 to 41 days, per os) did not affect the rate of growth of sarcomas following subcutaneous administration of 1 percent benzpyrene. However, the intraperitoneal administration of α-tocopherol or its acetate (seven doses, 400 mg per kg each) retarded growth of transplanted tumors and prolonged survival of rats. The addition of tocopherols to croton oil decreased the tumor promoting effects of croton oil with respect to tumor initiation by 7,12-dimethylbenzanthracene.

Tuberculin-type sensitization has been demonstrated in guinea pigs with *d*-α-tocopherol and *dl*-α-tocopherol.

Qualified scientists of the Select Committee have evaluated all available safety information on tocopherols and derivatives. It is the opinion of the Select Committee that:

Tocopherols are a natural constituent of many foods. The average daily dietary intake of tocopherols in the United States is approximately 5 to 20 mg. The quantity of tocopherols added to foods as antioxidants is estimated to be equivalent to an average adult daily intake of 0.6 mg.

The several tocopherols used in foods as antioxidants are readily absorbed and metabolized. They are relatively nontoxic. LD_{50} values for acute oral toxicity of several animal species are in excess of 2,000 mg per kg. Hypervitaminosis E has been reported in humans only at oral dosage levels in excess of 400 mg per day. Investigations on mutagenic, carcinogenic, and teratogenic effects of tocopherols have not revealed any deleterious or pathologic alterations, although some reproductive system effects have been observed in young animals fed or administered dosage levels that exceed by manyfold, the quantities added to food or present in the daily diet.

The Select Committee concludes that no evidence in the available information on tocopherols and α-tocopheryl acetate demonstrates, or suggests reasonable grounds to suspect, a hazard to the public when those substances are used at current levels or at levels that might reasonably be expected in the future. Based upon his own evaluation of all available information on tocopherols and certain derivatives, the Commissioner agrees with this conclusion. The Commissioner therefore believes that no change in the current GRAS status of *dl*-α-tocopherol, mixed tocopherol concentrate, *d*-α-tocopheryl acid succinate, *d*-α-tocopheryl acetate, and *dl*-α-tocopheryl acetate is justified.

However, the Commissioner also proposes that *d*-α-tocopherol and *d*-α-tocopheryl acetate concentrate (*d*-α-tocopheryl acetate preparation) be removed from GRAS status as direct human food ingredients because no evidence indicates they are used in food. In previous GRAS affirmation proposals, it was emphasized that use information (food to which the ingredient is added, the intended technical effect, and the level of addition) is very important in assessing the safety of food ingredients. Because this information is not available, affirming these ingredients as GRAS for direct use in food would not appear to be appropriate. Furthermore, on April 13, 1973 (38 FR 9310), the Commissioner proposed that a number of compounds, including *d*-α-tocopheryl acetate concentrate, be removed from the GRAS list because evidence of use was not reported during the National Academy of Sciences/National Research Council (NAS/NRC) survey of food manufacturers. In response to this proposal, several manufacturers reported that *d*-α-tocopheryl acetate concentrate is used in vitamin and mineral supplements, including tablet, capsule, liquid, and other forms not simulating or represented as conventional food. The present use of *d*-α-tocopheryl acetate concentrate in these vitamin and mineral supplements will not be affected by this proposal. Vitamins and minerals used to formulate dietary supplements will be addressed in a separate agency action. Although *d*-α-tocopherol and *d*-α-tocopheryl acetate concentrate are being proposed for removal from GRAS status as substances added to food, future consideration will be granted provided use information cited above is submitted as comments on this proposal during the comment period, or a petition is submitted in accordance with § 170.35 or 171.1 (21 CFR 170.35 or 171.1).

Copies of the scientific literature review on tocopherols, the teratogenic evaluation of *dl*-α-tocopheryl acetate, and the report of the Select Committee are available for review at the office of the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, and may be purchased from the National Technical Information Service, 5285 Port Royal Road, Springfield, Va. 22161, as follows:

Title	Order No.	Price code	Price [1]
Tocopherols (scientific literature review)	PB-221-237	A11	$9.50
dl-α-tocopheryl acetate (teratogenic evaluation)	PB-223-809/AS	A03	4.50
Tocopherols and α-tocopheryl acetate (select committee report).	PB 262-653/AS	A03	4.50

[1] Price subject to change

This proposed action does not affect the present use of *d*-α-tocopherol, *dl*-α-tocopherol, mixed tocopherol concentrate, *d*-α-tocopheryl acid succinate, *d*-α-tocopheryl acetate, *dl*-α-tocopheryl acetate, and *d*-α-tocpheryl acetate concentrate (*d*-α-tocopheryl acetate preparation) for pet food or animal feed.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784-1788, as amended (21 U.S.C. 321(s), 348, 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1), it is proposed that parts 182 and 184 be amended as follows:

PART 182—SUBSTANCES GENERALLY RECOGNIZED AS SAFE

§ 182.3890 [Deleted]

1. By deleting § 182.3890 Tocopherols.

§ 182.5890 [Deleted]

2. By deleting § 182.5890 Tocopherols.

§ 182.5892 [Deleted]

3. By deleting § 182.5892 α-Tocopherol acetate.

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS

(c) The ingredient is used as a nutrient supplement as defined in

ent from those proposed herein. Any person who intends to assert or rely on

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

4. By adding new §§ 184.1891, 184.1894, 184.1896, 184.1897, and 184.1899 to read as follows:

§ 184.1891 *dl-α*-Tocopherol.

(a) *dl-α*-Tocopherol ($C_{29}H_{50}O_2$, CAS Reg. No. 364-50-1) is a form of vitamin E. It occurs as a yellow to amber, nearly odorless, viscous oil. It is synthesized from trimethylhydroquinone and isophytol.

(b) The ingredient meets the specifications of the Food Chemicals Codex, 2d ed. (1972).[1]

(c) The ingredient is used as a nutrient supplement as defined in § 170.3(o)(20) of this chapter.

(d) The ingredient is used in food, in accordance with § 184.1(b)(1), at levels not to exceed good manufacturing practice. Current good manufacturing practice results in a maximum level, as served, of 0.00001 percent or less for milk products as defined in § 179.3(n)(31) of this chapter.

§ 184.1894 Mixed tocopherol concentrate.

(a) Mixed tocopherol concentrate contains *d-α*-tocopherol and varying amounts of beta, gamma, and delta tocopherols. It is isolated from edible vegetable oils and concentrated by molecular distillation.

(b) The ingredient meets the specifications of the Food Chemicals Codex, 2d ed. (1972)[1] as amended by the first supplement (1974).[1]

(c) The ingredient is used as an antioxidant as defined in § 170.3(o)(3) of this chapter, and as a nutrient supplement as defined in § 170.3(o)(20) of this chapter.

(d) The ingredient is used in food and infant food, in accordance with § 184.1(b)(1), at levels not to exceed good manufacturing practice. Current good manufacturing practice results in a maximum level, as served, of 0.00004 percent for nonalcoholic beverages as defined in § 170.3(n)(3) of this chapter, 0.06 percent for herbs, seeds, spices, seasonings, blends, extracts, and flavorings as defined in § 170.3(n)(26) of this chapter, and 0.00002 percent for milk products as defined in § 170.3(n)(31) of this chapter, and 0.002 percent for infant formulas.

§ 184.1896 *d-α*-Tocopheryl acetate.

(a) *d-α*-Tocopheryl acetate ($C_{31}H_{52}O_3$, CAS Reg. No. 58-95-7) is prepared from *d-α*-tocopherol and acetic anhydride, and separated by distillation.

(b) The ingredient meets the specifications of the Food Chemicals Codex, 2d ed. (1972).[1]

[1]Copies may be obtained from National Academy of Sciences, 2101 Constitution Avenue NW., Washington, D.C. 20037.

(c) The ingredient is used as a nutrient supplement as defined in § 170.3(o)(20) of this chapter.

(d) The ingredient is used in food and infant food, in accordance with § 184.1(b)(1), at levels not to exceed good manufacturing practice. Current good manufacturing practice results in a maximum level, as served, of 0.001 percent for gelatins, puddings, and fillings as defined in § 170.3(n)(22) of this chapter, 0.006 percent for milk products as defined in § 170.3(n)(31) of this chapter, 0.005 percent for poultry products as defined in § 170.3(n)(34) of this chapter, 0.002 percent for soup and soup mixes as defined in § 170.3(n)(40) of this chapter, and 0.13 percent for infant formulas.

§ 184.1897189*dl-α*-Tocopheryl acetate.

(a) *dl-α*-Tocopheryl acetate ($C_{31}H_{52}O_3$, CAS Reg. No. 54-22-8) is prepared from *dl-α*-tocopherol and acetic anhydride, and separated by distillation.

(b) The ingredient meets the specifications of the Food Chemicals Codex, 2d ed. (1972).[1]

(c) The ingredient is used as an antioxidant as defined in § 170.3(o)(3) of this chapter, as as a nutrient supplement as defined in § 170.3(o)(20) of this chapter.

(d) The ingredient is used in food, in accordance with § 184.1(b)(1), at levels not to exceed good manufacturing practice. Current good manufacturing practice results in a maximum level, as served, of 0.013 percent for breakfast cereals as defined in § 170.3(n)(4) of this chapter and for dairy product analogs as defined in § 170.3(n)(10) of this chapter, 0.06 percent for herbs, seeds, spices, seasonings, blends, extracts, and flavorings as defined in § 170.3(n)(26) of this chapter, and 0.0014 percent for milk products as defined in § 170.3(n)(31) of this chapter.

§ 184.1899 *d-α*-Tocopheryl acid succinate.

(a) *d-α*-Tocopheryl acid succinate ($C_{33}H_{54}O_5$, CAS Reg. No. 4345-03-3) is prepared by treating *d-α*-tocopherol with succinic anhydride dissolved in pyridine.

(b) The ingredient meets the specifications of the Food Chemicals Codex, 2d ed. (1972).[1]

(c) The ingredient is used as a nutrient supplement as defined in § 170.3(o)(20) of this chapter.

(d) The ingredient is used in food, in accordance with § 184.1(b)(1), at levels not to exceed good manufacturing practice. Current good manufacturing practice results in a maximum level, as served, of 0.04 percent for baked goods as defined in § 170.3(n)(1) of this chapter.

The Commissioner hereby gives notice that he is unaware of any prior sanction for the use of these ingredients in foods under conditions different from those proposed herein. Any person who intends to assert or rely on such a sanction shall submit proof of its existence in response to this proposal. The regulation proposed above will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the act, and the failure of any person to come forward with proof of such an applicable prior sanction in response to this proposal constitutes a waiver of the right to assert or rely on such sanction at any later time. This notice also constitutes a proposal to establish a regulation under part 181 (21 CFR Part 181), incorporating the same provisions, in the event that such a regulation is determined to be appropriate as a result of submission of proof of such an applicable prior sanction in response to this proposal.

Interested persons may, on or before December 26, 1978, submit to the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments regarding this proposal. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

In accordance with Executive Order 12044, the economic effects of this proposal have been carefully analyzed, and it has been determined that the proposed rulemaking does not involve major economic consequences as defined by that order.

NOTE.—Incorporations by reference were approved by the Director of the Office of the Federal Register on July 10, 1973, and June 27, 1977, and are on file in the Federal Register Library.

Dated: October 5, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Regulatory Affairs.

[Docket No. FI-4699]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Township of Flint, Genesee County, Mich.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the township of Flint, Genesee County, Mich. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Township Hall, 1490 South Dye Road, Flint, Mich. Send comments to: Mr. Ray Flavin, Township Supervisor, Township of Flint, 1490 South Dye Road, Flint, Mich. 48504.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the township of Flint, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Flint River	At downstream corporate limit.	690
	950 feet downstream of Hartshorn drain confluence.	696
	Just downstream of Ballenger Hwy.	702
Swartz Creek	Just upstream of Ballenger Hwy at downstream corporate limit.	737
	Just upstream of Interstate 75.	741
	Just upstream of Claude Rd.	743
	4,300 feet upstream of Claude Rd..	746
	730 feet downstream of Interstate 69.	751
	Just downstream of Bristol Rd.	752
	4,100 feet downstream of Maple Ave.	758
	Just downstream of Maple Ave.	761
West Branch Swartz Creek.	At confluence with Swartz Creek.	751
	Just upstream of Bristol Rd.	752
	Just upstream of Dye Rd.	756
	Just upstream of Golf Course dam.	758
	1,550 feet downstream of Interstate 69.	761
	Just downstream of Elms Rd.	764
Hartshorn drain	At confluence with Flint River.	696
	980 feet downstream of Linden Rd.	696
	160 feet downstream of Pasadena Ave.	707
	Just downstream of Pasadena Ave.	707
Carman Creek	Just upstream of Hemphill Rd.	755
	1,350 feet upstream of Hemphill Rd.	756
	Just downstream of Penton Rd.	759
Massmore Cronk drain.	Just upstream of Elms Rd.	740
	Just upstream of Calkins Rd.	750
	Just upstream of Yorkshire Rd.	753
	Just upstream of West Court St.	759
	150 feet upstream of Corunna Rd.	761
	2,560 feet upstream of Corunna Rd.	763

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: October 10, 1978.

GLORIA M. JIMENEZ,

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Southfield, Oakland County, Mich.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Southfield, Oakland County, Mich. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, 26000 Evergreen Road, Southfield, Mich. Send comments to: Honorable Donald Fracassi, Mayor, City of Southfield, City Hall, 26000 Evergreen Road, Southfield, Mich. 48076.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Southfield, Mich., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Main River Rouge	Eight Mile Rd. (westbound)—50 ft*.	628
	Beech Road Bridge (First Crossing)—56 ft*.	630
	Nine Mile Bridge—20 ft*	632
	Beech Road Bridge (Second Crossing)—50 ft*.	636
	Ten Mile Road Bridge—50 ft*.	642
	Telegraph Road Bridge—20 ft*.	643
	Franlin Rd.—50 ft*	646
	Southeast Bound Northwestern Highway Bridge—40 ft*.	649
	Northwest Bound Northwestern Hwy—40 ft*.	653
	Twelve Mile Road Bridge—30 ft*.	659
Evan Ditch	Dam Plum Hollow Golf Club—90 ft*.	632
	Nine Mile Road Bridge—50 ft*.	633
	Lasher Road Bridge—20 ft*.	645
	Ten Mile Road Bridge—60 ft*.	658
Tamarack Drain	Tamarack Trail—90 ft*	648
	Michigan Division State Highways—retention pond outlet—70 ft*.	662
Carpenter Branch.	Nine Mile Road Bridge—80 ft*.	632
	Lake Ravness St.—40 ft*	645
	Carpenter Lake Dam—40 ft*.	661
Farmington Branch.	Nine Mile Road Bridge—50 ft*.	632
Pebble Creek	Ten Mile Road Bridge—50 ft*.	643
	Eleven Mile Road—80 ft*.	667
	South Bound Interstate 696—30 ft*.	687
Franklin Branch	Twelve Mile Road Bridge—50 ft*.	661

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Adams, Mower County, Minn.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Adams, Mower County, Minn. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, Adams, Minn. Send comments to: The Honorable Paul Winkels, Mayor, City of Adams, Adams City Hall, P.O. Box G, Adams, Minn. 55909.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Adams, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Little Cedar River.	At western corporate limit.	1,271
	Just downstream of County Hwy. 7.	1,276
	Just upstream of County Hwy. 7.	1,278
	Just downstream of Chicago, Milwaukee, St. Paul, & Pacific RR.	1,281
	At eastern corporate limit.	1,283
Little Cedar River Middle Branch.	At confluence with Little Cedar River.	1,273
	Just downstream of Chicago, Milwaukee, St. Paul, & Pacific RR.	1,274
	Just upstream of Chicago, Milwaukee, St. Paul & Pacific RR.	1,275
	1575 ft upstream of Chicago, Milwaukee, St. Paul & Pacific RR.	1,278
	At northern corporate limit.	1,282

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: October 16, 1978.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Windom, Cottonwood County, Minn.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Windom, Cottonwood County, Minn. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, 444 Ninth Street, Windom, Minn. Send comments to: Honorable Wes Lee, Mayor, City of Windom, P.O. Box 38, Windom, Minn. 56101.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Windom, Minn., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
West Fork Des Moines River.	Chicago & Northwestern RR.	1,350
	State Hwy. 60 and U.S. Hwy. 71.	1,352
	Dam at Island Park	1,353
	Sixth St. Bridge	1,353
	Confluence with Perkins Creek.	1,355
	Upstream corporate limits.	1,357
Perkins Creek	River Rd.	1,355
	Sixth Ave. Bridge	1,355
	Fourth Ave. Bridge	1,356
	U.S. Hwy. 71	1,359
	Upstream corporate limits.	1,365

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: October 16, 1978.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Salem, Dent County, Mo.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Salem, Dent County, Mo. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, 3rd and Washington, Salem, Mo. Send comments to: The Honorable Lewis E. Roberts, Mayor, City of Salem, City Hall, 3rd and Washington, Salem, Mo. 65560.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Salem, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Drainage ditch No. 1.	Downstream corporate limit.	1,129
	Just upstream of Rolla St.	1,146
	Just upstream of Center St.	1,158
Spring Creek.....	Downstream corporate limit.	1,126
	Upstream side of State Hwy 19.	1,127
	Just upstream of Dents Ford Rd.	1,128
	Upstream corporate limit.	1,130
Town Branch.....	Downstream corporate limit.	1,125
	250 ft downstream of Missouri Hwy.	1,125
	Just downstream of Missouri Hwy 19.	1,130
	550 ft upstream of Missouri Hwy 19.	1,132
	Downstream side of Rolla St.	1,139
	100 ft upstream of Rolla St.	1,144
	50 ft downstream of Second St.	1,148
	100 ft upstream of Second St.	1,150
	50 ft upstream of Center St.	1,152

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
	580 ft upstream of Center St.	1,153
	Just downstream of Franklin St.	1,160

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and the Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: October 10, 1978.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Willow Springs, Howell County, Mo.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Willow Springs, Howell County, Mo. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, 123 East 2d Street, Willow Springs, Mo. Send comments to: The Honorable A. J. Bray, Mayor, City of Willow Springs, 123 East 2d Street, City Hall, Willow Springs, Mo. 65793.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Willow Springs, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Eleven Point River.	Southeast corporate limit.	1,222
	100 feet downstream of St. Louis-San Francisco Railroad bridge.	1,227
	100 feet upstream of St. Louis-San Francisco Railroad bridge.	1,235
	Just upstream of Cherry Street.	1,236
	Just upstream of Harris Street.	1,241
	Just downstream of Pine Grove Road.	1,251
	Just upstream of St. Louis-San Francisco Railroad bridge north of Pine Grove Road.	1,258
	200 feet upstream of St. Louis-San Francisco Railroad bridge.	1,263
	Just downstream of Old Springfield Road bridge.	1,265
	1,100 feet upstream of Old Springfield Road bridge.	1,269
	North corporate limits ...	1,286
Drainage ditch No. 1.	Mouth at Eleven Point River.	1,238
	Just downstream of Fisk Street.	1,243
	West corporate limit.....	1,255
Drainage ditch No. 2.	100 feet upstream of mouth at drainage ditch No. 1.	1,238
	50 feet upstream of Hill Avenue bridge.	1,242
	Just downstream of State Highway 137.	1,242
Drainage ditch No. 3.	Southeast corporate limit.	1,230
	Southeast corporate limit.	1,252

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Central City, Merrick County, Nebr.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Central City, Merrick County, Nebr. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, 1608 16th Street, Central City, Nebr. Send comments to: The Honorable Robert J. Lambe, Mayor, City of Central City, City Hall, 1608 16th Street, Central City, Nebr. 68826.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Central City, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Warm Slough	4,000 ft downstream of U.S. Hwy 30.	1,685
	Upstream side of U.S. Hwy 30.	1,690
	Upstream side of Union Pacific RR.	1,692
	Upstream side of Burlington Northern RR.	1,694
	Upstream side of 19th Ave.	1,697
	1,500 ft upstream of 13th St.	1,700
	Upstream side of Fairground Rd.	1,702
	3,500 ft upstream of Fairground Rd.	1,705
	5,800 ft upstream of Fairground Rd.	1,707
Trouble Creek	Upstream side of Union Pacific RR.	1,690
	Upstream side of Burlington Northern RR.	1,694
	Upstream side of A Ave.	1,697
	Upstream side of F Ave.	1,700
	800 ft downstream of Fairground Rd.	1,702
	2,000 ft upstream of Fairground Rd.	1,706
	Upstream side of County Rd.	1,709
	2,500 ft upstream of County Rd.	1,709
Platte River	2,500 ft upstream of Union Pacific RR.	1,691
	4,000 ft downstream of Burlington Northern RR.	1,695
	1,500 ft downstream of Burlington Northern RR.	1,698

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Elkhorn, Douglas County, Nebr.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Elkhorn, Douglas County, Nebr. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, 401 Glenn Street, Elkhorn, Nebr. Send comments to: The Honorable William Kohlhaase, Mayor, City of Elkhorn, City Hall, 401 Glenn Street, Elkhorn, Nebr. 68022.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Elkhorn, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures re-

quired by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

[4210-01-M]

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Missouri River	Downstream extraterritorial limit.	968
	Just upstream State Hwy 370.	971
	Upstream county boundary.	978

[24 CFR Part 1917]

[Docket No. FI-4717]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of South Sioux City, Dakota County, Nebr.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of South Sioux City, Dakota County, Nebr. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, South Sioux City, Nebr. Send comments to: The Honorable Keith Ferris, Mayor, City of South Sioux City, 1615 Dakota Avenue, South Sioux City, Nebr. 68776.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755 5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of South Sioux City, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Missour River	Southern extraterritorial limits.	1,083
	2,700 ft upstream of southern extraterritorial limits.	1,084
	Eastern corporate limit	1,088
	1,500 ft upstream of Dakota Ave	1,090
	Northwestern extraterritorial limits.	1,092

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: October 16, 1978.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 131]

LEASING AND PERMITTING

OCTOBER 6, 1978.

AGENCY: Bureau of Indian Affairs.

ACTION: Proposed revision.

SUMMARY: The Bureau of Indian Affairs is proposing to revise part 131 of title 25 of the Code of Federal Regulations dealing with leasing and permitting of Indian lands. It is proposed to reorganize part 131 into three new subheadings: (1) How To Acquire Leases, (2) Special Provisions and Requirements of Leases, and (3) Special Provisions for Specific Reservations. These revisions will facilitate the use of the regulations for easier reference.

DATE: Comments and suggestions on the proposed regulations should be submitted on or before December 26, 1978.

ADDRESS: Comments and suggestions should be sent to the Area Realty Officer, Bureau of Indian Affairs, Minneapolis Area Office, 831 Second Avenue South, Minneapolis, Minn. 55402.

FOR FURTHER INFORMATION CONTACT:

Robert H. Schoewe, Area Realty Officer, Bureau of Indian Affairs, Minneapolis Area Office, 831 Second Avenue South, Minneapolis, Minn. 55402, telephone 612-725-2914.

SUPPLEMENTARY INFORMATION: The primary author of this document is: Robert H. Schoewe, Area Realty Officer, Bureau of Indian Affairs, Minneapolis Area Office, 831 Second Avenue South, Minneapolis, Minn. 55402, telephone 612-725-2914. The proposed changes are the result of designation as one of the Bureau of Indian Affairs 10 major management improvement projects. A subtask force for revision of part 131 appointed by the Commissioner of Indian Affairs met in Portland, Oreg., on July 13-15, 1976.

Section 131.5 Special Requirements and Provisions covered many unrelated subjects. These have been made into separate subject sections to facilitate reference and use.

Sections 129.3 and 129.4 were previously in a part of CFR on Inclusion of Liens in Patents and Instruments Executed. These should properly appear in leasing regulations and were incorporated in the new regulations on irrigated land leases in § 131.21.

Sections 131.16 and 131.18 pertaining to the Fort Belknap Reservation and Colorado River Reservation have been deemed as "sunset regulations." They are eliminated as obsolete and are eliminated from the proposed draft of regulations.

A cross-reference paragraph was also added to make it easier to locate regulations on grazing, permits, traders' licenses, and archaeological activity regulations. Specific changes in current regulations are as follows:

§ 131.1 DEFINITIONS.

(a) No change.

(b) Has been revised for clarification only.

(c) This definition has been revised by deleting the language which limits the definition of tribal land reserved for Indian Bureau administrative purposes to that which is not immediately needed for such purposes. Certain land in administrative reserve may be needed for that purpose and yet should be leased for purposes not inconsistent with the purpose of the reserve. That portion of this subsection dealing with the granting of leases on assigned tribal land has been revised and moved to § 131.5. The other changes in this subsection are editorial in nature. For purposes of leasing, land acquired in U.S. Title for a specifically defined group of Indians is also included as tribal land. This should clarify leasing done for residential and other purposes for groups such as the Mdwakanton Sioux in Minnesota and similar situations.

(d) This definition has been revised to provide that Government land includes all land under the jurisdiction of the Bureau of Indian Affairs except tribal and individually owned land.

(e) "Permit" has been redefined from a privilege revocable at will to a privilege revocable after written notice. It is believed a period of 10- or 30-day notice requirement can be inserted in each permit as its purpose requires. A revocation at will could be inequitable to a permittee.

§ 131.2 PURPOSE AND SCOPE OF REGULATIONS

This is a new section which briefly describes the purpose of this part and the scope of activities which these regulations cover. Section 131.19—Grazing units excepted was moved to this section for cross-reference purposes.

§ 131.3 APPROVAL

The requirement that all leases made pursuant to this part are subject to written approval of the Secretary has been placed at the forefront to emphasize the need and importance of the Secretary's action to approve. The wording of § 131.5(a) is changed to delete the words, "in the form approved by the Secretary" to "in an acceptable form," because his action in approving the lease does in effect approve the form of a lease and clarifies the idea that the form may vary in content. The new section also removes a conflict between former § 131.15 by addition of the words, "except as otherwise provided in §§ 131.30 and 131.33." Competent Crow Indians may lease the trust lands of their minor children for farming and grazing purposes without secretarial approval. Certain leases made by the Tulalip Tribe may also be made without secretarial approval.

"Cross-reference" has been inserted between § 131.3 and § 131.4.

§ 131.4 GRANTS OF LEASES BY SECRETARY

This section was formerly numbered § 131.2 and has been revised to give the Secretary authority to grant leases on individually owned lands on behalf of minors and on behalf of persons under legal disability without regard to whether such persons may have legally appointed representatives. This provision gives the Secretary the authority to act on behalf of persons under legal disability if he chooses not to grant approval to a legal representative to act on behalf of such persons as required under § 131.5(b) of these proposed regulations.

Consideration was given to revision of part 131.4(a)(4) to require a fractional interest owner who is using trust land to pay the fair market value to other coowners that are unwilling to waive or take less than fair market value. This is a serious problem in many locations. Due to the present wording of the law, Act of July 8, 1940 (25 U.S.C. 380), authority is given to the Secretary to lease only in the absence of use by an heir. Change is needed either through new legislation or alternative methods of dealing with the problem. The possibility of partitionment under the Act of May 18, 1916 (25 U.S.C. 378), should be explored in cases where the user owner would benefit by sole ownership of his fractional interest.

§ 131.5 GRANTS OF LEASES BY OWNERS OR THEIR REPRESENTATIVES

Former § 131.3 has been revised to require prior written approval of the Secretary for legally appointed representatives of Indians, under legal disability, to represent such Indians in matters pertaining to leasing and permitting under this part. The reference to assignments of tribal land found in former § 131.1(c) is incorporated in this section under subsection (a). The wording has been changed slightly for clarification.

§ 131.6 USE OF LAND OF MINORS

This section was formerly numbered § 131.4 and has been rewritten to add the word "parent" in lieu of legal guardian. The phrase now includes all persons who may have custody of or be caring for a minor child, as the legal guardian would be in effect acting in loco parentis. The inclusion of legal guardian would be a repetition and would serve no useful purpose in the regulations.

§ 131.7 NEGOTIATION OF LEASES

Only minor changes have been made in § 131.6 of existing regulations. References to other sections have been changed to correspond with the appropriate sections in the proposed regulations. Under § 131.7(a), the word "execute" has been changed to bring this section in accord with § 131.5(a) of the proposed regulations. Section 131.7(b) has been revised to clarify the intent to cover unitized leases, as well as leases of a single individually owned tract or tribal tract.

§ 131.8 ADVERTISEMENT

Section 131.7 has been changed to drop the reference to permit, since by definition § 131.1(e) the term "lease"

includes permit. Reference to adver-

rated into each lease which provides

for a term not to exceed 25 years

complexes potentially involving hun-

lations in § 131.13(a) and duplicates

Section 131.18 of existing regula-

V 43 / 209 0C 27 78 UM

includes permit. Reference to advertisement on grants of lease by the Secretary has been deleted as confusing to § 131.7(c). Advertisement is thereby required where fair market value is not reached and optional in cases where fair market value can be obtained.

Sections 131.9, 131.10, and 131.11 are reserved for future use if and when needed.

§ 131.12 Rental Requirements

This is a new section which brings together all rental requirements under one section. It includes §§ 131.5(b)(1), 131.5(b)(2), 131.5(b)(3) and a portion of § 131.5(e). Section 131.12(a) is a rewrite of § 131.5(b)(1) with the added provision that an adult Indian owner can lease to a coowner of a particular parcel of land or to someone with whom a special relationship exists with or without rental consideration. A coowner could participate under such a lease in various housing programs. Further, a lease which may be granted at less than fair market rent could provide an incentive for a coowner who is using the land at the expense of the other coowners to enter into a lease for the purpose of formalizing his right to exclusive use of the land. The leasehold interest thus created could also enable the lessee to participate in any beneficial programs open to other landowners and lessees. A coowner with formalized right to use the land would be encouraged to protect and improve the land. The final requirement of § 131.5(e) is also included in § 131.12(d).

§ 131.13 Bonds and Insurance

This is a new section which combines §§ 131.5(c) and 131.5(d) of the present regulations with two changes. Consideration was given to require a corporate surety bond unless otherwise provided. The bonds may take the form of cash deposits, building loan agreements or escrow for construction funding or an overall corporate surety bond. The manual should cover the advise necessary on the form of bonds stressing advantages of corporate sureties. The other change is made in § 131.5(c)(1) to eliminate the qualification that rental bond not be required if the lease contract provides for the annual rental to be paid in advance. We believe that under many circumstances rental bonds should be required even though the annual rental is paid in advance.

§ 131.14 Mandatory Provisions

This is proposed as a new section to replace § 131.5(g) for the purpose of focusing attention on the provisions which must be incorporated into each lease. Added to the existing § 131.5(g)(2) is language to be incorporated into each lease which provides clearly that the powers, duties, and responsibilities of the Secretary end with the termination of Federal trust and his responsibilities for enforcing compliance with the covenants of the lease shall be assumed by the lessor.

§ 131.15 Special Limitations

This new section contains all of § 131.5(e) of the existing regulations except the last two sentences.

§ 131.16 Duration of Leases

This section is essentially a rewrite of § 131.8 of the existing regulations. The purpose of these changes and additions is as follows:

(1) The first paragraph of § 131.8 provides for periodic review of rental payable under the lease, with certain exceptions, at not less than 5-year intervals. It is proposed to amend this section to add leases of less than 10 years, including any renewal term, and those residential leases designated by the Secretary to the class of leases for which rental adjustment will not be mandatory. The ambiguous term, "at not less than 5-year intervals," is to be deleted. The proposal also includes language which would delineate alternative purposes which rental adjustments may be intended to achieve. One purpose would be to preserve the purchasing power of the contract rent.

The alternative purpose would be to make it possible for the landowner to benefit from increases in the fair annual rental value of the leased premises, exclusive of lessee constructed improvements and changes in highest and best use of the property. However, if the parties to the lease so agree in the lease, improvements or changes in highest and best use could be considered in rental adjustments. Language has also been added contemplating rental adjustment provisions which do not require negotiations or subsequent agreement, such as by the use of a formula or index.

The provision under this new § 131.16(2) which exempts those residential leases designated by the Secretary, from periodic rental adjustments, is designed to overcome certain objections of other Government agencies which may make, insure, or guarantee loans to individual members of tribes or to tribal housing authorities.

(2) Further amendments to section 1 of the Act of August 9, 1955 (69 Stat. 539), as amend (25 U.S.C. 415), were incorporated in 131.16(a) by insertion of the added reservations to those for which authority has been granted to make leases for terms up to 99 years. The names of States in which reservations are located have been deleted except where legally necessary.

(3) Subsection 131.8(b) is rewritten as § 131.16(b). This covers leases made for a term not to exceed 25 years where the lessee is required to make a substantial investment in improvements to the land or for the production of specialized crops. Under certain circumstances a substantial investment in improvements to the land is required in order to produce other than specialized crops. Under other circumstances a substantial investment is required to bring the crop into production. Where a substantial investment is not required, leases for dryfarming are limited to 5 years and leases for irrigated farming are limited to 10 years.

(4) Subsection 131.8(2)(e) which limits leases granted by the Secretary on behalf of the undetermined heirs of a decedent's estate to a term of 2 years has been eliminated. Under certain circumstances this limitation makes it very difficult to keep such land under lease. Failure to keep the land under lease could result in damage to the land.

§ 131.17 Sublease, Assignments, Amendments, and Encumbrances

This new section is a rewrite of § 131.12 of the existing regulations. The purpose of those proposed amendments and additions is as follows:

(1) It is proposed to delete the language which limits the purpose for which a leasehold estate may be encumbered to that of borrowing capital for the development and improvement of the leased premises. The existing language of this section is so restrictive that it prevents many transactions which are common in the commercial real estate market. Construction financing cannot be converted to permanent financing. When a developer constructs improvements with his own cash, he cannot subsequently borrow money on the security of the improved leasehold to recover this cash. A purchaser of a leasehold cannot finance the purchase by encumbering the leasehold. These restrictions seriously affect the value of trust land and make it much more difficult to lease such land.

(2) The revised regulations would provide that, with the consent of the lessor and the Secretary, a lease could contain a provision which would allow the lessee to encumber the leasehold in accordance with the provisions written into the lease. This could make it possible to encumber the leasehold without approval of the Secretary of the Interior. The requirement that encumbrances of the leasehold be approved by the Secretary is appropriate in most situations such as commercial, industrial, hotel, apartment, and many recreational uses. However, in residential type leases the approval requirement can be unduly burdensome. This is particularly true in large residential

complexes potentially involving hundreds of homes. Whether the Secretary should approve encumbrances should be included as a lease stipulation rather than a part of the regulation.

(3) This new section also provides that leases of tribal land to tribal members or to tribal housing authorities for the purpose of providing housing for Indians and where a lending institution or an agency of the United States makes, insures, or guarantees a loan, may be assigned by the lessee without approval and such leases may not be canceled or terminated during the period that a loan, loan insurance, or loan guarantee is in effect without the approval of the lender or the agency which has made, insured, or guaranteed the loan. The provision is designed to satisfy certain objections of other Government agencies which may make, insure, or guarantee such loans.

§ 131.18 Unitization of Land for Leasing and Owner's Representatives

Subsection (a) was § 131.10 in the existing regulations. Subsection (b) is another proposed provision that will make it possible, with the consent of the Secretary and lessors, to provide in a lease for the landowners to designate from among themselves a group to represent the whole. We have found that the administration of long-term unitized leases that require lessors determinations, consents, or approvals becomes very difficult and this difficulty will increase as ownership becomes more fractionated through heirship.

§ 131.19 Environmental Consideration

Provisions of the National Environmental Policy Act were added to the former language of § 131.11 to include environmental consideration requirements to soil and land conservation plans for farming and grazing leases.

§ 131.20 Ownership of Improvements

This section replaces § 131.9 of the existing regulations. The only change is the requirement that the lease provide that the lessee shall restore the premises if he is allowed to remove any improvements. This requirement has been lacking in some leases and has worked to the detriment of the landowner.

§ 131.21 Irrigation Project Leases

Section (a) was added to part 131 from existing regulations where it appeared as § 129.3. It covers the need for project engineers to review irrigable land in a proposed lease to determine feasibility of the delivery of water. Section (b) was in existing regulations in § 131.13(a) and duplicates § 129.4 as to payment of irrigation charges. By including the applicable parts of irrigation regulations in part 131, an effort is being made to eliminate part 129.

§ 131.22 Payment of Fees

One of the proposed changes in the existing regulations as appears in § 131.13(b) is to increase the fee schedule in § 131.22(a) to a maximum fee of $500 by doubling the rental categories for each percentage rate charged. This is supported by the increasing values of rentals charged and costs of employees doing the same work as when the present regulation fee schedule was established. It is also proposed that instead of a minimum fee charge of $2 that any fee less than $5 be waived as it is more costly to the Government to process the collection than a fee of less than $5 will return. These charges should increase revenue and decrease costs of collection.

In § 131.22(b) the previous wording "the fee shall be calculated on the basis of the guaranteed annual rental" is changed to read, "the fee shall be calculated on the basis of one year's maximum guaranteed annual rental." Some of the larger development leases, where lessees are allowed longer development periods, are written with a step rental schedule which does not begin at the full annual rental. This will clarify the fact that the lease fees shall be based on the highest guaranteed rent due under the lease.

Section 131.22(c) was added to clarify the authority to waive fees where changes were made for the lessor's benefit, where the action required did not justify a fee to be paid or where circumstances in a given area were unique and justification was acceptable for a reduction or waiver of the fee charged.

131.23 Violation of Leases

This was in existing regulations in § 131.14 and was rewritten with minor revisions. Where leases make specific provisions covering procedures for default, the lease terms govern. The provision to exempt certain leases from cancellation which is found in the last sentence of existing regulations at § 131.14 is provided for in § 131.17(d) of these proposed regulations.

Special Provisions for Specific Reservations

Section 131.15 has been renumbered § 131.30 with only minor changes for clarification.

Section 131.16 of existing regulations is eliminated as no longer needed.

Section 131.17 is renumbered § 131.31.

Section 131.18 of existing regulations is eliminated as no longer needed.

Section 131.20 is renumbered § 131.32.

Section 131.33 of the proposed regulations is added to include the Tulalip Reservation in accordance with the provisions of the Act of August 9, 1955 as amended by the Act of June 2, 1970 (84 Stat. 302).

§ 131.1 Definitions.

As used in this part:

(a) "Secretary" means the Secretary of the Interior or his authorized representative acting under delegated authority.

(b) "Individually owned land" means

§ 131.3 Approval.

fiduciaries appointed by a State court or by a tribal court operating under an

§§ 131.9—131.11 [Reserved].

Special Provisions and Requirements

§ 131.14 Mandatory provisions.

(a) All leases issued under this part

(b) No lease shall be entered into more than 12 months prior to the

V 43 / 209 OCT 27 78

(b) "Individually owned land" means land, or any interest in land, the title to which is vested in the United States in trust for an individual Indian or Indians, and land, or any interest in land, the title to which is vested in an individual Indian or Indians subject to restrictions on alienation or encumbrance without the consent or approval of the Secretary.

(c) "Tribal land" means land, or any interest in land, the title to which is vested in the United States in trust for a tribe, band, community, group or pueblo of Indians and land, or any interest in land, the title to which is vested with a tribe, band, community, group or pueblo of Indians subject to restrictions on alienation or encumbrance without the consent or approval of the United States. "Tribal land" includes such lands that have been assigned to individual members of the tribe, land reserved for Indian Bureau administrative purposes, and land, or any interest therein, the title to which is vested in the United States in trust for an Indian corporation chartered under section 17 of the Act of June 18, 1934 (48 Stat. 988; 25 U.S.C. 477). For the purposes of this part, lands acquired by the United States for the use and benefit of specified groups of Indians are included as tribal lands.

(d) "Government land" means all land and interests therein under the jurisdiction of the Bureau of Indian Affairs except individually owned and tribal land.

(e) "Permit" means a privilege, revocable by written notice at the discretion of the Secretary, to enter on and use a specified tract of land for a specified purpose. The terms "lease", "lessor", and "lessee" when used in this part include, when applicable, "permit", "permitter", and "permittee", respectively.

§ 131.2 Purpose and scope of regulations.

(a) Except as otherwise provided in § 1.2 of this chapter, the regulations in this part 131 prescribe the procedures, terms, and conditions under which leases and permits of tribal land, individually owned land and Government land may be granted.

(b) The regulations contained in this part 131 do not cover the granting of leases and permits for the extraction of minerals from tribal land or individually owned land. For regulations pertaining to mineral leases and permits see subchapter P-Q-*Lands; Subsurface Estates and Resources* of this title 25.

(c) *Grazing units excepted.* Grazing permits on tribal or individually owned lands or Government lands within range units established pursuant to part 151 of this chapter, *General Grazing Regulations*, shall not be granted under this part 131.

§ 131.3 Approval.

All leases made pursuant to the regulations in this part, except as otherwise provided in §§ 131.30 and 131.33, shall be in an acceptable form and subject to the written approval of the Secretary.

How To Acquire Leases

CROSS REFERENCE: For regulations pertaining to concession permits and leases on lands withdrawn or acquired in connection with Indian irrigation projects, see 25 CFR 203; for licenses to trade with Indians and prohibitions and limitations relating to employees of the U.S. Government, including those of Indian blood, in matters of trade with Indians and leasing restricted Indian land, see 25 CFR 251 and 25 CFR 252; for regulations pertaining to grazing permits, see 25 CFR 151, 25 CFR 152, and 25 CFR 153; for regulations pertaining to permits for the excavation of ruins and archaeological sites and the gathering of objects of antiquity, see 25 CFR 132.

§ 131.4 Grants of leases by Secretary.

(a) The Secretary may grant leases on individually owned land on behalf of: (1) Adults under legal disability, without regard to whether such persons may have legally appointed representatives; (2) orphaned minors who have no persons standing in loco parentis, without regard to whether such minors may have legally appointed representatives; (3) the undetermined heirs of a decedent's estate; (4) the heirs or devisees to individually owned land who have not been able during a 3-month period to agree upon a lease by reason of the number of heirs, their absence from the reservation, or for other cause; provided, that the land is not in use by any of the heirs or devisees; (5) Indians who have given the Secretary written authority to execute leases on their behalf.

(b) The Secretary may grant leases on the individually owned land of Indians whose whereabouts are unknown, on such terms as are necessary to protect and preserve such property.

(c) The Secretary may grant permits on Government land.

§ 131.5 Grants of leases by owners or their representatives.

(a) The following may grant leases subject to the approval of the leases by the Secretary: (1) Adults, other than those under legal disability, on behalf of themselves and/or their minor children and on behalf of minor children to whom they stand in loco parentis without regard to whether any such minor children may have legally appointed representatives, except in those cases where the Secretary has granted authority to a legal representative pursuant to paragraph (b) of this section; (2) subject to the provisions of paragraph (b) of this section, guardians, conservators or other fiduciaries appointed by a State court or by a tribal court operating under an approved constitution or law and order code; and (3) tribes, tribal corporations, or Indian cooperatives acting through their appropriate officials; provided, however, that leases on tribal lands assigned to members of the tribe may be granted by the assignee and the tribe acting jointly, unless the terms of the assignment specifically allow the assignee to grant a lease on the assigned land without tribal consent, approval or other participation, in which case leases may be granted by the assignee alone.

(b) No legally appointed representative of an Indian under legal disability shall have any authority to negotiate or otherwise participate in transactions under this part without the prior written approval of the Secretary. In granting any such approval, the Secretary may impose any limitations, conditions, or restrictions as he may deem appropriate. Written approval of the Secretary must be secured prior to payment of any fees or other compensation claimed by legal representatives for services performed under this part.

§ 131.6 Use of land of minors.

The natural parent, or other person standing in loco parentis of minor children who has the care and custody of such children, may use the individually owned land of such children during the period of minority without charge for the use of the land if such use will enable such person to engage in a business or other enterprise which will be beneficial to such minor children.

§ 131.7 Negotiation of leases.

(a) Leases of individually owned land or tribal land may be negotiated by those owners or their representatives who may grant leases pursuant to § 131.5.

(b) Where the owners of a majority land interest or their representatives who may grant leases under § 131.5 have negotiated a lease which includes one or more parcels of tribal or individually owned land and is satisfactory to the Secretary, he may join in the execution of the lease and, thereby commit the interests of those persons in whose behalf he is authorized to grant lease under § 131.4(a) (1), (2), (3), and (5).

(c) Where the Secretary may grant leases under § 131.4, he may negotiate leases when in his judgment the fair annual rental can thus be obtained.

§ 131.8 Advertisement.

Except as otherwise provided in this part the Secretary shall advertise land for lease. All advertisements of individually owned lands for lease will call for sealed bids and will not offer preference rights.

§§ 131.9—131.11 [Reserved].

Special Provisions and Requirements

§ 131.12 Rental requirements.

Except as otherwise provided in this part, no lease shall be approved or granted at less than the present fair annual rental.

(a) An adult Indian owner of trust or restricted land may lease his land for religious, educational, recreational, or other public purposes to religious organizations or to agencies of the Federal, State, or local governments at a nominal rental. Such adult Indian may lease land with or without rental consideration, to his spouse, brother, sister, lineal ancestor, lineal descendent, co-owner or, where such a special relationship exists, between the lessee and the lessor that in the opinion of the Secretary approval is warranted.

(b) In the discretion of the Secretary, tribal land may be leased at a nominal rental for religious, educational, recreational, or other public purposes to religious organizations or to agencies of Federal, State, or local governments; for purposes of subsidization for the benefit of the tribe; and for homesite purposes to tribal members provided the land is not commercial or industrial in character.

(c) Leases may be granted or approved by the Secretary at less than the fair annual rental when in his judgment such action would be in the best interest of the landowners.

(d) Except with the approval of the Secretary, or as so provided in the lease, no rent or other consideration for the use of the land leased shall be paid or collected more than 60 days in advance of the due date. The lease contract shall contain provisions specifying the dates rents shall become due and payable.

§ 131.13 Bonds and insurance.

(a) Unless otherwise provided by the Secretary, a satisfactory surety bond will be required in an amount that will reasonably assure performance of the contractual obligations under the lease. Such bond may be for the purpose of guaranteeing:

(1) Not less than 1 year's rental.

(2) The estimated construction cost of any improvement to be placed on the land by the lessee.

(3) An amount estimated to be adequate to insure compliance with any additional contractual obligations.

(b) The lessee shall be required to provide insurance in an amount adequate to protect all insurable improvements on the leased premises; the lessee shall also be required to furnish appropriate liability insurance, and such other insurance necessary to protect the lessor's interests.

§ 131.14 Mandatory provisions.

(a) All leases issued under this part shall contain the following provisions.

(1) While the leased premises are in trust or restricted status, all of the lessee's obligations under this lease, and the obligations of his sureties, are to the United States as well as to the owner of the land.

(2) Nothing contained in this lease shall operate to delay or prevent a termination of Federal trust responsibilities with respect to the land by the issuance of a fee patent or otherwise during the term of the lease; however, such termination shall not serve to abrogate the lease. In the event of such termination, all powers, duties, or other functions of the Secretary of the Interior or his authorized representative shall terminate, and the responsibilities for enforcing compliance with the covenants of this lease including those of the Secretary shall be assumed by the lessor, or successors in interest. The owners of the land and the lessee and his sureties shall be notified of any such change in the status of the land.

(3) The lessee agrees that he will not use or cause to be used any part of the leased premises for any unlawful conduct or purpose.

(b) Leases granted or approved under this part shall contain provisions as to whether payment of rentals is to be made direct to the owner of the land or his representative or to the official of the Bureau of Indian Affairs having jurisdiction over the leased premises.

(c) Leases granted or approved under this part on individually owned lands which provide for payment of rental direct to the owner or his representative shall contain the following provisions:

(1) In the event of the death of the owner during the term of this lease and while the leased premises are in trust or restricted status, all rentals remaining due or payable to the decedent of his representative under the provisions of this lease shall be paid to the official of the Bureau of Indian Affairs having jurisdiction over the leased premises.

(2) While the leased premises are in trust or restricted status, the Secretary may in his discretion suspend the direct rental payment provisions of this lease in which event the rentals shall be paid to the official of the Bureau of Indian Affairs having jurisdiction over the leased premises.

§ 131.15 Special limitations.

(a) No lease shall provide the lessee a preference right to future leases nor shall any lease contain provisions for renewal, except as otherwise provided in this part.

(b) No lease shall be entered into more than 12 months prior to the commencement of the term of the lease.

§ 131.16 Duration of leases.

Leases granted or approved under this part shall be limited to the minimum duration, commensurate with the purpose of the lease, that will allow the highest economic return to the owner consistent with prudent management and conservation practices, and except as otherwise provided in this part shall not exceed the number of years provided in this section. All leases for terms in excess of 10 years including any renewal term shall provide for periodic adjustment of the rental consideration except for (1) those leases authorized by § 131.12 (a) and (b); (2) those residential leases designated by the Secretary; and (3) leases, the consideration for which is based primarily on percentages of income produced from the land. Such adjustment may be for the purpose of maintaining the relative purchasing power of the rent contracted for in the lease, and/or for the purpose of allowing the landowner to benefit from increases in the value of the leased premises. Unless otherwise provided in the lease, any adjustment made for the latter purpose shall be subject to acceptance and approval by the Secretary and shall exclude improvements or developments accomplished by the lessee or the contributive value of such improvements and shall not be based on a highest and best use different from that to which the premises are committed by the lease.

(a) Leases for public, religious, educational, recreational, residential or business purposes shall not exceed 25 years but may include provisions authorizing a renewal or an extension for one additional term of not to exceed 25 years, except such leases of land located outside the boundaries of Indian reservations in the State of New Mexico, and leases of land on the Agua Caliente (Palm Springs) Reservation, the Hollywood (Dania) Reservation, the Swinomish Indian Reservation, the Southern Ute Reservation, the Fort Mojave Reservation, the Burns Paiute Reservation, the Coeur d'Alene Indian Reservation, the Kalispel Indian Reservation, the Pueblo of Cochiti, the Pueblo of Pojoaque, the Pueblo of Tesuque, the Pueblo of Zuni, the Hualapai Reservation, the Spokane Reservation, the San Carlos Apache Reservation, Yavapai Prescott Community Reservation, the Pyramid Lake Reservation, the Gila River Reservation, the Soboba Indian Reservation, the Tulalip Indian Reservation, the Navajo Reservation, the Colorado River Reservation, and lands on the Salt River and the San Xavier Reser-

vations, as stated in § 131.32, which leases may be made for terms of not to

V 43/209 OC 27 78

vations, as stated in § 131.32, which leases may be made for terms of not to exceed 99 years, including any renewal option.

(b) Leases for farming purposes which require a substantial investment in the improvement of the land/or substantial investment for the production of specialized crops may be made for a term not to exceed 25 years. To determine whether a long-term farming lease is justified, it is necessary to give consideration to the nature of the crop to be grown, including the feasibility of growing the proposed crop. The amount or substantiality of the investment, and the necessity of such investment in order to grow the proposed crop, are also elements to consider in evaluating the term of the proposed lease.

(c) Grazing leases which require substantial development of improvement of the land shall not exceed 10 years.

(d) Except for those leases granted pursuant to § 131.16 (b) and (c), farming or grazing leases shall not exceed 5 years for grazing or dry farm land or 10 years for irrigated land.

§ 131.17 Subleases, assignments, amendments, and encumbrances.

(a) Except as otherwise provided in this section, a sublease, assignment, amendment, or encumbrance of any lease issued under this part may be made only with the approval of the Secretary and the written consent of all parties to such lease.

(b) With the consent of the lessor and the Secretary, the lease may contain provisions authorizing the lessee to sublease the premises, in whole or in part, assign subleases and encumber subleases, without further approval. Such subleases, assignments, or encumbrances shall not serve to relieve the sublessor from any liability nor diminish any supervisory authority of the Secretary provided for under the approved lease.

(c) With the consent of the lessor and the Secretary, the lease may contain provisions authorizing the lessee to encumber his leasehold interest in the premises in accordance with said provisions. The encumbrance instrument must be approved by the Secretary. If a sale of foreclosure under an encumbrance occurs and the encumbrancer is the purchaser, he may assign the leasehold without the approval of the Secretary or the consent of the other parties to the lease, provided, however, that the assignee accepts and agrees in writing to be bound by all terms and conditions of the lease. If the purchaser is a party other than the encumbrancer, approval by the Secretary of any assignment will be required, and such purchaser will be bound by the terms of the lease and will assume in writing all the obligations thereunder.

(d) With the consent of the Secretary, leases to individual members of the tribe or to tribal housing authorities for Indian homesite purposes, may contain provisions permitting the assignment of the lease without further consent or approval where a lending institution or an agency of the United States makes, insures, or guarantees a loan to an individual member of the tribe or to a tribal housing authority for the purpose of providing funds for the construction of housing for Indians on the leased premises; provided, the leasehold has been pledged as security for the loan and the lender has obtained the leasehold by foreclosure or otherwise. Such leases may also contain provisions permitting the lessee to assign the lease without further consent or approval, and to prohibit the cancellation or termination of the lease during the period that a loan, loan insurance, or loan guarantee is in effect without the approval of the lender or the agency of the United States which has made, insured, or guaranteed the loan for the construction of housing on the leased premises.

(e) The written consent of the surety or surities, unless waived by the bond, shall be secured in cases of any sublease, assignment, amendment or encumbrance of any lease issued under this part.

§ 131.18 Unitization of land for leasing and owners representatives.

(a) Where it appears advantageous to the owners and advantageous to the operation of the land, a single lease contract may include more than one parcel of land in separate ownerships, tribal or individual, provided the statutory authorities and other applicable requirements of this part are observed.

(b) With the consent of the lessor and the Secretary a provision may be included in the lease authorizing the landowners to designate from among themselves a group, the size and composition of which shall be determined by the lessors, to represent all of the owners. This group may be empowered to exercise any rights or discretions or make any determinations, consents, or approvals on behalf of the lessors, including consents to modifications or amendments of the lease, except that any such modification or amendment may not provide for reductions in guaranteed minimum rentals, percentage rentals, or participation of the parties in rentals, or changes in the term or surrender of the lease.

§ 131.19 Environmental considerations.

(a) Prior to approval of any lease or extension of an existing lease pursuant to this part, the Secretary shall first satisfy himself that adequate consideration has been given to the relationship between the use of the leased lands and the use of neighboring lands; the height, quality, and safety of any structures or other facilities to be constructed on such lands; the availability of police and fire protection and other services; the availability of judicial forms for all criminal and civil causes arising on the leased lands; and the effect on the environment of the uses to which the leased lands will be subject.

(b) Farming and grazing operations conducted under leases granted or approved under this part shall be conducted in accordance with recognized principles of good practices and prudent management. Land use stipulations or conservation plans necessary to define such use shall be made a part of the lease.

§ 131.20 Ownership of improvement.

Improvements placed on the leased land shall become the property of the lessor unless specifically excepted therefrom under the terms of the lease. The lease shall specify the maximum time allowed for removal of any improvements so excepted and require restoration of the premises by the lessee.

§ 131.21 Irrigation project leases.

(a) Prior to leasing irrigable lands within an irrigation project, the Superintendent shall present to the project engineer lists containing descriptions of the lands involved for confirmation as to the irrigable acreage and as to whether the lands are, in fact, irrigable under existing works. Strict compliance with this section is necessary to avoid errors.

(b) Except as provided in part 221 of this chapter, any lease covering lands within an irrigation project or drainage district shall require the lessee to pay annually on or before the due date, during the term of the lease and in the amounts determined, all charges assessed against such lands. Such charges shall be in addition to the rental payments prescribed in the lease. All payments of such charges and penalties shall be made to the official designated in the lease to receive such payments.

§ 131.22 Payment of fees.

Unless otherwise provided in this part, or by the Secretary, fees shall be based upon 1 year's rental payable under the lease and shall be collected from the lessee for each lease, sublease, assignment, transfer, renewal, extension, modification, or other instrument requested by lessee and issued in connection with the leasing of restricted lands under the regulations in this part.

(a) Except where all or any part of the expenses of the work are paid from tribal funds, in which event an additional or alternate schedule of fees to be credited to the tribe may be established subject to the approval of the Secretary, the fee to be paid shall be as follows:

Rental:	*Percent*
On the first $1,000	3.0
On the next $9,000	2.0
On the next $10,000	1.0
On all rental above $20,000	0.5

In no event shall the fee exceed $500. Any fee calculated at less than $5 shall be waived.

(b) In the case of percentage rental leases, the fee shall be calculated on the basis of 1 year's maximum guaranteed annual rental. Where rental consists of stated annual cash rental in addition to percentage rental, the estimated revenue anticipated from the percentage rental shall be mutually agreed upon solely for the purpose of fixing the fee. The fee to be collected in case of crop-share or other special consideration leases or permits shall be based on an estimate of the cash rental value of the acreage, or the estimated value of the lessor's share of the crops. No fees so collected shall be refunded.

(c) Lease fees charged may be reduced to a nominal amount, or waived, if the Secretary determines circumstances justify such action.

§ 131.23 Violation of leases.

If the Secretary determines that a lessee has defaulted in the payment of money or has breached any other covenant or condition of the lease, he shall, by certified mail, send a written notice to the lessee setting forth in detail the nature of the alleged default or breach. The surety or sureties shall be sent a copy of each such notice. The notice shall be mailed to the lessee at the address specified in the lease or to such other address that lessee may have furnished to the Secretary in writing.

The lessee shall have a period of 10 days subsequent to the date notice was received within which to cure the default or breach or to convince the Secretary that a default or breach does not in fact exist. If the breach is of a nature that cannot be cured in 10 days, the Secretary may, in his discretion, allow an additional period of time for the necessary curative action. The lessee must commence the action necessary to cure the default or breach and diligently proceed to its completion within the time allowed. If the default or breach is not corrected within the time allowed, the Secretary shall have the right to forthwith notify the lessee and surety or sureties in writing that the lease is terminated, after which the lease shall be of no further force and effect, and demand all money due on the lease. The notice of cancellation shall inform the lessee of his right to appeal pursuant to part 2 of this chapter. If the lease provides different remedies for default by a lessee, the provisions of the lease shall govern.

§§ 131.24—131.27 [Reserved]

SPECIAL PROVISIONS FOR SPECIFIC RESERVATIONS

§ 131.30 Crow Reservation.

(a) Notwithstanding the regulations in other sections of this part 131, Crow Indians classified as competent under the Act of June 4, 1920 (41 Stat. 751), as amended, may lease their trust lands and the trust lands of their minor children for farming or grazing purposes without the approval of the Secretary pursuant to the Act of May 26, 1926 (44 Stat. 658), as amended by the Act of March 15, 1948 (62 Stat. 80). However, at their election Crow Indians classified as competent may authorize the Secretary to lease, or assist in the leasing of such lands, and an appropriate notice of such action shall be made a matter of record. When this election is exercised, the general regulations contained in this part 131 shall be applicable. Approval of the Secretary is required on leases signed by Crow Indians not classified as competent or made on inherited or devised trust lands owned by more than five competent devisees or heirs.

(b) The Act of May 26, 1926 (44 Stat. 658), as amended by the Act of March 15, 1948 (62 Stat. 80), provides that no lease for farming or grazing purposes shall be made for a period longer than 5 years, except irrigable lands under the Big Horn Canal project which may be leased for periods of 10 years. No such lease shall provide the lessee a preference right to future leases which, if exercised, would extend the total period of encumbrance beyond the 5 or 10 years authorized by law.

(c) All leases entered into by Crow Indians classified as competent, under the above-cited special statutes, must be recorded at the Crow Agency. Such recording shall constitute notice to all persons. Under these special statutes, Crow Indians classified as competent are free to lease their property within certain limitations. The 5-year (10-year in the case of lands under the Big Horn Canal project) limitation is intended to afford a protection to the Indians. The essence of this protection is the right to deal with the property free, clear, and unencumbered at intervals at least as frequent as those provided by law. If leasses are able to obtain new leases long before the termination of existing leases, they are in a position to set their own terms. In these circumstances lesses could perpetuate their leaseholds and the protection of the statutory limitations as to terms would be destroyed. Therefore, in implementation of the foregoing interpretation, any lease which, on its face, in violation of statutory limitations or requirements, and any grazing lease executed more than 12 months, and any farming lease executed more than 18 months, prior to the commencement of the term thereof or any lease which purports to cancel an existing lease with the same lessee as of a future date and take effect upon such cancellation will not be recorded. Under a Crow tribal program, approved by the Department of the Interior, competent Crow Indians may, under certain circumstances, enter into agreements which require that, for a specified term, their leases be approved by the Secretary. Information concerning whether a competent Crow Indian has executed such an instrument is available at the office of the Superintendent of the Crow Agency, Bureau of Indian Affairs, Crow Agency, Montana. Any lease entered into with a competent Crow Indian during the time such instrument is in effect and which is not in accordance with such instrument will be returned without recordation.

(d) Where any of the following conditions are found to exist, leases will be recorded but the lessee and lessor will be notified upon discovery of the conditions: (1) The lease in single or counterpart form has not been executed by all owners of the land described in the lease; (2) there is, of record, a lease on the land for all or a part of the same term; (3) the lease does not contain stipulations requiring sound land utilization plans and conservation practices; or (4) there are other deficiencies such as, but not limited to, erroneous land descriptions, and alterations which are not clearly endorsed by the lessor.

(e) Any adult Crow Indian classified as competent shall have the full responsibility for obtaining compliance with the terms of any lease made by him pursuant to this section without secretarial approval. This shall not preclude action by the Secretary to assure conservation and protection of these trust lands.

(f) Leases made by competent Crow Indians shall be subject to the right to issue permits and leases to prospect for, develop, and mine oil, gas, and other minerals, and to grant rights-of-way and easements, in accordance with applicable law and regulations. In the issuance or granting of such permits, leases, rights-of-way, or easements, due consideration will be given to the interests of lessees and to the adjustment of any damages to such interests. In the event of a dispute as to the amount of such damage, the

matter will be referred to the Secre-

term of a farming lease that requires

tions previously approved by the Secretary of the Interior (84 Stat. 302).

Butte County Air Pollution Control District, 316 Nelson Ave., Oroville, Calif.

burning regulations. These exemptions are based on economic loss, pest

V 43/209 OCT 27 78

matter will be referred to the Secretary whose determination will be final as to the amount of said damage.

§ 131.31 Cabazon, Augustine, and Torres-Martinez Reservation, Calif.

(a) Upon a determination by the Secretary that the owner or owners are not making beneficial use thereof, individually owned lands on the Cabazon, Augustine, and Torres-Martinez Indian Reservations which are or may be irrigated from distribution facilities administered by the Coachella Valley County Water District in Riverside County, Calif., may be leased by the Secretary in accordance with the regulations in this part for the benefit of the owner or owners.

(b) All leases granted or approved on tribal or individually owned lands of the Cabazon, Augustine, and Torres-Martinez Indian Reservations shall be filed for record in the office of the county recorder of the county in which the land is located, the cost thereof to be paid by the lessee. A copy of each such lease shall be filed by the lessee with the Coachella Valley County Water District or such other irrigation or water district within which the leased lands are located. All such leases shall include a provision that the lessee, in addition to the rentals provided for in the lease, shall pay all irrigation charges properly assessed against the land which become payable during the term of the lease. Act of August 23, 1950 (64 Stat. 470); Act of August 28, 1958 (72 Stat. 968).

§ 131.32 San Xavier and Salt River Pima-Maricopa Reservations.

(a) *Purpose and scope.* The Act of November 2, 1966 (80 Stat. 1112; 25 U.S.C. 416-416j), provides statutory authority for long-term leasing on San Xavier and Salt River Pima-Maricopa Reservations, Ariz., in addition to that contained in the Act of August 9, 1955 (69 Stat. 539), as amended (25 U.S.C. 415). When leases are made under the 1955 Act, the regulations in § 131.1 through § 131.8 and § 131.12 through § 131.23 apply. The purpose of this § 131.32 is to provide regulations for implementation of the 1966 Act. The 1966 Act does not apply to leases made for purposes that are subject to the laws governing mining leases on Indian lands.

(b) *Duration of leases.* Leases made under the 1966 Act for public, religious, educational, recreational, residential, or business purposes may be made for terms of not to exceed 99 years. The term of a grazing lease shall not exceed 10 years; the term of a farming lease that does not require the making of a substantial investment in the improvement of the land shall not exceed 10 years; and the term of a farming lease that requires the making of a substantial investment in the improvement of the land shall not exceed 25 years. No lease shall contain an option to renew which extends the total term beyond the maximum term permitted by this section.

(c) *Required covenant and enforcement thereof.* Every lease under the 1966 Act shall contain a covenant on the part of the lessee that he will not commit or permit on the leased premises any act that causes waste or a nuisance or which creates a hazard to health of persons or to property wherever such persons or property may be.

(d) *Notification regarding leasing proposals.* If the secretary determines that a proposed lease to be made under the 1966 Act for public, religious, educational, recreational, residential, or business purposes will substantially affect the governmental interest of a municipality contiguous to the San Xavier Reservation or the Salt River Pima-Maricopa Reservation as the case may be, he shall notify the appropriate authority of such municipality of the pendency of the proposed lease. The Secretary may, in his discretion, furnish such municipality with an outline of the major provisions of the lease which affects its governmental interests and shall consider any comments on the terms of the lease affecting the municipality, or on the absence of such terms from the lease, that the authorities may offer. The notice to the authorities of the municipality shall set forth a reasonable period, not to exceed 30 days, within which any such comments shall be submitted.

(e) *Applicability of other regulations.* The regulations of § 131.1 through § 131.8 and § 131.12 through § 131.23 shall apply to leases made under the 1966 Act except where such regulations are inconsistent with this § 131.32.

(f) *Mission San Xavier del Bac.* Nothing in the 1966 Act authorizes development that would detract from the scenic, historic, and religious values of the Mission San Xavier del Bac owned by the Franciscan Order of Friars Minor and located on the San Xavier Reservation.

§ 131.33 Tulalip Reservation.

Any lease by the Tulalip Tribes under the Act of August 9, 1955 (69 Stat. 539), as amended (25 U.S.C. 415), except a lease for the exploitation of any natural resource, shall not require the approval of the secretary of the Interior: (1) If the term of the lease does not exceed 15 years, with no option to renew, or (2) if the term of the lease does not exceed 30 years, with no option to renew, and the lease is executed pursuant to tribal regulations previously approved by the Secretary of the Interior (84 Stat. 302).

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821 and OMB Circular A-107.

RICK LAVIS,
Deputy Assistant Secretary—Indian Affairs.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Parts 52]

[FRL 995-7]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

California Plan Revisions: Agricultural Burning Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to disapprove parts of the agricultural and open burning regulations of 37 air pollution control districts (APCD) in California which were submitted to EPA by the California Air Resources Board as revisions to the California State Implementation Plan (SIP). Some regulations have been previously approved as a part of the applicable SIP and this notice proposes to rescind the previous approvals. Others were recently submitted or previously not acted upon. In addition, parts of the State law, previously approved as part of the applicable SIP dealing with agricultural burning, are proposed to be rescinded from the SIP. The intended effect of this proposal is to update the rules and regulations and to correct deficiencies in the SIP. The EPA invites public comments on these rules, especially as to their consistency with the Clean Air Act.

DATE: Comments may be submitted up to December 26, 1978.

ADDRESSES: Comments may be sent to: Regional Administrator, Attention: Air and Hazardous Materials Division, Air Programs Branch, California SIP Section (A-4), Environmental Protection Agency, 215 Fremont Street, San Francisco, Calif. 94105.

Copies of the proposed revisions are available for public inspection during normal business hours at the EPA region IX office at the above address and at the following locations:

Amador County Air Pollution Control District, 810 Court St., Jackson, Calif. 95642.

Butte County Air Pollution Control District, 316 Nelson Ave., Oroville, Calif. 95965.
Calaveras County Air Pollution Control District, Government Center, San Andreas, Calif. 95249.
Colusa County Air Pollution Control District, 751 Fremont St., Colusa, Calif. 95932.
El Dorado County Air Pollution Control District, 2850 Cold Springs Rd., Placerville, Calif. 95667.

Wallace Woo, Chief, California SIP Section, EPA, Region IX, 415-556-7288.

SUPPLEMENTARY INFORMATION: This notice proposes to disapprove portions of the agricultural and open burning regulations of various APCD's in the State of California.

BACKGROUND

Open burning is prohibited in California with certain exceptions, including agricultural burning. The State regulates agricultural burning by designating burn and no-burn days. Burning is not permitted on designated no-burn days except when a special permit for such is issued by the APCD.

Agricultural burning includes open outdoor fires used in agricultural operations in the growing of crops or raising of fowl or animals, open outdoor fires used in forest management, range improvement, the improvement of land for wildlife and game habitat, and disease or pest prevention.

Other allowable open burning includes the burning of nonindustrial wood wastes, prevention of a fire hazard, instruction of public employees in the methods of fighting fire, and the setting of backfires necessary to save lives or valuable property.

Permits for agricultural and open burning are issued by the APCD and in some cases, by the fire protection agency having jurisdiction in the area, or by the agency designated by the State to issue such permits. Fees may be collected for these permits. Reports of permits issued on no-burn days are submitted to the State.

The APCD allows certain exemptions to the "no-burn" day requirements of the agricultural and open burning regulations. These exemptions are based on economic loss, pest disease and damage, seasonal range improvement, elevation above mean sea level, and in some cases, by the discretion of the APCD. These exemptions are regulated by the use of a special permit obtained from the APCD.

Exemptions to the visible emission rule are also allowed for open burning. These include open outdoor fires used for recreational purposes or for cooking food, agricultural operations, the use of other equipment in agricultural operations, and smoke or fires that result from acts of God.

Some of the above exemptions have the potential to cause or contribute to the exceedance of the national ambient air quality standards (NAAQS). Section 110(a)(2)(B) of the Clean Air Act specifies that the SIP must provide for the attainment and maintenance of the NAAQS. Therefore, no exemption can be approved without a control strategy demonstration or the use of safeguards to show that the exemption will not interfere with the attainment and maintenance of the NAAQS.

The rules listed below do not include adequate assurances that they will not interfere with the attainment and maintenance of the NAAQS.

PROPOSED ACTION

EPA is proposing to disapprove rules concerning economic exceptions to the agricultural and open burning regulations because they allow the APCD to use unlimited discretion in granting special permits and they do not include adequate assurances that they would not cause or contribute to the exceedance of the NAAQS. The exceptions are inconsistent with Section 110(a)(2)(B) and have the potential to make the burning prohibitions unenforceable.

However, if an economic exception rule includes adequate assurances that the exception would not cause or contribute to the exceedance of the NAAQS, the rule would be approvable under section 110(a)(2)(B) and (a)(3). These assurances might include a control strategy demonstration, tonnage/acreage limitations, certification of need by the county agricultural specialist, and minimum ventilation factors (mixing heights and wind speeds). The burden is on the proponent of a revision to a SIP to demonstrate that it will not interfere with the attainment and maintenance of the NAAQS.

EPA is also proposing to disapprove rules concerning the exemption of "other equipment in agricultural operations" from the visible emission prohibitions. These rules allow exemptions from the visible emission rules. The term "other equipment" is not defined in the rules and regulations and

the exemption could be interpreted to exempt stationary sources to which

11. Lake County APCD Part V(1)(D)(6), Prohibitions and Stand-

23. Riverside County APCD Rule 55(e), Exceptions, submitted on Febru-

34. Tuolumne County APCD Rule 402-A(f), Exceptions; and Rule

Dated: October 23, 1978.

SHEILA M. PRINDIVILLE,

(same address as above) 215-597-7915.

V 4 3 / 2 0 9 0 C 2 7 7 8

the exemption could be interpreted to exempt stationary sources to which the visible emission rule applies. Since the exemption could render the visible emission rule unenforceable, it should be disapproved.

In addition, the corresponding State laws are being disapproved for the reasons mentioned above.

It is the purpose of this notice to propose disapproval of the following APCD rules:

1. Amador County APCD Regulation V, Rule 4(G), Exceptions, submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812).

2. Butte County APCD Rule 3-15, Special Permit, submitted on February 21, 1972, and previously approved under 40 CFR 52.223 (37 FR 10842).

3. Calaveras County APCD Rule 203(G), Exceptions; and Rule 307(A)(1), Exceptions to Rule 306, both submitted on July 22, 1975, and previously approved under 40 CFR 52.223 (42 FR 42219). Rule 416.1(III)(A), Exceptions, submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812).

4. Colusa County APCD Rule 4.4(f), Exceptions, submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812).

5. El Dorado County APCD Rule 51(e), Exceptions to Rule 50; and Rule 60(c), Exceptions to Rule 59; submitted on February 21, 1972, and previously approved under 40 CFR 52.223 (37 FR 10842). Rule 203(g), Exceptions; and Rule 217-51(E), Exceptions to Rule 217-50; submitted on November 4, 1977.

6. Great Basin Valley Unified APCD Rule 405(E), Exceptions; and Rule 408(A), Burning of Agricultural Wastes, submitted on April 21, 1976, and previously approved under 40 CFR 52.223 (42 FR 28883).

7. Humboldt County APCD Rule 55(e), Exceptions, submitted on February 21, 1972, and previously approved under 40 CFR 52.223 (37 FR 10842).

8. Imperial County APCD Rule 148(F), Miscellaneous Exceptions, submitted on February 21, 1972, and previously approved under 40 CFR 52.223 (37 FR 10842). Rule 402(E), Exceptions, submitted on November 4, 1977.

9. Kern County APCD Rule 402(e), Exceptions; and Rule 417(h)(III)(A), Exceptions; both submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812).

10. Kings County APCD Rule 402(e), Exceptions; and Rule 417(III)(A), Exceptions; both submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812). Rule 402(e), Exceptions, submitted on November 4, 1977.

11. Lake County APCD Part V(1)(D)(6), Prohibitions and Standards—Exclusions, submitted on October 23, 1974, and previously approved under 40 CFR 52.223 (42 FR 42219). Rule 402(F), Exclusions, submitted on February 10, 1977.

12. Lassen County APCD Rule 4:5(d), Exceptions, submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812). Appendix A—Implementation Plan for Agricultural Burning—Exceptions (D), submitted on July 25, 1973, and previously approved under 40 CFR 52.223 (42 FR 42219).

13. Los Angeles County APCD Rule 55(e), Exceptions, submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812).

14. Mariposa County APCD Rule 4.3(f), Exceptions, submitted on February 21, 1972, and previously approved under 40 CFR 52.223 (37 FR 10842). Rule 203(g), Exceptions; and Rule 307(A)(1), Exceptions to Rule 306; both submitted on January 10, 1975.

15. Merced County APCD Rule 416.1(c)(1), Agricultural Burning; and Rule 402(e), Exceptions, both submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812).

16. Modoc County APCD Rule 3:5(d), Exceptions, submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812). Rule 5:2, Burning Permits—Exceptions (D), submitted on July 25, 1973, and previously approved under 40 CFR 52.223 (42 FR 42219).

17. Monterey Bay Unified APCD Rule 405(e), Exceptions, submitted on October 23, 1974, and previously approved under 40 CFR 52.223 (42 FR 56605).

18. Nevada County APCD Rule 55(d), Exceptions, submitted on February 21, 1972, and previously approved under 40 CFR 52.223 (37 FR 10842). Rule 203(g), Exceptions, submitted on April 10, 1975.

19. Northern Sonoma County APCD Rule 51(e), Exceptions, submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812).

20. Orange County APCD Rule 55(f), Exceptions, submitted on February 21, 1972, and previously approved under 40 CFR 52.223 (37 FR 10842).

21. Placer County APCD Rule 55(d), Exceptions, submitted on February 21, 1972, and previously approved under 40 CFR 52.223 (37 FR 10842). Rule 203(g), Exceptions, submitted on October 13, 1977.

22. Plumas County APCD Rule 55(e), Exceptions, submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812). Rule 203(G), Exceptions, submitted on June 6, 1977.

23. Riverside County APCD Rule 55(e), Exceptions, submitted on February 21, 1972, and previously approved under 40 CFR 52.223 (37 FR 10842).

24. Sacramento County APCD Rule 96 (a), Emergency Permits, submitted on February 10, 1976, and previously approved under 40 CFR 52.223 (42 FR 42219).

25. San Diego County APCD Rule 102(c), Open Fires, Western Section; Rule 103(c), Open Fires, Eastern Section; and Rule 109(a) Temporary Suspension Permits; submitted on July 25, 1973, and previously approved under 40 CFR 52.223 (42 FR 23805).

26. San Luis Obispo County APCD Rule 502(J)(1-2), Agricultural Burning, submitted on November 10, 1976.

27. Santa Barbara County APCD Rule 22(e), Exceptions; Rule 40(4)(a), Agricultural Burning; and Rule 42, Burning Permit for Non-Burn Days; submitted on February 21, 1972, and previously approved under 40 CFR 52.223 (37 FR 10842).

28. Shasta County APCD Rule 2:6(i)(b)(iii)(c); (1)(c)(vii); and (5)(a); Agricultural Burning, submitted on October 13, 1977. The October 13, 1977, submittal supersedes the July 19, 1974 submittal.

29. Sierra County APCD Rule 203(g), Exceptions; and Rule 307(A)(1), Exceptions to Rule 306; submitted on January 10, 1975, and previously approved under 40 CFR 52.223 (42 FR 42219). Rule 203(G), Exceptions; and Rule 307(A)(1), Exemption to Rule 306, submitted on June 6, 1977.

30. Siskiyou County APCD Rule 4.1-1(B)(3), Exceptions to Visible Emissions Section 24242, submitted on February 21, 1972, and previously approved under 40 CFR 52.223 (37 FR 10842). Implementation Plan for Agricultural Burning—Exceptions (D) submitted on July 22, 1973, and previously approved under 40 CFR 52.223 (42 FR 42219).

31. Stanislaus County APCD Rule 402(e), Exceptions, submitted on July 19, 1974, and previously approved under 40 CFR 52.223 (42 FR 42219). Rule 416.1(c)(1), Agricultural Burning, submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812).

32. Sutter County APCD Rule 4.5, Standards for Granting Applications, submitted on July 25, 1973, and previously approved under 40 CFR 52.223 (42 FR 8377).

33. Tehama County APCD Rule 4.1, Visible Emissions—Exceptions (f), submitted on February 21, 1972, and previously approved under 40 CFR 52.223 (37 FR 10842). Rule 3.10, Burning on No-Burn Days, submitted on July 22, 1973, and previously approved under 40 CFR 52.223 (42 FR 42219).

34. Tuolumne County APCD Rule 402-A(f), Exceptions; and Rule 417(h)(III)(A), Exceptions; submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812). Rule 203(g), Exceptions; and Rule 307(A)(1), Exceptions to Rule 306; submitted on July 22, 1975.

35. Ventura County APCD Rule 24(A)(5), Exemptions from Emission Standards, submitted on June 30, 1972, and previously approved under 40 CFR 52.223 (37 FR 19812).

36. Yolo-Solano APCD Rule 4.5, Standards for Granting Applications, submitted on February 21, 1972, and previously approved under 40 CFR 52.2223 (37 FR 10842). Rule 6.5(a), Standards for Granting Applications, submitted on June 22, 1978.

37. Yuba County APCD Rule 2.1(e), Exceptions to Rule 2; Agricultural Burning Regulations, Section 2(D)—Permits; and Section 4(A)—Exceptions; submitted on July 22, 1973, and previously approved under 40 cFR 52.223 (42 FR 42219).

38. California Air Resources Board Part 2, Health and Safety Code 39442(c); 24251(c); Part 1, Health and Safety Code 39299.2; submitted on February 21, 1972, and previously approved under 40 CFR 52.223 (37 FR 10842).

The proposed actions would further restrict agricultural and open burning; however, they would not prohibit such burning in California. Burning would continue to be allowed on designated burn days and such burning is not subject to visible emission limitations.

This rulemaking action would restrict burning on days when the predicted air quality is approaching or exceeding the NAAQS and it would assure that stationary sources continue to be subject to the visible emission rule.

The proposed disapprovals are necessary to make the SIP consistent with section 110 of the Clean Air Act and to insure the attainment and maintenance of the NAAQS.

The Regional Administrator hereby issues this notice setting forth these rules and regulations, as proposed rulemaking and advised the public that interested persons may participate by submitting written comments to the region IX office. Comments received on or before December 26, 1978, will be considered. Comments received will be available for public inspection at the EPA region IX office and the EPA Public Information Reference Unit.

(Secs. 110, 301(a), Clean Air Act as amended (42 U.S.C. 7410 and 7601(a)).)

Dated: October 23, 1978.

SHEILA M. PRINDIVILLE,
Acting Regional Administrator.

[FRL 994-5]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Approval of an Administrative Order Issued by the State of Maryland to Glidden Pigments Group of SCM Corp.

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve an administrative order issued by the State of Maryland to the Glidden Pigments Group of SCM Corp. The order requires the company to bring air emissions from its batch attack vessels and chloride processing plant at 3901 Glidden Road, Baltimore into compliance with certain regulations contained in the federally-approved Maryland State Implementation Plan (SIP) by July 1, 1979. Because the order has been issued to a major source and permits a delay in compliance with provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the Federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the Order. The purpose of this notice is to invite public comment on the proposed approval of the order as a delayed compliance Order.

DATE: Written comments must be received on or before November 27, 1978.

ADDRESS: Comments should be submitted to Director, Enforcement Division, EPA, Region III, Curtis Building, Sixth and Walnut Streets, Philadelphia, Pa. 19106. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Mr. Thomas W. Shiland, 3EN12 (same address as above) 215-597-7915.

SUPPLEMENTARY INFORMATION: The Glidden-Pigments Group of SCM Corp. operates two titanium dioxide producing plants at 3901 Glidden Road, Baltimore. The order under consideration addresses emissions from the batch attach vessels and chloride processing plant at the facility, which are subject to Maryland Regulations 10.03.38.02A (visible emissions), 10.03.38.03E (particulate emissions). The regulations limit the emission of particulate matter, and are part of the federally approved Maryland State Implementation Plan. The order requires final compliance with the regulation by July 1, 1979 through addition of control equipment on the batch attach vessels and the upgrading of equipment on the chloride plant. The company has met all interim compliance dates thus far.

Because this order has been issued to a major source of particulate emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a delayed compliance order under section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection.

If the order is approved by EPA, source compliance with its terms would preclude Federal enforcement action under section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the act (section 304) would be similarly precluded. If approved, the order would also constitute an addition to the Maryland SIP.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

(42 U.S.C. 7413, 7601.)

Dated: October 13, 1978.

JACK J. SCHRAMM,
Regional Administrator,
Region III.

[FRL 995-8; Docket No. 9-78-6]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Delayed Compliance Order for Southern Pacific Pipe Lines, Inc., Chico, Calif.

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to issue an administrative order to Southern Pacific Pipe Lines, Inc. The order requires the company to bring air emissions from its gasoline storage tanks in Chico, Calif., into compliance with certain federally promulgated regulations in the California State Implementation Plan (SIP). Because the company is unable to comply with these regulations at this time, the proposed order would establish an expeditious schedule requiring final compliance by June 1, 1979. Source compliance with the order would preclude suits under the Federal enforcement and citizen suit provision of the Clean Air Act for violation of the SIP regulations covered by the order. The purpose of this notice is to invite public comment and to offer an opportunity to request a public hearing on EPA's proposed issuance of the order.

DATES: Written comments must be received on or before November 27, 1978, and requests for a public hearing must be received on or before November 13, 1978. All requests for a public hearing should be accompanied by a statement of why the hearing would be beneficial and a text or summary of any proposed testimony to be offered at the hearing. If there is significant public interest in a hearing, it will be held after 30 days prior notice of the date, time, and place of the hearing has been given in this publication.

ADDRESS: Comments and requests for a public hearing should be submitted to Director, Enforcement Division, EPA, Region IX, 215 Fremont Street, San Francisco, Calif. 94105. Material supporting the order and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

William M. Thurston, Chief, Case Development Section, Air and Hazardous Materials Branch, Enforcement Division, EPA, Region IX, 215 Fremont Street, San Francisco, Calif. 94105, telephone 415-556-6150.

SUPPLEMENTARY INFORMATION: Southern Pacific Pipe Lines, Inc., operates a bulk gasoline dispensing terminal at Chico, Calif. The proposed order addresses emissions from gasoline storage tanks at this facility, which are subject to 40 CFR 52.255, Gasoline transfer vapor control. This regulation limits the emissions of hydrocarbons, and is a federally promulgated regulation in the California State Implementation Plan. The order requires final compliance with the regulation by June 1, 1979, and the source has consented to its terms. Southern Pacific Pipe Lines, Inc., has already submitted the progress report required in section I, increment A of the proposed order.

The proposed order satisfied the applicable requirements of section 113(d) of the Clean Air Act (the Act). If the order is issued, source compliance with its terms would preclude further EPA enforcement action under section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provisions of the Act (sec. 304) would be similarly precluded.

Comments received by the date specified above will be considered in determining whether EPA should issue the order. Testimony given at any public hearing concerning the order will also be considered. After the public comment period and any public hearing, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

(42 U.S.C. 7413, 7691)

Dated: October 18, 1978.

FRANK M. COVINGTON,
Acting Regional Administrator, Environmental Protection Agency, Region IX.

In consideration of the foregoing, it is proposed to amend 40 CFR Chapter 1, as follows:

PART 65—DELAYED COMPLIANCE ORDERS

1. By amending the table in § 65.90, Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act, to reflect approval of the following order:

[Order No. 9-78-6]

In the matter of Southern Pacific Pipe Lines, Inc., Chico, Calif., proceeding under section 113(d), Clean Air Act, as amended.

The following order is issued pursuant to section 113(d)(1) of the Clean Air Act, as amended, 42 U.S.C. 7401 et seq. (hereinafter referred to as the "Act"). This order contains a schedule for compliance and reporting requirements. Public notice, opportunity for a public hearing, and 30 days notice to the State of California has been provided pursuant to section 113(d)(1) of the Act.

FINDINGS

On March 17, 1978, the U.S. Environmental Protection Agency (EPA) issued a notice of violation, pursuant to section 113(a)(1) of the Act, to Southern Pacific Pipe Lines, Inc., upon a finding that gasoline storage tanks No. CH 5 and No. CH 16 at the Chico Calif., facility are in violation of 40 CFR 52.255, a part of the applicable California Implementation Plan as defined in section 110(d) of the Act. This finding was based upon an inspection conducted by EPA personnel on November 17 and 18, 1977.

Said violation has extended beyond the 30th day after issuance of the March 17, 1978, notice of violation. The continuing violation was documented at a May 5, 1978, conference during which representatives of Southern Pacific Pipe Lines, Inc. stated that the excessive roof gaps on gasoline storage tanks No. CH 5 and No. CH 16 had not been eliminated. Southern Pacific Pipe Lines, Inc. is presently unable to comply with the requirements of 40 CFR 52.255.

ORDER

After a thorough investigation of all relevant facts, including public comment, it is determined that the schedule for compliance set forth in this order is expeditious as practicable, and that the terms of this order comply with section 113(d) of the Act. *Therefore, it is hereby ordered:*

I. That Southern Pacific Pipe Lines, Inc. will comply with the California Implementation Plan regulations in accordance with the following schedule on or before the dates specified therein for gasoline storage tanks No. CH 5 and No. CH 16 at the Chico facility.

A. October 1, 1978—Provide to EPA a progress report on the study being conducted to demonstrate the equivalency of the Company's tank seals with the requirements of the California Air Resources Board.

B. January 1, 1979—Submit a final control plan to achieve compliance with 40 CFR 52.255.

C. April 1, 1979—Initiate onsite construction or installation of emission control equipment.

D. June 1, 1979—Complete construction and achieve final compliance with 40 CFR 52.255.

II. That no interim requirements, as described in section 113(d)(7) of the Act, are reasonable and practicable.

III. That Southern Pacific Pipe Lines, Inc is not relieved by this order from compliance with any requirements imposed by the applicable State implementation plan, EPA, and/or the courts pursuant to section 303 during any period of imminent and substantial endangerment to the health of persons.

IV. That Southern Pacific Pipe Lines, Inc. shall comply with the following reporting requirements on or before the dates specified below:

A. No later than 5 days after the date for achievement of an incremental step or final compliance specified in this order, Southern Pacific Pipe Lines, Inc. shall notify EPA in writing of its compliance, or noncompliance and reasons therefor, with the requirement. If delay is anticipated in meeting any requirement of this order, Southern Pacific Pipe Lines, Inc. shall immediately notify EPA in writing of the anticipated delay and reasons therefor. Notification to EPA of any anticipated delay does not excuse the delay.

B. All submittals and notifications to EPA pursuant to this order shall be made to the Director, Enforcement Division, EPA, Region IX, 215 Fremont Street, San Francisco, Calif. 94105.

V. Nothing herein shall affect the responsibility of Southern Pacific Pipe Lines, Inc. to comply with State, local, or other Federal regulations.

VI. Southern Pacific Pipe Lines, Inc. is hereby notified that your failure to achieve final compliance by July 1, 1979, may result in a requirement to pay a noncompliance penalty under section 120. In the event of such failure, Southern Pacific Pipe Lines, Inc. will be formally notified, pursuant to section 120(b)(3) and any regulations promulgated thereunder, of its noncompliance.

VII. This order shall be terminated in accordance with section 113(d)(8) of the Act if the Administrator determines on the record, after notice and hearing, that an inability to comply with 40 CFR 52.255 no longer exists.

VIII. Violation of any requirement of this order shall result in one or more of the following actions:

A. Enforcement of such requirement pursuant to sections 113 (a), (b), or (c) of the Act, including possible judicial action for an injunction and/or penalties and in appropriate cases, criminal prosecution.

B. Revocation of this order, after notice and opportunity for a public hearing, and subsequent enforcement of 40 CFR 52.255 in accordance with the preceding paragraph.

C. If such violation occurs on or after July 1, 1979, notice of noncompliance and subsequent action pursuant to section 120 of the Act.

IX. This order is effective October 27, 1978.

CONSENT PROVISION

Southern Pacific Pipe Lines, Inc. acknowledges that its Chico, Calif., facility is in violation of 40 CFR 52.255. Furthermore, Southern Pacific Pipe Lines, Inc. has reviewed this order, believes it to be a reasonable means to attain compliance with 40 CFR 52.255, and consents to the terms of the order.

Dated: Los Angeles, August 22, 1978.

B. K. SMITH,
President, Southern Pacific Pipe Lines, Inc.

[FRL 996-1; Docket No. VII-78-DCO-13]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Delayed Compliance Order for Phillips Petroleum Co. Fluid Catolytic Crocking Unit, Kansas City, Kans.

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to issue an administrative order to the Phillips Petroleum Co. (Phillips). The order requires the company to bring air emissions from its fluid catalytic cracking unit in Kansas City, Kans., into compliance with certain regulations contained in the federally approved Kansas State implementation plan (SIP). Because the company is unable to comply with these regulations at this time, the proposed order would establish an expeditious schedule requiring final compliance by July 1, 1979. Source compliance with the order would preclude suits under the Federal enforcement and citizen suit provision of the Clean Air Act for violation of the SIP regulations covered by the order. The purpose of this notice is to invite public comment and to offer an opportunity to request a public hearing on EPA's proposed issuance of the order.

DATES: Written comments must be received on or before November 27, 1978, and requests for a public hearing must be received on or before November 13, 1978. All requests for a public hearing should be accompanied by a statement of why the hearing would be beneficial and a text or summary of any proposed testimony to be offered at the hearing. If there is significant public interest in a hearing, it will be held after 21 days prior notice of the date, time, and place of the hearing has been given in this publication.

ADDRESSES: Comments and requests for a public hearing should be submitted to Director, Enforcement Division, EPA, Region VII, 1735 Baltimore, Kansas City, Mo. 64108. Material supporting the order and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Henry F. Rompage, EPA, Region VII, 1735 Baltimore, Kansas City, Mo. 64108, telephone 816-374-2576.

SUPPLEMENTARY INFORMATION: Phillips operates a refinery at Kansas City, Kans. The proposed order addresses emissions from the fluid catalytic cracking unit at this facility, which are subject to Kansas air pollution emission control regulation 28-19-20, particulate emissions limitations, and 28-19-50, opacity requirements. These regulations limit the emissions of particulates, and are part of the federally approved Kansas State implementation plan. The order requires final compliance with the regulation by July 1, 1979, and the source has consented to its terms. The source has agreed to meet the order's increments during the period of this informal rulemaking. The source has satisfied the first increment contained in the order.

The proposed order satisfies the applicable requirements of section 113(d) of the Clean Air Act (the Act). If the order is issued, source compliance with its terms would preclude further EPA enforcement action under section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provisions of the Act (section 304) would be similarly precluded.

Comments received by the date specified above will be considered in determining whether EPA should issue the order. Testimony given at any public hearing concerning the order will also be considered. After the public comment period and any public hearing, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

(42 U.S.C. 7413, 7601.)

Dated: October 19, 1978.

DAVID R. ALEXANDER,
Acting Regional Administrator, Region VII.

In consideration of the foregoing, it is proposed to amend 40 CFR Chapter 1, as follows:

PART 65—DELAYED COMPLIANCE ORDERS

1. By amending the tile in § 65.210 to reflect approval of the following delayed compliance order:

[Docket No. VII-78-DCO-13]

In the matter of Phillips Petroleum Co., Kansas City, Kans., docket No. VII-78-DCO-13.

This order is issued this date pursuant to section 113(d) of the Clean Air Act, as amended, 42 U.S.C. 7401 et seq. (the Act). This order contains a schedule for compliance, interim requirements, and monitoring and reporting requirements. Public notice, opportunity for a public hearing, and 30 days notice to the State of Kansas have been provided pursuant to section 113(d)(1) of the Act.

FINDINGS

On March 9, 1978, the U.S. Environmental Protection Agency (EPA) inspected the Phillips Petroleum Co. (Phillips) Kansas City, Kans. refinery. The inspection revealed the fluid catalytic cracking unit (FCCU) was possibly operating in violation of Kansas air pollution emission control regulations 28-19-20 and 28-19-50, a part of the Kansas State implementation plan. On April 13, 1978, EPA issued a section 114 order to Phillips to conduct performance tests on the FCCU to determine compliance with regulation 28-19-20. Phillips attempted performance tests but did not successfully complete the tests. Phillips acknowledged on July 13, 1978, the tests as run indicated the FCCU was operating in violation of regulation 28-19-20. At EPA's request, Phillips submitted plans to install controls to bring

the FCCU into compliance. The schedule has been determined to be expeditious.

1, 1979, (or other applicable date specified in accordance with section 120(a)(2)(B) of the

posed order would establish an expeditious schedule requiring final compli-

issued, source compliance with its terms would preclude further EPA en-

pursuant to section 113(a)(1) of the Act, to the CertainTeed Corp., a Maryland corpora-

D. Complete construction—February 1, 1979.

E. Remove 201 and 202 Superfine Furnace

V 4 3 / 2 0 9 0 C 2 7 7 8

the FCCU into compliance. The schedule has been determined to be expeditious.

ORDER

After a thorough investigation of all relevant facts, including public comment, it is determined that the schedule for compliance set forth in this order is expeditious as practicable, and that the terms of this order comply with section 113(d) of the Act. *Therefore, it is hereby ordered:*

I. That Phillips Petroleum Co., Kansas refinery will comply with the Kansas implementation plan regulations in accordance with the following schedule on or before the dates specified therein.

A. Fluid catalytic cracking unit (FCCU)

1. October 1, 1978—Issue purchase order for new cyclones for the FCCU regenerator.

2. November 15, 1978—Issue all purchase orders for all necessary materials and equipment.

3. May 1, 1979—Initiate installation and construction of pollution control equipment.

4. July 1, 1979—Complete installation and construction of pollution control equipment.

5. July 1, 1979—Achieve and demonstrate final compliance with regulations 28-19-20 and 28-19-50.

II. That Phillips shall comply with the following interim requirements which are determined to be the best reasonable and practicable interim system of emission (taking into account the requirement for which compliance is ordered in section I, above), and are necessary to avoid an imminent and substantial endangerment to the health of persons and to assure compliance with regulations 28-19-20 and 28-19-50, insofar as Phillips is able to comply during the period this order is in effect:

1. The particulate emissions from the FCCU shall not exceed 350 pounds per hour.

2. The opacity of emissions from the FCCU shall not exceed 50 percent. Exception: Once every 4 hours, for 30 minutes during the soot blowing sequence, opacity of emissions shall not exceed 60 percent.

III. That Phillips is not relieved by this order from compliance with any requirements imposed by the applicable State implementation plan, EPA, and/or the courts pursuant to section 303 during any period of imminent and substantial endangerment to the health of persons.

IV. That Phillips shall comply with the following reporting requirements on or before the dates specified below:

REPORTING REQUIREMENTS

1. No later than 5 days after any date for achievement of an incremental step or final compliance, specified in this order, Phillips shall notify EPA in writing of its compliance, or noncompliance and reasons therefor, with the requirement. If delay it anticipated in meeting any requirement of this order, Phillips shall immediately notify EPA in writing of the anticipated delay and reasons therefor. Notification to EPA of any anticipated delay does not excuse the delay.

2. All submittals and notifications to EPA pursuant to this order shall be made to Director, Enforcement Division, EPA, Region VII, 1735 Baltimore, Kansas City, Mo. 64108.

V. Nothing herein affect the responsibility of Phillips to comply with State or local regulations.

VI. Phillips is hereby notified that your failure to achieve final compliance by July 1, 1979, (or other applicable date specified in accordance with section 120(a)(2)(B) of the Act) will result in a requirement to pay a noncompliance penalty under section 120. In the event of such failure, Phillips will be formerly notified, pursuant to section 120(b)(3) and any regulative promulgated thereunder, of its noncompliance.

VII. This order shall be terminated in accordance with section 113(d)(8) of the Act if the Administrator (or his delegatee, as appropriate) determines on the record, after notice and hearing, that an inability to comply with regulations 28-19-20 and 28-19-50 no longer exists.

VIII. Violation of any requirement of this order shall result in one or more of the following actions:

A. Enforcement of such requirement pursuant to sections 113 (a), (b), or (c) of the Act, including possible judicial action for an injunction and/or penalties and in appropriate cases, criminal prosecution.

B. Revocation of this order, after notice and opportunity for a public hearing, and subsequent enforcement of regulations 28-19-20 and 28-19-50 in accordance with the preceding paragraph.

C. If such violation occurs on or after July 1, 1979, notice of noncompliance and subsequent action pursuant to section 120 of the Act.

IX. This order is effective immediately.

Date ———— ————————————

Administrator or Delegatee, U.S. Environmental Protection Agency.

WAIVER

Phillips Petroleum Co., by the duly authorized undersigned, stipulates that the fluid catalytic cracking unit is in violation of Kansas regulations 28-19-20 and 28-19-50, consents to the terms of the order, and hereby waives any and all rights under any provision of law to challenge this order.

Date: ———— ————————————

[FRL 996-3]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Delayed Compliance Order for Knauf Fiber Glass GmbH, Shelbyville, Ind.

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to issue an administrative order to Knauf Fiber Glass GmbH. The order requires the company to bring air emissions from its fiber glass manufacturing plant in Shelbyville, Ind., into compliance with certain regulations contained in the federally-approved Indiana State Implementation Plan (SIP). Because the company is unable to comply with these regulations at this time, the proposed order would establish an expeditious schedule requiring final compliance by July 1, 1979. Source compliance with the order would preclude suits under the Federal enforcement and citizen suit provision of the Clean Air Act (the Act) for violation of the SIP regulations covered by the order. The purpose of this notice is to invite public comment and to offer an opportunity to request a public hearing on EPA's proposed issuance of the order.

DATES: Written comments must be received on or before November 27, 1978, and requests for a public hearing must be received on or before November 13, 1978. All requests for a public hearing should be accompanied by a statement of why the hearing would be beneficial and a text or summary of any proposed testimony to be offered at the hearing. If there is significant public interest in a hearing, it will be held after 21 days prior notice of the date, time, and place of the hearing has been given in this publication.

ADDRESSEES: Comments and requests for a public hearing should be submitted to James O. McDonald, Director, Enforcement Division, United States Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Ill. 60604. Material supporting the order and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Louise Gross, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Ill. 60604, or telephone at 312-353-2082.

SUPPLEMENTARY INFORMATION: Knauf Fiber Glass operates a fiber glass manufacturing plant at Shelbyville, Ind. The proposed order addresses emissions from its 201 and 202 Superfine Furnace and Forming operations, its 601 Rotary Furnace and Forming Machine and its two Manual Pipe Insulation Curing Ovens at this facility, which are subject to Indiana Air Pollution Control Regulations APC-3 and APC-5. APC-3 sets opacity standards while APC-5 limits the emissions of particulate matter. Both regulations are part of the federally-approved State Implementation Plan. The order requires final compliance with the regulations by July 1, 1979, and the source has consented to its terms. The source has agreed to meet the order's increments during the period of this informal rulemaking. Emission monitoring and reporting are also required.

The proposed order satisfies the applicable requirements of section 113(d) of the Clean Air Act. If the order is

issued, source compliance with its terms would preclude further EPA enforcement action under section 113 of the Act against the source for violations of the regulations covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provisions of the Act (section 304) would be similarly precluded.

Comments received by the date specified above will be considered in determining whether EPA should issue the order. Testimony given at any public hearing concerning the order will also be considered. After the public comment period and any public hearing, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon, and will contain the procedure for EPA's issuance, approval, and disapproval of an order under section 113(d) of the Act. In addition, part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn, and replaced by a notice promulgating these new regulations.)

(42 U.S.C. 7413, 7601.)

Dated: October 10, 1978.

JOHN MCGUIRE,
Regional Administrator, Region V.

In consideration of the foregoing, it is proposed to amend 40 CFR Chapter I, as follows:

PART 65—DELAYED COMPLIANCE ORDERS

1. By amending the table in § 65.190, *Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act,* to reflect approval of the following order:

[Order No. EPA-5-78-A-]

KNAUF FIBER GLASS GMBH SHELBYVILLE, IND.

PROCEEDING UNDER SECTION 113(d) OF THE CLEAN AIR ACT, AS AMENDED—ORDER

The following ORDER is issued this date pursuant to section 113(d) of the Clean Air Act, as amended, 42 U.S.C. section 7401 et seq. (the "Act"). Public notice, opportunity for public hearing and 30 days notice to the State of Indiana have been provided pursuant to section 113(d)(1) of the Act. This order contains a schedule for compliance, emission monitoring requirements and reporting requirements. Final compliance is required as expeditiously as practicable, but not later than July 1, 1979.

On September 29, 1977, Dale S. Bryson, Acting Director, Enforcement Division, Region V, U.S. Environmental Protection Agency ("U.S. EPA"), pursuant to authority duly delegated to him by the Administrator of the U.S. EPA, issued a notice of violation, pursuant to section 113(a)(1) of the Act, to the CertainTeed Corp., a Maryland corporation with corporate headquarters at Valley Forge, Pa., upon a finding that the Corporation's fiber glass manufacturing plant in Shelbyville, Ind., was in violation of the applicable Indiana Implementation Plan, as defined in section 110(d) of the Act. The notice cited CertainTeed for violation of Indiana regulation APC-3 ("APC-3") at the 601 Forming Machine and Manual Pipe Insulation Curing Oven and violation of Indiana regulation APC-5 ("APC-5") at the six furnaces and six forming operations, as demonstrated by visible emissions observations and information submitted to U.S. EPA by CertainTeed, pursuant to section 114 of the Act.

On October 28, 1977, a meeting was held at CertainTeed's request to discuss the notice of violation. At that time, CertainTeed indicated that it was involved in an antitrust proceeding, as a result of which CertainTeed had been ordered to divest itself of the Shelbyville plant as a going concern.

On December 19, 1977, and January 5, 1978, Mr. Thies Knauf, now the President of Knauf Fiber Glass, met with U.S. EPA enforcement personnel, as a prospective purchaser, for the purpose of discussing the violations cited in the September 29, 1977, notice of violation and the general requirements of the Act.

On January 16, 1978, Knauf Fiber Glass GmbH ("Knauf") acquired ownership of the Shelbyville facility pursuant to the order of the U.S. District Court for the Eastern District of Pennsylvania in the antitrust proceeding referred to above and captioned *United States of America v. CertainTeed Products Corporation and PPG Industries, Inc.*, Civil Action No. 74-47 (E.D. Pa.). Knauf was not affiliated with CertainTeed at that time nor is it presently so affiliated.

On March 16, 1978, U.S. EPA inspected the Shelbyville plant and discussed compliance with Knauf's management. On April 6, 1978, Knauf representatives again met with U.S. EPA to discuss a compliance program. Because Knauf determined that it could not bring all of the sources cited in the September 29, 1977, notice of violation into compliance with the applicable regulations by July 1, 1979, both U.S. EPA and Knauf agreed to pursue the issuance of an order under section 113(a) of the Act as to those sources which Knauf could bring into compliance by July 1, 1979.

After a thorough investigation of all relevant facts, it is determined that Knauf is presently unable to comply with the Indiana Implementation Plan, that the schedule for compliance set forth in the order is as expeditious as practicable and that the terms of this order comply with section 113(d) of the Act. *Therefore, it is hereby ordered,* That:

1. Knauf shall achieve compliance with APC-5 at its fiberglass manufacturing plant 201 and 202 Superfine Furnaces and Forming operations in accordance with the following schedule:

A. Submit preliminary plans and specifications for construction of 603 Superfine electric melt furnace, 603 Superfine Forming Machine and necessary pollution control equipment—July 1, 1978.

B. Award final contracts—August 15, 1978.

C. Commence construction—November 1, 1978.

D. Complete construction—February 1, 1979.

E. Remove 201 and 202 Superfine Furnace and Forming operations and demonstrate compliance with APC-5—July 1, 1979.

11. Knauf shall achieve compliance with APC-3 and APC-5 at its fiberglass manufacturing plant 601 Rotary Furnace and Forming Machine in accordance with the following schedule:

A. Submit preliminary plans and specifications for conversion of 601 Rotary Furnace and 601 Rotary Forming to utilize electric melt and for necessary pollution control equipment—July 31, 1978.

B. Award final contracts—September 15, 1978.

C. Commence construction—March 1, 1979.

D. Complete construction—June 1, 1979.

E. Demonstrate compliance with APC-3 and APC-5-July 1, 1979.

III. Knauf shall achieve compliance with APC-3 at its two fiber glass manufacturing plant Manual Pipe Insulation Curing Ovens in accordance with the following schedule:

A. Submit preliminary plans and specifications for emission control devices—July 31, 1978.

B. Award final contracts—September 15, 1978.

C. Commence construction—January 1, 1979.

D. Complete construction—April 1, 1979.

E. Demonstrate compliance with APC-3—July 1, 1979.

IV. Knauf shall achieve and demonstrate final compliance with APC-5 at its fiber glass manufacturing plant 201 and 202 Superfine Furnaces and Forming Machines (to be redesignated 603) by July 1, 1979. Knauf shall achieve and demonstrate final compliance with APC-3 at its two fiber glass manufacturing plant Manual Pipe Insulation Curing Ovens by July 1, 1979. Knauf shall achieve and demonstrate final compliance with APC-3 and APC-5 at its 601 Rotary Furnace and Forming Machine by July 1, 1979.

V. Pursuant to sections 113(d)(1)(C) and 114(a) of the Act, Knauf shall install continuous monitoring systems for the measurement of opacity for Rotary Forming Machine, 603, Rotary Forming Machine 601 and the Manual Pipe Curing Ovens. These continuous monitoring systems shall be installed, calibrated, maintained and operated in accordance with the procedures set forth in appendix B of 40 CFR Part 60 and shall be properly calibrated and operational upon the achievement of final compliance. Thereafter, Knauf shall submit a written report of excess emissions for each calendar quarter, including the nature and cause of excess emissions, if known, and corrective action taken. This summary shall consist of the magnitude in actual percent opacity of all 6-minute averages of opacity greater than 40 percent for each hour of operation of the facility. Average values may be obtained by integration over 6-minutes or by arithmetically averaging a minimum of four equally space, instantaneous, opacity measurements per minute. All records produced by the continuous monitoring systems shall be retained by Knauf for a period of not less than 2 years and made available for inspection by U.S. EPA or its agent upon request. Malfunctions or periods in which the continuous monitoring system is not in operation shall be reported immediately, along with proposed corrective action.

In the alternative, Knauf may demonstrate to the U.S. EPA that the emission

[6560-01-M]

ing will begin at 9 a.m. and the meeting will begin at 9:30 a.m.

cause of a number of typographic and editorial errors which affect the sub-

Effluent limitations

V 4 3 / 2 0 9 0 C 2 7 7 8

In the alternative, Knauf may demonstrate to the U.S. EPA that the emission monitoring system provided in 40 CFR Part 60 is not feasible in light of the control equipment ultimately chosen. In such case, Knauf shall provide and alternatie method of continuous monitoring, approved by U.S. EPA, to assure proper operation of the control equipment at all time.

VI Pursuant to section 113(d)(7) of the Act, it has been determined that during the period in which this order is in effect, no interim requirements, are reasonable and practicable.

VII. Knauf shall submit reports to the U.S. EPA detailing progress made with respect to each requirement of this order. Such reports shall be submitted within ten (10) days of the completion of such requirement. In addition, no later than July 1, 1979, the Company shall certify to the U.S. EPA that each of the sources required to comply with APC-3 and/or APC-5 is in final compliance with the appropriate regulation(s).

VIII. All submissions and notifications to the U.S. EPA pursuant to this order shall be made to the Chief, Air Compliance Section, U.S. EPA, Region V, 230 South Dearborn Street, Chicago, Ill. 60604.

IX. Nothing in this order shall be construed as a waiver by the Administrator of any rights or remedies under the Clean Air Act, including, but not limited to, section 303 of the Act, 42 U.S.C. Section 7603.

X. Knauf is hereby notified that its failure to achieve compliance by July 1, 1979, will result in a requirement to pay a noncompliance penalty under section 120. In the event of such failure, Knauf will be formally notified, pursuant to section 120(b)(3) and any regulations promulgated thereunder, of its noncompliance.

XI. This order is effective upon FEDERAL REGISTER promulgation.

Date———— ————————————

Administrator or Delegate
U.S. Environmental Protection Agency.

Knauf has reviewed this order and believes it to be a reasonable means by which the sources at its fiber glass insulation manufacturing facility mentioned therein can achieve final compliance with Indiana regulations APC-3 and/or APC-5 according to the terms of the order. Knauf stipulates as to the correctness of all facts stated above except insofar as paragraph IX of the order is deemed a statement of fact, and consents to the requirements and terms of this order, but reserves the right to dispute in any forum the applicability of the noncompliance penalty provisions of section 120 to its Shelbyville sources. Knauf waives its right to notice of violation under section 113(a)(1) of the Clean Air Act as to the violations to be corrected by the terms of this order.

ACTION: Announcement of comment meeting on proposed rules.

SUMMARY: The Environmental Protection Agency will hold a public meeting on November 27, 1978 in Washington, D.C., to hear public comment on its August 23, 1978, proposed rules implementing section 304(b)(4)(B) of the Clean Water Act ("Best Conventional Pollutant Control Technology").

DATES: Hearing date: November 27, 1978.

ADDRESS: The time and location of the hearing is: November 27, 1978, EPA Headquarters, Rooms 3906 and 3908, 401 M Street SW., Washington, D.C. 20460. Registration for the meeting will begin at 9 a.m. and the meeting will begin at 9:30 a.m.

FOR FURTHER INFORMATION CONTACT:

Allen W. Leduc, Water Economic Branch (WH-586), U.S. EPA, 401 M Street SW., Washington, D.C. 20460, phone: 202-426-2617.

SUPPLEMENTARY INFORMATION: Section 304(b)(4)(B) of the Clean Water Act was adopted by Congress in 1977. This section establishes a new level of technology based effluent limitations, Best Conventional Pollutant Control Technology (BCT). The BCT limitations are in lieu of the 1983 Best Available Technology Economically Achievable (BAT) requirement and therefore will represent the control of all conventional pollutants beyond the 1977 levels of control established under Best Practicable Control Technology Currently Available (BPT) technology limitations. Unlike the former BAT limitations, the BCT limits must also pass a test of reasonableness, defined in the preamble of the proposed rules published in the August 23, 1978, FEDERAL REGISTER (43 FR 37570-37607). Comments have been solicited on the methodology the Agency has chosen to determine reasonableness and the resulting proposed determinations.

The purpose of the meeting announced today is to clarify comments received during the comment period. In order to insure a meaningful dialogue at this meeting, the Agency requests that:

1. The participants submit written comments prior to the meeting date (November 27, 1978) so that they may be reviewed by EPA staff and the meeting panel.

2. Participants bring with them any technical or other staff who assisted them in preparing their comments to respond to any questions which may be posed by the panel.

3. Criticism of the proposed methodology and rules be accompanied by constructive suggestions on how the methodology could be changed within legal, technical practical, and other constraints.

Comments received at the meeting will be considered in the development of the final methodology and rules.

THOMAS C. JORLING,
Assistant Administrator for Water and Waste Management.

OCTOBER 23, 1978.

BEST CONVENTIONAL POLLUTANT CONTROL TECHNOLOGY

Reasonableness of Existing Effluent Limitations Guidelines; Corrections

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rules.

SUMMARY: EPA issues a corrections document for proposed rules published in the FEDERAL REGISTER on August 23, 1978, at 43 FR 37570 because of a number of typographic and editorial errors which affect the substantive content of the regulations proposed.

FOR FURTHER INFORMATION CONTACT:

Mr. Allen W. Leduc, Water Economics Branch (WH-586), EPA, 401 M Street SW., Washington, D.C. 20460, phone 202-426-2617.

SUPPLEMENTARY INFORMATION: FR Doc. 78-23254, published August 23, 1978, contained a number of typographic errors which do not affect the determinations of reasonableness but affect the substantive content of the proposed rules. Those errors should be corrected as follows:

I

Page	Column	Line(s)	Error	Change to read
37571	2	53	"30 parts per million"	"25 parts per million"
37572	2	45	"(20,000 gallons per day)"	"(10,000 gallons per day)"
37593	1	10	"=1.86 million pounds"	"=1.186 million pounds"
37597	1	22-23	"Under a BPT and BAT limitation of zero discharge".	"under equal BPT and BAT limitations"
37597	1	24-27	"BCT limitation be zero discharge; The BAT zero discharge control is also being retained because it controls toxic and nonconventional pollutants.".	"BCT limitation in these subcategories be equal to their BPT and BAT limitation."

II

The Best Available Technology Economically Achievable (BAT) limitations for the Steamed and Canned Oyster Procession subcategory of the Canned and Preserved Seafood Processing point source category (§ 408.273) were redesignated as § 408.277 (page 37580, column 1). The first paragraph of this new section should be changed to read as follows:

§ 408.277 [Amended]

Except for those steamed and canned oyster processing facilities which utilize air flotation treatment systems to meet the shrimp processing effluent limitations guidelines under § 408.117, 408.127, or § 408.137 and for which effluent limitations should be derived on a case-by-case basis, the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best conventional pollutant control technology:

* * * * *

The BAT conventional pollutant limitation in the Renderer subcategory (§ 432.103) of the Meat Products Point Source Category were found to be reasonable. However, the limitations appearing in the FEDERAL REGISTER under this subcategory are not correct. These limitations were in effect up to October 6, 1977, but were revised at that time. The following corrections should be made in the revisions of the BAT regulations of the Renderer subcategory found on pages 37589 and 37590 in §§ 432.103 and 432.107(a):

12. Section 432.103 of the Renderers Subcategory is proposed to be amended as follows:

§ 432.103 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

(a) Subject to the provisions of paragraph (b) of this section the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristics	Effluent limitations: Maximum for any 1 day	Effluent limitations: Average of daily values for 30 consecutive days shall not exceed—
	Metric units (kilograms per 1,000 kg of raw material)	
Ammonia	0.14	0.07
	English units (pounds per 1,000 lb of raw material	
Ammonia	0.14	0.07

* * * * *

13. A new § 432.107 for the Renderer Subcategory is added as follows:

§ 432.107 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best conventional pollutant control technology.

(a) Subject to the provisions of paragraph (b) of this section, the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best conventional pollutant control technology:

Effluent characteristics	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
	Metric units (kilograms per 1,000 kg of raw material)	
BOD5	0.18	0.09
TSS	0.22	0.11
Oil and grease	0.10	0.05
pH	Within the range 6.0 to 9.0	
Fecal coliforms	Maximum at any time 400 mpn/100 ml.	
	English units (pounds per 1,000 lb. of raw material)	
BOD5	0.18	0.09
TSS	0.22	0.11
Oil and grease	0.10	0.05
pH	Within the range 6.0 to 9.0	
Fecal coliforms	Maximum at any time 400 mpn/100 ml.

CIVIL AERONAUTICS BOARD

[Order 78-10-94; Docket 33172]

ALLEGHENY AIRLINES, INC.

Certificate for Route 97 So as To Redesignate Liberty-Monticello as Catskills/Sullivan County; Order To Show Couse

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 20th day of October 1978.

On August 8, 1978, Allegheny Airlines filed a motion requesting the issuance of an order to show cause why its certificate for Route 97 should not be amended to redesignate the intermediate point Liberty-Monticello as Catskills/Sullivan County.

No answers to the motion have been filed.

We tentatively conclude that Allegheny's request should be granted, on the basis of the tentative findings below.

The Sullivan County International Airport serves the resort area popularly known as the "Catskills" (Catskill Mountains), and designation of the point as Liberty-Monticello may cause confusion for those seeking to travel by air to the Catskills region. Redesignation would better describe the area served, and thus reduce the potential for confusion, without affecting Allegheny's authority and certificate obligations.[1] Further, Allegheny seeks the change at the request of local civic parties.

We will give interested persons 14 days from the service date of this order to show cause why we should not make final our tentative findings and conclusion. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If an evidentiary hearing is requested, the objector should state in detail why it is necessary, and what it could establish that cannot be established by written pleadings. We will not entertain general, vague, or unsupported objections. Answers shall be filed within 7 days of the due date for objections.

Accordingly,

1. We direct all interested persons to show cause why we should not issue an order amending the certificate of public convenience and necessity of Allegheny Airlines, for Route 97, to redesignate the intermediate point Liberty-Monticello as Catskills/Sullivan County (to be served through Sullivan County International Airport);

2. We direct any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth here, to file no later than November 7, 1978, and serve upon all persons listed in paragraph 5, a statement of objections together with a summary of testimony, statistical data, and other material expected to be relied upon to support the stated objections. Answers shall be due no later than November 14, 1978;

3. If timely and properly supported objections are filed, we will give full consideration to the matters and issues raised by the objections before taking further action;

4. In the event no objections are filed, we will deem all further procedural steps to have been waived and proceed to enter an order in accordance with the tentative findings and conclusions set forth here:

5. We will serve this order upon Allegheny Airlines, Inc.; Ransome Air, Inc.; the U.S. Postal Service; attorney for the county of Sullivan, N.Y.; the Sullivan County Airport Commission; New York State Department of Transportation; Sullivan County Government Center; the mayors of Liberty and Monticello, N.Y.; the Governor of the State of New York; and the Director of Airport Services, Federal Aviation Administration.

We will publish this order in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[2]

PHYLLIS T. KAYLOR,
Secretary

[FR Doc. 78-30474 Filed 10-26-78; 8:45 am]

[1] By order 78-2-7 Ransome Air, Inc., has been operating replacement service for Allegheny since Mar. 17, 1978. It has referred to the point as "Catskills/Sullivan County" in its published timetables and the Official Airline Guide has also used this designation in referring to the point.

[2] All members concurred.

[Order 78-10-97; Dockets 33094 and 32484]

TEXAS INTERNATIONAL AIRLINES, INC., SYSTEM MAIL RATES

Investigation of the Local Service Class Subsidy Rate; Class Rate IX Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 20th day of October 1978.

The Board, by show cause order 78-7-135, July 25, 1978, tentatively established a final subidy-free mail rate for Texas International Airlines, Inc. (TXI), effective on and after July 1, 1978. On August 28, 1978, TXI filed a document entitled "Comments of Texas International Airlines, Inc. on Show Cause Order 78-7-135." In this document, TXI objects to the proposed subsidy-free rate because it is required to provide service to points that are eligible for subsidy and which TXI alleges continue to generate losses. TXI also states that if the Board authorizes its suspension at Carlsbad, Clovis, and Hobbs, N. Mex., in docket 32901 and authorizes it permissive authority to suspend at Texarkana and Laredo, Tex., plus Hot Springs, Ark., in docket 33302,[1] it will willingly accept the proposed subsidy-free mail rate.

In support of its position, TXI states that the Board no longer awards new routes with the aim of reducing subsidy. Referring to its request for permissive authority, it asserts:

> If subsidy is not available to support service on the subsidy eligible system, support must come from other profitable operations or from TXIA's shareholders. If the shareholders have no say through management as to whether such service should be continued, it is unfair and probably illegal to require them to bear the burden.

It also maintains that the trend toward multiple, permissive route awards to increase competition will—if the concept works—eliminate the availability of excess profits to offset against losses elsewhere on a carrier's system.

TXI stresses that suspension of the three points in New Mexico and a grant of permissive authority to suspend services at the three Texas and Arkansas points will minimize the problem. It states that if it gets what it requests, "TXIA will willingly accept a subsidy-free rate." If the suspension authority is not granted, TXI indicates it will persist in objecting to a subsidy-free rate.

To support its objection, TXI alleges that the Board did not examine its earnings over a representative period before finding that it had no need for subsidy. In addition, it maintains that its investment base is depleted because of losses experienced in earlier periods under what it characterizes as "inadequate" class subsidy rates. Finally, TXI disputes the way the financial results for the year ended March 31, 1978, were adjusted to account for economic savings resulting from suspension or deletion of points.

Upon review we find that TXI's objection raises no issues of material fact. Instead it merely states disagreements with subsidy policies of the Board and with the Board's interpretation of section 406 of the Federal Aviation Act (the Act). We, therefore, affirm the conclusions and findings stated in order 78-7-135. To dispell any doubts about our position, however, we will respond to TXI's comments.

First, we find that the additional permissive and suspension authority it requests is outside the scope of this case, as the memorandum filed by three New Mexico communities correctly points out.[2] Furthermore, the Board reached its decision on the basis only of the suspensions of points that actually occurred up to March 31, 1978.

In carrying out its responsibilities under the Act—to determine when a carrier is self-sufficient, or when it has shown enough potential for self-sufficient operation that it no longer requires subsidy support—the Board must evaluate its need in terms of the results of its overall operations. Therefore, in reaching our decision to remove TXI from subsidy, we need not determine that each individual market it may operate has achieved profitability.[3]

[1] TXI filed for the permissive authority to suspend at Texarkana, Laredo, and Hot Springs on Aug. 28, 1978, the same date it filed comments on order 78-7-135.

[2] On Sept. 6, 1978, the New Mexico cities of Carlsbad, Clovis, and Hobbs filed a memorandum regarding TXI's attempt to gain additional suspension authority. The New Mexico communities' response, being, in effect, an answer to an answer, is clearly prohibited by rule 6(b) of the Board's rules of practice and is not provided for under rules 302 or 305(c). However, the memorandum was accompanied by a "contingent motion" for leave to file an otherwise unauthorized document. This motion will be granted and the memorandum is accepted as such.

[3] The Supreme Court has stated, "The Act • • • poses as the initial question for the Board whether the financial condition of the carrier is such that it needs a subsidy or has no need for one • • • an air carrier's subsidy need is an amount which • • • will enable it to meet and maintain the objectives of the Act." It also stated: "The 'need' of the carrier is measured by the entirety of its operations, not by the losses of one division or department." *Delta Air Lines, Inc.* v. *Summerfield*, 347 U.S. 74 (1954)

As the carrier notes, the Board has not emphasized subsidy reduction in recent decisions to award new routes. Nevertheless, the taxpayers are entitled to realize the mature fruits of the Board's past route policies.

The major purpose of the route-strengthening program (in effect to varying degrees for more than a decade, beginning in the mid 1960's) was to give the local service carriers relatively dense, long-haul routes and to use any excess profits from their operation to reduce subsidy. The carriers were well aware of that objective and willingly accepted the new authority on those terms. TXI has now seen its profitability enhanced to the point of self-sufficiency, partly because of these route awards, yet it wants to retain all of the benefits. Because the Board has a duty to protect the interests of taxpayers, as well as those of consumers and air carriers, we have determined that TXI should be able to operate on its own—even though there may be some losing operations remaining in its system. Our treatment of TXI is fully consistent with similar actions involving other carriers.

TXI asserts that the Board did not consider its operations over a representative period before concluding that it should no longer receive subsidy. The main thrust of its argument is that it experienced a high rate of return only in the latest yearend period; [4] for the first 8 of the last 10 years it experienced losses before subsidy.

We concluded in order 78-7-135 that only the most recent periods are pertinent to judging TXI's current and future subsidy needs. The dramatic and fundamental changes made by the carrier's new management in the last few years have made TXI into a completely different carrier. Furthermore, the sheer magnitude of TXI's earnings growth distinguishes this case from the norm.

In TXI we observed over roughly a 3-year period—the emergence of a carrier from a near-bankrupt state to one with excellent recorded earnings and rates of return on investment. As we noted in order 78-7-135, there is every reason to believe that TXI can continue to sustain itself. Its operations have been rationalized; its management has demonstrated initiative and skill; and it operates in an area that has experienced (and continues to experience) greater-than-average economic growth. In addition, it has received new route authority which adds to the size of its system and to its operating flexibility. While the authority may not be exclusive (in keeping with our goal of greater reliance on market competition), we are confident that an aggressive carrier like TXI will fully exploit all of its potentially profitable opportunities.

The continued improvement in the company's financial situation in the second quarter of calendar 1978 provides additional confirmation of our conclusion that it is self-sufficient. TXI's operating profit (before subsidy and with no ratemaking adjustments) was $3,352,000 for the quarter ended June 30, 1978, up from $167,000 in the same quarter of 1977. For the 12 months ended June 30, 1978, TXI's unadjusted operating profit (before subsidy) was $9,650,000, compared with an operating loss of $906,000 for the same period a year earlier. TXI's rate of return on investment (also before subsidy and with no ratemaking adjustments) was approximately 18 percent for the 12 months ended June 1978.

The claim that TXI's investment base is depleted because of the inadequacy of past class rates is at odds with the philosophy underlying section 406 subsidy and the class-rate system. Class subsidy rates are based on the average performance of members of the class. The total amount of subsidy is designed to be adequate for the class as a whole, but the class rate system does not guarantee that the indicated need of each of the individual members will be met. Class subsidy rates are designed to provide incentives for individual carriers to do better than the class average. When during the life of a rate a member performs better than average, it is rewarded by receiving more than its indicated need. Conversely, when a carrier performs worse than average, it will not have its need fully covered. Any subsidy shortfall experienced by TXI in recent years occurred mainly because it did not operate as well as the average carrier, not because the class rates were inadequate for the overall class. (TXI has made no showing that the subsidy rates were inadequate for the entire class.)

The function of subsidy is to provide financial nurture until a carrier reaches the threshold of maturity. This principle was eloquently stated by the Court of Appeals for the District of Columbia in *Trans World Airlines, Inc.* v. *C.A.B.*,[5] a relatively recent case, where the court said:

[4] for the first 8 of the last 10 years it experienced losses before subsidy.

[5] 385 F. 2d 648 (1967).

• • • The Board considered that the 'need' of the carrier is a need to survive

10 one-way annual flights without prior Board approval; however, we specifically retain the option to suppress

permits, were discussed by the two Governments during the charter negotiations, but the United Kingdom de-

6. The public interest does not require an oral hearing;

7. The grant of a permit to the appli-

V 4 3 / 2 0 9 0 C 2 7 7 8

• • • The Board considered that the "need" of the carrier is a need to survive through the development period, and not a "need" to attain self-sufficiency with the same kind of accrual reserves that a conservative management might have tucked away in capital accounts during prosperous years • • •

We note that during the 12 months ended June 30, 1978, TXI's stockholder equity increased from approximately $8 million to $32 million, mainly as a result of a stock issue. This demonstrates that TXI is able to attract capital in the open market. It has made no showing that any alleged capital depletion has impaired its ability to fulfill its certificate obligations.

The economic savings adjustment was used by the Board in order 78-7-135 to remove from TXI's year ended March 31, 1978, financial results certain costs associated with operations which were suspended or deleted during the period from April 1, 1976, through March 31, 1978.[6] TXI claims that it is not correct to use such an adjustment in determining the individual need of a carrier for any past period or for the purpose of determining the eligibility of any carrier for inclusion in a new class rate. We do not agree. We are not in this case trying to determine a past-period need for TXI. TXI was on a closed rate and was paid its full subsidy rate during the year ended March 31, 1978. The costs of services which the carrier has discontinued and will not be offering in the future do not help us answer the question, "Will TXI need subsidy in the future?"

This is a technical subsidy rate adjustment. If we had made the adjustment using a different methodology—or if we had made no adjustment at all—our decision would have been the same: TXI's overall system no longer has a subsidy need.

Accordingly, under the Federal Aviation Act of 1958, as amended, particularly sections 204(a), 406, 407(a), and 1002(b):

1. Effective today, we make final our tentative findings and conclusions set forth in order 78-7-135;

2. We grant leave to Carlsbad, Clovis, and Hobbs, N. Mex., to file an otherwise unauthorized document; and

3. We will serve a copy of this order on Texas International Airlines, Inc., and the Postmaster General.

[6]The method, which was employed in class rate VIII, assumes that upon suspending service, certain cost savings are not realized until 1 year later. Thus, some savings associated with suspensions which occurred during the year ended Mar. 31, 1977, were not realized until sometime during the year ended Mar. 31, 1978. (This approach is based on adoption of proposals by Airwest and Southern made during the conception of class rate VII.)

We shall publish this order in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[7]

[Order 78-10-86; Docket 32689]

TRADEWINDS AIRWAYS, LTD.

Application for Issuance of a Foreign Air Carrier Permit; Statement of Tentative Findings and Conclusions and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 20th day of October 1978.

By application filed May 17, 1978, Tradewinds Airways Ltd. (Tradewinds) requests a foreign air carrier permit to engage in charter foreign air transportation of property between (1) any point or points in the United Kingdom and any point or points in the United States, and (2) between any point or points in any territory under the sovereignty, suzerainty, protection, jurisdiction, or trusteeship of the United Kingdom and any point or points in the United States.[1] On June 20, 1978, Tradewinds filed a motion for an order to show cause why its application should not be granted without an oral hearing. No objections have been filed to the application or motion.

The applicant has been named by the United Kingdom as a charter-designated airline pursuant to the amendments to the Air Service Agreement concluded by an exchange of diplomatic notes on April 25, 1978, between the United States and the United Kingdom. As we noted in Order 78-7-15, these amendmends liberalize the applicable charter rules between the United States and the United Kingdom for both passenger and cargo services and provide for the continuation of negotiations to further liberalize the cargo charter rules.

In support of its application, Tradewinds alleges that it is a corporation organized under the laws of the United Kingdom with all its shares held by subsidiaries of Lonrho Ltd., a publicly held United Kingdom corporation;[2] that it has engaged in airfreight transportation to the Far East, Middle East, and Africa since 1969; that it maintains its aircraft pursuant to standards prescribed by the British Civil Aviation Authority;[3] that its operating authority has never been suspended, revoked, or otherwise terminated since it inaugurated services;[4] that it has always been able to meet its financial and transportation obligations; that it currently operates six freighter aircraft;[5] and that it maintains worldwide liability insurance coverage on each aircraft in addition to third-party liability insurance.

The applicant estimates that it will perform 400 annual charters using B-707 aircraft and 100 charters using CL-44 equipment for the first year of operation to the United States. It predicts that it will move approximately 18,500 tons of cargo which should generate approximately $22,500,000 of revenue for its first-year operations.

Upon consideration of the pleadings and all relevant facts, we have tentatively decided to grant the requested authority and also additional charter authority provided for in the agreement. We will also grant limited Fifth Freedom authority qualified by operational limitations, as specified.

The amended charter provisions of the agreement permit United Kingdom charter-designated airlines to serve intermediate and beyond points when operating between U.S. and U.K. points, restricted only by a 2-day stopover requirement in the United Kingdom for all traffic originating in the United States and stopping over at any point outside the United States and the United Kingdom.[6] Although the applicant has not requested this intermediate/beyond authority, we have tentatively decided to grant it because of our desire to implement the United States-United Kingdom charter provisions to the fullest extent possible. We believe that an award of maximum charter authority will afford the applicant increased operational flexibility and permit a more efficient allocation of carrier resources.

We have further tentatively decided to grant the applicant operating rights between United Kingdom territories and the United States and non-United Kingdom points and the United States (Fifth Freedom) even though not encompassed within the scope of the agreement. This is similar to our award in order 78-7-164 to IAS Cargo Airlines.[7] The applicant may conduct

[7]All members concurred except Members Schaffer and Cohen who did not participate.

[1]The applicant requested a waiver from pt. 312 of the Board's procedural regulations. We will deny the motion.

[2]Sunbreaks, Ltd. and African Investments Trust Co., Ltd., wholly owned subsidiaries of Lonrho, Ltd., hold 100 percent of the shares of the applicant.

[3]The United Kingdom is a signatory to the Convention on International Civil Aviation.

[4]The applicant's safety record is marred by only one accident in 1974 where no injuries were reported and no safety regulations apparently violated.

[5]All craft are either leased or subject to purchase-installment contracts.

[6]Art. 14(3) of the United States-United Kingdom Air Services Agreement as amended by the Apr. 25, 1978, exchange of diplomatic notes.

[7]In order 78-7-164, Aug. 1, 1978, the Board granted to International Aviation

Footnotes continued on next page

10 one-way annual flights without prior Board approval; however, we specifically retain the option to approve additional flights or to disapprove those now authorized if found to be inconsistent with the public interest. Since we anticipate that the majority of Tradewinds' operations will be conducted between the United States and the United Kingdom, we believe the limitation is broad enough to cover most Fifth Freedom and territorial flights that the carrier is likely to operate. Our decision here is motivated by a dual desire to minimize the Board's administrative burden in processing individual charter carrier requests, which has traditionally required either permit amendments or Board waivers, and to encourage further relaxation of charter restrictions on the part of the United Kingdom. Even though the United Kingdom does not afford U.S. carriers reciprocal authority for Fifth Freedom flights without prior approval, we tentatively find our grant of authority to be in the public interest.

Similar to our recent award to IAS we shall authorize split-cargo charter operations only for those operations covered by the agreement.[8] In refusing to award this authority for operations not covered by the agreement, we note that no U.S. carrier or foreign carrier operating charters originating or destined for the United States holds authority to engaged in split cargo operations. We would be inclined to award this authority when U.S. carriers are permitted to also participate. Until that time, we conclude that it would not be in the public interest to grant this economic benefit.

While we wish to accord the widest latitude to the United Kingdom carriers for all of the reasons explicated above, we are mindful of the necessity to balance exchanges or reciprocal rights upon which an international aeronautical system is predicated. We have therefore tentatively decided to refuse "Quantas privileges" to the applicant.[9] These stopover rights, generally inherent in all foreign air carrier permits, were discussed by the two Governments during the charter negotiations, but the United Kingdom declined to grant stopover rights to U.S. carriers operating within the United Kingdom. We find it contrary to the public interest to award this valuable but discretionary privilege when it is not reciprocally granted to our own carriers.

Finally, we note that the name of the applicant is similar to another foreign air carrier, Tradewinds Aviation, Ltd., operating between the United States and Canada.[10] Although it is conceivable public confusion could occur due to name similarity, we believe that the disparity in geographic market operations and size of operations mitigates against this possibility. We shall, however, reserve the right to impose any additional description upon the applicant's name should we discover that confusion has in fact occurred.

In view of the foregoing and all the facts of record, we tentatively find and conclude that:

1. Tradewinds Airways, Ltd., is fit, willing, and able to perform properly the foreign air transportation described in its specimen permit and to adhere to the provisions of the Act and the rules, regulations, and requirements of the Board;

2. Tradewinds Airways, Ltd., is substantially owned and effectively controlled by citizens of the United Kingdom;

3. It is in the public interest to issue a foreign air carrier permit in the form of the attached specimen permit to Tradewinds Airways, Ltd., authorizing the carrier to engage in charter foreign air transportation of property;

4. The public interest requires that the exercise of the privileges granted by this permit should be subject to the terms, conditions, and limitations prescribed there, and such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board;

5. The holder shall conduct split-cargo charters only to the extent authorized in the United States-United Kingdom Air Service Agreement which currently limits such carriers to "specialist cargo flights" originating in either the United States or United Kingdom and "other cargo flights" originating in the United Kingdom: *Provided*, That the Board may grant split-cargo authority for operations not encompassed within the agreement if it is found to be in the public interest and Board regulations authorize split-cargo charters for U.S. carriers;

6. The public interest does not require an oral hearing;

7. The grant of a permit to the applicant is not a "major Federal action significantly affecting the quality of the human environment" within the meaning of section 102(2)(2) of the National Environmental Policy Act of 1969, and will not constitute a "major regulatory action" under the Energy Policy and Conservation Act of 1975 (EPACA), as defined in subsection 313.4(a)(1) of the Board's economic regulations; [11]

8. A waiver of part 312 of the Board's procedural regulations should not be granted; and

9. Except to the extent granted, the application of Tradewinds Airways Ltd. in docket 32689 should be denied.

Therefore:

1. We direct all interested persons to show cause why the Board should not make final the tentative findings and conclusions stated here, and why a foreign air carrier permit in the form of the attached specimen permit should not, subject to the approval of the President, pursuant to section 801 of the Act, be issued to Tradewinds Airways Ltd.;

2. We shall require any interested person having objections to the issuance of an order making final the tentative findings and conclusions or to the issuance of the proposed foreign air carrier permit, to file with the Board and serve on the persons named in parargraph 5 below on or before November 8, 1978, a statement of objections, specifying the part or parts of the tentative findings and conclusions objected to, together with a summary of testimony, statistical data, and any evidence expected to be relied upon in support of the statement of objections. If an oral hearing is requested, the objector should state in detail why such hearing is considered necessary and what relevant and material facts he would expect to establish that could not also be established in written pleadings;

3. If timely and properly supported objections are filed, we shall accord full consideration to the matters or issues raised before further action is taken by the Board; *Provided, however*, That the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth in the order if it determines that there are no factual issues presented that warrant the holding of an evidentiary hearing; [12]

4. In the event no objections are filed, we shall consider all further pro-

Secretary.

[Specimen Permit]

CIVIL AERONAUTICS BOARD

PERMIT TO FOREIGN AIR CARRIER

Tradewinds Airways Ltd. is authorized, subject to the provisions set forth below, the provisions of the Federal Aviation Act of 1958, and the orders, rules, and regulations of the Board, to engage in charter foreign air transportation of property as follows:

1. Between any point or points in the United Kingdon [1] and any point of points in the United States, either directly or via intermediate points or to beyond points in other countries, with or without stopovers.

2. Between any point or points in the United States and any point or points not in the United Kingdom or the United States.

This permit shall be subject to the following terms, conditions, and limitations:

(1) The exercise of authority granted by paragraph 1 above shall be limited to charter transportation beginning in the United States or the United Kingdom. When the charter transportation thereunder originates in the United States and the traffic stops over at any point or points outside the United Kingdom, it shall also stopover in the United Kingdon for at least 2 consecutive nights unless the Board has granted a specific authorization in advance to shorten or eliminate the United Kingdon stopover.

(2) The exercise of authority granted by paragraph 2 above shall be limited to 10 one-way flights within any calendar year: *Provided*, That the Board may, without hearing, authorize additional flights if it finds such authorization to be in the public interest and may disapprove any authorized flights if it finds such flights to be contrary to the public interest.

(3) The initial tariff filed by the holder shall not set forth rates, fares, and charges lower than those in effect for any U.S. air carrier in the same foreign air transportation; however, this limitation shall not apply to a tariff filed after the initial tariff regardless of whether this subsequent tariff is effective before or after the introduction of the authorized service.

(4) The Board may, by order or regulation and without hearing, require advance approval of individual charter trips conducted by the holder under the authority granted by this permit, if it finds such action to be required by the public interest.

(5) The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of the United Kingdom for British international air service, and shall not provide foreign air transportation under this permit unless it holds a currently effective authorization from the Government of the United Kingdon for such operations.

(6) By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against it in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of its operations under this permit.

(7) The holder shall not provide foreign air transportation under this permit unless (1) there is in effect third-party liability insurance in the amount of $1 million or more to meet potential liability claims which may arise in connection with its operations under this permit; (2) there is in effect minimum liability insurance coverage for bodily injury or death in the amount of $75,000 for each person required to accompany cargo; and (3) unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the third-party liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

(8) The holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relative to liability limitations of the Warsaw Convention and the Hague Protocol approved by Board order E-23680, May 13, 1966, and a signed counterpart of any amendment or amendments for such agreement which may be approved by the Board and to which the holder becomes a party.

(9) The exercise of the privileges granted by this permit shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may be prescribed by the Board.

(10) The holder shall not allow traffic originating at, destined for, or stopping at one U.S. point to also stop over or terminate at another U.S. point: *Provided*, That the Board may, without hearing authorize this prohibited transportation if it finds such transportation to be in the public interest.

(11) This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective to which the United States and the United Kingdon shall be parties.

(12) This permit shall be effective on ————. Unless otherwise terminated at any earlier date pursuant to the terms of any applicable treaty, convention, or agreement, this permit shall terminate (1) upon the effective date of any treaty, convention, or agreement, or amendment, which shall have the effect of eliminating any of the service authorized by this permit from the service which may be operated by airlines designated for charter service by the Government of the United Kingdom (or in the event of elimination of any part of the authorized service, the authority granted shall terminate to the extent of such elimination); or (2) upon the effective date of any permit granted by the Board to any other carrier designated by the Government of the United Kingdon in lieu of the holder; or (3) upon the termination or expiration of the Air Services Agreement, or any part thereof, between the Governments of the United States and the United Kingdom (Bermuda II), as amended; however, clause (3) of this paragraph shall not apply if, prior to the occurrence of the event specified in clause (3), the operation of cargo charter service becomes the subject of any treaty, convention, or agreement to which the United States and the United Kingdon are or shall have become parties.

The Civil Aeronautics Board, through its Secretary, has executed this permit and affixed its seal on ————.

————,
Secretary.

Issuance of this permit to the holder approved by the President of the United States on ———— in ————.

[Order 78-10-96; Docket 31593]

WIEN AIR ALASKA, INC.

Certificates of Public Convenience and Necessity (Anchorage/Fairbanks-Chicago (Midway Airport; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 20th day of October, 1978.

On July 20, 1978, Wien Air Alaska filed a motion for show cause or other expedited procedures on its application to amend its certificate to authorize it to provide "low-fare, high-density, no-frills" air transportation of persons, property and mail between the coterminal points of Anchorage and Fairbanks, Alaska, and the terminal point in Chicago, Ill. (to be served through the Midway Airport).

Wien plans to provide one daily roundtrip with B-737 equipment with a fuel stop at Calgary or Edmonton. It recites the public benefits resulting from implementation of its proposal, including new single-plane service between Midway and Anchorage/Fairbanks,[1] single carrier service to other points on its system, furtherance of our objective of expanding service to Midway, improved connecting possibilities from Alaska to the new certificated services at Midway, fare benefits to passengers, and improved operating conditions resulting from the increases in its average passenger haul and aircraft hop. Wien also claims that it will carry 48,851 passengers and achieve a $1.5 million operating profit, with diversion insufficient to impair Northwest's certificate obligations.

[1] Wien has not proposed any Fairbanks-Chicago service. See appendix A to Wien's motion.

An answer in opposition was filed by Northwest Airlines. It argues that we should first resolve some of the pending States-Alaska route and rate investigations; the market is small and more than adequately served for its size (93,180 O. & D. plus connecting passengers for calendar year 1977); Wien's proposed service is inferior to the existing service; Wien's forecast is overly optimistic; and Wien's fare proposal is not a significant improvement over existing discount fares.

We have tentatively concluded, on the basis of the tentative findings below, that the public convenience and necessity require the amendment of Wien's certificate to add Anchorage/Fairbanks-Chicago (Midway) authority, as a separate segment on a permissive, category II subsidy-ineligible basis. We also tentatively find that Wien is fit, willing, and able to perform the air transportation it proposes and to conform to the provisions of the Act and to our rules, regulations, and requirements. Finally, we find that our proposed action does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969, or a major Federal action under the Energy Policy and Conservation Act.

Wien's application falls within the class of cases that can be handled by show-cause procedures, because of the absence of any material, determative issue of fact requiring resolution in a formal evidentiary proceeding.[2]

Grant of authority requested by Wien will make possible competitive service in the Anchorage-Chicago market and greater utilization of underutilized Midway Airport.[3] The carrier estimates that the net operating profit of its proposed service will be $1.5 million in the first year of service.[4] We need not find, however, that its precise proposal here, or any other specific service pattern, can in fact be profitably operated. If the proposal or a variation can be operated on a profitable basis, service is likely to be provided, and we are persuaded that this has been plausibly shown here.[5] However, even if the service is or becomes unprofitable, the carrier is free, under permissive authority, to cease serving markets. We are satisifed that nothing developed in an oral evidentiary hearing would reverse this conclusion. Furthermore, we find that the grant of this authority will not threaten the ability of any carrier to perform its certificate obligations or necessarily result in the termination of essential services that cannot be replaced by another carrier.

We will give interested persons 30 days from the date of service of this order to show cause why these tentative findings and conclusions should not be made final; replies will be due within 10 days thereafter. We expect that objections will be supported by detailed economic or legal arguments. If an oral evidentiary hearing is requested, the objector should state, in detail, why such a hearing is necessary, and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. We will not entertain general, vague or unsupported objections.

Accordingly, 1. We direct all interested persons to show cause why we should not issue an order making final the tentative findings and conclusions stated here and amending Wien's certificate to add a new segment authorizing scheduled air transportation of persons, property and mail between the coterminal points Anchorage and Fairbanks, Alaska, and the terminal point Chicago, Ill. (Midway Airport);

2. We require any interested persons having objections to the issuance of an order making final the proposed findings, conclusions and the certificate amendments no later than November 24, 1978, to file with us and serve upon all persons listed in paragraph 5 a statement of objections together with a summary of testimony, statistical data, and evidence expected to be relied upon to support its objections; answers to objections shall be filed no later than December 4, 1978;

3. If timely and properly supported objections are filed, we will accord full consideration to the matters or issues before further action is taken; [6]

4. If no one files objections to any part of this order, we will consider all further procedural steps relating to such part or parts waived, and the case submitted to us for further action; and

5. We will serve a copy of this order upon all persons named in the service list of docket 31593.

We shall publish this order in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[7]

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc. 78-30475 Filed 10-26-78; 8:45 am]

[2] See order 78-4-69, April 14, 1978, made final by order 78-8-97, Aug. 17, 1978.

[3] Wien's proposal would add a daily Anchorage-Midway one-stop B-737 roundtrip to Northwest's existing 3 daily one-stop DC-10 roundtrips and a B-747 nonstop roundtrip operated two days a week, all of which serve O'Hare Airport.

[4] Wien's appendix B.

[5] As noted in order 78-4-69, our conclusion that Wien has made a plausible showing that service can be profitably provided is not an element of our tentative findings of public convenience and necessity, but rather or our determination to process the application now.

[6] Since provision is made for filing objections, we will not entertain petitions for reconsideration.

[7] All members concurred.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 138]

CITY OF BATTLE CREEK, MICH.

Resolution and Order Approving Application for a Foreign-Trade Zone in Battle Creek, Mich.

Proceedings of the Foreign-Trade Zones Board, Washington, D.C.

RESOLUTION AND ORDER

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 19, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board has adopted the following Resolution and Order:

The Board, having considered the matter hereby orders:

After consideration of the application of the city of Battle Creek, Mich., filed with the Foreign-Trade Zones Board (the Board) on May 10, 1978, requesting a grant of authority for establishing, operating, and maintaining a general-purpose foreign-trade zone in Battle Creek, within the Battle Creek Customs port of entry, the Board, finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that the proposal is in the public interest, approves the application.

The grantee shall notify the Board's Executive Secretary for approval prior to the commencement of any manufacturing operation within the zone. The Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized to issue a grant of authority and appropriate Board Order.

GRANT TO ESTABLISH, OPERATE, AND MAINTAIN A FOREIGN-TRADE ZONE IN BATTLE CREEK, MICH.

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a-81u) (the Act), the Foreign-Trade Zones Board (the Board) is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

[2] All members concurred.

Whereas, the city of Battle Creek

this 19th day of October 1978, pursu-

GRANT

The Grantee shall allow officers and

public to avoid premature disclosure in

Patent Application 889,795: Single Blade Proximity Probe, filed March 23, 1978.

V 4 3 / 2 0 9 0 C 2 7 7 8

Whereas, the city of Battle Creek (the Grantee) had made application (filed May 10, 1978) in due and proper form to the Board requesting the establishment, operation, and maintenance of a foreign-trade zone in Battle Creek, Mich., within the Battle Creek Customs port of entry;

Whereas, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and

Whereas, the Board has found that the requirements of the Act and the Board's Regulations (15 CFR Part 400) are satisifed;

Now, therefore, the Board hereby grants to the Grantee the privilege of establishing, operating, and maintaining a foreign-trade zone, designated on the records of the Board as Zone No. 43, at the location mentioned above and more particularly described on the maps and drawings accompanying the application in exhibits IX and X, said grant being subject to the provisions, conditions, and restrictions of the Act and the regulations issued thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations:

Operation of the foreign-trade zone shall be commenced by the Grantee within a reasonable time from the date of issuance of the grant, and prior thereto the Grantee shall obtain all necessary permits from Federal, State, and municipal authorities.

The Grantee shall allow officers and employees of the United States free and unrestricted access to and throughout the foreign-trade zone in the performance of their official duties.

The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operations within the zone.

The grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said zone, and in no event shall the United States be liable therefor.

The grant is further subject to settlement locally by the District Director of Customs and the District Army Engineer with the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

In witness whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer at Washington, D.C. this 19th day of October 1978, pursuant to Order of the Board.

FOREIGN-TRADE ZONES BOARD,
SIDNEY HARMAN,
Acting Chairman and Executive Officer.

[Order No. 139]

DEPARTMENT OF LABOR AND INDUSTRY OF STATE OF NEW JERSEY

Resolution and Order Approving Application for a Foreign-Trade Zone in the Township of Mt. Olive, Morris County, N.J., and a Temporary Subzone Site in the Township of Woodbridge, Middlesex County, N.J.

Proceedings of the foreign-trade zones board, washington, d.c.

RESOLUTION AND ORDER

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 19, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board has adopted the following Resolution and Order:

The Board, having considered the matter hereby orders:

After consideration of the application of the Department of Labor and Industry of the State of New Jersey, filed with the Foreign-Trade Zones Board (the Board) by its Office of International Trade on May 26, 1978, requesting a grant of authority for establishing, operating, and maintaining a general-purpose foreign-trade zone in the Township of Mt. Olive, Morris County, N.J., and a 2-year temporary subzone in the Township of Woodbridge, Middlesex County, N.J., both sites being adjacent to the Newark Customs port of entry, the Board, finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that the proposal is in the public interest, approves the application.

As the proposal involves an industrial park type general-purpose zone that envisages the possible construction of buildings by parties other than the grantee, this approval includes authority to the grantee to permit the erection of such buildings, pursuant to § 400.815 of the Board's regulations, as are necessary to carry out the zone proposal, providing that prior to its granting such permission it shall have the concurrences of the local District Director of Customs, the U.S. Army District Engineer, when appropriate, and the Board's Executive Secretary for approval prior to the commencement of any manufacturing operations within the zone sites. The Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized to issue a grant of authority and appropriate Board Order.

GRANT

TO ESTABLISH, OPERATE, AND MAINTAIN A FOREIGN-TRADE ZONE IN THE TOWNSHIP OF MT. OLIVE, MORRIS COUNTY, N.J., AND A TEMPORARY SUBZONE SITE IN THE TOWNSHIP OF WOODBRIDGE, MIDDLESEX COUNTY, N.J.

Whereas, by an act of Congress approved June 19, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a-81u) (the Act), the Foreign-Trade Zones Board (the Board) is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

Whereas, the Department of Labor and Industry of the State of New Jersey (the Grantee) has made application through its Office of International Trade (filed May 26, 1978) in due and proper form to the Board requesting the establishment, operation, and maintenance of a general-purpose foreign-trade zone in the Township of Mt. Olive, Morris County, N.J., and a temporary subzone site in the Township of Woodbridge, Middlesex County, N.J., both sites being adjacent to the Newark Customs port of entry;

Whereas, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and

Whereas, the Board has found that the requirements of the Act and the Board's regulations (15 CFR Part 400) are satisfied;

Now, therefore, the Board hereby grants to the grantee the privilege of establishing, operating, and maintaining a general-purpose foreign-trade zone, designated on the records of the Board as Zone No. 44, and a special-purpose temporary subzone, designated as Temporary Subzone No. 44A, for a period of two years, at the locations mentioned above and more particularly described on the maps and drawings accompanying the application in Exhibits IX and X, said grant being subject to the provisions, conditions, and restrictions of the Act and the regulations issued thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations:

Operations of the zone and temporary subzone shall be commenced by the Grantee within a reasonable time from the date of issuance of the grant, and prior thereto the Grantee shall obtain all necessary permits from Federal, State, and municipal authorities.

The Grantee shall allow officers and employees of the United States free and unrestricted access to and throughout the foreign-trade zone and the special-purpose subzone in the performance of their official duties.

The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operations within the zone or subzone.

The grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said zone sites, and in no event shall the United States be liable therefor.

The grant is further subject to settlement locally by the District Director of Customs and the District Army Engineer with the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

In Witness Whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer at Washington, D.C., this 19th day of October pursuant to Order of the Board.

FOREIGN-TRADE ZONES BOARD,
SIDNEY HARMAN,
Acting Chairman and Executive Officer.

Attest:

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for domestic and possibly foreign licensing in accordance with the licensing policies of the agency-sponsors.

Copies of the patents cited are available from the Commissioner of Patents and Trademarks, Washington, D.C. 20231, for $0.50 each. Requests for copies of patents must include the patent number.

Copies of the patent applications can be purchased from the National Technical Information Service (NTIS), Springfield, Va. 22161 for $4 ($8 outside North American Continent). Requests for copies of patent applications must include the PAT-APPL number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent and Trademark Office. Claims and other technical data will usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information on a particular invention should be directed to the address cited for the agency-sponsor.

National Bureau of Standards

VOLUNTARY PRODUCT STANDARD

Intent To Withdraw

In accordance with § 10.12 of the Department's "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10), notice is hereby given of the intent to withdraw voluntary product standard PS 35-70, "Poly(Vinylidene Fluoride) (PVF2) Plastic Lined Steel Pipe and Fittings."

This withdrawal action is being proposed for the reason that PS 35-70 is adequately covered by the American Society for Testing and Materials' standard ANSI/ASTM F 491-77, "Standard Specification for Poly(Vinylidene Fluoride) (PVDF) Plastic-Lined Ferrous Metal Pipe and Fittings," and duplication is inappropriate and not in the public interest.

Any comments or objections concerning this intended withdrawal of this standard should be made in writing to Standards Development Services, National Bureau of Standards, Washington, D.C. 20234, on or before November 27, 1978. The effective date of withdrawal will not be less than 60 days after the final notice of withdrawal. Withdrawal action terminates the authority to refer to a published standard as a voluntary standard developed under the Department of Commerce procedures from the effective date of withdrawal.

Dated: October 23, 1978.

THOMAS A. DILLON,
Acting Director.

PACIFIC FISHERY MANAGEMENT COUNCIL'S BILLFISH ADVISORY SUBPANEL AND PLAN DEVELOPMENT TEAM

Meeting

AGENCY: National Marine Fisheries Service, NOAA.

ACTION: Amended meeting notice.

SUMMARY: The Billfish Advisory Subpanel and Plan Development Team of the Pacific Fishery Management Council established by section 302(g) of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265), has changed its meeting date (43 FR 47602 dated October 16, 1978.)

DATES: The meeting will convene at 10 a.m. on Friday, December 1, 1978, and adjourn at 5 p.m.

ADDRESS: The meeting will take place at the California Fish and Game Office located 350 South Golden Shores, Long Beach, Calif.

FOR FURTHER INFORMATION CONTACT:

Mr. Lorry Nakatsu, Executive Director, Pacific Fishery Management Council, 526 Southwest Mill Street, Second Floor, Portland, Oreg. 97201, telephone 503-221-6352.

Dated: October 23, 1978.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1978

Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Addition to Procurement List.

SUMMARY: This action adds to Procurement List 1978 a commodity to be produced by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: October 27, 1978.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: On July 28, 1978 the Committee for Purchase from the Blind and Other Severely Handicapped published a notice (43 FR 32851) of proposed addition to Procurement List 1978, November 14, 1977 (42 FR 59015).

After consideration of the relevant matter presented, the Committee has determined that the commodity listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46-48c, 85 Stat. 77.

Accordingly, the following commodity is hereby added to Procurement List 1978:

Class 8415

Apron, Food Handler's (IB), 8415-01-045-0587.

C. W. FLETCHER,
Executive Director.

DEPARTMENT OF DEFENSE

Office of the Secretary

ORGANIZATION OF THE JOINT CHIEFS OF STAFF; DEFENSE INTELLIGENCE SCHOOL PANEL OF THE NATIONAL DEFENSE UNIVERSITY AND THE DEFENSE INTELLIGENCE SCHOOL

Meeting

Pursuant to the provisions of subsection (d) section 10 of Pub. L. 42-463, as amended by section 5 of Pub. L. 94-409, notice is hereby given that a partially closed meeting of the Defense Intelligence School panel of the Board of Visitors of the National Defense University and the Defense Intelligence School will be held onsite at the school in Washington, D.C., on November 29, 30 and December 1, 1978.

Morning sessions on November 29, 30 and December 1, 1978, will be devoted to the discussion of classified information as defined in section 552b(c)(1), title 5 of the United States Code and will therefore be closed to the public. Subject matter will be concerned with specialized instructional requirements and related curricula content. To reserve space for open sessions, interested persons should phone 433-3802, Dr. DeGross, Defense Intelligence School, Washington, D.C. 20374.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

DEPARTMENT OF ENERGY

NATIONAL PETROLEUM COUNCIL, COORDINATING SUBCOMMITTEE AND TASK GROUPS OF THE SUBCOMMITTEE ON PETROLEUM INVENTORIES AND STORAGE AND TRANSPORTATION CAPACITIES

Meetings

Notice is hereby given that the Coordinating Subcommittee on Petroleum Inventories and Storage and Transportation Capacities of the National Petroleum Council will meet on November 14, 1978. In addition, the Petroleum Pipeline Task Group will meet on November 1, 1978, the Gas Petroleum Pipeline Task Group will meet on November 1, 1978, the Gas Pipeline Task Group will meet on November 8, 1978, and the Inventory and Storage Task Group will meet on November 14, 1978.

The National Petroleum Council was established to provide advice, information, and recommendations to the Secretary of Energy on matters relating to oil and gas or the oil and gas industries. The Subcommittee on Petroleum Inventories and Storage and Transportation Capacities will make an analysis of the Petroleum inventories, and storage and transportation capacities of the United States, and will report its findings to the National Petroleum Council. Its analysis and findings will be based on information and data to be gathered by task groups whose efforts will be coordinated by the Coordinating Subcommittee.

The second meeting of the Coordinating Subcommittee of the Subcommittee on Petroleum Inventories and Storage and Transportation Capacities will meet on Tuesday, November 14, 1978 at 1:30 p.m. in Dining Room Number Five, Third Floor, Conrad Hilton Hotel, 720 South Michigan Avenue, Chicago, Ill. Its tentative agenda is as follows:

(1) Introductory remarks by R. Scott VanDyke, Chairman.
(2) Remarks by Mario Cardullo, Government Co-Chairman.
(3) Discussion of scope of the assignment of the Coordinating Subcommittee.
(4) Discussion of study methodology of the Coordinating Subcommittee.
(5) Discussion of any other matters pertinent to the overall assignment of the Coordinating Subcommittee.

The task groups will meet at the following times and locations.

PETROLEUM PIPELINE TASK GROUP

Wednesday, November 1, 1978, starting at 8:30 a.m. in the 14th Floor Conference Room, Sun Building, 907 Detroit Avenue, Tulsa, Okla.

GAS PIPELINE TASK GROUP

Wednesday, November 8, 1978, starting at 12:30 p.m. in the Illinois Room, Marriott Hotel, Kansas City International Airport, Kansas City, Mo.

INVENTORY AND STORAGE TASK GROUP

Tuesday, November 14, 1978, at 11:00 a.m. in Dining Room Number Five, Third Floor, Conrad Hilton Hotel, 720 South Michigan Avenue, Chicago, Ill.

The agenda for each of these task groups will be as follows:

1. Introductory remarks.
2. Discussion of scope of the assignment of the task group.
3. Discussion of the study methodology of the task group.
4. Discussion of any other matters pertinent to the overall assignment of the task group.

The meetings are open to the public. The chairmen of the Coordinating Subcommittee and task groups are empowered to conduct the meetings in a fashion that will, in their judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Coordinating Subcommittee or task groups will be permitted to do so, either before or after the meeting but not later than December 15, 1978. Members of the public who wish to make oral statements should inform Dr. Erik A. Svenson, Office of Policy and Evaluation, 202-376-1846, prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Transcripts of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room 2107, DOE, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C. between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcripts from the reporter.

Issued at Washington, D.C. on October 24, 1978.

WILLIAM S. HEFFELFINGER,
Director of Administration.

[FR Doc. 78-30357 Filed 10-26-78; 8:45 am]

[6740-02-M]

Federal Energy Regulatory Commission

[Docket Nos. CP75-83-2, CP75-140]

WESTERN LNG TERMINAL ASSOCIATES, ET AL., AND PACIFIC ALASKA LNG ASSOCIATES, ET AL.

Availability of Final Environmental Impact Statement

OCTOBER 24, 1978.

Notice is hereby given in the above dockets that on or about October 27, 1978, as required by section 2.82(b) of the Commission's Rules of Practice and Procedures (18 CFR 2.82(b)), a final environmental impact statement (FEIS) prepared by the staff of the Federal Energy Regulatory Commission was made available. The FEIS deals with the applications filed by Pacific Alaska LNG Associates (Pacific Alaska) in Docket No. CP75-140 et al., for a certificate of public convenience and necessity authorizing, pursuant to section 7(c) of the Natural Gas Act, the construction and operation of facilities to collect and liquefy natural gas; the transportation of liquefied natural gas (LNG) in interstate commerce; and the sale of natural gas to Southern California Gas Co. and Pacific Gas & Electric Co. Natural gas would be purchased from gas fields in the Cook Inlet region of Alaska and transported through a proposed 6- through 24-inch diameter 291.6-mile pipeline network to a proposed LNG plant in the Nikiski industrial complex, 9 miles north of Kenai, Alaska. The proposed LNG plant would consist of two gas liquefaction trains, two 550,000-barrel LNG storage tanks, a marine terminal, a construction dock and haul road, and other appurtenant facilities. Two 130,000-cubic meter LNG vessels would be constructed to carry LNG by sea from Nikiski to Western LNG Terminal Associates' (Western) proposed receiving terminal at Point Conception, Calif. The receiving terminal is proposed in Docket No. CP75-83-2, et al. The applicants seek a certificate of public convenience and necessity authorizing, pursuant to section 7(c) of the Natural Gas Act, the construction and operation of an LNG terminal facility, which would unload, store, revaporize, and send out LNG delivered by oceangoing tankers to Point Conception from Pacific Alaska's proposed liquefaction and storage facility near Kenai, Alaska, as well as tankers from the Republic of Indonesia for Pacific Indonesia LNG Co. Western proposes to construct and operate two 550,000-barrel LNG storage tanks, nine seawater vaporizers, three gas-fired peaking vaporizers, a marine terminal capable of berthing and unloading LNG tankers with a capacity up to 130,000 cubic meters, and other appurtenant facilities. The proposed Point Conception facility would reva-

porize LNG at an average plant output

duce from separate formations. However,

uids processed at the Lapeyrouse plant were

10 CFR, Part 212, Subpart D. The exception, if granted, would permit the firm to sell a portion of the crude oil produced from

Piedmont Natural Gas Co., Greenville, S.C., DES-0098, DST-0098, propane

effort to comply with the price regulations during the period for which Quincy seeks

V 4 3 / 2 0 9 0 OCT 27 78

porize LNG at an average plant output rate of 900 million cfd with additional peaking capacity of 300 million cfd. Revaporized gas would be transported through a proposed 112.4-mile long, 34-inch diameter pipeline to Gosford, near Bakersfield, where the pipeline would join with existing gas transmission facilities owned and operated by Pacific Gas & Electric Co.

All comments received on the draft environment impact statement (DEIS) are included in volume III of the FEIS. The DEIS was circulated on April 21, 1978.

This FEIS has been circulated to Federal, State, and local agencies, local libraries, and all parties to the proceeding. The FEIS has been placed in the public files of the Commission and is available for public inspection both in the Commission's Office of Public Information, Room 1000, 825 North Capitol Street NE., Washington, D.C. 20426, and at its regional office located at 555 Battery Street, San Francisco, Calif. 94111. Copies of the FEIS are available in limited quantities from the Commission's Office of Public Information.

KENNETH F. PLUMB,
Secretary.

[3128-01-M]

Office of Hearings and Appeals

ISSUANCE OF DECISIONS AND ORDERS

Week of August 28 Through September 1, 1978

Notice is hereby given that during the week of August 28 through September 1, 1978, the decisions and orders summarized below were issued with respect to appeals and applications for exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions which were dismissed by the Office of Hearings and Appeals and the basis for the dismissal.

APPEAL

Rickelson Oil & Gas Co., Tulsa, Okla., DRA-0187, crude oil

Rickelson Oil & Gas Co. (Rickelson) appealed from a supplemental remedial order issued to it by DOE region V on May 4, 1978. The supplemental remedial order related to a previous remedial order in which the Regional Office concluded that Rickelson had sold crude oil produced from 10 properties at unlawful prices. After considering Rickelson's appeal of the previous remedial order the DOE rejected the firm's argument that in determining the number of wells on its properties it should be permitted to include injection wells and to count as two wells its single wells which produce from separate formations. However, the DOE remanded the order to the Regional Office for further findings as to the actual physical well count on two of the leases involved. *Rickelson Oil & Gas Co.*, 1 DOE Par. 80,191 (January 30, 1978). The supplemental remedial order was issued pursuant to the January 30, 1978, decision and order and contained further findings as directed by that determination. In considering the appeal of the supplemental order, the DOE noted that Rickelson did not challenge the new findings made in that order but merely questioned whether the conclusions reached in the January 30, 1978, determination regarding injection wells and separate formations applied to the two leases which were the subject of remand. The DOE determined that these conclusions did apply to the two leases. Consequently, Rickelson's appeal was denied.

REQUESTS FOR EXCEPTION

Kenard D. Brown, Casper, Wyo., DEE-0658, crude oil

Kenard D. Brown filed an application for exception from the provisions of 10 CFR, Part 212, Subpart D, which, if granted, would have permitted producers of crude oil which purchased the economizer pump, a new type of downhole device invented by Mr. Brown, to sell all of the crude oil they produced at prices in excess of the lower tier ceiling price. In considering Brown's application for exception, the DOE determined that Brown had not submitted data which would enable the DOE to determine whether increased prices were necessary or appropriate to reimburse Brown for the actual costs he would incur in manufacturing and installing the economizer pump. The DOE further determined that Brown had failed to demonstrate that he was experiencing a hardship, inequity or unfair distribution of burdens as a result of the application to him of any provision of the DOE regulations, or that national energy policies favoring the use of more efficient and effective energy production techniques would be frustrated in the absence of the exception relief he requested. The DOE also found that Congress itself had authorized the DOE to provide exception relief to parties only as might be necessary to prevent special hardship, inequity or unfair distribution, and that despite Brown's argument to the contrary, these criteria had to be used to evaluate the merits of Brown's application. Brown's request for exception relief was therefore denied.

William V. Conover, Dallas, Tex., DEE-1340, natural gas

William V. Conover filed an application for exception from the provisions of 10 CFR 212.165 which, if granted, would permit Conover to increase the selling prices of natural gas liquid products at its Lapeyrouse plant in order to reflect the firm's nonproduct cost increases. On July 24, 1978, the DOE issued a proposed decision and order to Conover which determined that the firm's application for exception be granted. On August 2, 1978, Conover filed a notice of objection to the proposed decision and order in which it corrected information which had formed the basis for the proposed decision and order. In its original submission, Conover indicated that the natural gas liquids processed at the Lapeyrouse plant were not fractionated into natural gas liquid products. However, in its notice of objection, Conover indicated that the natural gas liquids processed at the Lapeyrouse plant were in fact fractionated for sale as natural gas liquid products. On the basis of this corrected information, the DOE determined that the level of exception relief granted in the proposed decision should be reduced from $0.02058 per gallon to $0.01933 per gallon, in accordance with the provisions of 10 CFR, Part 212, Subpart K.

Keener Oil Co., Tulsa, Okla., FEE-4110, crude oil

The Keener Oil Co. filed and application for exception for 10 CFR 212.72 which, if granted, would have permitted the firm to recertify the base production control levels (BPCL's) of 17 crude oil producing properties which it operates. Under the relevant provisions of section 212.72, a producer must certify to each purchaser the number of barrels of lower tier and upper tier crude oil within the 2-month period immediately following the month in which that crude oil is produced and sold. On March 25, 1977, the Deputy Regional Administrator of FEA region VI issued a notice of probable violation (NOPV) to Keener which alleged that the firm had sold crude oil from three properties at prices which exceeded the maximum levels permitted under the applicable regulations. On April 29, 1977, the region issued a remedial order requiring Keener to refund these overcharges. The NOPV and remedial order alleged that the firm misinterpreted the term "produced and sold" as used in the regulations and consequently miscalculated its BPCL for that property. In its application for exception, Keener stated that it made the same error in its calculations of the BPCL's of 16 other properties but that these miscalculations resulted in undercharges instead of overcharges. Keener therefore sought retroactive exception relief from the 2-month certification limitation in section 212.72 which would enable it to recompute the BPCL on these other properties and sell additional quantities of crude oil at upper tier price levels. The firm contended that it would be grossly inequitable not to permit it to recover the undercharges which it made as a result of the same type of error which caused it to make overcharges. However, the DOE noted that Keener had not claimed that its inability to recertify certain crude oil sales transactions which took place nearly 4 years ago is causing it to experience a serious financial hardship. In addition, Keener did not demonstrate that compelling reasons exist which would justify granting retroactive relief from the provisions of section 212.72. As a result, the DOE concluded that Keener has failed to satisfy the criteria for granting retroactive exception relief. Furthermore, the DOE had already considered an appeal filed by Keener from the April 29, 1977 remedial order, and concluded that the remedial order should be remanded to the region for a determination as to whether the firm should be permitted to offset its undercharges against the overcharges. *Keener Oil Co.*, 2 DOE Par. —— (July 26, 1978). Since such an offset would eliminate any inequity which is present under the factual circumstances of this case, the DOE concluded that retroactive exception relief would be inappropriate. Accordingly, Keener's application for exception was denied.

Phillips Petroleum Co., Bartlesville, Okla., DEE-1012, DEE-1013, crude oil

The Phillips Petroleum Co. filed an application for exception from the provisions of 10 CFR, Part 212, Subpart D. The exception, if granted, would permit the firm to sell a portion of the crude oil produced from the Yount "B" and Holder "B" Leases, located in Oklahoma County, Okla., at upper tier ceiling prices. In considering the exception application, the DOE found that Phillips' operating costs had increased to a point where the firm no longer had an economic incentive to continue the production of crude oil from the Holder "B" and Yount "B" Leases. The DOE also determined that if Phillips abandoned its operations at the Holder "B" and Yount "B" leases, a substantial quantity of domestic crude oil would not be recovered. On the basis of criteria applied in previous decisions, the DOE determined that Phillips should be permitted to sell at upper tier ceiling prices 100 percent of the crude oil produced from the Holder "B" lease for the benefit of the working interest owners at upper tier ceiling prices and 54.95 percent of the crude oil produced from the Yount "B" lease for the benefit of the working interest owners at upper tier ceiling prices.

W. B. Osborn, Jr., San Antonio, Tex., DEE-0049, crude oil

W. B. Osborn, Jr., filed an application for exception from the provisions of 10 CFR Part 212, Subpart D, which if granted, would permit the firm to sell the crude oil which it produces from the Reed E&F lease at prices which exceed the lower tier ceiling price levels specified in 10 CFR 212.73. In support of its exception application, Osborn asserted that the Reed E&F lease should qualify as a stripper well because the property's average daily production rate per well is less than 10 barrels when calculated on the basis of the injection wells and the producing wells on the lease. In considering Osborn's application, the DOE determined that under the provisions of ruling 1974-29, injection wells will not be included for the purpose of calculating a property's average daily production rate per well. In addition, the DOE determined that Osborn had not provided substantial and convincing evidence that the application of DOE price regulations resulted in a serious hardship or gross inequity for the firm. Accordingly, the firm's exception request was denied.

REQUESTS FOR STAY

Cooper & Brain, Inc., and Robert E. Brain, Wilmington, Calif., DES-1405, crude oil

Cooper & Brain, Inc. and Robert E. Brain filed an application for stay of a compliance proceeding which was initiated by DOE region IX pending a final determination of an application for exception which they filed on July 5, 1978. DOE region IX has issued a notice of probable violation to Cooper & Brain on February 14, 1978, which alleged that they had improperly certified their Brea Canyon fee lease as a stripper well property for 1974. Cooper & Brain claimed that they would incur an irreparable injury if a stay of the compliance proceeding were denied and they were forced to pursue both proceedings simultaneously. In considering the request, the DOE found that Cooper & Brain failed to submit any evidence which demonstrated that the expenses of defending themselves at this stage of the compliance proceeding would be so great as to result in an irreparable injury. The application for stay was therefore denied.

Piedmont Natural Gas Co., Greenville, S.C., DES-0098, DST-0098, propane

The Piedmont Natural Gas Co. filed an application for stay and application for temporary stay. These stay requests, if granted, would permit Piedmont to acquire and use surplus supplies of domestic propane for the purpose of enriching the BTU value of the natural gas which it distributes in Greenville and Spartanburg, S.C. These stays were sought pending final consideration by the DOE Economic Regulatory Administration of a submission by Piedmont entitled "Petition for Waiver of Acquisition and Use Limitations, Application for Exception, Application for Adjustment of Base Period Volumes." In considering the requests, the DOE observed that it had rejected a prior stay application in which Piedmont had sought identical interim relief. However, the DOE also noted that in the present stay proceeding Piedmont and the ERA had furnished additional information which established a sufficient evidentiary basis for the approval of stay relief. In particular, the DOE found that the DOE Office of Environment had to assess the environmental consequences of the relief sought in the Piedmont petition before the ERA would be able to issue a decision. In addition, it appeared from the Piedmont submission that the firm did not delay in filing its petition with the ERA. The DOE also concluded that the use of propane to stabilize the Btu value of Piedmont's gas supplies represents the only interim solution to the problem of excessive Btu oscillation. Finally, the DOE determined that certain customers of Piedmont would sustain an irreparable injury in the absence of immediate stay relief. Accordingly, the DOE determined that Piedmont should be accorded some measure of stay relief. However since several important issues raised by the petition were not fully considered in the stay proceeding, the DOE determined that the stay relief to be granted to Piedmont should not remain in effect for a substantial period of time. On the basis of these considerations, the DOE determined that Piedmont should be permitted to purchase and use 6,769,900 gallons of surplus domestic propane for the purpose of stabilizing the Btu value of its gas supplies until October 1, 1978.

MOTIONS FOR EVIDENTIARY HEARING

Quincy Oil, Inc., Taunton Municipal Lighting Plant, Quincy, Mass., Taunton, Mass., DRH-0447, DRH-0007, fuel oil

Quincy Oil, Inc., and Taunton Municipal Lighting Plant filed motions for evidentiary hearing in connection with the DOE's consideration of their Statements of Objections to a Proposed decision and order that the DOE issued to Quincy. In the proposed decision and order, the DOE tentatively concluded that Quincy's application for exception from the provisions of 10 CFR 212.93, as interpreted by FEA ruling 1977-5, should be granted in part. In the present decision and order, the DOE considered Quincy's request for an opportunity to present evidence in support of its assertions that the DOE erred in its calculations of Quincy's nonproduct costs incurred in connection with its sale of No. 6 fuel oil to Taunton, and in adjusting Quincy's profits by disallowing certain payments made by the firm to its parent corporation. The DOE also considered Taunton's request for an opportunity to present evidence in support of its assertion that Quincy did not make a good faith effort to comply with the price regulations during the period for which Quincy seeks exception relief. The DOE dismissed Taunton's requests for an evidentiary hearing with respect to several issues that essentially constituted requests for information, noting that Taunton will receive the information it sought pursuant to a protective order and joint agreement for discovery entered into by the parties and approved by the DOE. With respect to the three issues that the DOE considered on the merits, the DOE noted that in determining whether a motion for evidentiary hearing should be granted, it would consider the probative value of the evidence that a firm intends to present at an evidentiary hearing, the time and expense involved in holding an evidentiary hearing, and the likelihood that the evidence can be presented satisfactorily through a process other than an evidentiary hearing.

The DOE determined that in view of the fact that Taunton will have access to financial data regarding the issue of Quincy's nonproduct costs and will be able therefore to cross-examine Quincy's witnesses who testify in this respect, the presentation of this testimonial evidence was appropriate. The DOE noted that Quincy previously had submitted documentary evidence concerning this issue and that the testimony of Quincy's officials may enhance the probative value of that evidence, for similar reasons, the DOE concluded that Quincy should be permitted to present testimonial evidence with respect to how its profits should be calculated. The DOE emphasized that the resolution of these two issues may hinge on the credibility of the testimony of Quincy's officials and that an evidentiary hearing was the appropriate vehicle for making such a determination.

Finally, the DOE noted that the issue Quincy's alleged lack of good faith in complying with DOE price regulations is relevant to the determination of the appropriate standards to be applied in determining whether Quincy's applications for exception should be granted. The DOE previously determined that Quincy's request for a retroactive exception should be evaluated on the basis of the less rigorous standards applicable to requests for prospective exceptions because regulated firms, including Quincy, may have experienced difficulties in construing the applicable price regulations. The DOE determined that a finding that Quincy acted in bad faith may lead it to reexamine the appropriate standards applicable to that exception request. The DOE determined further that the issue of good faith raises questions of state of mind, which are not suitable to disposition on the basis of documentary proof. The DOE therefore concluded that Taunton's request to present testimonial evidence on the good faith issue should be granted.

DISMISSAL

The following submission was dismissed for failure to correct deficiencies in the firm's filing as required by the DOE procedural regulations:

ISSUANCE OF DECISIONS AND ORDERS

Week of September 5 Through September 8, 1978

Notice is hereby given that during the week of September 5 through September 8, 1978, the decisions and orders summarized below were issued with respect to appeals and applications for exception or other relief filed with the Office of hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions which were dismissed by the Office of Hearings and Appeals and the basis for the dismissal.

APPEAL

Viersen & Cochran, Tulsa, Okla., DFA-0202, Freedom of Information

Viersen & Cochran (Viersen) appealed from a denial by the Information Access Officer of a request for information which the firm submitted under the Freedom of Information Act (FOIA). In its appeal, Viersen requested that the DOE order the release of two documents which were withheld from the firm on the grounds that they are intraagency memoranda which are exempt from mandatory public disclosure under the provisions of 5 U.S.C. 552(b)(5). In considering the appeal, the DOE found that the documents generally analyze and make recommendations concerning the application of the stripper well property exemption to condensate production and that the material was predecisional in nature. The DOE therefore determined that the material which was withheld is precisely the type of information which exemption 5 of the FOIA was designed to protect from disclosure and that the release of the material would not be in the public interest. The DOE determined, however, that portions of both documents could be released to Viersen since they contain purely factual material which could be easily segregated from the policy analysis and recommendatory portions of the documents. The Viersen appeal was therefore granted in part and denied in part.

REQUESTS FOR EXCEPTION

Bright & Co., Dallas, Tex., DXE-0237, crude oil

Bright & Co. filed an application for exception from the provisions of 10 CFR, Part 212, Subpart D, which, if granted, would permit the firm to sell additional quantities of crude oil from the O. S. Petty No. 1 well at upper tier ceiling prices to supplement the exception relief granted in *Bright & Schiff*, 5 FEA par. 83,172 (June 8, 1977). In its exception application, Bright stated that the relief granted in the June 8 decision is insufficient to alleviate the gross inequity which was found to exist. In considering the request, the DOE determined that the actual capital investment necessary to repair the Petty well was substantially greater than the amount which was originally projected by the firm. As a result of this forecasting error, the DOE concluded that if Bright were to continue to produce crude oil from the Petty well, the revenues which it would realize from the sale of the crude oil would not afford the firm a 15 percent return on its investment. Exception relief was therefore approved which permits the firm to sell an additional portion of the crude oil produced for the benefit of the working interest owners of the Petty well at upper tier and market prices.

Gas Engine & Compressor Service Inc., Longview, Tex., FEE-4046, Natural Gas Liquids

On January 27, 1978 the DOE issued a proposed decision and order to Gas Engine and Compressor Service, Inc. (Gas Engine). In that determination the DOE proposed to deny the firm's request that 42 gas wells which it owns and operates be classified as stripper well properties. The DOE noted that it had previously determined that condensate produced from gas wells would not be regarded as "crude oil" for purposes of determining a property's eligibility for stripper well status. The DOE also proposed to deny the firm's request to retroactively charge prices for natural gas liquids that exceed the maximum levels specified in 10 CFR, Part 212, Subpart K. The DOE determined that Gas Engine had not demonstrated that it would experience a serious financial hardship in the absence of exception relief of this type. On April 7, 1978 the firm filed a statement of objections in which it contended that the DOE erred in determining whether the firm was experiencing a serious financial hardship by considering its entire petroleum related operations. Gas Engine argued that the DOE should have considered only the firm's natural gas liquids operations. The DOE rejected this contention, stating that it has been the consistent policy of the DOE to consider claims of serious hardship by examining the entire petroleum related operations of the firm requesting exception relief. The DOE noted that since a firm may maintain an unprofitable segment of its operations in order to obtain other collateral benefits, an analysis only of the unprofitable segment could be misleading. Accordingly, Gas Engine's application for exception was denied.

Great Southern Oil & Gas Co., Inc., Lafayette, La., DXE-1466, crude oil

Great Southern Oil & Gas Co., Inc. (Great Southern) filed an application for exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would result in the extension of the exception relief previously granted to Great Southern and would permit the firm to sell a portion of the crude oil produced from the Castille RA Sua Breaux No. 1 well at upper tier ceiling prices. In considering the Great Southern exception request, the DOE found that Great Southern continued to incur increased operating expenses at the Castille well and that, in the absence of exception relief, the working interest owners would lack an economic incentive to continue the production of crude oil from the property. In view of this determination and on the basis of the operating data which Great Southern submitted for the most recently completed fiscal period, the DOE concluded that further exception relief should be granted to the extent that Great Southern be permitted to sell 95.30 percent of the crude oil produced from the Castille well for the benefit of the working interest owners at upper tier ceiling prices.

Keener Oil Co., Tulsa, Okla., DEE-1407, crude oil

The Keener Oil Co. filed an application for exception from the provisions of 10 CFR, Part 212, Subpart D which, if granted, would result in an extension of exception relief previously granted and permit Keener to continue to sell a portion of the crude oil produced from the No. 1 well on the Lizzie-Orwig lease in Seminole County, Okla., at upper tier ceiling prices. In considering the exception request, the DOE found that Keener had continued to incur increased operating costs in connection with the No. 1 well and that, in the absence of continued exception relief, Keener would lack an economic incentive to produce crude oil from the property. On the basis of the financial data which Keener had provided for the most recent 6 month period, the DOE granted exception relief which permitted Keener to sell at upper tier prices 39.06 percent of the crude oil produced from the No. 1 well for the benefit of the working interest owners.

Koch Exploration Co., Wichita, Kans., DXE-1427, DXE-1428, crude oil

The Koch Exploration Co. filed two applications for exception from the provisions of 10 CFR, Part 212, Subpart D. The requests, if granted, would result in the extension of exception relief previously granted to the firm and would permit it to sell at upper tier selling prices certain quantities of the crude oil produced from the Sink Draw No. 1 lease and the Cedar Rim No. 3 lease, located in Duchesne County, Utah. In considering the Koch exception requests, the DOE found that the firm had continued to experience operating losses at the two leases. The DOE also found that Koch would have no economic incentive to continue its operations at the two leases unless the type of exception relief previously granted were extended for an additional 6-month period. On the basis of these findings and Koch's operating data, Koch was permitted to sell at upper tier prices 81.18 percent of the crude oil produced from the Sink Draw No. 1 lease and 100 percent of the crude oil produced from the Cedar Rim No. 3 lease for the benefit of the working interest owners through February 28, 1979.

Marathon Oil Co., Findlay, Ohio, DEE-0996, crude oil.

The Marathon Oil Co. filed an application for exception from the provisions of 10 CFR, Part 212, Subpart D, which, if granted, would have permitted the firm to sell the crude oil produced from two properties situated on the Canal Field located in Kern County, Calif., at upper tier ceiling prices. In considering the exception request, the DOE determined that Marathon is currently incurring an operating loss on each barrel of crude oil that it produces from the middle Stevens and the upper Stevens properties. On the basis of precedents involving similar factual situations, the DOE concluded that the application of the ceiling price rule with respect to the middle Stevens and the upper Stevens properties constitutes a gross inequity to Marathon. Accordingly, on the basis of the operating data which the firm submitted for its most recently completed 6-month fiscal period, Marathon was granted exception relief which permits the firm to sell at upper tier ceiling prices 80.66 percent of the crude oil produced for the benefit of the working interest owners from the middle Stevens property and 78.4 percent of the crude oil produced for the benefit of the working interest owners from the upper Stevens property during the next 6 months.

Union Oil Co. of California, Los Angeles, Calif., FEE-4411, residual fuel oil

The Union Oil Co. of California filed an application for exception from the provisions of 10 CFR 211.67 (the entitlements program). If the request were granted, Union would be relieved of that portion of its entitlement purchase obligation which is attributable to section 211.67(a)(3), the regulatory provision granting 30 percent of the crude oil entitlement value to imports of residual fuel oil into the east coast market ("product entitlements"). In addition, Union requested that it be excepted from the provisions of section 211.67(d)(4) under which a domestic refiner selling residual fuel oil in the east coast market loses 50 percent of the applicable crude oil entitlement value for each barrel of residual fuel oil sold in excess of the first 5,000 barrels per day ("reverse entitlements"). Union also requested an exception from the provisions of special rule No. 8, which granted product entitlements to imports of middle distillate heating oils into the east coast market during the months of February and March 1977. In its application, Union contended that each of these aspects of the entitlements program violated the provisions of article I, section 9, clause 6 of the U.S. Constitution which states that "no preference shall be given by any Regulation of Commerce or Revenue to the Ports of any state over those of another. . . ." In considering the firm's request, the DOE noted that the same argument which Union advanced had been previously considered and ultimately rejected by the U.S. District Court for the District of Columbia in *Consumers Power Co. v. FEA*, — F. Supp. — (D.D.C. 1977). The DOE therefore concluded that the court's decision in that case was dispositive of the Union exception application as well. The application for exception was accordingly denied.

REMEDIAL ORDER

Pennco Oil, Inc., Baton Rouge, La., DRO-0021, crude oil

Pennco Oil, Inc. filed a statement of objections to a proposed remedial order which the DOE region VI issued to the firm on February 27, 1978. In the proposed remedial order, the Regional Office found that during the month of December 1973 and the period from February through December 1975, Pennco sold crude oil at unlawful price levels. On the basis of this finding, the Regional Office determined that Pennco should be required to refund $20,623.89 in overcharges plus interest. Subsequent to the filing of its statement of objections, Pennco indicated that it was willing to comply with the refund provisions set forth in the proposed remedial order. Under these circumstances, the DOE determined the proposed remedial order should be issued as a final remedial order.

REQUESTS FOR STAY

Mid-America Refining Co., Inc., Chanute, Kans., DES-0099, crude oil

Mid-America Refining Co., Inc. (Mid-America) requested that its obligations under 10 CFR 211.67 (the entitlements program) be stayed during August 1978 and subsequent months pending a determination on the merits of an application for exception which the firm had filed. In considering the Mid-America request, the DOE noted that in two previous proceedings the agency had denied similar requests by Mid-America for a stay of its obligation to purchase entitlements during July 1978, *Mid-America Refining Co., Inc.*, 2 DOE Par. — (1978); *Mid-America Refining Co., Inc.*, 2 DOE Par. — (1978). In addition, the DOE noted that the arguments which Mid-America presented in its current application were virtually indistinguishable from those which had been fully considered and rejected by the DOE in the two prior stay proceedings. Since Mid-America had presented no material which would show that the prior determinations were erroneous in any aspect, the Mid-America request for stay was denied.

Northland Oil & Refining Co., Tulsa, Okla., DES-0096, crude oil

The Northland Oil & Refining Co. requested that its obligations under the provisions of 10 CFR 211.67 (the entitlements program) be stayed for the month of August 1978 pending a final determination of an application for exception which the firm had filed. In considering the request, the DOE observed that in view of the agency's ability to adjust Northland's entitlements position in subsequent months, the firm could be compensated for any entitlements purchase which it makes in excess of the level which the DOE ultimately determines is appropriate. In addition, the DOE found that Northland had not submitted any financial material which demonstrated that it could not meet its entitlement purchase obligation. The DOE therefore concluded that Northland had not made a showing that it would be irreparably injured in the absence of the requested stay. Similarly, the DOE concluded that Northland had failed to make a showing that it would be desirable for public policy reasons to grant a stay of the firm's August 1978 entitlement purchase obligation. Northland's stay request was therefore denied.

Copies of the full text of these decisions and orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B-120, 2000 M Street NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1 and 5 p.m., e.d.t., except Federal holidays. They are also available in Energy Management: Federal Energy Guidelines, a commercially published loose leaf reporter system.

CASES FILED WITH THE OFFICE OF HEARINGS AND APPEALS

Week of September 29 Through October 6, 1978

Notice is hereby given that during the week of September 29 through October 6, 1078, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Under the DOE's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the DOE action sought in this case may file with the DOE written comments on the application within 10 days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20461.

MELVIN GOLDSTEIN,
Director,
Office of Hearings and Appeals.

V 43/209 OCT 27 78

List of Cases Received by the Office of Hearings and Appeals

[Week of Sept. 29 through Oct. 6, 1978]

Date	Name and location of applicant	Case No.	Type of submission
Sept. 29, 1978	Southland Oil Co./VSG Corp., Jackson, Miss.	DEE-1903	Exception from the entitlements program. If granted: Southland Oil Co./VGS Corp. would be granted an exception from the provisions of 10 CFR 211.67 with respect to its entitlements purchase obligations after Dec. 1, 1978.
Oct. 2, 1978	Archie M. Damon Enco Service Station, Houston, Tex.	DEE-1906	Exception to the reporting requirements. If granted: Archie M. Damon Enco Service Station would not be required to file form EIA-79, (Monthly Motor Gasoline Service Station Survey.)
Do	Beacon Oil Co., Hanford, Calif	DXE-1909	Extension of relief granted in *Beacon Oil Company*, 2 DOE Par. —— (Aug. 3, 1978). If granted: Beacon Oil Co. would be granted continued exception relief from the provisions of 10 CFR 211.67 with respect to its entitlement purchase obligations.
Do	Cory's Gasoline Stations, Inc., Mesa, Ariz	DEE-1908	Exception to the reporting requirements. If granted: Cory's Gasoline Stations, Inc., would not be required to file form EIA-79, (Monthly Motor Gasoline Service Station Survey.)
Do	DiCarlo Service Station, Schenectady, N.Y.	DEE-1949	Exception to the reporting requirements. If granted: DiCarlo Service Station would not be required to file form EIA-79. (Monthly Motor Gasoline Service Station Survey.)
Do	Equipment, Inc., Lafayette, La	DRH-0121	Request for evidentiary hearing. If granted: An evidentiary hearing would be convened with respect to the statement of objections to a proposed remedial order issued on Sept. 20, 1978.
Do	Estate of William Herbert, Hunt, Dallas, Tex.	DRD-0112	Motion for discovery. If granted: Discovery would be granted with respect to objections to a proposed remedial order issued to the William Herber Hunt Trust Estate on Aug. 31, 1978.
Do	Kern County Refinery, Inc., Bakersfield, Calif.	DXE-1904	Exception from the entitlements program. If granted: Kern County Refinery, Inc., would receive an exception from the provisions of 10 CFR 211.67 with respect to its entitlements purchase obligations for the period Dec. 1, 1978, through May 31, 1979.
Do	Mohawk Petroleum Corp., Inc., Los Angeles, Calif.	DXE-1905	Extension of relief granted in *Mohawk Petroleum Corporation, Inc.*, 2 DOE Par. —— (Aug. 8, 1978). If granted: Mohawk Petroleum Corp., Inc., would receive an exception from the provisions of 10 CFR 211.67 with respect to its entitlements purchase obligations.
Do	Navajo Refining Co., Washington, D.C	DXE-1937	Extension of relief granted in *Navajo Refining Company*, 2 DOE Par. —— (July 28, 1978). If granted: Navajo Refining Co. would receive an exception from the provisions of 10 CFR 211.67 with respect to its entitlement purchase obligations.
Do	Petrochemical Energy Group, Washington, D.C.	DEA-0227	Appeal of an allocation order. If granted: The Aug. 24, 1978, allocation order would be remanded to the Economic Regulatory Administration with instructions to deny any present allocation of naphtha to Baltimore Gas & Electric Co.
Do	Phillips Petroleum Co., Bartlesville, Okla	DEE-1907	Price exception (sec. 212.73). If granted: Phillips Petroleum Co. would be permitted to sell the crude oil produced from the Arnston lease, located in Divide County, N. Dak., at upper tier ceiling prices.
Do	Standard Oil Co. of California, San Francisco, Calif.	DEE-1911 through DEE-1918.	Price exception (sec. 212.165). If granted: Standard Oil Co. of California would be permitted to increase its prices to reflect nonproduct cost increases in excess of $0.005 per gallon for natural gas liquid products produced at the 1-C, Arco-Calidon, Carpinteria, Colonial Booster, Hagood, Hunt Beach, Lost Hills, and Union plants.
Do	Standard Oil Co. of California, San Francisco, Calif.	DXE-1919 through DXE-1935.	Extension of relief granted in *Standard Oil Co. of California*, case No. FXE-3974 (decided Apr. 29, 1977) (unreported decision); case No. FXE-3990 (decided Apr. 4, 1978) (unreported decision); Case Nos. DXE-0459 through DXE-0461, DXE-0464 through DXE-0466, DXE-0468 through DXE-0470, DXE-0472, DXE-0473, DXE-0475, DXE-0478 (decided Apr. 25, 1978) (unreported decisions); case Nos. DXE-0474, DXE-0476 (decided May 3, 1978) (unreported decisions). If granted: The applicant would be permitted to increase its prices to reflect nonproduct cost increases incurred in producing natural gas liquids and natural gas liquid products at its Gaviota, Getty-Cymric, Greeley, Inglewood, Kermit, KNDGP, Lapeyrouse, Marathon, McKittrick, Murphy Coyote, No. Tejon, Red Wash, S.E. Marietta, Swanson River, Torrance, Yates, and 32-Z plants.
Do	Standard Oil Co. (Indiana), Chicago, Ill	DEA-0226	Appeal of adjustment dismissal. If granted: The July 20, 1978, order issued to Amoco by the ERA Office of Fuels Regulations would be rescinded and Amoco would be permitted to base its interaffiliate transfer prices for Trinidad crude oil on a reference crude oil other than that established by the DOE under the provisions of 10 CFR 212.84.
Oct. 3, 1978	Chevron, U.S.A., San Francisco, Calif	DEE-1939	Price exception (sec. 212.73). If granted: Chevron, U.S.A., would be permitted to sell the crude oil produced from the State lease PRC 3150, undesignated pool Carpinteria field, located in Santa Barbara County, Calif., at upper tier ceiling prices.
Do	Farmers Union Central Exchange, Inc., Washington, D.C.	DEE-1938	Price exception (sec. 212.83). If granted: Farmers Union Central Exchange, Inc., would be permitted to compute its crude oil cost increases on a rolling average basis.
Do	Lunday-Thagard Oil Co., South Gate, Calif.	DXE-1936	Exception from the entitlements program. If granted: Lunday-Thagard Oil Co. would be granted continued exception relief from the provisions of 10 CFR 211.67 with respect to its entitlement purchase obligations.
Do	TOSCO Corp., Washington, D.C	DXE-1910	Extension of relief granted in *TOSCO Corporation*, 1 DOE Par. 80, 193 (Feb. 1, 1978). If granted: The TOSCO Corp. would be granted an extension of the exception relief approved in the Feb. 1, 1978, decision and would be permitted to adjust its May 15, 1973, prices for sales of gasoline to its reseller and wholesale rack classes of purchaser.
Oct. 4, 1978	Amber Fuel Oil, Inc., Miami Beach, Fla	DEE-1942	Exception to the reporting requirements. If granted: Amber Fuel Oil, Inc., would no longer be required to submit reports concerning No. 2 fuel oil to the Department of Energy.

List of Cases Received by the Office of Hearings and Appeals—Continued

[Week of Sept. 29 through Oct. 6, 1978]

Date	Name and location of applicant	Case No.	Type of submission
Do	Cologne Production Co., San Antonio, Tex	DXE-1946	Extension of relief granted in *Cologne Production Company*, 1 DOE Par. 81,114 (Apr. 21, 1978). If granted: Cologne Production Co. would be permitted to sell the crude oil produced from the Algoa Oil Unit 4-2 and Algoa Unit 6 located in Galveston County, Tex., at upper tier ceiling prices.
Do	Commonwealth Oil Refining Co., Washington, D.C.	DEX-0114	Supplemental Order in *Commonwealth Oil Refining Co.*, 1 DOE Par. 82,551 (Mar. 20, 1978). If granted: The DOE's decision and order issued Mar. 20, 1978, would be altered so that the restrictions placed on Commonwealth Oil Refining Co.'s sales of additional entitlements would be modified.
Do	Corpus Christi Management Co., Corpus Christi, Tex.	DRH-0123, DRD-0123.	Motion for evidentiary hearing. Motion for Discovery. If granted: Corpus Christi Management Co. would receive documents relating to DOE litigation in the Federal court and would be granted an evidentiary hearing for the purpose of presenting oral testimony to support its objections to a proposed remedial order issued to the firm on Aug. 30, 1978.
Do	Getty Oil Co., Los Angeles, Calif	DSG-0034	Petition for special redress. If granted: Getty Oil Co. would be permitted to increase its current maximum permissible selling prices for motor gasoline to recoup revenues lost as a result of compliance with a remedial order which was later rescinded.
Do	Husky Oil Co. of Delaware, Denver, Colo	DEX-0112	Supplemental Order to *Husky Oil Co.*, 5 FEA Par. 80,649 (June 2, 1977). If granted: The decision and order (Case No. FXA-1162) issued to Husky Oil Co. of Delaware on June 2, 1978, would be rescinded and the firm would receive an exception from the provisions of 10 CFR 211.67 with respect to its entitlement purchase obligations.
Do	Kirkwood Oil & Gas, Casper, Wyo	DRX-0111	Supplemental Order in *Kirkwood Oil & Gas*, 2 DOE Par. —— (Aug. 14, 1978). If granted: The DOE's decision and order of Aug. 14, 1978, would be modified and the period in which the regional office must issue a revised remedial order would be lengthened.
Do	Perrault Production Co., Tulsa, Okla	DXE-1943	Extension of relief granted in *Perrault Production Company*, 2 DOE Par. —— (July 12, 1978). If granted: Perrault Production Co. would be permitted to sell the crude oil produced from Varnum lease, located in Seminole County, Okla., at upper tier ceiling prices.
Do	Bob A. Smith, Ventura, Calif	DEE-1944	Price exception (sec. 212.93). If granted: Bob A. Smith would be permitted to resell contaminated crude oil after processing at prices in excess of applicable ceiling prices.
Do	Sun Company, Inc., Dallas, Tex	DXE-1945	Extension of relief granted in *Sun Company, Inc.*, case No. DXE-0917 (decided Apr. 28, 1978) (unreported decision). If granted: The applicant would be permitted to increase its prices to reflect nonproduct cost increases incurred in producing natural gas liquids and natural gas liquid products at its Newhall plant.
Do	Taunton Municipal Lighting Plant, Washington, D.C.	DED-0006	Request for discovery. If granted: Taunton Municipal Lighting Plant would be granted discovery with respect to certain documents of Quincy Oil, Inc., regarding its statement of objections to the proposed decision and order.
Do	Texas City Refining, Inc., Washington, D.C.	DES-0105	Request for stay. If granted: Texas City Refining, Inc., would receive a stay of the provisions of 10 CFR 211.67 with respect to its entitlement purchase obligations for the period of September through November 1978.
Oct. 5, 1978	Andrews, Kurth, Campbell, & Jones, Washington, D.C.	DFA-0228	Appeal of an information request denial. If granted: The DOE's Aug. 14, 1978, information request denial would be rescinded and Andrews, Kurth, Campbell, & Jones would be granted access to certain DOE documents relating to ruling 1977-5 (the transaction ruling).
Do	Gulf Oil Corp., Houston, Tex	DEE-1941	Price exception (sec. 212.73). If granted: Gulf Oil Corp. would be permitted to sell the crude oil produced from the Mattie White, et al. "C" lease at upper tier ceiling prices.
Oct. 6, 1978	Lunday-Thagard Oil Co., South Gate, Calif.	DEX-0113	Supplemental order. If granted: The DOE would review the entitlements exception relief granted to Lunday-Thagard Oil Co. during its 1977 and 1978 fiscal years in order to determine whether the level of relief accorded the firm was appropriate.

Environmental Protection Agency, Region II, 26 Federal Plaza, Room 1013, New York, N.Y. 10007, (212) 264-2525.

Interested persons may submit written comments on the proposed permit to the Regional Administrator at the above address within 30 days of the date of this notice. Comments should identify the permit number and the name of the applicant. All comments received within the 30-day period will be considered in the formulation of the Regional Administrator's determination regarding issuance of the permit. Any person who submits comments may request a public hearing. Such requests must state the nature of the issues proposed to be raised at the hearing. The Regional Administrator will hold a public hearing whenever he finds, on the basis of requests, a significant degree of public interest in the proposed permit. Public notice of any hearing will be given at least 30 days in advance of the hearing.

Any person who submits comments or requests a hearing will be notified of the Regional Administrator's final decision on the permit. Any person who is dissatisfied with the Regional Administrator's decision may request a review of that decision by the Administrator of EPA. Such requests must be made within 30 days of the Regional Administrator's decision and must state the reasons why review is requested.

Dated: October 20, 1978.

JOHN T. ROCK,
Acting Regional Administrator.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 995-2]

PLANT CLOSINGS ATTRIBUTABLE TO ENVIRONMENTAL REGULATIONS

Request for Information

The U.S. Environmental Protection Agency (EPA) is attempting to identify all industrial closings that have resulted from Federal, State, or local pollution control regulations. The EPA promptly transmits this information to the U.S. Department of Labor so that adverse employment effects can be minimized. This interagency reporting system is known as the Economic Dislocation Early Warning System (EDEWS). The information generated by the EDEWS is also essential in evaluating the effects of pollution control regulations on specific industries.

EPA is aware that plant closings generally result from a combination of factors, one of which may be the requirement to comply with environmental regulations. Because of the complexity of the subject and the unique circumstance of each decision to close a plant, EPA is not attempting to set forth guidelines as to what, in its view, may constitute a plant closing attributable to regulations for environmental protection. EPA would like to hear from any firm which has closed or plans to close a facility where inability to meet pollution control regulations is a substantial factor. The EPA would also appreciate any information regarding such situations from sources other than the firms themselves.

Please mail or phone the firm's name and address to the EPA contact in the appropriate region listed below.

Dated: October 23, 1978.

WILLIAM DRAYTON, JR.,
Assistant Administrator for Planning and Management.

FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License No. 1473]

BALTIMORE INTERNATIONAL TRANSPORT, INC.

Order of Revocation

The bond issued in favor of Baltimore International Transport, Inc., 503 East Patapsco Avenue, Baltimore, Md. 21225, FMC No. 1473, was cancelled effective September 13, 1978.

By letter dated August 17, 1978, Baltimore International Transport, Inc., was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 1473 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Baltimore International Transport, Inc., has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), section 5.01(d) dated August 8, 1977;

It is ordered, That Independent Ocean Freight Forwarder License No. 1473 be and is hereby revoked effective September 13, 1978.

It is further ordered, That Independent Ocean Freight Forwarder License No. 1473, issued to Baltimore International Transport, Inc., be returned to the Commission for cancellation.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Baltimore International Transport, Inc.

ROBERT G. DREW,
Director, Bureau of Certification and Licensing.

[6730-01-M]

[Independent Ocean Freight Forwarder License No. 983]

M. A. GRASER-ROTHE, EILEEN GUENTHER, D.B.A.

Order of Revocation

The bond issued in favor of M.A. Graser-Rothe, Eileen Guenther, d.b.a. 553 Old State Road No. 3, Alexander, Ky. 41001 (FMC No. 983) was cancelled effective October 8, 1978.

By letter dated September 25, 1978, M.A. Graser-Rothe, Eileen Guenther d.b.a. was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 983 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

M.A. Graser-Rothe, Eileen Guenter d.b.a. has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), § 5.01(d) dated August 8, 1977;

It is ordered, That Independent Ocean Freight Forwarder License No. 983 be and is hereby revoked effective October 8, 1978.

It is further ordered, That Independent Ocean Freight Forwarder License No. 983 issued to M.A. Graser-Rothe, Eileen Guenther, d.b.a., be returned to the Commission for cancellation.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon M.A. Graser-Rothe, Eileen Guenther, d.b.a.

ROBERT G. DREW,
Director Bureau of Certification and Licensing.

[6730-01-M]

[Independent Ocean Freight Forwarder License No. 1815]

SCHLEY SHIPPING CO., INC.

Order of Revocation

The bond issued in favor of Schley Shipping Co., Inc., 172-76 Baisley Boulevard, Jamaica, N.Y. 11434, FMC No. 1815, was canceled effective September 6, 1978.

By letter dated August 14, 1978, Schley Shipping Co., Inc., was advised by the Federal Maritime Commission that Independent Oceean Freight Forwarder License No. 1815 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Schley Shipping Co., Inc., has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised) section 5.01(d) dated August 8, 1977;

It is ordered, That Independent Ocean Freight Forwarder License No. 1815 be and is hereby revoked effective September 6, 1978.

It is further ordered, That Independent Ocean Freight Forwarder License No 1815 issued to Schley Shipping Co., Inc., be returned to the Commission for cancellation.

It is further ordered, That a copy of this Order by published in the FEDERAL REGISTER and served upon Schley Shipping Co., Inc.

ROBERT G. DREW,
Director, Bureau of Certification and Licensing.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on October 18, 1978 (FMC), and October 19, 1978 (FMC and NRC). See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipts.

The notice includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FMC and NRC requests are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed requests, comments (in triplicate) must be received on or before November 14, 1978, and should be addressed to Mr. John M. Lovelady, Assistant Director, Regulatory Reports Review, U.S. General Accounting Office, Room 5106, 441 G Street NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-275-3532.

FEDERAL MARITIME COMMISSION

The FMC requests an extension without change clearance of General Order 20, 46 CFR 540, Security for the Protection of the Public and Form 131, Application for Certificate of Financial Responsibility. The rules in general order 20 provide procedures whereby persons in the United States who arrange, offer, advertise, or provide passage on a vessel having berth or stateroom accommodations for 50 or more passengers and embarking passengers at U.S. ports shall establish their financial responsibility or, in lieu thereof, file a bond or other security to meet liabilities for nonperformance of voyage, or for injury or death to passengers or other persons on voyages to or from U.S. ports. These persons must present to the U.S. Customs officials for clearance from a U.S. port, a certificate of financial responsibility (casualty) and/or a certificate of financial responsibility (performance), each of which certifies that the necessary level of financial responsibility has been established.

An application form, FMC 131, along with acceptable evidence of financial responsibility must be submitted to FMC to obtain a certificate of casualty and/or performance. Material changes to the application or supporting data must be filed with FMC within 5 days after the occurrence of the changes.

General order 20 requires certificants to report terminations, cancellations, or renewals of insurance in writing; furnish written designations of legal agents; file evidence of charter arrangements with FMC, provide notification of arrangements for which the certificant does not assume financial responsibility, and submit semiannual statements of changes in applications or supporting documents within 30 days after the close of the 6-month period being reported; negative reports must be submitted also. Self-insurers must file quarterly balance sheets, statements of income and surplus, statements of book value or current market value of assets located in the United States credit rating reports and lists of contractual requirements relating to maintenance of working capital and net worth.

FMC estimates respondents number approximately 75 and that reporting burden averages 6 hours for a new or amended application, 30 minutes to 3 hours for semiannual statements or negative reports, 2 hours for material changes in applications filed 5 days after change, 10 hours for terminations, cancellations, or renewals of insurance in writing, 7 hours for self-insurer reports, 1 hour for designations of legal agents, 2 hours for evidence of charter arrangements, and 2 hours for notification of arrangements for which certificants do not assume financial responsibility.

The FMC requests clearance for revision of self-policing reports as required by 46 CFR 528 (general order 7). Carriers subject to this part must submit a self-policing report each January 31 and July 31. The reports will cover all policing activities, including investigations and adjudications conducted during the preceding 6 months, the action taken in all investigations, and the nature of any violations found and sanctions imposed. A negative report is to be filed if there are no allegations of breach, investigations, or final actions to report. There are approximately 100 carriers subject to this part. Conferences must establish

self-policing systems which include the retention of independent self-po-

V 43 / 209 0 C 27 7 8

self-policing systems which include the retention of independent self-policing authorities and impartial arbitrators, and must describe the system so established in their agreements. Conference agreements must include provisions that authorize self-policing authorities to investigate all allegations of breach, audit carrier records, and compile and retain records of their activities for 5 years. Conferences desiring an exemption from the requirement that they retain an independent self-policing authority may petition FMC for an exemption. FMC estimates the one-time burden for each conference to amend its existing agreements to comply with this part will average 1 hour. FMC estimates that approximately 10 carriers will petition for an exemption with a one-time burden of 1 hour per request. The annual respondent burden for filing the semiannual self-policing reports is estimated to average 4 hours per respondent.

NUCLEAR REGULATORY COMMISSION

The NRC requests clearance of an extension without change of Form 482, Registration Certificate—Medical Use of Byproduct Material Under General License. 10 CFR 35.31 establishes a general license authorizing physicians to use certain quantities of byproduct material for specified diagnostic tests. Prior to using byproduct material under the general license the physician must file form 482 and receive from NRC a validated copy of form 482 with a registration number assigned. NRC estimates that respondents number approximately 200 annually and that respondent burden averages 5 minutes per application.

Food and Drug Administration

[Docket No. 77N-0091]

BACTERIAL VACCINES AND BACTERIAL ANTIGENS WITH NO U.S. STANDARD OF POTENCY

Revocation of Licenses and Reclassification

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Commissioner of Food and Drugs is announcing revocations of licenses and a reclassification concerning bacterial vaccines and bacterial antigens with "No U.S. Standard of Potency" manufactured by six licensees. These actions result from manufacturers' response or failure to respond to an earlier notice of opportunity for a hearing.

EFFECTIVE DATE: October 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Joe Holloway, Bureau of Biologics (HFB-620), Food and Drug Administration, Department of Health, Education, and Welfare, 8800 Rockville Pike, Bethesda, Md. 20014, 301-443-1306.

SUPPLEMENTARY INFORMATION: In a proposal published in the FEDERAL REGISTER of November 8, 1977 (42 FR 58266), the Commissioner announced his intention to revoke the license(s) for certain bacterial vaccines and bacterial antigens with "No U.S. Standard of Potency" classified as categories II and IIIB, under §§ 601.5(b) and 601.25(f) (21 CFR 601.5(b) and 601.25(f)), based on the recommendations of the panel on review of bacterial vaccines and bacterial antigens with "No U.S. Standard of Potency." The Commissioner agreed with the panel's recommendations and adopted them as the grounds for revocation.

THE PRODUCTS

After publication of the panel's report, a notice of opportunity for a hearing was published in the FEDERAL REGISTER of December 9, 1977 (42 FR 62162) on a proposal by the Commissioner to revoke categories II and IIIB product licenses as follows:

(1) Category II. Biological products determined to be unsafe or ineffective or to be misbranded and which should not continue in interstate commerce. Bacterial Vaccine Diagnostics and Bacterial Vaccine T-50 made from *Streptococcus pyogenes* type L-8 or by prescription (Hollister-Stier, Division of Cutter Laboratories, License No. 8).

(2) Category IIIB. Biological products for which available data are insufficient to classify their safety and effectiveness and which should not continue in interstate commerce. Mixed Respiratory Bacteria (Center Laboratories, Inc., License No. 193); Staphage Lysate (SPL), type I, and types I and III combined, for Staphylococcal Disease (Delmont Laboratories, Inc., License No. 299); Pooled Stock B.A.C. No. 1, Pooled Stock B.A.C. No. 2, Gram-Negative B.A.C. and Pooled Skin B.A.C. (Hoffmann Laboratories, Inc., License No. 283); Bacterial Vaccines for Treatment (Special Mixtures) (Hollister-Stier, Division of Cutter Laboratories, License No. 8); PIROMEN (Pseudomonas polysaccharide) (Travenol Laboratories, Inc., License No. 140); V-677 Streptococcus Vaccines (Intravenous) (Eli Lilly and Co., License No. 56).

ACTION

The manufacturers' responses to the notice of opportunity for a hearing concerning the above products and the Commissioner's action concerning their responses are as follows:

The following firms did not request a hearing concerning their products:

(1) Hollister-Stier, Division of Cutter Laboratories, Inc., for Bacterial Vaccine Diagnostics, Bacterial Vaccine T-50, and Bacterial Vaccines for Treatment (Special Mixtures);

(2) Center Laboratories, Inc., for Mixed Respiratory Bacteria;

(3) Travenol Laboratories, Inc., for PIROMEN (Pseudomonas polysaccharide); and

(4)Eli Lilly and Co., for V-677 Streptococcus Vaccines (Intravenous).

The Commissioner has received numerous letters from patients and doctors expressing concern over the recommendation to revoke the license for the manufacture of V-677, Streptococcus Vaccines (Intravenous). Most letters provided testimonials in support of the effectiveness of the V-677 prod-

Shipment in interstate commerce by the manufacturer of a product after

[4110-03-M]

1978 (43 FR 17055), the Commissioner of Food and Drugs issued a notice ad-

viewed by the panel on Review of Bacterial Vaccines and Bacterial Antigens with "No U.S. Standard of Potency" (Docket No. 77N-0091) as follows: (1) *Actinobacillus equuli*, (2) *Bacteroides melaninogenicus*, (3) *Brucella abortus*, (4) *Corynebacterium equi*, (5) *Corynebacterium pyogenes*, (6) *Erysipelothrix rhusiopathiae*, (7) *Escherichia coli*, (8) *Haemophilus pleuropneumoniae*, (9) *Pasteurella haemolytica*, (10) *Pasteurella multocida*, (11) *Pasteurella tularensis*, (12) *Proteus vulgaris*, (13) *Pseudomonas aeruginosa*, (14) *Salmonella abortivoequina*, (15) *Salmonella abortusbovis*, (16) *Salmonella choleraesuis*, (17) *Salmonella dublin*, (18) *Salmonella enteritidis*, (19) *Salmonella typhimurium*, (20) *Staphylococcus aureus*, (21) *Streptococcus agalactiae*, (22) *Streptococcus equi*, (23) *Streptococcus faecalis*, (24) *Streptococcus pneumoniae*, (25) *Streptococcus zooepidemicus*, (26) *Vibrio fetus*.

V 4 3 / 2 0 9 0 C 2 7 7 8

ters provided testimonials in support of the effectiveness of the V-677 product for the treatment of arthritis. Some letters requested a formal hearing.

The Commissioner recognizes the concern and the sense of frustration some patients must feel regarding the proposed revocation. However, the law provides that the safety and effectiveness of biological drugs must be established by scientifically sound evidence. The expert panel evaluated all the bacterial vaccines, using the same criteria to establish safety and effectiveness. These standards are set forth in the regulation that established the biological review (see 21 CFR 601.25(d)). The data submitted by Eli Lilly and Co. did not satisfy the criteria, and the panel and the Commissioner concluded that V-677 should be removed from the market pending the results of scientific studies to establish its safety and effectiveness. In addition, the testimonials submitted by individuals do not satisfy the statutory standard and do not support approval of a biological drug (see *Weinberger* v. *Hynson, Westcott & Dunning, Inc.*, 412 U.S. 609 (1973)).

Several persons who commented expressed a willingness to volunteer for testing of V-677. Persons who wish to participate in investigational new drug (IND) clinical trials of V-677 or who are otherwise interested in the availability of this product should contact manufacturers or other organizations concerning the possible submission of an IND for V-677 or similar products.

The Commissioner advises that a hearing may be requested only by a manufacturer whose license is the subject of the proposed revocation. If a hearing is requested by the manufacturer and granted, any person desiring to participate in the hearing may do so (see § 12.45 (21 CFR 12.45)). However, if a licensee is given the opportunity to request a hearing but fails to demonstrate an interest in continuing to market the product by not requesting a hearing or submitting data, there is no hearing in which to participate. The December notice provides that the failure of a licensee to request a hearing constitutes an election not to avail itself of the opportunity. Under the biologics law, section 351 of the Public Health Service Act (42 U.S.C. 262), no product can be lawfully marketed except by a person holding an unrevoked license. Although anyone can apply for licensure, patients and/or doctors cannot compel a licensee to continue to produce or to take any particular action to protect its license. For this reason, the Commissioner is obliged to deny requests for a hearing from patients.

Further response to comments concerning V-677 and other products reviewed by the panel on Review of Bacterial Vaccines and Bacterial Antigens with "No U.S. Standard of Potency" will be included in the final order soon to be published, respecting the November 8, 1977 proposal.

The following firms requested hearings:

(1) Hoffmann Laboratories requested a hearing and presented data concerning its Bacterial Antigen Complexes, License No. 283. However, Hoffmann Laboratories subsequently requested that its establishment license and product licenses to manufacture the six Bacterial Antigen Complexes reviewed by the panel and four other products not reviewed by the panel be revoked. The request for license revocation constitutes a withdrawal of the request for a hearing, and consideration of the data is unnecessary.

(2) Delmont Laboratories, Inc., requested a hearing and submitted data and information in support of its Staphage Lysate (SPL) type I, and types I and III combined, License No. 299. The Commissioner concludes that these data would not only justify a hearing but are adequate to justify reclassification at this time. The Commissioner finds that the potential benefits outweigh the potential risk in use of the product. Therefore, Staphage Lysate (SPL) type I, and types I and III combined, for Staphylococcal Disease (bacterial antigen made from staphylococcus) are reclassified from category IIIB to category IIIA (biological products for which available data are insuffient to classify their safety and effectiveness but which may remain in interstate commerce pending completion of testing). Because no hearing is necessary for a category IIIA product, the December notice is withdrawn for the product.

Accordingly, under the Public Health Service Act (sec. 351, 58 Stat. 702 as amended (42 U.S.C. 262)); §§ 314.200, 601.5(b), and 601.25(f) and (g) (21 CFR 314.200, 601.5(b), and 601.25(f) and (g)); the Federal Food, Drug, and Cosmetic Act (secs. 201, 502, 505, 701, 52 Stat. 1040-1042 as amended, 1050-1053 as amended, 1055-1056 as amended by 70 Stat. 919 and 72 Stat. 948 (21 U.S.C. 321, 352, 355, 371)) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), the following product licenses are revoked:

(a) Hollister-Stier, Division of Cutter Laboratories, for the manufacture of Bacterial Vaccine Diagnostics (bacterial vaccines for diagnostic use containing (1) *Aerobacter aerogenes*, (2) *Corynebacterium pseudodiphthe-riticum*, (3) *Diplococcus pneumoniae*, mixed, (4) *Escherichia coli*, (5) *Gaffkya tetragena*, (6) *Hemophilus influenzae*, (7) *Hemophilus pertussis*, (8) *Klebsiella pneumoniae*, (9) *Neisseria catarrhalis*, (10) *Proteus vulgaris*, (11) *Pseudomonas aeruginosa*, (12) *Salmonella enteritidis*, (13) *Salmonella paratyphi*, (14) *Salmonella schottmulleri*, (15) *Salmonella typhosa*, (16) *Shigella dysenteriae*, (17) *Shigella flexneri*, (18) *Streptococcus fecalis*, *pyogenese*, *viridans*, and *nonhemolyticus*, (19) *Staphylococcus albus*, and (20) *Staphylococcus aureus*), License No. 8; Bacterial Vaccines for Treatment (Special Mixtures containing one or more of the following organisms: (1) *Aerobacter aerogenes*, (2) *Corynebacterium pseudodiphthe-riticum*, (3) *Corynebacterium (propionibacterium) acnes*, (4) *Corynebacterium xerosis*, (5) *Escherichia coli*, (6) *Gaffkya tetragena*, (7) *Hemophilus pertussis*, (8) *Proteus vulgaris*, (9) *Pseudomonas aeruginosa*, (10) *Salmonella enteritidis* (this organism was inadvertently omitted when the notice of opportunity for a hearing was published), (11) *Shigella paradysenteriae* (Type Y), (12) *Salmonella paratyphi*, (13) *Salmonella schottmiilleri*, (14) *Salmonella typhosa*, (15) *Shigella dysenteriae*, (16) *Shigella flexneri*, and (17) *Streptococcus fecalis* (*Staphylococcus albus* and *aureus* were incorrectly listed for this product when the proposal and the notice of opportunity for a hearing were published)), License No. 8; Bacterial Vaccine T-50 (made from *Streptococcus pyogenes* type L-8 or by prescription), License No. 8;

(b) Center Laboratories, Inc., for the manufacture of Mixed Respiratory Bacteria (made from (1) *Staphylococcus aureus* and *albus*, (2) *Streptococcus mitis* and *salivarius*, (3) *Streptococcus pyogenes*, Group A, (4) *Diplococcus pneumoniae*, I, II, and III, (5) *Klebsiella pneumoniae*, two strains, (6) *Neisseria catarrhalis*) License No. 193;

(c) Eli Lilly and Co., for the manufacture of V-677 Streptococcus Vaccines (Intravenous), License No. 56;

(d) Travenol Laboratories, Inc., for the manufacturte of PIROMEN (Pseudomonas polysaccharide), License No. 140; and

(e) Hoffmann Laboratories, Inc., for the manufacture of Pooled Stock B.A.C. No. 1 (bacterial antigens made from (1) *Diplococcus pneumoniae*, (2) Streptococcus species, (3) Staphylococcus species, (4) *Neisseria catarrhalis*, (5) *Escherichia coli*, (6) *Hemophilus influenzae*), Pooled Stock B.A.C. No. 2 (bacterial antigens made from (1) *Diplococcus pneumoniae*, (2) *Klebsiella pneumoniae*, (3) Streptococcus species, (4) *Pseudomonas aeruginosa*, (5) *Escherichia coli*, and (6) *Aerobacter aerogenes*) and Gram-negative B.A.C. (bacterial antigens made from (1) *Pseudomonas aeruginosa*, (2) *Escherichia coli*, (3) *Aerobacter aerogenes*), Pooled Skin B.A.C. (bacterial antigens made from (1) Staphylococcus species and (2) *Proteus vulgaris*), License No. 283.

Shipment in interstate commerce by the manufacturer of a product after the effective date of revocation constitutes a violation of the Public Health Service Act. The Commissioner advises that those products for which licenses are herein revoked do not constitute a danger to public health and those lots that have already been sold and delivered may be resold through their expiration dates.

All data and information not prohibited from public disclosure under 21 U.S.C. 331(j) or 18 U.S.C. 1905, that have been used by the Commissioner in reaching this decision, may be seen in the office of the Hearing Clerk between 9 a.m. and 4. p.m., Monday through Friday.

Effective date. These actions are effective October 27, 1978.

Dated: October 19, 1978.

DONALD KENNEDY,
Commissioner of Food and Drugs.

[Docket No. 78N-0378]

GRAS SAFETY REVIEW OF MANGANESE SALTS

Public Hearing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: In response to several requests, the Food and Drug Administration (FDA) announces a public hearing concerning the safety of manganese salts. The hearing will enable those parties who have so requested to present data, information, and views as part of the agency's review to determine whether the salts are generally recognized as safe (GRAS) or subject to a prior sanction.

DATE: The hearing will be held November 6, 1978.

ADDRESS: The hearing will be held in the Lee Building, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, Md. 20014.

FOR FURTHER INFORMATION CONTACT:

Corbin I. Miles, Bureau of Foods (HFF-335), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-472-4750; or
George W. Irving, Jr., Life Sciences Research Office, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, Md. 20014, 301-530-7033.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of April 21, 1978 (43 FR 17055), the Commissioner of Food and Drugs issued a notice advising the public that an opportunity would be provided for the oral presentation of data, information, and views at public hearings to be conducted by the Select Committee on GRAS Substances of the Life Sciences Research Office, Federation of American Societies for Experimental Biology (hereafter referred to as the Select Committee), concerning the safety of manganese salts and silicates and the Select Committee's tentative determination of whether or not they are GRAS or subject to a prior sanction.

A written statement on silicates was submitted by the PQ Corp., P.O. Box 258, Lafayette Hill, Pa. 19444, in lieu of an oral presentation at a public hearing. No requests for a public hearing were received. Accordingly, no hearing will be held on silicates.

The Select Committee received requests for a public hearing on manganese salts from the American Feed Manufacturers Association, Inc., 1701 North Fort Myer Drive, Arlington, Va. 22209; Southeastern Minerals, Inc., Bainbridge, Ga. 31717; and Chemetals Corp., 711 Pittman Road, Baltimore, Md. 21226 (formerly a division of Diamond Shamrock Corp., 1110 Superior Avenue, Cleveland, Ohio 44114). No other requests were received for a hearing on manganese salts.

Under the procedures set forth in the April 21, 1978, notice, announcement is hereby made that a hearing on manganese salts will be held at 9 a.m., on November 6, 1978, in the Lee Building, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, Md. 20014. Those who have requested to make oral presentations will be expected to complete their presentations within the period indicated and in accordance with the following schedule:

1. American Feed Manufacturers Association, Inc., and Southeastern Minerals, Inc.: Mr. L. H. Boyd and/or A. Poitevint will make a joint presentation for both corporations—30 minutes.

2. Chemetals Corp.: Dr. Dennis DeCraene—15 minutes.

The hearing will be chaired by a member of the Select Committee and will be transcribed by a reporting service. A transcript of the hearing will be placed on public display in the office of the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

Dated: October 23, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 78-30353 Filed 10-26-78; 8:45 am]

[4110-03-M]

[Docket No. 78M-0260]

LOMBART LENSES LTD.

Premarket Approval of Amsof Soft Contact Lens

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces approval of the application for premarket approval under the Medical Device Amendments of 1976 of the Amsof (deltafilicon A) Soft Contact Lens sponsored by Lombart Lenses Ltd. After reviewing the Ophthalmology Device Classification Panel's recommendation, FDA notifed the sponsor that the application was approved because the device had been shown to be safe and effective for use as recommended in the submitted labeling.

DATE: Petitions for administrative review by November 27, 1978.

ADDRESS: Requests for copies of the summary of safety and effectiveness data and petitions for administrative review may be addressed to the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Keith Lusted, Bureau of Medical Devices (HFK-402), Food and Drug Administration, Department of Health, Education, and Welfare, 8757 Georgia Avenue, Silver Spring, Md. 20910, 301-427-7550.

SUPPLEMENTARY INFORMATION: The sponsor, Lombart Lenses Ltd., Norfolk, Va. 23501, submitted an application for premarket approval of the Amsof (deltafilicon A) Soft Contact Lens to FDA on April 6, 1977. The application was reviewed by the Ophthalmology Device Classification Panel, an FDA advisory committee, which recommended approval of the application. On June 30, 1978, FDA approved the application by a letter to the sponsor from the Director of the Bureau of Medical Devices.

Before enactment of the Medical Device Amendments of 1976 (the amendments), soft contact lenses were regulated as new drugs. Because the amendments broadened the definition of the term "device" in section 201(h) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321(h)), soft contact lenses are now regulated as class III devices (premarket approval). As FDA explained in a notice published in the FEDERAL REGISTER of December 16, 1977 (42 FR 63472), the amendments provide transitional provisions to assure continuation of premarket

approval requirements for class III devices formerly regarded as new drugs.

[4110-03-M]

REGISTER of October 28, 1977 (42 FR 56800) on a proposal by the Commis-

314.200), 601.5(b), and 601.25 (f) and (g), and the authority delegated to

of Health Resources, are reclassified from category IIIB into category IIIA.

new drug application (NDA 17-554) for the Softcon (vifilicon A) Corrective

V 4 3 / 2 0 9 OC 27 78

approval requirements for class III devices formerly regarded as new drugs.

A detailed summary of the information on which the agency's approval is based is available upon request from the Hearing Clerk (address above). Requests should be identified with the name of the device and the Hearing Clerk docket number found in brackets in the heading of this document.

OPPORTUNITY FOR ADMINISTRATIVE REVIEW

Section 515(g) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360e(g)) authorizes any interested person to petition for administrative review of the FDA decision to approve this application. A petitioner may request either a formal hearing under part 12 (21 CFR Part 12) of the FDA administrative practices and procedures regulations or a review of the application and the agency's action by an independent advisory committee of experts. A petition shall be in the form of a petition for reconsideration of FDA action under § 10.33(b) (21 CFR 10.33(b)). A petition shall designate the form of review that the petitioner requests (hearing or independent advisory committee) and shall be accompanied by supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing any petition, FDA will decide whether to grant or deny the petition by a notice published in the FEDERAL REGISTER. If FDA grants the petition, the notice will state the issues to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may at any time on or before November 27, 1978, file with the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, four copies of each petition and supporting data and information, identified with the name of the device and the Hearing Clerk docket number found in brackets in the heading of this document. Received petitions may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Dated: October 17, 1978.

SHERWIN GARDNER,
Acting Commissioner of Food and Drugs.

[4110-03-M]

[Docket Nos. 77N-0295 through 77N-0299]

SKIN TEST ANTIGENS

Revocations of Licenses, Reclassifications, and Withdrawal of Notice of Opportunity for Hearings

AGENCY: Food and Drug Administration.

ACTION: Notice

SUMMARY: The Commissioner of Food and Drugs announces revocations of licenses, reclassification decisions, and a withdrawal of a notice of opportunity for hearing concerning skin test antigen products manufactured by three licensees. These actions result from manufacturers' responses to an earlier notice of opportunity for hearing.

EFFECTIVE DATE: October 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Michael L. Hooton, Bureau of Biologics (HFB-620), Food and Drug Administration, Department of Health, Education, and Welfare, 8800 Rockville Pike, Bethesda, Md. 20014, 301-443-1306.

SUPPLEMENTARY INFORMATION: In a proposal published in the FEDERAL REGISTER of September 30, 1977 (42 FR 52674), the Commissioner announced his intention to revoke under §§ 601.5(b) and 601.25(f) (21 CFR 601.5(b) and 601.25(f)) the license(s) for skin test antigens classified as categories II and IIIB, based upon the recommendation of the Panel on Review of Skin Test Antigens (the Panel). The Commissioner agreed with the Panel's recommendation and adopted it as the ground for revocation. Two skin test antigens were placed in catetory II (products found unsafe, ineffective, or misbranded that should not continue to be distributed in interstate commerce), and 10 skin test antigens were placed in category IIIB (products for which available data are insufficient to classify their safety and effectiveness and which should not continue to be distributed in interstate commerce during the development of such data, if any).

The Commissioner found no need to implement license revocation proceedings for the 2 products listed in category II and for 2 of the 10 products listed in category IIIB because, at the request of the licensees, the product licenses in question were revoked before publication of a notice of opportunity for hearing.

THE PRODUCTS

After publication of the Panel's report, a notice of opportunity for hearing was published in the FEDERAL REGISTER of October 28, 1977 (42 FR 56800) on a proposal by the Commissioner to revoke the following remaining eight category IIIB licenses:

Diphtheria Toxin for Schick Test and Tuberculin, Old (Parke, Davis & Co. (docket No. 77N-0295)) and Lymphogranuloma Venereum Antigen (E. R. Squibb & Sons, Inc. (docket No. 77N-0296)), on the grounds that available data are insufficient to classify their safety and effectiveness (§ 601.25(f)(3)) and that the manufacture of these products has been discontinued to the extent that a meaningful inspection cannot be made (§§ 601.25(f)(3) and 601.5(b)(2)); and Mumps Skin Test Antigen (Eli Lilly & Co. (docket No. 77N-0297)), Schick Test Control and Diphtheria Toxin for Schick Test (Texas Department of Health Resources (docket No. 77N-0298)), Tuberculin, Old (Eli Lilly & Co. (docket No. 77N-0297)), and Tuberculin, Old (Massachusetts Public Health Biologics Laboratories (docket No. 77N-0299)), on the ground that available data are insufficient to classify their safety and effectiveness (§ 601.25(f)(3)).

After publication of the notice of opportunity for hearing, product licenses for Diphtheria Toxin for Schick Test and Tuberculin, Old (Parke, Davis & Co.), and Tuberculin, Old (Massachusetts Public Health Biologics Laboratories), were revoked at the request of the manufacturers.

ACTIONS

The manufacturers' responses to the notice of opportunity for hearing concerning the remaining five products and the Commissioner's actions concerning their responses are as follows:

Eli Lilly & Co., Greenfield Laboratories, Box 708, Greenfield, Ind. 46140, did not request a hearing for Tuberculin, Old. This licensee did request a hearing for Mumps Skin Test Antigen and submitted data in support of its request.

E. R. Squibb & Sons, Inc., Georges Road, New Brunswick, N.J. 08903, did not request a hearing for Lymphogranuloma Venereum Antigen.

Under the notice of opportunity for hearing, a licensee's failure to request a hearing constitutes a waiver of the opportunity for hearing and of any contentions concerning the legal status of the product at issue. The notice also stipulated that a request could not rest on allegations but must set forth "specific facts showing that there is a genuine and substantial issue of fact" requiring a hearing. If no such facts are presented, "the Commissioner will enter summary judgment against the licensee."

Accordingly, under section 351 of the Public Health Service Act (42 U.S.C. 262), §§ 314.200 (21 CFR 314.200), 601.5(b), and 601.25 (f) and (g), and the authority delegated to him (21 CFR 5.1), the Commissioner revokes the product license issued to: (1) Eli Lilly & Co., for the manufacture of Tuberculin, Old, and (2) E. R. Squibb & Sons, Inc., for the manufacture of Lymphogranuloma Venereum Antigen. The Commissioner advises that Tuberculin, Old does not constitute a danger to public health and those lots that have already been sold and delivered by Eli Lilly & Co. may be resold through their expiration dates. E. R. Squibb & Sons, Inc. has discontinued manufacture of Lymphogranuloma Venereum Antigen. The last lot of manufactured Lymphogranuloma Venereum Antigen has passed its expiration date and that product is no longer available.

The Commissioner finds that Mumps Skin Test Antigen manufactured by Eli Lilly & Co. is misbranded for its current labeled use in detecting immunity to mumps. However, the Panel noted the widespread use and apparent value of the product for the purpose of ascertaining immunocompetence and recommended that additional data be submitted to demonstrate the product's safety and effectiveness for this use. Eli Lilly & Co. has submitted data in support of use for testing immunocompetence. The Commissioner has reviewed the data and finds that they justify permitting the product to remain on the market pending the development of additional data, assuming that, within 30 days from the date of this notice, Eli Lilly & Co. submits a license amendment incorporating the recent data and proposing labeling changes consistent with the new indication for use, and submits a commitment to undertake additional studies as required by § 601.25(h)(1) (21 CFR 601.25(h)(1)). Therefore, the Commissioner will hold in abeyance a ruling on Eli Lilly & Co.'s request for a hearing. If an amendment is submitted and approved, no hearing will be necessary.

In its response to the notice, Texas Department of Health Resources, 1100 West 49th Street, Austin, Tex. 75201, stated that it had modified the manufacturing procedures for Schick Test Control and Diphtheria Toxin for Schick Test, submitted new data to justify reclassification, and requested a hearing. The Commissioner finds that the data and manufacturing information justify reclassification of both products into category IIIA. Therefore, no hearing is necessary and the Commissioner withdraws the notice of opportunity for hearing Concerning Texas Department of Health Resources. Schick Test Control and Diphtheria Toxin for Schick Test, manufactured by Texas Department of Health Resources, are reclassified from category IIIB into category IIIA.

All data and information used by the Commissioner in reaching the decisions concerning Eli Lilly & Co. and Texas Department of Health Resources and not prohibited from public disclosure under section 301(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 331(j)) or 18 U.S.C. 1905 may be seen in the office of the Hearing Clerk, Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, between 9 a.m. and 4 p.m., Monday through Friday.

Effective date: These actions are effective October 27, 1978.

Dated: October 19, 1978.

DONALD KENNEDY,
Commissioner of Food and Drugs.

[4110-03-M]

[Docket No. 78M-0259]

WARNER-LAMBERT CO.

Premarket Appoval of Softcon Corrective Hydrophilic Contact Lens

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces approval of the application for premarket approval under the Medical Device Amendments of 1976 of the Softcon (vifilicon A) Corrective Hydrophilic Contact Lens sponsored by Warner-Lambert Co. After reviewing the Ophthalmology Device Classification Panel's recommendation, FDA notified the sponsor that the application was approved because the device had been shown to be safe and effective for use as recommended in the submitted labeling.

DATE: Petitions for administrative review by November 27, 1978.

ADDRESS: Requests for copies of the summary of safety and effectiveness data and petitions for administrative review may be addressed to the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Keith Lusted, Bureau of Medical Devices (HFK-402), Food and Drug Administration, Department of Health, Education, and Welfare, 8757 Georgia Avenue, Silver Spring, Md. 20910, 301-427-7550.

SUPPLEMENTARY INFORMATION: The sponsor, Warner-Lambert Co., Morris Plains, N.J. 07950, submitted a new drug application (NDA 17-554) for the Softcon (vifilicon A) Corrective Hydrophilic Contact Lens to FDA on December 18, 1973. The application called for a lens disinfection regimen that FDA considered unacceptable. On October 26, 1977, the sponsor resubmitted the application, which included a provision for use of a chemical disinfection system approved by FDA and marketed for use with other lenses. The resubmitted application was reviewed by the Ophthalmology Device Classification Panel, an FDA advisory committee, which recommended approval of the application. On June 30, 1978, FDA approved the application by a letter to the sponsor from the Director of the Bureau of Medical Devices.

Before enactment of the Medical Device Amendments of 1976 (the amendments), soft contact lenses were regulated as new drugs. Because the amendments broadened the definition of the term "device" in section 201(h) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321(h)), soft contact lenses are now regulated as class III devices (premarket approval). As FDA explained in a notice published in the FEDERAL REGISTER of December 16, 1977 (42 FR 63472), the amendment provide transitional provisions to assure continuation of premarket approval requirements for class III devices formerly regarded as new drugs.

A detailed summary of the information on which FDA's approval is based is available upon request from the hearing clerk (address above). Requests should be identified with the name of the device and the hearing clerk docket number found in brackets in the heading of this document.

OPPORTUNITY FOR ADMINISTRATIVE REVIEW

Section 515(g) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360e(g)) authorizes any interested person to petition for administrative review of the FDA decision to approve this application. A petitioner may request either a formal hearing under part 12 (21 CFR Part 12) of the FDA administrative practices and procedures regulations or a review of the application and FDA's action by an independent advisory committee of experts. A petition shall be in the form of a petition for reconsideration of FDA action under § 10.33(b) (21 CFR 10.33(b)). A petition shall designate the form of review that the petitioner requests (hearing or independent advisory committee) and shall be accompanied by supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing any petition, FDA will decide whether to grant or

V 43/209 OCT 27 78

deny the petition by a notice published in the FEDERAL REGISTER. If FDA grants the petition, the notice will state the issues to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may at any time on or before November 27, 1978, file with the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, four copies of each petition and supporting data and information, identified with the name of the device and the hearing clerk docket number found in brackets in the heading of this document. Received petitions may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Dated: October 17, 1978.

SHERWIN GARDNER,
Acting Commissioner of Food and Drugs.

Office of Education

TITLE I, ELEMENTARY AND SECONDARY EDUCATION ACT

Interpretation

AGENCY: Office of Education, HEW.

ACTION: Interpretation of Title I, ESEA requirements for the establishment of parent advisory councils and the selection of their members.

SUMMARY: The Commissioner of Education is issuing this interpretation to clarify the requirements for "parent advisory councils" under Title I of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 241e(a)(14)). This interpretation clarifies the responsibilities of the participating local educational agencies to establish advisory councils and the rights of parents to select the advisory council members. While the Education Amendments of 1978 include some new provisions concerning parent advisory councils, those provisions do not conflict with the basic principle (as stated in this interpretation) that local educational agencies may not impose any restrictions on the authority of eligible parents to select advisory council members other than those restrictions contained in the Title I statute and regulation.

EFFECTIVE DATE: This interpretation is expected to take effect 45 days after it is transmitted to Congress. Interpretations are transmitted to Congress several days before they are published in the FEDERAL REGISTER. However, the effective date is changed by statute if Congress disapproves the interpretation or takes certain types of adjournments. If you want to know the exact effective date of this interpretation, call or write Dr. John F. Staehle at the address provided below.

In conducting the next parent advisory selections, local educational agencies must ensure that all persons serving as parent advisory council members are selected in a manner that is fully consistent with this intepretation. In the interim, if any present member of a parent advisory council was selected through a process that was inconsistent with this interpretation, the local educational agency must (within a reasonable period of time) hold a special selection to correct the inconsistency. Such a special selection must give all persons who were improperly excluded from consideration for selection as council members an opportunity to be considered for selection. In any event, all persons who are serving as parent advisory council members during fiscal year 1980 must have been selected in a manner that is fully consistent with this interpretation.

FOR FURTHER INFORMATION CONTACT:

Dr. John F. Staehle, Division of Education for the Disadvantaged, U.S. Office of Education, 400 Maryland Avenue SW. (Room 3642C, ROB-3), Washington, D.C. 20202, telephone 202-245-2720.

BACKGROUND

In general, local educational agencies receive grants under Title I to support programs that contribute particularly to meeting the special educational needs of educationally deprived children in school attendance areas with high concentrations of children from low-income families. The Commissioner makes payments to State educational agencies according to a formula based upon the number of low-income children living in the school districts of each State. Local educational agencies then apply to the State for Title I grants. A participating State educational agency must provide an assurance to the Commissioner that it will approve only those Title I projects that meet the Title I requirements and that Title I obligations will be enforced. One of those requirements is that the local educational agency must establish a district-wide Title I advisory council and, in most cases, advisory councils in each of the schools that serve an attendance area that has been designated as a Title I project area.

Under Section 141(a)(14) of the Title I statute (20 U.S.C. 241e(a)(14)) each of these advisory councils:

(A) has as a majority of its members parents of the children to be served, (B) is composed of members selected by the parents in each school attendance area, (C) has been given the responsibility by such agency for advising it in the planning for, and the implementation and evaluation of, such programs and projects, and (D) is provided by such agency in accordance with regulations of the Commissioner, with access to appropriate information concerning such program and projects.

Under § 116a.25(d) of the Title I regulation (45 CFR 116a.25(d)), the local educational agency is responsible for establishing appropriate procedures for the nomination and selection of parents and other persons for service on advisory councils. It states:

(d) Procedure for selection. The local educational agency, after consultation with the district advisory council, shall establish appropriate procedures for the nomination and selection of parents eligible under paragraph (c) and other persons for service on district, intermediate and school advisory councils. Such procedures shall include provision for affording timely and adequate notice to the parents and the general public in the agency's school district (or in the appropriate school attendance area in the case of a school council) of the time, place, and method whereby such selection would be made. The local educational agency shall take appropriate measures, such as the publication of the notice in a language other than English, to insure that adequate notice is provided for parents in an area where the dominant language is other than English. Upon the selection of members of the council, the names of all members of such council shall be made available to the public through appropriate notices and continue to be available upon request. Members of an advisory council shall be residents of the school district, and members of a school council shall reside in the attendance area of that school.

In some cases, local educational agencies have gone beyond their procedural responsibilities and have imposed unauthorized qualifications for advisory council membership. The only authorized limitations on eligibility for advisory council membership are that: (1) a majority of each council's members be parents of the children to be served (20 U.S.C. 241e (a)(14)(A)); and (2) the members of each district advisory council must be residents of the school district and the members of each school advisory council must reside in the attendance area of the school (45 CFR 116a.25(d)). The absence of any other restrictions on council membership is in keeping with the basic statutory requirement, in 20 U.S.C. 241e(a)(14)(B), that the members of councils be "• • • selected by the parents in each school attendance area • • •." This requirement clearly prohibits selection by any other methods, such as appointment by a local educational agency.

The Commissioner is providing the following interpretation in response to numerous inquiries about the responsibilities of local educational agencies to establish advisory councils and the rights of parents to select the advisory council members. The need for guidance on these matters also became apparent during the course of litigation in *Alexander* v. *Califano*, No. C-76-1982-WWS (N.D. Calif.).

INTERPRETATION

The Commissioner issues the following interpretation:

The statutory and regulatory responsibility to establish advisory councils does not give local educational agencies the right to limit the freedom of eligible parents to select the advisory councils members, except by requiring that the majority of members of each council be parents of the children to be served and that the members of each district advisory council must be residents of the school district and the members of each school advisory council must reside in the attendance area of the school. The Title I statute and regulation do not authorize any other restrictions on the rights of eligible parents in Title I project areas to select the members of their advisory councils. For example, local educational agencies are not authorized to restrict the number of terms individual parents may serve, to prevent a husband and wife from serving on the same council, or to prevent school employees who are otherwise qualified from being selected as members of councils. In keeping with the unrestricted choice of parents to choose their council members, those same council members must not be restricted in their choice of officers.

(20 U.S.C. 241e(a)(14).)

Social Security Administration

ADVISORY COUNCIL ON SOCIAL SECURITY

Public Meetings

AGENCY: Advisory Council on Social Security, HEW.

ACTION: Notice is hereby given, pursuant to Pub. L. 92-463, that the Advisory Council on Social Security, established pursuant to section 706 of the Social Security Act, as amended, will meet on Monday, November 20, 1978, from 9 a.m. to 5 p.m. in Room 800 of the Hubert H. Humphrey Building, 200 Independence Avenue SW., Washington, D.C.

There will be a meeting of the Advisory Council's panel of actuaries and economists on Tuesday, November 21, 1978, from 9 a.m. to 12 p.m. in Room 507A, Hubert H. Humphrey Building. The panel will continue its review of the economic and actuarial assumptions used in social security cost projections.

These meetings are open to the public.

Individuals and groups who wish to have their interest in the social security program taken into account by the Council may submit written comments, views, or suggestions to Mr. Lawrence H. Thompson.

FOR FURTHER INFORMATION CONTACT:

Mr. Lawrence H. Thompson, Executive Director of the Advisory Council, P.O. Box 17054, Baltimore, Md. 21235. Telephone inquiries should be directed to Mr. Edward F. Moore, telephone 301-594-3171.

BIOASSAY OF ALLYL CHLORIDE FOR POSSIBLE CARCINOGENICITY

Availability of Report

Allyl chloride (CAS 107-05-1) has been tested for cancer-causing activity with rats and mice in the Bioassay Program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary: A bioassay for possible carcinogenicity of technical-grade allyl chloride (3-chloropropene) was conducted using Osborne-Mendel rats and B6C3F1 mice. Applications of the chemical include use as an intermediate in the synthesis of other chemicals. Allyl chloride in corn oil was administered by gavage to two groups of each species for 5 days a week for 78 weeks, followed by observation periods of 30 to 33 weeks for the rats and 14 weeks for the mice.

Under the conditions of this bioassay no convincing evidence was presented for the carcinogenicity of allyl chloride in Osborne-Mendel rats of either sex. The results are suggestive that allyl chloride is carcinogenic in male and female B6C3F1 mice since the compound, when administered by gavage, caused a low incidence of neoplastic and nonneoplastic lesions of the forestomach.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

BIOASSAY OF CUPFERRON FOR POSSIBLE CARCINOGENICITY

Availability of Report

Cupferron (CAS 135-20-6) has been tested for cancer-causing activity with rats and mice in the Bioassay Program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary: A bioassay of cupferron for possible carcinogenicity was conducted using Fischer 344 rats and B6C3F1 mice. Applications of the chemical include use as an analytical reagent. Cupferron was administered in the feed, at either of two concentrations, to groups of 49 or 50 male and 50 female animals of each species.

Under the conditions of this bioassay cupferron was carcinogenic in Fischer 344 rats, causing hemangiosarcomas, hepatocellular carcinomas, and squamous-cell carcinomas of the forestomach in males and females as well as carcinomas of the auditory sebaceous gland in females. The chemical was also carcinogenic in B6C3F1 mice, causing hemangiosarcomas in males and hepatocellular carcinomas, carcinomas of the auditory sebaceous gland, a combination of hemangiosarcomas and hemangiomas, and adenomas of the Harderian gland in females.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

BIOASSAY OF 1-PHENYL-2-THIOUREA FOR POSSIBLE CARCINOGENICITY

Availability of Report

1-Phenyl-2-thiourea (CAS 103-85-5) has been tested for cancer-causing activity with rats and mice in the Bioassay Program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary: A bioassay of 1-phenyl-2-thiourea for possible carcinogenicity was conducted using Fischer 344 rats and B6C3F1 mice. Applications of the chemical include limited use as a rat killer and use in research for testing the sense of taste. 1-Phenyl-2-thiourea was administered in the feed, at either of two concentrations, to groups of 50 male and 50 female animals of each species.

Under the conditions of this bioassay, 1-phenyl-2-thiourea was not carcinogenic to Fischer 344 rats or B6C3F1 mice.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

BIOASSAY OF FORMULATED FENAMINOSULF FOR POSSIBLE CARCINOGENICITY

Availability of Report

Formulated fenaminosulf (CAS140-56-7) has been tested for cancer-causing activity with rats and mice in the Bioassay Program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary: A bioassay of formulated fenaminosulf for possible carcinogenicity was conducted using Fischer 344 rats and B6C3F1 mice. Applications of the chemical include use as a fungicide. Fenaminosulf was administered in the feed, at either of two concentrations, to groups of 50 male and 50 female animals of each species.

Under the conditions of this bioassay, dietary administration of formulated fenaminosulf was not carcinogenic in either Fischer 344 rats or B6C3F1 mice.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

National Park Service

MOUNT RUSHMORE NATIONAL MEMORIAL, S. DAK.

Environmental Review for the Draft General Management Plan, Negative Declaration

In compliance with the National Environmental Policy Act of 1969, the National Park Service has prepared an environmental review based on an assessment of the alternatives for the General Management Plan for Mount Rushmore National Memorial, S. Dak. On the basis of the environmental review, the National Park Service has concluded that an environmental impact statement is not needed.

The environmental assessment and review are on file and available for inspection upon request at the Rocky Mountain Regional Office, National Park Service, 655 Parfet Street, P.O. Box 25287, Denver, Colo. 80225, and at the Superintendent's Office, Mount Rushmore National Memorial, Keystone, S. Dak. 57751, for 30 days from the date of this notice. The assessment considers the nature of the resources, available alternatives, their impacts, mitigating values, adverse effects, a brief description of the alternative selected as the proposed action, and additional considerations that provide a basis for the conclusion that an environmental statement is not needed.

Anyone desiring to comment on the proposed action, the environmental assessment, or the environmental review should put the comments in writing and send them to the Regional Director at the above address during the 30-day review period.

The National Park Service intends to proceed with the draft general management plan at the end of the 30-day review period.

Dated: September 25, 1978.

JAMES B. THOMPSON,
Acting Regional Director,
Rocky Mountain Region.

CAPE HATTERAS NATIONAL SEASHORE

Special Use Permit Applications

PUBLIC HEARINGS TO BE HELD BY CAPE HATTERAS ELECTRIC MEMBERSHIP CORPORATION REGARDING APPLICATION FOR SPECIAL USE PERMIT FOR POWER TRANSMISSION LINE UPGRADING.

An environmental assessment examining the impacts of a proposal to upgrade the power transmission capability of the Cape Hatteras Electric Membership Corp. is available for inspection at the corporation's business office located ½ mile off N.C. 12 in Buxton, N.C. Interested persons also may receive a mailed synopsis of the proposal by writing or phoning Mr. Zane L. Gray, Manager, Cape Hatteras Electric Membership Corp., Buxton, N.C. 27920, telephone 919-995-2331. In addition, public hearings have been scheduled by the Cape Hatteras Electric Membership Corp. for the Federal Courtroom, Post Office Building, Second and Market Streets, Washington, N.C. on Wednesday, November 8 at 10 a.m. and for the Marine Resources Center, Roanoke Island, Manteo, N.C. on Thursday, November 9 at 10 a.m.

The corporation's description of the proposal is as follows:

The Cape Hatteras Electric Membership Corp. proposes to upgrade 15.9 miles of 34.5 kilovolt transmission line to 115 kilovolt transmission line. The proposed facilities include the construction of 2.5 miles of single concrete pole and foundation transmission line towers extending from the existing meter point with Virginia Electric and Power Co. on the north side of Oregon Inlet, across Oregon Inlet and along a path parallel to, and 500 feet west of, the Herbert C. Bonner Bridge.

The proposed facilities also include the upgrading of 13.4 miles of existing transmission line extending from the south side of Oregon Inlet to the Village of Rodanthe by adding new poles adjacent to existing poles and converting the pole top assemblies to enable the transmission of higher voltage.

The Cape Hatteras Electric Membership Corp. also proposes, by 1985, to upgrade the existing 23 miles of 34.5 kilovolt transmission line from Rodanthe to Buxton to 115 kilovolt capacity and, by 1987, to convert the existing take-off and metering structure on Bodie Island (north of Oregon Inlet) and the substations at Rodanthe, Avon and Buxton to 115 kilovolt capacity.

The corporation has asked the National Park Service for a Special Use Permit because some of the proposed upgrading would occur within the boundaries of Cape Hatteras National Seashore. The National Park Service has advised Cape Hatteras Electric Membership Corp. that the Service will not consider the application for a permit until the public has a chance to comment and until the National Park Service has thoroughly reviewed those comments.

Written and oral comment will be solicited at the hearings and, in addition, written comments will be received at the Cape Hatterras Electric Membership Corp. business office for 30 days following the last hearing. Persons wishing to testify at the hearings do not have to contact the hearing officer in advance. Duplicate written comments may be sent to the National Park Service, if this is desired. The address is: Superintendent, Cape Hatteras National Seashore, Manteo, N.C. 27954, telephone 919-473-2111.

Dated: October 17, 1978.

NEAL G. GUSE, Jr.,
Acting Regional Director,
Southeast Region

DEPARTMENT OF LABOR

Office of Pension and Welfare Benefit Programs

DEPARTMENT OF THE TREASURY

Internal Revenue Service

EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

Proposed Exemption for Certain Transactions Involving Pension Trust Fund for Operating Engineers (Local 3) (Application No. D-729)

AGENCIES: Department of Labor, Department of the Treasury/Internal Revenue Service.

ACTION: Notice of proposed exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor and the Internal Revenue Service (the Agencies) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and from certain taxes imposed by the Internal Revenue Code of 1954 (the Code). The proposed exemption would exempt the purchase of lots pursuant to purchase-money financing, and long-term mortgage financing of improved real estate in the Rancho Murieta planned unit development, which transactions between the Pension Trust Fund for Operating Engineers (the Plan) or Rancho Murieta Properties Inc. (RMPI) and other persons otherwise would be prohibited because of provisions of the Act and the Code. The proposed exemption, if granted, would affect participants and beneficiaries of the Plan, RMPI, and any other person participating in the transactions.

DATES: Written comments and requests for a public hearing must be received by the Department of Labor on or before November 27, 1978.

ADDRESS: All written comments and requests for a hearing (at least six copies) should be sent to Office of Regulatory Standards and Exceptions, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20216, Attention: Application No. D-729. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue NW., Washington, D.C. 20216, and at the Internal Revenue Service National Office Reading Room, 1111 Constitution Avenue NW., Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT:

Stephen Elkins of the Department of Labor, 202-523-8196. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Agencies of a proposed exemption from the restrictions of section 406(a)(1) and section 406(b)(2) of the Act and from the taxes imposed by section 4975 (a) and (b) of the Code, by reason of section 4975(c)(1)(A), 4975(c)(1)(B), 4975(c)(1)(C), and 4975(c)(1)(D) of the Code. The proposed exemption was requested in an application filed by the trustees of the Plan, pursuant to section 404(a) of the Act and section 4975(c)(2) of the Code, and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75-26, 1975-1 C.B. 722.

SUMMARY OF FACTS AND REPRESENTATIONS

The Plan is a multiemployer pension benefit plan for members of Local Union No. 3 of the International Union of Operating Engineers (Local 3). The Plan is governed by a board of trustees and Bank of America N.T. & S.A. (B.A.) is corporate cotrustee for the Plan. Among the assets of the Plan is a planned-unit residential housing development known as Rancho Murieta, consisting of 3,500 acres, which is located near Sacramento, Calif. The Rancho Murieta Development comprises 10 percent of the Plan's assets.

RMPI was formed by the Plan for the purpose of developing and marketing the homesites within Rancho Murieta. Accordingly, the Plan transferred $100,000 cash to RMPI and title to approximately 2,200 acres of land in return for 100 percent of RMPI's stock. Sales of lots within Rancho Murieta result in title passing from RMPI to each purchaser. The Plan has retained title to the remaining 1,300 acres in Rancho Murieta, and uses the land for purposes directly related to the planned unit development. The corporate directors of RMPI are the same individuals who serve as trustees for the Plan. Ray D. Henderson & Associates was retained

by RMPI to manage the properties

participants and beneficiaries, and protective of the rights of participants

Signed at Washington, D.C., this 23d day of October, 1978.

in 1976 to $85 million in 1977. U.S. imports increased from $46.6 million in the first 6 months of 1977 to $57.9 mil-

V 43 / 209 / OC 27 78

by RMPI to manage the properties within Rancho Murieta. Henderson has created an affiliate, Murieta Sales Corp., which acts as exclusive broker for sales of lots in Rancho Murieta.

The Plan is involved in two types of loan transactions with respect to homesites sold and marketed within Rancho Murieta. The first type involves purchase money mortgages on unimproved lots; the second type involves mortgage loans to finance the construction of dwelling units on already purchased lots or the purchase of completed dwellings on builder-purchased lots.

Sales of unimproved lots in Rancho Murieta ordinarily are pursuant to purchase money mortgages, executed by the purchaser in favor of RMPI. Subject to a credit review by B.A., the mortgage loans are subsequently purchased by B.A. on behalf of the Plan from RMPI pursuant to a formal agreement to do so. The Bank of California services such purchase money mortgages.

Pursuant to a formal agreement with the Wells Fargo Bank, the Plan is also obligated to purchase certain mortgage loans, secured by improved property within Rancho Murieta. Such loans ordinarily arise as a consequence of the purchaser of an unimproved lot desiring to have a dwelling unit constructed upon his property within Rancho Murieta. Wells Fargo Bank provides construction financing for such dwelling unit, after appraisal of the property as it will be improved and an examination of the credit of the titleholder. The determinations of Wells Fargo Bank are reviewed by El Dorado Savings & Loan Association (El Dorado), an unrelated party, and by C. W. Sweeny & Co. (Sweeny), which is the fund manager for the Plan. Subject to a favorable determination by all parties, B.A. as trustee on behalf of the Plan agrees with Wells Fargo Bank to purchase the mortgage loan which Wells Fargo Bank then originates with respect to the titleholder, disbursing the funds as construction proceeds. The purchase money mortgage securing the unimproved property is retired before the permanent mortgage financing is closed. Wells Fargo Bank services the mortgage loans which are sold to the Plan. First American Title Co. provides escrow and recordation services pursuant to all the transactions.

The Plan also may provide permanent financing pursuant to mortgage loans on improved property within Rancho Murieta purchased from a builder who already has constructed a dwelling unit on a lot. The same appraisals and credit checks are required in such transactions as is the case where the titleholder seeks his own construction financing. Subject to a favorable determination by all the parties of the creditworthiness of the purchaser, B.A. as trustee on behalf of the Plan agrees to purchase the mortgage loan which Wells Fargo Bank originates.

Under the lending criteria established by B. A., RMPI, and Wells Fargo, loans ordinarily are not made for amounts greater than 80 percent of the purchase price with respect to purchase money mortgages on sales of unimproved lots, nor generally for amounts greater than 80 percent of either projected construction costs or appraised fair market value or selling price with respect to mortgage loans secured by improved property. In certain cases, such loans may be made for up to 90 percent of the appraisal value if the borrower obtains and pays the initial premium of a Mortgage Guaranty Insurance policy issued by Mortgage Guaranty Insurance Co., or other similar insurer approved by B. A., on 90 percent of the appraisal value, and if the interest rate payable is at least 8¾ percent annum on such 90 percent loan.

The unimproved lots are put on the market in batches or units. Prior to offering a unit of lots for sale, the floor price of each lot is determined by the RMPI and the Plan trustees on the basis of market considerations. Lots may be sold for more than the floor prices depending on subsequent market demand.

The proposed exemption, if granted, would allow persons who are parties in interest and disqualified persons with respect to the Plan to purchase lots within Rancho Murieta, and to execute purchase money mortgages securing such lots in favor of RMPI, in the same manner as such transactions are carried out with persons who are unrelated to the Plan. Also, the exemption would allow permanent mortgage financing to be carried out with respect to parties in interest and disqualified persons in the same manner as it is done with respect to persons who are unrelated to the Plan. Any such sales and financing would be upon the same terms, for the same price, pursuant to the same conditions, subject to the same determinations, and in all respects, would be no different from the manner in which such transactions are carried out with persons who are unrelated to the Plan.

Applicants asserted that many parties-in-interest and disqualified persons, including contributing employers and union members who for the most part have little or no direct contact with marketing of lots or unit housing construction within rancho Murieta, have expressed interest in purchasing homesites there. Applicants assert that the proposed exemption would be in the interests of the Plan and its participants and beneficiaries because it enlarges the potential group of homesite buyers, thus enabling the Plan sooner to achieve full return on its investments. Applicants assert that the exemption would be protective of participants' and beneficiaries' interests and rights because of the safeguards structured into the loan process arising from specific credit criteria and the several stages of loan application review that are employed. Finally, the exemption would be administratively feasible because the sales and loan mechanisms are already in operation and are structured in such a way as to preclude different treatment of parties in interest to the Plan compared to unrelated purchasers and borrowers.

NOTICE TO INTERESTED PERSONS

Notice of the proposed exemption will be provided to all participating employers and employer associations by mailing such notice to such persons' places of business. Notice to participants and beneficiaries of the Plan will be accomplished by publication in the Engineering News, the official publication of Local 3. Also, the notice of the proposed exemption will be posted on a bulletin board in the Job Placements Center of Local 3 for a period of 30 days following publication in the FEDERAL REGISTER.

GENERAL INFORMATION

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which require, among other things, that a fiduciary discharge his duties respecting the Plan solely in the interests of the participants and beneficiaries of the Plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; not does it affect the requirements of section 401(a) of the Code that the Plan must operate for the exclusive benefit of employees of the employers maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(a)(2), section 406 (b)(1) or (b)(3) of the Act, and section 4975(c)(1) (E) and (F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Agencies must find that the exemption is administratively feasible, in the interests of the Plan and of its participants and beneficiaries, and protective of the rights of participants and beneficiaries of the Plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

WRITTEN COMMENTS AND HEARING REQUESTS

All interested persons are invited to submit written comments or requests for a hearing on the proposed exemption to the address and within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the proposed exemption. Comments received will be available for public inspection with the application for exemption at the addresses set forth above.

PROPOSED EXEMPTION

Based on the facts and representations set forth in the application, the Agencies are considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 and Rev. Proc. 75-26. If the exemption is granted, the restrictions of section 406(a)(1) and section 406(b)(2) of the Act and the taxes imposed by section 4975 (a) and (b) of the Code, by reason of sections 4975(c)(1)(A), 4975(c)(1)(B), 4975(c)(1)(C), and 4975(c)(1)(D) of the code, shall not apply to sales of lots within Rancho Murieta, to purchase-money financing of such lot sales, and to permanent mortgage financing of improved real property within Rancho Murieta, when any such transaction is between the Plan and any person who is a party in interest or disqualified person with respect to the Plan, provided that any such transaction is upon the same terms, for the same price, pursuant to the same conditions, and subject to the same determinations as such transaction would be if it were with a person who was unrelated to the Plan.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations are true and complete, and that the application accurately describes all material terms of the transactions to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 23d day of October, 1978.

IAN D. LANOFF,
Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

DEPARTMENT OF LABOR

Office of the Secretary

[TA-W-3822]

ACME HAMILTON MANUFACTURING CORP., TRENTON, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3822: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on June 12, 1978, in response to a worker petition received on June 5, 1978, which was filed by the United Rubber Workers on behalf of workers and former workers producing conveyor belts, hose and rubber sheeting at Acme Hamilton Manufacturing Corp., Trenton, N.J.

The notice of investigation was published in the FEDERAL REGISTER on June 27, 1978 (43 FR 27925). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Acme Hamilton Manufacturing Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

U.S. imports of rubber and plastic hose and belting increased in value from $61 million in 1975 to $67 million in 1976 to $85 million in 1977. U.S. imports increased from $46.6 million in the first 6 months of 1977 to $57.9 million in the first 6 months of 1978. The ratio of U.S. imports of domestic production decreased from 5 percent in 1975 to 4.9 percent in 1976, then increased to 5.8 percent in 1977. The ratio of U.S. imports to domestic production increased from 6.3 percent in the first 6 months of 1977 to 7.1 percent in the first 6 months of 1978.

Customers surveyed who account for a significant proportion of Acme-Hamilton's sales of rubber products including hose and belts indicated that most do not import rubber products. Customers who decreased purchases from Acme Hamilton and increased import purchases in 1977 accounted for a very small percentage of Acme Hamilton's total sales decrease in 1977.

CONCLUSION

After careful review, I determine that all employees of the Acme Hamilton Manufacturing Corp., Trenton, N.J., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 19th day of October 1978.

HARRY J. GILMAN,
Acting Director, Office of Foreign Economic Research.

[TA-W-3611]

ALPO COAT, INC., HOBOKEN, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3611: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 8, 1978, in response to a worker petition received on April 28, 1978, which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' overcoats and some raincoats at Alpo Coat, Inc., Hoboken, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Alpo Coat, Inc., its customers (manufacturers), customers of the manufacturers, the

U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales or production.

The Department conducted a survey of the manufacturers for which Alpo Coat, Inc., worked in 1976 and 1977. None of the manufacturers surveyed purchased imported ladies' coats or raincoats or used foreign contractors. One manufacturer who reduced purchases form Alpo Coat experienced a decline in sales of ladies' coats and raincoats. This manufacturer, however, represented a negligible portion of Alpo Coat's sales in 1977 and in 1978.

CONCLUSION

After careful review, I determine that all workers of Alpo Coat, Inc., Hoboken, N.J., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 23d day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3581]

ALPS COAT, INC., PATERSON, N.J.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3581: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 8, 1978, in response to a worker petition received on April 28, 1978, which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' coats at Alps Coat, Inc., Paterson, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Alps Coat, Inc., its customers (manufacturers), customers of the manufacturers, the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

U.S. imports of women's, misses', and children's coats and jackets increased from 2,252 thousand dozen in 1976 to 2,723 thousand dozen in 1977. Imports declined from 590 thousand dozen in the first quarter of 1977 to 572 thousand dozen in the first quarter of 1978. The ratio of imports to domestic production increased from 48.3 percent in 1976 to 54.9 percent in 1977.

Alps Coat, Inc., produced ladies' coats for only one manufacturer. This manufacturer did not purchase imported ladies' coats during the period under consideration. Purchases from Alps Coat were reduced as the manufacturer's sales of ladies' coats declined. Customers of the manufacturer were surveyed regarding their purchases of ladies' coats. Customers representing a significant portion of the manufacturer's sales in 1976 and 1977 decreased purchases from the manufacturer and increased purchases of imported ladies' coats in 1977 compared to 1976.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with the ladies' coats produced at Alps Coat, Inc., Paterson, N.J., contributed importantly to the decline in sales and to the separation of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers of Alps Coat, Inc., Paterson, N.J., who become totally or partially separated from employment on or after April 25, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 17th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[4510-28-M]

[TA-W-4002]

AMF INC., HOFRAN DIVISION, TAMPA, FLA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4002: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on July 31, 1978 in response to a worker petition received on July 27, 1978 which was filed by the Retail, Wholesale, and Department Store Union on behalf of workers and former workers producing leather covered and rubber covered baseballs and softballs at the Hofran Division of AMF Inc., Tampa, Fla. The investigation revealed that the Hofran Division was also engaged in the production of synthetic covered baseballs and softballs.

The notice of investigation was published in the FEDERAL REGISTER on August 8, 1978 (43 FR 35130-35131). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the Hofran Division of AMF Inc., its customers, other manufacturers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

United States imports of baseballs and softballs increased from 22,071 thousand units in 1975, to 27,714 thousand units in 1976, and to 30,336 thousand units in 1977

Imports relative to production increased from 439.1 percent in 1975, to 468.2 percent in 1976, and 703.0 percent in 1977.

Layoffs of workers from the Hofran Division were due in part to lost sales resulting from increased import competition, and in part from an increase in the value of work performed by Hofran's offshore contractors relative to Hofran's sales increased in the first three quarters of 1978 compared to the same period in 1977. Furthermore,

in August 1978 the firm began importing finished balls from Haiti.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with leather covered, rubber covered, and synthetic covered baseballs and softballs produced at the Hofran Division of AMF Inc., Tampa, Fla., contributed importantly to the decline in sales of production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of the Hofran Division of AMF Inc., Tampa, Fla., who became totally or partially separated from employment on or after July 20, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3812]

ARTHUR WINER, INC., GARY, IND., AND PETERSBURG, VA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3812: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on June 5, 1978 in response to a worker petition received on May 25, 1978 which was filed by the Amalgamated Clothing and Textile Workers Union on behalf of workers and former workers producing men's dress slacks at Arthur Winer, Inc., Gary, Ind. The investigation was expanded to include the Petersburg, Va. plant of Arthur Winer, Inc.

The Notice of investigation was published in the FEDERAL REGISTER on June 20, 1978 (43 FR 26498-26499). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Arthur Winer, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all the requirements have been met.

U.S. imports of men's and boys' dress and sport trousers and shorts increased absolutely in 1976 from 1975, in 1977 from 1976, and increased in the first quarter of 1978 compared to the first quarter of 1977. The ratio of imports to domestic production was 40.9 percent in 1976 and 38.0 percent in 1977.

A survey of the customers of Arthur Winer indicated that customers of Arthur Winer, Inc. increased purchases of imports and decreased purchases from the subject firm in 1977 compared to 1976.

On March 26, 1976 the Department issued a certification of eligibility to apply for adjustment assistance applicable to all workers of Arthur Winer, Inc., Gary, Ind. (TA-W-735). That certification remained in effect until March 26, 1978—2 years from its date of issuance.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's dress slacks produced at Arthur Winer, Inc., Gary, Ind. and Petersburg, Va. contributed importantly to the decline in sales or production and to the total or partial separations of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Arthur Winer, Inc., Gary, Ind. who became totally or partially separated from employment on or after March 26, 1978, and all workers of Arthur Winer, Inc., Petersburg, Va., who became totally or partially separated from employment on or after May 18, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of October 1978.

HARRY J. GILMAN,
Acting Director, Office of Foreign Economic Research.

[TA-W-3743]

BIG YANK CORP., TYRONE, PA.

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3743: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 23, 1978 in response to a worker petition received on May 15, 1978 which was filed by the Amalgamated Clothing and Textile Workers Union on behalf of workers and former workers producing men's work pants and shirts at the Tyrone, Pa. plant of Big Yank Corp.

The notice of investigation was published in the FEDERAL REGISTER on June 6, 1978 (43 FR 24633-4). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Big Yank Corp., its customers, the National Cotton Council of America, the American Textile Manufacturers' Institute, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. With respect to workers producing work shirts, without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

A survey of some customers of Big Yank Corp. was conducted by the Department. The survey indicated that customers who had reduced purchases of work shirts from Big Yank did not increase purchases of imported work shirts in the period 1976 through March 1978.

With respect to workers producing work pants, all of the group eligibility requirements of section 222 of the Act have been met.

U.S. imports of men's and boys' woven cotton and man-made fiber work trousers and one-piece suits increased from 9.2 million units in 1976 to 50.6 million units in 1977, and increased from 23.4 million units in the first quarter of 1977 to 28.9 million units in the first quarter of 1978. The ratio of imports to domestic production inceased from 2.9 percent in 1976 to 15.4 percent in 1977.

The Department's survey of Big Yank Corp.'s coustomers indicated that some customers had reduced purchases of imported work pants from Big Yank and increased purchases of imported work pants in 1977 compared to 1976.

CONCLUSIONS

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with work pants produced at the Tyrone, Pa. plant of Big Yank Corp. contributed importantly to the decline in sales or production and to the total or partial separations of workers at that plant. In accordance with the provisons of the act, I make the following certification:

All workers engaged in employment related to the production of work pants at the Tyrone, Pa. plant of Big Yank Corp. who became totally or partially separated from employment on or after May 11, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

I further determine that all workers engaged in employment related to the production of work shirts at the Tyrone, Pa. plant of Big Yank Corp. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of October 1978.

[TA-W-3662]

C & M COAT CO., INC., UNION CITY, N.J.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3662: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 8, 1978 in response to a worker petition received on April 28, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' coats at C & M Coat Co., Inc., Union City, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of C & M Coat Co., Inc., its customers (manufacturers), the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

U.S. imports of women's, misses', and children's coats and jackets increased from 2252 thousand dozen in 1976 to 2723 thousand dozen in 1977. Imports declined from 590 thousand dozen in the first quarter of 1977 to 572 thousand dozen in the first quarter of 1978. The ratio of imports to domestic production increased from 48.3 percent in 1976 to 54.9 percent in 1977.

The Department conducted a survey of the principal manufacturers for which C & M Coat Co., Inc., worked in 1976 and 1977. Manufacturers that accounted for a majority of sales in 1976 reduced purchases of ladies' coats from C & M Coat Co., Inc., and increased purchases of imported ladies' coats in 1977 compared to 1976. Manufacturers that accounted for a majority of sales in the first quarter of 1977 reduced purchases of ladies' coats from C & M Coat Co., Inc. and increased purchases of imported ladies' coats in the first quarter of 1978 compared to the first quarter of 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with the ladies' coats produced at C & M Coat Co., Inc., Union City, N.J. contributed importantly to the decline in sales and to the separation of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers of C & M Coat Co., Union City, N.J. who became totally or partially separated from employment on or after April 25, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 20th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[4510-28-M]

[TA-W-3292]

CAMBRIDGE TAILORING CO., BALTIMORE, MD.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3292: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on March 2, 1978 in response to a worker petition received on February 21, 1978 which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing men's tailored clothing at the Cambridge Tailoring Co., Baltimore, Md.

The Notice of Investigation was published in the FEDERAL REGISTER on March 17, 1978 (43 FR 11276). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Cambridge Tailoring Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The Cambridge Tailoring Co. is a manufacturer of men's custom-tailored suits. The suits are produced by Cambridge Tailoring for its customers which are retail custom tailor shops. A survey of these tailor shops revealed that virtually all sold only custom-made suits and did not fit customers for imported suits during the period 1975 through 1977.

CONCLUSION

After careful review I determine that all workers at the Cambridge Tailoring Co., Baltimore, Md. are denied eligibility to apply for trade adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of October 1978.

[4510-28-M]

[TA-W-4004]

CLEANERS HANGER CO., PUEBLO, COLO.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4004: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on July 31, 1978 in response to a worker petition received on July 27, 1978 which was filed by the United Steelworkers of America on behalf of workers and former workers producing steel wire and rod products at Cleaner & Hanger Co., Brenham, Tex. The investigation revealed that the correct name of the firm is Cleaners Hanger Co., and that the petition in fact applied to former workers producing wire coat hangers at the Pueblo, Colo. plant of Cleaners Hanger Co.

The Notice of Investigation was published in the FEDERAL REGISTER on August 8, 1978 (43 FR 35130-35131). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Cleaners Hanger Co., industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The closure of the Pueblo, Colo. plant of Cleaners Hanger Co. resulted from a decision by firm officials to transfer production to a newly-established company plant in Brenham, Tex., which is closer to the firm's market as well as its suppliers. Total sales by Cleaners Hanger Co., including sales of hangers produced at all seven of the firm's plants, increased in quantity and value in 1977 compared to 1976 and in the first 8 months of 1978 compared to the same period in 1977. Company sales continued to increase following the closure of the Pueblo plant in May 1978.

CONCLUSION

After careful review, I determine that all workers of the Pueblo, Colo. plant of Cleaners Hanger Co. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 19th day of October 1978.

[TA-W-3294]

COOPER-WISS (FORMERLY J. WISS & SONS CO.), MAPLEWOOD DIVISION, MAPLEWOOD, N.J.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3294: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on March 2, 1978 in response to a worker petition received on February 24, 1978 which was filed by Local 262 of the AFL-CIO on behalf of workers and former workers producing scissors, knives, metal masters, snips, shears, pinking shears, and garden tools at the Newark Division and Maplewood Division of Cooper-Wiss (formerly J. Wiss & Sons Co). This investigation was concerned with the Maplewood Division, Maplewood, N.J. A separate investigation was instituted to cover the Newark Division (see TA-W-3293).

The Notice of Investigation was published in the FEDERAL REGISTER on March 17, 1978 (43 FR 11276). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Copper-Wiss, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

United States imports of pocket knives increased from 8.5 million units in 1976 to 9.7 million units in 1977, and increased from 3.5 million units during the first 3 months of 1978 compared with 2.0 million units for the same period in 1977. The imports to domestic production ratio for pocket knives increased from 46.2 percent in 1976 to 50.1 percent in 1977.

Imports of pocket knives by Cooper-Wiss increased from 1976 to 1977, and again increased during the first 6 months of 1978 compared to the same period in 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with pocket knives produced at the Maplewood Division of Cooper-Wiss (formerly J. Wiss & Sons), Maplewood, N.J., contributed importantly to the decline in sales or production and to the total or partial separation of workers of that plant. In accordance with the provisions of the act, I make the following certification:

All workers of the Maplewood Division of Cooper-Wiss (formerly J. Wiss & Sons Co.), Maplewood, N.J. who became totally or partially separated from employment on or after December 10, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 20th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3293]

COOPER-WISS (FORMERLY J. WISS & SONS CO.), NEWARK DIVISION, NEWARK, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3293: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on March 2, 1978 in response to a worker petition received on February 24, 1978 which was filed by Local 262 of the AFL-CIO on behalf of workers and former workers producing scissors, knives, metal masters, snips, shears, pinking shears and garden tools at the Newark Division and Maplewood Division of Cooper-Wiss (formerly J. Wiss & Sons Co.), N.J. This investigation was concerned with the Newark Division, Newark, N.J. A separate investigation was instituted to cover the Maplewood Division (see TA-W-3294).

The Notice of Investigation was published in the FEDERAL REGISTER on March 17, 1978 (43 FR 11276). No public hearing was requested and none was held.

The information upon which the determination was made was obtained

principally from officials of Cooper-

sistance as prescribed in section 222

Stanley Blacker, Inc. The results of this survey indicated only relatively

requirements of section 222 of the Act must be met. Without regard to

March 14, 1978 (43 FR 10650). No public hearing was requested and none

and Atomic Workers Union on behalf of workers and former workers pro-

ducing anhydrous ammonia at the

V 4 3 / 2 0 9 0 C 2 7 7 8

principally from officials of Cooper-Wiss, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated.

Employment of production workers increased in 1977 compared to 1976 and remained constant in 1978 compared to 1977. Average quarterly employment increased in every quarter compared to the same quarter of the previous year beginning with all of 1977 through the first quarter of 1978. Average weekly hours followed a trend similar to employment. There have been no significant partial separations of workers in 1977 and 1978.

Cooper-Wiss announced that during the second quarter of 1978, shutdown and relocation procedures would begin at the Newark Division of Cooper-Wiss, Newark, N.J. to a company plant in Georgia.

CONCLUSIONS

After careful review I determine that all workers of the Newark Division of Cooper-Wiss (formerly J. Wiss & Sons Co.), Newark, N. J. are denied eligibility to apply for trade adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed in Washington, D.C. this 20th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3352, 3355, and 3356]

COORDINATED TROUSERS, INC. (TA-W-3352), PATGAT CLOTHES, INC. (TA-W-3355), STANLEY BLACKER, INC. (TA-W-3356), PHILADELPHIA, PA.

Negative Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3352, 3355, and 3356: Investigations regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigations were intitiated on March 15, 1978 in response to a worker petition received on February 21, 1978, which was filed by the Amalgamated Clothing and Textile Workers Union on behalf of workers and former workers producing tailored clothing at Stanley Blacker, Inc. (TA-W-3356); Patgat Clothes, Inc. (TA-W-3355); and Coordinated Trousers, Inc. (TA-W-3352). All three firms are or were located at the same address in Philadelphia.

Workers at these firms were certified eligible to apply for trade adjustment assistance on January 27, 1976 as a result of an earlier petition and subsequent investigation (TA-W-248). That certification expired on January 27, 1978.

The Notice of Investigations was published in the FEDERAL REGISTER on April 7, 1978 (43 FR 14774 and 14775). No public hearing was requested and none was held.

The information upon which the determinations were made was obtained principally from officials of Stanley Blacker, Inc., its customers, Patgat Clothes, Inc. and Coordinated Trousers, Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make and affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any other criteria have been met, the following criterion has not been met

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Stanley Blacker, Inc. is a manufacturer producing various men's and women's fine clothing. Patgat Clothes, Inc. and Coordinated Trousers, Inc. were exclusive contractors for Stanley Blacker, Inc. and all have the same ownership.

Evidence developed during the course of the investigation revealed that imports of men's and boys' tailored suits decreased to 1,913,000 units in the first 6 months of 1978 compared to 2,400,000 in the first 6 months of 1977. Imports of men's and boys' tailored dress coats and sportcoats decreased to 3,237,000 units in the first 6 months of 1978 compared to 3,537,000 units in the first 6 months of 1977. These items make up the majority of production at the subject firms.

In addition, the Department conducted a survey of some customers of Stanley Blacker, Inc. The results of this survey indicated only relatively minor influence of imports of men's and boys' tailored clothing. Only two customers had increased purchases of imports during the same period they were decreasing purchases from Stanley Blacker. These two customers accounted for a small percentage of Stanley Blacker's sales. The majority of firms indicated that imported products had not affected their purchases from domestic producers.

CONCLUSION

After careful review I determine that all workers of the Philadelphia, Pa. plants of Stanley Blacker, Inc.; Patgat Clothes, Inc.; and Coordinated Trousers, Inc. are denied eligibility to apply for trade adjustment assistance under title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 19th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3172]

DIRZIS PRODUCTS CO., INC., RICHMOND HILLS, N.Y.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3172: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on February 21, 1978 in response to a worker petition received on February 6, 1978 which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing men's and boys' tailored clothing at Dirzis Products Co., Inc., Richmond Hill, N.Y. During the course of the investigation, it was established that the company also produces ladies' vests and blazers.

The Notice of Investigation was published in the FEDERAL REGISTER on March 3, 1978 (43 FR 8864). No public hearing was requested and none was held.

The information upon which the determination was made was obtained upon information obtained principally from officials of Dirzis Products Co., Inc. and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That a significant number or proportion of the workers in the workers' firm, or appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

On April 19, 1976, the employees of Dirzis Products Company, Inc. were certified as eligible to apply for trade adjustment assistance (TA-W-621). This certification expired on April 19, 1978. Employment of workers at Dirzis Products Co., Inc. increased since the expiration of the original certification. The average number of workers and average weekly hours worked in the second and third quarters of 1978 increased when compared with the same quarters of 1977. There is no immediate threat of total or partial separation to the workers of Dirzis Products.

CONCLUSION

After careful review, I determine that all workers at Dirzis Products Co., Inc., Richmond Hill, N.Y. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of October 1978.

[TA-W-3229]

DOVER CONVEYOR & EQUIPMENT CO., INC., MIDVALE, OHIO, GNADENHUTTEN, OHIO

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA—W—3229: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on February 23, 1978 in response to a worker petition received on February 7, 1978 which was filed on behalf of workers and former workers producing mine conveyors and other types of equipment at the Midvale, Ohio plant of Dover Conveyor & Equipment Co., Inc. The investigation revealed that the plant primarily produces mine conveyors, mine hoists and parts for them and that it also owns and operates a plant at Gnadenhutten, Ohio.

The Notice of Investigation was published in the FEDERAL REGISTER on March 14, 1978 (43 FR 10650). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Dover Conveyor & Equipment Co., Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirments of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales of production.

Industry sources indicate that U.S. imports of mine conveyors and mine hoists are negligible.

The Department surveyed some of the customers of Dover Conveyor & Equipment Co. the survey indicated that none of the customers purchased imported mine conveyors, mine hoists or bucket elevators. Customers also indicated that they were unaware of any import influence in this market.

CONCLUSION

After careful review, I determine that all workers at the Midvale and Gnadenhutten, Ohio plants of Dover Conveyor & Equipment Co., Inc. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 20th day of October 1978.

[TA-W-4026]

FARMLAND INDUSTRIES, INC., FORT DODGE, IOWA

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4026: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on August 2, 1978 in response to a worker petition received on July 28, 1978 which was filed by the Oil Chemical and Atomic Workers Union on behalf of workers and former workers producing anhydrous ammonia at the Fort Dodge, Iowa plant of Farmland Industries, Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on August 11, 1978 (43 FR 35759). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Farmland Industries, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of anhydrous ammonia increased from 730,000 tons in 1976 to 1,078,000 tons in 1977. Imports decreased to 590,000 tons in the first 6 months of 1978 compared to 614,000 tons for the same 1977 period. The ratio of imports to domestic production increased from 4.3 percent in 1976 to 6.2 percent in 1977 and decreased to 6.9 percent in the first six months of 1978 compared to 7.2 percent for the same 1977 period.

The Department conducted a survey of some of the customers purchasing anhydrous ammonia from the Fort Dodge, Iowa plant of Farmland Industries, Inc. accounting for a substantial portion of sales in 1977. Most respondents indicated that they did not purchase imported anhydrous ammonia in 1977 or in the first half of 1978.

CONCLUSION

After careful review, I determine that all workers of the Fort Dodge, Iowa plant of Farmland Industries, Inc. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of October 1978.

[TA-W-2933]

INTERLAKE, INC., RIVERDALE, ILL.

Negative Determination Regading Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2933: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on January 17, 1978 in response to a worker petition received on December 19, 1977 which was filed by the United Steelworkers of American on Behalf of workers and former workers producing flat rolled products, packaging materials and all other steel products at the Riverdale, Ill. plant of Interlake, Inc. The investigation revealed that the plant produces hot and cold rolled steel sheet and strip, and packaging material which consists primarily of metallic strapping.

The Notice of Investigation was published in the FEDERAL REGISTER on February 3, 1978 (43 FR 4696). No public hearing was requested and none was held.

On October 21, 1977, the Department denied the workers of the Riverdale, Ill. plant of Interlake, Inc. eligibility to apply for adjustment assistance (TA-W-1475).

The determination was based upon information obtained principally from officials of Interlake, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility of apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

The Department's investigation revealed that the average number of production workers employed at the Riverdale, Ill. plant of Interlake, Inc. increased in 1977 compared to 1976, and increased in the first 8 months of 1978 compared to the same period of 1978. Average weekly hours worked per employee did not change significantly during this period. There is no immediate threat of separation to workers at the Riverdale plant.

CONCLUSION

After careful review, I determine that all workers of the Riverdale, Ill, plant of Interlake, Inc. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of October 1978.

[TA-W-3640]

MARIE COATS AND SUITS, INC., PASSAIC, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3640: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 8, 1978 in response to a worker petition received on April 28, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former worker producing ladies' coats and suits at Marie Coats and Suits, Inc., Passaic, N.J. During the course of the investigation it was revealed that workers at Marie Coats produce women's coats and blazers.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Marie Coats and Suits, Inc., its customers (manufacturers), the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. The Department's investigation revealed that all of the requirements have been met.

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales or production.

The Department surveyed the manufacturers for which Marie Coats worked in 1976, 1977 and the first 5 months of 1978. None of these manufacturers reduced purchases from the subject firm and increased purchases of imported women's coats and blazers during the period under investigation. These manufacturers increased sales during this period.

CONCLUSION

After careful review, I determine that all workers of the Passaic, N.J. plant of Marie Coats and Suits, Inc. be denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 19th day of October 1978.

[TA-W-2927]

NELLY DON, INC., NEVADA, MO.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2927: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on January 12, 1978 in response to a worker petition received on December 29, 1977, which was filed on behalf of workers and former workers producing ladies' dresses and sportswear at Nelly Don, Inc., Nevada, Mo.

The Notice of Investigation was published in the FEDERAL REGISTER on February 3, 1978 (43 FR 4695). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Nelly Don, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of women's, misses' and children's skirts decreased from 791 thousand dozen in 1976 to 654 thousand dozen in 1977. During the first quarter of 1978 imports increased to 296 thousand dozen from 103 thousand dozen in the same quarter of 1977. The ratio of imports to domestic production decreased from 14.2 percent in 1976 to 10.5 percent in 1977.

U.S. imports of women's, misses' and children's coats and jackets increased from 2,252 thousand dozen in 1976 to 2,723 thousand dozen in 1977. During the first quarter of 1978 imports decreased 3.0 percent compared to the same quarter of 1977. The ratio of imports to domestic production increased from 48.3 percent in 1976 to 54.9 percent in 1977.

U.S. imports of women's, misses' and children's slacks and shorts increased from 11,040 thousand dozen in 1976 to 11,622 thousand dozen in 1977. During the first quarter of 1978 imports increased to 4,545 thousand dozen compared to 3,374 thousand dozen for the same quarter of 1977. The ratio of imports to domestic production increased from 36.8 percent in 1976 to 38.0 percent in 1977.

U.S. imports of women's, misses' and children's blouses and shirts increased from 30,273 thousand dozen in 1976 to 30,849 thousand dozen in 1977. During the first quarter of 1978 imports increased to 10,186 thousand dozen from 8,280 thousand dozen the same quarter of 1977. The ratio of imports to domestic production decreased from 70.3 percent in 1976 to 69.7 percent in 1977.

U.S. imports of women's, misses' and children's dresses decreased from 1,614 thousand dozen in 1976 to 1,420 thousand dozen in 1977. During the first quarter of 1978 imports increased to 403 thousand dozen from 371 thousand dozen the same quarter of 1977. The ratio of imports to domestic production decreased from 8.0 percent in 1976 and to 6.7 percent in 1977.

A survey of Nelly Don's customers in 1976 and 1977 revealed that most customers did not purchase imported women's skirts, jackets, slacks, blouses or dresses.

CONCLUSION

After careful review, I determine that all workers of Nelly Don, Inc., Nevada, Mo., be denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 20th day of October 1978.

[TA-W-3625]

RAIN ROSE, INC., HOBOKEN, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3625: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 8, 1978 in response to a worker petition received on April 28, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' raincoats at Rain Rose, Inc., Hoboken, N.J. The investigation revealed that Rain Rose also produced ladies' winter coats.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Rain Rose, Incorporated, its customers (manufacturers), industry analysts, Department files, the U.S. International Trade Commission, and the U.S. Department of Commerce.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales or production.

The Department conducted a survey of the one manufacturer for whom Rain Rose, Inc. worked in 1976 and 1977. That manufacturer did not purchase imports of ladies' coats or rainwear or use foreign contractors during this period. Sales of the manufacturer increased from 1976 to 1977.

CONCLUSION

After careful review, I determine that all workers of Rain Rose, Inc., Hoboken, N.J. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of October 1978.

[TA-W-3570]

RAYMOND INTERNATIONAL, INC., METAL PRODUCTS FACILITY, BALTIMORE, MD.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3570: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 3, 1978 in response to a worker petition received on April 19, 1978 which was filed by the United Steelworkers of America on behalf of workers and former workers producing steel construction pilings at the Metal Products Facility, Raymond International, Inc., Baltimore, Md.

The Notice of Investigation was published in the FEDERAL REGISTER on May 16, 1978 (43 FR 21068-21069). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Raymond International, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

A survey of major bids lost by Raymond International on steel piling projects revealed no projects in which imported pilings were used in favor of pilings produced by the Metal Products Facility of Raymond International.

CONCLUSION

After careful review, I determine that all workers of the Riverdale, Ill. plant of Interlake, Inc. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of October 1978.

HARRY J. GILMAN,
Acting Director, Office of Foreign Economic Research.

[TA-W-3640]

MARIE COATS AND SUITS, INC., PASSAIC, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3640: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 8, 1978 in response to a worker petition received on April 28, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former worker producing ladies' coats and suits at Marie Coats and Suits, Inc., Passaic, N.J. During the course of the investigation it was revealed that workers at Marie Coats produce women's coats and blazers.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Marie Coats and Suits, Inc., its customers (manufacturers), the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. The Department's investigation revealed that all of the requirements have been met.

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales or production.

The Department surveyed the manufacturers for which Marie Coats worked in 1976, 1977 and the first 5 months of 1978. None of these manufacturers reduced purchases from the subject firm and increased purchases of imported women's coats and blazers during the period under investigation. These manufacturers increased sales during this period.

CONCLUSION

After careful review, I determine that all workers of the Passaic, N.J. plant of Marie Coats and Suits, Inc. be denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 19th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-2927]

NELLY DON, INC., NEVADA, MO.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2927: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on January 12, 1978 in response to a worker petition received on December 29, 1977, which was filed on behalf of workers and former workers producing ladies' dresses and sportswear at Nelly Don, Inc., Nevada, Mo.

The Notice of Investigation was published in the FEDERAL REGISTER on February 3, 1978 (43 FR 4695). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Nelly Don, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of women's, misses' and children's skirts decreased from 791 thousand dozen in 1976 to 654 thousand dozen in 1977. During the first quarter of 1978 imports increased to 296 thousand dozen from 103 thousand dozen in the same quarter of 1977. The ratio of imports to domestic production decreased from 14.2 percent in 1976 to 10.5 percent in 1977.

U.S. imports of women's, misses' and children's coats and jackets increased from 2,252 thousand dozen in 1976 to 2,723 thousand dozen in 1977. During the first quarter of 1978 imports decreased 3.0 percent compared to the same quarter of 1977. The ratio of imports to domestic production increased from 48.3 percent in 1976 to 54.9 percent in 1977.

U.S. imports of women's, misses' and children's slacks and shorts increased from 11,040 thousand dozen in 1976 to 11,622 thousand dozen in 1977. During the first quarter of 1978 imports increased to 4,545 thousand dozen compared to 3,374 thousand dozen for the same quarter of 1977. The ratio of imports to domestic production increased from 36.8 percent in 1976 to 38.0 percent in 1977.

U.S. imports of women's, misses' and children's blouses and shirts increased from 30,273 thousand dozen in 1976 to 30,849 thousand dozen in 1977. During the first quarter of 1978 imports increased to 10,186 thousand dozen from 8,280 thousand dozen the same quarter of 1977. The ratio of imports to domestic production decreased from 70.3 percent in 1976 to 69.7 percent in 1977.

U.S. imports of women's, misses' and children's dresses decreased from 1,614 thousand dozen in 1976 to 1,420 thousand dozen in 1977. During the first quarter of 1978 imports increased to 403 thousand dozen from 371 thousand dozen the same quarter of 1977. The ratio of imports to domestic production decreased from 8.0 percent in 1976 and to 6.7 percent in 1977.

A survey of Nelly Don's customers in 1976 and 1977 revealed that most customers did not purchase imported women's skirts, jackets, slacks, blouses or dresses.

CONCLUSION

After careful review, I determine that all workers of Nelly Don, Inc., Nevada, Mo., be denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 20th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3625]

RAIN ROSE, INC., HOBOKEN, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3625: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 8, 1978 in response to a worker petition received on April 28, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' raincoats at Rain Rose, Inc., Hoboken, N.J. The investigation revealed that Rain Rose also produced ladies' winter coats.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Rain Rose, Incorporated, its customers (manufacturers), industry analysts, Department files, the U.S. International Trade Commission, and the U.S. Department of Commerce.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales or production.

The Department conducted a survey of the one manufacturer for whom Rain Rose, Inc. worked in 1976 and 1977. That manufacturer did not purchase imports of ladies' coats or rainwear or use foreign contractors during this period. Sales of the manufacturer increased from 1976 to 1977.

CONCLUSION

After careful review, I determine that all workers of Rain Rose, Inc., Hoboken, N.J. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of October 1978.

RAYMOND INTERNATIONAL, INC., METAL PRODUCTS FACILITY, BALTIMORE, MD.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3570: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 3, 1978 in response to a worker petition received on April 19, 1978 which was filed by the United Steelworkers of America on behalf of workers and former workers producing steel construction pilings at the Metal Products Facility, Raymond International, Inc., Baltimore, Md.

The Notice of Investigation was published in the FEDERAL REGISTER on May 16, 1978 (43 FR 21068-21069). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Raymond International, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

A survey of major bids lost by Raymond International on steel piling projects revealed no projects in which imported pilings were used in favor of pilings produced by the Metal Products Facility of Raymond International.

V 43/209 OCT 27 78

CONCLUSION

After careful review, I determine that workers of Metal Products Facility, Raymond International, Inc., Baltimore, Md. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

[TA-W-3795]

SHUTZER INDUSTRIES INC., LAWRENCE, MASS.

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3795: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 31, 1978 in response to a worker petition received on May 15, 1978 which was filed on behalf of workers and former workers engaged in employment related to the production of leather coats at the Lawrence, Mass. plant of Shutzer Industries, Inc. During the course of the investigation, it was established that the petition was filed on behalf of those workers at the Lawrence, Mass plant of Shutzer Industries, Inc. who are engaged in employment related solely to the production of leather coats by Shutzer Manufacturing Co., Inc.

The notice of investigation was published in the FEDERAL REGISTER on June 20, 1978 (43 FR 26497). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Shutzer Industries, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. With respect to workers engaged in employment related to the production of outerwear and sportswear (excluding leather coats), without regard to whether any of the other criteria have been met, the following criterion has not been met:

That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

Evidence developed during the course of the investigation revealed that employment at Shutzer Industries Inc. increased 6 percent in 1977 compared to 1976 and increased 9.6 percent during the first half of 1978 compared to the first half of 1977. Weekly hours worked remained relatively stable. There is no immediate threat of separations to workers of Shutzer Industries.

With respect to workers engaged in employment related to the production of leather coats, all of the group eligibility requirements of section 222 of the act have been met.

U.S. Imports of leather coats and jackets increased from $177.8 million in 1976 to $186.4 million in 1977. Imports for the first quarter of 1978 were $37.2 million but a change in the recording method prevents a meaningful year-to-prior-year comparison. The ratio of imports to domestic production decreased from 96.3 percent in 1976 to 85.3 percent in 1977.

The petition was filed on behalf of workers who were salaried supervisors of Shutzer Manufacturing Co., Inc. but who were paid by Shutzer Industries Inc. Shutzer Manufacturing Co., Inc. produces leather coats and is an independent affiliate of Shutzer Industries Inc. In a determination (TA-W-2278) issued on February 21, 1978, workers producing leather coats at Shutzer Manufacturing Co., Inc. of Lawrence, Mass. were certified eligible to apply for adjustment assistance benefits. Salaried workers of Shutzer Industries Inc. who were engaged in employment related to the production of leather coats at Shutzer Manufacturing Co., Inc. were laid off but did not receive benefits under the certification in TA-W-2278.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with leather coats produced at the Shutzer Manufacturing Co., Lawrence, Mass. affiliate plant of Shutzer Industries Inc. contributed importantly to the decline in production and to the total or partial separations of workers of that plant. In accordance with the provisions of the act, I make the following certification:

All workers engaged in employment related to the production of leather coats at the Shutzer Manufacturing Lawrence, Mass affiliate plant of Shutzer Industries Inc. who became totally or partially separated from employment on or after May 12, 1977 are eligible to apply for adjustment assistance under title II, Chapter 2 of the Trade Act of 1974.

I further determine that workers at Shutzer Industries Inc. engaged in employment not related to the production of leather outerwear and sportswear are denied eligibility to apply for adjustment assistance.

Signed at Washington, D.C., this 19th day of October, 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3868]

SPN SPORTSWEAR CO., INC., MOUNT PLEASANT, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3868: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on June 19, 1978 in response to a worker petition received on June 15, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing women's sportswear and dresses at SPN Sportswear Co., Inc., Mount Pleasant, Pa. The investigation revealed that the plant primarily produces women's sportswear and dresses.

The Notice of Investigation was published in the FEDERAL REGISTER on June 30, 1978 (43 FR 28581). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of SPN Sportswear Co., Inc., its manufacturers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

The Department's investigation revealed that the average number of production workers increased from 1976 to 1977 and increased in the first half of 1978 compared to the same period of 1977. Employment increased every quarter from the second quarter of 1977 to the second quarter of 1978 compared to the same quarter of the previous year. There were no significant partial separations in 1977. Average hours per worker increased in the first half of 1978 compared to the same period of 1977. There is no immediate threat of separation to workers of SPN Sportswear Co.

CONCLUSION

After careful review, I determine that all workers of SPN Sportswear Co., Inc., Mount Pleasant, Pa., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed in Washington, D.C. this 19th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3877]

STAR SPORTSWEAR MANUFACTURING CORP., LYNN, MASS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3877: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on June 20, 1978, in response to a worker petition received on June 19,. 1978, which was filed on behalf of workers and former workers producing men's leather outerwear at Star Sportswear Manufacturing Corp., Lynn, Mass.

The Notice of Investigation was published in the FEDERAL REGISTER on June 30, 1978 (43 FR 28580). No public hearing was requested and none was held.

On July 21, 1976, the Department certified the workers of Star Sportswear Manufacturing Corp., Lynn, Mass., eligible to apply for adjustment assistance (TA-W-694). The certification expired on July 21, 1978.

The information upon which the determination was made was obtained principally from officials of Star Sportswear Manufacturing Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That sales or production, or both, of such firm or subdivision have decreased absolutely.

The Department's investigation revealed that both sales and production of leather coats increased in terms of quantity and value in the first 8 months of 1978 compared to the same period of 1977.

CONCLUSION

After careful review, I determine that all workers of Star Sportswear Manufacturing Corp., Lynn, Mass., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 19th day of October, 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3645]

VAL JON CORP., PASSAIC, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3645: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 8, 1978, in response to a worker petition received on April 28, 1978, which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' winter coats at the Val Jon Corp., Passaic, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Val Jon Corp., its customers (manufacturers), the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales or production.

The Department conducted a survey of the manufacturers for which Val Jon worked in 1976, 1977, and the first 5 months of 1978. The manufacturers who reduced purchases from Val Jon experienced increased sales of ladies' coats during the period under consideration. None of these manufacturers imported women's coats in 1977 or in the first quarter of 1978.

CONCLUSION

After careful review, I determine that all workers of Val Jon Corp., Passaic, N.J., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 19th day of October, 1978.

[TA-W-3770]

VICTORIA FASHION, INC., SPRINGFIELD, MASS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3770: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 24, 1978, in response to a worker petition received on May 16, 1978, which was filed by the International Ladies' Garment Workers Union on behalf of workers and former workers producing women's apparel at Victoria Fashion, Inc., Springfield, Mass. The Notice of Investigation was published in the FEDERAL REGISTER on June 6, 1978 (43 FR 24634-35). No public hearing was requested and none was held.

The information upon which the determination was made was obtained

principally from officials of Victoria Fashion, its customers, the U.S. De-

ion, Inc., Springfield, Mass., are denied eligibility to apply for adjustment as-

quarter of 1978. U.S. imports of women's, misses', and children's coats

Youngstown Sheet and Tube Co. located in East Chicago, Ind.

of tin plate increased to 9.3 percent in 1977 compared to 6.4 for 1976.

[4510-28-M]

V 4 3 / 2 0 9 0 C 2 7 7 8

principally from officials of Victoria Fashion, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirments of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales of production.

Imports of women's and misses' dresses decreased 11 percent from 1976 to 1977. The ratio of imports to domestic production declined from 4.6 percent in 1976 to 4.0 percent in 1977.

Imports of women's, misses', and children's skirts declined 17 percent from 1976 to 1977. The ratio of imports to domestic production declined from 14.2 percent in 1976 to 10.5 percent in 1977.

Imports of women's, misses', and children's suits declined 6 percent from 1976 to 1977. The ratio of imports to domestic production declined from 11.4 percent in 1976 to 10.5 percent in 1977.

Imports of women's, misses', and children's coats and jackets increased 21 percent from 1976 to 1977. The ratio of imports to domestic production increased from 48.3 percent in 1976 to 54.9 percent in 1977.

Imports of women's, misses', and children's blouses and shirts increased 2 percent from 1976 to 1977. The ratio of imports to domestic production declined from 70.3 percent in 1976 to 69.7 percent in 1977.

Victoria Fashion was primarily engaged in the production of ladies' suits and dresses during 1976 and in the first quarter of 1977. All of these garments were produced under contract to one manufacturer during this time. The manufacturer which employed Victoria during 1976 discontinued the contract because that manufacturer began production at its own plant in 1977. That same manufacturer did not use foreign contractors, nor did it import directly, at any time during the survey period, from 1976 through March, 1978.

Victoria subsequently has worked for different manufacturers since that time. These manufacturers did not purchase imported clothing during the survey period.

Conclusion

After careful review, I determine that all workers at the Victoria Fashion, Inc., Springfield, Mass., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 23rd day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-2917]

WAY MANUFACTURING CO., ROCKLAND, MASS.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2917: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on January 11, 1978, in response to a worker petition received on December 19, 1977, which was filed on behalf of workers and former workers producing women's sportswear at Way Manufacturing Co., Rockland, Mass. The investigation revealed that women's slacks, skirts, and blazers are produced.

The Notice of Investigation was published in the FEDERAL REGISTER on January 27, 1978 (43 FR 3776). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Way Manufacturing Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of women's, misses', and children's slacks increased from 11,040 thousand dozen in 1976 to 11,622 thousand dozen in 1977 and from 3,374 thousand dozen in the first quarter of 1977 to 4,545 thousand dozen in the first quarter of 1978. The ratio of imports to domestic production increased from 36.8 percent in 1976 to 38.0 percent in 1977. U.S. imports of women's, misses', and children's skirts decreased from 791 thousand dozen in 1976 to 654 thousand dozen in 1977 and increased from 103 thousand dozen in the first quarter of 1977 to 296 thousand dozen in the first quarter of 1978. U.S. imports of women's, misses', and children's coats and jackets, which includes blazers, increased from 2,252 thousand dozen in 1976 to 2,723 thousand dozen in 1977. The ratio of imports to domestic production increased from 48.3 percent in 1976 to 54.9 percent in 1977. Imports decreased from 590 thousand in the first 3 months of 1977 to 572 thousand in the same period in 1978.

The Department conducted a survey of customers of Way Manufacturing Co. who had decreased purchases from 1976 to 1977. Respondents indicated that they had increased purchases of imported women's slacks, skirts, and blazers.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with women's slacks, skirts, and blazers produced at Way Manufacturing Co. contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certifications:

All workers of Way Manufacturing Company, Rockland, Massachusetts, who became totally or partially separated from employment on or after April 8, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 23d day of October, 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3067]

YOUNGSTOWN SHEET & TUBE CO., INDIANA HARBOR WORKS, EAST CHICAGO, IND.

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3067: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation ws initiated on February 6, 1978 in response to a worker petition received on January 17, 1978 which was filed by the United Steelworkers of America on behalf of workers and former workers producing tin mill products, hot and cold rolled carbon steel sheet and strip, galvanized sheet and steel bar and bar products at the Indiana Harbor Works of Youngstown Sheet and Tube Co. located in East Chicago, Ind.

On November 8, 1977 the Department issued a Certification of Eligibility to Apply for Adjustment Assistance (TA-W-1463) for all workers engaged in employment related to the production of steel plate and pipe and tubing at the East Chicago, Indiana plant of Youngstown Sheet and Tube Co. who became totally or partially separated from employment on or after November 1, 1975.

The Notice of Investigation was published in the FEDERAL REGISTER on February 17, 1978 (43 FR 7064). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Youngstown Sheet and Tube Co., its customers, the American Iron and Steel Institute, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirments of section 222 of the Act must be met. With respect to workers producing galvanized steel sheet, steel bar and bar products, and hot and cold rolled carbon steel sheet and strip, without regard to whether any of the other criteria have been met the following criterion has not been met:

That sales or production, or both, of the firm or appropriate subdivision have decreased absolutely.

The investigation revealed that company sales and production of galvanized carbon steel sheets increased in terms of both quantity and value in each successive quarter of 1977 compared to he same quarter of 1976 and in the first quarter of 1978 compared to the first quarter of 1977.

Company sales and production of hot rolled carbon steel sheet and strip increased in terms of both quantity and value in 1977 compared to 1976 and in the first quarter of 1978 compared to the first quarter of 1977.

The petitioner's plant has not produced bar or bar products since January 1976. Section 223(b)(1) of the Trade Act of 1974 states that a certification shall not apply to workers separated more than 1 year before the date of the petition. The effective date of the petition was January 16, 1978.

With respect to workers producing tin mill products and metallurgical coke, all of the group eligibility requirements of section 222 of the Act have been met.

U.S. imports of tin plate were 407.1 thousand tons in 1975 and 309.3 thousand tons in 1976. In 1977 imports increased to 444.1 thousand tons. The ratio of imports to domestic shipments of tin plate increased to 9.3 percent in 1977 compared to 6.4 for 1976.

U.S. imports fo metallurgical coke were 1,819 thousand short tons in 1975 and 1,311 thousand short tons in 1976. Imports increased to 1,829 thousand short tons in 1977, and in the first quarter of 1978 imports increased to 457 thousand short tons compared to 113 thousand short tons in the first quarter of 1977. The ratio of imports to domestic shipments increased to 3.42 percent in 1977 compared to 2.25 percent in 1976 and increased to 5.03 percent in the first quarter of 1978 compared to 0.84 percent in the first quarter of 1977.

Customers surveyed by the Department increased imports of tin products while decreasing purchases of the same from Youngstown Sheet and Tube Co. in 1977 compared to 1976 and in the first quarter of 1978 compared to the same quarter of 1977. Several customers indicated that imports of tin products have affected U.S. markets in terms of price, supply, production, and profitability.

Company imports of metallurgical coke increased in 1977 compared to 1976.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with tin mill products and metallurgical coke produced at the Indiana Harbor Works of Youngstown Sheet and Tube Co. contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of the Indiana Harbor Works of Youngstown Sheet and Tube Co. located in East Chicago, Ind. engaged in employment related to the production of tin mill products and metallurgical coke who became totally or partially separated from employment on or after January 16, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

I further conclude that workers engaged in employment related to the production of galvanized carbon steel sheet and hot and cold rolled carbon steel sheet and strip are denied eligibility to apply for adjustment assistance.

Signed at Washington, D.C. this 23rd day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

Office of the Secretary

INVESTIGATIONS REGARDING CERTIFICATIONS OF ELIGIBILITY TO APPLY FOR WORKER ADJUSTMENT ASSISTANCE

Petitions have been filed with the Secretary of Labor under section 221 (a) of the Trade Act of 1974 ("the act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to section 221 (a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a signlficant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 6, 1978.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 6, 1978

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 16th day of October 1978

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

Employment and Training Administration

EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 U.S.C. 1924(b), 1932, or 1942 (b).

The act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services

or facilities in the area, when there is not sufficient demand for such goods,

[4510-43-M]

or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.

2. Employment trends in the same industry in the local area.

3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.

4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within 2 week of publication of this notice to:

Deputy Assistant Secretary for Employment and Training, 601 D Street NW., Washington, D.C. 20213.

Signed at Washington, D.C., this 23d day of October 1978

SUMMER PROGRAM FOR ECONOMICALLY DISADVANTAGED YOUTH (SPEDY) REALLOCATION

Reallocation of the Virginia Balance-of-State Supplemental Allocation

In accordance with 29 CFR 97.11(b) and 29 CFR 98.11(d), on August 11, 1978, the Employment and Training Administration, with the concurrence of the Governor of Virginia, reallocated $596,872 of the Virginia balance-of-State supplemental allocation under the summer program for economically disadvantaged youth (SPEDY), title III of the Comprehensive Employment and Training Act (CETA) of 1973, as amended.

The reallocation was made to the following CETA prime sponsors:

Richmond Area Manpower Planning System (RAMPS) Consortium, Va.	$125,000
Arlington County, Va	15,000
Fairfax County, Va	80,000
Southeastern Tidewater Area Manpower Authority (STAMA) Consortium, Va.	50,000
Henrico-Chesterfield-Hanover CETA Consortium, Va.	50,000
Peninsula Office of Manpower Programs (POMPS) Consortium, Va.	40,000
State of West Virginia	236,872

This reallocation was made in order to better utilize these funds within the summer period for employment of economically disadvantaged youth.

Any questions or comments regarding this reallocation should be addressed to Mr. Robert Taggart, Department of Labor, Office of Youth Programs, 601 D Street NW., Room 6000, Washington, D.C. 20213.

Signed this 13th day of October 1978.

ROBERT TAGGART,
Administrator, Office of Youth Programs.

Mine Safety and Health Administration

[Docket No. M-78-46-M]

FORT DODGE CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that Fort Dodge Corp., 522 South 22d Street, Box "W," Fort Dodge, Iowa 50501, has filed a petition to modify the application of 30 CFR 57.4-52 (gasoline), to its Fort Dodge Limestone Mine, located in Webster County, Iowa, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164.

The substance of Petitioner's statement is as follows:

(1) Petitioner requests permission for gasoline powered service vehicles owned by equipment service companies, electricians, and explosive dealers to enter the above mine on an occasional basis when their services are needed.

(2) The mine has only a single inclined roadway large enough to accommodate vehicular traffic. Other openings are for ventilation and escape only.

(3) Petitioner anticipates that no more than one or two gasoline powered service truck trips per week will be necessary.

(4) No gasoline is carried into or stored in the mine by Petitioner.

REQUEST FOR COMMENTS

Persons interested in this petition may furnish written comments on or before November 27, 1978. Comments must be filed with the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Va. 22203. Copies of the petition are available for inspection at that address.

Dated: October 19, 1978.

ROBERT B. LAGATHER,
Assistant Secretary for Mine Safety and Health.

[FR Doc. 78-30454 Filed 10-26-78; 8:45 am]

[4510-43-M]

[Docket No. M-78-108-C]

VALLEY CAMP COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that Valley Camp Coal Co., No. 3 mine, P.O. Box 218, Triadelphia, W. Va. 26059, has filed a petition to modify the application of 30 CFR 75.1403-8 (track haulage roads), to its No. 3 mine located in Triadelphia, Ohio County, W. Va., in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164.

The substance of Petitioner's statement is as follows:

(1) Two sections of track haulage road are concerned. One has a roof support system of posts and timber, most of which have been in place in excess of 40 years. The other has the entire roof, ribs, and coal seam completely sealed with bolted wire covered with cement (gunite). The seal prevents decay from air and moisture and thus provides protection from roof and rib falls.

(2) There are presently 25 locations where the clearance on the "clearance side" is less than 24 inches and 4 locations on the "tight side" where the clearance is less than 6 inches.

(3) To widen the ribs in the gunite section, the seal provided by the gunite would have to be broken. Air and moisture could then seep into the roof, ribs, and coal seam initiating decay. The risk of roof and rib falls would be increased unnecessarily and unreasonably.

(4) Poor roof conditions exist in the post and timbered section. The actual support function served by each individual post is unknown and unpredictable. Construction to widen the haulage road in those areas could be hazardous and weaken the roof support system.

(5) The time involved in correcting the specified areas would result in more exposure of miners to hazards than would ever be involved for the remainder of the life of the mine under present conditions.

(6) Petitioner requests modification of the standard to allow for clearances of less than 24 inches on the "clearance side" and 6 inches on the "tight side" from the farthest projections of normal traffic in certain areas of No. 3 mine. These areas are more particularly described as starting from "B Face Pump House up to and including all the areas to the outby end of No. 3 Passway Switch" and are more specifically set forth in a map provided by Petitioner. The modification would be contingent upon Petitioner establishing the following safeguards to guarantee no less than the same measure of protection as that afforded miners by the standard:

(a) The required clearance space of 24 inches from the farthest projection of moving equipment shall be kept free of all obstructions, and where the required 24 inches of clearance space is not available, the clearance space available shall be kept free of all obstructions.

(b) Luminous signs designating "Danger—Close Clearance" shall be posted at the outby and inby ends of the affected area.

(c) When workers are assigned to travel or perform work along this haulage road, the person in charge of transportation shall assure that all persons operating haulage equipment shall be made aware of the location of such workers.

(d) When workers are required to perform any work along this haulage road, luminous signs indicating "Men Working Ahead" shall be posted at the outby and inby ends and all equipment shall be operated at slow speed through the area.

REQUEST FOR COMMENTS

Persons interested in this petition may furnish written comments on or before November 27, 1978. Comments must be filed with the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Va. 22203. Copies of the petition are available for inspection at that address.

Dated: October 18, 1978.

ROBERT B. LAGATHER,
Assistant Secretary for Mine Safety and Health.

[4510-43-M]

[Docket No. M-78-99—C]

VALLEY CAMP COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that Valley Camp Coal Co., No. 3 mine, P.O. Box 218, Triadelphia, W. Va. 26059, has filed a petition to modify the application of 30 CFR 75.1403-9 (shelter holes) to its No. 3 mine located in Ohio County, W. Va., in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164.

The substance of Petitioner's statement is as follows:

(1) Two sections of track haulage road are concerned. One has a roof support system of posts and timber, most of which have been in place in excess of 40 years. The other has the entire roof, ribs, and coal seam completely sealed with bolted wire covered with cement (gunite). The seal prevents decay from air and moisture and thus provides protection from roof and rib falls.

(2) Construction of shelter holes in the gunite section would break the seal provided by the gunite. Air and moisture would cause a decay process extending beyond the immediate site of the shelter. The risk of roof and rib falls would be unnecessarily and unreasonably increased.

(3) Poor roof conditions exist in the post and timbered section. The actual support function served by each individual post is unknown and unpredictable. Construction of shelter holes could be hazardous and weaken the roof support system. Rehabilitation of crosscuts to the depth required of a shelter hole would be similarly hazardous.

(4) In the gunite section, crosscut rehabilitation would require moving ventilation stoppages and adversely disrupt and alter the ventilation system for the entire mine.

(5) The time involved in constructing the shelter holes at the required intervals would result in more exposure of miners to hazards than would ever be involved for the remainder of the life of the mine under the present conditions.

(6) In the alternative, Petitioner requests modification of the standard to permit shelter holes at intervals of more than 105 feet in certain areas of No. 3 mine. These areas are more particularly described as starting from "300 feet inby M, north up to and including all the areas to the outby end of the supply track near the rotary dump" and are more specifically set forth in a map provided by Petitioner. The modification would be contingent upon Petitioner establishing the following safeguards to guarantee no less than same measure of protection than afforded miners by the standard:

(a) Luminous signs, stating that persons are not to enter this area on foot unless permission is granted by the dispatcher, shall be posted at the inby and outby ends of the affected area. Telephones shall be located at the track entrances to the affected area.

(b) All designated shelter holes in the affected area shall be located at the track entrances to the affected area.

(c) All designated shelter holes in the affected area shall be marked with luminous signs, electric lights, or reflectors.

(d) All designated shelter holes shall be kept free of refuse and other obstruction.

(e) Workers required to do any work along this track shall be provided with radio or telephone communications so that they may be notified of approaching haulage equipment. Upon arrival at the worksite, the workers shall locate a shelter hole where they may take refuge when haulage equipment is entering the area.

(f) The dispatcher shall notify all haulage equipment operators of the location of work crews along the affected area.

(g) Blinker lights, red or yellow, and a sign, "caution men working" shall be posted at the inby and outby ends of the work area. Haulage equipment passing through the area should travel at a slow rate of speed.

(h) The above provisions shall be posted at the inby and outby approaches to the area.

REQUEST FOR COMMENT

Persons interested in this petition may furnish written comments on or before November 27, 1978. Comments must be filed with the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Va. 22203. Copies of the petition are available for inspection at that address.

Dated: October 18, 1978.

ROBERT B. LAGATHER,
Assistant Secretary for Mine Safety and Health.

[7537-01-M]

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

ADVISORY COMMITTEES

Public Disclosure of Information and Activities

The National Endowment for the Arts utilizes advice and recommendations of advisory committees, including the National Council on the Arts, in carrying out many of its functions and activities.

The Federal Advisory Committee Act, as amended (Pub. L. 92-463) governs the formation, use, conduct, management, and accessibility to the public of committees formed to advise and assist the Federal Government. Section 10 of the act specifies that department and agency heads shall make adequate provisions for participation by the public in the activities of advisory committees, except to the extent a determination is made in writing by the department or agency head that a portion of an advisory committee meeting may be closed to the public in accordance with subsection (c) of section 552b of title 5, United States Code.

It is the policy of the National Endowment for the Arts to make the fullest possible disclosure of records to the public, limited only by obligations of confidentiality and administrative necessity. Consistent with this policy, all endowment advisory committee meetings except for limited portions dealing with the review, discussion, evaluation, and/or ranking of grant applications and contract proposals will be open to the public. The reasons for this determination are as follows:

Information and data are furnished to the Endowment by grant applicants with assurance that such information will be treated on a confidential basis and not disclosed to the public. This information may include such matters as details relating to the type of design or work to be performed, adequacy of the applicant's facilities, competence of the applicant's or contractor's staff, proposed budget, and other material which would not otherwise be disclosed. If the process were not to continue on a confidential basis, grant applicants and potential contractors would not supply sufficiently detailed information so essential for complete and effective review of their proposals.

Further, public disclosure of proposals not approved for funding could subject unsuccessful grant applicants to embarrassment and might adversely influence or prejudice the decisions of other funding sources in connection with their review of similar proposals.

Endowment consultant-experts are chosen from among persons recognized for their expertise in the arts. These experts review and evaluate applications for financial assistance submitted to the Endowment by their peers and colleagues in the respective cultural fields. As a result, public participation in panel meetings involving application review undoubtedly would effect a consultant-expert's willingness to express his or her full and frank opinion regarding the merits of the proposed project or activity. Also, such participation could result in consultant-experts being subjected to attempts by potential grantees to influence final funding decisions. Accordingly, the Endowment's capacity effectively to carry out its statutory mandate and maintain the highest possible standards of quality with respect to funding decisions would be seriously impaired by its inability to conduct the grant review process in a confidential atmosphere conducive to the candid and honest exchange of ideas. Thus, such public participation would be likely to significantly frustrate implementation of proposed agency actions, i.e., proposed funding decisions.

Finally, disclosure of preliminary funding recommendations could result in premature reliance on such information to the applicant's financial detriment, since such recommendations are not binding on the Chairman of the Endowment.

Consequently, in the interest of meeting our obligations of confidentiality in reference to matters submitted as part of grant applications and contract proposals, and in order to encourage and insure, for the benefit of the Government's review and evaluation process, candid and uninhibited expression of views concerning the merits of grant applications and contract proposals:

It is hereby determined in accordance with the provisions of section 10(d) of the act that the disclosure of information regarding the review, discussion, and evaluation of grant applications and contract proposals, as outlined herein is likely to disclose:

(1) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(2) Information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; and

(3) Information the premature disclosure of which would be likely to significantly frustrate implementation of proposed agency action.

Therefore, in light of the above, I have determined that meetings or portions thereof, of all Endowment advisory committees, including the National Council on the Arts, devoted to review, discussion, evaluation, and/or ranking of grant applications, and contract proposals may be closed to the public in accordance with subsection (c) (4), (6), and 9(B) of section 552b of title 5, United States Code.

The Executive Secretary of each such committee shall prepare a summary of any meeting or portion thereof not open to the public within three (3) business days following the conclusion of the meeting of the National Council on the Arts. Such summaries shall be consistent with the considerations which justified the closing of the meeting.

All other advisory committee meetings shall be open to the public unless the Chairman of the National Endowment for the Arts or his designee determines otherwise in accordance with section 10(d) of the act.

The Director, Council and Panel Operations, shall be responsible for publication in the FEDERAL REGISTER or, as appropriate, in local media, of a notice of all advisory committee meetings. Such notice shall be published in advance of the meetings and contain:

(1) Name of the committee and its purpose;

(2) Date and time of the meeting, and, if the meeting is open to the public, its location and agenda; and

(3) A statement that the meeting is open to the public, or, if the meeting or any portion thereof is not to be open to the public, a statement to that effect.

The Director, Council and Panel Operations, is designated as the person from whom rosters or lists of committee members may be obtained and from whom minutes of open meetings or open portions thereof may be requested.

Any interested persons may attend, as observers, meetings, or portions thereof, of advisory committees which are open to the public.

Members of the public attending a meeting will be permitted to participate in the committee's discussion at the discretion of the chairman of the committee, if the chairman is a full-time Federal employee; if the chairman is not a full-time Federal employee then public participation, will be permitted at the chairman's discretion with the approval of the full-time Federal employee in attendance at the meeting in compliance with the order.

LIVINGSTON L. BIDDLE, JR.,
Chairman,
National Endowment for the Arts.

[7710-12-M]

POSTAL SERVICE

RESTRICTIONS ON PRIVATE CARRIAGE OF LETTERS

Test of Alternate Procedures for the Payment of Postage on Certain Letters Carried Privately

The Private Express Statutes and regulations, 39 CFR parts 310 and 320, permit letters to be carried privately if postage is paid and other technical requirements are met, including that the cover must be addressed, sealed, and dated, and the stamps must be placed on it and canceled in ink. 39 CFR § 310.2(b). These requirements provide an objective means of verifying that the private carriage of letters does not cause the Postal Service to lose revenue to which it is entitled.

Over the years, the Postal Service has occasionally been asked whether it would consider collecting postage through a system that involves varying one or more of the requirements in 39 CFR § 310.2(b) so as to be more convenient for businesses. In the past, the Postal Service has considered that the advantages of holding to the requirements of the law and current regulations outweighed the advantages of pursuing change. The Postal Service now believes, however, that it would be useful to test some alternative systems to gain experience as to their feasibility.

We think the most useful approach to the test would be to develop alternate systems through discussions with shippers, reflected in written agreements of some kind, tailored to the perceived need. We hesitate at this time to prescribe a standard format for such an agreement, though the format for such an agreement could well be an outgrowth of the experience gained under this test. Any agreement would, however, be drafted to accomplish these goals: (1) To provide for adequate audit and inspection to assure that full postage is paid; (2) to be as convenient as possible for the businesses involved; and (3) to keep administrative expenses to a minimum.

In approximately 1 year from October 26, 1978, the Postal Service will publish a report on the results of the test. The report may recommend that the test be extended for an additional period of time, or it may recommend some final action. During the test period, firms wishing to approach the Postal Service about varying the procedures in 39 CFR 310.2(b) are invited to do so, recognizing, however, that resources available to manage and evaluate the test are sufficient to accommodate only a limited number of variations progressing during the test period. If more requests come in than can be handled, some requests will

have to be denied pending completion of the experiment. Requests should be

SMALL BUSINESS ADMINISTRATION

[License No. 06/06-0203]

GREAT AMERICAN CAPITAL INVESTORS, INC.

Issuance of a License To Operate as a Small Business Investment Company

On June 8, 1978, a notice was published in the FEDERAL REGISTER (43 FR 24927) stating that an application had been filed by Great American Capital Investors, Inc., 1006 Holliday Street, Wichita Falls, Tex. 76301, with the Small Business Administration (SBA) pursuant to § 107.102 of the regulations governing small business investment companies (13 CFR 107.102 (1978)), for a license to operate as a small business investment company (SBIC).

Interested parties were given until the close of business June 23, 1978, to submit their written comments to SBA. No comments were received.

Notice is hereby given that, pursuant to section 301(c) of the Small Business Investment Act of 1958, as amended, and after having considered the application and all other information, SBA issued license No. 06/06-0203 on October 11, 1978, to Great American Capital Investors, Inc. to operate as an SBIC.

SYRACUSE-BASED CARRIER CORP. AND UNITED TECHNOLOGIES CORP.

Hearing

Pursuant to statutory authority set forth in section 634d of Title 15, United States Code, the Chief Counsel for Advocacy of the Small Business Administration, Milton D. Stewart, Esq., with the approval of the Administrator of the Small Business Administration, A. Vernon Weaver, will conduct public hearings in Syracuse, N.Y., on November 2 and December 1, 1978, and on January 11, 1979, on the proposed takeover of the Syracuse-based Carrier Corp. by the United Technologies Corp. of Hartford, Conn. The hearings will convene on each date at 10 a.m. (e.s.t.) at Room C215, U.S. Court House, 100 South Clinton Street, Syracuse, N.Y.

Purpose of hearing: The Office of the Chief Counsel for Advocacy will (1) evaluate the impact of the proposed takeover on the small business community of Central New York State, and (2) examine the adequacy of current Federal policy covering mergers and takeovers by and between large U.S. corporations.

Witnesses: On November 2, 1978, witnesses will be drawn primarily from concerned members of the Greater Syracuse business and civic community. On December 1, 1978, Federal, State, regional, and local government officials along with economic experts from the private sector will appear as witnesses. On January 11, 1979, representatives of the United Technologies Corp. and the Carrier Corp. will be given an opportunity to discuss the proposed takeover and its effects on the local community and other matters raised during the course of the hearings.

The hearing is open to the public. Any member of the public may file a written statement with the Office of the Chief Counsel for Advocacy before, during, or after the hearings. All communications or inquiries regarding these hearings should be addressed to:

Jere Glover, Esq., Deputy Chief Counsel, Office of the Chief Counsel for Advocacy, U.S. Small Business Administration, 1441 L Street NW., Washington, D.C. 20416, 202-653-6808.

For the Chief Counsel for Advocacy.

JERE GLOVER,
Deputy Chief Counsel.

WATER RESOURCES COUNCIL

PRINCIPLES AND STANDARDS FOR PLANNING WATER AND RELATED LAND RESOURCES

Change in Discount Rate

Notice is hereby given that the interest rate to be used by Federal agencies in the formulation and evaluation of plans for water and related land resources is 7⅞ percent for the period October 1, 1978 through and including September 30, 1979.

The rate has been computed in accordance with Chapter IV, D., "The Discount Rate" in the "Standards for Planning Water and Related Land Resources" of the Water Resources Council, as amended (39 FR 29242), and is to be used by all Federal agencies in plan formulation and evaluation of water and related land resources projects for the purpose of discounting future benefits and computing costs, or otherwise converting benefits and costs to a common time basis.

The Department of the Treasury on October 19, 1978 informed the Water Resources Council pursuant to chapter IV, D., (b) that the interest rate would be 7⅝ percent based upon the formula set forth in chapter IV, D., (a): "* * * the average yield during the preceding Fiscal Year on interest-bearing marketable securities of the United States which, at the time the computation is made, have terms of 15 years or more remaining to maturity * * *." However, chapter IV, D., (a) further provides "* * * that in no event shall the rate be raised or lowered more than one-quarter of 1 percent for any year." Since the rate in fiscal year 1978 was 6⅝ percent (42 FR 58232), the rate for fiscal year 1979 is 6⅞ percent.

Dated: October 24, 1978.

LEO M. EISEL,
Director.

[M-173, Amdt. 2; Oct. 24, 1978]

CIVIL AERONAUTICS BOARD.

Notice of change of time.

TIME AND DATE: 2 p.m., October 24, 1978.

PLACE: Room 1011, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: (1) Recommended position for negotiations with New Zealand, Australia, Fiji and Papua-New Guinea; (2) Memorandum for Board action regarding Docket 26291, American Samoa's Petition for Immediate Restoration of Adequate Air Service; (3) Memorandum for Board action regarding Docket 31684, Application of Continental Air Lines, Inc., for renewal of its authority to postpone inauguration of service to American Samoa; (4) Docket 33461, Application of Qantas Airways, Ltd., for waiver of part 212 to carry individually-waybilled cargo on seven passenger charters; (5) Recommended Board position for United States-United Kingdom consultations in Washington beginning October 30, 1978 (Memo 8245, 8244, 8244-A).

STATUS: Closed.

PERSONS TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: See M-173 and 173, Admt. 1 for reason for closing, persons expected to attend and the General Counsel's Certification.

2

[M-170, Amdt. 5; Oct. 23, 1978]

CIVIL AERONAUTICS BOARD.

Notice of addition and deletion of items to the October 20, 1978, agenda.

TIME AND DATE: 1:30 p.m., October 20, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT:

1a. Processing of applications for unused authority and the Airline Deregulation Act.

5a. Docket 33461, Application of Qantas Airways, Ltd., for waiver of Part 212 to carry individually-waybilled cargo on seven passenger charters (Memo 8244, 8244-A, BIA, OGC, BPDA).

13a. Docket 33712, Petition of Seaboard World Airlines requesting Board to issue immediate order temporarily restraining Tiger International from acquiring additional stock of Seaboard (OGC).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: There has been widespread public attention given to the queue of persons waiting to submit applications for unused operating authority. At its October 20, 1978, the Board noted that because the new bill is ambiguous, the applications will be taken the day following the President's signing of the Airline Deregulation Act of 1978. Additionally, the Board asked its staff to prepare an analysis of the new bill for future public meeting. Item 5a was deleted from the October 20, 1978, agenda because subject matter is related to negotiations (see M-173 issued October 20). In order to dispose of this matter as expeditiously as possible, item 13a was added to the October 20 agenda. Accordingly, the following Members voted on October 20, 1978, that agency business requires the addition of items 1a and 13a and the deletion of item 5a on the October 20 agenda and that no earlier announcement of these changes was possible:

Chairman, Alfred E. Kahn
Member, Richard J. O'Melia
Member, Elizabeth E. Bailey
Member, Gloria Schaffer
Member, Marvin S. Cohen

All amendments to previously announced agendas are publicly posted at the Board's offices, sent to the FEDERAL REGISTER for publication, and mailed to parties to docketed cases affected by the change. We regret any inconvenience that may be caused by these changes or the delayed receipt of our notices.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM.

TIME AND DATE: 10 a.m., Wednesday, November 1, 1978. The closed portion of the meeting will commence at the conclusion of the open discussion.

PLACE: 20th Street and Constitution Avenue NW., Washington, D.C. 20551.

STATUS: Part of the meeting will be open; part will be closed.

MATTERS TO BE CONSIDERED:

Open portion:

SUMMARY AGENDA

Because of their routine nature, no substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board requests that an item be moved to the discussion agenda.

1. Proposed extension and revision of the Domestic Finance Company Reports of Consolidated Assets and Liabilities (FR 248 and FR 248-A).
2. Proposed revisions in the condition and Income Reports required of Edge corporations and the foreign branches and foreign subsidiaries of U.S. commercial banks.
3. Request for a determination concerning classification of funds as time deposits under Regulation Q (Interest on Deposits) in the absence of a written agreement between the depositor and the bank.

DISCUSSION AGENDA

1. Request for a determination under Regulations D (Reserve Requirements) and Q (Interest on Deposits) concerning the issuance of securities backed by pools of conventional mortgages.
2. Any agenda items carried forward from a previously announced meeting.

NOTE.—This meeting will be recorded for the benefit of those unable to attend. Cassettes will be available for listening in the Board's Freedom of Information Office, and copies may be ordered for $5 per cassette by writing to: Freedom of Information Office,

Board of Governors of the Federal Reserve System.

Closed portion:

1. Federal Reserve Bank and Branch director appointments. (This matter was originally announced for a meeting on Friday, October 27, 1978).
2. Any agenda items carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION:

Mr. Joseph R. Coyne, Assistant to the Board: 202-452-3204.

Dated: October 25, 1978.

GRIFFITH L. GARWOOD, *Deputy Secretary of the Board.*

V 43 / 209 OCT 27 78

[3910-01-M]

DEPARTMENT OF DEFENSE
DEPARTMENT OF THE AIR FORCE
PRIVACY ACT OF 1974
Notice of Systems of Records
Deletions, Amendments, Additions.

Agency: Department of the Air Force (AF).

Action: Deletions, amendments, and additions to Air Force systems of records.

Summary: The Air Force is deleting 42, amending 8 and adding 2 systems of records to its inventory of records subject to the Privacy Act of 1974.

Dates: The amendments and additions shall be effective as proposed without further notice on November 27, 1978, unless comments are received on or before November 27, 1978, which would result in a contrary determination and require republication for further comments.

Address: Any public comments, including written data, views or arguments concerning the amendments and additions should be addressed to:

The Air Force Privacy Office (HQ USAF/DADMP)
Directorate of Administration
Headquarters United States Air Force
Bolling AFB, Washington, D.C. 20330

For further information contact:

Mr. Jon E. Updike
HQ USAF/DADMP
Bolling AFB, Washington, D.C. 20330
Telephone 202-767-4545

Supplementary information: The Air Force systems of records inventory subject to the Privacy Act of 1974 (5 U.S.C. 552a) Pub. L. 93-579 have been published in the Federal Register as follows:

FR Doc. 77-23132 (42 FR 41468) August 17, 1977;
FR Doc. 77-28255 (42 FR 50785) September 28, 1977;
FR Doc. 78-25819 (43 FR 42436) September 20, 1978;
FR Doc. 78-28090 (43 FR 46063) October 5, 1978.

The proposed amendments and additions are not deemed to be within the purview of the provisions of 5 U.S.C. 552a(o) of the Privacy Act which requires submission of a new or altered system report in accordance with Office of Management and Budget (OMB) guidance set forth in the Federal Register (40 FR 45877) on October 3, 1975.

October 18, 1978.

Maurice W. Roche,
Director, Correspondence Directives,
Washington Headquarters Services,
Department of Defense.

Note: Added systems appear later in this document.

System name: Aircrew Positive Control Study Record (42 FR 50917).

Reason: This system is covered by F03501 DP 3, Unit Assigned Personnel Information File (42 FR 50839).

F05001 OUJCGJA

System name: Training Summaries Graduation Roster (42 FR 50918).

Reason: This system has been incorporated into F05001 AFSS A, Training Summaries appearing in the added systems notices in this Federal Register.

F05001 OUJCGJB

System name: Training Summaries Entering Class Roster (42 FR 50918).

Reason: This system has been incorporated into F05001 AFSS A, Training Summaries appearing in the added systems notices in this Federal Register.

F05001 OUJCGJC

System name: Training Summaries Alphabetically Roster (42 FR 50919).

Reason: This systems has been incorporated into F05001 AFSS A, Training Summaries appearing in the added systems notices in this Federal Register.

F05001 OUJCGJD

System name: Training Summaries Class Roster (42 FR 50919).

Reason: This system has been incorporated into F05001 AFSS A, Training Summaries appearing in the added systems notices in this Federal Register.

F05001 22 ALSA

System name: Aircrew Intelligence Training Report (42 FR 50921).

Reason: These records are covered by F03501 DP 3, Unit Assigned Personnel Information File (42 FR 50839).

F05001 22 ALSB

System name: Operations Training Records (42 FR 50921).

Reason: These records are covered by F03501 DP 3, Unit Assigned Personnel Information File (42 FR 50839).

F05302 OBXQPCC

System name: Active Cadet Counseling File (42 FR 50938).

Reason: These records are part of F03502 OBXQPCC, Cadet Personnel Records System and do not form a separate system of records. See 42 FR 50875.

F11101 OUMCBVB

System name: Judge Advocate Command Roster (42 FR 50955).

Reason: This system is included in F01102 DAYX A, Base, Unit and Organizational Military and Civilian Personnel Locator Files (42 FR 50800).

F012501 02 ALSA

System name: Reporting Crimes and Serious Incidents (42 FR 50966).

Reason: These records are identical to those covered by F12501 SPO H, Serious Incident Reports (42 FR 50965).

F12503 02 ALSD

System name: Trailer Lot Registration (42 FR 50969).

Reason: These records are covered by F01102 DAYX A, Base, Unit and Organizational Military and Civilian Personnel Locator Files (42 FR 50800).

F16201 OSPCZPC

System name: Periodic Occupation Vision Record (42 FR 50982).

Reason: This record is part of F16805 ASGHB R, Health and Outpatient Record listed in 42 FR 50987.

F17801 OJ RS A

System name: Recruiting Advertising Evaluation (RAE) System E806 (42 FR 51014).

Reason: This notice is being republished under the same identifier in the added systems in this Federal Register in order to provide more detail on the system.

F90001 ORKNMDA

System name: Individual Decorations Approved or Disapproved (42 FR 51035).

Reason: This system is included in F90001 DPMSAAB, Military Decorations (42 FR 51035).

AMENDMENTS

Following the identification code of the record systems and the specific changes made therein, the complete revised record systems, as amended, are published in their entirety.

F01101 OUJCGJA

System name: Career Development Graduates Historical Roster (42 FR 50799).

Changes:

System name: Add "/Course Enrollees."

System location: Change Zip Code to "76903."

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: At "and to identify persons currently enrolled in course."

F01102 DAYX A

System name: Base, Unit and Organizational Military and Civilian Personnel Locator Files (43 FR 42437).

Changes:

Categories of individuals covered by the system: Change "Air Force Reserve Personnel" to "Air Force Reserve and National Guard Personnel."

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Change "Maintained on computer printouts" to "maintained on computer and computer products."

F03001 JALA A

F17802XOOTAYZM

dence address and residence telephone number, and similiar type personnel data determined to be necessary by the local authority.

Authority for maintenance of the system: Executive Order 11222, 'Prescribing Standards of Ethical Conduct for Government Officers

V 43/209 0C 27 78

F03001 JALA A

System name: Confidential Statement of Employment and Financial Interest (42 FR 50814).

Change:

Categories of individuals covered by the system: Delete entire entry and substitute, "Air Force personnel paid at a level of the Executive Schedule in subchapter II of Chapter 53 of Title 5, USC; Air Force General Officers and civilian officers and employees in pay grades GS-16 to GS-18; Commanders and Vice Commanders of Divisions and Wings; Base and Deputy Base Commanders of major installations; all Air Force personnel with a grade or rank of GS-13 or above or Lieutenant Colonel and above or at a comparable pay level under another authority, whose basic duties and responsibilities require the exercise of judgment on Government decision making or taking action on (1) the administering or monitoring of grants or subsidies, (2) contracting or procurement, (3) auditing, or (4) any other government activity in which the final decision or action has a significant economic impact on the interest of any nonfederal enterprise."

This change corrects defects in wording of the existing notice and makes no change in the categories of individuals.

F03001 OCGBUZA

System name: Drug/Alcohol Abuse Control Case Files (43 FR 42438).

Changes:

Categories of records in the system: Delete all after "indicating" and substitute, "whether a determination has been made as to entry into the rehabilitation and, if entered, progress of individuals toward rehabilitation."

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Delete first sentence and substitute, "To determine whether an individual is to be entered in a rehabilitation program, and to document progress of individuals in a program."

Retention and disposal: On line 1 after "phase," add "or other termination" and after "rehabilitation," add "or three months after determination is made not to enter the individual in rehabilitation."

System manager(s) and address: Add "Subordinate systems managers are: (1) Director of Personnel at each major command and (2) Chief of Social Actions at Air Force installations for systems operated at each level."

Notification procedure: In the last line, change "counselor" to "drug/alcohol specialist."

F03502 OBXQPCB

System name: Cadet Personnel Records System (42 FR 50875).

Changes:

Categories of records in the system: Delete all after "documents" in line 2.

System manager(s) and address: Add "and Director of Admissions and Registrar, United States Air Force Academy, CO 80840."

F11101 OSPCZPA

System name: Military Justice Administration (42 FR 50954).

Changes:

Categories of individuals covered by the system: Delete entry and substitute, "All Air Force active duty personnel nominated to serve on general court martial."

System manager(s) and address: Change zip code to "92518." Changes are to correct errors.

F17730 OEACYVA

System name: Joint Uniform Military Pay System (JUMPS) (43 FR 42466).

Changes:

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: "The name, rank and social security number of each member of the Armed Services on active duty may be disclosed as a routine use to the Department of Health, Education and Welfare (DHEW). This information shall be extracted from systems of records used for making payments to military personnel on active duty. This information may be submitted to the Inspector General of DHEW upon request of that department only for comparison with appropriate rolls reflecting recipients of Aid to Families with Dependent Children (AFDC)."

F17802XOOTAYZM

System name: Personnel Cost Accounting System (PCAS) (42 FR 51015).

Changes:

System location: Delete entire entry and substitute, "Air Force Data Services Center (AFDSC), Pentagon, Washington, DC 20330. Air Force Data Systems Design Center (AFDSDC), Gunter AFS, AL 36114."

Categories of individuals covered by the system: Delete entire entry and substitute, "Air Force active duty military personnel and civilian employees assigned at each location."

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: At the end of the first sentence, add "and in the Air Force Data Systems Design Center." Delete remainder of entry.

Retrievability: Delete, "Filed by Military Service Number."

System manager(s) and address: Add, "Commander, Air Force Data Systems Design Center, Gunter AFS, AL 36114."

[3910-01-F]

F01101 0UJCGJA

System name: 01101 0UJCGJA Career Development Graduates Historical Roster/Course Enrollees

System location: United States Air Force School of Applied Cryptologic Science (USAFSACS) Goodfellow Air Force Base TX 76903

Categories of individuals covered by the system: Army, Navy and Marine Corps active duty military personnel. Air Force active duty officer personnel. Air Force active duty enlisted personnel.

Categories of records in the system: Machine data record.

Authority for maintenance of the system: 10 United States Code 8012.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used by USAFSACS to identify graduates over a six-month period and to identify persons currently enrolled in course.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained on computer paper printouts.

Retrievability: Filed by Name. Filed by Social Security Number (SSN).

Safeguards: Records are accessed by custodian of the record system. Records are controlled by computer system software.

Retention and disposal: Retained in office files until superseded, obsolete, no longer needed for reference, or on inactivation, then destroyed by tearing into pieces, shredding, pulping, macerating, or burning.

System manager(s) and address: USAFSACS.

Notification procedure: Requests from individuals should be addressed to the Systems Manager.

Record access procedures: Individual can obtain assistance in gaining access from the Systems Manager.

Contesting record procedures: The Air Force's rules for access to records and for contesting and appealing initial determinations by the individual concerned may be obtained from the Systems Manager.

Record source categories: Information obtained from automated system interfaces.

Systems exempted from certain provisions of the act: NONE

F01102 DAYX A

System name: 01102 DAYX A Base, Unit, and Organizational Military and Civilian Personnel Locator Files

System location: At Headquarters, United States Air Force, and at Air Force Installations, to include bases, units, offices, and functions. Official mailing addresses are in the Department of Defense directory in the appendix to the Air Force's systems notices.

Categories of individuals covered by the system: Air Force active duty military personnel; Air Force Reserve and National Guard Personnel; Air Force civilian employees; dependents may be included at the option of the installation, unit, or organization.

Categories of records in the system: Cards or listings may contain the individuals name, grade, military service identification number, social security number, duty location, office telephone number, residence address and residence telephone number, and similiar type personnel data determined to be necessary by the local authority.

Authority for maintenance of the system: 44 USC 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used to locate personnel assigned to, attached to, tenanted on, or on temporary duty at the specific installation, office, base, unit, function, and/or organization in response to specific inquiries from official government activities for the conduct of business. Files are used locally to locate and administer programs and personnel.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained on paper records in card or form media in visible file binders/cabinets card files or on computer and computer products.

Retrievability: Filed by Name.

Safeguards: Records are accessed by person(s) responsible for servicing the record system in performance of their official duties. Records are stored in locked cabinets or rooms.

Retention and disposal: Retained in office files until reassignment or separation, or when superseded or no longer needed for reference, then destroyed by tearing into pieces, shredding, pulping, macerating, or burning.

System manager(s) and address: Primary location: Director of Administration, Headquarters, US Air Force, Washington, DC Decentralized Location: Privacy officer of the installation, base, unit, organization, office or function to which the individual is assigned, attached, tenanted on or on temporary duty. Official mailing addresses are in the Department of Defense directory in the appendix to the Air Force's systems notice.

Notification procedure: Requests from individuals should be addressed to the Systems Manager. Individual must furnish full name and the names of Air Force installation, unit and organization, office, or function to which assigned, attached, tenanted on or on temporary duty at, including the calendar years of such service. The individual may visit the Locator Office or Privacy Officer at the place of assignment. No identification is required to determine if the system contains records pertaining to a specific individual.

Record access procedures: Individual can obtain assistance in gaining access from the Systems Manager. Mailing addresses are in the Department of Defense directory in the appendix to the Air Force's systems notice.

Contesting record procedures: The Air Force's rules for access to records and for contesting and appealing initial determinations by the individual concerned may be obtained from the Systems Manager.

Record source categories: Information obtained from automated system interfaces or from individuals or personnel records.

Systems exempted from certain provisions of the act: NONE

F03001 JALA A

System name: 03001 JALA A Confidential Statement of Employment and Financial Interest

System location: Office of the General Counsel, Office of the Secretary of the Air Force, Washington D.C. 20330 Headquarters United States Air Force, Washington DC 20330. Headquarters of major commands and at all levels down to and including Air Force installations.

Categories of individuals covered by the system: Air Force personnel paid at a level of the Executive Schedule in subchapter II of Chapter 53 of Title 5, USC; Air Force General Officers and civilian officers and employees in pay grades GS-16 to GS-18; Commanders and Vice Commanders of Divisions and Wings; Base and Deputy Base Commanders of major installations; all Air Force personnel with a grade or rank of GS-13 or above or Lieutenant Colonel and above or at a comparable pay level under another authority, whose basic duties and responsibilities require the exercise of judgment on Government decision making or taking action on (1) the administering or monitoring of grants or subsidies, (2) contracting or procurement, (3) auditing, or (4) any other government activity in which the final decision or action has a significant economic impact on the interest of any non-federal enterprise.

Categories of records in the system: Contains the title of the individual's position, date of appointment in present position, agency and major organization segment of the position, employment and financial interests, creditors, interest in real property, and a list of persons from whom information can be obtained concerning the individual's financial situation.

Authority for maintenance of the system: Executive Order 11222, 'Prescribing Standards of Ethical Conduct for Government Officers and Employees.'

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The review of the statements by the individual's supervisor and deputy counselor.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records maintained in file folders.

Retrievability: Filed alphabetically by year.

Safeguards: Stored in locked metal safes.

Retention and disposal: Retained up to two years after the individual has left employment destroyed by tearing into pieces, shredding, pulping, macerating or burning.

System manager(s) and address: The Assistant General Counsel (Personnel) The Judge Advocate General, Headquarters United States Air Force.

Notification procedure: Requests from individuals should be addressed to the Systems Manager.

Record access procedures: Individual can obtain assistance from the Systems Manager.

Contesting record procedures: The Air Force's rules for access to records and for contesting and appealing initial determinations by the individual concerned may be obtained from the Systems Manager.

Record source categories: Information is obtained from the individual or from personnel designated by the individual.

Systems exempted from certain provisions of the act: NONE

F03001 0CGBUZA

System name: 03001 0CGBUZA Drug/Alcohol Abuse Control Case Files

System location: At servicing Air Force (AF) installation social actions office. Official mailing addresses are in the Department of Defense directory in the appendix to the Air Force's systems notice.

Categories of individuals covered by the system: Air Force active duty military personnel and dependents, Air Force civilian employees, and Air Force Reserve personnel, who are enrolled in a drug/alcohol rehabilitation program.

Categories of records in the system: As a minimum, the file contains forms and commander's letters documenting date and means of identification, categorizing type of abuse and indicating whether a determination has been made as to entry into the rehabilitation and, if entered, progress of individuals toward rehabilitation.

Authority for maintenance of the system: Section 408, drug-abuse office and treatment act of 1972 (Public Law 92-255; 21 United States Code 1175).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To determine whether an individual is to be entered in a rehabilitation program, and to document progress of individuals in a program. Those authorized to review, handle, or have access to the file are social actions and medical personnel directly engaged in rehabilitation of a person. Veterans Administration (VA) treatment personnel in cases of members transferred directly to VA in active duty status, official members of rehabilitation evaluation group, Commanders in member's chain of command, and persons authorized by Public Law 92-255, section 408(b)21 United States Code 1175(b). The file is used to develop a treatment regimem, to assist rehabilitation evaluation group make decisions for rehabilition program dispositions, and to prepare recurring reports.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained in file folders.

Retrievability: Filed by Name by other identification number or system identifier.

Safeguards: Records are accessed by custodian of the record system and by person(s) responsible for servicing the record system in performance of their official duties who are properly screened and cleared for need-to-know. Records are stored in security file containers/cabinets safes and controlled by personnel screening.

Retention and disposal: Destroy one year after completion of follow on phase or other termination and after rehabilitation, or three months after determination is made not to enter the individual in rehabilitation by tearing into pieces, shredding, pulping, macerating, or burning, unless needed as background for case files supporting a separation action or other actions under directives, in which case,

disposition will be the same as the file which they support. Files at George AFB, CA and Nellis AFB, NV will be retained for one year

Categories of records in the system: Court martial member experience statement.

non-government debts, and correspondence pertaining to all of the above. Inquiries files, personal financial records and sundry lists,

Notification procedure: Information as to whether the record system contains information on an individual may be obtained from AFAFC/DAD, Lowry AFB, Denver, CO 80279, telephone (303)

V 43/209 0C 27 78

disposition will be the same as the file which they support. Files at George AFB, CA and Nellis AFB, NV will be retained for one year after completion of rehabilitation, permanent change of station or separation or 31 Dec 79, whichever is later.

System manager(s) and address: Deputy Chief of Staff Personnel, Headquarters United States Air Force. Subordinate systems managers are: (1) Director of Personnel at each major command and (2) Chief of Social Actions at Air Force installations for systems operated at each level.

Notification procedure: Chief, Social Actions servicing AF installation. Requests to determine existence of a file should include full name, grade, and unit of assignment. Systems exempted from certain provisions of the act: NONE

F11730 0EACYVA

System name: 17730 0EACYVA Joint uniform military pay system (JUMPS)

System location: Air Force Accounting and Finance Center, Lowry AFB, Denver, CO 80279. Air Force Military Personnel Center, Randolph Air Force Base, TX 78148. consolidated base personnel offices at Air Force installations. accounting and finance offices at Air Force bases. At Air Force Data Systems Design Center, Gunter Air Force Station, AL 36114 (for research and test only), Denver Federal Archives and Records Center, Denver, CO 80225 (storage), Records Center Annex GSA, PO Box 141, Neosho, MO 64850 (back-up storage). Information pertaining to geographically dispersed elements of the record system (CBPO's and AFO's) may be obtained from Documentation Managers at the applicable Air Force component listed in the Department of Defense Directory in the appendix to the Air Force system notice.

Categories of individuals covered by the system: Air Force active duty military personnel and dependents. Retired Air Force military personnel. Separated Air Force military personnel, individuals to whom active duty military personnel authorize a direct payment of a portion of their pay, and Officers of the Air Reserve and Air National Guard on extended active duty.

Categories of records in the system: Military pay records and files including but not limited to; master military pay accounts, immediate access storage, six-months history, leave and earnings statements, federal insurance contribution act tax and federal income tax withholding contained on magnetic tape, magnetic discs, microfilm, microfiche and computer printed formats; pay authorization control files, central pay authorization file, deferred transaction file, reject suspense file and daily transaction record. Military pay supporting documents and vouchers including but not limited to basic pay; special compensation positions such as medical, dental, veterinary and optometry; special pay such as foreign duty, proficiency, hostile fire and diving duty; status adjustments relating to entrance on active duty, absent-without-leave, confinement, desertion, sick or injured, leave, mentally incompetent, missing, interned, permanent change of station, promotions and demotions; separation, reenlistment, reenlistment bonus; incentive pay such as flying duty, stress duty, demolition duty, parachute jumping duty and submarine duty; allowances, such as basic allowance for subsistence, basic allowance for quarters, family separation allowances, overseas station allowances, clothing monetary allowance; separation payments, death gratuities, time-in-service; allotments of pay; checks-to-banks; federal and state withholding taxes; court-martial sentences and non-judicial punishment; indebtedness resulting from but not limited to overpayment of pay and allowances and allotments, other debts to United States, certain

non-government debts, and correspondence pertaining to all of the above. Inquiries files, personal financial records and sundry lists, reports and rosters including but not limited to Internal Revenue reports, state tax reports, Veterans Administration reports, Social Security Administration reports, and Treasury reports.

Authority for maintenance of the system: 37 USC 101 et seq.; 10 USC 265,8033,8496; 10 USC 9837 (d); 32 USC 708; E.O. 9397.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The purposes of these records are to accurately and timely pay members of the Air Force, provide members periodic comprehensive statements of their accounts, and to respond to inquiries concerning their accounts at any time. US Air Force components such as Headquarters, Air Force Accounting and Finance Center, Major Commands and Air Force installations use these records to determine pay due military members, to verify pay affecting information, to collect overpayments made to military members, to provide accrual accounting for each covered entitlement of military pay and allowances, and to provide fund manager reports, internal manager reports and external reports. Other users include but are not limited to other components of Department of Defense such as Army and Navy which may pay Air Force members and initiate claims; other federal agencies such as the Internal Revenue Service for tax information on members, Social Security Administration for information regarding Federal Insurance Contribution Act tax deducted from members, Veterans Administration for information regarding premiums on serviceman's group life insurance, the General Accounting Office for audits, opinions, and fact-finding information, state and local governments for tax and welfare information, US and state courts for civil litigation and criminal prosecution purposes, members of Congress for complaints from constituents and for inquiries not generated by constituents, insurance companies for allotments made to them by military members, financial institutions for deposits (checks-to-banks) and/or payments, the American Red Cross and the Air Force Aid Society. Records may be disclosed to law enforcement agencies such as but not limited to office of Special Investigations, United States Air Force; Federal Bureau of Investigation; city and state authorities for violations of law, for investigation and possible criminal prosecution, civil court action or regulatory processes. Disclosures made pursuant to the Freedom of Information Act. Disclosures to the Department of Justice for criminal prosecution, civil litigation, or for investigatory purposes. American Red Cross uses this information to determine needs of a member or his dependents in emergency situations. The Air Force Aid Society uses this information to determine needs of a member or his dependents in emergency situations and for verification of loan applications. The name, rank and social security number of each member of the Armed Services on active duty may be disclosed as a routine use to the Department of Health, Education and Welfare (DHEW). This information shall be extracted from systems of records used for making paymentto military personnel on active duty. This information may be sumbitted to the Inspector General of DHEW upon request of that department only for comparison with appropriate rolls reflecting recipients of Aid to Families with Dependent Children (AFDC).

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained in file folders/ note books/binders/bisible file binders/cabinets/card files, computer magnetic tapes and maintained on computer paper printouts, and on roll mircrofilm and microfiche.

Retrievability: Filed by Name, Social Security Number (SSN), or Military Service Number.

Safeguards: Records are accessed by custodian of the record system and by person(s) responsible for servicing the record system in performance of their official duties who are properly screened and cleared for need-to-know. Records are stored in security file containers/cabinets/ locked cabinets or rooms, protected by guards, and controlled by personnel screening, visitor registers and computer system software.

Retention and disposal: local retention varies from 3 to 6 years. At expiration of local retention, records are either destroyed by tearing, shredding, pulping, macerating or burning or transferred by the Air Force Accounting and Finance Center to the Denver Federal Archives and Records Center for varying retention periods up to 56 years. Destroyed by shredding. Back-up records for emergency reconstruction in the event of primary record destruction are retained by the Federal Records Center Annex GSA at Neosho MO. Destruction is by shredding.

System manager(s) and address: Comptroller of the Air Force, Headquarters United States Air Force.

Notification procedure: Information as to whether the record system contains information on an individual may be obtained from AFAFC/DAD, Lowry AFB, Denver, CO, 80279, telephone (303) 320-7553. Information pertaining to geographically dispersed elements of the record system may be obtained from Documentation Managers at the applicable Air Force component listed in the Department of Defense Directory in the appendix to the Air Force system notice. Requester should be able to provide sufficient proof of identity, such as name, social security account number, military status, duty status or place of employment or other information verifiable from the record itself.

Record access procedures: Request from individuals should be addressed to AFAFC/DAD, Lowry AFB, Denver, Colorado, 80279 Denver, CO, 80279, telephone (303) 320-7553. the record system may be obtained from Documentation Managers at the applicable Air Force component listed in the Department of Defense Directory in the appendix to the Air Force system notice. Requester should be able to provide sufficient proof of identity, such as name, social security account number, military status, duty status or place of employment or other information verifiable from the record itself.

Contesting record procedures: The Air Force's rules for access to records and for contesting and appealing initial determinations by the individual concerned may be obtained from the Systems Manager.

Record source categories: Information obtained from financial institutions, automated system interfaces, a state or local government, source documents (such as reports) prepared on behalf of the Air Force by boards, committees, panels, auditors, and so forth, military pay information originating from telephone inquiries telegraph messages and correspondence information from federal agencies and other DoD components and information from Air Force installations, Major Commands and USAF Headquarters.

Systems exempted from certain provisions of the act: NONE

F17802X0OTAYZM

System name: 17802X0OTAYZM Personnel Cost Accounting System (PCAS)

System location: Air Force Data Services Center (AFDSC), Pentagon, Washington, DC 20330. Air Force Data Systems Design Center (AFDSDC), Gunter AFS, AL 36114.

Categories of individuals covered by the system: Air Force active duty military personnel and civilian employees assigned at each location.

Categories of records in the system: Records amount of time spent on various projects/tasks, administrative duties, leave, Temporary Duty(tdy), leave without pay(LWOP) and clerical time. Also records overtime and compensator time.

Authority for maintenance of the system: 10USC 8012

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The PCAS system was established to provide information for management about manpower utilization in the Air Force Data Services Center. Anticipated users of the PCAS system: Commander, Air Force Data Services Center. Directors and Division Chiefs, Air Force Data Services Center. Functional analysts assigned to the office of Plans and Management, Air Force Data Services Center. Specific uses of the PCAS data by all AFDSC management personnel and by the Commander include: Monitoring of manpower resources expended in support of automatic data processing (ADP) projects. Determining and validating requirements for additional manpower. Examining distribution of workload among the AFDSC directorates.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained on disks or drums. Maintained on computer paper printouts.

Retrievability: Filed by Social Security Number (SSAN). Filed by Military Service Number.

Safeguards: Records are accessed by person(s) responsible for servicing the record system in performance of their official duties. Records are controlled by computer system software.

Retention and disposal: Retained in office files for one year after annual cut-off, then destroyed by tearing into pieces, shredding, pulping, macerating, or burning.

System manager(s) and address: Commander, Air Force Data Services Center, Pentagon, Washington, D.C. 20330. Chief, Management Information Team, AFDSC, Pentagon, Washington, D.C. 20330.

ADDITIONS

Notice is given that the system of records notices listed below are added. These notices are published to more clearly describe Air Force records and replace other notices deleted above. Since these notices do not create any new records or change any individual rights, they are not subject to Office of Management and Budget (OMB) reporting requirements as set forth in the Federal Register (40 FR 45877) on October 3, 1975.

F05001 AFSS A

System name: Training summaries.

Insert: Before system F05001 SAFOI B.

Reason: Notice combines and better describes a single system of files formerly listed under F05001 OUJCGJA, F05001 OUJCGJB, F05001 OUGCGJC and F05001 OUJCGJP.

F05001 AFFS A

System name: Training summaries.

System location: United States Air Force School of Applied Cryptologic Sciences (USAFSACS) to Goodfellow Air Force Base TX, 76903.

Categories of individuals covered by the system: Air Force, Navy and Marine Corps active duty military personnel.

Categories of records in the system: IBM cards containing names, course, entering date, grades.

Authority for maintenance of the system: 10 U.S.C. 8012.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used by Security Service training groups Divisions and Security Service personnel to identify and schedule students on a weekly basis.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained on computer and computer products.

Retrievability: Filed by Name and Social Security Number (SSN).

Safeguards: Records are accessed by custodian of the record system and controlled by computer system software.

Retention and disposal: Retained in office files for one year after annual cut-off, then destroyed by tearing into pieces, shredding, pulping, macerating or burning.

System manager(s) and address: United States Air Force School of Applied Cryptologic Science, Goodfellow Air Force Base, TX 76901.

Notification procedure: Requests from individuals should be addressed to the Systems Manager.

Record access procedures: Individuals can obtain assistance in gaining access from the Systems Manager.

Contesting record procedures: The Air Force's rules for access to records and for contesting and appealing initial determinations by the individual concerned may be obtained from the Systems Manager.

Record source categories: Information obtained from automated system interfaces.

Systems exempted from certain provisions of the act: None.

F17801 OJ RS A

System name: Recruiting Advertising Evaluation.

Insert: Before system F17801 OKPNQSA.

Reason: Notice is being extensively edited for increased clarity, accuracy and detail.

F17801 OJ RS A

System name: Recruiting Advertising Evaluation (RAE).

System location: Air Force Opportunity Center (AFOC) (Duties of this Center are performed by a civilian contractor who is engaged by the Air Force to provide lead fullfillment services to Headquarters, United States Air Force Recruiting Service, Randolph AFB, TX 78148. Location depends on the contractor.

Categories of individuals covered by the system: Respondents to United States Air Force Recruiting Service advertisements and referrals made by active duty military personnel, retired military personnel and Air Force civilian employees.

Categories of records in the system: Respondent's inquiry record containing name, Social Security Number, address, date of birth, sex, telephone number, advertising medium, recruiting program in which interested, and source of referral, including name and Air Force base assigned. Recruiter contact records containing success of contact efforts, reason for not contacting, how contact was made, confirmation of educational level, qualification of individual and status of individual.

Authority for maintenance of the system: 10 U.S.C. 503 and E.O. 9397.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The contractor fullfills requests from respondents for information about the Air Force and notifies appropriate recruiting activities of respondent's interest. Contractor develops statistical summaries which are used by USAF Recruiting Service to evaluate the effectiveness of the advertising and referral program.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Retention and disposal: Contractor retains at the AFOC for two years, then destroys. HQ USAF Recruiting Service retains on computer paper printouts for 60 days, then destroys. Subordinate recruiting activities retains for one year after final follow up action is complete, then destroys.

System manager(s) and address: Director, Marketing and Analysis, USAF Recruiting Service, Randolph AFB, TX 78148.

Record source categories: Requests/responses from public media advertising and referrals from Air Force active duty and retired military personnel and civilian employees.

Systems exempted from certain provisions of the act: None.

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechinics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the grographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

MODIFICATION TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State.

Alabama—AL78-1004, February 3, 1978.
Arizona—AZ78-5114, August 11, 1978; AZ78-5115, AZ78-5116, July 28, 1978.
Connecticut—CT78-3055, CT78-3056, July 28, 1978.
Idaho—ID78-5120, September 8, 1978.
Nevada—NV78-5010, March 10, 1978; NV78-5124, September 15, 1978.
New Jersey—NJ78-3009, April 21, 1978; NJ78-3047, June 16, 1978.
Ohio—OH78-2056, May 12, 1978.
Pennsylvania—PA78-3045, May 12, 1978; PA78-3066, September 22, 1978.
Tennessee—TN78-1049, May 19, 1978.
Texas—TX78-4034, TX78-4038, April 14, 1978; TX78-4081, August 18, 1978; TX78-4083, TX78-4088, August 25, 1978; TX78-4091, September 15, 1978; TX78-4094, TX78-4095, September 22, 1978.
Utah—UT8-5128, October 6, 1978.
Virginia—VA78-3061, September 15, 1978.

SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State. Supersedeas decisions numbers are in parentheses folllowing the numbers of the decisions being superseded.

Georgia—GA78-1050(GA78-1092), May 26, 1978.
Illinois—IL78-2028(IL78-2113), IL78-2036(IL78-2123), IL78-2039(IL78-2126), IL78-20-40(IL78-2127), IL78-2041(IL78-2128), March 17, 1978; IL78-2042(IL78-2138), March 24, 1978.
Minnesota—MN78-2118(MN78-2150), MN78-2119(MN78-2150), October 13, 1978.
Nevada—NV78-5011(NV78-5129), March 17, 1978.
New York—NY78-3001(NY78-3079), February 3, 1978.
Pennsylvania—PA77-3060(PA78-3090), May 20, 1977.
Wisconsin—WI77-2092(WI78-2146), June 24, 1977; WI77-2111(WI78-2130), September 23, 1977; WI77-2117(WI78-2131), WI77-2118(WI78-2134), WI77-2120(WI78-2135), WI77-2121(WI78-2136), WI77-2122(WI78-2137), August 19, 1977.

CANCELLATION OF GENERAL WAGE DETERMINATION DECISIONS

None.

Signed at Washington, D.C. this 20th day of October 1978.

DOROTHY P. COME,
Assistant Administrator,
Wage and Hour Division.

CLASS 4	10.40	.65	.80		.08
CLASS 5	9.35	.65	.80		.08

CLASS 1 - Crane, shovel, clamshell, dragline, backhoe, derrick, towe crane, cableway, concrete spreader (servicing two pavers), asphalt spreader, asphalt mixer plant engineer, dipper operator, dipper dredge craneman, dual purpose truck (boom o winch), leverman or engineman (Hydraulic dredge), mechanic, paving mixer with tower attached (two operators required), pile driver, boom tractor, stationary, portable or floating mixing plant, trenching machine, cleaning and priming machine, endloader (one half cubic yard or over, on basement excavation work), backfiller, (throw bucket), locomotive engineer, Qualified welder, tow or push boat concrete paver, seaman Trav-L-Plant or similar machine, CMI autograder or similar machine, slip form paver, caisson augering machine, mucking, asphalt heater-planer unit hydraulic cranes, mine hoists

CLASS 2 - Athey, Barber-Green, euclid or hasis loader, asphalt pus mill, fireman and driver, concrete pump, concrete spreader (servicing one paver), bulldozer, endloader (other than mentioned above), forklift, elevating grader, group equipment greaser, letournapull and similar machine, DW-10, straddle carrier, hyster winch and similar machines, motor patrol, power blade push cat, tractor pulling elevating grader or power blade, tractor operating scoop or scraper, tractor with power attachment, roller on asphalt or blacktop, single drum hoists, Jaeger mix and place machine, pipe bending machine, welding machines (3 or 4), fuller kenyon cement pump or similar machines, automatic cement and gravel batch plants (one stop set-up), Seaman pulvi-mixer or similar machines, propelled sheep foot roller or compactor (used in conjunction with a grading spread), aephalt spreader screed operator apsco spreader or similar machine, slusher, forklift (over 6,000 lb. cap. or working at heights above 28 ft.) conveyors

DECISION NO. IL78-2123

POWER EQUIPMENT OPERATORS: (CONT'D)

CLASS 3 - Asphalt booster, fireman and pump operator at asphalt plant, compressor (500 cu. ft. and over), concrete finishing machine, form grader with roller on earth, mixers (3 bag to 16E), power operated bull float, tractor without power attachment, Dope not (agitating motor), dope chop machine, distributor (back end), flexplane or similar machines, portable machine fireman, Hydrohammer, power winch on paving work, self-propelled roller or compactor (other than provided for above), pump operator crusher operator, trench machine (40 H.P. and under), power sub grader (on forms), or similar machines, Forklift (6000 or less cap.) Gypsum pump, conveyor over 20 H.P.

CLASS 4 - Air compressor (275 c.f.m. or over) driver on truck crane or similar machines, light plant, mixers (1 or 2 bags), power batching machine (cement auger or conveyor), boiler (engineer or fireman, water pumps, welding machine, mechanical broom, automatic cement and gravel batch plants (two or three stop set-up), small backhoes or endloaders-self-propelled curing machine

DECISION NO. IL78-2123

ILL-82-TD-1-2-2

TRUCK DRIVERS

	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	Education and/or Appr. Tr.
GROUP I	$10.125	.65	a31.00		
GROUP II	10.525	.65	a31.00		
GROUP III	10.725	.65	a31.00		

GROUP I - Drivers on 2 axle trucks hauling less than 9 tons, air compressor and welding machine including those pulled by separate units, truck driver helpers, warehouseman, mechanic helpers, greasers & tiremen, pick-up trucks when hauling materials, tools, or men to and from and on the jobs site, Fork lifts up to 6,000 lbs., capacity.

GROUP II - 2 or 3 axle trucks hauling more than 9 ton, but hauling less than 16 tons, A-frame winch trucks, hydrolifts trucks, or similar equipment when used for transpotation purposes, fork lifts over 6,000 lb. capacity, winch trucks, 4-axle combination units, ticket writers

GROUP III - 2,3 or 4 axle trucks hauling 16 tons or more, driers on oil distributores, water pulls, mehcanics & working foreman, 5-axle or more combination units, dispatchers

LABORERS

Group 1: All cleanup work of debris, grounds, and buildings including Brushloader and windows and tile; Dumpman or Spotter (other than asphalt); General Laborer; Gardeners and Landscape Laborers; Limber, Brushloader and Piler; Flagman

Group 2: Choker Setter or Rigger (clearing work only); Pittsburgh Chipper and similar type Brush Shredders; Concrete Worker (wet or dry) - all concrete work not listed in Group 3; Crusher or Grizzly Tender; Guinea Chaser (Stakeman); Panel Forms (wood or metal) - handling, cleaning and stripping of; Loading and unloading, carrying and handling of all rods and materials for use in reinforcing concrete; Railroad Trackmen (maintenance, repair or builders); Sloper; Semi-skilled Wreckers (salvaging of building materials other than those listed in Group 3); Greasing Dowels

Group 3: Asphalt Workers (Ironers, Shoveler, Cutting Machine); Buggymobile; Chainsaw, faller, logloader and bucker; Compactor (all types); Concrete Mixer under 1/2 yards; Concrete Pan Work (breadpan type), (handling, cleaning, stripping); Concrete Saw, Shipping, Grinding, Sanding, Vibrator; Cribbing, Shoring, Lagging, Trench Jacking, hand-guided Lagging Hammer; Curbing or Divider Machine; Curb Setter (precast or cut); Ditching Machine (hand-guided); Drillers' Helper, Chuck Tender; Form Raiser, Slip Forms; Grouting of concrete walls, windows and door jams; Headerboardman; Jackhammer, Pavement Breaker, Air Spade; Mastic Workers (wet or dry); Pipe Wrapper, Kettleman, Potman, and Men applying asphalt, creosote and similar type materials; All power tools (air, gas or electric) not listed in Group 5); Pipejacking; Posthole Digger (air, gas or electric); Post Driver; Riprap-stonepaver and Rock Slinger, including placing of sack concrete wet or dry; Rototiller; Rigging and Signaling in connection with Laborers' work; Sandblaster, Potman, Gunman or Nozzleman; Vibra-screed; Skilled Wrecker (removing and salvaging of sash, windows, doors, plumbing and electrical fixtures

Group 4: Burning and Welding in connection with Laborers' work; Joy Drill Model TWM-2A, Gardner Denver Model DN 143 and similar type drills; Track Drillers, Diamond Core Drillers, Wagon Drillers, Mechanical Drillers on multiple units; High Scalers; Concrete Pump; Heavy Duty Vibrator with stinger 5" diameter or over; Pipelayer, Caulker and Bander; Pipelayer - waterline, sewerline, gasline or conduit; Asphalt Rakers

Group 5: Blasters and Powdermen, all work of loading, placing and blasting of all powder and explosives of any type, regardless of method used for such loading and placing

Group 6-A: Nozzleman

Group 6-B: Gunman, Materialman

Group 6-C: Reboundman

SEE "AREA DEFINITIONS' Following TRUCK DRIVERS

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

Group 1-A: Assistant to Engineer, including Brakeman, Deckhand, Fireman, Oiler, Partsman (heavy duty repair shops parts room when needed), Switchman, Tar pot Fireman; Boiler Tender

Group 2: Compressor; Material Loader and/or Conveyor (handling building materials); Pump; Tar Pot Fireman (power agitated)

Group 3: Box Operator (Bunker); Concrete Curing Machines (streets, highways, airports, canals); Conveyor Belt (tunnel); Engineer Generating Plant (500 H.W.); Fireman, Hot Plant, Hydraulic Monitor; Lubrication and Service Engineer (mobile and grease rack); Mixer Box Operator (concrete plant); Motorman; Rotomist; Screedman (except Asphaltic or concrete paving); Oiler (truck crane); Rodman or Chainman; Bobcat or similar loader, 1/4 cu. yd. or less

Group 4: Ballast Jack Tamper; Ballast Regulator; Ballast Tamper Multi-purpose; Boxman (asphalt plant); Concrete Mixer, Skip type; Dinky; Fork Lift (construction job site); Ross Carrier; Skip Loader (under 1 cu. yd.); Tie Spacer; Line Master

Group 5: Concrete Mixer (over 1 cu. yd.); Concrete Pumps or Pumperete Guns; Elevator and Material Hoist (1 drum); Screedman (Barber-Greene and similar) (asphaltic or concrete paving); Shuttle Car; Signalman

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Group 6: Boom Truck or Dual Purpose "A" Frame Truck; B.L.H. Lima Road Pactor or similar; Chip Box Spreader (Flaherty type or similar); Concrete Batch Plant (wet or dry); Concrete Saws (highways, streets, airports, canals); Highline Cableway Signalman; Locomotive (over 30 tons); Maginnis International Pull Slab Vibrator (airports, highways, canals, warehouses); Mechanical Burn, Curb and/or Curb Gutter Machine (concrete or asphalt); Power Jumbo (setting slip forms, etc., in tunnels); Roller (except asphalt); Self-propelled Compactor (single engine); Slip Form Pump (power driven by hydraulic, electric, air, gas, etc., lifting device for concrete forms); Stationary Pipe Wrapping, Cleaning and Bending Machine; Pavement Breaker or Tamper (with or without compressor combination); Pavement Breaker, truck mounted, with compressor combination; Small Rubber-tired Tractors; Self-propelled Tape Machine; Auger type drilling equipment up to and including 30 ft. depth digging capacity m.r.c.

Group 7: Compressor (over 2); Concrete Conveyor; Concrete Conveyor or Concrete Pump, truck or equipment mounted (boom length to apply); Crusher Plant Engineer; Deck Engineer; Drilling and Boring Machinery, vertical and horizontal (not to apply to waterliners, wagon drills or jackhammers); Generators; Grade Setters; Grade Checker; Kolman Loader; Material Hoist (2 or more drums); Mechanical Finishers or Spreader Machine (asphalt, Barber-Greene and similar); Mine or Shaft Hoist; Pipe Bending Machines (Pipelines only); Pipe Cleaning Machines (tractor propelled and supported); Pipe wrapping Machines (tractor propelled and supported); Portable Crushing and Screening Plants; Pumps (over 2); Refrigeration Plant; Self-propelled Boom type lifting device (center mount)(10 ton capacity or less); Slusher; Soil Tester (certified); Surface Heater and Planer; Trenching Machine (maximum digging capacity 3 ft. depth); Truck type loader; Welding Machines (gasoline or diesel); Roller (asphalt); Instrument Man; Auger type drilling equipment over 30 ft. depth capacity m.r.c.

Group 8: Asphalt Plant Engineer; Car Passer; Cast-in-place Pipe Laying Machine; Combination Slusher and Motor; Dozer; Concrete Batch Plant (multiple units); Elevating Grader; Grooving and Grinding Machine (highways); Heavy Duty Repairman and/or Welder; Ken-seal; Loader (up to and including 2½ cu. yds.); Mechanical Trench Shield; Mixermobile; Push Cats; Road Oil Mixing Machine; Wood-mixer (and other similar pugmill equipment); Rubber-tired Earthmoving equipment (up to and including 35 cu. yds. "struck" m.r.c) (Euclids, T-Pulls, DW's 10, 20, 21 and similar); Self-propelled Compactor with Dozer; Sheepfoot; Small Tractor (with boom); Soil Stabilizer (P & H or equal); Timber Skidder (rubber tire) or similar equipment; Tractor; Tractor drawn scraper; Tractor mounted Compressor Drill Combination; Trenching Machine (over 3ft. depth); Tri-batch Paver; Tunnel Badger or Tunnel Boring Machine; Tunnel Mole Boring Machine; Vermeer T-600 B Rock Cutter

Group 9: Canal Finger Drain Digger; Chicago Boom; Combination Backhoe and Loader (up to and including 3/8 yds.); Combination Mixer and Compressor (gunnite); Lull Hi-Lift (20 ft. or over); Mucking Machine; Tractor with boom (D-6 or larger); Track Laying type Earth Moving Machine (single engine with tandem scrapers); Sub-grader (Gurries or other types)

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Group 10: Boom type Backfilling Machine; Bridge Crane; Cary-lift or similar; Chemical Grouting Machine; Derricks; Derrick Barges (except excavation work); Euclid Loader and similar types; Heavy Duty Rotary Drill Rigs; Lift-slab (Vagtborg and similar types); Loader (over 2½ cu. yds. up to and including 4 cu. yds.); Locomotive (over 100 tons) (single or multiple units); Multiple Engine Earth Moving Machines (Euclid, Dozers, etc.); Pre-stress Wire Wrapping Machine; Rubber-tired Scraper, self-loading; Self-propelled Reservoir-debris equipment floating (200 HP and over); Shuttle Car (Re-claim Station); Single Engine Scraper (over 35 cu. yds.); Train Loading Station; Vacuum Cooling Plant; Whirley Crane (up to and including 25 tons); Trenching Machine; Multi-engine with sloping attachments (JEFFCO or similar); Chief of Party

Group 10-A: Backhoe (up to and including 1 cu. yd. hydraulic); Backhoe (up to and including 1 cu. yd. cable); Cranes (not over 25 tons) (hammerhead and Gantry); Grade-alls (up to and including 1 cu. yd.); Motor Patrol; Power Shovels, Clamshells, Draglines, Cranes (up to and including 1 cu. yd.); Rubber-tired Scraper, self-loading (twin engine); Self-propelled Boom-type Lifting Device (center mount) (over 10 tons); CMI dual lane auto-grader SP30 or similar

Group 11: Automatic Asphalt or Concrete Slip Form Paver; Automatic Railroad Car Dumper; Canal Finger Drain Backfiller; Canal Trimmer; Cranes (over 25 tons); Highline Cableway Operator; Loader (over 4 yds. up to and including 12 cu. yds.); Multi-engine Earthmoving Equipment (up to and including 75 cu. yds. "struck" m.r.c.); Power Shovels, Clamshells, Draglines, Backhoes, Gradeall (over 1 yd. and up to and including 7 cu. yds. m.r.c); Self-propelled Compactor (with multiple propulsion power units); Single Engine rubber-tired Earth-moving Machine (with tandem scraper); Slip Form Paver (concrete or asphalt); Tandem Cats and Scrapers; Tower Crane Mobile; Universal Liebher and Tower Cranes (and similar types); Wheel Excavator (up to and including 750 cu. yds. per hour); Whirley Cranes (over 25 tons); Euclid Loader when controlled from the Pullcat

Group 11-A: Band Wagons (in conjunction with wheel excavators); Loaders (over 12 cu. yds.); Multi-engine Earth-moving Equipment (over 75 cu. yds. "struck" m.r.c); Operator of Helicopter (when used in construction work); Power Shovels and Draglines (over 7 cu. yds. m.r.c.); Remote-controlled Earth-moving Equipment; Wheel Excavator (over 750 cu. yds. per hour)

AREA DEFINITIONS
Power Equipment Operators and Truck Drivers
WASHOE COUNTY

AREA 1: All of Northern Nevada within the following lines:

Commencing at the N.W. corner of Township 22N, Range 18E, Mount Diablo Baseline and Meridian at the California-Nevada border;
Thence Easterly to the N.E. corner of Township 22N, Range 22E;
Thence Southerly to the N.E. corner of Township 20N, Range 22E;
Thence Easterly to the N.W. corner of Township 20N, Range 26E;
Thence Northerly to the N.W. corner of Township 22N, Range 26E;
Thence Easterly to the N.W. corner of Township 22N, Range 26E;
Thence Northerly to the N.W. corner of Township 30N, Range 29E;
Thence Easterly to the N.E. corner of Township 30N, Range 33E;
Thence Southerly to the S.E. corner of Township 24N, Range 33E;
Thence Westerly to the S.E. corner of Township 24N, Range 31E;
Thence Southerly to the S.E. corner of Township 16N, Range 31E;
Thence Westerly to the S.E. corner of Township 24N, Range 31E;
Thence Southerly to the S.E. corner of Township 16N, Range 31E;
Thence Westerly to the S.E. corner of Township 24N, Range 31E;
Thence Southerly to the S.E. corner of Township 15N, Range 30E;
Thence Westerly to the S.E. corner of Township 15N, Range 27E;
Thence Southerly to the S.E. corner of Township 14N, Range 27E;
Thence Westerly to the S.E. corner of Township 14N, Range 23E;
Thence Southerly to the S.E. corner of Township 13N, Range 23E;
Thence Westerly to the S.E. corner of Township 13N, Range 22E;
Thence Southerly to the N.E. corner of Township 10N, Range 22E;
Thence Easterly to the N.E. corner of Township 10N, Range 23E;
Thence Southerly along the Easterly line of Range 23E to the intersection of the California-Nevada Border;
Thence North-Westerly, then Northerly following the California-Nevada Border to the point of beginning.

AREA 1 also includes that portion of Northern Nevada included within the following line:

Commencing at the S.W. corner of Township 37N, Range 52E;
Thence Easterly to the S.E. corner of Township 37N, Range 52E;
Thence Northerly to the N.E. corner of Township 37N, Range 52E;
Thence Easterly to the N.E. corner of Township 37n, Range 58E;
Thence Southerly to the S.W. corner of Township 37N, Range 58E;
Thence Easterly to the S.E. corner of Township 37N, Range 58E;
Thence Southerly to the N.E. corner of Township 31N, Range 58E;
Thence Westerly to the N.W. corner of Township 31N, Range 58E;
Thence Southerly to the S.W. corner of Township 31N, Range 58E;
Thence Westerly to the S.E. corner of Township 31N, Range 52E;
Thence Northerly to the N.E. corner of Township 31N, Range 52E;
Thence Westerly to the S.E. corner of Township 32N, Range 51E;
Thence Northerly to the point of beginning.

AREA 2: All areas not included within Area 1 as defined above.

SUPERSEDEAS DECISION

STATE: NEW YORK COUNTIES: NASSAU AND SUFFOLK
DECISION NO.: NY78-3079 DATE: DATE OF PUBLICATION
Supersedes Decision No. NY78-3001 dated February 3, 1978 in 43 FR 4820
DESCRIPTION OF WORK: Building Construction, (excluding single family homes and garden type apartments up to and including 4 stories), Heavy and Highway Construction.

	Basic Hourly Rates	Fringe Benefits Payments H & W	Pensions	Vacation	Education and/or Appr. Tr.
Air Conditioning Mechanic	$ 8.78	a	.60	b	
Asbestos Workers	12.38	1.02	1.82		
Boilermakers	13.19	.5%	15%	7%	.02
Bricklayers:					
Bricklayers	11.04	1.48	3.38	.30	.01
Rehabilitation work on residential structures over 4 stories defined to include demolition, alteration and repair on any existing structure which is intended for predominantly residential use	9.15	1.13	1.33		
Carpenters:					
Nassau County (Except that part south of the Southern State Parkway, West of Seaford Creek-also Smithtown, Islip Island on the east. Long Island Sound on the north, and Middle Island Railroad track on the south):

Page 5

DECISION NO. NY78-3079

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes $102.83 per month to Health and Welfare.

b. For 0-6 months of service one week paid vacation; 6-12 months service 2 weeks paid vacation.

c. Employees employed on the last working day before Christmas Day and New Years Day and who report to work on such days shall receive 3 hours pay without working the afternoon.

d. Employer contributes $8.00 per day to Annuity Fund.

e. Paid Holidays: A through F, Lincoln's Birthday, Washington's Birthday, Columbus Day, Armistice Day and Election Day.

f. Employer contributes 6.4% of basic hourly rate for 5 years or more of service or 4.2% of basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

g. Paid Holidays: Christmas Eve and New Years Eve: If employee works a full ½ day on the working day immediately preceeding Christmas Day and New Years Day, they shall receive a full day's pay.

h. Work on Christmas Eve and New Years Eve shall terminate at noon, but employees will receive a full day's pay.

i. Paid Holidays; A through F, Washington's Birthday, Good Friday and Christmas Eve providing the employee has worked 30 full days during the 90 calendar days prior to the holiday and the regularly scheduled work days immediately preceeding and following the holiday.

j. Paid Holiday: ½ day's pay for Labor Day.

k. Employer contributes $5.00 per day to an Annuity Fund.

l. Employer contributes $4.00 per day to a Security Benefit Fund.

m. For each 15 days worked with the contract year an employee will receive one day's vacation with pay, with a maximum vacation of 3 weeks per year.

Health Care Financing Administration

MEDICARE AND MEDICAID HOSPICE PROJECTS

Announcement of Projects

The Office of Policy, Planning, and Research (OPPR) of the Health Care Financing Administration (HCFA) announces its intention to conduct demonstration projects with organizations providing hospice services. Applications for participation may be made by agencies and facilities which provide hospice home care only or both hospice home care and inpatient care. The demonstration projects will allow coverage and reimbursement for hospice services provided to medicare beneficiaries. (These projects will be conducted under section 402 of the Social Security Amendments of 1967, as amended by section 222(b) of Pub. L. No. 92-603.)

State medicaid agencies are invited to apply to HCFA to conduct demonstration projects under section 1115 of the Social Security Act, which would involve specific hospice programs. These applications would include requests for waivers necessary to provide similar benefits for medicaid beneficiaries.

PURPOSE

The goal of hospice care is to help terminally ill patients continue life with minimal disruption in routine activity, including working and remaining in the family environment. Hospice uses a multidisciplinary approach to delivering social, psychological, medical, and spiritual services through the use of a broad spectrum of professional and voluntary care givers with a goal of making the patient as physically and emotionally comfortable as possible. Integral to the hospice concept is the philosophy that pain is preventable and can be controlled through the use of drugs.

The hospice experience in the United States has placed emphasis on home care. It offers physician services, specialized nursing services, and other forms of care in the home in order to enable the terminally ill patient to remain at home in the company of family and friends as long as possible. Inpatient hospice settings have been utilized primarily where there is no one in the patient's home to assist in the care of the patient, the patient's pain and symptoms must be closely monitored in order to be controlled, or the family needs a rest from the tedium and stress in caring for the patient (respite care).

It has been hypothesized that in-home services provided through hospice care are equivalent in medical efficacy to services provided in and institutional setting, and that the in-home services can be provided at a substantially lower cost. And further, that where hospice services are provided in an inpatient setting, the costs of such care may be less than the average pe diem cost of a hospital.

The medicare and medicaid programs do not currently recognize a hospice as a separate category of provider, although some hospices are participating in these programs within existing provider classifications (e.g., hospital, skilled nursing facility, and home health agency). Some hospice services such as bereavement visits to the patient's family and drugs given in the home setting are not reimbursable under medicare.

State medicaid programs have different coverage for hospital, nursing home and home health services, and many do not cover certain services integral to hospice care.

The purpose of this invitation is to solicit demonstration sites where hospice services will be provided to medicare and medicaid beneficiaries and reimbursed by the medicare and medicaid programs. Central to these demonstrations will be an independent evaluation in order to assist HEW in making policy decisions regarding coverage of hospice services.

OBJECTIVES OF THE DEMONSTRATIONS AND EVALUATION

Among the specific objectives of conducting these demonstrations are the following:

1. Identify the levels of care and range of services provided by hospices in the home and inpatient settings.

2. Evaluate hospice services in various settings as an alternative service and delivery system for the care of the terminally ill.

3. Evaluate the comparative costs of hospice services provided in the home and inpatient settings and in various organizational hospice modes.

4. Develop standards regarding appropriateness and quality of care for hospice home care and hospice inpatient programs.

5. Identify alternate reimbursement methods for hospice services (e.g., cost, capitation, prospective rate).

6. Access the appropriate role of PSRO and other utilization review mechanisms.

7. Compare and assess the service provided under the hospice program to those in hospital and skilled nursing facilities for comparable diseases and prognoses.

8. Determine the extent to which the utilization of hospice services might affect overall costs of the medicare and medicaid programs as well as costs of other providers.

9. Determine changes in the health care delivery system due to the availability of the hospice service to medicare and medicaid beneficiaries in terms of:

a. Accessibility, availability and utilization of other components of the service area's health care delivery system;

b. The Demand for in-home and inpatient hospice care; and

c. Financial, or revenue problems, if any, encountered by the hospice before, during, and after the demonstration project.

10. Record patient, family, and physician attitudes toward hospice services.

The evaluation of the demonstrations will be conducted by an independent evaluator to be selected by HCFA.

GENERAL POLICY CONSIDERATIONS

1. *Eligible hospices.* For purposes of this invitation and participation in the demonstration, an organization must demonstrate to HCFA that it meets all of the following conditions:

(a) Offers a program with the following characteristics:

The patient and family comprise the unit of care;

Emphasis is placed on symptom control;

There is overall physician direction of the program;

Comprehensive services are provided by an interdisciplinary team with emphasis on round-the-clock availability of medical and nursing skills;

Volunteers comprise an integral part of the team of care givers; and

Care of the family extends through the bereavement period.

(b) Currently has the capability of providing: (i) Home health care services (hospice home care program) or (ii) home health care services and the capability of providing institutional services which may substitute for acute hospital care (inpatient hospice or hospice unit); and

(c) Is: (i) Certified as a home health agency and participates in Medicare (and medicaid where the hospice proposes to serve medicaid patients) or (ii) has contractual arrangements with a participating home health agency(ies) to provide home health services covered by Medicare (and medicaid, where appropriate).

The hospice must provide services directly or under arrangements with providers of service participating in the Medicare/Medicaid programs. Services provided under arrangements will be billed to the program by the hospice.

2. *Waiver of statutory and regulatory requirements.* Waivers of medicare coverage and reimbursement requirements and exclusions will be granted to successful respondents to permit payment for hospice services to patients with a life expectancy of 6 months or less. Respondents may also propose alternate reimbursement methods. Payment under medicaid will be made based on requests by State agencies for waivers under its medicaid program.

A hospice responding to this invitation will have to delineate all of the services which it will provide to the patients participating in the demonstration, and to the extent possible, identify those statutory and regulatory requirements that will need to be waived. Waivers should be requested only to allow medicare/medicaid coverage of those services which the hospice provides directly or under contractual arrangements.

The following examples of medicare requirements and exclusions are provided for the information of potential respondents. Contact should be made with the Medicaid State agency regarding waivers of medicaid requirements.

Medicare waivers for in-home hospice services may include:

a. Waiver of the "home-bound" requirement for home health services.

b. Waiver of the exclusion of drugs and biologicals provided in the home. Palliative drugs medically recognized and accepted will be reimbursed by the medicare program. HCFA will determine on an individual hospice basis whether coverage and reimbursement will extend to prescription drugs such as antiemetics, antidepressants, and steroids.

c. Waiver of the "skilled nursing requirement" so that payment will be made for services which are considered a custodial level of care.

d. Waiver of the requirement for a new plan of treatment upon a patient's discharge following reinstitutionalization. Because some hospice patients will be institutionalized to stabilize their conditions, the current medicare requirement that a new plan of treatment be established at each discharge may be waived.

e. Waiver of the current limits of 100 home health visits allowed under part A of medicare. Coverage of in-home hospice services may be expanded under part A of the medicare home health benefit with no numerical limits.

f. Waivers of the medicare provisions relating to a 3-day prior hospital stay, establishment of a plan of treatment by a physician within 14 days of discharge from a hospital or SNF and treatment for a condition treated in the hospital or SNF.

g. Waiver of exclusion of reimbursement for bereavement counseling to the family by a nurse or other qualified professional after the death of a hospice patient.

h. Waiver of restrictions on reimbursement for visits by psychologists, psychiatrists, and other qualified professionals made to the hospice patient and family.

i. Waiver of restrictions on reimbursement for visits made by the hospice team to hospice patients who have been reinstitutionalized.

j. Waiver of applicable coinsurance and deductibles for hospice services which are approved during the demonstration.

k. Waiver of the current medicare cost reimbursement principles for hospice services if respondent proposes and HCFA accepts an alternative reimbursement system (e.g., capitation, prospective rates, etc.).

l. Waiver of the requirement that a patient must be in need of skilled nursing care, physical therapy, or speech therapy in order to utilize home health benefits.

Medicare waivers for inpatient hospice services may include:

a. Waiver of current medicare cost reimbursement principles for services provided by hospitals and skilled nursing facilities (SNF's) if a respondent proposes and HCFA accepts an alternative reimbursement system.

b. Waiver of the level of care requirements which must be satisified before a patient can receive covered hospital or SNF services.

c. Waivers of the medicare requirements for a 3-day prior hospital stay, transfer within 14 days of discharge from a hospital, and treatment for a condition treated in the hospital.

d. Waiver of the current limits on hospital and SNF days, scope and duration of benefits such that limits on the stay in a hospital-hospice and SNF-hospice will not be applied.

e. Waiver of deductible and coinsurance for a patient admitted to an institutional hospice.

f. Waiver of the limitations of the "benefit period" for admission to and coverage of services provided by institutional hospices.

3. *Conditions for payment.* The following requirements must be met before payment may be made for medicare or medicaid beneficiaries:

a. Beneficiaries must have a life expectancy of less than 6 months as certified by a physician who has treated the patient or can be shown to have complete knowledge of the patient's medical status.

b. The hospice home care program must assure that a primary care person is available on an "around the clock" basis. (This can be a family member, friend, or hired help.)

c. Plans of treatment must be established within 3 days of admission to the home care hospice and within 2 days of admission to the inpatient hospice.

d. Beneficiaries must give informed consent, in writing, to the hospice plan of treatment.

4. *Method of reimbursement.* Reimbursement of hospice services will be made on a cost related basis following medicare principles of reimbursement for hospitals, SNF's and home health agencies, unless other specific reimbursements methods have been proposed and accepted. However, the cost for any capital expenditure (as defined in section 1122(g) of the Social Security Act) will not be recognized as a reasonable cost in determining reimbursement for demonstration project services, when such expenditures are initiated subsequent to agreement with the hospice program to participate in the project.

The respondent is encouraged to propose an alternative reimbursement system, e.g., a propective system or a capitation rate per month, or for total hospice care. (If the hospice proposal is deemed acceptable by HCFA, except that HCFA denies use of the proposed reimbursement system, HCFA reserves the right to offer such respondent reimbursement under the "reasonable cost" basis.) The method of reimbursement proposed by the State in its application for coverage of hospice inhome and inpatient services provided to medicaid recipients must be approved by HCFA.

Special project funds other than for the delivery of hospice services are not available under this announcement. Applicants interested in project grant funds for research or data collection activities are referred to the HCFA announcement of research and demonstrations grants which appeared in the FEDERAL REGISTER on April 13, 1978.

5. *Operational procedures.* Phase I of the demonstration activity will be a 3- to 6-month developmental period. Phase II will be a 24-month-demonstration period. Phass III will be a 3-month-close-out period.

HCFA will reimburse for hospice services provided to a beneficiary who lives longer than 6 months after the beneficiary becomes a hospice patient. Coverage and reimbursement will extend beyond the 24-month-demonstration period for those beneficiaries admitted to the hospice program on or before the end of the 24-month-demonstration period who have been admitted pursuant to the demonstration criteria.

All hospice medicare demonstration claims shall be submitted to and processed by an intermediary to be selected by HCFA. Upon determination that a patient is eligible for hospice services, all bills for hospice care provided to the patient and family, on an inpatient or home basis and whether the

care is provided by the hospice or by a certified provider with which the hospice has arrangements to provide cer-

and information collected in the course of the demonstration and evaluation. In recognition of the need to

Item	Description	Quantity	Date
	activities and

PART V

V 43/209 OCT 27 78

care is provided by the hospice or by a certified provider with which the hospice has arrangements to provide certain services to hospice patients shall be submitted to and processed by the specified intermediary.

For purposes of this project, all successful applicants will be required to sign a provider agreement pursuant to section 1866 of the Social Security Act.

For the purposes of Medicaid participation, the Health Care Financing Administration encourages hospices to work with their State medicaid agency to submit an application for a "waiver-only" demonstration project pursuant to section 1115(a) of the Social Security Act. We would expect that such medicaid applications would include the same scope of services and reimbursement methods proposed for medicare.

Responsibilities of Successful Respondents

1. *Data collection.* Participating hospices must agree to collect and provide information to HCFA or its agent for each patient participating in the demonstration. The data will include but will not be limited to: Source of patient referral; date of admission to hospice; length of time a patient is in hospice care; patient disposition when leaving hospice (e.g., death, admission to hospital, nursing home); place and date of patient's death; relationship of principal care giver in home; types and volume of services per visit/per day of inpatient hospice care; categories and specialities of personnel involved in providing services; and drug(s) provided and dosage(s).

In addition, HCFA or its agent will specify specific cost reporting requirements. Hospices which participate in the medicare and medicaid programs to provide other than hospice services must be able to maintain separate cost accounting records for their hospice program.

The participating hospices must provide data as requested by HCFA and the independent evaluator on a regular basis which will be specified during phase I. These reports include but are not limited to the reports listed below.

The project participants must make available to the HCFA evaluator all data, records, and reports of the hospice.

The responses received from all hospices in answer to this invitation will be made available to the independent evaluator. In the case of nonselected hospices, information in their responses may be used in a limited manner in the final evaluation report to describe the hospice approach to health care delivery.

HCFA is committed to protecting the confidentiality of patient records and information collected in the course of the demonstration and evaluation. In recognition of the need to protect patient privacy, all reports prepared during the project will primarily contain summary data only, and patients' names, addresses, social security numbers, or other patient-identifying information will not appear in any report. Individual case data will not be reported, except where appropriate approvals have been obtained from the individuals involved; otherwise, data will only appear in aggregate form combining the information from many cases or respondents.

2. *Reports.* The successful respondents shall be required to submit the following items, subject to the Project Officer's approval:

Item	Description	Quantity	Date
1	Phase I (3 to 6 mo) monthly status report summarizing project activities. Any deviations from original time table shall be included.	10 copies (3-6 mo status reports are required).	Not later than 15 calendar days after the end of each reporting calendar month.
2	Phase II (24-mo) semiannual reports summarizing project activities for the 6-mo period. Problems, suggested resolutions, agenda and minutes of all project-related meetings shall be included. Data requested above are to be included. The Project Officer may request additional reporting data.	10 copies (2 semiannual reports are required).	Not later than 15 calendar days after the end of each reporting quarter.
3	Phase II annual report (1st yr) containing a detailed summary of the reporting year's experience, data tabulations, observations, and suggestions for operational changes.	20 copies (1 annual report is required).	Not later than 90 calendar days after the end of the first reporting year
4	Phase III final report containing background information description of objectives, purposes and scope of the project for the 1st and 2d yr of the project; description of experimental activities and significant events; and other appropriate information and observations.	25 copies.....	Not later than 90 days after the end of the 2d yr
5	Working papers related to issues pertaining to the experiment.	As required by the project officer.	

Application Procedures

1. *Application forms.* A standard application kit has been developed for the HCFA research and demonstration program. The standard application consists of several parts, some of which will not be required for purposes of the hospice demonstration. However, respondents will be asked to provide information about their individual hospice program. Hospice programs interested in participating in these projects should request the application kits and guidance for completion of the forms from:

Health Care Financing Administration, Project Grants Branch, 4200-C, Mary E. Switzer Building, 330 C Street SW., Washington, D.C. 20201, Telephone 202-245-0671.

The hospice program application to HCFA will be for medicare purposes. The State medicaid agency must submit a separate application to HCFA for medicaid purposes. (This requirement is necessitated by the separate and distinct authorities for demonstration activity and reimbursement under the two programs.)

2. *Closing dates and times.* In order to be considered under this invitation for participation in a demonstration project, applications from hospice programs must be received by the Project Grants Branch (at the address shown above) not later than 3 p.m. local time, Monday, January 15, 1979. Applications from medicaid State agencies must be received by the Project Grants Branch not later than 3 p.m. local time, Monday, January 29, 1979. Applications received after these cutoff dates will not be considered unless they were sent by registered or certified mail 5 working days in advance of the specified dates. The postmark on the package will establish the date the application was mailed.

(Section 402 of the Social Security Amendments of 1967, as amended by section 222(b) of Pub. L. 92-603; section 1115(a) of the Social Security Act.) (42 U.S.C. 1315.)

Dated: October 24, 1978.

William D. Fullerton,
Acting Administrator, Health Care Financing Administration.

FISCAL YEAR 1979 VETERANS PREFERENCE INDICATORS OF COMPLIANCE LEVELS

AGENCY: Employment and Training Administration, Labor.

ACTION: Proposed rule.

SUMMARY: The Employment and Training Administration of the Department of Labor is proposing to update the levels for the veterans preference indicators of compliance for fiscal year 1979 as it is required to do on an annual basis by its regulations. The veterans preference indicators of compliance are used by the Department to monitor State employment service agencies to insure that veteran applicants receive priority service as required by 38 U.S.C. Chapters 41 and 42 and by 20 CFR Part 653, Subpart C. In addition, some revision in definitions of veterans of the Vietnam era is proposed.

DATES: Comments due November 27, 1978.

ADDRESSES: Comments on the proposed rule should be sent to: William B. Lewis, Administrator, U.S. Employment Service, Room 8000, 601 D Street NW., Washington, D.C. 20213.

FOR FURTHER INFORMATION CONTACT:

Peter Rell, Director, Office of Program Review, U.S. Employment Service, Room 8324, 601 D Street NW., Washington, D.C. 20213, 202-376-6914.

SUPPLEMENTARY INFORMATION:

BACKGROUND

Chapters 41 and 42 of Title 38 U.S. Code, provide for job counseling, training and placement services for veterans. The Secretary issued regulations to implement 38 U.S.C. Chapters 41 and 42 on November 2, 1976 at 41 FR 48250. The Department published proposed regulations for the fiscal year 1978 veterans indicators of compliance levels on August 26, 1977, at 42 FR 43201. Comments from interested persons were received, reviewed and incorporated, as appropriate, into the final fiscal year 1978 indicator values, which were published on March 3, 1978, at 43 FR 9092. Technical corrections to the final rule were published on March 28, 1978, at 43 FR 12855. The regulations are found at 20 CFR Part 653, Subpart C. Sections 653.221-226 and 653.230 of that subpart set forth standards of performance governing State agency services to veterans and veterans preference indicators of compliance, respectively. 20 CFR 653.230(a) states:

To help in determining whether the standards of performance set forth in sections 653.221-226 are being met, the ETA shall use the floor levels and the veterans preference indicators of compliance set forth in this section to compare the level of services provided to veterans and eligible persons with the level of services provided to nonveterans.

20 CFR 653.230(c) states in pertinent part:

Each year ETA shall consider each State agency's past year's accomplishments as a major factor in establishing the floor level of accomplishment for the next fiscal year. Computation of the floor levels shall also be based on external and other appropriate factors.

20 CFR 653.230(e) states:

ETA shall establish numerical values for the veteran preference indicators of compliance for each Federal fiscal year for: (1) Veterans vesus nonveterans; (2) veterans of the Vietnam era versus nonveterans; and (3) disabled veterans versus nonveterans.

INDICATORS OF COMPLIANCE

In accordance with 20 CFR 653.230(a) (c) and (e), historical experience for each State agency and influence of factors outside of each State agency's control were used to identify the fiscal year 1979 veterans preference indicators and propose appropriate numerical values for each indicator. Historical performance data reviewed covered 6 months of fiscal year 1978 as well as fiscal year 1977 and fiscal year 1976. In addtion to historical data and external factors, the fiscal year 1979 compliance indicators reflect the opinions and comments received from interested persons throughout this fiscal year on the appropriateness of the current set of compliance indicators.

Based on these factors, ETA proposes the following changes to the veterans indicators of compliance:

1. Revise the floors (minimums) for each State's level of expected accomplishment for applicants "placed" and "inactivated with some reportable service." These revisions are based on past performance and the influence of external factors.

2. Establish a floor for each State's level of expected accomplishment for reportable service for "job development." With the addition of recent data, regression analysis has shown that external factors significantly influence this indicator.

3. Establish floor and preference levels for the "referred to training" indicators, based on newly available statistical data.

The proposed floor level for "counseling" and all preference levels other than "referred to training" are unchanged from fiscal year 1978. Information regarding methodology for determining values is available upon request from Mr. Rell (See. FOR FURTHER INFORMATION CONTACT section. above).

DEFINITIONAL CHANGES

One of the goals of the Department of Labor is to work toward consistent definitions between programs operated under the Employment and Training Administration. Where possible, administrative action is being taken to achieve this consistency.

An amendment to the existing definition of "veteran of the Vietnam era" is being proposed as part of the effort toward this goal. This amendment removes the qualifier that veterans of the Vietnam era must have been separated or discharged within the last 48 months. In addition, a new term, "recently separated veteran of the Vietnam era" is being added. This new term, will, in effect, have the same definition as "veteran of the Vietnam era" had during fiscal year 1978 but it will be limited in its application to the indicator having to do with the Federal contractor job listing program described at section 653.230(i) of this subpart.

Accordingly, 20 CFR 653, Subpart C is amended to read as follows:

PART 653—SERVICES OF THE EMPLOYMENT SERVICE SYSTEM

Subpart C—Services for Veterans

§ 653.201 [Amended]

1. A new definition is inserted alphabetically to read as follows:

"Recently separated veteran of the Vietnam era" means a "veteran of the Vietnam era" who was discharged or released from active duty within 48 months of his/her application for employment.

2. The definition for "veteran of the Vietnam era" is amended to read as follows:

"Veteran of the Vietnam era" means a person who: (1) Served on active duty for a period of more than 180 days, any part of which occurred during the Vietnam era (August 5, 1964, through May 7, 1975) and was discharged or released therefrom with other than a dishonorable discharge; or (2) was discharged or released from active duty for a service-connected disability if any part of such active duty was performed during the Vietnam era.

3. The wording of § 653.230 is amended to read as follows:

§ 653.230 Veterans preference indicators of compliance.

(a) To help in determining whether the standards of performance set forth in §§ 653.221-226 are being met, the ETA shall use the floor levels and the veterans preference indicators of compliance set forth in this section to compare the level of services provided to veterans and eligible persons with the level of services provided to nonveterans.

(b) The term "applicants" as used in this section shall mean individuals who filed or renewed job applications during the fiscal year. To improve statistical comparability, the term "nonveteran" as used in this section shall not include women and persons 19 years of age or younger. The term "veteran" as used in this section, shall include eligible persons. The term "disabled veteran", as used in this section, shall include "special disabled veteran".

(c) To prevent State agencies, which are actually performing at low levels of accomplishment, from mathematically appearing, according to the veterans preference indicators of compliance, to be doing well, the ETA shall establish a floor (minimum) level of expected accomplishment for each State for each reportable service for each Federal fiscal year. Each year ETA shall consider each State agency's past year's accomplishments as a major factor in establishing the floor level of accomplishment for the next Federal fiscal year. Computation of the floor levels shall also be based on external and other appropriate factors.

(1) The floor levels shall be stated as the ratio of veteran individuals served to the number of veterans applying for service, rather than the number of veterans served, to avoid the difficulties associated with establishing absolute numbers under varying conditions, time periods, and locations. The floor levels of accomplishment for fiscal year 1978 shall be as follows:

(i) A minimum of 6 percent of those veterans applying for service shall be counseled.

Veterans counseled/veteran applicants=6 percent.

(ii) A minimum of 1.5 percent of all veteran applicants shall be referred to in training.

Veterans referred to training/veteran applicants=1.5 percent.

(iii) A minimum of (individual State values) percent of all veteran applicants shall be provided job development.

Veteran applicant job development contacts/veteran applicants=(see list below for State values).

(iv) A minimum of (individual State values) percent of all veteran applicants shall be placed in jobs.

Veteran applicants placed/veteran applicants=(see list below for State values).

(v) A minimum of (individual State values) percent of all veteran applicants shall be inactivated with some reportable service.

Veteran applicants inactivated with some service/veteran applicants=(see list below for State values).

	(iii) Job development	(iv) Placed	(v) Inactivated with some reportable service

(2) Only after a State agency meets three of its five expected levels of accomplishment—one of which must be the floor level for placement—shall the veterans' indicators be applied.

(d) The ETA shall compare the level of State agency services for veterans versus that for nonveterans by examining rates of service rather than the numbers of persons served to compensate for the differing sizes of comparison groups and to avoid the difficulties associated with establishing absolute numbers under varying conditions, time periods and locations. In addition, the two groups, veterans and

nonveterans, shall be compared after adjustments for demographic and other appropriate characteristics to

(g) Veterans preference indicators of compliance for service to veterans of the Vietnam era are as follows:

exceed the ratio of nonveteran applicants counseled to the total number of nonveteran applicants by at least 100

ments to paragraphs (f)-(i) of this section.

(k)(1) State agency performance

agencies shall be required to provide documentary evidence to the ETA that their failure is based on good

V 4 3 / 2 0 9 OC 27 78 V

nonveterans, shall be compared after adjustments for demographic and other appropriate characteristics to make them as comparable as possible within the limitations of available data systems.

(e) ETA shall establish numerical values for the veterans preference indicators of compliance for each Federal fiscal year for:

(1) Veterans versus nonveterans;

(2) Veterans of the Vietnam era versus nonveterans; and

(3) Disabled veterans versus nonveterans.

(f) Veterans preference indicators of compliance for service to all veterans shall be stated as follows:

(1) The ratio of veteran applicants counseled to the total number of veteran applicants shall exceed the ratio of nonveteran applicants counseled to the total number of nonveteran applicants by at least 25 percent.

Veterans' counseled/veteran applicants ÷ nonveterans counseled/nonveteran applicants − 1.00 = 25 percent.

(2) The ratio of veteran applicants referred to training to the total number of veteran applicants shall exceed the ratio of nonveteran applicants referred to training to the total number of nonveteran applicants by at least 20 percent.

Veterans referred to training/veteran applicants ÷ nonveterans referred to training/nonveterans applicants − 1.00 = 20 percent.

(3) The ratio of job development contacts made for veterans to the total number of veteran applicants shall exceed the ratio of job development contacts made for nonveterans to the total number of nonveteran applicants by at least 50 percent.

Job development contacts for veterans/veteran applicants ÷ job development contacts for nonveterans/nonveteran applicants − 1.00 = 50 percent.

(4) The ratio of veteran applicants placed in jobs to the total number of veteran applicants shall exceed the ratio of nonveteran applicants placed in jobs to the total number of nonveteran applicants by at least 10 percent.

Veteran placed/veteran applicants ÷ nonveterans placed/nonveteran applicants − 1.00 = 10 percent.

(5) The ratio of veteran applicants inactivated with some service to the total number of veteran applicants shall be more than the ratio of nonveteran applicants inactivated with some service to the total number of nonveteran applicants by at least 15 percent.

Veterans inactivated with some service/veteran applicants ÷ nonveterans inactivated with some service/nonveteran applicants − 1.00 = 15 percent.

(g) Veterans preference indicators of compliance for service to veterans of the Vietnam era are as follows:

(1) The ratio of Vietnam-era veteran applicants counseled to the total number of Vietnam-era applicants shall exceed the ratio of nonveteran applicants counseled to the total number of nonveteran applicants by at least 35 percent.

Vietnam-era veterans counseled/Vietnam-era veteran applicants ÷ nonveterans counseled/nonveteran applicants − 1.00 = 35 percent.

(2) The ratio of Vietnam-era veteran applicants referred to training to the total number of Vietnam-era veteran applicants shall exceed the ratio of nonveteran applicants referred to training to the total number of nonveteran applicants by at least 30 percent.

Vietnam-era veterans referred to training/Vietnam-era veteran applicants ÷ nonveterans referred to training/nonveteran applicants − 1.00 = 30 percent.

(3) The ratio of job development contacts made for Vietnam-era veterans to the total number of Vietnam-era veteran applicants shall exceed the ratio of job development contacts made for nonveterans to the total number of nonveteran applicants by at least 60 percent.

Job development contacts for Vietnam-era veterans/Vietnam-era veteran applicants ÷ job development contacts for nonveterans/nonveteran applicants − 1.00 = 60 percent.

(4) The ratio of Vietnam-era veteran applicants placed in jobs to the total number of Vietnam-era veteran applicants shall exceed the ratio of nonveteran applicants placed in jobs to the total number of nonveteran applicants by at least 15 percent.

Vietnam-era veterans placed/Vietnam-era veteran applicants ÷ nonveterans placed/nonveteran applicants − 1.00 = 15 percent.

(5) The ratio of Vietnam-era veteran applicants inactivated with some service to the total number of Vietnam-era veteran applicants shall be more than the ratio of nonveteran applicants inactivated with some service to the total number of nonveteran applicants by at least 20 percent.

Vietnam-era veterans inactivated with some service/Vietnam-era veteran applicants ÷ nonveterans inactivated with some service/nonveteran applicants − 1.00 = 20 percent.

(h) Veterans preference indicators of compliance for service to disabled veterans are as follows:

(1) The ratio of disabled veteran applicants counseled to the total number of disabled veteran applicants shall exceed the ratio of nonveteran applicants counseled to the total number of nonveteran applicants by at least 100 percent.

Disabled veterans counseled/disabled veteran applicants ÷ nonveterans counseled/nonveteran applicants − 1.00 = 100 percent.

(2) The ratio of disabled veteran applicants referred to training to the total number of disabled veteran applicants shall exceed the ratio of nonveteran applicants referred to training to the total number of nonveteran applicants by at least 40 percent.

Disabled veterans referred to training/disabled veteran applicants ÷ nonveterans referred to training/nonveteran applicants − 1.00 = 40 percent.

(3) The ratio of job development made for disabled veterans to the total number of disabled veteran applicants shall exceed the ratio of job development contacts made for nonveterans to the total number of nonveteran applicants by at least 75 percent.

Job development contacts for disabled veterans/disabled veteran applicants ÷ job development nonveterans/nonveteran applicants − 1.00 = 75 percent.

(4) The ratio of disabled veteran applicants placed in jobs to the total number of disabled veteran applicants shall exceed the ratio of nonveteran applicants placed in jobs to the total number of nonveteran applicants by at least 20 percent.

Disabled veterans placed/disabled veteran applicants ÷ nonveterans placed/nonveteran applicants − 1.00 = 20 percent.

(5) The ratio of disabled veteran applicants inactivated with some service to the total number of disabled veteran applicants shall exceed the ratio of nonveterans inactivated with some service to the total number of nonveteran applicants by at least 25 percent.

Disabled veterans inactivated with some service/disabled veteran applicants ÷ nonveterans inactivated with some service/nonveteran applicants − 1.00 = 25 percent.

(i) The veterans preference indicator of compliance for State agency action under the mandatory job listing requirements of 38 U.S.C. 2012 shall be: The ratio of the total number of recently separated veterans of the Vietnam era and special disabled veterans placed in job openings listed pursuant to the Federal Contractor Job Listing Program to total number of individuals placed in those job openings shall exceed 7 percent.

(j) Following analysis of the past fiscal year's accomplishments, the numerical value for each of the veterans preference compliance indicators for the next fiscal year will be published in the FEDERAL REGISTER as amendments to paragraphs (f)-(i) of this section.

(k)(1) State agency performance under this subpart shall be reviewed on a quarterly basis by the ETA regional offices during the conduct of regular operational planning and review system (OPRS) reviews. In addition, State agency performance under this subpart shall be formally reviewed by the ETA national office on an annual basis using the floor levels of accomplishment and the veterans preference indicators of compliance. The full results of these reviews shall be incorporated into the Secretary's annual report to the Congress. In order to meet the indicators of compliance, a State agency must:

(i) Meet the placement and any two of the remaining four floor levels of accomplishment at paragraph (c) of this section; and

(ii) Meet 10 of the 19 veterans preference indicators of compliance at paragraphs (f)-(i) of this section, giving each of the three placement indicators double weight.

(2) ETA shall consider failure to meet either of these conditions as evidence that the state agency is not complying with the performance standards at § 653.221-226. Such State agencies shall be required to provide documentary evidence to the ETA that their failure is based on good cause. If good cause is not shown, the ETA, pursuant to subpart H of part 658 of this chapter, shall formally designate the State agency as out of compliance, shall require it to submit a corrective action plan for the following Federal fiscal year, and may take other action against the State agency pursuant to subpart H of part 658 of this chapter.

(3) Even though a State agency veterans' services statistics, including the floor levels of accomplishment and the veterans preference indicators of compliance, indicate adequate services to veterans, the ETA may take corrective action against a State agency pursuant to subpart H of part 658 of this chapter if other information comes to the attention of the ETA which indicates that a State agency is not complying with the requirements of this subpart.

Signed at Washington, D.C. this 19th of October, 1978.

ERNEST G. GREEN,
Assistant Secretary for Employment and Training.

MANDATORY PETROLEUM PRICE REGULATIONS

Amendment to Allow Refiners To Allocate Increased Cost to Gasoline on a Greater Than Pro Rata Volumetric Basis

[3128-01-M]

Title 10—Energy

CHAPTER XX—DEPARTMENT OF ENERGY

PART 212—MANDATORY PETROLEUM PRICE REGULATIONS

Amendment to Allow Refiners To Allocate Increased Cost to Gasoline on a Greater Than Pro Rata Volumetric Basis

AGENCY: Department of Energy, Economic Regulatory Administration.

ACTION: Final rule.

SUMMARY: This amendment to the Mandatory Petroleum Price Regulations allows refiners to allocate increased cost to gasoline on a greater than pro rata volumetric basis. The amendment is necessary to encourage refiners to produce gasoline rather than other petroleum products. The amendment is intended to increase the production of gasoline.

DATES: Effective October 27, 1978. Comments must be received on or before November 27, 1978.

ADDRESS: Comments should be addressed to: Department of Energy, Office of General Counsel, Docket No. ERA-R-78-40, 2000 M Street NW., Room 2304, Washington, D.C. 20461, 202-264-7200;

Department of Energy, Office of General Counsel, Docket No. ERA-R-78-40, 1000 Independence Avenue SW., Room 6B-222, Washington, D.C. 20585, 202-252-6736.

FOR FURTHER INFORMATION CONTACT:

Robert Bernstein (Office of General Counsel), 2000 M Street NW., Room 2304, Washington, D.C. 20461, 202-264-7200;

Thomas Dukes (Office of General Counsel), 1000 Independence Avenue SW., Room 6B-222, Washington, D.C. 20585, 202-252-6736.

SUPPLEMENTARY INFORMATION: On September 1, 1976 (41 FR 30096, July 22, 1976), the regulations permitted the reallocation to gasoline of in-

be greater than the percentage of gasoline in a refiner's output and would vary for differing refinery yields of

vestment in new gasoline production facilities, especially those for unleaded gasoline. Moreover, since refiners are

and have determined to adopt the second and fourth alternatives proposed by FEA on February 11, 1977

CHAPTER II—FEDERAL ENERGY ADMINISTRATION [1]

[Docket No. ERA-R-77-3]

PART 212—MANDATORY PETROLEUM PRICE REGULATIONS

Amendment To Allow Refiners To Allocate Increased Costs to Gasoline on a Greater Than Pro Rata Volumetric Basis

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Final rule.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) hereby adopts amendments to the mandatory petroleum price regulations which will permit refiners to allocate increased costs to gasoline on a greater than pro rata volumetric basis. These amendments are being issued as an interim measure, pending decontrol of gasoline, to reform certain aspects of the current regulatory framework which could prohibit full pass through to gasoline of actual increased costs associated with gasoline, to promote investment in new facilities for the production of gasoline, especially unleaded gasoline, and to facilitate the transition of gasoline from a controlled to a decontrolled environment. In addition to issuing these amendments, ERA is requesting comments on whether the present regulations and the amendments adopted provide sufficient incentive for refinery investment.

DATES: Effective December 1, 1978. Written comments by February 15, 1979, 4:30 p.m.

ADDRESS: All comments to Office of Public Hearings Management, Economic Regulatory Administration, Room 2313, Docket No. ERA-R-77-3, 2000 M Street NW., Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

William L. Webb (Office of Public Information), Economic Regulatory Administration, 2000 M Street NW., Room B110, Washington, D.C. 20461, 202-634-2170;

SUPPLEMENTARY INFORMATION:

I. Background.
II. Amendments adopted.
III. Additional comments requested.
IV. Other matters.

I. Background

The pricing regulations applicable to refiners generally provide that the maximum allowable price for a product is the sum of the weighted average price at which the product was lawfully priced in transactions with the class of purchaser concerned on May 15, 1973, plus allowable increased costs incurred between the month of measurement and the month of May 1973. The regulations specify the method of calculation of such increased costs, both product and nonproduct, and the method of their allocation to the prices of all products (or product categories) in a refiner's product mix.

Under the regulations, a refiner's total increased costs of crude oil and increased nonproduct costs are allocated among gasoline and other products based on the relative volumes of such products refined from crude oil in the month of measurement. However, because of the relatively more sophisticated refining processes necessary to produce gasoline, the portions of increased crude oil and nonproduct costs associated with refining gasoline are for most refiners actually greater than the percentage of a refiner's volumetric output of gasoline. In order to increase the yield of gasoline, refiners may purchase and refine higher-priced light gravity crude oil, thereby incurring higher increased product costs that are not attributable to products other than gasoline. Moreover, refining nonproduct costs and the cost of facilities for production of gasoline, particularly unleaded gasoline, are generally higher than for production of other heavier products. Indeed, in order to meet the lead phasedown and other Clean Air Act requirements with respect to the gasoline pool needed to satisfy gasoline demand, refiners are incurring substantial increased costs. For example, increased severity of reforming and use of new catalysts to improve octane required to produce unleaded gasoline adds substantially to refiner costs.

Prior to the decontrol of residual fuel oil on June 1, 1976 (41 FR 13896, April 1, 1976), of middle distillates on July 1, 1976 (41 FR 24516, June 16, 1976), and of naphtha, gas oil, lubricants and certain other products on September 1, 1976 (41 FR 30096, July 22, 1976), the regulations permitted the reallocation to gasoline of increased costs initially allocated to these other controlled products but not recovered in the prices charged for these products. The ability to reallocate increased costs from other controlled products to gasoline permitted prices that corresponded with the historical pattern of higher prices for gasoline relative to other petroleum products to reflect the generally higher costs of refining gasoline. Data obtained from the thirty largest refiners for the period March 1975 through May 1976, during which time all major refined products were controlled, indicate that refiners utilized the ability to reallocate costs from other products to gasoline to a significant degree. Present regulations continue to allow costs to be reallocated from other controlled products to gasoline, but since most products other than gasoline are now decontrolled, the opportunity to allocate more than a pro rata volumetric share of costs to gasoline is severely limited.

On February 11, 1977, the Federal Energy Administration (FEA) issued a notice of proposed rulemaking and public hearing (42 FR 9675, February 17, 1977) on changes in the refiner price regulations to provide the pricing flexibility refiners possessed prior to the earlier decontrol amendments by permitting the allocation of increased costs to gasoline on a greater than pro rata volumetric basis, so that market prices for refined products could remain in their traditional relationship which reflected the generally higher costs of refining gasoline. Four alternative amendments to the refiner price regulations to accomplish this result were proposed: The first would have permitted the reallocation to gasoline of the actual amounts of increased costs that would be allocated on a pro rata basis to exempt products but not recovered through sales of such products; the second would have permitted the allocation to gasoline of 110 percent of the amount of increased costs of crude oil that could be allocated to gasoline on a pro rata volumetric basis; the third would have permitted each refiner to reallocate to gasoline the same additional percentage of increased costs which that refiner reallocated to gasoline from other covered products during the base year May 1975 through April 1976; and the fourth proposed three alternative mechanisms to permit the allocation to gasoline of a more appropriate proportion of increased nonproduct costs. One of the options under the fourth alternative was use of a formula to allocate to gasoline a fraction of total increased nonproduct costs. Under the formula, the fraction would be greater than the percentage of gasoline in a refiner's output and would vary for differing refinery yields of gasoline to allow a greater allocation for refiners with higher gasoline yields.

A public hearing was held on the proposal on March 24-25, 1977 in Washington, D.C. and written comments were received. The majority of the comments recommended that total refinery costs, rather than only product or only nonproduct costs, should be reallocated. However, most refiners were critical of the specific alernative proposals to reallocate total refinery costs. Refiners stated that implementation of the first alternative noted above would violate the spirit of deregulation, because refiners would be required to calculate the amounts of increased costs allocable on a pro rata basis to and recovered in the sales of exempted products as if these products were still subject to price controls. Refiners noted, moreover, that the first alternative would restrain prices of decontrolled products. Nearly all the refiners also argued that the third alternative would be inappropriate since the market conditions which led to refiners' reallocation decisions in 1975 would not be relevant in 1977 or thereafter.

Many refiners recommended the adoption of both alternatives two and four, so that they would have the opportunity to reallocate all refinery costs. Some refiners argued, moreover, that 115 percent of increased product costs determined on a pro rata volumetric basis, rather than 110 percent, should be reallocated to gasoline.

Prior to its expiration on September 30, 1977, FEA took no action on the proposal to allow the reallocation of increased costs to gasoline on a greater than pro rata volumetric basis. DOE (which, effective October 1, 1977, assumed the functions of FEA) has continued consideration of this proposal under section 705 of the Department of Energy Organization Act (Pub. L. 95-91).

II. Amendments Adopted

Because of the pro rata volumetric allocation provisions, we believe that the current price regulations prevent most refiners from recovering fully the actual increased costs attributable to the production of gasoline. Refiners that purchase more expensive higher yield crude oils in order to increase their yield of gasoline and refiners that have invested in sophisticated production facilities to increase the yield and octane of gasoline may be especially penalized. This situation could discourage gasoline production and investment in new gasoline production facilities, especially those for unleaded gasoline. Moreover, since refiners are able to recover some of the increased costs actually attributable to the production of gasoline only in the prices they charge for exempt products, consumers of those other products, including home heating oil and fuel oil for electric utilities, may have to bear the burden of some of the increased costs of gasoline. Therefore, we are hereby amending the refiner price regulations to allow the allocation to gasoline of increased costs on a greater than pro rata volumetric basis. We have evaluated the alternative proposed amendments in light of the comments received and current conditions and have determined to adopt the second and fourth alternatives proposed by FEA on February 11, 1977.

The amendments adopted today will permit a refiner to allocate to gasoline as much as 110 percent of the amount of increased crude oil costs attributable to gasoline on a pro rata volumetric basis, which are determined by multiplying the refiner's total increased crude oil costs by the ratio of the volume of gasoline refined to the total volume of all products refined.

In addition, the amendments will permit a refiner to allocate to gasoline increased nonproduct costs on a greater than pro rata volumetric basis up to an amount determined in accordance with the following formula:

$$\text{Maximum fraction allocable to gasoline} = 1 - \left(1 - \frac{\text{Volume of gasoline refined}}{\text{Volume of all products refined}}\right)^2$$

The following are examples of fractions of increased nonproduct costs which may be allocated to gasoline under this formula:

Ratio of volume of gasoline to total volume of all products	Fraction of total increased nonproduct costs which may be allocated to gasoline
0	0
.10	.19
.20	.36
.30	.51
.40	.64
.50	.75
.60	.84
.70	.91
1.00	1.00

The amendments will grant refiners more flexibility to allocate to gasoline those increased costs actually attributable to the production of gasoline.

To the extent that increased crude oil and nonproduct costs allocated to gasoline under these amendments are not recovered in the current month, they may be banked for future recovery as provided in the pricing regulations.

III. Additional Comments Requested

Although we believe that these amendments will assign increased crude oil and nonproduct costs to gasoline in a manner more closely reflecting the actual relative costs of refining gasoline, this rulemaking will be continued for the purpose of receiving additional comments on these amendments and the need, if any, for further changes in the regulations to promote investment by refiners in production facitities, especially those for unleaded gasoline.

We specifically request comments on whether refiners' May 15, 1973 unit profit margins, which arguably have been eroded by inflation, are currently insufficient to generate capital to modernize or expand refineries. We are particularly interested in factual data that would support regulatory changes in this area, and examples of any investments that were planned but have not been implemented because of the present regulatory limitations. We also request comments on whether the regulations should be amended to provide specific rules for the treatment of investments made with internally generated or borrowed funds and whether, in light of the amendments adopted today, there in any continuing need to amend the regulations to provide for the recovery of a fair rate of return on refinery investment. Comments supporting amendments to allow recovery of a rate of return should address the manner in which the regulations should so provide.

Comments will be received until February 15, 1979. You should submit 15 copies of your comments to the Office of Public Hearings Management, Economic Regulatory Administration, Room 2313, Docket No. ERA-R-773, 2000 M Street NW., Washington, D.C.

[1] Editorial note: Chapter II will be renamed at a future date to reflect that it contains regulations administered by the Economic Regulatory Administration of the Department of Energy.

20461. All comments received by DOE will be available for public inspection

Issued in Washington, D.C., October 22, 1978.

(II) Beginning not later than March 1, 1977 or, at the option of each refiner, beginning as of any month price thereto but not

FRIDAY, OCTOBER 27, 1978
PART VII

V 43/209 OC 27 78

20461. All comments received by DOE will be available for public inspection in the DOE Reading Room, Room GA-152, James Forrestal Building, 1000 Independence Avenue SW., between the hours of 8 a.m., and 4:30 p.m., Monday through Friday.

Any information or data considered by you to be confidential must be so identified and submitted in writing, one copy only, in accordance with the procedures set forth in 10 CFR 204.9 (f). Any material not accompanied by a statement of confidentiality will be considered to be nonconfidential. We reserve the right to determine the confidential status of the information or data and to treat it according to our determination. While we anticipate that we will proceed with the decontrol of gasoline prices in the near future, thus making further changes in the refiner price regulations relating to gasoline unnecessary for the immediate future, we nevertheless will consider comments received in connection with our continuing consideration of the proposed standby product price and allocation regulations (43 FR 29565, July 10, 1978) that would be used in the event of a major crude oil or product supply interruption.

IV. Other Matters

In adopting this rule, we have considered, in accordance with Executive Order 12044, the economic impact of our action. We have prepared a regulatory analysis of this amendment. Copies may be obtained from the ERA, Office of Public Information, 2000 M Street NW., Room B-110, Washington, D.C., 20461, 202-634-2170.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended, Pub. L. 93-511, Pub. L. 94-99, Pub. L. 94-133, Pub. L. 94-163, and Pub. L. 94-385; Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended, Pub. L. 94-385; Energy Policy and Conservation Act, Pub. L. 94-163, as amended, Pub. L. 94-385; E.O. 11790, 39 FR 23185; Department of Energy Organization Act, Pub. L. 95-91; E.O. 12009, 42 FR 46267.)

In consideration of the foregoing, part 212 of chapter II of title 10 of the Code of Federal Regulations is amended as set forth below, effective December 1, 1978.

Issued in Washington, D.C., October 22, 1978.

David J. Bardin,
Administrator, Economic Regulatory Administration.

1. Section 212.83(c)(2)(iii)(C) is amended in the definition of "A_i" to read as follows:

§ 212.83 Price rule.

* * * * * * *

(c) *Allocation of increased costs.* * * *

(2) *Formulae.* * * *

(iii) *Definitions.* * * *

(C) *The "A" factor.*

$$A_i = A_i^t + A_i^s + A_i^r$$

"A_i" is, for i=1, i=2, i=3, and i=4, the sum of the increased costs of crude oil attributable to the specific covered product or products of the type "i" purchased or landed on or after January 1, 1976 and prior to or during the period "s" and not recovered in sales of that product through the period "t" and the increased costs of crude oil attributable to the specific covered product or products of the type "i" purchased or landed on or after January 1, 1976 in the period "t." "A_i" also includes the increased costs of crude oil and purchased products attributable to the covered product or products of the type "i" incurred through December 31, 1975 and not passed through as of January 31, 1976, and not recovered in sales of that product through the period "t". Notwithstanding the foregoing provisions of this paragraph, for the product i=3, "A_i" shall be at least 100% (one hundred percent) of "A_i^t", plus the sum of "A_i^s" and "A_i^r"; but may, at the option of the refiner concerned, be up to 110% (one hundred ten percent) of "A_i^t", plus the sum of "A_i^s" and "A_i^r".

2. Section 212.83(c)(2)(iii)(E) is amended by amending paragraph (II) of the definition of "N_i^t" and adding a new paragraph (III) to the definition of "N_i^t" to read as follows:

§ 212.83 Price rule.

* * * * * * *

(e) *Allocation of increased costs.* * * *

(2) *Formulae.* * * *

(iii) *Definitions.* * * *

(E) *The "N" factor.* * * *

(II) Beginning not later than March 1, 1977 or, at the option of each refiner, beginning as of any month price thereto but not before June 1, 1976, and until December 1, 1978 but not thereafter:

$$N_i^t = E^t \left(\frac{R_i^t}{R^t} \right) + F_i^t$$

(III) Beginning December 1, 1978:

(aa) For i=3:

$$N_i^t = E^t(U_i^t) + F_i^t$$

(bb) For i=1, i=2, and i=4:

$$N_i^t = E^t(1-U_i^t)\left(\frac{R_i^t}{R^t - R_{i=3}^t} \right) + F_i^t$$

* * * * * * *

3. Section 212.83(c)(2)(iii)(E) is amended by inserting a new definition of "$R_{i=3}^t$" and a new definition of "U_i^t" between the definition of "R^t" and the definition of "E_n^t" to read as follows:

§ 212.83 Price rule.

* * * * * * *

(c) *Allocation of increased costs.* * * *

(2) *Formulae.* * * *

(iii) *Definitions.* * * *

(E) *The "N" factor.* * * *

$R_{i=3}^t$ = The total volume of gasoline (i=3) refined by the refiner from crude oil (including unfinished oils which were covered products as of May 31, 1976 and synthetic fuels), and including volumes attributable to additives, in the period "t".

U_i^t = The fraction of the total increased nonproduct costs (excluding marketing cost increase) allocated to gasoline by the refiner in the period "t". "U_i^t" shall be no less than

$$\frac{\left(\frac{R_{i=3}^t}{R^t} \right)}{1-\left(1-\frac{R_{i=3}^t}{R^t}\right)^2}$$

* * * * * * *

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

FLOOD PLAINS AND WETLANDS EXECUTIVE ORDERS

Notice of Draft Procedures

AGENCY: Bureau of Reclamation, Department of the Interior.

SUMMARY: The Bureau of Reclamation is making available for public review and comment the procedures it will use to implement Executive Order 11988, Floodplain Management, and Executive Order 11990, Protection of Wetlands. The Bureau will consider comments from the public and other governmental agencies when finalizing its procedures.

DATE: Comments must be received on or before November 27, 1978.

ADDRESS: All comments should be sent to the Bureau of Reclamation, Director, Planning Policy Staff, 18th and C Streets NW., Washington, D.C. 20240. Comments will be available for public review in room 7453 at the above address from 7:45 a.m. to 4:15 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT:

Mr. James D. Ellingboe, 202-343-4787.

SUPPLEMENTARY INFORMATION: The U.S. Water Resources Council's Floodplain Management Guidelines for Implementing Executive Order 11988 (43 FR 6063, February 10, 1978) provides basic implementation guidelines. The Department of the Interior's draft procedures incorporate the Water Resources Council's guidelines and make them specific to the various programs of the Bureau of Reclamation.

BUREAU OF RECLAMATION COMPLIANCE WITH EXECUTIVE ORDERS 11988 (FLOODPLAIN MANAGEMENT) AND 11990 (PROTECTION OF WETLANDS)

This notice provides the Bureau of Reclamation's proposed procedures to implement Executive Order 11988 (Floodplain Management) and Executive Order 11990 (Protection of Wetlands) hereinafter referred to as Orders. Both Orders required all Federal agencies to review their activities, procedures, and rules and regulations. These procedures are in accordance with the Water Resources Council Floodplain Management Guidelines (43 FR 6030) and the Department of the Interior's Interim Guidelines (43 FR 112—June 9, 1978). The Orders pertain to the planning, design, construction, operation, and maintenance programs and the small projects and distribution system loan programs of the Bureau of Reclamation.

The proposed procedures to implement the Orders are applicable to all Bureau of Reclamation actions. The basic objective of the Reclamation program is the development and conservation of water and related land resources. In accomplishing this objective, the Bureau assists the States, local governments, and other Federal agencies to stabilize and stimulate regional and local economics, enhance and protect the environment, and improve the quality of life in the 17 contiguous Western States and Hawaii. Under the Reclamation program procedures and guidelines, all actions that are undertaken are in accordance with but not limited to the previously mentioned Orders and Guidelines and the following:

A. Unified National Program for Floodplain Management, Water Resources Council, 1976
B. Executive Order 11514, Protection and Enhancement of Environmental Quality
C. Office of Management and Budget OMB Circular A-95.

Policy. The Bureau of Reclamation has a general mandate and broad responsibility for development, management and protection of the water and related land resources of the 17 Western States and Hawaii, their streams, wetlands, and floodplains. The policy of the Bureau of Reclamation is to exercise leadership and take action to avoid the adverse impacts associated with occupancy and modification of floodplains and wetlands and to avoid direct and indirect support of development wherever there is a practicable alternative. It is also the Bureau of Reclamation's policy to reduce the risk of flood loss; minimize the impact of floods on human health, safety, and welfare to the extent possible, and protect wetlands consistent with the Bureau's given authorities and missions.

A. To the extent practical the Bureau of Reclamation will integrate floodplain management and wetland protection requirements into its programs and will utilize existing consultation, planning, and decision processes. All Bureau of Reclamation offices will systematically review pertinent rules, regulations, and procedures to implement the requirements of the executive order insuring provisions to update procedures as necessary.

B. The Water Resources Council Guidelines for implementing the Floodplain Order are the basic guidance for interpretation of that Order and conduct of the floodplain management planning and decision process. Where deviation from the Water Resources Council guidelines is deemed necessary, concurrence with the Commissioner's office, Bureau of Reclamation, will be necessary.

The Bureau of Reclamation will adhere to the methods, standards, and definitions of terms as set forth in the Water Resources Council guidelines and incorporate them into the multiobjective planning guidelines as discussed in the Principles and Standards.

The existing Bureau of Reclamation legislative review process will be utilized in uncovering new opportunities for incorporation of floodplain management concepts into Bureau programs.

C. The definition of wetlands as contained in the Water Resources Council guidelines addresses natural conditions such as swamps, marshes, bogs, and similar areas; however, they could be interpreted to include canals, seeps, reservoirs, drains and other conditions resulting from features of water control projects.

D. The Bureau of Reclamation:

(1) Will continue to utilize technical consultation with the Water Resources Council, Council on Environmental Quality, Federal Insurance Administration, Fish and Wildlife Service, Corps of Engineers, and other institutions with expertise in the natural and beneficial values of floodplains and wetlands, through existing planning procedures.

(2) Will review its programs for applicability of the Orders and apply the Orders to their respective areas of responsibilities as discussed below. This list is not intended to be all inclusive.

(a) Planning and designing new project facilities;

(b) Modifying existing Bureau of Reclamation project facilities or in constructing new ones;

(c) Acquiring, managing, and disposing of Federal lands for project facilities;

(d) Carrying out and influencing programs involving land use and water planning and development; and

(e) Administer construction and rehabilitation programs supported or assisted by Federal grants, loans, or other forms of financial assistance.

(3) Will furnish with all requests for new authorizations or appropriations (for proposals to be located in floodplains and wetlands) a statement that the proposal is in accord with the Orders.

(4) Will be responsible for assuring compliance with the public information and other procedural requirements of the Orders.

(5) Will be responsible for all activities and compliance under the Orders including preparation of the statement of findings.

(6) Will utilize existing procedures so that documentation and specific analysis of actions and examples of re-

sponses to the Orders will be available for future reports to the Water Resources Council.

E. The Bureau of Reclamation will:

(1) Avoid to the extent possible the long and short term adverse impacts associated with the destruction of wetlands and avoid direct or indirect support of new construction in wetlands wherever there is a practicable alternative.

(2) Before taking an action, determine whether the proposed action will be located in a wetland. If the proposed action is located in a floodplain or wetland the Bureau will undertake early public review including any public meetings if appropriate.

(3) Identify and evaluate practicable alternatives to locating in wetlands, including alternative sites, modifications, or deferral of action.

(4) Identify the impact of the proposed action on wetlands and the impact of wetland destruction on the natural and beneficial values protected by floodplain management.

(5) Minimize the destruction, loss or degradation of wetlands.

(6) Preserve and enhance the natural and beneficial values of wetlands.

(7) Reevaluate the proposed action to determine first, if it is still practicable in light of exposure to flood hazards, extent of adverse effects on wetlands, and other factors such as public benefits; and second, if modification is required to minimize potential harm to or within the floodplain and wetlands.

(8) Circulate, summarize, and respond to comments on the final environmental impact statement for proposed actions in floodplains or wetlands.

(9) Ensure that the decision making officer reviews the proposed action's compliance with the Orders.

(10) Take appropriate action to restore and preserve the natural and beneficial values of floodplains and wetlands when possible.

F. Bureau of Reclamation Procedures for Implementing Executive Orders 11988 and 11990.

(1) Floodplain Management Procedures.

(a) Bureau of Reclamation Actions in Floodplains.

(i) Identify and evaluate practicable alternatives to locating in floodplains, including alternative sites, modifications, or deferral of action.

(ii) Identify the impact of the proposed action on floodplains and the impact of floodplain development on the natural and beneficial values protected by floodplain management.

(iii) Minimize the destruction, loss or degradation of floodplains.

(iv) Preserve and enhance the natural and beneficial values of floodplains.

(v) Reevaluate the proposed action to determine first, if it is still practicable in light of exposure to flood hazards, extent of adverse effects on floodplains, and other factors such as public benefits; and second, if modification is required to minimize potential harm to or within the floodplain.

(vi) Circulate, summarize, and respond to comments on the final environmental impact statement for proposed actions in floodplains.

(vii) Ensure that the decision making officer reviews the proposed action's compliance with the Orders.

(viii) Take appropriate action to restore and preserve the natural and beneficial values of floodplains when possible.

(b) Bureau of Reclamation Actions Affecting Floodplains.

(i) Determine whether the proposed action will affect or be affected by a floodplain.

(ii) Consider alternatives to avoid adverse effects and incompatible development in floodplains. If the only practicable alternative requires siting in a floodplain, minimize harm to or within the floodplain.

(iii) Prepare a floodplain assessment and statement of findings for proposed actions which will affect floodplains.

(iv) Provide for early public review of proposals for actions in floodplains, including any public meetings if appropriate.

(v) Circulate, summarize, and respond to comments on the final environmental impact statement for proposed actions affecting floodplains.

(vi) Ensure that the decision making officer reviews the proposed action's compliance with the Orders.

(vii) Take appropriate action to restore and preserve the natural and beneficial values of floodplains when possible.

(2) Wetland Protection Procedures.

(a) Bureau of Reclamation Actions in Wetlands.

(i) Avoid to the extent possible the long and short term adverse impacts associated with the destruction of wetlands and avoid direct or indirect support of new construction in wetlands wherever there is a practicable alternative.

(ii) Identify and evaluate practicable alternatives to locating in wetlands, including alternative sites, modifications, or deferral of action.

(iii) Identify the impact of the proposed action on wetlands and the impact of wetland destruction on the natural and beneficial values protected by floodplain management.

(iv) Minimize the destruction, loss or degradation of wetlands.

(v) Preserve and enhance the natural and beneficial values of wetlands.

(vi) Reevaluate the proposed action to determine first, if it is still practicable in light of exposure to flood hazards, extent of adverse effects on wetlands, and other factors such as public benefits; and second, if modification is required to minimize potential harm to or within the floodplain and wetlands.

(vii) Circulate, summarize, and respond to comments on the final environmental impact statement for proposed actions in floodplains or wetlands.

(viii) Ensure that the decision making officer reviews the proposed action's compliance with the Orders.

(ix) Take appropriate action to restore and preserve the natural and beneficial values of floodplains and wetlands when possible.

(b) Bureau of Reclamation Actions Affecting Wetlands.

(i) Determine whether the proposed action will affect or be affected by a wetland.

(ii) Consider alternatives to avoid adverse effects and incompatible development in wetlands. If the only practicable alternative requires siting in a wetland, minimize harm to or within the wetland.

(iii) Prepare a wetland assessment and statement of findings for proposed actions which will affect wetlands.

(iv) Provide for early public review of proposals for actions in wetlands, including any public meetings if appropriate.

(v) Circulate, summarize, and respond to comments on the final environmental impact statement for proposed actions affecting wetlands.

(vi) Ensure that the decision making officer reviews the proposed action's compliance with the Orders.

(vii) Take appropriate action to restore and preserve the natural and beneficial values of wetlands when possible.

Dated: October 20, 1978.

JAMES G. WATT,
Commissioner of Reclamation.

FRIDAY, OCTOBER 27, 1978
PART VIII

V 43 / 209 OCT 27 78

sponses to the Orders will be available for future reports to the Water Resources Council. In the evaluation of the potential effects of any actions we may take in a floodplain or wetland, the Bureau will consider the factors discussed in detail in Part II of the Water Resources Council guidelines.

Reporting requirements. If there is no practicable alternative to locating an action in the floodplain or wetlands, a report of this finding will be made using existing planning and National Environmental Policy Act of 1969 procedures. An early public review of plans is required whenever an action is proposed. This public review should be accomplished under the existing Bureau of Reclamation reporting procedures. The following information is required by Executive Order 11988 and shall be included in existing reporting requirements, as appropriate, for general investigation studies, projects in design and construction stages, studies under special authorities, and activities under the operations and maintenance program; and apply to both floodplains and wetlands:

A. If there is no practicable alternative to locating an action in a floodplain or wetland, a public notice shall be prepared and circulated to the general public and affected agencies. The notice shall include the following:

(1) A description of why the action must be located in a floodplain or wetland;

(2) a description of significant facts considered in making the determination to locate in a floodplain or wetland, including alternative sites and actions considered and any tradeoffs that were made; and

(3) a statement indicating whether the proposal conforms to applicable State or local floodplain or wetland protection standards. The public notice issued upon completion of a study action, review of an environmental statement for a proposed action, or its equivalent will serve as the means to satisfy these requirements of the Order.

B. If the notice is not provided by another process, a separate notice, not to exceed three pages in length, including a location map, will be provided to State and areawide A-95 Clearinghouse for the geographic area affected, when an action is to be located in a floodplain or wetland.

C. New authorizations for construction starts transmitted to the Office of Management and Budget shall provide information on whether a proposed action will be located in a floodplain or wetland. If the proposed action is located in a floodplain or wetland the transmittal to the Office of Management and Budget shall provide information on compliance with the Orders. Support documents shall include statements on whether the action affects the natural and beneficial values of a floodplain or wetland; steps taken to minimize potential harm to or within a floodplain or wetland caused by the action; and steps taken to restore and preserve the natural and beneficial floodplain or wetland values.

Public involvement. To insure that adequate information and opportunities are provided early in the decisionmaking process to allow the public to participate effectively in floodplain or wetland management decisions, a public involvement program shall:

(1) Include as broad an audience as appropriate;

(2) Provide continuous interaction and involvement opportunities for the public during the decisionmaking process;

(3) Provide information which promotes the fullest understanding of the proposed action; and

(4) Provide timely opportunities for all segments of the public to affect an action or plan before alternative actions have been precluded. The public in the affected area shall be advised early, through the public participation process, whenever a proposed plan will result in action in the base floodplain or wetland. In addition to existing Water Resources Council and National Environmental Policy Act of 1969 public involvement processes, the Bureau of Reclamation will continue to use other public information methods such as news releases, newsletters, and public meetings to inform the interested public.

Applications to Bureau of Reclamation's program. The provisions of Executive Order 11990 shall be implemented not later than 90 days after the departmental guidelines are published or November 30, 1978, whichever comes first. The Orders do not apply to projects or programs for which draft or final environmental impact statements have been filed prior to October 1, 1977, nor to projects currently under construction nor for which construction funding was approved in the fiscal year 1979 program.

A. Planning studies. At the earliest stages of planning, the policy and procedures of these guidelines shall be incorporated in the multiobjective planning process to a scope and level appropriate for appraisal, feasibility, and definite plan studies. For those studies for which reports have been completed and forwarded to the Commissioner of Reclamation, supplemental information concerning implementation of the Executive Orders shall be provided.

B. Design and construction. Assistant Commissioner—Engineering and Research shall insure that projects in the design and construction stage comply with the intent and objectives of the orders as set forth in these guidelines.

C. Operation and maintenance activities. The policies and procedures of the guidelines are applicable to operation and maintenance activities of the Bureau of Reclamation. Regional Directors shall insure that projects operated and maintained within their jurisdiction comply with the policies and procedures set forth in these guidelines.

(1) When considering a request for the lease, rental, purchase, or any other short- or long-term use of Reclamation land by a non-Federal public or private entity, the potential effects on any floodplain or wetland area resulting from the proposed use of the land must be evaluated to determine if the proposal would or could encourage modification or development which could lead to human habitation or excessive degradation of the floodplain or wetland area.

(2) When proposing to convey right or title to Reclamation lands within a floodplain or wetland to a non-federal public on private entity, Reclamation shall:

(a) Reference in the conveying document those uses that are restricted under identified Federal, State, or local floodplain or wetland regulations; and

(b) Attach other appropriate restrictions to the uses of properties by the grantee or purchaser and any successors, except where prohibited by law; or

(c) Withhold such properties from conveyance;

(d) For recreation or other public use areas located in a floodplain or wetland, the Bureau of Reclamation shall mark on structures and other appropriate areas conspicuous delineation of past and probable flood heights.

Dated: October 25, 1978.

R. KEITH HIGGINSON,
Commissioner of Reclamation.

DEPARTMENT OF THE TREASURY

Customs Service

NON-RUBBER FOOTWEAR FROM HONG KONG

Administrative Action Pursuant to E.O. 11846

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Final administrative action pursuant to Executive Order 11846.

SUMMARY: This notice is to advise the public that the U.S. Government will accept entry of nonrubber footwear from Hong Kong only where accompanied by valid certification of Hong Kong origin. The Government of Hong Kong is establishing a certification system for verifying the Hong Kong origin of nonrubber footwear exports to the United States. Consultations between the Governments of Hong Kong and the United States have resulted in these administrative actions to be undertaken by both Governments. These actions impose no quantitative limitations on such imports. The purpose of these actions is to prevent disruption of the effectiveness of recently negotiated nonrubber footwear orderly marketing agreements between the United States and the Republics of China and Korea.

EFFECTIVE DATE: November 27, 1978.

FOR FURTHER INFORMATION CONTACT:

David Ramsay, Special Operations Branch, Duty Assessment Division, Office of Operations, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229, 202-566-2957.

SUPPLEMENTARY INFORMATION:

BACKGROUND

Subsequent to the negotiation of orderly marketing agreements concluded with the Republics of China and Korea in June of 1977, relating to imports of nonrubber footwear from those countries, imports of such footwear from Hong Kong increased sharply. In order to insure the effectiveness of the aforementioned agreements, consultations were undertaken between the United States and Hong Kong.

As a result of these consultations, certain administrative actions are to be taken by each country regarding such specified nonrubber footwear. The Government of Hong Kong is establishing a certification system for verifying the Hong Kong origin of nonrubber footwear exports to the United States. The United States will accept entry of specified nonrubber footwear from Hong Kong only where such footwear are accompanied by a valid certificate of Hong Kong origin and when such products meet all other U.S. entry requirements. No quantitative limitations are being imposed as part of this administrative action.

Pursuant to the authority of section 203 (g)(2) of the Trade Act of 1974 (19 U.S.C. 2253(g)(2)), section 5(b) of Executive Order 11846 (dated March 27, 1975) and section (3) of Presidential Proclamation 4510 (dated June 22, 1977), the U.S. Customs Service has been directed to implement the above-described administrative action. A copy of the directive from the special representative for trade negotiations is appended.

Because this rulemaking implements agency action as authorized by statute (section 203(g)(2)), and Executive Order (E.O. 11846), and requires no public initiative, notice and public procedure thereon is found to be impracticable and unnecessary.

DRAFTING INFORMATION

The principal author of this document was Michael Lublinski, Office of the Chief Counsel, U.S. Customs Service. However, personnel from other offices of the Customs Service participated in its development.

ACTION

Entries of nonrubber footwear, as designated in annex A (appended), which are exported from Hong Kong on or after November 27, 1978, may not be entered, or withdrawn from warehouse for consumption into the United States unless accompanied by a valid certificate of Hong Kong origin, issued by the appropriate Hong Kong authorities, as designated in annex B (appended). The statement "* * * made in Hong Kong," which appears on the certificate of Hong Kong origin, means that the certifying official in Hong Kong is satisfied that the requirements of the Government of Hong Kong have been met.

A valid certificate of Hong Kong origin will consist of the original copy, properly signed and certified in any one of seven formats, as designated in annex C (appended). It is noted, however, that the aforementioned certificates (printed in black) should not be confused with a similar certificate of "Hong Kong Origin-Processing" (printed in blue), which certificate is not acceptable as to this administrative action.

Excepted from the provisions of this notice are footwear having an aggregate value of not over $100 in any shipment imported for the personal use of an importer, and footwear manufactured in Hong Kong which are exported, either directly or indirectly, to the United States, prior to November 27, 1978, and entered or withdrawn from warehouse for consumption into the United States before February 1, 1979.

Importers whose shipments of nonrubber footwear are denied entry because they are not accompanied by a valid certificate of Hong Kong origin, and which otherwise are believed to qualify for entry under the certification criteria established by the Government of Hong Kong, may request valid certification to be supplied by the manufacturer/exporter in Hong Kong.

Subject to subsequent modification or termination, this administrative action shall be in effect until June 30, 1981. There is appended a copy of the draft letters exchanged between the Governments of the United States and Hong Kong embodying descriptions and understandings with respect to administrative actions to be taken by each Government regarding nonrubber footwear.

AUTHORITY

This action is undertaken pursuant to the authority vested in the Secretary of the Treasury, by section (3) of Presidential Proclamation 4510 (dated June 22, 1977), to issue rules and regulations governing the entry, or withdrawal from warehouse, for consumption in the United States of certain nonrubber footwear articles which are the product of countries not subject to the orderly marketing agreements now in effect on these products.

DONALD W. LEWIS,
Acting Commissioner of Customs.

Approved: October 25, 1978.

RICHARD J. DAVIS,
Assistant Secretary of the Treasury.

APPENDIX I

THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS
Washington, October 15, 1978.

Hon. W. MICHAEL BLUMENTHAL,
Secretary of the Treasury,
Washington, D.C.

DEAR SECRETARY BLUMENTHAL: Pursuant to Executive Order 11846 and Presidential Proclamation 4510 of June 24, 1977, the Secretary of the Treasury is authorized to issue regulations pursuant to section 203(g)(2) of the Trade Act 1974 (19 U.S.C. 2253(g)(2) governing entry or withdrawal from warehouse for consumption of certain nonrubber footwear articles which are the product of countries not subject to the orderly marketing agreements now in effect on those products.

This authority is to be exercised upon direction by the special representative for trade negotiations in consultation with representatives of member agencies of the Trade Policy Staff Committee.

As you know, it was decided by the interagency committee to initiate consultations with the Government of Hong Kong, as provided for in paragraph 4(b) of proclamation 4510. As a result of those consultations, the U.S. Government will accept entry of specified nonrubber footwear from Hong Kong only where such footwear are accompanied by a valid certificate of Hong Kong origin and when such products meet all other U.S. entry requirements. This action is to be implemented pursuant to 203(g)(2) of the Trade Act, which requires regulations to be issued by the Department of the Treasury.

Since these actions are to be implemented no later than November 15, 1978, the regulations should be published in the FEDERAL REGISTER no later than Monday, October 9, in order to give the public, the trade, and customs field offices sufficient notice.

Attached is a copy of an exchange of letters with the Government of Hong Kong setting forth the administrative actions to be taken by each Government. The Department of Commerce supplied technical information and assistance in preparing these administrative guidelines and can therefore be called upon, as provided in Executive Order 11846, to assist in the preparation of the required 203(g)(2) regulations.

Sincerely,
ROBERT S. STRAUSS

Secretary, JUANITA KREPS.
Commissioner, ROBERT CHASEN.

APPENDIX II

ANNEX A: PRODUCT COVERAGE

The following items from the Tariff Schedules of the United States Annotated (as revised Jan. 1, 1978) are covered by the United States administrative arrangements:

Footwear provided for in items 700.05 through 700.85 inclusive (except items 700.51, 700.52, 700.53, 700.54, 700.60, 700.75, and disposable footwear designed for one-time use provided for in item 700.85) of the Tariff Schedules of the United States (TSUS).

ANNEX B: ORGANIZATIONS APPROVED FOR THE ISSUE OF CERTIFICATES OF ORIGIN

(1) Trade Industry and Customs Department.
(2) Hongkong General Chamber of Commerce.
(3) Indian Chamber of Commerce, Hongkong.
(4) Chinese Manufacturers' Association of Hongkong.
(5) Federation of Hongkong Industries (2 formats).
(6) Chinese General Chamber of Commerce.

LETTERS ON ADMINISTRATION BY UNITED STATES AND HONG KONG CONCERNING CERTAIN NONRUBBER FOOTWEAR

The following letters have been exchanged between the Government of the United States and the Government of Hong Kong setting forth the respective administrative actions to be taken by each country with regard to certain specified nonrubber footwear and setting forth certain cooperative efforts to assure effective administration of each system. The U.S. action is being taken pursuant to section 203(g)(2) of the Trade Act (19 U.S.C. 2253(g)(2)) and Presidential Proclamation No. 4510, dated June 22, 1977.

Draft—Hong Kong Letter

DEAR ——:I attach a copy of an Order made on (date) under (instrument). The effect of this Order is to require all footwear exported from Hong Kong to be subject to licensing except for goods which are in transit.

2. Following consultations between representatives of the Government of Hong Kong and the Government of the United States in Hong Kong in August, and in Washington in September 1978,

having regard to the agreements which the Government of the United States has entered into with certain countries on trade in nonrubber footwear,

in view of the concern expressed by the Government of the United States regarding increased exports of such products from Hong Kong to the United States,

in view of the traditional role of Hong Kong as an entrepot,

in view of the need to distinguish between nonrubber footwear which meets the origin criteria of the Government of Hong Kong and other exports from Hong Kong of nonrubber footwear,

the Government of Hong Kong has decided to introduce by October 15, 1978, if possible, but not later than November 1, 1978, as a condition for the issue of a licence of export to the United States of the nonrubber footwear listed in Annex I of Hong Kong origin as defined in Annex II that exporters shall obtain a Certificate of Hong Kong Origin issued by the competent authorities in Hong Kong. These authorities are listed in Annex III.

3. The Certificate of Hong Kong Origin will be in the form set out in Annex IV. The words "Made in Hong Kong" which appear in the Certificate of Hong Kong Origin mean that all the manufacturing processes listed in Annex II have been carried out in Hong Kong and the officer authorized to sign the Certificate of Hong Kong Origin has satisfied himself to this effect.

4. It is the understanding of the Government of Hong Kong that the U.S. authorities will accept entry of all such products when accompanied by a valid Certificate of Hong Kong Origin issued by the competent authorities in Hong Kong as earlier discussed and as elaborated in your letter to the Government of Hong Kong of today's date and when other appropriate U.S. entry requirements are met. Procedures will be introduced where the facts allow, to provide for the issue or reissue of Certificates of Hong Kong Origin in cases where such certificates are lost or shipments are otherwise unaccompanied by valid Certificates of Hong Kong Origin.

5. It is the understanding of the Government of Hong Kong that nothing in these administrative arrangements shall preclude either government from exercising its GATT rights. Should either government contemplate exercising its GATT rights, it shall afford full opportunity to the other for prior consultation. In critical circumstances where delay would cause damage difficult to repair, GATT rights may be exercised provisionally without prior consultations on the condition that consultations shall be effected immediately after taking the action.

6. In any consultations, the Governments of the United States and Hong Kong shall seek mutually acceptable arrangements to meet the concerns of the United States.

7. Notwithstanding paragraph 5 above, the Government of Hong Kong will not demur should the Government of the United States, in order to maintain the effectiveness of its agreements with certain other countries, which would otherwise be disrupted, deny entry of imports from Hong Kong of the nonrubber footwear listed in annex I of your letter of today's date when such products are not accompanied by a valid Certificate of Hong Kong Origin.

8. It is the understanding of the Government of Hong Kong that either Government may request consultations to meet the concerns of either Government at any time on any matters arising from these arrangements.

9. The Government of Hong Kong understands that these arrangements will be reviewed by both Governments no later than 30 June 1979.

10. The Government of Hong Kong understands that these arrangements shall remain in force until 30 June 1981 unless earlier modified or terminated after consultations and without objection by either party, or unless terminated by either party on giving 60 days prior written notice to the other party.

11. This letter and your letter of today's date on behalf of the Government of the United States, shall constitute an understanding between the Governments of the United States and Hong Kong with regard to the administrative actions set forth in these letters.

12. Accept, Sir, the renewal of my highest consideration.

Yours sincerely,

Draft—United States Letter

DEAR ——: This is to acknowledge your letter of today's date detailing measures to be taken by the Government of Hong Kong with respect to certain nonrubber footwear, which reads as follows:

(Text of the Government of Hong Kong letter to be inserted)

The Government of the United States of America appreciates the decision by the Government of Hong Kong to take these administrative actions, to help assure that present agreements covering trade in nonrubber footwear between the Government of the United States of America and certain other governments, implemented pursuant to Presidential Proclamation 4510 on June 22, 1977, do not become ineffective. Further, the Government of the United States of America agrees that the understandings set forth in your letter of today's date correspond to the understandings of the Government of the United States of America with respect to the subjects contained therein.

In order to administer efficiently the above mentioned agreements, which account for a major part of U.S. imports of the articles covered by the agreements, the President has delegated to the Special Representative for Trade Negotiations the authority found in U.S. statutes, to initiate consultations with countries from which imports have increased and which may be threatening the effectiveness of the agreements and to take action under U.S. law to provide for the issuing of regulations affecting entry, or withdrawal from warehouse for consumption, of such articles (19 U.S.C. 2253(g)(2).

Accordingly and following consultation with the Government of Hong Kong, the Government of the United States of America will take the following administrative actions pursuant to U.S. statutes.

A. The United States authorities shall accept entry of nonrubber footwear products when accompanied by a valid certificate of Hong Kong origin issued by the competent authorities in Hong Kong, and when such products meet all other U.S. entry requirements.

B. The United States authorities may deny entry to imports of the nonrubber footwear listed in annex I of this letter when such products are not accompanied by a valid certificate of Hong Kong origin.

Such nonrubber footwear exported [1] from Hong Kong to the United States on or after November 15, 1978 will require a valid certificate of Hong Kong origin (in the form set out in annex IV of the letter of today's date of the Government of Hong Kong) in order to permit entry or withdrawal from warehouse for consumption in the United States.

Nonrubber footwear exported [1] From Hong Kong to the United States prior to November 15, 1978 will not be allowed entry or withdrawal from warehouse for consumption in the United States after January 31, 1979 without a valid certificate of Hong Kong origin.

C. These U.S. administrative actions will be in effect until June 30, 1981, unless earlier modified or terminated in accordance with the understanding recorded in this letter and your letter of today's date.

This letter and your letter of today's date quoted above constitutes an understanding between our two Governments with regard to the administrative actions set forth in these letters.

Accept, Sir, the renewal of my highest consideration.

Yours sincerely, ————

ANNEX I—PRODUCT COVERAGE

The following items from the Tariff Schedules of the United States Annotated (as revised January 1, 1978) are covered by the U.S. administrative arrangements:

Footwear provided for in items 700.05 through 700.85 inclusive (except items 700.51, 700.52, 700.53, 700.54, 700.60, 700.75, and disposable footwear designed for one-time use provided for in item 700.85) of the Tariff Schedules of the United States (TSUS).

SURFACE COAL MINING AND RECLAMATION OPERATIONS PERMANENT REGULATORY PROGRAM

Public Hearing and Extension of Time for Filing Comments

AGENCY: Office of Surface Mining Reclamation and Enforcement, Department of the Interior.

ACTION: Announcement of public hearing and extension of time to file comments on proposed rules, regulatory analysis and draft environmental impact statement.

SUMMARY: This announcement schedules an additional public hearing on the proposed rules for the permanent regulatory program and extends the time by which comments on the proposed rules, regulatory analysis and draft environmental impact statement must be received.

DATES: The public hearing will be held November 22, 1978. Comments will be accepted on the draft environmental impact statement until 5 p.m., November 27, 1978. Comments will be accepted on the proposed rules and regulatory analysis until 5 p.m., November 27, 1978.

ADDRESSES: Written comments must be mailed to the Office of Surface Mining, U.S. Department of the Interior, P.O. Box 7267, Benjamin Franklin Station, Washington, D.C. 20044; or be hand delivered to: Office of Surface Mining, Room 120, U.S. Department of the Interior, South Building, 1951 Constitution Avenue NW., Washington, D.C. 20240. The hearing will be held at the Department of the Interior Auditorium, 18th and C Streets NW., Washington D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

Ron Drake, Special Assistant to the Director, Office of Surface Mining, Department of the Interior, Washington, D.C. 20240, 202-343-5371.

SUPPLEMENTARY INFORMATION: On September 18, 1978, the Office published proposed rules to implement the permanent regulatory program under the Surface Mining Control and Reclamation Act of 1977, 43 FR 41662, September 18, 1978. In the preamble to the proposed rules and in the draft environmental impact statement the Office listed all technical literature and other source material considered in developing the proposed rules. The Office has determined that not all the technical literature listed was available for public perusal during the week of October 16, 1978, in Room 120, U.S. Department of the Interior, South Building, 1951 Constitution Avenue NW., Washington, D.C.

As of Friday, October 27, 1978, all the technical literature and other source material which the Office relies upon as support for the proposed rules, regulatory analysis, and draft environmental impact statement will be assembled in Room 120, U.S. Department of the Interior, South Building. To assure at least a full 30-day comment period and public hearing on the source material supporting the proposed rules, regulatory analysis and draft environmental impact statement the Office has decided to extend the comment period until no later than 5 p.m. on November 27, 1978. The Office will also conduct one additional public hearing in Washington, D.C. on November 22, 1978, at 9:30 a.m., Department of the Interior Auditorium, 18th and C Streets NW., Washington, D.C. 20240. Persons wishing to testify at that hearing should contact Pat Foulk, 202-343-4953, to schedule a time for their statement. The public hearing will follow the same procedures as outlined for public hearings in the September 18, 1978 FEDERAL REGISTER notice at 43 FR 41662-41663.

This notice also extends the November 17, 1978, date for public comments on the draft programmatic environmental impact statement previously identified in FEDERAL REGISTER notices of October 4, 1978 (43 FR 45886-45887), and October 23, 1978 (43 FR 49361), to November 27, 1978 by no later than 5 p.m.

The following literature listed in the preamble to the proposed rules and draft environmental impact statement is deleted from such documents:

Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

FISHERY MANAGEMENT PLAN
Commerce/NOAA issues proposal on increase of optimum yield and incremental apportionment of total allowable level of foreign fishing; comments by 11-9-78 50473

UNIFORM TIRE QUALITY GRADING (UTQG) STANDARDS
DOT/NHTSA revises grading symbols used to indicate traction grades, responds to petitions and withdraws proposal to modify tread label requirements, effective 10-23-78 50438

TOXIC SUBSTANCES CONTROL ACT
EPA requests comments by 3-30-79 on recent additions to the Interagency Testing Committee's Priority List of chemicals recommended for testing (Part IV of this issue) 50630

SAINT LAWRENCE SEAWAY
DOT/SLS announces procedures for closing of 1978 navigation season 50530

SURFACE COAL MINING AND RECLAMATION OPERATIONS
Interior/SMRE extends comment period to 11-1-78 on proposing technical guidelines for preliminary identification of alluvial valley floors 50472

AIRWORTHINESS STANDARDS
DOT/FAA updates airframe and crashworthiness standards; effective 12-1-78 (Part II of this issue) 50578

STORED SUGAR BEETS
EPA grants specific exemptions to use thiabendazole to control fungi (3 documents) 50502, 50504

SURF CLAM AND QUAHOG FISHERIES
Commerce/NOAA issues notice on reduction of fishing "time" per week 50442

COMPETITIVE NATIONAL VISTA GRANTS
ACTION extends date on a availability of application kit to 11-13-78 50488

FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION
FHLBB proposes amendment relating to restrictions on real property transactions with affiliated persons; comments by 11-27-78 50444

URBAN DEVELOPMENT ACTION GRANTS
HUD rules to change method in establishing minimal standards of physical and economic distress for applications; effective 10-30-78; comments by 11-29-78 50637

MEETINGS—
Commerce/NOAA: New England Fishery Management Council's Scientific and Statistical Committee, 11-14-78 . 50489
Secy: Federal Policy on Industrial Innovation, 11-1 and 12-15-78 50489
CRC: District of Columbia Advisory Committee, 11-14-78 .. 50488
DOD/AF: USAF Scientific Advisory Board Ad Hoc Committee on Applicatipns of Heavy-Lift Air Vehicles, 11-20 and 11-21-78 50490
USAF Scientific Advisory Board, 11-14 and 11-15-78 50490
DOT/NHTSA: National Highway Safety Advisory Committee, 11-15 and 11-16-78 50530
EPA: Federal Insecticide, Fungicide, and Rodenticide Act Scientific Advisory Panel, 11-15 and 11-16-78 50501

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[Amdt. 4]

PART 1435—SUGAR

Subpart—Price Support Loan Program for 1977 Crop Sugar beets and Sugarcane

RELOCATING 1977 CROP LOAN SUGAR

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: This rule sets forth the terms and conditions under which the cost of relocating 1977 crop loan sugar may be borne by the Commodity Credit Corporation (CCC).

CCC will reimburse processors for their cost of transferring 1977 crop loan sugar, intended for forfeiture, to alternate storage space when the present storage space is needed for storage of 1978 crop sugar. The alternate storage space must be (1) arranged for by the processor; (2) determined by CCC to be safe for the storage of loan sugar; (3) available to CCC, under terms acceptable to CCC, for the storage of CCC owned sugar upon maturity of the loan; (4) not needed for the storage of the 1978 crop of sugar; and (5) located, to the extent possible, between the production and marketing areas for such sugar. Such relocation must be made prior to the loan maturity date. The processor must reimburse CCC for relocation costs paid by CCC, plus interest thereon, with respect to any quantity of loan sugar subsequently redeemed.

EFFECTIVE DATE: September 25, 1978.

FOR FURTHER INFORMATION CONTACT:

Laurence E. Ackland, ASCS, PSD, 202-447-5647, P.O. Box 2415, Washington, D.C. 20013.

SUPPLEMENTARY INFORMATION: Section 902 of the Food and Agriculture Act of 1977 (Pub. L. 95-113, 91 Stat. 949, effective October 1, 1977) amended section 201 of the Agricultural Act of 1949 to provide that the price of the 1977 and 1978 crops of sugar beets and sugarcane shall be supported through loans or purchases with respect to the processed products thereof.

On November 11, 1977, a final rule was published in the FEDERAL REGISTER (42 FR 58734) implementing a program effective as of November 8, 1977, to support prices in the marketplace for producers of 1977 crop sugar beets and sugarcane through nonrecourse loans made to sugar processors. The price support loan program for the 1977 crop was amended on May 17, 1978 (43 FR 21317), on August 23, 1978 (43 FR 37419), and on August 30, 1978 (43 FR 38686).

Florida and Texas processors who have put 1977 crop raw cane sugar under loan have done so to the maximum possible extent of their existing physical storage capacity. Loan sugar presently in storage totals about 330,000 tons in Florida and 50,000 tons in Texas. None of the 1977 crop loans will mature before November 30, 1978, and most will mature by March 31, 1979. With the harvest of the 1978 sugarcane crop due to begin in early November, Florida and Texas processors have become increasingly concerned about storage space for new crop sugar.

Indications are that, because of low prices and a lack of market opportunity, about 250,000 tons of Florida loan sugar and 50,000 tons of Texas loan sugar will not be redeemed by existing maturity dates. About 100,000 tons of refined beet sugar is in the same category, but the storage problem is not believed to be as critical in the beet area.

The regulations permit CCC to take delivery at processor's place of storage of unredeemed sugar upon maturity of loans. No additional outlays are incurred when CCC assumes costs of relocating sugar intended to be forfeited since such sugar would have to be moved from processor storage at CCC expense when forfeited. By assuming such costs prior to loan maturity, CCC outlays will only be incurred at an earlier date.

The need in certain areas for storage space for the 1978 crop of sugar became so pressing that it was determined the implementation of this action did not permit compliance with applicable rulemaking requirements.

In accordance with Executive Order 12044, dated March 23, 1978, a final impact analysis of this action has been prepared. An approved final Impact Analysis is available from Laurence E. Ackland, rrom 5761, South Building, USDA, Washington, D.C. 20250.

Accordingly, 7 CFR 1435.22 is amended by redesignating paragraph (a) as paragraph (a)(1) and by adding a new paragraph (a)(2) to read as follows:

. . . . . .

§ 1435.22 **Loan Maintenance and liquidation.**

(a)(1) *Maintenance of the commodity under loan.* • • •

(a)(2) *Relocation of loan sugar intended for forfeiture.* A processor may, with prior approval of the loan-making office, relocate sugar under loan, which is in storage space needed for the storage of 1978 crop sugar, to other eligible storage space not needed for the storage of 1978 crop sugar. In addition to the requirements of § 1435.19(d), the eligibility of such alternate space shall depend upon the ability of CCC to enter into a contract permitting the storage of sugar in the same space subsequent to loan maturity of the sugar to be relocated to such space. To the extent possible, such storage space must be located between the production and marketing areas for the sugar relocated. For that portion of the quantity of loan sugar which the processor declares an intention to forfeit on maturity of the loan and which is relocated in accordance with the above conditions, CCC shall pay the loading-out, transportation, and loading-in expenses incurred by the processor in the relocation of such sugar: *Provided, however,* That such expenses, plus interest thereon at 6 percent per annum, must be repaid to CCC by the processor for any relocated sugar upon its redemption from loan.

. . . . . .

(Secs. 201, 401 *et seq.*, Agricultural Act of 1949, as amended (7 U.S.C. 1446, 1421 *et seq*))

arcane; and (2) establishes differential loan rates for both offshore and mainland sugar based on the estimated

upward adjustments in both the sugar-beet parity price (from the estimated $45.40 per net ton to $47.10) and the

loan rate for beet sugar processors located in the Eastern area, plus an additional premium for packaged sugar under loan. One other respondent sup-

tion area to destination representative of the true value of the sugar to the Commodity Credit Corporation (CCC) in the event of takeover? The Depart-

that final announcement of the 1978 crop support prices and loan rates will not be unduly delayed. Accordingly, it is hereby determined that any further

PART 1435—SUGAR

Subpart—Price Support Loan Program for 1978 Crop Sugar Beets and Sugarcane

ESTABLISHMENT OF LOCATION DIFFERENTIALS

AGENCY: Commodity Credit Corp., USDA.

ACTION: Final rule.

SUMMARY: On June 7, 1978, there was published in the FEDERAL REGISTER (43 FR 24663) a final rule setting forth the terms and conditions under which prices to domestic producers of 1978 crop sugar beets and sugarcane would be supported. The sugar beet and sugarcane support prices and the basic loan rates for refined beet sugar and raw cane sugar established in the rule were based on "estimated" July 1978 parity. The Department stated upon issuance of the rule that after announcement of July parity prices the support prices and loan rates would be increased if necessary to achieve the statutory minimum support level of 52.5 percent of parity.

The rule also established differential loan rates for sugar produced and stored in Hawaii and Puerto Rico. The locational discounts to be applied to the basic loan rate for cane sugar, raw value, were based on the estimated ocean freight and shore risk, marine and war risk insurance charges from Hawaii or Puerto Rico to the processor's normal market outlet on the mainland. At the same time, the Department stated that it was also giving consideration to establishing location differentials with respect to the loan rates for sugar produced on the mainland, and solicited views, data and recommendations on how it might be done.

This amendment to the final rule (1) increases the support prices for sugar beets and sugarcane and the basic loan rates for refined beet sugar and cane sugar, raw value, to reflect 52.5 percent of the announced July 1978 parity prices for sugar beets and sugarcane; and (2) establishes differential loan rates for both offshore and mainland sugar based on the estimated average costs of transporting sugar from the processing region to destination.

EFFECTIVE DATE: October 25, 1978.

FOR FURTHER INFORMATION CONTACT:

Laurence E. Ackland, ASCS, PSD, 202-447-5647, P.O. Box 2415, Washington, D.C. 20013.

SUPPLEMENTARY INFORMATION: Section 902 of the Food and Agriculture Act of 1977 (Pub. L. 95-1113, 91 Stat. 949, effective October 1, 1977) amended section 201 of the Agricultural Act of 1949 to provide that the price of the 1977 and 1978 crops of sugar beets and sugarcane shall be supported through loans or purchases with respect to the processed products thereof at a level not in excess of 65 percent nor less than 52.5 percent of the parity price therefor. Section 201 also directs the Secretary of Agriculture, in carrying out the program, to establish minimum wage rates for agricultural employees engaged in the production of sugar crops.

On November 11, 1977, a final rule was published in the FEDERAL REGISTER (42 FR 58734) implementing a program effective as of November 8, 1977, to support prices in the marketplace for producers of 1977 crop sugar beets and sugarcane through loans made to sugar processors. The price support loan program for the 1977 crop was amended on May 17, 1977 (43 FR 21317), on August 23, 1978 (43 FR 37419), and on August 30, 1978 (43 FR 38686).

A final rule implementing a price support loan program for the 1978 crop of sugar beets and sugarcane was published in the FEDERAL REGISTER on June 7, 1978 (43 FR 24663). Amendments to the 1978 crop program were published on August 23, 1978 (43 FR 37419) and on August 30, 1978 (43 FR 38686).

On January 10, 1978, a final rule was published in the FEDERAL REGISTER (43 FR 1476) establishing minimum wage rates for fieldworkers engaged on and after November 8, 1977, in the production, cultivation, and harvesting of the 1977 and 1978 crops of sugar beets and sugarcane.

The support prices per net ton of sugar beets and sugarcane and the basic loan rates for refined beet sugar and raw cane sugar, as established in the regulations governing the 1978 crop program, were based upon an estimate of what 52.5 percent of parity would be as of July 1978. A July survey by the USDA Economics, Statistics, and Cooperatives Service of prices received for 1977 crop sugar beets and sugarcane resulted in upward adjustments in both the sugarbeet parity price (from the estimated $45.40 per net ton to $47.10) and the sugarcane parity price (from the estimated $35.70 per net ton to $35.90). Parity prices based on data for July 1978 were published in *Agricultural Prices* on July 31, 1978.

At 52.5 percent of parity, the average support price per net ton of sugar beets is $24.73. For sugarcane, an average price of $18.85 per net ton is equal to the statutory minimum support level. After deducting 57 cents per net ton from the sugarcane support price to reflect the value of molasses (computed on the basis of average USDA quoted molasses prices at New Orleans for the time span of 1975 through the first seven months of 1978, less appropriate discounts), and applying appropriate pricing and quality factors, a basic loan rate of 14.73 cents per pound for cane sugar, raw value, was computed as necessary to achieve 52.5 percent of parity to sugarcane producers. The basic loan rate for refined beet sugar of 16.99 cents per pound is a function of the raw cane sugar loan rate—14.73 cents per pound times 1.10 (the historical relationship between refined beet sugar net selling prices and raw cane sugar prices) plus .79 cent per pound for fixed marketing expenses.

The initial regulations with respect to the 1978 crop sugar loan program established differential loan rates for sugar stored in Puerto Rico and Hawaii based on the estimated cost of ocean transport and marine risk insurance. The basic loan rate for raw sugar stored on the mainland was set at 14.65 cents per pound, with that rate to be discounted 0.46 cent (to 14.19 cents per pound) for sugar stored in Hawaii and 1.29 cents (to 13.36 cents per pound) for sugar stored in Puerto Rico. At the same time, the Department stated that it was also giving consideration to establishing locational differentials for sugar produced on the mainland. The public was invited to submit comments and recommendations on the matter of differential loan rates, and producers and processors were encouraged to submit data to document historic differences in the market prices of sugar at the various producing and processing locations.

The Department received 12 responses to its request for comments and recommendations. None of the respondents submitted data to support their recommendations, except for one or two specific examples to illustrate the recommendations made. Of the total, seven were opposed and four were in support of location differentials. One of the four in support, an association of sugar beet producers and processors, recommended a premium

loan rate for beet sugar processors located in the Eastern area, plus an additional premium for packaged sugar under loan. One other respondent supported differential loan rates provided that loans be supplemented with direct payments equal to the cost of shipping and handling. Those opposed to differentials (one cooperative refiner and six sugar processors) stated legal objections, considerations of equity, and the likelihood that their ability to pay producers would suffer. In general, users and refiners recommended discounts equal to freight expense, while processors were opposed.

One of the respondents classified as being in opposition did not take a direct stand against location differentials but stated an awareness of the philosophy behind the establishment of differentials for sugar stored offshore and reasoned that sugar produced and marketed in Puerto Rico should be eligible for the full basic loan rate since transportation and insurance costs for delivery to the mainland would not be incurred. The respondent said that the following two categories of sugar in Puerto Rico should not be subject to a location discount: (1) Sugar already marketed under contract for future delivery to a purchaser on the Island, and (2) sugar to be sold for local consumption on a demand basis to independent distributors. This sugar would be used as loan collateral with redemption taking place as delivery occurred. This recommendation has not been adopted. Since it would be the processors' intention to redeem the entire quantity of such sugar placed under loan, the Department believes it to be of no substantial consequence to the processor if the loan rate is discounted. If the full basic loan rate was provided there would be no assurance to CCC that the processor would not forfeit a portion of the collateral, particularly with respect to the second category of sugar.

The recommendation that a premium loan rate be provided for packaged beet sugar has also not been adopted. The Department feels that the processor has the opportunity to use either bulk or bagged sugar as collateral for a loan and should not receive a premium just because bagged sugar is placed under loan.

In considering the recommendations and available data, the Department felt that the decision on whether to adopt loan rates incorporating location differentials turned on two questions. First, is it the intent to support the price to producers equally at every factory, or to vary that support with differentials consistent with normal market values? Second, are differential loan rates based on the costs of transporting sugar from the production area to destination representative of the true value of the sugar to the Commodity Credit Corporation (CCC) in the event of takeover? The Department believes that the price support program is intended to support producers' prices consistent with historical market values. This is consistent with most other commodity programs. It also reduces the probability of CCC takeover in areas where the cost of transporting sugar to market is quite high. This was the basis of the Department's initial decision to establish location differentials for sugar stored offshore.

The CCC is similarly affected by sugar stored on the mainland. The regulations as originally issued would encourage processors with high delivery costs to forfeit sugar even though the effective market price was equal to the national average loan rate plus accrued interest. In explanation of the previous statement, it is important to note that when a processor markets his sugar he incurs costs associated with delivery to the buyer. If the processor "markets" his sugar to CCC (forfeits the loan collateral), he avoids those costs. The Department believes that the processor will consider that in his decision to forfeit or redeem, and that unless loan rates incorporating location differentials are established the processor will make a decision that takes into account only his location, all other conditions being equal.

Accordingly, it is hereby determined that differential loan rates which are based on the estimated average costs of transporting sugar from the processing region to destination, should be established for all sugar offered for loan. Since processors must, on weighted average, be provided the basic loan rate of 16.99 cents for refined beet sugar or 14.73 cents for cane sugar, raw value, if the statutory minimum support level of 52.5 percent of parity is to be achieved, the loan rate established by this amendment for each location is equal to the applicable basic loan rate plus the weighted national average, cost of transporting sugar to destination (computed separately for refined beet sugar and raw cane sugar) less the average cost of transporting as computed for the processing region. Producers as a group will achieve the minimum support price of $24.73 per net ton of sugar beets or $18.85 per net ton of sugarcane, although some will receive more and others less depending on locational loan rates and traditional sharing relationships between processors and producers.

Some loans on 1978 crop sugar have already been made, and additional requests are expected in the future. In view of this situation, it is essential that these actions be implemented so that final announcement of the 1978 crop support prices and loan rates will not be unduly delayed. Accordingly, it is hereby determined that any further compliance with applicable proposed rulemaking requirements is impracticable and contrary to the public interest.

In accordance with Executive Order 12044, dated March 23, 1978, a final impact analysis of this action has been prepared. An approved final impact analysis is available from Laurence E. Ackland, Room 5761, South Building, USDA, Washington, D.C. 20250.

Accordingly, 7 CFR Part 1435 is amended as follows:

Subpart—Price Support Loan Program for 1978 Crop Sugar Beets and Sugarcane

1. By revising paragraphs (c) and (d) of § 1435.37 to read as follows:

§ 1435.37 Level and method of support and loan rates.

* * * * *

(c) *Loan rates.* The basic (weighted average) loan rates for the 1978 crop shall be 16.99 cents per pound for refined beet sugar and 14.73 cents per pound for cane sugar, raw value, including the cane sugar, raw value, equivalent contained in cane syrup and edible molasses.

(d) *Locational differentials.* (1) The loan rate applicable to eligible sugar shall be the rate specified in subparagraphs (2) and (3) of this paragraph for the region in which such sugar was processed: *Provided*, That in the case of refined or specialty sugar made from raw cane sugar which would otherwise be eligible for loan except that it is no longer in its raw form, the loan rate shall be the appropriate regional loan rate applied to the cane sugar, raw value, equivalent of the refined or specialty sugar. Such sugar must have been manufactured by a cane sugar refining facility that is cooperatively owned by its raw cane sugar processors or by a processor of sugarcane who is also a refiner.

(2) The processing regions and applicable loan rates for refined beet sugar shall be as listed below:

Region number and description	Cents per pound
1—Michigan and Ohio	17.68
2—Minnesota and the eastern half of North Dakota	16.89
3—Northeastern quarter of Colorado; northwestern quarter of Kansas; Nebraska, and the southeastern quarter of Wyoming.	16.48
4—Southeastern quarter of Colorado, and Texas	17.08
5—Montana and the northwestern quarter of Wyoming.	16.59
6—That part of Idaho east of the eastern boundary of Owyhee county and of such boundary extended northward; and Utah	16.67

Region number and description	Cents per pound

Law No. 426—also known as the Puerto Rico Sugar Law—and the rules issued thereunder by the Sugar Board

DATES: Effective date November 6, 1978. Compliance schedule—As prescribed in the body of the AD.

fleet the changes included in revision II of service instructions No. 0334-152, the manufacturer discovered that

7—That part of Idaho west of the eastern boundary of Owyhee county and of such boundary extended northward; Oregon; and Washington.	16.76
8—Arizona and California	17.39

(3) The processing regions and applicable loan rates for cane sugar, raw value, shall be as listed below, except that for such sugar processed in Hawaii or Puerto Rico but placed under loan on the mainland of the United States the applicable loan rate shall be 14.73 cents per pound:

Region	Cents per pound
Florida	14.98
Louisiana	15.04
Texas	14.66
Hawaii	14.66
Puerto Rico	13.44

2. By revising paragraph (b) of § 1435.38 to read as follows:

§ 1435.38 Eligibility requirements.

* * * * *

(b) Eligible processors for the 1978 crop are those who pay to all eligible producers who deliver to them for processing sugar beets and sugarcane of average quality in the following locations, not less than:

(1) For sugar beets in the regions described in paragraph (d)(2) of § 1435.37, the following rates per net ton:

Region 1, $23.51.
Region 2, $24.86.
Region 3, $24.26.
Region 4, $25.14.
Region 5, $24.42.
Region 6, $24.54.
Region 7, $24.67.
Region 8, $25.60.

(2) For sugarcane in Florida, $20.36 per net ton;

(3) For sugarcane in Louisiana, $17.57 per net ton;

(4) For sugarcane in Texas, the amount determined by multiplying 8.796 cents times the average pounds of cane sugar, raw value, recovered per ton from the sugarcane delivered to the processor by all producers, as adjusted by the processor to reflect the quality of the juice (normal juice sucrose and normal juice purity) extracted from the individual producer's sugarcane;

(5) For sugarcane in Hawaii, where the delivery point is at the mill, the amount determined by multiplying 9.6756 cents times the total pounds of cane sugar, raw value, recovered per ton from the sugarcane delivered to the processor by the individual producer; and

(6) For sugarcane in Puerto Rico, that price determined in accordance with the provisions of Puerto Rico Law No. 426—also known as the Puerto Rico Sugar Law—and the rules issued thereunder by the Sugar Board of Puerto Rico:

Provided, however, That the foregoing prices may be adjusted for sugar beets or sugarcane of nonaverage quality on the method agreed upon by the producer and processor, subject to prior approval of the Executive Vice President, CCC, or his designee.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 78-CE-19-AD; Amdt. 39-3329]

PART 39—AIRWORTHINESS DIRECTIVES

Beech 50, 65, 70, 90, 99, and 100 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule, supersedure of existing Airworthiness Directive.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Beech 50, 65, 70, 90, 99, and 100 series airplanes, which supersedes AD 70-18-02. The new AD requires a one-time visual inspection of certain elevator control push rods for bends, nicks, cracks or corrosion; a dye penetrant inspection for cracks; and application of an internal corrosion preventative treatment to untreated rods. These requirements will alleviate the need for AD 70-18-02. Approximately 510 additional airplanes not presently covered by AD 70-18-02 are added to the applicability statement of this AD. This action will assure continued structural integrity of elevator control push rods and preclude possible failures which would have an adverse effect on aircraft controllability.

DATES: Effective date November 6, 1978. Compliance schedule—As prescribed in the body of the AD.

ADDRESS: Beechcraft Service Instructions No. 0334-152, Revision III, applicable to this AD, may be obtained from local Beechcraft Aviation and Aero Centers or Beech Aircraft Corp., Commercial Service Department, 9709 East Central, Wichita, Kans. 67201. A copy of the service instructions cited above is contained in the Rules Docket, Office of the Regional Counsel, room 1558, 601 East 12th Street, Kansas City, Mo. 64106 and at room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

William L. (Bud) Schroeder, Aerospace Engineer, Engineering and Manufacturing Branch, FAA, Central Region, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3446.

SUPPLEMENTARY INFORMATION: Amendment 39-907 (35 FR 305) as amended by amendments 39-1074 (35 FR 13722-13723) and 39-1879 (39 FR 21120), AD 70-18-02, currently requires repetitive inspections of elevator control push rods on certain Beech 50, 65, 70, and 90 series airplanes for bends, nicks, cracks or corrosion in accordance with Beechcraft Service Instructions 0334-152, Revision I.

Subsequent to the issuance of AD 70-18-02, it was determined that the elevator control push rod cracks are caused by corrosion inside the control rod tubes. The manufacturer has now begun applying a corrosion preventative treatment to the inside of current production rods. This treatment eliminates the internal corrosion problem and negates the need for mandatory repetitive inspections to assure continued structural integrity of the elevator control push rods. Also, subsequent to the issuance of AD 70-18-02, the manufacturer ascertained that certain 99 and 100 series airplanes, which are not affected by AD 70-18-02, have similar elevator control push rods that are susceptible to internal corrosion. To correct this problem on in-service airplanes, the manufacturer issued Beechcraft Service Instructions Number 0334-152, Revision II, superseding revision I of the same service instructions. Revision II recommended a one-time inspection and corrosion treatment for elevator control push rods on all airplanes currently affected by AD 70-18-02 plus certain Beech 99 and 100 series airplanes. In addition, revision II included cutoff serial numbers for various models of airplanes delivered with elevator control push rods that do not have the corrosion preventative treatment. Before AD 70-18-02 could be amended to reflect the changes included in revision II of service instructions No. 0334-152, the manufacturer discovered that some airplanes were delivered with elevator control push rods that were identified as having received the corrosion preventative treatment when in fact they had not. As a result, Beechcraft Service Instructions No. 0334-152, Revision III, has now been issued to correct this problem. The repetitive inspections recommended by revision I of Beechcraft Service Instructions No. 0334-152, and made mandatory by AD 70-18-02, are no longer required after accomplishment of the inspection and corrosion preventative treatment recommended by revision III of the service instructions.

Accordingly, the FAA has decided to supersede AD 70-18-02 with a new AD applicable to certain Beech 50, 65, 70, 90, 99, and 100 series airplanes making compliance with the recommendations in Beechcraft Service Instructions No. 0334-152, Revision III mandatory.

Since this AD is in part relieving in nature and since a situation exists that requires the expeditious adoption of this regulation, it is found that notice and public procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

ADOPTION OF THE AMENDMENT

In consideration of the foregoing, and pursuant to the authority delegated to me by the administrator, § 39.13 of part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

BEECH. Applies to the following models and serial number airplanes, certificated in all categories:

Model	Serial No.
50	H-1 through H-11.
B50, C50	CH-12 through CH-360.
D50, D50A, D50B, D50C and D50E.	DH-1 through DH-347.
E50	EH-1 through EH-70.
F50	FH-71 through FH-93, FH-95, FH-96.
G50	GH-94, GH-97 through GH-119.
H50	HH-120 through HH-149.
J50	JH-150 through JH-176.
65, A65, A65-8200	L-1, L-2, L-6, LF-7, LF-8, LC-1 through LC-335.
70	LB-1 through LB-35.
65-80, 65-A80, 65-A80-8800, 65-B80.	LD-1 through LD-511.
65-88	LP-1 through LP-28, LP-30 through LP-47.

Model	Serial No.
65-90, 65-A90, B90, C90.	LJ-1 through LJ-797.
E90	LW-1 through LW-297.
99, 99A, A99A, B99	U-1 through U-164.
100, A100	B-1 through B-247.
B100	BE-1 through BE-55.

COMPLIANCE: Required as indicated unless already accomplished.

To prevent partial loss of elevator control due to possible failure of elevator control push rods, in accordance with instructions set forth herein and in Beechcraft Service Instructions No. 0334-152, Revision III, or later approved revisions, accomplish the following:

(A) On the following airplanes:

Model	Serial No.
50	H-1 through H-11.
B50 and C50	CH-12 through CH-360.
D50, D50A, D50B, D50C, and D50E.	DH-1 through DH-347.
E50	EH-1 through EH-70.
F50	FH-71 through FH-93, FH-95 and FH-96.
G50	GH-94 and GH-97 through GH-119.
H50	HH-120 through HH-149.
J50	JH-150 through JH-176.
65, A65 and A65-8200.	L-1, L-2, L-6, LF-7, LP-8 and LC-1 through LC-335.
70	LB-1 through LB-35.
65-80, 65-A80, 65-A80-8800 and 65-B80.	LD-1 through LD-511.
65-88	LP-1 through LP-28 and LP-30 through LP-47.
65-90, 65-A90, B90 and C90.	LJ-1 through LJ-716.
E90	LW-1 through LW-222.
99, 99A, A99A and B99.	U-1 through U-164.
100, A100	B-1 through B-233.
B100	BE-1 through BE-23.

Upon the accumulation of 1,050 hours total time-in-service for airplanes with less than 1,000 hours total time-in-service on the effective date of this AD,

Within 50 hours time-in-service after the effective date of this AD, for airplanes with more than 1,000 hours total time-in-service on the effective date of this AD, that have not complied with AD 70-18-02, or

Within 500 hours time-in-service after the last inspection in accordance with AD 70-18-02, for airplanes with more than 1,000 hours total time-in-service that have complied with AD 70-18-02:

1. Review the airplane maintenance records for entries showing that Beechcraft Service Instructions No. 0334-152, Revision II, has been complied with. If revision II of the service instructions has not been complied with, accomplish paragraph (A)2 of this AD. If revision II of the service instructions has been complied with, accomplish paragraph (A)3 of this AD within an additional 100 hours time-in-service after this finding.

2. Gain access to the elevator control push rods (reference figures I and II of this AD) and visually inspect for the words "Corrosion Proofed" ink stamped near the center of the rods. If the words "Corrosion Proofed" are ink stamped on a rod, no further action on that rod is required by this AD. If the words "Corrosion Proofed" are not ink stamped on the rods, remove the elevator control push rods, clean, dye penetrant and visually inspect, check for bows, apply corrosion preventative treatment, identify and reinstall, all in accordance with Part I of Beechcraft Service Instructions No. 0334-152, Revision III, or later approved revisions.

3. Gain access to the elevator control push rods (reference figures I and II of this AD) and visually inspect for the words "Corrosion Proofed" ink stamped near the center of each rod. If the words "Corrosion Proofed" are ink stamped on a rod, then no further action on that rod is required by this AD. If the words "Corrosion Proofed" are not ink stamped on any rod and new rods were not installed during compliance with revision II of the service instructions, paint a black stripe around the center of each rod in accordance with Part II of Beechcraft Service Instructions No. 0334-152, Revision III, or later approved revisions. If any new rods were installed during compliance with revision II of the service instructions and the new rods are not ink stamped "Corrosion Proofed", on each new rod so installed, remove the elevator control push rod, disassemble, inspect for corrosion preventative treatment and alignment, and if not found accomplished, apply the corrosion preventative treatment, identify, reassemble and reinstall, all in accordance with Part III of Beechcraft Service Instructions No. 0334-152, Revision III, or later approved revisions.

(B) On the following airplanes:

Model	Serial No.
C90	LJ-717 through LJ-797.
E90	LW-223 through LW-297.
A100	B-234 through B-247.
B100	BE-24 through BE-55.

Within 100 hours time-in-service after the effective date of this AD:

1. Gain access to the elevator control push rods (reference figures I and II of this AD) and visually inspect for the words "Corrosion Proofed" ink stamped near the center of the rods. If the words "Corrosion Proofed" are ink stamped on a rod, no further action on that rod is required by this AD. If the words "Corrosion Proofed" are not ink stamped on the rods, remove the elevator control push rod tubes, disassemble, inspect for corrosion preventative treatment and alignment, and if not found accomplished, apply the corrosion preventative treatment, identify, reassemble and reinstall, all in accordance with Part III of Beechcraft Service Instructions No. 0334-152, Revision III, or later approved revisions.

SUPPLEMENTARY INFORMATION: Interested persons were invited to participate in the making of this rule by

failing resulting in loss of engine control. Although none of the failures have been so severe as to result in loss

Issued in Seattle, Wash., on October 18, 1978.

C. B. WALK, JR.,

V 43/210 OCT 30 78

(C) On all airplanes affected by this AD, replace any elevator control push rods found cracked or otherwise unserviceable during any inspection required by this AD with serviceable rods that comply with the requirements of this AD prior to returning the airplane to service.

(D) Any equivalent means of compliance with this AD must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

This AD supersedes AD 70-18-02, Amendment 39-907 (35 FR 305) as amended by Amendments 39-1074 (35 FR 13722 and 13723) and 39-1879 (39 FR 21120). This amendment becomes effective November 6, 1978.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); sec. 11.89, Federal Aviation Regulations (14 CFR 11.89).

NOTE.—The Federal Aviation Administration has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Kansas City, Mo. on October 20, 1978.

WM. JACK SASSER,
Acting Director, Central Region.

[FR Doc. 78-30570 Filed 10-27-78; 8:45 am]

[4910-13-M]

[Docket No. 78-EA-77, Amdt. 39-3326]

PART 39—AIRWORTHINESS DIRECTIVES

General Dynamics

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) applicable to General Dynamics (Convair) 340, 440, 640, 580 type airplanes altered by STC SA896EA, emergency exit window interior trim panel, and requires replacement or removal of the trim panel so as to prevent entrapment of the operator's hand during release of the window.

EFFECTIVE DATE: November 1, 1978. Compliance is required within the next 10 hours in service.

ADDRESSES: Service bulletins may be acquired from the manufacturer at Magee Plastics Co./Magee Systems Co., 535 Rochester Road, Pittsburgh, Pa. 15237.

FOR FURTHER INFORMATION CONTACT:

M. Schoenberger, Aircraft Modification Section, AEA-219, Engineering and Manufacturing Branch, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430, telephone 212-995-3348.

SUPPLEMENTARY INFORMATION: During removal of the emergency window exit, the trim panel can shift upward making it difficult to extricate the hand from the latch access area.

Since this is a condition existing in airplanes of the referenced type design, an AD is being issued which will require replacement or removal of the trim panel. Since this deficiency concerns emergency exit from an airplane, safety is affected so that notice and public procedure hereon are impractical and good cause exists for making the rule effective in less than 30 days.

ADOPTION OF THE AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended, by issuing a new airworthiness directive, as follows:

GENERAL DYNAMICS. Applies to models 340 and 440 airplanes, including those modified for turbopropeller power in accordance with STC SA1096WE and SA4-1100, which have been modified to incorporate interiors in accordance with STC SA896EA, certificated in all categories.

Compliance required as indicated.

To assure release of the operator's hand after removal of the emergency exit window, accomplish the following:

a. Within the next 10 hours in service after the effective date of this airworthiness directive, unless previously accomplished, remove the emergency exit interior trim panel Magee Plastic Co., P/N 9675-WPE. If a replacement trim panel is installed, it must be P/N 9675-WPE-1 or an equivalent approved by the Chief, Engineering and Manufacturing Branch/FAA, Eastern Region.

b. Special flight permits may be issued in accordance with FAR 21.197 to authorize operation of the aircraft to a base for the accomplishment of the modifications required by this AD.

NOTE.—Magee Plastics Co. Service Letter dated Aug. 11, 1978, entitled "Magee Mashell Interior Kit for the Convair Part No. 96123-STC SA896EA" pertains to this subject.

Effective date: This amendment is effective November 1, 1978.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89.)

Issued in Jamaica, N.Y., on October 18, 1978.

WILLIAM E. MORGAN,
Director, Eastern Region.

[Docket No. 78-NW-17-AD, Amdt. 39-3327]

PART 39—AIRWORTHINESS DIRECTIVES

Hiller Model UH-12D, UH-12E Helicopters Soloy Turbine Conversions

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive which requires that the integrated collective and N_2 engine control system on Hiller UH-12D and UH-12E helicopters which have been turbine converted by supplemental type certificates SH177WE or SH178WE respectively, be modified to allow full movement of the collective control in the event that the N_2 engine control cable or its associated linkage becomes jammed.

There have been cases where N_2 engine control cable icing has resulted in the loss of collective control movement. These cases resulted in the issuance of telegraphic AD 76-20-06 (Amendment 39-2740, 41 FR 44153) on September 8, 1976. Although AD 76-20-06 required modification of the powerplant cable assemblies to prevent jamming due to icing, it has been determined that the cables can jam from other causes. This airworthiness directive will result in the ability to enter into autorotation in the event the N_2 engine control system becomes jammed due to any cause. In addition, to reduce the likelihood of engine cable jamming which results in the loss of engine control, this airworthiness directive requires certain N_1 and N_2 engine control cable assemblies which have exhibited an excessive in-service failure rate to be replaced with assemblies shown to be more reliable.

DATES: Effective date November 30, 1978. Compliance date on or before January 1, 1979.

ADDRESSES: The Soloy Service Bulletin specified in this directive may be obtained upon request to Soloy Conversions, Ltd., P.O. Box 60, Chehalis, Wash. 98532. This document may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108.

FOR FURTHER INFORMATION CONTACT:

James R. Haynes, Airframe Section, ANW-212, or Daniel I. Cheney, Propulsion Section, ANW-214, Engineering and Manufacturing Branch, FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108, telephone 206-767-2516.

SUPPLEMENTARY INFORMATION: Interested persons were invited to participate in the making of this rule by notice of proposed rulemaking issued on July 17, 1978 (43 FR 32432). No comments were received on the proposal by September 1, 1978, which was the close of the comment period. The notice of proposed rulemaking proposed modification of the collective and N_2 engine control system to achieve full collective movement in the event of a jammed N_2 engine control system.

The normal reaction to these types of failures is rapid entry into autorotation which may not be possible with the current design. In addition, the FAA has determined that certain N_1 and N_2 engine control assemblies are unsafe, since they exhibited an unacceptably high rate of jamming or otherwise failing, resulting in inability to continue powered flight.

Since these conditions are likely to exist on other helicopters of the same type design, this airworthiness directive requires modification of the integrated collective and N_2 engine control system and replacement of certain N_1 and N_2 engine control cable assemblies, unless already accomplished on Hiller UH-12D and UH-12E helicopters that have been turbine converted in accordance with supplemental type certificates SH177WE or SH178WE respectively.

These problems with collective isolation and control cable reliability do not exist on Hiller UH-12D and UH-12E helicopters that have not been turbine converted.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended, by adding the following new airworthiness directive:

HILLER AVIATION: Applies to Model UH-12D and UH-12E helicopters, including the UH-12E 4-place configurations, which have been converted to turbine power in accordance with Soloy Conversions, Ltd., STC Nos. SH177WE and SH178WE respectively, certificated in all categories. Compliance required on or before January 1, 1979.

Since the proposal was issued, Soloy Conversions, Ltd., has developed a modification, consisting of an isolation device, which will achieve the results stated in the proposal. FAA has determined the modification is an acceptable means of compliance, and it is included in the airworthiness directive.

During the comment period, it was determined that another related problem existed concerning reliability of both the N_1 and N_2 cable assemblies supplied by a certain manufacturer. There have been numerous cases of these cables jamming or otherwise failing resulting in loss of engine control. Although none of the failures have been so severe as to result in loss of collective control, the loss of engine control is considered to be an unsafe condition. Since Soloy Conversions is providing new, more reliable, cables available in the same modification kit and service bulletin as the isolation device, it was determined to be in the public interest to prescribe replacement of these suspect N_1 and N_2 engine control cables under the same airworthiness directive action rather than issuing a separate airworthiness directive for the cable replacements.

The FAA has determined that the collective and N_2 control system design on Hiller Model UH-12D and UH-12E helicopters, as modified by supplemental type certificates SH177WE or SH178WE respectively, is unsafe, since a jammed N_2 engine control assembly would prevent entry into autorotation. A jammed N_2 control could result from icing, powerplant fire, cable lockout, or mechanical failure of the fuel control mechanism.

To prevent loss of flight control or engine control, accomplish the following:

(a) Modify the integrated collective and N_2 engine control system in accordance with Soloy Conversions, Ltd., Service Bulletin 06-560 dated October 6, 1978, or later FAA approved revision.

(b) Unless already accomplished, remove from service certain N_1 and N_2 engine control cables as identified in Soloy Conversions, Ltd., Service Bulletin 06-560 dated October 6, 1978, or later FAA approved revisions. Install replacement cables in accordance with the same bulletin.

(c) An equivalent modification may be approved by the Chief, Engineering and Manufacturing Branch, FAA, Northwest Region.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received this document from the manufacturer, may obtain copies upon request to Soloy Conversions, Ltd., P.O. Box 60, Chehalis, Wash. 98532. This document may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108.

This amendment becomes effective November 30, 1978.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); 14 CFR 11.89).)

NOTE.—The FAA has determined that this document involves a regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Seattle, Wash., on October 18, 1978.

C. B. WALK, JR.,
Director,
Northwest Region.

NOTE.—The incorporation by reference provisions in the document were approved by the Director of the FEDERAL REGISTER on June 19, 1967.

[Docket No. 78-EA-62, Amdt. 39-3325]

PART 39—AIRWORTHINESS DIRECTIVES

Piper Aircraft

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment amends airworthiness directive (AD) 76-06-09 applicable to Piper PA-31P type airplanes, and requires additional serial numbered airplanes to be subject to the AD and substitutes another permanent alteration which permits cessation of the 50-hour inspection.

EFFECTIVE DATE: October 31, 1978. Compliance is required within 50 hours in service.

ADDRESSES: Piper service bulletins may be acquired from the manufacturer at Piper Aircraft Corporation, 820 East Bald Eagle Street, Lock Haven, Pa. 17745.

FOR FURTHER INFORMATION CONTACT:

P. Perrotta, Propulsion Section, AEA-214, Engineering and Manufacturing Branch, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430, telephone 212-995-2894.

SUPPLEMENTARY INFORMATION: Recent reports have indicated that the replacement design V-band coupling specified in the AD has not given satisfactory service whereas the Piper one-piece clamp coupling was a better substitute. AD 76-06-09 is being amended so as to delete the present paragraph (d) and substitute the one piece coupling as an alternative and also to cover additional aircraft.

Since the incorporation of additional aircraft has an effect on air safety, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

ADOPTION OF THE AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Avi-

ation Regulations (14 CFR 39.13) is amended, by amending AD 76-06-09, as follows:

Issued in Jamaica, New York, on October 16, 1978.

LOUIS J. CARDINALI,
Acting Director, Eastern Region.

for the protection of aircraft executing instrument approach procedures to the Clarendon Municipal Airport utilizing the nondirectional radio

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

V 43/210 OC 30 78

ation Regulations (14 CFR 39.13) is amended, by amending AD 76-06-09, as follows:

PROPOSED REVISION TO AD 76-06-09—PIPER (REFERENCE AMENDMENT 39-2559, EFFECTIVE MARCH 31, 1976)

Revise applicability statement of paragraph (a) to read:

On airplanes serial Nos. 31P-1 through 31P-7730003 within 50 hours after the effective date of this amendment, and every 50 hours thereafter * * *

Revise paragraph (d) to read:

On airplanes serial Nos. 31P-1 through 31P-7730003 the repetitive inspections of paragraph (a) shall be accomplished until the replacement one-piece turbine tailpipe clamp coupling P/N 556053 is installed in accordance with the "Instructions" sheet in Piper Service Bulletin No. 534 and vibration isolators installed in accordance with Piper Service Bulletin No. 492.

NOTE.—When replacing the turbine tailpipe clamp coupling, preload the tailpipe against the turbine flange as specified in Piper Service Bulletin Nos. 534 and 462A.

Effective date: This amendment is effective October 31, 1978.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89.)

Issued in Jamaica, N.Y., on October 17, 1978.

WILLIAM E. MORGAN,
Director, Eastern Region.

[Airspace Docket No. 78-SO-63]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Greeneville, Tenn., Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule alters the Greeneville, Tenn., transition area, by deleting holding pattern airspace northeast of the Greene County nondirectional radio beacon. The need for protected airspace in this quadrant no longer exists.

EFFECTIVE DATE: November 15, 1978.

ADDRESS: Federal Aviation Administration, Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320.

FOR FURTHER INFORMATION CONTACT:

Mr. Ronald T. Niklasson, Airspace and Procedures Branch, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320, telephone 404-763-7646.

SUPPLEMENTARY INFORMATION: This alteration deletes holding pattern airspace northeast of the Greene County nondirectional radio beacon. The standard instrument approach procedure for which airspace was necessary has been canceled. Since this alteration is minor in nature, notice and public procedure hereon are not considered necessary.

ADOPTION OF AMENDMENT

Accordingly, part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective November 15, 1978, as hereinafter set forth:

In subpart G, § 71.181 (43 FR 440), the Greeneville, Tenn., transition area is amended as follows:

* * * that airspace extending upward from 700 feet above the surface within a 9-mile radius of Greeneville Municipal Airport (lat. 36°11'30" N., long. 82°49'01" W.); excluding the portion within the Tri-City, Tenn., transition area * * *.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in East Point, Ga., on October 19, 1978.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc. 78-30572 Filed 10-27-78; 8:45 am]

[4910-13-M]

[Airspace Docket No. 78-EA-80]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AISPACE, AND REPORTING POINTS

Alteration of Terminal Control Area: New York, N.Y.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule will amend the area's description by reincorporating a small area in area A and J of the New York terminal control area. This alteration results from an error which occurred when docket No. 78-EA-8 was published, altering the terminal area. At that time, the small area, the subject of this docket, was inadvertently deleted.

EFFECTIVE DATE: October 30, 1978.

FOR FURTHER INFORMATION CONTACT:

M. Rosen, Airspace and Procedures Branch, AEA-530, Air Traffic Division, Federal Aviation Administration, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430, telephone 212-995-3391.

SUPPLEMENTARY INFORMATION: The rule is minor in nature and does not impose any additional burden on any person. In view of the foregoing, notice and public procedure hereon are unnecessary and the rule may be made effective in less than 30 days.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, subpart K of part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, October 30, 1978, as follows:

1. Amend § 71.401 of part 71, Federal Aviation Regulations, as follows:

NEW YORK, N.Y. TERMINAL CONTROL AREA

AREA A

In the text, delete "thence direct to the intersection of the Clearview Expressway and the LaGuardia 093° radial; direct to the southern edge of Bowne Park, direct to the southern edge of Leavitts Park; thence direct to the JFK VORTAC 340° radial 9 mile DME fix; direct to the JFK VORTAC 341° radial 10 mile DME fix; thence direct to the point of beginning "and substitute therefor, "thence westerly to the intersection of the Clearview Expressway with a line extending from the LaGuardia 093° radial 6 mile DME fix to the southern edge of Bowne Park; thence to the southern edge of Leavitts Park; thence direct to the JFK VORTAC 340° radial 9 mile DME fix; direct to the JFK VORTAC 341° radial 10 mile DME fix; thence direct to the point of beginning.".

AREA J

In the text, delete "thence easterly to the intersection of LaGuarida 093° radial with the Clearview Expressway, thence northerly along the Clearview Expressway to the north stanchion of the Throgs Neck Bridge." and substitute therefor, "thence easterly to the intersection of the Clearview Expressway with a line extending from the south edge of Bowne Park to the LaGuardia 093° radial 6 mile DME fix; thence northerly along the Clearview Expressway to the north stanchion of the Throgs Neck Bridge.".

(Secs. 307(a), 313(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(c)); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.69.)

Issued in Jamaica, New York, on October 16, 1978.

LOUIS J. CARDINALI,
Acting Director, Eastern Region.

[Airspace Docket No. 78-ASW-38]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area: Clarendon, Tex.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of the action being taken is to designate a transition area at Clarendon, Tex. The intended effect of the action is to provide controlled airspace for aircraft executing a proposed instrument approach procedure to the Clarendon Municipal Airport. The circumstance which created the need for the action was a requirement to provide capability for flight under instrument flight rules (IFR) procedures to the airport.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Ken Stephenson, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101, telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION:

HISTORY

On August 24, 1978, a notice of proposed rulemaking was published in the FEDERAL REGISTER (43 FR 37705) stating that the Federal Aviation Administration proposed to designate the Clarendon, Tex., transition area. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the Federal Aviation Administration. Comments were received without objections. Except for editorial changes, this amendment is that proposed in the notice.

THE RULE

This amendment to subpart G of part 71 of the Federal Aviation Regulations (14 CFR Part 71) designates the Clarendon, Tex., transition area. This action provides controlled airspace from 700 feet above the ground for the protection of aircraft executing instrument approach procedures to the Clarendon Municipal Airport utilizing the nondirectional radio beacon (NDB).

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, subpart G of part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 440) is amended, effective 0901 G.m.t., December 28, 1978, as follows:

In subpart G, § 71.181 (43 FR 440), the following transition area is added:

CLARENDON, TEX.

That airspace extending upward from 700 feet above the surface within a 5.5-mile radius of Clarendon Municipal Airport (lat. 34°54'34" N., long. 100°52'20" W.), and within 3.5 miles each side of the 209° bearing from the NDB (lat. 34°54'37" N., long. 100°52'03" W.), extending from the 5.5 mile radius area to 11.5 miles southwest of the NDB.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582, March 3, 1978).

Issued in Fort Worth, Tex., on October 18, 1978.

PAUL J. BAKER,
Acting Director,
Southwest Region.

[FR Doc. 78-30574 Filed 10-27-78; 8:45 am]

[4910-13-M]

[Airspace Docket No. 78-ASW-40]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area: Crosbyton, Tex.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of the action being taken is to designate a transition area at Crosbyton, Tex. The intended effect of the action is to provide controlled airspace for aircraft executing a proposed instrument approach procedure to the Crosbyton Municipal Airport. The circumstance which created the need for the action is the establishment of a navigational aid (NDB) at the airport to provide capability for flight under instrument weather conditions to the airport.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Ken Stephenson, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101, telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION:

HISTORY

On August 24, 1978, a notice of proposed rulemaking was published in the FEDERAL REGISTER (43 FR 37707) stating that the Federal Aviation Administration proposed to designate the Crosbyton, Tex., transition area. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the Federal Aviation Administration. Comments were received and one commentor objected to the proposal.

DISCUSSION OF COMMENTS

The Department of Air Force representative objected to the proposed rule. The commentor expressed concern because of the effect the proposal may have on Olive Branch IFR military training route (OE-55) and future plans to convert the OB-55 route to an IFR military training route (IR). Instrument flight rules (IFR) traffic in controlled airspace will be separated by the appropriate air traffic control facility. Military flights on the OB-55 can be conducted under visual flight rules (VFR) only when weather conditions are equal to or better than 3,000' ceiling and 5 miles' visibility. Under these conditions, both civil and military aircraft are governed by the "see and be seen" concept in accordance with Federal Aviation Regulations. The Federal Aviation Administration has determined that any effect will be minimal. Except for editorial changes, this amendment is that proposed in the notice.

THE RULE

This amendment to subpart G of part 71 of the Federal Aviation Regulations (14 CFR Part 71) designates the Crosbyton, Tex., transition area. This action provides controlled airspace from 700 feet above the ground for the protection of aircraft executing instrument approach procedures to the Crosbyton Municipal Airport.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, subpart G of part 71 of the Federal Aviation Regulations (14 CFR Part

V

71) as republished (43 FR 440) is amended, effective 0901 G.m.t., December 28, 1978, as follows.

[Airspace Docket No. 78-ASW-39]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area: Jonesboro, La.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of the action being taken is to alter the transition area at Jonesboro, La. The intended effect of the action is to realign controlled airspace for aircraft executing instrument approach procedures to the Jonesboro Municipal Airport. The circumstances which created the need for the action were relocation of the Jonesboro navigational aid (NDB) located on the airport and realignment of instrument approach procedures designated on the facility.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Ken Stephenson, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101, telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION:

HISTORY

On August 24, 1978, a notice of proposed rulemaking was published in the FEDERAL REGISTER (43 FR 37706) stating that the Federal Aviation Administration proposed to alter the Jonesboro, La., transition area. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the Federal Aviation Administration. Comments were received without objections. Except for editorial changes this amendment is that proposed in the notice.

THE RULE

This amendment to subpart G of part 71 of the Federal Aviation Regulations (14 CFR part 71) alters the Jonesboro, La., transition area. This action realigns controlled airspace from 700 feet above the ground for the protection of aircraft executing instrument procedures established for the Jonesboro Municipal Airport.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, subpart G of part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 440) is amended, effective 0901 G.m.t., December 28, 1978, as follows.

In subpart G, § 71.181 (43 FR 440), Jonesboro, La., transition area is as follows:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Jonesboro Municipal Airport, Jonesboro, La. (lat. 32°12'10" N., long. 92°44'10" W.) and within 3.5 miles each side of the 202° bearing from the Jonesboro NDB (lat 32°12'10" N., long. 92 43'45" W.) extending from the 6.5-mile radius area to 12 miles south of the NDB.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (49 FR 9582; March 3, 1978).

Issued in Fort Worth, Tex., on October 18, 1978.

PAUL J. BAKER,
Acting Director,
Southwest Region.

[4910-13-M]

[Airspace Docket No. 78-ASW-41]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area: Levelland, Tex.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of the action being taken is to designate a transition area at Levelland, Tex. The intended effect of the action is to provide controlled airspace for aircraft executing instrument procedures to the Levelland Municipal Airport, Levelland, Tex. The circumstance which created the need for the action is the scheduled establishment of a navigational aid (NDB) at the airport to provide capability for flight under instrument weather conditions to the airport.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Ken Stephenson, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101, telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION: On August 24, 1978, a notice of proposed rulemaking was published in the FEDERAL REGISTER (43 FR 37708) stating that the Federal Aviation Administration proposed to designate the Levelland, Tex., transition area. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the Federal Aviation Administration. Comments were received without objections. Except for editorial changes, this amendment is that proposed in the notice.

THE RULE

This amendment to subpart G of part 71 of the Federal Aviation Regulations (14 CFR 71) designates the Levelland, Tex., transition area. This action provides controlled airspace from 700 feet above the ground for the protection of aircraft executing instrument procedures at the Levelland Municipal Airport.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, subpart G of part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 440) is amended, effective 0901 G.m.t., December 28, 1978, as follows:

In subpart G, § 71.181 (43 FR 440), the Levelland, Tex., transition area is added as follows:

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Levelland Municipal Airport (lat. 33°33'32" N., long. 102°22'20" W.), and within 3.5 miles each side of the 170° bearing from the Levelland NDB (lat. 33°33'20" N., long. 102°22'29" W.), extending from the 7-mile radius to 11.5 miles southwest of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 3, 1978).

Issued in Fort Worth, Tex., on October 18, 1978.

PAUL J. BAKER,
Acting Director,
Southwest Region.

[Airspace Docket No. 78-WE-16]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Correction to final rule.

SUMMARY: In a rule published in the FEDERAL REGISTER of September 11, 1978, (43 FR 40215) the alteration of Restricted Area R-2507, Chocolate Mountains, Calif., was incorrectly specified as being subdivided into R-2507A and R-2507B. This action corrects that error by changing R-2507A to R-2507 North and R-2507B to R-2507 South.

EFFECTIVE DATE: October 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Lewis W. Still, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone: 202-426-8525.

SUPPLEMENTARY INFORMATION: FEDERAL REGISTER Document 78-25440 was published on September 11, 1978, (43 FR 40215) and amended the description of Restricted Area R-2507. An error in the description of the subdivisions was made and this action corrects that mistake.

ADOPTION OF THE CORRECTION

Accordingly, pursuant to the authority delegated to me by the Administrator, FR Doc. 78-25440 as published in the FEDERAL REGISTER on September 11, 1978, (43 FR 40215) is amended as follows:

"R-2507A Chocolate Mountains, Calif." is deleted and "R-2507 North Chocolate Mountains, Calif." is substituted therefor.

"R-2507B Chocolate Mountains, Calif." is deleted and "R-2507 North Chocolate Mountains, Calif." is substituted therefor.

(Secs. 307(a), 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

NOTE.—The FAA has determined that this document involves a regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Washington, D.C., on October 26, 1978.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

Title 16—Commercial Practices

CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION

SUBCHAPTER B—CONSUMER PRODUCT SAFETY ACT REGULATIONS

PART 1201—SAFETY STANDARD FOR ARCHITECTURAL GLAZING MATERIALS

Extension of Effective Date; Correction

AGENCY: Consumer Product Safety Commission.

ACTION: Correction and renumbering of rule.

SUMMARY: The Commission renumbers sections of the safety standard for architectural glazing materials so that the effective date provisions appear in one section of the standard. The Commission also corrects an error in date and section references appearing in the effective date provisions.

EFFECTIVE DATE: The effective date provisions are presently in effect. The correction is effective October 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Allen Brauninger, Directorate for Compliance and Enforcement, Consumer Product Safety Commission, Washington, D.C. 20207, telephone 301-492-6629.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of January 6, 1977, the Commission issued a safety standard for architectural glazing materials (16 CFR Part 1201). In the FEDERAL REGISTERS of June 20, 1977 (42 FR 31164), December 7, 1977 (42 FR 61859), and June 22, 1978 (43 FR 26699), the Commission amended the effective date of the standard as it applies to glazing material that complies with the voluntary industry glazing standard ANSI Z97.1. In issuing the amendment of December 7, 1977, the amendment was inadvertently included as part of § 1201.2 of the standard § 1201.2(e)), which contains definitions used in the standard, rather than in § 1201.7, which concerns the effective date of the standard. Moreover, when the amendments published in the FEDERAL REGISTER of December 7 were codified in the Code of Federal Regulations (CFR), subsection numbers different from those appearing in the FEDERAL REGISTER were used.[1] In referring to the corrections discussed below, the CFR citations are used since the CFR is the official codification of rules issued by the Commission. So that the public can better understand the various effective dates of the glazing standard, the Commission is republishing below the various effective dates contained in the standard. In addition, the Commission is transferring the effective dates included in § 1201.2 to § 1201.7.

In addition to the foregoing, a member of the glazing industry has pointed out to the Commission that the amendment of December 7, 1977 contains two errors. In 16 CFR 1201.2(f), the date December 3, 1977 should be July 5, 1978. The December 3 date is incorrect because 16 CFR 1201.2(e) allows laminated glass manufactured on or after July 6, 1977 through December 3, 1977, to be incorporated into category II products through July 5, 1978 under the conditions specified. The purpose of 16 CFR 1201.2(f) is to allow those products manufactured through July 5, 1978, with glazing manufactured between July 6, 1977 and December 3, 1977, to

[1] In the FEDERAL REGISTER of Dec. 20, 1977, the amendments appeared as § 1201.2 (d) and (e) of the standard. These provisions were subsequently codified as § 1201.2 (e) and (f) of the Code of Federal Regulations.

V

be sold without restriction. The date December 3, 1977 should be July 5, 1978 in order to accomplish that pur-

umentary evidence required to establish eligibility for a visa.

(Sec. 104, 66 Stat. 174 (8 U.S.C. 1104).)

Technical Support—Room 6282, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5880 (this is not a toll-free number).

V 4 3 / 2 1 0 C 3 0 7 8

be sold without restriction. The date December 3, 1977 should be July 5, 1978 in order to accomplish that purpose.

The industry member also pointed out that in 16 CFR 1201.2(f), the reference to 16 CFR 1201.7(d) should be 1201.2(e). The Commission has considered these suggested corrections and has determined that the changes are appropriate.

Accordingly, 16 CFR Part 1201 is amended as follows:

§ 1201.2 [Amended]

Section 1201.2 (e) and (f) are deleted.

Section 1201.7 is revised to read as follows:

§ 1201.7 Effective date.

The effective date of this part 1201 shall be July 6, 1977 except:

(a) For glazing materials used in doors or other assemblies subject to this part 1201 and intended to retard the passage of fire when such doors or other assemblies are required by a Federal, State, or local or municipal fire ordinance, the effective date shall be January 6, 1980.

(b) Architectural glazing materials manufactured before July 6, 1977 may be incorporated into architectural products listed in § 1201.1(a) through July 5, 1978 if:

(1) The architectural glazing material conforms to ANSI Z97.1-1972 or 1975, and

(2) The architectural glazing material is permanently labeled to indicate it conforms to ANSI Z97.1-1972 or 1975 or is accompanied by a certificate certifying conformance to ANSI Z97.1-1972 or 1975.

(c) Tempered glass manufactured before July 6, 1977 may be incorporated into architectural products listed in § 1201.1(a) through July 5, 1981 if:

(1) The tempered glass conforms to ANSI Z97.1-1972 or 1975; and

(2) The tempered glass is permanently labeled to indicate it conforms to ANSI Z97.1-1972 or 1975 or is accompanied by a certificate certifying conformance to ANSI Z97.1-1972 or 1975.

(d) Laminated glass manufactured on or after July 6, 1977 through December 3, 1977 may be incorporated into category II products as defined in § 1201.2(a)(4) through July 5, 1978 if:

(1) The laminated glass conforms to ANSI Z97.1-1972 or 1975; and

(2) The laminated glass is permanently labeled to indicate that it conforms to ANSI Z97.1-1972 or 1975 or is accompanied by a certificate in accordance with section 14(a) of the CPSA certifying conformance to ANSI Z97.1-1972 or 1975.

(e) Architectural products manufactured between July 6, 1977 and July 5, 1978 incorporating glazing material in accordance with § 1201.7(b), may be distributed and sold without restriction.

(f) Architectural products manufactured between July 6, 1977 and July 5, 1981 incorporating tempered glass in accordance with § 1201.7(c), may be distributed and sold without restriction.

(g) Architectural products identified in § 1201.2(a)(4) manufactured between July 6, 1977 and July 5, 1978 incorporating laminated glass in accordance with § 1201.7(d) may be distributed and sold without restriction.

Dated: October 25, 1978.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-15249]

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

Delegation of Authority to the Director of the Division of Market Regulation

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Commission is amending its regulations governing delegation of authority to delegate authority to the Director of the Division of Market Regulation to approve amendments to the joint industry plan governing the consolidated transaction reporting system declared effective by the Commission on May 10, 1974, pursuant to such rule.

Accordingly, 17 CFR 200.30-3 is amended by adding a new paragraph (a)(28) as follows:

§ 200.30-3 **Delegation of authority to Director of Division of Market Regulation.**

• • • • •

(a) • • •

(28) To approve amendments to the joint industry plan governing the consolidated transaction reporting system declared effective by the Commission on May 10, 1974, pursuant to rule 17a-15.

• • • • •

The Commission finds, in accordance with the Administrative Procedure Act (5 U.S.C. 553(b)(3)(B)), that the foregoing amendment relates solely to agency organization, procedure or practice and that notice and procedure pursuant to the Administrative Procedure Act are therefore not necessary and that such amendment shall be adopted, effective immediately.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

OCTOBER 20, 1978.

Title 22—Foreign Relations

CHAPTER I—DEPARTMENT OF STATE

SUBCHAPTER E—VISAS

[Dept. Reg. 108.758]

PART 42—VISAS: DOCUMENTATION OF IMMIGRANTS UNDER THE IMMIGRATION AND NATIONALITY ACT, AS AMENDED

Optional Methods of Establishing Prearranged Employment Offer

AGENCY: Department of State.

ACTION: Final rule.

SUMMARY: The Department's regulations regarding aliens ineligible to receive visas are amended to remove the requirement that an offer of prearranged employment presented to establish an alien's eligibility under the public charge provisions of the law (section 212(a)(15) of the Immigration and Nationality Act) must be made on a form prescribed by the Department. Optional methods of establishing the prearranged employment offer are permitted.

EFFECTIVE DATE: October 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Gerald M. Brown 202-632-1983.

SUPPLEMENTARY INFORMATION:

The mandatory use of a prescribed form to confirm an offer of prearranged employment of an alien has proven to be unduly restrictive and the form has not accomplished its intended purpose of minimizing spurious employment offers. This amendment will afford an alien the option of using the prescribed form or any other document which confirms the essential elements of the employment offer and has been similarly executed.

In § 42.91(a), paragraph (a)(15)(ii) is amended to read as follows:

§ 42.91 **Aliens ineligible to receive visas.**

(a) • • •

(15) *Public charge.* (i) • • •

(ii) **An alien relying on an offer of prearranged employment to establish eligibility under section 212(a)(15) of the Act, other than an offer of employment certified by the Department of Labor pursuant to section 212(a)(14) of the Act, must establish the offer of employment on a form prescribed for that purpose by the Department or by some other document which confirms the essential elements of the employment offer. Any document presented to confirm the employment officer must be sworn to and subscribed to before a notary public by the employer or an authorized employee or agent of the employer. The signer's printed name and position or other relationship with the employer must accompany the signature.**

• • • • •

Compliance with the provisions of section 533 of title 5 of the United States Code (80 Stat. 383) as to notice of proposed rulemaking and delayed effective date is unnecessary in this instance because the amendment relieves a restriction on the type of documentary evidence required to establish eligibility for a visa.

(Sec. 104, 66 Stat. 174 (8 U.S.C. 1104).)

Dated: October 13, 1978.

HUME A. HORAN,
Acting Assistant Secretary for Consular Affairs.

Title 24—Housing and Urban Development

CHAPTER VIII—LOW INCOME HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-78-583]

PART 841—PUBLIC HOUSING PROGRAM; DEVELOPMENT PHASE

Appendix A—Prototype Cost Limits for Low Income Housing—Region IX, California

AGENCY: Office of the Assistant Secretary for Housing-Federal Housing Commissioner, Department of Housing and Urban Development.

ACTION: Interim rule.

SUMMARY: On June 22, 1978, the Department published a revised schedule A, "Prototype Cost Limits for Low-Income Housing," to Part 841. Revisions are necessary after consideration of subsequent factual data for detached and semidetached dwellings in four northern California prototype areas; after consideration of additional data justifying establishment of complete schedules for two new prototype areas, Eureka and Santa Rosa; and to correct an omission for the Oakland-Marin prototype area.

DATES: Effective Date: October 30, 1978. Comment due date: All comments received on or before November 29, 1978, will be considered.

ADDRESSES: Send comments to the Rules Docket Clerk, Office of General Counsel, Room 5218, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

FOR FURTHER INFORMATION CONTACT:

Mr. Jack R. VanNess, Chief, Construction Cost Branch, Office of Technical Support—Room 6282, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5880 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION:

These cost limits established pursuant to section 6(b) of the U.S. Housing Act of 1937, represent per unit cost schedules for low-income public housing and are required to be published at least annually in the FEDERAL REGISTER.

Section 6(b) of the Act provides that prototype cost shall be effective on the date of publication in the FEDERAL REGISTER. However, timely written comments will be considered and additional amendments will be published if the Department determines that acceptance of the comments is appropriate. Comments with respect to cost limits for a given location should be sent to the address indicated above.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969, has been made in accordance with HUD procedures. A copy of this Finding of Inapplicability will be available for public inspection during regular business hours in the Office of the Rules Docket Clerk at the address specified above.

Accordingly, 24 CFR, Part 841, Appendix A, Prototype Cost Limits for Low-Income Housing, is amended as follows:

1. At 43 FR 27046, revise the prototype per unit cost schedule for detached and semidetached dwellings as shown on the prototype per unit cost schedules, Region IX, San Francisco, Fresno, Modesto and San Jose, Calif.

2. At 43 FR 27046, revise the prototype per unit cost schedules for detached and semidetached, row, walkup, and elevator dwellings as shown on the prototype per unit cost schedules, Region IX, Oakland-Marin, Calif.

3. At 43 FR 27046, add prototype per unit cost schedules for detached and semidetached, row, walkup, and elevator dwellings, Region IX, Eureka and Santa Rosa, Calif.

(Sec. 7(d), Department of HUD Act, (42 U.S.C. 3535(d)); sec. 6(b), U.S. Housing Act of 1937 (42 U.S.C. 1437(d)).

Issued at Washington, D.C., on October 26, 1978.

LAWRENCE B. SIMONS,
Assistant Secretary for Housing, Federal Housing Commissioner.

[Docket No. R-78-582]

PART 867—PHA-OWNED PROJECTS—PERSONNEL POLICIES AND COMPENSATION

Regulation Change for Certification of Housing Managers

AGENCY: Department of Housing and Urban Development (HUD).

ACTION: Final rule.

SUMMARY: This amendment (1) clarifies the criteria by which HUD approves organizations which may certify individuals as housing managers or assistant housing managers; (2) specifies the conditions under which certificates issued by an organization before it was approved by HUD may be considered as meeting HUD certificate requirements; and (3) extends the deadline by which housing managers of 75 or more dwelling units must receive HUD approved certification.

EFFECTIVE DATE: October 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Wayne Hunter, Office of Assisted Housing Management, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-6460 (this is not a toll free number).

SUPPLEMENTARY INFORMATION: Under the present rule, § 867.303 describes the process by which an organization may become an approved certifying organization.

Section 867.303 of the present rule on certification of housing managers describes procedures for (a) approval of certifying organizations; (b) describes the role of the HUD Certification Review Committee; (c) details the process for notification of denial of certifying organization approval; (d) sets forth periodic review of HUD approvals; (e) provides for publication of names and standards and criteria of approved certifying organizations; (f) establishes standards and criteria used for evaluation of information submitted by an organization applying for approved certifying organization status and (g) provides for incorporation and recognition of persons holding certificates issued prior to the HUD-approved certification program.

The Department of Housing and Urban Development has determined that an environmental impact statement is not required with respect to this rule. A copy of the finding of inapplicability is available for public inspection during regular business hours in the office of the Rules Docket Clerk, Room 5218, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

This regulation extends the deadline by which housing managers of 75 or more dwelling units must receive HUD approved certification. The current deadline is January 1, 1979. Housing managers not certified after this date, if the deadline is not extended, may not have their salary considered an eligible operating expenditure for purposes of calculating HUD operating subsidy. In addition, private certifying organizations have already expended great effort and expense in preparation for seeking certification under this revised regulation. Accordingly, the Department has determined that notice and public comment with respect to this regulation are contrary to the public interest, and that good cause exists for making this regulation effective immediately.

Accordingly, the Department amends Chapter VIII of Title 24 of the Code of Federal Regulations by amending §§ 867.303 (f) and (g) and 867.304 (a) as follows:

§ 867.303 HUD approval of certifying organizations.

* * * * *

(f) *Criteria and standards.* (1) All criteria and standards for qualifying for certification shall be reasonably related to job requirements.

(2) The assessment methodology used to determine whether an individual is qualified for certification (e.g., written examination) shall be based on and relate to a valid analysis of the tasks performed by housing managers and shall be fair, objective, and free of ethnic and cultural bias. HUD approval of assessment methodology may be granted on the basis of a written statement by an organization or individual acceptable to HUD as being qualified in the field of assessment methodology.

(3) As an alternative to an assessment methodology, an approved certifying organization may issue a certification solely on the basis of satisfactory on-the-job performance in the housing management field for not less than 4 years. However, such certification shall be valid only if granted prior to January 1, 1981.

(g) *Incorporation of former certificate holders into HUD approved certification program.* (1) Immediately upon receiving notification from HUD that its application to become an approved certifying organization has been approved and no longer than 60 days following that notification, an approved certifying organization may submit to HUD a list of all individuals who already possess a certification from the organization provided:

(i) The certification is reasonable evidence that the certificate holder is qualified as a housing manager; and

(ii) The certification is currently recognized by the approved certifying organization at the time the list of names is tendered to HUD.

(2) Upon receiving this list, HUD will notify the approved certifying organization that the certifications issued to the listed individuals may be considered as satisfying the certification requirements of this part.

§ 867.304 **Requirement for certification.**

(a) *Housing managers of 75 or more units.* Subject to paragraph (c) of this section as of January 1, 1981, any person employed as a housing manager of 75 or more dwelling units shall be required to have certification as a housing manager from an approved certifying organization.

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. R-78-577]

PART 1911—INSURANCE COVERAGE AND RATES

Waiting Period—Standard Flood Insurance Policy

AGENCY: Federal Insurance Administration, HUD.

ACTION: Interim rule.

SUMMARY: This rule shortens the waiting period before which flood insurance coverage becomes effective under the Standard Flood Insurance Policy. The present rule provides for a 15-day waiting period which tends to delay and disrupt conventional, VA, and FHA mortgage closings by lenders attempting to comply with the program's legislative requirements.

EFFECTIVE DATE: October 30, 1978.

COMMENTS DUE: November 29, 1978.

ADDRESS: Send comments to Rules Docket Clerk, Office of General Counsel, Department of Housing and Urban Development, Room 5218, 451 Seventh Street SW., Washington, D.C. 20410.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581, or toll-free line, 800-424-8872, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: Under the authority contained in the Act, the Federal Insurance Administrator is revising § 1911.11 of part 1911 of title 24 of the Code of Regulations to shorten the waiting period before which flood insurance coverage becomes effective under the Standard Flood Insurance Policy.

Under the present rule, there is no waiting period for new or added coverage during the initial 30 days of community eligibility in both the emergency and regular programs. Following this 30-day period, however, there is a 15-day waiting period beginning on the date the flood insurance is applied for before coverage is effective. The revised rule shortens the waiting period so that flood insurance benefits can be made available as soon as possible after the flood insurance policy application has been made. Also, under present procedures, where ownership of insured property is transferred, the new owner must arrange beforehand for an assignment of the previous owner's flood insurance for the coverage to continue uninterrupted. If, instead, the new owner applies for a new policy, or seeks additional coverage, under the present rule he must wait 15 days for coverage to become effective. This procedure delays mortgage closings by lenders attempting to comply with the flood insurance purchase requirements of section 102 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234). The lender's alternative—closing the loan without the property being insured, is in conflict with sound lending practices. The amendment also addresses this problem by making the coverage effective when the ownership of the property changes hands.

In addition, a rule is being established under which the time of 12:01 a.m. on the day after the date of the application for flood insurance constitutes, where there is no waiting period or change of ownership to insurable property involved, the time at which flood insurance coverage becomes effective. Where there is a waiting period under the revised rule, the day of application is the first day counted in calculating the waiting period.

The Department has determined that notice and public procedure are contrary to the public interest since the primary purpose of the program is to reduce Federal disaster relief expenditures through the insurance mechanism and sound flood plain management, and because of the importance to the consumer of the new benefits being provided. Since the rule relieves a restriction, this amendment is being made effective upon publication. However, interested persons are invited to submit comments with respect to this amendment and all such comments will be considered before a final rule becomes effective. Comments should be addressed to the Rules Docket Clerk, Office of the General Counsel, Department of Housing and Urban Development, Room 5218, 451 Seventh Street SW., Washington, D.C. 20410. All comments should be received by the Rules Docket Clerk on or before November 29, 1978. Copies of all comments received will be available for inspection and copying at the above address.

The Department has determined that an environmental impact statement is not required for this rule. A copy of the finding of inapplicability is available for inspection at the above address.

Accordingly, 24 CFR Part 1911 is amended as follows:

PART 1911—INSURANCE COVERAGE AND RATES

Section 1911.11 is revised to read as follows:

Section 1911.11, "Adding coverage while policy is in force" is amended to read as follows:

§ 1911.11 **Effective date and time of coverage under the Standard Flood Insurance Policy.**

(a) The effective date and time of any new or added or increase in the amount of flood insurance coverage shall be 12:01 a.m. of the day following the application date and the presentment of payment of premium in the following cases:

(1) During the 30-day period which follows a community's initial eligibility for flood insurance under the emergency program;

(2) During the 30-day period which follows a community's initial eligibility for flood insurance under the regular program;

(3) At any time as to any application for additional coverage or increased limits made in connection with a policy then in force.

(b) Where title to property is conveyed, any new or added coverage or increase in the amount of coverage with respect to the property shall be effective as of the time title to the property is transferred to the purchaser when:

(1) The flood insurance policy is applied for and the presentment of payment of premium is made at or prior to the transfer of title; or

(2) The existing flood insurance policy on the property was assigned to the purchaser at or before the transfer of title to the property.

(c) Except as provided by (a) or (b) the effective date and time of any new policy shall be 12:01 a.m. (local time) on the 5th calendar day after the application date and the presentment of payment of premium; for example, a flood insurance policy applied for with the payment of the premium on April 1 to cover property located in a community that has been participating in the program longer than 30 days will become effective at 12:01 a.m. on April 6.

(d) Adding new coverage or increasing the amount of coverage in force is permitted during the term of any policy. The additional premium for any new coverage or increase in the amount of coverage shall be calculated pro rata in accordance with the rates currently in force, with a minimum premium of $4.

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968); effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator (43 FR 7719, February 24, 1978).)

Issued at Washington, D.C., October 25, 1978.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

bery losses under the Federal crime insurance program. The rule also provides for a technical revision of the regulatory provision which designates Safety Management Institute, Federal Crime Insurance as the servicing company for the program.

DATES: October 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. James M. Rose, Jr., Assistant Administrator, for Urban Property Insurance—Riot and Crime, 451 Seventh Street SW., Washington, D.C. 20410, telephone 755-6555.

SUPPLEMENTARY INFORMATION: This action is being taken under the authority of 12 U.S.C. 1749bbb-10a on the basis of evidence obtained through a continuing review of the market availability situation in each of the several States and particularly upon the conclusions and recommendations of the Insurance Commissioner and the Legislature of the Virgin Islands who requested that their citizens be made eligible for Federal crime insurance.

The Federal crime insurance program commenced operation in August 1971 and approximately 50,000 policies are currently in force in the District of Columbia, Puerto Rico, and 22 States eligible for Federal crime insurance. The program enables residents and businesses to obtain affordable policies of burglary and robbery insurance which will not be cancelled or nonrenewed because of losses. Applicants are required to meet minimum protective device requirements designed to reduce their vulnerability to crime losses. Since 1971, the program has grown from the District of Columbia, and nine States to a current total of the District of Columbia, Puerto Rico, and 22 States. The Insurance Commissioner and the Legislature of the Virgin Islands, after considering the insurance needs of their citizens have requested that their citizens be made eligible to purchase Federal crime insurance. With the addition of this territory, the Federal crime insurance program will be available to residents and businesses in the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands and 22 States. Accordingly, on the basis of the Administrator's continuing review of the crime insurance availability situation, and on the basis of findings and recommendations by the Commissioners of Insurance and Governors, it has been determined that a critical market unavailability situation exists in the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands and States set forth in revised § 1931.1 and that as of the effective date of this regulation, October 30, 1978 these jurisdictions will be made eligible for the sale of crime insurance, or continued to be eligible for such sale. Because the increased availability of Federal crime insurance is beneficial to the public, and has no adverse affect upon any person, it is unnecessary to provide for notice and public procedure, and good cause exists for making these amendments effective on October 30, 1978. A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD regulations published at 38 FR 19182, 19186. A copy of this Finding of Inapplicability is available for public inspection during regular business hours at the following address:

Rules Docket Clerk, Department of Housing and Urban Development, Room 5218, 451 Seventh Street SW., Washington, D.C. 20410.

Accordingly, Subchapter C of Chapter X of Title 24 is amended as follows:

1. Section 1930.6 is revised to read as follows:

§ 1930.6 Name and address of servicing company

The following company has been designated to act as servicing company for the Federal crime insurance program: Safety Management Institute, Federal Crime Insurance, P.O. Box 41033, Washington, D.C. 20014. SMI's toll-free number is 800-638-8780. In Washington, D.C. metropolitan area call 652-2637. In Maryland, outside the Washington, D.C. metropolitan area, and in Puerto Rico and the Virgin Islands call collect, 301-652-2637.

2. Paragraph (b) of § 1931.1 is revised to read as follows:

§ 1931.1 Jurisdictions eligible for sale of crime insurance.

. . . . . .

(b) On the basis of the information available, the Administrator has determined that the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, and the States set forth in this paragraph have an unresolved critical market availability situation that requires the operation of the Federal crime insurance program therein as of October 30, 1978. Accordingly, the program is in operation in the following jurisdictions:

Alabama, Arkansas, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kansas, Maryland, Massachusetts, Minnesota, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Puerto Rico, Rhode Island, Tennessee, Virgin Islands, and Virginia.

. . . . . .

(Sec. 7(d), 79 Stat. 670; (42 U.S.C. 3535(d)); sec. 1103, 82 Stat. 466, 12 U.S.C. 1749bbb-17)

Issued at Washington, D.C., October 26, 1978.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

[6570-06-M]

Title 29—Labor

CHAPTER XIV—EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

PART 1601—PROCEDURAL REGULATIONS

AGENCY: Equal Employment Opportunity Commission.

ACTION: Final rule.

SUMMARY: The Equal Employment Opportunity Commission published its procedural regulations in final form on September 22, 1977, 42 FR 47828, and republished them with minor amendments because of organizational changes on October 14, 1977, 42 FR 55388. In reviewing those regulations it has come to the attention of the Commission that the substance of § 1601.12(b)(1)(v)(A) of the previous regulations, 40 FR 3210N, January 20, 1975, was not explicitly carried over to the current § 1601.13(d)(2). This omission is corrected with the subject amendment.

EFFECTIVE DATE: October 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Constance L. Dupre, Associate General Counsel, Legal Counsel Division, Office of the General Counsel, Room 2254, EEOC, 2401 E Street NW., Washington, D.C. 20506, 202-634-6595.

SUPPLEMENTARY INFORMATION: This amendment corrects the omission of the substance of the previous § 1601.12(b)(1)(v)(A) from the present § 1601.13(d)(2). It explicitly apprises the public of the Commission's policy of accepting for jurisdictional purposes charges of discrimination when filed more than 180 days after but within 300 days after the alleged act of discrimination where there exists a State or local agency, as described in section 706(c) of title VII, 42 U.S.C. 2000e-5(c), in the jurisdiction where the charge arises. Section 1601.12(b)(1)(v)(A) had been upheld in *Doski* v. *M. Goldseker Co.*, 539 F. 2d 1326 (4th Cir. 1976), 12 E.P.D. para. 11,051, 12 F.E.P. Cases 1751; and *Williamson* v. *Chevron Research Co.*, —— F. Supp. —— (D. Calif. 1976), 12 F.E.P. Cases 95. The amendment signifies no change in Commission policy. Section 1601.13 (d)(2)(iii) presumed the acceptance of all charges filed more than 180 days but within 300 days after the alleged act of discrimination. However, it was felt that this presumption might not be clear and that the public might therefore be misled.

Accordingly, § 1601.13(d)(2) of the Commission's procedural regulations, 42 FR 55390, is hereby amended to insert after § 1601.13(d)(2)(ii) a new subsection (d)(2)(iii) as set forth below.

Current § 1601.13(d)(2)(iii) and (d)(2)(iv) are hereby redesignated §§ 1601.13(d)(2) (iv) and (v). This amendment is effective October 30, 1978, since it is not a significant regulation and does not require regulatory analysis under E.O. 12044.

Signed at Washington, D.C., this 24th day of October 1978.

For the Commission,

ELEANOR HOLMES NORTON,
Chair.

In § 1601.13(d), paragraph (d)(2)(iii) and (d)(2)(iv) are redesignated as (d)(2)(iv) and (d)(2)(v), and a new paragraph (d)(2)(iii) is added to read as follows:

§ 1601.13 Filing; deferrals to State and local agencies.

. . . . . .

(d) * * *
(2) * * *
(i) * * *
(ii) * * *

(iii) Where the document is submitted to the Commission more than 180 days from the date of the alleged violation but within 300 days and within the period of limitation of the appropriate 706 agency, the Commission shall process the document in accordance with paragraph (d)(1) of this section and shall assume jurisdiction 60 (or where appropriate, 120) days after the 706 agency proceedings have been commenced, except that where the Commission is earlier notified of the termination of the State proceedings, it shall immediately assume jurisdiction upon receipt of such notice.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 997-3; PP 7E1974/R179]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Carbaryl

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for residues of carbaryl on chestnuts. The regulation was requested by the Interregional Research Project No. 4. This rule establishes a maximum permissible level for residues of carbaryl on chestnuts.

EFFECTIVE DATE: October 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Mrs. Patricia Critchlow, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C. 20460, 202-755-4851.

SUPPLEMENTARY INFORMATION: On August 14, 1978, the EPA published a notice of proposed rulemaking in the FEDERAL REGISTER (43 FR 35963) in response to a pesticide petition (PP 7E1974) submitted to the Agency by the Interregional Research Project No. 4 (IR-4), New Jersey State Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, N.J. 08903, on behalf of the IR-4 Technical Committee and the U.S. Department of Agriculture. This petition proposed that 40 CFR 180.169 be amended by the establishment of a tolerance for residues of the insecticide carbaryl (1-naphthyl *N*-methylcarbamate) including its hydrolysis product 1-naphthol, calculated as carbaryl, in or on the raw agricultural commodity chestnuts at 1 part per million (ppm). No comments or requests for referral to an advisory committee were received in response to this notice of proposed rulemaking.

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.169 should be adopted without change, and it has been determined that this regulation will protect the public health.

Any person adversely affected by this regulation may, by November 29, 1978, file written objections with the Hearing Clerk, Environmental Protection Agency, Room M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted and should specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on October 30, 1978, part 180, subpart C, § 180.169 is amended by adding a tolerance for residues of carbaryl on chestnuts at 1 ppm as set forth below.

Dated October 23, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

(Sec. 408(e), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).)

Part 180, subpart C, § 180.169 is amended by alphabetically inserting the tolerance of 1 ppm on chestnuts in the table to read as follows:

§ 180.169 Carbaryl; Tolerance for residues.

. . . . . .

Commodity:	Parts per million
. . . . .	
Chestnuts	1
. . . . .

Title 41—Public Contracts and Property Management

CHAPTER 14—DEPARTMENT OF THE INTERIOR

PART 14-3—PROCUREMENT BY NEGOTIATION

PART 14-63—AUDIT

Determinations and Findings and Audit of Proposals

AGENCY: Department of the Interior.

ACTION: Final rule.

SUMMARY: This rule makes amendments to the Interior Procurement Regulations and implements recent changes to the Federal Procurement Regulations concerning preaward audit of contract proposals.

EFFECTIVE DATE: November 29, 1978.

FOR FURTHER INFORMATION CONTACT:

William Opdyke, 202-343-5914.

SUPPLEMENTARY INFORMATION:

under the current rules it is unclear whether the time limit is 30 or 45 service of the initial decision" which appears at the end thereof.

3. Parts 211, 212, 213, 214, and 215 are revised to read as set forth below.

FRANK PRESS,

V 43/210 OCT 30 78

William Opdyke, 202-343-5914.

SUPPLEMENTARY INFORMATION: The primary author of this rule is William Opdyke, Division of Procurement and Grants, Office of Administrative and Management Policy, Department of the Interior, 202-343-5914.

NOTE.—The Department of the Interior has determined that this document does not contain a major rule requiring preparation of an inflation impact statement under Executive Order 11821 or OMB Circular A-107.

It is the general policy of the Department of the Interior to allow time for interested parties to take part in the rulemaking process. However, the amendments contained herein are entirely administrative in nature. Therefore, the public rulemaking process is waived.

Accordingly, pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301, 41 CFR is amended as stated below.

Dated: October 19, 1978.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

Subpart 14-3.3—Determinations, Findings, and Authorities

1. Section 14-3.305-51 is amended by deleting "(g) [Reserved]"; by adding paragraph (g) and by revising paragraph (i). As amended, paragraphs (g) and (i) read as follows:

§ 14-3.305-51 Summary of required determinations and findings.

. . . . . .

(g) *Other types of contracts.* The use of a time and materials contract or a labor-hour contract pursuant to §§ 1-3.406-1 and 1-3.406-2 of this title requires a determination and findings signed by the contracting officer.

. . . . . .

(i) *Waiver of audit of proposals.* The determination and findings required to waive the audit of proposals pursuant to § 1-3.809(b) of this title will be signed by the contracting officer.

. . . . . .

Subpart 14-63.1—Audit of Contractor's Records

2. Section 14-63.103 is amended by revising paragraphs (a) and (e) to read as follows:

§ 14-63.103 Requirements.

(a) A preaward audit of proposals shall be made as required by § 1-3.809 of this title, for each negotiated contract and modification which is firm fixed-price or fixed-price with economic adjustment where the cost to the government exceeds or may exceed $100,000 or negotiated contract and modification of any other type where the cost to the Government exceeds or may exceed $250,000.

. . . . . .

(e) Contracts and contract modifications aggregating more than the amounts stated in paragraph (a) of this § 14-63.103 shall not be divided into separate transactions to avoid the audit requirements.

3. At the end of paragraph (c) of § 14-63.103, the words "Office of Management Services" are amended to read "Office of Administrative and Management Policy."

4. In the first line of paragraph (d) of § 14-63.103, the phrase "of the clause § 14-63.104-1" is amended to read "of the clause in § 14-63.104-1."

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5652; C-24228]

COLORADO

Modification of Public Land Orders No. 1637 and No. 1800

AGENCY: Bureau of Land Management (Interior).

ACTION: Final rule.

SUMMARY: Modification of PLO's No. 1637 and No. 1800 to permit an exchange of certain national forest lands. The lands remain withdrawn under the mining laws (30 U.S.C., Ch. 2).

EFFECTIVE DATE: October 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Keith Corrigall, 202-343-8731.

By virtue of the authority contained in section 204 of the Act of October 21, 1976, 90 Stat. 2751, 43 U.S.C. 1714, it is ordered as follows:

1. Public Land Orders No. 1637 and No. 1800 of May 16, 1958, and February 19, 1959, respectively, which withdrew certain public lands within the Arapaho National Forest from all forms of appropriation under the public land laws, including the mining laws, are hereby modified to delete the following words: "From all forms of appropriation under the public land laws, including," so far as they relate to the following described lands:

ARAPAHO NATIONAL FOREST

SIXTH PRINCIPAL MERIDIAN

Snake River Campground

T. 5 S., R 76 W.,
Sec. 18, S½SE¼SW¼;
Sec. 19, NW¼NW¼NE¼, N½SW¼NW¼NE¼, N½NE¼NW¼, NE¼NW¼NW¼,SE¼NW¼NW¼, SW¼NE¼NW¼, SE¼NE¼NW¼ (EXCEPTING THOSE PORTIONS WITHIN HES No. 110).
Containing 81.50 acres, more or less.

Tenderfoot Campground

T. 5 S., R. 77 W.,
Sec. 13, S½S½SW¼, W½SW¼SW¼SE¼ (EXCEPTING THAT PORTION WITHIN HES No. 110);
Sec. 24, N½N½NW¼, SE¼NE¼NW¼, N½NE¼SE¼NW¼, W½W½NW¼NE¼, NW¼NW¼SW¼NE¼ (EXCEPTING THOSE PORTIONS WITHIN HES No. 110).
Containing 109 acres, more or less.

The above described lands aggregate 190.50 acres in Summit County.

2. Effective immediately the above described lands shall be open to applications for the disposal of the lands under the General Exchange Act of March 20, 1922, 42 Stat. 465, as amended, 16 U.S.C. 485, subject to valid existing rights, the provisions of existing withdrawals and the requirements of applicable law. The lands remain withdrawn under the mining laws, 30 U.S.C., Ch. 2.

GUY R. MARTIN,
Assistant Secretary of the Interior.

OCTOBER 24, 1978.

[6730-01-M]

Title 46—Shipping

CHAPTER IV—FEDERAL MARITIME COMMISSION

SUBCHAPTER A—GENERAL PROVISIONS

[General Order 16, Amdt. 26]

PART 502—RULES OF PRACTICE AND PROCEDURE

Time for Review by the Commission in Absence of Exceptions or Appeal

AGENCY: Federal Maritime Commission.

ACTION: Final rules.

SUMMARY: The rules of practice and procedure are amended to eliminate the current confusion regarding the time within which the Commission on its own initiative may determine to review initial decisions or orders of dismissal of administrative law judges or settlement officers in agency proceedings. The change is necessary because

under the current rules it is unclear whether the time limit is 30 or 45 days. These amendments clearly establish the period as 30 days.

EFFECTIVE DATE: October 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Francis C. Hurney, Secretary, 1100 L Street NW., Washington, D.C. 20573, 202-523-5725.

SUPPLEMENTARY INFORMATION: The Commission recently published amendments to its rules of practice regarding time limits for filing of exceptions or appeal of decisions of the administrative law judges and of settlement officers, and review by the Commission in the absence of such filings (43 FR 33721; August 1, 1978). The Commission provided therein that review by the Commission in the absence of exceptions or appeal *shall not be accomplished* unless such review is requested by an individual Commissioner within 30 days of the decision or order (emphasis ours). Any such request would be sufficient to bring the matter before the Commission. The amendment further stated that decisions of the administrative law judge or settlement officer would become the decision of the Commission in the absence of exceptions or appeal unless within 45 days the Commission decides on its own motion to review the decision.

These two provisions are inconsistent and confusing. One would limit accomplishment of review to actions of the Commission taken within 30 days and the other would seem to permit review upon an action taken within 45 days. In order to rectify this confusion appropriate changes are hereby being made in the Commission's rules of practice to prescribe 30 days as the time within which such determinations to review may be accomplished.

Therefore, pursuant to section 43 of the Shipping Act, 1916 (46 U.S.C. 841a) and 5 U.S.C. 553, part 502 of title 46 CFR is amended as follows:

1. The fourth sentence of paragraph (a) of § 502.227 is revised to read: "Whenever the officer who presided at the reception of the evidence, or other qualified officer, makes an initial decision, such decision shall become the decision of the Commission 30 days after date of service thereof (and the Secretary shall so notify the parties), unless within such 30-day period, or greater time as enlarged by the Commission for good cause shown, request for review is made in exceptions filed or a determination to review is made by the Commission on its own initiative."

2. The last sentence of paragraph (a) of § 502.227 is amended by deleting the phrase "within 45 days after date of service of the initial decision" which appears at the end thereof.

3. Paragraph (c) of § 502.227 is amended by changing all references to "45 days" to read "30 days."

4. The reference in the second sentence of § 502.304(g) to "45 days" is amended to read "30 days."

5. The reference in § 502.318 to "45 days" is amended to read "30 days."

Effective date: Notice, opportunity to comment on these amendments and delayed effective date are not necessary because the amendments involve internal agency procedural matters. The amendments shall be effective October 30, 1978, and will apply to initial decisions, settlement officer decisions, and orders of dismissal served after that date.

By the Commission.

FRANCIS C. HURNEY,
Secretary.

Title 47—Telecommunications

CHAPTER II—NATIONAL SECURITY AND EMERGENCY PREPAREDNESS TELECOMMUNICATIONS

ESTABLISHMENT OF NEW CHAPTER

AGENCY: Office of Science and Technology Policy.

ACTION: Notice of Amendments.

SUMMARY: Executive Order 12046 (March 29, 1978, 43 FR 13349 et seq.) abolished the Office of Telecommunications Policy (OTP) and transferred certain telecommunications emergency preparedness responsibilities to the National Security Council (NSC) and to the Director, Office of Science and Technology Policy (OSTP). These amendments to 47 CFR Chapter II document the transfer of telecommunications responsibilities.

DATES: Effective Date: March 26, 1978.

FOR FURTHER INFORMATION CONTACT:

Wayne G. Kay, 395-3272.

AMENDMENTS

1. Chapter II is retitled to read as set forth above, consisting of Parts 201 through 215.

PARTS 201—210 [RESERVED]

2. Parts 201 and 202 are revoked. Parts 201 through 210 are reserved.

3. Parts 211, 212, 213, 214, and 215 are revised to read as set forth below.

FRANK PRESS,
Director, Office of Science and Technology Policy.

PART 211—EMERGENCY RESTORATION PRIORITY PROCEDURES FOR TELECOMMUNICATIONS SERVICES

Sec.
211.0 Purpose.
211.1 Authority.
211.2 Definitions.
211.3 Scope and coverage.
211.4 Policy.
211.5 Priorities.
211.6 Submission and processing of restoration priority requests.
211.7 Obligation of carriers.

AUTHORITY: 84 Stat. 2083 and Executive Order 12046, FR 43, 13349 et seq., March 29, 1978.

§ 211.0 Purpose.

This part establishes policies and procedures under which government and private entities will be furnished restoration priorities to insure that leased intercity private line telecommunications services vital to the national interest will be maintained during the continuance of a war in which the United States is engaged. It supersedes the Director of Telecommunications Management Order of January 15, 1967 (32 FR 791, 47 CFR 201), which is hereby canceled. To assure the effective ability to implement its provisions, and also in order that government and industry resources may be used effectively under all conditions ranging from national emergencies to international crises, including nuclear attack, a single set of rules and procedures is essential, and they must be applied on a day-to-day basis so that the priorities they establish can be implemented at once when the occasion arises. As provided for in Part 18 of Executive Order 11490, as amended (3 CFR, 1966-1970 Comp., p. 820), policies, plans, and procedures developed pursuant to that Executive order shall be in consonance with the plans and policies contained in this part.

§ 211.1 Authority.

(a) Authority to direct priorities for the restoration of communications services in national emergencies is vested in the President, including authority conferred by section 103 of the National Security Act of 1947, as amended (50 U.S.C. 404), section 101 of the Defense Production Act of 1950, as amended (50 U.S.C. App. 2070), section 201 of the Federal Civil Defense Act of 1950, as amended (50 U.S.C. App. 2281), section 1 of Reorganization Plan No. 1 of 1958, as amended (3

CFR, 1954-1958 Comp., p. 447), and section 606 of the Federal Communi-

dum of August 21, 1963, "Establishment of a National Communications

insofar as necessary to restore services of higher priority."

or immediately necessary to maintain the internal security of the United

(1) Insure performance of critical logistic functions, public utility services, and administrative-military support

cases the justification for restoration priorities will contain a validation statement from the Government

V 43 / 210 OCT 30 78

CFR, 1954-1958 Comp., p. 447), and section 606 of the Federal Communications Act of 1934, as amended. (47 U.S.C. 606).

(b) Authority to develop plans policies, and procedures for the establishment of such restoration priorities has been delegated to the National Security Council, by Executive Orders 11051, 11490, and by the President's Memorandum of August 21, 1963 (28 FR 9413, 3 CFR Part 858 (1959-63 comp.)), all as amended by Executive Order 12046, (FR 43, 13349 et seq).

§ 211.2 Definitions.

The following definitions apply herein:

(a) "Communications common carrier" or "carrier" means any person engaged in communications common carriage for hire, in intrastate, interstate, or international telecommunications.

(b) "Circuit" means a carrier's specific designation of the overall facilities provided between, and including, terminals for furnishing service. When service involves network switching, "circuit" includes those circuits between subscriber premises and switching centers (access lines) and those between switching centers (trunks).

(c) "Station" means transmitting or receiving equipment or combination transmitting and receiving equipment, at any location, on any premise, connected for private line service.

(d) "Private line service" means leased intercity private line service provided by carriers for intercity domestic and international communications over integrated communications pathways, and includes interexchange facilities, local channels, and station equipment which may be integral components of such communications service.

(e) "Restoration" means the recommencement of service by patching, rerouting, substitution of component parts, and other means, as determined necessary by a carrier.

(f) "Government" means Federal, foreign, State, county, municipal, and other local government agencies. Specific qualifications will be supplied whenever reference to a particular level of government is intended, e.g., "Federal Government," "State government." "Foreign Government" includes coalitions of governments secured by treaty, including NATO, SEATO, OAS, UN, and associations of governments or government agencies, including the Pan American Union, International Postal Union, and International Monetary Fund. "Quasi-government" includes eleemosynary relief organizations, such as the Red Cross organizations.

(g) "National Communications System (NCS)" means that system established by the President's Memorandum of August 21, 1963, "Establishment of a National Communications System" (28 FR 9413, 3 CFR, 1959-1963 Comp., p. 858).

(h) "Executive Agent" means the Executive Agent of the National Communications System.

(i) "Commission" means the Federal Communications Commission.

§ 211.3 Scope and coverage.

(a) The priority system and procedures established by this part are applicable to:

(1) U.S. domestic leased intercity private line services, including private line switched network services;

(2) U.S. international leased private line services to the point of foreign entry;

(3) Foreign extensions of U.S. international leased private line services to the extent possible through agreement between U.S. carriers and foreign correspondents;

(4) International leased private line services terminating in or transiting the United States;

(5) Federal Government-owned and leased circuits.

(b) The priority system and procedures established by this part are not applicable to operational circuits or order wires of the carriers needed for circuit reactivation and maintenance purposes, which shall have priority of restoration over all other circuits and shall be exempt from interruption for the purpose of restoring priority services.

§ 211.4 Policy.

During the continuance of a war in which the United States is engaged and when the provisions of this part are invoked, all communications common carriers shall comply with the following principles insofar as possible:

(a) Whenever necessary to maintain or restore a service having a designated priority, services having lower priority, lower subpriority, or no priority, will be interrupted in the reverse order of priority starting with nonpriority services.

(b) When services are interrupted to restore priority services, carriers will endeavor if feasible to notify users of the reason for the preemption.

(c) When public correspondence circuits are needed to satisfy requirements for priority services, idle circuits will be selected first. A minimum number of public correspondence circuits shall at all times be kept available so as to provide for the transmission of precedence-type messages and calls.

(d) Communications common carriers will not interrupt conversations having priority classification except insofar as necessary to restore services of higher priority.

(e) It is recognized that as a practical matter in providing for the maintenance or restoration of a priority service or services operating within a multiple circuit-type facility (such as a carrier band, cable, or multiplex system), lower priority, lower subpriority, or nonpriority services on paralleled channels within a band or system may be restored concurrently with higher priority services. Such reactivation shall not, however, interfere with the expedited restoration of other priority services.

(f) The Executive Agent is authorized to instruct the carriers on the percentage of government-switched network internachine trunks to be restored to provide capacity for priority access line traffic.

(g) The carriers are authorized to honor NCS-certified priorities from other authorized carriers for leased facilities.

(h) The carriers are authorized to honor restoration priorities certified by the Executive Agent.

(i) To ensure the effectiveness of the system of restoration priorities established by this part it is essential that rigorous standards be applied. Users are requested and directed to examine their private line service requirements in light of the criteria specified in this part and with regard to the availability of alternate communications facilities such as public correspondence message services, and Government-owned emergency communications systems.

§ 211.5 Priorities.

There are hereby established four levels of restoration priority. Within each level, subpriorities may be established by the Executive Agent, with the concurrence of the National Security Council, for both government and nongovernment services. The subpriority categories currently in use, which have been established by the Executive Agent will remain in effect until modified. Compatibility of subcategories applicable to government and nongovernment users is essential to achieve the objective of a single restoration priority system.

(a) *Priority 1.* Priority 1 shall be the highest level of restoration priority, and shall be afforded only to Federal and Foreign Government private line services, and to Industrial/Commercial services which are designated for prearranged voluntary participation with the Federal Government in a national emergency. Circuit requirements in this level of priority shall be limited to those essential to national survival if nuclear attack occurs for:

(1) Obtaining or disseminating critical intelligence concerning the attack,

or immediately necessary to maintain the internal security of the United States;

(2) Conducting diplomatic negotiations critical to the arresting or limiting of hostilities;

(3) Executing military command and control functions essential to defense and retaliation;

(4) Giving warning to the U.S. population;

(5) Maintaining Federal Government functions essential to national survival under nuclear attack conditions.

(b) *Priority 2.* Priority 2 shall be the second highest level of restoration priority, and shall be afforded only to Federal and Foreign Government private line services, and to Industrial/Commercial services which are designated for prearranged voluntary participation with the Federal Government in a national emergency. Circuit requirements in this level shall be limited to those essential, at a time when nuclear attack threatens, to maintain an optimum defense posture and to give civil alert to the U.S. population. These are circuit requirements whose unavailability would present serious danger of:

(1) Reducing significantly the preparedness of U.S. defense and retaliatory forces;

(2) Affecting adversely the ability of the United States to conduct critical preattack diplomatic negotiations to reduce or limit the threat of war;

(3) Interfering with the effectual direction of the U.S. population in the interest of civil defense and survival;

(4) Weakening U.S. capability to accomplish critical national internal security functions;

(5) Inhibiting the provision of essential Federal Government functions necessary to meet a preattack situation.

(c) *Priority 3.* Priority 3 shall be the third highest level of restoration priority and shall be afforded to government, quasi-government, and Industrial/Commercial private line services: *Provided, however,* That Priority 3 will be afforded circuits serving Industrial/Commercial, State, county, municipal, and quasi-state and local government agencies only where, during an emergency, at least one station in the circuit (or in connected circuits if switched service is involved) will be manned continually, or where such circuits are automated and will be under constant surveillance from a remote location. Circuit requirements in this level shall be limited to those necessary for U.S. military defense and diplomacy, for law and order, and for national health and safety in a national emergency involving heightened possibility of hostilities. These are circuit requirements needed to:

(1) Insure performance of critical logistic functions, public utility services, and administrative-military support functions;

(2) Inform key diplomatic posts of the situation and of U.S. intentions:

(3) Secure and disseminate urgent intelligence;

(4) Distribute essential food and other supplies critical to health;

(5) Provide for critical damage control functions;

(6) Provide for hospitalization:

(7) Continue critical Government functions:

(8) Provide transportation for the foregoing activities.

(d) *Priority 4.* Priority 4 shall be the fourth highest restoration priority and shall be afforded to government, quasi-government, and Industrial/Commercial private line services: *Provided, however,* That Priority 4 will be afforded circuits serving Industrial/Commercial, State, county, municipal, and quasi-state and local government agencies only where, during an emergency, at least one station in the circuit (or in connected circuits if switched service is involved) will be manned continually, or where such circuits are automated and will be under constant surveillance from a remote location. Circuit requirements in this level shall be limited to those necessary for the maintenance of the public welfare and the national economy in a situation short of nuclear attack, or during reconstitution after attack. These include circuit requirements needed to continue the more important financial, economic, health, and safety activities of the Nation.

§ 211.6 Submission and processing of restoration priority requests.

(a) Except as otherwise provided below, all requests for restoration priority assignments will be submitted to the Executive Agent in the format prescribed by him for processing and certification.

(b) Priority 3 and 4 applications from county and municipal governments, quasi-state and local government agencies and private entities shall be forwarded to the Federal Communications Commission for its approval and for certification to the carriers. These submissions will be in the form prescribed by the Commission.

(c) Industrial/Commercial entities designated for prearranged voluntary participation with the Federal Government in a national emergency should submit separate applications to the Commission when requesting the assignment of priorities in category 1 or 2. Such assignments will require the approval of the National Security Council in order to continue to be effective during a war emergency. In all cases the justification for restoration priorities will contain a validation statement from the Government agency with whom participation is prearranged.

(d) Requests for restoration priority assignments made by Foreign Government agencies, except for NATO, NATO national military authority, and such other requests as the Executive Agent may be designated, will be submitted to the Department of State for initial evaluation and review. The Department will forward to the Executive Agent for processing and approval such of these requests as it finds acceptable.

(e) Requests for restoration priority assignments made by NATO, NATO national military authority, and such other requests as the Executive Agent may designate, will be forwarded through established Allied Long Lines Agency (ALLA) channels to the Secretary of Defense. The Secretary will forward to the Executive Agent for processing and approval such of these requests as he finds acceptable pursuant to approved NATO/U.S. procedures.

(f) Requests for temporary upgrading of restoration priority assignments occasioned by special critical conditions, including natural disasters, heightened diplomatic and political tenseness, and tracking and control of manned space operations, may be submitted to the Executive Agent together with such information as he may require for expedited processing decision.

(g) All assignments, denials and changes of restoration priorities and subpriorities are subject to review and modification by the National Security Council.

(h) When requesting service from the carriers the user must include the certified restoration priority on the service authorization.

§ 211.7 Obligation of carriers.

(a) During the continuance of a war in which the United States is engaged, and when the provisions of this part are invoked, all carriers shall accord restoration priority assignments certified pursuant to this part priority over all other circuits.

(b) To promote the national interest and defense preparedness, carriers shall:

(1) Maintain such records of restoration priority assignments certified pursuant to this part as may be necessary to enable prompt implementation;

(2) Enter into agreements, to the extent possible, with their foreign correspondents to effect restoration of the foreign portion of leased international services in accordance with this part;

(3) Notify the Executive Agent of foreign correspondent procedures affecting Federal Government services that are not reasonably consistent with the priority requirements of this part.

PART 212—PROCEDURES FOR OBTAINING INTERNATIONAL TELECOMMUNICATION SERVICE FOR USE DURING A NATIONAL EMERGENCY

Sec.
212.0 Authority.
212.1 Purpose.
212.2 Scope.
212.3 Circuit restoration procedures.
212.4 Responsibilities.
212.5 Other requirements.
212.6 Coordination of requirements.
212.7 Implementation.

AUTHORITY: E.O. 10995, E.O. 11084, 3 CFR 1959-1963 Comp., pp. 535 and 719; Memorandum of Aug. 21, 1963, 3 CFR 1959-1963 Comp., p. 858, E.O. 12046, 43 FR 12349, Mar. 29, 1978.

§ 212.0 Authority.

(a) Authority to prescribe procedures for obtaining telecommunication resources during an emergency is contained in Executive Order 12046 (FR 43, 13349 et seq.), and the President's National Communications Memorandum of August 21, 1963 (28 FR 9413, 3 CFR, 1959-1963 Comp., p. 858).

(b) These procedures are applicable to the communications common carriers and non-Federal Government users under the President's authority contained in subsection 606(a) of the Communications Act of 1934, as amended. The authority under subsection 606(a) has been delegated by Executive Order 12046 to the Director of the Office of Science and Technology Policy. This authority may be exercised only during the continuance of a war in which the United States is engaged.

§ 212.1 Purpose.

The purpose of this part is to replace Annex 2 of EMO 3000.1, 32A CFR, Chap. I, and to provide specific guidance to Government and private entities who may have new requirements for international telecommunication service during national emergencies.

§ 212.2 Scope.

The procedures in this part provide guidance for the submission of emergency requirements for telecommunication channels between the United States and overseas or foreign points. Guidance on this subject was previously contained in Annex 2 of DMO 3000.1 and Mobilization Plan IX-3. Mobilization Plan IX-3 has been canceled.

§ 212.3 Circuit restoration procedures.

The restoration priority procedures for these emergency requirements shall be in accordance with the order entitled "Priority System for the Use and Restoration of Leased Intercity Private Line Services During Emergency Conditions," FCC Order 67-51.

§ 212.4 Responsibilities.

(a) Executive departments and agencies of the United States, whether or not components of the National Communications System (NCS), shall submit their international emergency telecommunications requirements to the Executive Agent, National Communications System, for coordination and consolidation of mobilization requirements.

(b) The Department of Defense shall coordinate NATO requirements in consonance with approved NATO/U.S. procedures for subsequent processing by the Executive Agent, National Communications System.

(c) The Department of State shall coordinate and approve foreign government circuit requirements and then forward them to the Executive Agent, NCS, for further processing.

§ 212.5 Other requirements.

Those entities, other than Executive department and agencies of the United States, having need for emergency international telecommunication service shall present their requirements to the Federal Communications Commission (FCC).

§ 212.6 Coordination of requirements.

(a) The NCS and FCC shall meet periodically to review the total mobilization requirements and to evaluate the impact of these requirements upon the common carriers' capability. If the situation develops in which emergency requirements cannot be provided by the communications common carriers, the Executive Agent, NCS, or the FCC, as appropriate, shall immediately notify the Director of the Office of Telecommunications Policy of that situation.

(b) The Director of the Office of Science and Technology Policy will assume the responsibility for coordinating and integrating mobilization requirements which are presented to him, making use of the knowledge, information, and advice of the FCC. These requirements shall be evaluated with due regard to facilities which must remain under the control of the commercial companies and those which must be generally available to the public and the Government.

§ 212.7 Implementation.

Executive departments and agencies of the United States are authorized to issue such additional orders as are necessary to effect implementation of this part.

PART 213—GOVERNMENT AND PUBLIC CORRESPONDENCE TELECOMMUNICATIONS PRECEDENCE SYSTEM

Sec.
213.0 Authority.
213.1 Background and purpose.
213.2 Scope.
213.3 Cancellation.
213.4 Definitions.
213.5 Precedence designators.
213.6 Criteria.
213.7 Policies.
213.8 Implementation.

AUTHORITY: Sec. 606, 48 Stat. 1104; 47 U.S.C. 606, E.O. 10705, 3 CFR, 1954-1958 Comp. E.O. 10995, 3 CFR, 1959-1963 Comp., President's Memorandum of August 21, 1963; 3 CFR, 1959-1963 Comp., p. 858; E.O. 12046, 43 FR 13349, Mar. 29, 1978.

§ 213.0 Authority.

(a) The voice and message precedence procedures for departments and agencies of the Federal Government prescribed by this part are prescribed pursuant to Executive Order No. 12046 (43 FR 13349 et. seq.) and the President's Memorandum of August 21, 1963, which established the National Communications System (28 FR 9413; 3 CFR, 1959-1963 Comp., p. 858).

(b) The procedures applicable to communications common carriers and non-Federal Government users prescribed by this part are prescribed by authority conferred upon the President by subsection 606(a) of the Communications Act of 1934, as amended, and delegated to the National Security Council by Executive Order 12046. That authority under section 606(a) may be exercised only during the continuance of a war in which the United States is engaged.

§ 213.1 Background and purpose.

(a) The National Security Council and the Federal Communications Commission have agreed upon a precedence system for the expeditious handling of messages and calls transmitted over Government and public correspondence facilities in all types of situations from peacetime to massive nuclear attack. Effectuation of that system requires that the Director issue a circular and that the Commission concurrently issue an order prescribing the standards, procedures, policies, and regulations that together, constitute this single integrated precedence system.

(b) In conformity with that agreement the National Security Council is issuing this circular the purpose of which is to prescribe, on behalf of the President, that part of those standards, procedures, policies, and regulations which are within the cognizance of the NSC.

No significance should be attached to the fact that slightly different terms are used in this circular from those used in the companion order of the FCC. Those differences result from differences in terms in the basic legal authorities of the Director and the Commission rather than from an intent to denote a distinction in purpose or effect.

§ 213.2 Scope.

The precedence system contained herein is applicable to:

(a) Users of Government service facilities, whether owned or leased.

(b) Users of public correspondence service facilities of the communication common carriers, to U.S. domestic and international communication common carriers, and to the extent possible by agreement between the latter and their foreign correspondents.

§ 213.3 Cancellation.

This circular cancels:

(a) Attachments A and B to Annex 3 of DMO 3000.1, dated November 8, 1963 (28 FR 12273).

(b) That portion of the memorandum of the Special Assistant to the President for Telecommunications, dated August 27, 1964, pertaining to message precedences.

§ 213.4 Definitions.

As used herein:

(a) Public correspondence services means those services offered to the general public for communications between all points served by a carrier or by interconnected carriers on a nonexclusive message by message or call by call basis, as differentiated from leased private line services.

(b) The term "precedence" means the order in which messages and calls are processed. Transmission of information and call completion is therefore to be accomplished in the order required by the precedence designator. Any such properly categorized communications precede noncategorized communications.

(c) The term "Government" where used alone means Federal, foreign, State, county, or municipal government agencies. Specific reference will be made whenever it is intended to apply to less than the whole, e.g., "State Government," "Federal Government," etc.

(d) The term "Foreign Government" includes those foreign diplomatic and consular establishments and those coalitions or associations of governments such as NATO, SEATO, OAS, UN, and associations of governments or governmental agencies such as Pan American Union, International Postal Union, International Monetary Fund, and similar organizations.

(e) The term "message" means a written or other form of record communication prepared for transmission and delivery at the destination.

(f) The term "call" means a request from a user for a connection to another station whether for telephone or record communication.

§ 213.5 Precedence designators.

(a) The following precedence designators are available for Government and public correspondence users:

Federal Government	*Domestic public correspondence and international telephone calls*
Flash	Flash emergency.
Immediate	Immediate emergency.
Priority	Priority emergency.
Routine	(No domestic equivalent.)

(b) Government and non-Government users of public correspondence services will handle their international messages in accordance with current ITU Telegraph Regulations. Government users should note that, generally, the only precedence designator available for their use for international messages sent over public correspondence circuits is Etat Priorite. The ITU Regulations do not contain precedence designators which equate to Flash, Immediate, or Priority. Accordingly, Government messages whether Flash, Immediate, or Priority precedence when sent over international public correspondence circuits will be handled as Etat Priorite messages. Thus, Priority messages will receive the same treatment in transmission and processing as Immediate or Flash messages. Conversely, Etat Priorite messages received in the United States shall be transmitted and processed in the order of receipt, to the extent possible. The precedence designator available for non-Government users of public correspondence services is Urgent. The Urgent designator is limited for use only during wartime conditions, as declared pursuant to section 606 of the Communications Act of 1934.

(c) Domestic and International U.S. common carriers, insofar as practicable by agreement with their foreign correspondents, shall endeavor to arrange the proper level of precedence handling of international messages and calls originating, terminating in, or transiting the United States: *Provided, however,* That insofar as international messages are concerned the level of precedence shall be consistent with the International Telecommunication Conventions and regulations thereunder.

(d) The Government designators shall be used throughout the Federal Government. All messages and telephone calls sent via public correspondence services shall use domestic or international public correspondence designators as appropriate. Thus, the responsibility is on Government and public correspondence users to recognize and use the appropriate designators when using public correspondence services.

(e) On international telephone calls the carrier's operator will convert to the appropriate international designator.

§ 213.6 Criteria.

(a) *Flash, Flash Emergency.* (1) This is the highest order of precedence and shall be strictly limited to Federal and Foreign Government agencies.

(2) Flash, or Flash Emergency telephone calls or messages shall be handled in the order received and ahead of all calls or messages except as indicated for international messages in ITU Regulations. When necessary to obtain a circuit for a Flash, or Flash Emergency call any call in progress of a lesser precedence will be interrupted, if feasible. Any message of a lesser precedence in the process of transmission will be halted, if feasible, to clear the channel for the Flash or Flash Emergency transmission. Flash or Flash Emergency precedence shall be reserved for calls and messages having an immediate bearing on:

(i) Command and control of military forces essential to defense and retaliation.

(ii) Critical intelligence essential to national survival.

(iii) Conduct of diplomatic negotiations critical to the arresting or limiting of hostilities.

(iv) Dissemination of critical civil alert information essential to national survival.

(v) Continuity of Federal governmental functions essential to national survival.

(vi) Fulfillment of critical U.S. internal security functions essential to national survival.

(vii) Catastrophic events of national or international significance, such as Presidential Action Notices essential to national survival during attack or preattack conditions.

(b) *Immediate, Immediate Emergency, Urgent.* Immediate, Immediate Emergency, or Urgent telephone calls or messages shall be handled as fast as possible and ahead of all other calls or messages except those having a higher precedence. Any message or call of a lower precedence in the process of transmission will be halted, if feasible, to clear the channel for this transmission. It will be reserved generally for calls or messages pertaining to:

(1) Situations which gravely affect the security of national and allied

(15) Arranging minimum transportation for accomplishing the aforesaid functions

ernment activities brought to the attention of the communication common

AUTHORITY: 84 Stat. 2083 and E.O. 12046 (43 FR 13349 et seq., Mar. 29, 1978.)

may otherwise be modified or revoked by the Director in the national interest;

Director, OSTP, will review such applications, accomplish the necessary additional coordination insofar as

V 4 3 / 2 1 0 0 C 3 0 0 7 8

(1) Situations which gravely affect the security of national and allied forces.

(2) Reconstitution of forces in a postattack period.

(3) Intelligence essential to national security.

(4) Conduct of diplomatic negotiations to reduce or limit the threat of war.

(5) Implementation of Federal Government actions essential to national survival.

(6) Situations which gravely affect the internal security of the United States.

(7) Civil defense actions concerning direction of our population and its survival.

(8) Disasters or events of extensive seriousness having an immediate and detrimental effect on the welfare of the population.

(9) Vital information having an immediate effect on aircraft, spacecraft, or missile operations.

(c) *Priority, Priority Emergency, Urgent.* Priority, Priority Emergency, or Urgent messages and calls shall take precedence over messages or calls designated "Routine," or in the case of common carriers, over all nonprecedence traffic. Priority, Priority Emergency, or Urgent precedence is generally reserved for calls or messages which require expeditious action. Examples are calls or messages pertaining to:

(1) Information on locations where attack is impending or where fire or air support will soon be placed.

(2) Air-ground integrated operations.

(3) Important intelligence.

(4) Important diplomatic information.

(5) Important information concerning the launch, operation, or recovery of spacecraft or missiles.

(6) Movement of naval, air, and ground forces.

(7) Coordination between governmental agencies concerning the performance of emergency preparedness functions.

(8) Major civil aircraft accidents.

(9) Maintaining the public health, safety, and the welfare of our population.

(10) Critical logistic functions, provisions of critical public utility services, and administrative military support functions.

(11) Distributing essential food and supplies critical to health.

(12) Accomplishing tasks necessary to insure critical damage control functions.

(13) Preparations for adequate hospitalization.

(14) Continuity of critical Government functions.

(15) Arranging minimum transportation for accomplishing the aforesaid functions.

(16) Continuing or reestablishing our more important financial, economic, health, and safety activities. Producing, procuring, and distributing food materials and supplies which are considered necessary to the immediate support of a war effort, the national defense, or for expediting the means of meeting the effects of natural disasters.

(17) Prompt delivery of information by press representatives to news media organizations and newspapers covering news of national or widespread disasters.

(d) *Routine; no domestic equivalent.* Routine precedence designation applies to those normal day-to-day communications which require rapid transmission by telephone or message, but do not require urgent or preferential handling.

§ 213.7 Policies.

(a) Calls and messages in each precedence classification above shall have no precedence over others within the same classification, except where, within the same classification, they cannot be handled simultaneously. Then, they shall be handled in the order of their receipt.

(b) Individuals whose requirements qualify them to use the precedence system share the responsibility for insuring its effectiveness. Users must familiarize themselves with the purposes to be served by the use of each precedence designator. It must be remembered that the entire system will operate successfully only if the use of the precedence designator is limited strictly to the intended purposes. Each user must consider whether each message or call requires any special precedence and exercise care not to specify a higher precedence than circumstances require.

(c) For public correspondence message services, the domestic or international precedence designators shall be shown in full by the sender as the first word preceding the name of the addressee.

(d) For public correspondence call services, the user should first attempt to complete the call in the normal manner. In the event the user is unable to complete the call and the type of communication falls within one of the precedence categories listed herein, the call should be filed with an operator for completion and the user must specify the required precedence handling by stating that this is a Flash Emergency, Immediate Emergency, or Priority Emergency call, whichever the case may be.

(e) Any apparent misuse of precedence indicators by non-Federal Government activities brought to the attention of the communication common carriers shall be referred to the FCC on an after-the-fact basis.

(f) Any apparent misuse by Federal Government activities brought to the attention of the communication common carriers shall be referred to the Executive Agent, National Communications System. The Executive Agent will refer any matter which cannot be resolved with the cognizant Government activity to the National Security Council, for decision.

(g) It is essential to provide public message and call capability for the transmission of military, governmental, and essential non-Government precedence messages and calls. Private line services for military, governmental, and other essential users are protected under a Priority System for Intercity Private Line Services promulgated by the FCC (FCC Order 67-51) and the National Security Council. However, during national emergencies, military, governmental, and other essential users will have additional requirements for prompt completion of precedence traffic over public correspondence communication common carrier facilities. Therefore, notwithstanding the provisions of the above-described Priority System for Intercity Private Line Services, communication common carriers shall have available a minimum number of public correspondence circuits at all times so as to provide for the transmission of precedence type messages and calls. Normally, the communication common carriers shall use their judgment in determining this minimum number of circuits required for public correspondence precedence traffic. However, the authority is reserved to the National Security Council or the Federal Communications Commission, as appropriate to the time and situation, to revise the decisions of the carriers respecting the allocation of circuits, and to resolve any questions which are referred to them by the carriers or the users.

§ 213.8 Implementation.

Federal departments and agencies are authorized to issue such additional orders as are necessary to effect implementation of this circular.

PART 214—PROCEDURES FOR THE USE AND COORDINATION OF THE RADIO SPECTRUM DURING A NATIONAL EMERGENCY

Sec.
214.0 Authority.
214.1 Purpose.
214.2 Scope.
214.3 Assumptions.
214.4 Planned actions.
214.5 Responsibilities.
214.6 Postattack procedures and actions.

AUTHORITY: 84 Stat. 2083 and E.O. 12046 (43 FR 13349 et seq., Mar. 29, 1978.)

§ 214.0 Authority.

The provisions of this Part 214 are issued pursuant to Reorganization Plan No. 1 of 1970, 84 Stat. 2083, and Executive Order 12046 (43 FR 13349 et seq.). This Part 214 replaces Annex 1 of DMO 3000.1, dated November 8, 1963. (28 FR 12273).

§ 214.1 Purpose.

The purpose of this part is to provide guidance for the use of the radio spectrum in a period of war, or a threat of war, or a state of public peril or disaster or other national emergency.

§ 214.2 Scope.

This part covers procedures for the use of radio frequencies upon proclamation by the President that there exists war, or a threat of war or a state of public peril or disaster or other national emergency or in order to preserve the neutrality of the United States. These procedures will be applied in the coordination, application for, and assignment of radio frequencies upon order of the Director, OSTP. These procedures are intended to be consistent with the provisions and procedures contained in emergency plans for use of the radio spectrum.

§ 214.3 Assumptions.

When the provisions of this part become operative, Presidential emergency authority, including Executive Order 11490, 12046 (3 CFR, 1966-1970 Comp., p. 820), and other emergency plans regarding the allocation and use of national resources will be in effect. In a postattack period, the Director, OSTP, will have authority to make new or revised assignments of radio frequencies in accordance with authority delegated by the President.

§ 214.4 Planned actions.

(a) Whenever it is determined necessary to exercise, in whole or in part, the President's emergency authority over telecommunications, the Director, OSTP, will exercise that authority as specified in Executive Order 12046. FR 43, 13349 et seq.

(b) In this connection, and concurrently with the war or national emergency proclamation by the President, the Director will:

(1) Authorize the continuance in force of all outstanding frequency authorizations issued by the Director, OSTP, and the Federal Communications Commission (FCC), except as those authorization may be modified by emergency plans for use of the radio spectrum and except as they may otherwise be modified or revoked by the Director in the national interest;

(2) Redelegate to the Secretary of Defense authority necessary to control the use of the radio spectrum in areas of active combat, where such control is necessary to the support of U.S. military operations;

(3) Close all non-Government radio stations in the international broadcasting service as defined in the FCC rules and regulations, except those carrying or scheduled to carry U.S. Government-controlled radio broadcasts;

(4) Close all amateur radio stations, except those operating as a part of the Radio Amateur Civil Emergency Service (RACES).

§ 214.5 Responsibilities.

(a) The Director, OSTP, will issue such policy guidance, rules, regulations, procedures, and directives as may be necessary to assure effective frequency usage during war or national emergency conditions.

(b) The FCC shall issue appropriate rules, regulations, orders, and instructions and take such other actions not inconsistent with the actions of the Director, OSTP, as may be necessary to ensure the immediate availability of the frequencies and facilities between 10 and 25,000 kHz provided for in emergency plans for use of the radio spectrum.

(c) The FCC shall assist the Director in the preparation of emergency plans pursuant to Part 18, Executive Order 11490 (3 CFR, 1966-1970 Comp., p. 820).

(d) Each Federal Government agency concerned shall develop and be prepared to implement its own plans, and shall make necessary preemergency arrangments with non-Government entities for the provision of desired facilities or services, all subject to the guidance and control of the Director.

§ 214.6 Postattack procedures and actions.

(a) The frequency management staff supporting the Director, OSTP, will be comprised of predesignated personnel from the frequency management staffs of the government user agencies and the FCC, will have proceeded to the OSTP relocation site in accordance with alerting orders in force.

(b) Government agencies having need for new radio frequency assignments or for modification of existing assignments involving a change in the frequency usage pattern shall unless otherwise provided submit applications therefor to the Director, OSTP, by whatever means of communication are available and appropriate, together with a statement of any preapplication coordination accomplished. The Director, OSTP, will review such applications, accomplish the necessary additional coordination insofar as practicable, consider all pertinent views and comments, and grant or deny, as he shall determine, the assignment of such frequencies. All concerned will be informed promptly of his decisions.

(c) Non-Government entities having need for new radio frequency assignments or for modifications of existing assignments will continue to submit applications therefor to the FCC, or in accordance with FCC instructions. Such applications shall be coordinated with the Director, OSTP, and granted subject to the approval of the Director, OSTP, or his delegate.

(d) All changes of radio frequency usage within U.S. military theaters of operation will be coordinated with the Director, OSTP, where harmful interference is likely.

(e) Where submission to the Director, OSTP, is impracticable, the applicant shall:

(1) Consult emergency plans for use of the radio spectrum and the Frequency Assignment Lists;

(2) Accomplish such coordination as appropriate and possible;

(3) Act in such manner as to have a minimum impact upon established services, accepting the responsibility entailed in taking the temporary action required;

(4) Advise the Director, OSTP, as soon as possible of the action taken, and submit an application for retroactive approval.

PART 215—FEDERAL GOVERNMENT FOCAL POINT FOR ELECTROMAGNETIC PULSE (EMP) INFORMATION

Sec.
215.0 Purpose and authority.
215.1 Background.
215.2 Assignment of responsibilities.

AUTHORITY: 84 Stat. 2083, and E.O. 12046, 43 FR 13349, March 29, 1978.

§ 215.0 Purpose and authority.

The purpose of this part is to designate a focal point within the Federal Government for electromagnetic pulse (EMP) information concerning telecommunications. It is issued pursuant to the authority of Reorganization Plan No. 1 of 1970, 84 Stat. 2083, Executive Order 12046 (43 FR 13349 et seq.) and the President's memorandum of August 21, 1963, "establishment of a National Communications System." (28 FR 9413, 3 CFR, 1959-1963 Comp., p. 858).

§ 215.1 Background.

(a) The nuclear electromagnetic pulse (EMP) is part of the complex environment produced by nuclear explo-

sions. It consists of transient voltages and currents which can cause malfunctioning and serious damage to electri-

were previously added and which provided a time extension for using the

§§ 395.8 and 395.9 [Amended]

2. Sections 395.8(u) and 395.9(x) of

motive Ratings, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington,

system, to be furnished under the standard, specifically states that the C grade indicates a level of performance

Therefore, the burden of adding the specific UTQG grades for the particular tire classification should be mini-

V 4 3 / 2 1 0 C 3 0 7 8 0 C

sions. It consists of transient voltages and currents which can cause malfunctioning and serious damage to electrical and electronic equipment.

(b) The Defense Nuclear Agency (DNA) is the overall technical coordinator for the Army, Navy, Air Force, and DOE laboratories on matters concerning nuclear weapons, nuclear weapons effects, and nuclear weapons testing. It acts as the focal point between the service laboratories and other agencies. The Defense Communications Agency (DCA) maintains a data base for telecommunications for the National Communications System (NCS) and provides a capability for conducting telecommunications survivability studies for civil and military departments and agencies.

(c) In order to disseminate among affected Federal agencies information concerning the telecommunications effects of EMP and available protective measures, and in order to avoid duplication of research efforts, it is desirable to designate a focal point within the Federal Government for telecommunications EMP matters.

§ 215.2 Assignment of responsibilities.

The Executive Agent, NCS, shall be the focal point within the Federal Government for all EMP technical data and studies concerning telecommunications. It shall provide such data and the results of such studies to all appropriate agencies requesting them. It shall coordinate and approve EMP telecommunications tests and studies, and shall keep the National Security Council informed regarding such tests and studies being conducted and planned.

[4910-22-M]

Title 49—Transportation

CHAPTER III—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER B—FEDERAL MOTOR CARRIER SAFETY REGULATIONS

[BMCS Docket No. MC-69-2, Admt. No. 78-2]

PART 395—HOURS OF SERVICE OF DRIVERS

Driver's Daily Log and Multiday Log, Extension of Use

AGENCY: Federal Highway Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment deletes sections of the Federal Motor Carrier Safety Regulations (FMCSR) which were previously added and which provided a time extension for using the driver's daily log and multiday log forms. Action is taken because the Office of Management and Budget (OMB) has authorized the use of these forms for a short term and may continue extending this authorization in the future. This amendment provides information on the current status of these forms.

EFFECTIVE DATE: October 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Gerald Davis, Chief, Driver Requirements Branch, Regulations Division, Bureau of Motor Carrier Safety, 202-426-9767; Mr. Gerald Tierney, Office of Chief Counsel, 202-426-0346, Federal Highway Administration, 400 Seventh Street SW., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m. e.s.t., Monday through Friday.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) has advised the Department of Transportation that driver's daily log (form MCS-139 and 139A) have been authorized for continued use through June 1979. Further extensions may continue to be granted, provided the Bureau meets certain requirements as specified by OMB. Therefore, sections 395.8(u) and 395.9(x) of the Federal Motor Carrier Safety Regulations are being deleted to eliminate the necessity of future rulemaking, should OMB grant further extensions.

Because this action is procedural in nature and contains no substantive changes, notice and comments are unnecessary.

Accordingly, 49 CFR chapter III is amended as follows:

1. Section 395.8 is amended by revising paragraph (a) to delete reference to paragraph (u).

§ 395.8 Driver's daily log.

(a) Except as provided in § 895.9 and paragraph (t) of this section, every motor carrier shall require that a driver's daily log, form MCS-59, shall be made in duplicate by every driver used by the carrier and every driver who operates a motor vehicle shall make such a log. Failure to make logs, failure to make required entries therein, falsification of entries, or failure to preserve logs shall make both the driver and the carrier liable to prosecution. Driver's logs shall be prepared and retained in accordance with the provisions of paragraphs (b) through (s) of this section.

* * * * *

§§ 395.8 and 395.9 [Amended]

2. Sections 395.8(u) and 395.9(x) of the FMCSR are being deleted.

NOTE: The Federal Highway Administration has determined that this doument does not contain a significant proposal according to the criteria established by the Department of Transportation pursuant to Executive Order 12044.

(49 U.S.C. 304; 49 CFR 1.48, 301.60.)

Issued on October 19, 1978.

KENNETH L. PIERSON,
Acting Director,
Bureau of Motor Carrier Safety.

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket 71-18, Notice 11; Docket 25, Notice 27]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

PART 575—CONSUMER INFORMATION REGULATIONS

Uniform Tire Quality Grading and Temperature for Tire Testing

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Final rule.

SUMMARY: This notice amends the uniform tire quality grading (UTQG) standards to revise the grading symbols used to indicate traction grades and responds to a petition for reconsideration of the effective dates for the information requirement regarding first purchasers of motor vehicles. The notice, further, responds to petitions for reconsideration submitted by the Rubber Manufacturers Association and the Goodyear Tire & Rubber Co., regarding an amendment of the tire testing temperature employed in the UTQG regulation and the non-passenger-car tire safety standard, which established a single test temperature for the performance requirements of the two standards. The notice also withdraws a NHTSA proposal to modify the tread label requirements of the uniform tire quality grading standard. These actions are intended to aid consumer understanding of the UTQG grading system and facilitate industry tire testing.

EFFECTIVE DATE: October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Dr. F. Cecil Brenner, Office of Automotive Ratings, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-1740.

SUPPLEMENTARY INFORMATION: On July 17, 1978 (43 FR 30542), NHTSA republished the UTQG standards (49 CFR 575.104) to assist the consumer in the informed purchase of passenger car tires. (Docket No. 25, notice 24.) The standard requires that manufacturers and brand name owners provide simple comparative data on tire performance, which can be considered by purchasers in selecting between competing tire lines. Concurrently, with issuance of the final rule, the agency proposed modifications of the standard's provisions relating to traction grading symbols and tread labels (43 FR 30586; July 17, 1978).

TRACTION GRADING SYMBOLS

The notice of proposed rulemaking (43 FR 30586), issued concurrently with the republished final rule, proposed revision of the symbols used to denote tire traction grades. The agency invited comment on the use of an A, B, C hierarchy of traction grades in place of the **, *, 0 system now required by paragraph (d)(2)(ii).

The Automobile Club of New York commented that the proposed traction grading symbols would be "far more meaningful to consumers" than the asterisks and zeros used in the existing regulation. The National Tire Dealers & Retreaders Association viewed the letter grading proposal as an improvement, and, in response to notice 24, the Metropolitan Dade County, Fla., Office of the Consumer Advocate approved of an A, B, C grading system as falling within the experience of all consumers.

The only negative comment came from Atlas Supply Co. which expressed concern that, if consumers are warned, as to the rule requires, that tires with a C traction grade may have poor traction performance, they may assume that a C temperature resistance grade likewise denotes poor temperature resistance qualities. Atlas recommended that the lowest traction grade be abolished completely and that only the symbols A and B be used to represent traction grades.

In fact, the agency is currently considering promulgation of a tire traction safety standard which would set a minimum performance level such that tires falling within the lowest UTQG traction performance grade would not comply with the safety standard (43 FR 11100; Mar. 16, 1978, and 38 FR 31841; Nov. 19, 1973). Pending issuance of such a standard, however, consumers should not be mislead as to the nature of the C temperature grade, since the explanation of the grading system, to be furnished under the standard, specifically states that the C grade indicates a level of performance which meets the applicable Federal safety standard.

The agency has concluded that the A, B, C grading symbols for traction performance will be an aid to consumer understanding of the UTQG system due to the general familiarity with letter grading systems and the hierarchy inherently associated with these symbols. Consumer comprehension of the grading system will also be improved by eliminating the need to use three different sets of symbols. The symbols A, B, and C are, therefore, adopted to represent traction grades under the UTQG standard.

TREAD LABEL REQUIREMENTS

The existing UTQG regulation provides that each passenger car tire, other than one sold as original equipment on a new vehicle, shall have affixed to its tread surface a label indicating the specific treadwear, traction, and temperature grades for that tire, as well as a general explanation of the grading system. In its July 17, 1978, notice of proposed rulemaking (43 FR 30586), the agency proposed to amend section 575.104(d)(1)(i)(B) of the standard, to require only general grading information on the tread label, while retaining a separate requirement that specific grades be molded on the tire sidewall. The tread label would have been modified to include a statement referring the consumer to the tire sidewall for the actual grades of the particular tire. The notice also proposed that specific tire grades be supplied, at the manufacturer's option, on either tread labels or on the sidewall during the 6-month period prior to the effective dates of the molding requirement.

In commenting on the notice, Goodyear argued that provision of specific grading information on the tread label would not be feasible and would add to the cost of implementation of the standard. American Motors Corp. commented that provision of specific grades in two places would be redundant and an unnecessary expense.

However, Michael Peskoe, an individual involved in early development of the standard, argued that the tread labeling requirement is not redundant, since tire sidewall molding was intended primarily to supply a permanent record of the tire grades, to be considered when replacing the tires, rather than to convey information to the prospective purchaser. He also stated that, with regard to cost and feasibility considerations, tire specific identification labels, bearing information such as tire line and size, are already in widespread use within the industry to aid in the distribution of tires. Therefore, the burden of adding the specific UTQG grades for the particular tire classification should be minimal.

The Automobile Club of New York and Mr. Peskoe commented that provisions of specific tire grades only on the sidewall would hinder use of the information in the situation, common in tire dealerships and service stations, where tires are displayed on racks, sidewall to sidewall. Tires would have to be removed from the display rack before the grades molded on the sidewall could be observed. The problem would be compounded where the purchaser wishes to compare the grades on several tires.

While NHTSA is concerned with keeping the cost of the UTQG regulation at a minimum, existing tire labeling and marketing practices lead the agency to the conclusion that tread labels containing specific tire grading information should continue to be required for replacement tires. The agency had earlier determined that identification of specific tire grades on tread labels is feasible and involves a very limited cost to manufacturers and consumers. Tire-specific tread labels have been demonstrated to be an integral and necessary part of the regulation's plan for getting useful information to tire purchasers. The proposal to require only general grading information on tire tread labels is, therefore, withdrawn.

EFFECTIVE DATES FOR POINT OF SALE INFORMATION

Notice 24, set March 1, 1979, in the case of bias-ply tires and September 1, 1979, in the case of bias-belted tires, as effective dates for all UTQG requirements except the molding requirements of paragraph (D)(1)(i)(A). The molding requirements applicable to bias and bias-belted tires were made effective September 1, 1979, and March 1, 1980, respectively.

The purpose of this delayed phasein schedule for tire sidewall molding is to provide manufacturers with extra time to prepare new tire molds containing grading information. However, the delay in effective dates for tire molding had the unintended effect of creating a 6-month interval between the time vehicle manufacturers must provide point of sale information on tire quality grading to prospective purchasers, and first purchasers of motor vehicles (49 CFR 575.104(d)(1) (ii) and (iii)) and the date on which grading information actually must appear on the tires sold. In the case of information to be furnished to first purchasers under paragraph (d)(1)(iii), potential for confusion exists since consumers will be referred to the tire sidewall for specific tire grades, when in many cases, molds will not yet have been

modified for the tire lines being supplied.

turers Association (RMA) and The Goodyear Tire & Rubber Co., reco-

temperatures ranging from 95° F to subzero conditions. The RMA petition

2. Paragraphs (d)(1)(iii), (g)(2) and (g)(5) of 49 CFR 575.104 are revised to

The program official and lawyer principally responsible for the devel-

Periodic reevaluation of the U.S. capacity will be required to determine what portions of the reserves are required by the U.S. or

V 43 / 210 0 C 30 0 78

modified for the tire lines being supplied.

To correct this situation, American Motors Corp. has petitioned NHTSA to reconsider the effective dates for paragraph (d)(1)(iii). American Motors has recommended that the effective dates for paragraph (d)(1)(iii) be amended to correspond to those of paragraph (d)(1)(i)(A), the molding requirement. The agency has already recognized the difficulties involved in providing specific grades for original equipment tires through the use of tread labels (39 FR 1037; Jan. 4, 1974), or point of sale information (43 FR 30547; July 17, 1978). To better coordinate the availability of specific tire grading information on tire molds and the provision of explanatory information through vehicle owner's manuals, American Motors' petition for reconsideration is granted. The effective dates for paragraph (d)(1)(iii) are changed to September 1, 1979, for bias-ply tires and March 1, 1980, for bias-belted tires.

Paragraph (d)(1)(ii) of the regulation requires that vehicle and tire manufacturers furnish to prospective purchasers an explanation of the UTQG grading system. Although this provision also takes effect 6 months prior to the tire molding requirements, the agency has concluded that no corresponding change in effective dates is necessary. Paragraph (d)(1)(ii) provides for the availability of valuable information to prospective tire purchasers, since specific grading information will be available on replacement tires sold during the 6-month phasein period. Further, the paragraph contains no potentially confusing reference to the tire sidewall as does paragraph (d)(1)(iii). Prospective vehicle purchasers who obtain the information prior to the sidewall molding effective dates will be given the opportunity to familiarize themselves in advance with the new grading system.

TEMPERATURE FOR TIRE TESTING

On March 3, 1977 (42 FR 12207), NHTSA proposed to amend Standard No. 119, New Pneumatic Tires for Vehicles Other Than Passenger Cars (49 CFR 571.119), and the UTQG Standards to establish the same ambient temperature for tire testing in both standards, to allow more efficient use of tire test facilities. The notice proposed "any temperature up to 95° F" and "100±5° F" as alternative means of phrasing the new, identical test temperature.

After consideration of comments, the agency determined that the ambient test temperature should be expressed as "any temperature up to 95°F" (43 FR 30541; July 17, 1978). NHTSA received petitions for reconsideration from the Rubber Manufacturers Association (RMA) and The Goodyear Tire & Rubber Co., recommending that the test temperatures for standard No. 119 and the UTQG regulation include tolerances and be specified as "100° F±5° F." As NHTSA has frequently stated in past notices on these and other standards (e.g., 40 FR 47141; October 8, 1975), such a recommendation reflects a misunderstanding of the legal nature of motor vehicle standards. NHTSA standards are not instructions to test engineers, but performance levels that vehicles and equipment must be capable of meeting. The use of a tolerance range in this context is confusing since it creates ambiguity as to the performance level required.

Establishment of a precise performance requirement, expressed without a tolerance, still recognizes that measurement techniques cannot be controlled perfectly. Given a specified performance level, manufacturer's can design their tests to assure compliance in at least two ways: (1) By using a test procedure that conforms so closely to the specified measurement that no significant variations could occur, or (2) by determining which side of the specified level is adverse to the product being tested, and targeting test conditions so that any deviation will occur on the adverse side. In this case, a tire manufacturer may use an ambient temperature slightly above 95° F to demonstrate, through adverse conditions, that its tire would comply at the specified temperature.

In its petition for reconsideration, Goodyear commented that all test laboratories should employ the same ambient temperature conditions. However, such uniformity is not advantageous in a regulatory context, since government compliance testing and manufacturers' laboratory evaluations are undertaken for different purposes.

Goodyear also argued that a fixed 95° F test temperature and a "100±5° F" tolerance range to not establish "in effect the same test temperature", as stated in the agency's July 17, 1978, notice (43 FR 30541). A fixed 95° F requirement is, in fact, from the manufacturers' prospective, identical to a "100±5° F" provision, since, given a controlled variation in test conditions of 5° F in either direction from the target temperature, manufacturers seeking to assure compliance with a 95° F requirement will set their test target temperature at 100° F. For these reasons, the petitioners' recommendation of a "160±5° F" test temperature is rejected.

The RMA and Goodyear petitions noted that the open-ended nature of the requirement "any temperature up to 95° F" appeared to require that tires be capable of attaining specified performance levels when tested at temperatures ranging from 95° F to subzero conditions. The RMA petition stated as its primary concern the possibility, under the UTQG system, that a tire could be conditioned at a higher temperature than that at which it is tested for temperature resistance. Such inconsistency could, the RMA suggested, result in the tire being underinflated during testing.

The agency has concluded that the ambient temperature specification "at 95° F" more accurately describes the fixed temperature which the agency intended to establish than does the open-ended provision "any temperature up to 95° F." Standard No. 119 and the UTQG Standards are, therefore, amended by substitution of a fixed temperature requirement of 95° in place of "any temperature up to 95° F."

To the extent that the RMA and Goodyear petitions for reconsideration are to granted by this amendment, the petitions are denied.

In accordance with departmental policy encouraging analysis of the impact of regulatory actions upon the public and private sector, the agency has determined that these actions will have no appreciable negative impact on safety. Since the modification of effective dates relieves a restriction, and the change in grading symbols will result in no new burdens, no additional costs will be imposed on manufacturers or the consumer. Withdrawal of the trend labeling proposal imposes no new costs not contemplated in issuance of the UTQG standards. The new temperature phraseology has absolutely no effect on the tire performance requirements, but will eliminate any possible ambiguity in the standards' meaning. For these reasons, the agency hereby finds that this notice does not have significant impact for purposes of the internal review.

Effective date: In view of the need for a fixed temperature requirement to allow tire performance testing to proceed, and the ongoing preparation by the industry for implementation of the UTQG system, the agency finds that an immediate effective date for the amendments to standard No. 119 and the UTQG regulation is in the public interest.

In consideration of the foregoing, the following amendments are made in parts 571 and 575 of Title 49, Code of Federal Regulations:

§ 575.104 [Amended]

1. Paragraphs (d)(2)(ii), (d)(2)(ii)(A), (d)(2)(ii)(B), and (d)(2)(ii)(C), and figures 1 and 2 of 49 CFR 575.104 are amended by substitution of the letters "A", "B", and "C" in place of the symbols "**", "*", and "0", respectively, wherever they appear.

2. Paragraphs (d)(1)(iii), (g)(2) and (g)(5) of 49 CFR 575.104 are revised to read as follows:

§ 575.104 Uniform tire quality grading standards.

(d) * * * (1) * * *

(iii) In the case of information required in accordance with § 575.6(a) to be furnished to the first purchaser of a new motor vehicle, other than a motor vehicle equipped with bias-ply tires manufactured prior to September 1, 1979, and a motor vehicle equipped with bias-belted tires manufactured prior to March 1, 1980, each manufacturer of motor vehicles shall as part of the information list all possible grades for traction and temperature resistance and restate verbatim the explanation for each performance area specified in figure 2. The information need not be in the format of figure 2, but it must contain a statement referring the reader to the tire sidewall for the specific tire grades for the tires with which the vehicle is equipped.

. . . . .

(g) * * *

(2) Condition the tire-rim assembly to a temperature of 95° F for at least 3 hours.

. . . . .

(5) During the test, including the pressure measurements specified in paragraphs (g)(1) and (g)(3) of this section, maintain the temperature of the ambient air, as measured 12 inches from the edge of the rim flange at any point on the circumference on either side of the tire at 95° F. Locate the temperature sensor so that its readings are not affected by heat radiation, drafts, variations in the temperature of the surrounding air, or guards or other devices.

. . . . .

§ 571.119 [Amended]

4. Paragraph S7.1.2. of 49 CFR 571.119 is amended to read as follows:

. . . . .

S7.1.2 The tire must be capable of meeting the requirements of S7.2 and S7.4 when conditioned to a temperature of 95° F for 3 hours before the test is conducted, and with an ambient temperature maintained at 95° F during all phases of testing. The tire must be capable of meeting the requirements of S7.3 when conditioned at a temperature of 70° F for 3 hours before the test is conducted.

. . . . .

The program official and lawyer principally responsible for the development of this rulemaking document are Dr. F. Cecil Brenner and Richard Hipolit, respectively.

(Sec. 103, 112, 119, 201, 203, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1401, 1421, 1423); delegation of authority at 49 CFR 1.50).)

Issued on October 23, 1978.

Title 50—Wildlife and Fisheries

CHAPTER VI—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 611—FOREIGN FISHING

Incremental Apportionment of Total Allowable Level of Foreign Fishing

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Amendment to regulations.

SUMMARY: Under the provisions of the preliminary management plan (PMP) for trawl fisheries and herring gillnet fishery of the eastern Bering Sea and Northeast Pacific, the National Marine Fisheries Service will continually monitor U.S. fisheries, periodically reevaluate U.S. processing and catching capacities and make appropriate changes. This amendment revises the total allowable level of foreign fishing for Pacific cod and sablefish in the Bering Sea. The effect of the amendment will be to make available the surpluses of U.S. capacity estimates to foreign nations desiring additional fishery allocations.

EFFECTIVE DATE: October 25, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Harry L. Rietze, Regional Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska 99801, telephone 907-586-7221.

SUPPLEMENTARY INFORMATION: On September 6, 1977, the National Marine Fisheries Service (NMFS) published a notice of availability of a supplement to the final environmental impact statement for the preliminary fishery management plan for the trawl fisheries and herring gillnet fishery of the eastern Bering Sea and Northeast Pacific (PMP) (42 FR 9298), which in section 2.3.1.1 stated that:

Periodic reevaluation of the U.S. capacity will be required to determine what portions of the reserves are required by the U.S. or what portions of the reserves and the stated U.S. capacities are surplus to U.S. needs. The NMFS will continually monitor U.S. fisheries, periodically reevaluate U.S. processing and catching capacities, and make appropriate changes in U.S. capacities, appropriate distribution of reserves, and appropriate increases in TALFF's. Notice of the incremental apportionments of the reserve between U.S. capacities and TALFF's will be published in the FEDERAL REGISTER within 7 days after the end of March, June, August, and October. Those publications will provide the mechanism for the Secretary of State to allocate to foreign nations those portions of U.S. capacities and reserves surplus to U.S. needs.

The Director of the Alaska regional office has reassessed the U.S. capacity to harvest sablefish and Pacific cod and has determined that domestic fishermen will harvest only 200 mt of sablefish and 1,000 mt of cod in the eastern Bering Sea and Northeast Pacific fisheries. In keeping with the intent of the Fishery Conservation and Management Act of 1976 (16 U.S.C. 1801 et seq.), as amended (FCMA), the resulting surpluses of U.S. capacity estimates should be made available to foreign nations desiring additional fishery allocations.

The Assistant Administrator for Fisheries (Assistant Administrator), for good cause, has determined: (1) That the U.S. capacity estimate of sablefish in the eastern Bering Sea and Northeast Pacific is reduced from 600 mt to 200 mt, and the resulting surplus of 400 mt of the sablefish reserve is added to the TALFF, and (2) that the U.S. capacity estimate of Pacific cod in the eastern Bering Sea, and Northeast Pacific is reduced from 1,500 mt to 1,000 mt, and the resulting surplus of 500 mt of the Pacific cod reserve is added to the TALFF.

Accordingly, the PMP is (further) amended as follows:

1. The original sablefish TALFF of 5,000 mt which appeared in table 18 (42 FR 9325), on February 15, 1977, for areas I, II, and III combined, was reduced to 2,400 mt with a 600 mt reserve in the supplemental environmental impact statement (42 FR 60945) on November 30, 1977. That 600 mt reserve is hereby reduced to 200 mt, and the TALFF for sablefish in areas I, II, and III combined is increased to 2,800 mt.

2. The original Pacific cod TALFF of 58,000 mt which also appeared in table 18 was reduced to 56,500 mt with a 1,500 mt reserve on November 30, 1977. That 1,500 mt reserve is hereby reduced to 1,000 mt, and the TALFF for Pacific cod is increased to 57,000 mt.

This amendment does not modify the optimum yield for those species established in the PMP, nor does it ad-

versely affect the conservation of the resource.

Notice of this amendment was pub-

1. These changes should have no impact on the U.S. sablefish or Pacific cod fisheries or on future supplies of

V 4 3 / 2 1 0 OCT 30 78

versely affect the conservation of the resource.

Notice of this amendment was published in the FEDERAL REGISTER on October 5, 1978 (43 FR 46054), and public comments were invited until October 15, 1978. No comments were received on the proposed amendment. This action involves no change in the optimum yield of species caught in the trawl fisheries and herring gillnet fishery of the eastern Bering Sea and Northeast Pacific and is consistent with the PMP for those fisheries.

The Assistant Administrator has determined that: (1) Because no preparation on the part of foreign fishermen is required to take advantage of the liberalized regulations, and (2) because without quick action the increased TALFF's may be unutilized or underutilized, and (3) because this action is not controversial, the 30-day waiting period required by the Administrative Procedure Act should be waived. The Assistant Administrator also finds:

1. These changes should have no impact on the U.S. sablefish or Pacific cod fisheries or on future supplies of these species;

2. This action does not require the preparation of an economic impact analysis under Executive Orders 11821 and 11949, and OMB Circular A-107; and

3. This action does not require a regulatory impact analysis. The Assistant Administrator has approved this document pursuant to delegation of authority from the Secretary.

Signed in Washington, D.C., this 23d day of October 1978.

WINFRED H. MEIBOHM,
Acting Executive Director, National Marine Fisheries Service.

§ 611.20 [Amended]

Amend 50 CFR 611.20(c) by revising Table I as follows:

Lines 24 and 31 are revised to read:

Species code	"Species"	"Ocean area"	"Amend TALFF (mt)"
006	Cod, Pacific	Aleutians and Bering Sea	57,000
007	Sablefish	Bering Sea	2,800

§ 611.93 [Amended]

Amend 50 CFR 611.93(b) by revising Table I as follows:

1. In column one, bottom line, add words "and revised" between the words "initial" and "TALFF."

2. In column seven headed "Sablefish, Areas I-III" strike "2,400," substitute "2,800."

In column nine headed "Pacific Cod," strike "56,500," substitute "57,000."

(16 U.S.C. 1801 et seq.)

[3510-22-M]

PART 652—SURF CLAM AND OCEAN QUAHOG FISHERIES

Adjustment to Effort Restrictions

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Notice of reduction of fishing time per week.

SUMMARY: This document is notice that 50 percent of the quota of surf clams for the fourth quarter of 1978 has been taken. Consequently, beginning October 30, 1978, all vessels engaging in the surf clam fishery in the fishery conservation zone will be restricted to 24 hours fishing time per week until December 31, 1978.

EFFECTIVE DATE: 12.01 (0001 hours), October 30, 1978, through 12 midnight (2400 hours), December 31, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. William G. Gordon, Regional Director, Northeast Region, National Marine Fisheries Service, 14 Elm Street, Gloucester, Mass. 01930, telephone 617-281-3600.

SUPPLEMENTARY INFORMATION: Regulations were published on February 17, 1978 (43 FR 6952), implementing the surf clam and ocean quahog fishery management plan. Section 652.7(a)(3) of those regulations provides that when 50 percent of the allowable quarterly quota of surf clams has been taken, the Regional Director, if he determines that the quarterly quota probably will be exceeded, may reduce the number of days per week during which fishing for surf clams will be permitted during that quarter. This reduction becomes effective upon publication in the FEDERAL REGISTER by the Assistant Administrator pursuant to § 672.7(a)(s) of the regulations. Accordingly, notice is hereby given that available information indicates that 50 percent (193,917 bushels) of the adjusted quarterly surf clam quota (387,834 bushels) established by § 652.6(a) of the regulations was taken by the end of the fishing day on October 25, 1978. The Regional Director has determined that the quota established for surf clams landed from the fishery conservation zone (FCZ) during the fourth quarter of 1978 (387,834 bushels) will be exceeded if the present level of effort continues for the remainder of the quarter. To reduce the likelihood that the quota will be exceeded during this period, or that a lengthy closure of the fishery would be required, vessels harvesting surf clams from the FCZ will be permitted to fish for surf clams only 24 hours per week beginning 12:01 (0001 hours), October 30, 1978. Vessels will be allowed to fish for surf clams during the periods indicated on their letter of authorization.

In light of the public comments received on this issue both in writing and expressed to the Regional Director, and the conservation needs of the surf clam stocks, the Assistant Administrator for Fisheries has determined that notice and public comment on the subject rulemaking is unnecessary, impractical, and contrary to the public interest.

Signed in Washington, D.C., on this the 24th day of October 1978.

(16 U.S.C. et seq. 1801.)

WINFRED H. MEIBOHM,
Acting Executive Director, National Marine Fisheries Service.

[3510-22-M]

CHAPTER VI—FISHERY CONSERVATION AND MANAGEMENT, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 652—SURF CLAM AND OCEAN QUAHOG FISHERIES

Adjustment of Quota

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Notice of Surf Clam Quota Adjustment.

SUMMARY: This notice revises the fourth quarter surf clam quota by increasing it. The increase of 37,834 bushels is made possible because the entire surf clam quota for the third quarter (July 1 through September 30), was not harvested.

EFFECTIVE DATE: October 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. William G. Gordon, Regional Director, Northeast Region, National Marine Fisheries Service, 14 Elm Street, Gloucester, Mass. 01930, telephone; 617-281-3600.

SUPPLEMENTARY INFORMATION: The surf clam quota of 523,394 bushels established for the third quarter of 1978 (July 1 through September 30) was not completely harvested. The Regional Director has determined that 485,560 bushels of surf clams were taken during the third quarter, creating a surplus of 37,834 bushels. Section 652.6(a)(2) authorizes the Regional Director to add the amount of shortfall to the next succeeding quarter.

Therefore, this regulation amends the quota of 350,000 bushels established for the fourth quarter of 1978 (October 1 through December 31), by adding 37,834 bushels. Pursuant to § 652.6(a)(2), the Assistant Administrator for Fisheries is publishing this adjustment of the fourth quarter quota.

Signed in Washington, D.C., this the 24th day of October 1978.

(16 U.S.C. 1801 et seq.)

WINFRED H. MEIBOHM,
Acting Executive Director, National Marine Fisheries Service.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[6720-01—M]

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 563]

[No. 78-561]

FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

Proposed Amendment Relating to Restrictions on Real Property Transactions With Affiliated Persons

OCTOBER 25, 1978.

AGENCY: Federal Home Loan Bank Board.

ACTION: Proposed rule.

SUMMARY: The proposed amendment would provide an exception to the current restrictions on real property transactions between FSLIC-insured institutions and affiliated persons. The exception would allow an insured institution or its subsidiary to sell a single-family dwelling to an affiliated person for use as his/her personal residence.

DATE: Comments must be received on or before November 27, 1978.

ADDRESS: Send comments to the Office of the Secretary, Federal Home Loan Bank Board, 1700 G Street NW., Washington, D.C. 20552. Comments available for the public inspection at this address.

FOR FURTHER INFORMATION CONTACT:

Harry W. Quillian, Associate General Counsel, Federal Home Loan Bank Board, 1700 G Street NW., Washington, D.C. 20552. 202-377-6440.

SUPPLEMENTARY INFORMATION: Section 563.41 of the regulations for the Federal Home Loan Bank System (12 CFR 563.41) currently prohibits an insured institution or its subsidiary from selling any interest in real property to an affiliated person. This regulation operates to prevent the conflict of interest and potential for abuse inherent in an insider's purchase of real porperty from an insured institution.

There is, however, a recurring sale situation in which the potential for harm from insider advantage appears slight; the current regulation, in this specific situation, extends protection where none appears necesssary or warranted. The proposed exception, closely aligned with those governing loans to affiliated persons, would remove this unnecessary restriction.

Therefore, the Bank Board proposes to except from the regulation cases involving the sale of real property to an affiliated person where the purchaser intends to use the property as his or her personal residence and the terms of sale are identical to those offered to the general public.

Accordingly, the Bank Board hereby proposes to amend §§ 563.41(b) and 563.45, form AR, item 6(e), Instruction 4 of the Rules and Regulations of the Federal Savings and Loan Insurance Corporation to read as set forth below.

1. Amend § 563.41(b) by adding new paragraph (5) as follows:

§ 563.41 Restrictions on real property transactions with affiliated persons.

. . . . . .

(b) *Restrictions.* * * *

. . . . . .

(5) a sale to an affiliated person of real eastate for use as a single family dwelling owned and occupied by the affiliated person as his/her principal residence, if the terms of sale are identical to those offered to the general public.

2. Amend § 563.45, form AR, item 6(e), instruction 4 by adding new paragraph (f) as follows:

§ 563.45 Disclosure.

. . . . . .

Form AR (Annual Report Form)

. . . . . .

Item 6

(e) *Transactions where certain persons have a material interest.*

. . . . . .

4. No information need be given in answer to this item as to any transaction where

. . . . . .

(f) The transaction involves a sale to an affiliated person of real estate for use as a single-family dwelling owned and occupied by the affiliated person as his/her personal residence, in accordance with § 563.45(b)(5).

(Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. 1725, 1726, 1730). Sec. 5A, 47 Stat. 727, as amended by sec. 1, 64 Stat. 256, as amended, sec. 17, 47 Stat 736, as amended (12 U.S.C. 1425(a), 1437). Sec. 5 48 Stat. 132, as amended (12 U.S.C. 1464). Reorg. Plan No. 3 of 1947, 172 FR 4891, 3 CFR, 1943-48 Comp., 1071.)

By the Federal Home Loan Bank Board.

J. J. FINN,
Secretary.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 18425]

AIRWORTHINESS DIRECTIVES

Short Brothers Ltd. Model SD3-30 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to adopt an Airworthiness Directive (AD) that would require replacement of life limited wing flap control rods on Short Bros. Ltd. Model SD3-30 airplanes. The manufacturer's fatigue testing program has established that failure of the control rods could occur if they are left in service beyond 10,000 flights. Failure of the rod could result in loss of aircraft control.

DATES: Comments must be received on or before December 29, 1978.

ADDRESSES: Send comments on the proposal in duplicate to:

Federal Aviation Administration, Office of the Chief Counsel, Attn.: Rules Docket (AGC-24) Docket No. 18425, 800 Independence Avenue SW., Washington, D.C. 20591.

The applicable service bulletin may be obtained from: Manager—Spares Support, Production Support Department, Short Bros. Ltd., P.O. Box 241—Airport Road, Belfast BT3 9DZ, Northern Ireland.

A copy of the service bulletin is contained in the Rules Docket, room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

D. C. Jacobsen, Chief, Aircraft Certification Staff, AEU-100, Europe, Africa and Middle East Region, Federal Aviation Administration, c/o American Embassy, Brussels, Belgium, telephone 513.38.30.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons. A report summarizing each FAA-public contact, concerned with the substance of the proposed AD, will be filed in the rules docket.

The FAA has determined that failure of the flap control rods, part Nos. SD3-45-1853 and SD3-45-1855 could occur on early production Short Bros. Ltd. Model SD3-30 airplanes if they are left in service beyond 10,000 flights. The life-limit has been established by the manufacturer as a part of its continuing fatigue testing program. Since this condition is likely to exist or develop on other airplanes of the same type design, an AD is being proposed which would require replacement of the original flap control rods with new rods of the same part number prior to accumulating 10,000 flights.

THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new airworthiness directive:

SHORT BROS. LTD. Applies to all Model SD3-30 airplanes, certificated in all categories.

Compliance is required prior to the accumulation of 10,000 flights or prior to the accumulation of 25 flights after the effective date of this AD, whichever occurs later, unless already accomplished; and thereafter at intervals not to exceed 10,000 flights.

To prevent fatigue failure of the flap control rods, replace flap control rods, part Nos. SD3-45-1853 and SD3-1855 located immediately aft of wing center section rear spar and part of inner flap mechanism, with new rods of identical part numbers in accordance with section 2, "Accomplishment Instructions" of Short Bros. Ltd. Service Bulletin SD3-27-14, dated April 28, 1978, or an FAA-approved equivalent. For purposes of complying with this AD, a flight is defined as one takeoff and one landing.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.85.)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582, March 8, 1978).

Issued in Washington, D.C., on October 20, 1978.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[14 CFR Part 75]

[Airspace Docket No. 78-SO-49] [1]

RESCISSION OF JET ROUTES

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to rescind J-81 which extends from Miami, Fla., to Orlando, Fla., and to realign a segment of J-20 to extend from Orlando to Fort Lauderdale, Fla., via the INT of Orlando 154° T and M and Fort Lauderdale 339° T and M radials. This action will eliminate a jet route that is no longer required and will designate a radar vector route as a jet route, thus reducing chart clutter and possible confusion in the use of the radar vector route.

DATES: Comments must be received on or before November 29, 1978.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Southern Region, Attention: Chief, Air Traffic Division, Docket No. 78-SO-49, P.O. Box 20636, Atlanta, Ga. 30320. The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket (AGC-24), Room 916, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-3715.

[1] Map filed as part of original.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before November 29, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the docket number of this NPRM. Persons interest in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to part 75 of the Federal Aviation Regulations (14 CFR Part 75) to realign J-20 from Orlando to Fort Lauderdale via the INT of Orlando 154° and Fort Lauderdale 339° radials, and to rescind J-81 which extends from Miami to Orlando. The route from Orlando to Fort Lauderdale via the BOYEL INT is presently used as a vector route. By designating this route as a jet route, the communication and flight planning time will be reduced. J-81 is no longer required. Rescission of J-81 will help to reduce chart clutter.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 75.100 of part 75 of the Federal Aviation Regulations (14 CFR Part 75) as republished (43 FR 714) as follows:

Under jet route No. 20, all after "Orlando, Fla., 306° radials; Orlando;" is deleted and

"INT Orlando 154° and Fort Lauderdale, Fla., 339° radials to Fort Lauderdale." is substituted therefor.

(Secs. 307(a), 313(a), 601 and 603, Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a), 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.85.)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582, March 8, 1978).

Issued in Washington, D.C., on October 20, 1978.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[16 CFR Part 13]

[File No. 782 3107]

Proposed Consent Agreement With Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Proposed consent agreement.

SUMMARY: This consent agreement would prohibit, among other things, a Pittsburgh, Pa. vocational school from misrepresenting the nature of its courses, the employment opportunities available to graduates, the amount of income graduates can expect to earn, and the school's relationship with the armed forces. The school would also be required to maintain records to substantiate claims it makes about its courses.

DATE: Comments must be received on or before December 29, 1978.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT:

Jeffrey Klurfeld, Federal Trade Commission, Washington, D.C. 20580, (202) 724-1526.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, as amended; 15 U.S.C. 46, and section 2.34 of the Commission's Rules of Practice, 16 CFR 2.34, notice is hereby given that the following consent agreement containing a consent order to cease and desist, having been filed with the Commission, has been placed on the public record for a period of sixty (60) days. The following Analysis to Aid Public Comment describes the terms of the consent agreement, and the allegations in the complaint which the agreement would settle.

Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with § 4.9(b)(14) of the Commission's Rules of Practice, 16 CFR 4.9(b)(14). Comments should be addressed to the Office of the Secretary, Federal Trade Commission, Washington, D.C. 20580.

Agreement Containing Consent Order To Cease and Desist

In the matter of Pittsburgh Technical Institute, Inc., a corporation.

The agreement hereinafter set forth, by and between Pittsburgh Technical Institute, Inc., a corporation, by its duly authorized officer, hereinafter sometimes referred to as proposed respondent, and its attorney, and counsel for the Federal Trade Commission, hereinafter sometimes referred to as complaint counsel, is entered into for the purpose of settling the matters alleged in the complaint issued by the Federal Trade Commission on August 31, 1978.

It is understood that proposed respondent enters into this agreement for settlement purposes only and does not admit that it has violated the law as alleged in the complaint.

It is further understood that this agreement is subject to the approval of the Federal Trade Commission. Proposed respondent understands that once the agreement is approved, it will be served upon it by the Commission and that thereafter the Commission may issue its decision containing the following order to cease and desist in disposition of the proceeding. Proposed respondent waives any right it may have to any other procedural steps in this matter, including the right to a hearing upon the allegations in the complaint.

Proposed respondent agrees that the record herein shall consist of the complaint and this agreement. This agreement will not become part of the record unless and until it is accepted by the Commission. If this agreement is accepted by the Commission it, together with the complaint, will thereupon be put on the public record and will be placed on the Commission's public record for a period of sixty (60) days, and such acceptance may be withdrawn by the Commission before decision and notice of order issuance in accordance with § 2.34 of the Commission's Rules of Practice. If the Commission accepts this agreement, the Commission may, without further notice to proposed respondent, (1) issue its decision containing the following order to cease and desist in disposition of the proceeding, and (2) make information public with respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified, or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. The Complaint may be used in construing the terms of the Order, and no

NATIONAL SYSTEMS CORP. AND NORTH AMERICAN CORRESPONDENCE SCHOOLS, T/A NORTH AMERICAN SCHOOL OF CONSERVATION, ETC., ET AL.

Consent Agreement With Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Provisional consent agreement.

SUMMARY: In settlement of alleged violations of Federal law prohibiting unfair acts and practices and unfair methods of competition, this provisionally accepted consent agreement, among other things, would dismiss the complaint against National Systems Corp. and individually named corporate officers, and require North American Correspondence Schools, a Newport, Calif. firm offering correspondence courses in various fields, to cease misrepresenting enrollment prerequisites; school accreditation; testimonials; and the potential earnings, employment opportunities, and demand for its graduates. Prior to contracting, customers would have to be furnished with information regarding the employment success of former students; informed of their right to cancellation and refund; and provided with a seven-day colling-off period. The order would additionally require the company to make restitution to former eligible students, in a specified manner; maintain records; and institute a surveillance program designed to ensure compliance with the terms of the order.

DATE: Comments must be received on or before December 26, 1978.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT:

Harvey Saferstein, Director, Los Angeles Regional Office, Federal Trade Commission, 11000 Wilshire Boulevard, Los Angeles, Calif. 90024, 213-824-7575.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46, and § 3.25(f) of the Commission's Rules of Practice (16 CFR 3.25(f), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, has been placed on the public record, together with material submitted to the Commission that is not exempt from public disclosure under the Freedom of Information Act, for a period of sixty (60) days. Public comment is invited. Such comments or veiws will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with section 4.9(b)(14) of the Commission's Rules of Practice (16 CFR 4.9(b)(140)).

In the matter of National Systems Corp., a corporation, North American Correspondence Schools, a corporation doing business as North American School of Conservation, North American School of Advertising, North American School of Drafting, North American School of Travel, North American School of Systems and Procedures, North American School of Recreation and Park Management, North American School of Surveying and Mapping, North American School of Accounting, North American School of Motorcycle Repair, North American School of Hotel-Motel Management, and John J. McNaughton, individually and as chairman of the board of directors of National Systems Corp., Maurice H. Sherman, individually and as an officer of North American Correspondence Schools, Eugene Auerbach and Richard C. Parsons, individually and as employees of North American Correspondence Schools, and Wallace O. Laub, individually and as a member of the board of directors of North American Correspondence Schools.

AGREEMENT CONTAINING ORDER TO CEASE AND DESIST

The Agreement herein, by and between North American Correspondence Schools, a corporation doing business as North American School of Conservation, North American School of Advertising, North American School of Drafting, North American School of Travel, North American School of Systems and Procedures, North American School of Recreation and Park Management, North American School of Surveying and Mapping, North American School of Accounting, North American School of Motorcycle Repair, and North American School of Hotel-Motel Management ("respondent"); and counsel for the Federal Trade Commission (the "Commission"), is entered into in accordance with the Commission's rules governing consent order procedure.

1. Respondent has been served with a copy of the Complaint in this proceeding, together with a form of Order.

2. Respondent admits all the jurisdictional facts set forth in said Complaint.

3. Respondent waives:

(a) Any further procedural steps;

(b) The requirement that the Commission's Decision contain a statement of findings of fact and conclusions of law; and

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the Order entered pursuant to this Agreement.

4. This Agreement shall not become a part of the official record of the proceeding unless and until it is accepted by the Commission. If this Agreement is accepted by the Commission, it, together with a copy of the Complaint issued herein, will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released; and such acceptance may be withdrawn by the Commission if comments or views submitted to the Commission disclose facts or considerations which indicate that the Order contained in the Agreement is inappropriate, improper, or inadequate.

5. This Agreement is for settlement purposes only and does not constitute an admission by respondent that the law has been violated as alleged in the Complaint.

6. This Agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 2.34 of the Commission's Rules, the Commission may, without further notice to respondent, issue its Decision containing the following Order to Cease and Desist in disposition of the proceeding and make information public in respect to the Complaint, the Answer filed thereto, and this Decision. When so entered, the Order to Cease and Desist shall have the same force and effect and may be altered, modified or set aside in the same manner within the same time provided by statute for other Orders. The

Order shall become final upon service. The Complaint may be used in construing the terms of the Order, and no agreement, understanding, representation, or interpretation not contained in the Order or the Agreement may be used to vary or contradict the terms of the Order.

7. Respondent has read the Complaint and Order herein, and understands that once the Order has been issued, it will be required to file one or more compliance reports that it has fully complied with the Order, and that it may be liable for a civil penalty in the amount provided by law for each violation of the Order after it becomes final.

8. It is agreed that the relief set forth herein fully satisfies any claims which the Commission has against North American Correspondence Schools under §§ 5 and 19 of the Federal Trade Commission Act, as amended, arising out of the acts and practices alleged in the Complaint. By its final acceptance of this Agreement, with such modifications, if any, which the parties may agree upon prior to said final acceptance, the Commission waives its right to commence a civil action under § 19 of the Federal Trade Commission Act, as amended, with respect to the acts and practices of North American Correspondence Schools alleged in the Commission's Complaint.

9. It is agreed that the Complaint will be dismissed with respect to: National Systems Corp., a corporation; John J. McNaughton, individually and as chairman of the board of directors of National Systems Corp.; Maurice H. Sherman, individually and as an officer of North American Correspondence Schools; Eugene Auerbach and Richard C. Parsons, individually and as employees of North Anmerican Correspondence Schools; and Wallace O. Laub, individually and as a member of the board of directors of North American Correspondence Schools.

ORDER I

It is ordered, That respondent North American Correspondence Schools (hereinafter "respondent"), a corporation and a subsidiary of National Systems Corp., doing business as North American School of Conservation, North American School of Advertising, North American School of Drafting, North American School of Travel, North American School of Systems and Procedures, North American School of Recreation and Park Management, North American School of Surveying and Mapping, North American School of Accounting, North American School of Motorcycle Repair, and North American School of Hotel-Motel Management, its successors and assigns, and respondent's officers, agents, representatives, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, promoting, offering for sale, sale or distribution of courses of instruction in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, as amended, do forthwith cease and desist from:

1. Representing, orally, visually, in writing or in any other manner, directly or by implication that:

(a) There is a need or demand of any size, proportion or magnitude for persons completing any of the courses offered by respondent in the field of conservation or any other field, or otherwise representing that opportunities for employment, or opportunities of any size, figure or number are available to such persons, or that persons completing any such courses will or may earn any specified amount of money, or otherwise representing by any means the prospective earnings of such persons, unless respondent possesses, and relies upon at the time such representation is made, a reasonable basis for such representation, which may consist of a statistically valid and reliable survey, a reliable study, a government or industry publication or other data or material which would be relied upon by an individual generally recognized as qualified as an expert on the subject matter pertaining to the representation in question.

(b) Completion of respondent's courses of instruction in conservation by itself will enable a person to secure employment in conservation from government agencies or private institutions, associations or groups; or, misrepresenting in any manner the importance or significance of any of the courses offered by respondent for qualifying any person for employment in any field with any firms.

(c) Graduates of respondent's conservation courses qualify for employment in conservation of a kind normally requiring a junior or senior college degree; or, misrepresenting in any manner that persons completing any of the courses offered by respondent will qualify for employment of a kind normally requiring a junior or senior college degree.

(d) Graduates of respondent's conservation courses qualify for employment in conservation irrespective of age, physical fitness, formal educational training or job experience; or, misrepresenting in any manner the employment qualifications for conservation or any other field.

(e) Respondent's School of Conservation, or any other school of respondent, is an accredited institution of higher learning, or that credits therefrom are transferable to accredited institutions of higher learning, unless such is the case.

(f) Respondent's courses of instruction in conservation, or in any other field, are approved or recommended by any persons, groups, or organizations knowledgeable in the field of conservation, or in any other field, unless said persons, groups, or organizations have in fact aproved or recommended such courses.

2. Representing orally, visually, in writing or in any other manner, including but not limited to the use of photographs or testimonials, the positions or salaries obtained by graduates of respondent's courses, or the employers who have hired such graduates, unless respondent possesses and relies upon at the time such representation is made, a reasonable basis for such representation, which may consist of a statistically valid and reliable survey, a reliable study, a government or industry publication or other data or material which would be relied upon by an individual generally recognized as qualified as an expert on the subject matter pertaining to the representation in question.

3. Altering or omitting any part of the text of a testimonial used in respondent's advertising in a manner which is likely to deceive members of the public as to the benefits to be obtained from any of the courses offered by respondent; or, misrepresenting in any manner the content of any testimonial used by respondent in any of its advertising.

4. Failing to state, clearly and conspicuously, in conjunction with any testimonial used in respondent's advertising, that it has been solicited, or it required, as part of the course work, or that the entity giving such testimonial has received remuneration therefor, when such is the case.

5. Failing to obtain, at least twenty-four (24) hours prior to an interview or visit in the home or residence of a prospective student, the prospective student's consent to an interview or visit in her (his) home; failing to disclose to said prospective student, at the outset of any telephone call or other contact intended to solicit her (his) consent to an interview or visit in her (his) home, that the purpose of the contact is to request an opportunity to interview or visit the prospective student at her (his) home, and that the purpose of such interview or visit would be to sell an enrollment in one of the courses of instruction offered by respondent.

6. Failing to disclose, in writing, clearly and conspicuously, prior to the signing of any contract, to any prospective student of any course of instruction offered by respondent, the following information in the format prescribed in Appendix A:

(a) the percentage of graduates from respondent's course available for employment and employed in the field to which the course relates, as shown by respondent's most recent survey conducted in the manner required or approved by the Veterans Administration (VA) pursuant to 38 U.S.C. §§ 1673 and 1723, as amended, and all applicable regulations and circulars; and

(b) the percentage of students in respondent's course during the time period covered by the VA survey used as the basis for the disclosure required by subparagraph (a) of this Paragraph who, after having commenced the course, cancelled their enrollment or were terminated by respondent before completion of the course.

Provided, however, That this Paragraph shall be inapplicable:

to North American Correspondence Schools at [address] not later than midnight of the

statement within ten (10) days. At the expiration of this ten (10) day period the school

ceived in the manner, or by the acts and practices, prohibited by this

offered by respondent herein is discussed or solicited in such person's home or residence a 5" x 7" card com-

ploma) and paid in full the tuition for the course, or (2) cancelled the course or was terminated by the school (for

V 4 3 / 2 1 0 C 3 0 7 8

Provided, however, That this Paragraph shall be inapplicable:

(a) to any school newly established by respondent in a metropolitan area or county, whichever is larger, where it previously did not operate a school, until such time as the school has graduated the number of students sufficient to conduct a valid survey under the applicable VA regulations and circulars and has conducted such a survey at the earliest possible time; or

(b) to any course newly introduced by respondent, until such time as the course has graduated the number of students sufficient to conduct a valid survey under the applicable VA regulations and circulars and has conducted such a survey at the earliest possible time; or

(c) to any school or course of instruction whose advertising or marketing does not entail employment or earnings claims.

However, in the instance of (a) and (b) above, the following statement, and no other, shall be made in lieu of the Appendix A Disclosure Form required by this Paragraph:

DISCLOSURE NOTICE

This school [or course, as the case may be] has not been in operation long enough to indicate what, if any, actual employment or salary may result upon graduation from this school [course].

7. (a) Contracting for the sale of any course of instruction in the form of a sales contract or any other agreement which does not contain in close proximity to the space reserved in the contract for the signature of the prospective student, in a clear and concise manner, and in type that is readable and conspicuous and not smaller than the majority of type used on the enrollment form, the following statement:

You may cancel this transaction at any time prior to midnight of the seventh (7th) calendar day after the date you sign this contract. See enclosed notice of cancellation form for an explanation of this right.

(b) Failing to furnish each prospective student, at the time she (he) is furnished the enrollment enclosed immediately after the enrollment contract, containing the following information and statements:

NOTICE OF CANCELLATION

You may cancel this transaction, without any penalty or obligation, within seven (7) calendar days from the date you sign the enrollment application.

If you cancel, any payments made by you under the contract or sale, and any note or other evidence of indebtedness executed by you will be returned within seven (7) calendar days following receipt by the school of your cancellation notice, and any security interest arising out of the transaction will be canceled. If you cancel, the school may ask that you return any materials delivered to you as part of the course, at the school's expense and risk.

To cancel this transaction, sign, date and mail or deliver this cancellation notice or any other written notice, or send a telegram to North American Correspondence Schools at [address] not later than midnight of the seventh (7th) calendar day after you sign the enrollment application. I hereby cancel this transaction.

.....
(Date)

.....
(Student's signature)

(c) Where a sales representative is involved in the enrollment process, failing to inform orally each prospective student of her (his) right to cancel at the time she (he) signs a contract or agreement for the sale of any course of instruction.

(d) Misrepresenting in any manner the prospective student's right to cancel.

(e) Failing or refusing to honor any valid notice of cancellation by a prospective student and, within seven (7) calendar days after the receipt of such notice, to: (i) refund all payments made under the contract or sale and return any check not cashed or deposited; (ii) return any goods or property traded in, in substantially as good condition as when received by respondent; (iii) cancel and return any note or other evidence of indebtedness executed by the prospective student in connection with the contract or sale.

(f) During the cancellation period described herein, respondent shall not initiate oral contacts with such contracting persons other than contacts permitted by this Paragraph, and such contracting persons shall not receive any written materials from respondent before expiration of the cancellation period.

(g) Provided, however, that the above statement and cancellation notice may be omitted from enrollment contracts signed during or following an interview or sales presentation in a person's home or residence by a sales representative if, in such circumstances, respondent complies with Paragraph I(8) of this Order.

8. Failing to mail, by certified mail return receipt requested, to each person who signs an enrollment contract during or immediately following an interview or sales presentation in her (his) home or residence by a sales representative, a form in duplicate, printed in bold face type of at least ten (10) points and containing the following language:

AFFIRMATION STATEMENT

The enrollment contract that you have signed with North American School of ——— on [date] to enroll in [name of course] is not effective or valid unless you first sign this statement and mail it to the school within ten (10) days from the time that you received this statement. You are free to cancel your enrollment and receive a full refund of any moneys you have paid to the school by not signing or mailing this statement within ten (10) days. At the expiration of this ten (10) day period the school has ten (10) business days to send you your refund (if any) and to cancel and return to you any evidence of indebtedness that you signed. However, if you want to enroll in the school, you should sign your name below and mail this statement to the school within ten (10) days. Keep the duplicate copy for your own records.

I want to enroll in the North American School of ———.

.....

9. Failing to inform orally each person interviewed or visited at home or in such person's residence by a sales representative, in the course of any such interview or visit, that any enrollment contract signed by such person will not be effective or valid unless and until that person signs and mails an Affirmation Statement that she (he) will receive from the school in the mail, and that she (he) is free to cancel the contract by simply not mailing the affirmation Statement back to the school within ten (10) days of its receipt.

10. Treating any enrollment contract signed during or immediately following an interview or sales presentation in a person's home or residence by a sales representative as effective or valid, or sending course materials to any such person, unless and until the Affirmation Statement described in Paragraph I(8) of this Order is signed and mailed within the prescribed affirmation period; failing to treat any such contract for which an Affirmation Statement is not signed and mailed within the affirmation period as null and void; and failing within ten (10) business days of the expiration of the affirmation period, to return all moneys received, and to cancel and return all evidence of indebtedness, relating to any such unaffirmed contract.

11. Representing orally through sales representatives that respondent accepts only qualified candidates for enrollment in its conservation courses; or misrepresenting in any manner the prerequisites or qualifications for enrollment in any of the courses of instruction offered by respondent.

12. Representing orally through sales representatives that respondent's qualification questionnaire is utilized to determine a prospective student's enrollment qualifications; or misrepresenting in any manner the purpose or use of respondent's qualification questionnaire.

13. Furnishing or otherwise placing in the hands of others the means and instrumentalities by and through which the public may be misled or deceived in the manner, or by the acts and practices, prohibited by this Order.

II

1. *It is further ordered,* That:

(a) Respondent herein deliver a copy of this Decision and Order to each of its sales representatives, and to all personnel having oral contact with prospective students of the courses offered by respondent or otherwise directly engaged in the promotion, offering for sale, sale or distribution of any course of instruction included within the scope of this Order;

(b) Respondent herein provide each person so described in subparagraph (a) of this Paragraph with a form returnable to the respondent clearly stating her (his) intention to conform her (his) business practices to the requirements of this Order; retain said statement during the period said person is so engaged; and make said statement available to the Commission's staff for inspection and copying upon request;

(c) Respondent herein inform each person described in subparagraph (a) of this Paragraph that respondent will not use or engage, or will terminate the use or engagement of, any such person unless such person agrees to and does file notice with the respondent that she (he) will conform to the provisions contained in this Order;

(d) If a person described in subparagrah (a) of this Paragraph will not agree to file the notice set forth in subparagraph (b) above with the respondent and conform to the provisions of this Order, the respondent shall not use or engage or continue the use or engagement of such person to promote, offer for sale, sell or distribute any course of instruction included within the scope of this Order;

(e) Respondent herein inform the persons described in subparagraph (a) above that the respondent is obligated by this Order to discontinue dealing with or to terminate the use or engagement of persons who continue on their own the deceptive acts or practices prohibited by this Order;

(f) Respondent herein institute a program of continuing surveillance designed to reveal whether the business practices of each said person described in subparagraph (a) above conform to the requirements of this Order;

(g) Respondent herein discontinue dealing with or terminate the use or engagement of any person described in subparagraph (a) above, who continues on her (his) own any act or practice prohibited by this Order as revealed by the aforesaid program of surveillance;

(h) Respondent herein maintain files containing all inquiries or complaints from any source relating to acts or practices prohibited by this Order, for a period of two (2) years after their receipt, and that such files be made available for examination by a duly authorized agent of the Federal Trade Commission during the regular hours of the respondent's business for inspection and copying.

2. *It is further ordered,* That respondent herein present to each interested applicant or prospective student immediately prior to the commencement of any interview or sales presentation during which the purchase of or enrollment in any course of instruction offered by respondent herein is discussed or solicited in such person's home or residence, a 5" x 7" card containing only the following language:

"You will be talking to a salesperson."

3. *It is further ordered,* That respondent forthwith distribute a copy of this Order to each of its operating divisions.

4. *It is further ordered,* That respondent shall, for a period of twenty (20) years following the effective date of this Order, notify the Commission at least thirty (30) days prior to any proposed change in the corporate structure of respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the respondent which may affect compliance obligations arising out of this Order.

5. *It is further ordered,* That should the Federal Trade Commission promulgate a Trade Regulation Rule governing the advertising or promotion of educational courses of instruction subject to this Order, provisions of this Order relating to practices, requirements or prohibitions covered by such a Rule shall automatically be replaced by the provisions of such a Rule relating to the same kind of practices, requirements or prohibitions, to the extent covered by such provisions, and any such replacement provisions of the Rule shall be incorporated in this Order, on the date such Rule becomes effective; but shall remain so incorporated only as long as the Rule remains effective. If such replacement provisions of the Rule should be rescinded or otherwise invalidated, the original provisions of the Order herein shall then become effective.

III

It is further ordered, That:

1. Within twenty-one (21) days after the date this Order is served on respondent (hereinafter "date of service"), respondent shall employ an independent contractor (hereinafter "contractor") acceptable to the Commission.

2. Within thirty (30) days after the date of service, respondent shall compile and give to the contractor a list containing the information described in this paragraph. For each person (a) whose enrollment application was accepted and registered by respondent for any of respondent's conservation courses (whether consisting of one hundred and fifty (150) or one hundred (100) lessons; hereinafter "the course") from March 26, 1973, through March 25, 1976, inclusive; and, (b) who, on or before June 30, 1977, either (1) completed all the lessons is the course (but need not have submitted the final examination or received a diploma) and paid in full the tuition for the course, or (2) cancelled the course or was terminated by the school (for academic reasons or because of lack of communication from the student for two hundred and twenty (220) days) after having completed at least ten (10) examinations in the course and paid at least the pro rata portion of the tuition attributable to ten (10) examinations (hereinafter "student"), respondent shall provide the following information:

(a) Name;

(b) Last known home address;

(c) Name and address of the nearest relative of the student, or if no such address appears in respondent's files relating to such student, then the student's last known business address if such information is contained in respondent's files relating to such student;

(d) Date student's enrollment application was accepted and registered by respondent;

(e) Date student completed the course (but need not have submitted a final examination or received a diploma) or date she (he) canceled the course or was terminated by respondent for academic reasons or for failure to communicate with respondent for two hundred and twenty (220) days;

(f) Total tuition paid by or for the student to respondent;

(g) Total amount of any tuition refund (s) paid by respondent to the student;

(h) Total amount of any deficiency in the student's pro rata tuition payments; and

(i) If known, the total amount of tuition paid on behalf of, or reimbursed to, the student by any government agency or department (other than the Veterans Administration), or any private business or other organization.

3. On the sixtieth (60th) day after the date of service, the contractor shall send, via first class mail, to each student at her (his) last known home address (as it appears in the section of the list referred to in Paragraph III (2) (b) of this Order) an envelope which bears the contractor's return address and contains:

(a) A copy of the letter and the Eligibility Questionnaire (hereinafter "questionnaire") in the language, manner, and form shown in Appendices B and C respectively; and

(b) A first class postage-prepaid envelope addressed to the contractor.

4. With respect to each student whose mailed inquiry (as described in Paragraph III (3)) is returned to the contractor undelivered or from whom no response has been received within one hundred and five (105) days after the date of service, then, within one hundred and ten (110) days after the date of service, the contractor shall do either of the following:

(a) Solicit a more recent address by sending via first class mail to the name and address of the student's nearest relative shown on the list referred to in Paragraph III (2), an envelope which bears the contractor's return address and contains both a letter in the language, manner, and form shown in Appendix D and a first-class, postage-pre-

paid envelope addressed to the contractor; if informed of an address more recent than

to the Commission a copy of each completed questionnaire in the con-

application for employment, and can reasonably identify the agency or employer to

ity of a student's responses to the questionnaire pursuant to the guide-

tains a letter in the language, manner, and form shown in Appendix G and a copy of this Order to the last known

2. In addition to all other reports required by this Order, respondent shall file with the Commission within sixty

paid envelope addressed to the contractor; if informed of an address more recent than the address referred to in Paragraph III(2), then within five (5) business days of receiving said address, the contractor shall send, via first class mail, to the student at said address, an envelope bearing the contractor's return address and containing the same letter, questionnaire, and return envelope referred to in Paragraph III(3) of this Order; or

(b) if there is no name or address of a relative on the list referred to in Paragraph III(2), send via first class mail to the student's last known business address if and as it appears on said list an envelope bearing the contractor's return address and containing the same letter, questionnaire, and return envelope that were previously mailed to the student's home address.

5. (a) On the one hundred and fifth (105th) day after the date of service, the contractor shall transmit to the Commission a list containing the name of each student whose envelope is returned to the contractor, or from whom no response has been received within one hundred and five (105) days after the date of service, and for whom neither a business address nor a relative's address appears on the list referred to in Paragraph III(2) of this Order;

(b) The Commission shall have up to one hundred and forty-five (145) days from the date of service to obtain and transmit to the contractor more recent addresses for the students whose names appear on the list described in Paragraph III(5)(a) of this Order;

(c) With respect to each student for whom a more recent address is transmitted to the contractor by the Commission pursuant to the provisions of Paragraph III(5)(b) of this Order, the contractor shall, on the one hundred and fiftieth (150) day after the date of service, send, via first class mail, an envelope which bears the contractor's return address and contains the questionnaire, letter, and return envelope described in Paragraph III(3) (a) and (b) of this Order.

6. If a student marks more than one answer to questions 2 and/or 4 (see appendix C) when at least one answer would be a qualifying answer and the other a disqualifying answer under the eligibility criteria enumerated in Paragraph III(8)(a-e) in this Order, and if the student is not disqualified on the basis of an answer to any other question, the contractor within five (5) days shall send to such student via first class mail an envelope bearing the contractor's return address and containing: A Letter as depicted in Appendix E; an unmarked copy of the question(s) to which the student had given inconsistent answers; and a first-class, postage-prepaid envelope addressed to the contractor.

7. On the two hundredth (200th) day after the date of service, the contractor shall transmit to respondent and to the Commission a copy of each completed questionnaire in the contractor's possession, custody, or control. No student whose questionnaire is received by the contractor after that day will be considered for eligibility.

8. Within two hundred and ten (210) days after the date of service, the contractor shall make an initial determination of those students who are "eligible class members" pursuant to the criteria enumerated in this Paragraph, Paragraph 9 and the guidelines set forth in Appendix H of this Order, and shall transmit to the respondent and to the Commission a list of the names of students who are eligible class members and the most current address for each such student known to the contractor. An "eligible class member" is defined as that person:

(a) Whose enrollment application was accepted and registered by respondent between March 26, 1973, and March 25, 1976, inclusive;

(b) Who enrolled in the course to enable her (him) to get a job in the conservation or ecology field;

(c) Who failed to obtain employment in the conservation or ecology field (1) within two (2) years after completing or terminating the course, or (2) by the date of receipt of the questionnaire, whichever is earlier;

(d) Who has demonstrated her (his) eligibility by her (his) responses to the questionnaire and any subsequent questionnaire or inquiry mailed by the contractor pursuant to the provisions of this Order; and the contractor has received all such responses before two hundred (200) days after the date of service; and

(e) Who falls into one of the following groups:

(1) That person who completed all the lessons in the course (but may not have submitted the final examination or been issued a diploma) and paid in full the tuition for the course on or before June 30, 1977, and made three (3) "meaningful attempts" (as defined in Paragraph 9) to find a job in the conservation or ecology field at least one (1) of which was either a written application for a job or a personal visit to an agency or employer for the purpose of finding a job; or

(2) That person who cancelled her (his) enrollment in the course or was terminated by respondent (for academic reasons or because of lack of any communication from the student for two hundred and twenty (220) days) and made at least two (2) "meaningful attempts" (as defined in Paragraph 9) to find a job in the conservation or ecology field.

9. For the purposes of Paragraph III(8)(e) (1) and (2), a "meaningful attempt" to find a job in the conservation or ecology field is one in which the student:

(a) Filed a written application for employment with an agency or other employer in the conservation or ecology field, and can reasonably identify the agency or employer to which, and the approximate date on which, application was made;

(b) Wrote to an agency or employer in the conservation or ecology field to inquire about employment but did not file a written application for employment, and can reasonably identify the agency or employer to which, and the approximate date on which, the inquiry was sent;

(c) Contacted the North American School of Conservation for assistance in getting a job in the conservation or ecology field;

(d) Telephoned an employer in the conservation or ecology field to inquire about the availability of a conservation or ecology job but failed to apply for a conservation or ecology job because (1) she (he) was ineligible to apply, (2) she (he) chose not to apply because the salary was too low, or (3) she (he) was advised that no jobs were available; and can reasonably identify the agency or employer contacted and the approximate date of the contact; or

(e) Personally visited an employer in the conservation or ecology field to inquire about the availability of a conservation or ecology job but failed to apply for a conservation or ecology job because (1) she (he) was ineligible to apply, (2) she (he) chose not to apply because the salary was too low, or (3) she (he) was advised that no jobs were available; and can reasonably identify the agency or employer contacted, the person to whom she (he) spoke (name, position, title, or description), and the approximate date of the contact.

10. Within two hundred and forty (240) days after the date of service, respondent shall present to the contractor any challenge respondent may wish to make to the contractor's initial determinations of eligibility, and respondent shall present to the contractor simultaneously with its challenge any substantiating materials in its possession, custody, or control. On the same day that respondent presents its challenges to the contractor, it shall transmit copies of all challenges and substantiating materials constituting said presentation to the Commission.

11. (a) Within two hundred and seventy (270) days after the date of service, the contractor shall, after considering all of respondent's challenges to the contractor's initial determinations of eligibility, make its final determinations of those students who are eligible class members. Also within two hundred and seventy (270) days after the date of service, the contractor shall notify respondent and the Commission simultaneously of said final determinations by transmitting to each of them a list of the names and most current addresses of students who are eligible class members, a report explaining the basis for upholding or denying any challenge(s) and copies of all materials considered by the contractor in upholding or denying any challenge.

(b) In resolving disputes about whether particular students are eligible class members, the contractor shall consider all evidence presented to it that bears on the appropriateness and reasonableness of the contractor's interpretation of responses to the questionnaire and all evidence presented to it that bears on the accuracy or veracity of a student's responses to the questionnaire pursuant to the guidelines set forth in Appendix H of this Order. The contractor's decision in upholding or denying any challenge shall be fair and impartial. No financial or other material benefit shall accrue to the contractor contingent upon the nature of the outcome of her (his) decision.

12. Within two hundred and eighty (280) days after the date of service, respondent shall file, under Rule 3.61(d) of the Commission's rules of practice, a written request for advice as to whether the contractor's final determinations of eligible class members comply with the terms of this Order. The Commission shall render its advice to respondent within three hundred and forty (340) days after the date of service.

13. Within three hundred and sixty-five (365) days after the date of service, respondent shall send, via registered mail, return receipt requested, an envelope to each of the eligible class members at the address on the list prepared by the contractor pursuant to Paragraph III(11)(a) of this Order containing a letter in the language, manner, and form shown in Appendix F and:

(a) In the case of a student who has completed all the lessons in the course (but may not have submitted the final examination or been issued a diploma) and paid in full the tuition for the course, on or before June 30, 1977, a check for the lesser of the following amounts:

(1) Two hundred dollars ($200.00);

(2) The amount by which the tuition paid by or for the student exceeds the amount paid on behalf of, or reimbursed to, the student by any government agency or department (other than the Veterans Administration) or any private business or other organization (excluding loans); or

(b) In the case of a student whose enrollment has been cancelled or terminated as described in Paragraph III(8)(e)(2) of this Order, a check for the lesser of the following amounts:

(1) One hundred dollars ($100.00);

(2) The amount by which the tuition paid by or for the student exceeds the amount paid on behalf of, or reimbursed to, the student by any government agency or department (other than the Veterans Administration) or any private business or other organization:

provided, however, that if the student had not paid for all of the lessons completed prior to cancellation or termination of her (his) enrollment, the pro rata cost of the lessons she (he) completed but for which she (he) had not paid will be deducted from the refund to which she (he) is otherwise entitled.

14. On the same day that respondent mails envelopes containing refund checks to eligible class members, pursuant to Paragraph III(13) of this Order, respondent shall send, via first class mail, an envelope which bears respondent's return address and contains a letter in the language, manner, and form shown in Appendix G and a copy of this Order to the last known home address of each student who was determined on the basis of her (his) returned questionnaire to be ineligible for a refund under Part III of this Order.

15. On the four hundred and twenty-fifth (425th) day after the date of service, respondent shall file with the Commission a report in writing setting forth the manner and form in which it has complied with Part III of this Order. This report shall contain a listing of the names, addresses, and refund amounts of those eligible class members whose refund checks were returned by the United States Postal Service.

16. The Federal Trade Commission shall have one hundred and eighty (180) days from the date of receipt of the report described in Paragraph III(15) of this Order to locate such eligible class members and to notify respondent of such members' most recent addresses, if found.

17. Within five (5) days of receiving the notification referred to in Paragraph III(16) of this Order, respondent shall send, via registered mail, return receipt requested, an envelope to each of the eligible class members whom the Federal Trade Commission has located, at the address found by the Commission, which bears respondent's return address and contains the letter and check referred to in Paragraph III(13) of this Order.

18. Any administrative costs incurred by respondent in carrying out the provisions of this Part III, including the cost of employing the contractor, shall be borne by respondent.

19. If any duty required to be performed on a certain day under Part III of this Order falls upon a non-business day, the respondent herein shall perform such duty on the next following business day.

IV

It is further ordered, That:

1. Respondent shall maintain records and documents for two (2) years after the filing of the report referred to in Paragraph III(15) of this Order, which demonstrate that respondent has complied with Part III of this Order, and shall further maintain all documents and other materials relied upon in compliance with Parts I and II of this Order for a period of two (2) years following the last date such documents and materials were relied upon. Such records, documents and materials demonstrating compliance with this Order shall be made available for inspection and copying by the Commission during normal business hours.

2. In addition to all other reports required by this Order, respondent shall file with the Commission within sixty (60) days after sevice upon it of this Order, a report, in writing, setting forth in detail the manner and form in which it has complied with Parts I and II of this Order.

Signed this——day of———1977.

NORTH AMERICAN CORRESPONDENCE SCHOOLS.

APPENDIX A

DISCLOSURE FORM

(Name of School)

EMPLOYMENT AND COMPLETION RECORD FOR (NAME OF COURSE) FOR THE PERIOD OF (DATE) TO (DATE)

1. (Name of school) recently conducted a survey, pursuant to regulations of the Veterans Administration,* of students who graduated from the (name of course) between (date) and (date). (Number) questionnaires were mailed; (number) were returned. The survey shows that among the graduates who responded to the questionnaire, (percentage of graduates available for employment actually obtained jobs in the (name of field) or a related field.

2. (Percentage) of the students who enrolled in (name of course) between (date) and (date) completed the course; (percentage) of the students who enrolled in that period cancelled their enrollment or were terminated by the school before completion of the course; (percentage) of the students who enrolled in that period are still studying the course.

APPENDIX B

(Name)
(Address)

DEAR (Name): In settlement of a proceeding brought by the United States Federal Trade Commission, North American Correspondence Schools has agreed to a Consent Order. Under that Order, North American is undertaking to make tuition adjustments for some former students of its Conservation course, if they meet certain requirements.The purpose of the enclosed questionnaire is to help determine your eligibility for such an adjustment.

You are under no obligation to fill out or send in this questionnaire. You must return this questionnaire, however, if you wish to have your eligibility determined. You may already have received and sent in other questionnaires relating to the Conservation course Those questionnaires were used for other purposes and do not contain sufficient information to determine your eligibility.

DIRECTIONS: Please read each question carefully and mark or fill in the appropriate spaces on the questionnaire enclosed. After you have answered every applicable question, take the questionnaire to a notary public. Sign and swear to the affidavit in the presence of the notary public, who will then notarize it. If you do not live within twenty-five (25) miles of a notary public, you may sign and swear,to the affirmation

*[The following disclaimer shall be inserted if the course has not been approved by the Veterans Administration: "This course is not approved for veterans benefits."]

before three persons who are not related to you and who are at least eighteen (18) years

——Other (please explain):

Name, title, position or description of person you spoke with:

However, if there is not a Notary Public within twenty-five (25) miles of the place you live, you may sign the Affirmation in

APPENDIX D

adjustment for certain former students in its Conservation courses.

The Order of the Commission contains the provisions identifying the class of per-

before three persons who are not related to you and who are at least eighteen (18) years of age, each of whom must attest that he or she has witnessed your signing of the Affirmation statement.

If you decide to send in this questionnaire, you must follow the directions and answer all questions which apply to you completely and truthfully to the best of your knowledge. Questionnaires which are incomplete or improperly filled out could result in the loss of eligibility. Please keep in mind that you can be exposed to criminal penalties if you knowingly give false information.

Please return the completed, signed, and notarized (or witnessed) questionnaire in the enclosed stamped addressed envelope. You should fill out and mail in this questionnaire no later than [insert day 30 days after contractor mailed questionnaire]. If you should misplace the envelope provided, please mail your questionnaire to [insert contractor's name and address].

APPENDIX C

ELIGIBILITY QUESTIONNAIRE

Please type or carefully print your answers.

_____

Name Address

1. Did you enroll in the North American School of Conservation? ——Yes ——No

2. What was the MOST IMPORTANT reason why you enrolled? (MARK ONE BOX ONLY. Be sure to read all of the alternatives below before marking *the one* that applies to you.)

——Primarily to increase my knowledge and further my education.
——Primarily to enable me to get a job in the conservation or ecology field.
——Primarily to get a promotion in my present job.
——Primarily to help me decide if I wanted to go into the conservation or ecology field.
——Primarily to enhance my enjoyment of the outdoors.
——Other (please explain)
_____
_____
_____

3. Generally speaking, were you satisfied with the course? ——Yes ——No ——Somewhat satisfied, but not entirely.

4. If you *completed* the course, skip this question. If you did *not* complete the course, please give the MOST IMPORTANT reason why you did not complete the course. (MARK ONE BOX ONLY. Be sure to read all of the alternatives below before marking *the* one that applies to you.)

——Primarily because I could no longer afford the course for financial reasons.
——Primarily because I changed my career goal.
——Primarily because I became convinced that the course would not help me get a job in the conservation or ecology field.
——Primarily because I did not have enough time to study or I found the course materials too difficult.
——Primarily because I was drafted or enlisted in the military service.
——Primarily because I went to college or other schooling.
——Primarily because I married, started a family, or stopped taking the course for other personal reasons, such as illness or relocation.
——Other (please explain):
_____
_____
_____

5. Did you try to get a job in the conservation or ecology field? ——Yes ——No (If no, skip to question 8.)

6. (a) Please list as many agencies or employers that you can recall where you filled out or submitted a *written application* for employment in the conservation or ecology field and the approximate date of your application. (If you need more space, please use the back of this page or add more pages.)

(e) Did you contact North American School of Conservation for assistance in getting a job? ——Yes ——No
If yes, approximately when? _____

7. Did you get a job in the conservation or ecology field within 2 years of completing or dropping out of the course? ——Yes ——No

8. (a) Did any private business or other organization, or any government agency or department other than the Veterans Administration, pay any of the tuition for the course in which you enrolled? (Do not include any loan which you have repaid, are repaying, or are obligated to repay.) ——Yes ——No

(b) If yes, how much of your tuition was paid by each private business, or organization, or government agency or department? (Do not include any loan which you have repaid, are repaying, or are obligated to repay.) Amount $_____

In order for you to be eligible for any tuition adjustment, you must, after completing the questionnaire, sign the following Affidavit in the presence of a Notary Public. However, if there is not a Notary Public within twenty-five (25) miles of the place you live, you may sign the Affirmation in the presence of three (3) witnesses who are not related to you and who are eighteen (18) years of age or older.

Also, in order for you to be eligible for any tuition adjustment, you must mail us the completed questionnaire promptly. Please mail the questionnaire by [insert date 30 days after contractor mailed questionnaire]. If you misplace the enclosed postage-prepaid envelope, you should mail the completed questionnaire to [insert contractor's name and address].

WARNING: It is a federal crime for anyone to knowingly and willfully make a false, fictitious, or fraudulent statement or representation in any matter within the jurisdiction of any department or agency of the United States. (18 U.S.C. 1001.)

APPENDIX D

(Name)
(Address)

DEAR (Name): Pursuant to an Order of the Federal Trade Commission, agreed to by this company, you are requested to provide us with the last known address of [insert name of student].

It is believed that this person was a student in the North American School of Conservation between 1973 and 1976. The Federal Trade Commission has determined that it is necessary to collect information from certain North American Conservation students to implement the terms of an Order which, among other things, requires the company to make tuition adjustments for certain students, possibly including the person named above.

If you know the current address of the person named above, please write it in the place provided at the bottom of this page and return it to us in the enclosed postage prepaid envelope as soon as possible, but *not later than* [insert date representing the one hundred and thirtieth (130) day after the date of service].

Your cooperation will be appreciated.

Sincerely,

.....
(current address of person listed above)

APPENDIX E

(Name)
(Address)

DEAR (Name): This letter relates to the questionnaire about your enrollment in the North American School of Conservation which you recently returned to us. We cannot evaluate your response because you marked more than one answer to Question[s] [2 and/or 4]. In order for us to evaluate your response you must return the enclosed copy of Question[s] [2 and/or 4] with ONLY ONE answer marked under [that, those] question[s]. You may not receive a tuition adjustment unless you mark ONLY ONE answer to [the, each] question.

Select the ONE answer for Question(s) [2 and/or 4] that best applies to you. You are reminded that your answer[s] must be truthful to the best of your knowledge. Although your response to this inquiry need not be notarized or witnessed, you can be subjected to the same criminal penalties for an untruthful answer as you would be for untruthful answers to the Eligibility Questionnaire itself.

Your answer, on the enclosed copy of Question[s] [2 and/or 4] must be mailed to us not later than [insert date representing the earlier of the twenty-first (21st) day after contractor mails this letter or the one hundred and ninetieth (190) day after the date of service]. If you misplace the enclosed postage-prepaid envelope, mail your answer[s] in an envelope addressed to [independent contractor's address].

Enclosures.

APPENDIX F

(Name)
(Address)

DEAR (Name): Persuant to a Consent Order issued by the Federal Trade Commission, the North American School of Conservation has agreed to make a partial tuition adjustment for certain former students in its Conservation courses.

The Order of the Commission contains the provisions identifying the class of persons eligible for adjustments, and the procedures for making adjustments. (You may obtain a copy of the Order without charge by writing to the Federal Trade Commission, Public Reference Branch, Room 130, Washington, D.C. 20580. Refer to National Systems Corp., et al., Docket No. 9078.)

In accordance with the provisions of the Order, it has been determined that you are entitled to a tuition adjustment of $———. A check for this amount is enclosed.

NORTH AMERICAN SCHOOL OF CONSERVATION.
By_____.

APPENDIX G

IMPORTANT NOTICE

Pursuant to an Order of the Federal Trade Commission issued on ———, the North American School of Conservation agreed to make a partial tuition adjustment for certain former students in its Conservation courses. The Order of the Commission contains provisions identifying the class of persons eligible for adjustments and the procedures for making adjustments.

In accordance with Part III of the Order, it has been determined, based upon your responses to the "Eligibility Questionnaire," that you are not eligible for an adjustment. A copy of this Order is enclosed.

NORTH AMERICAN SCHOOL OF CONSERVATION.
By_____.

APPENDIX H

INSTRUCTIONS TO INDEPENDENT CONTRACTOR

Respondent North American Correspondence Schools (NACS) shall require the independent contractor referred to in Part III of the Order to comply with the following instructions:

Determination of Eligible Class Members

The contractor shall receive the responses to the Appendix C Eligibility Questionnaire. From these responses, the contractor will determine all eligible class members, and, supplemented by NACS's records, the amount of refund to which each member is entitled, pursuant to the terms of Part III of this Order. All references regarding question numbers refer to the questions on the Appendix C Eligibility Questionnaire.

a. Vocational Intent Requirement. By checking the second response to question 2, the respondent to the questionnaire shall have met the requirement that she (he) enrolled in a NACS conservation course to enable her (him) to get a job in the conservation or ecology field. The contractor shall evaluate any answers to the sixth response to question 2 in order to make a reasonable determination as to whether the respondent to the questionnaire met this requirement. If the respondent to the questionnaire checks two or more responses, one of which is a qualifying answer and one or more others is (are) disqualifying answer(s), and the respondent is not disqualified on the basis of an answer to any other question, then the contractor shall follow the procedure set forth in Paragraph III(6) of the Order. That is, within five (5) days after receiving the questionnaire, the contractor

shall send, via first class mail, an envelope to the student, bearing the contractor's

but failed to apply for a conservation or ecology job because (1) she (he) was ineligi-

ducted from the refund to which she (he) would otherwise be entitled.

The proposed Consent Order has been placed on the public record for 60 days for

such refunds, the student must also complete an eligibility questionnaire and have:

FOR FURTHER INFORMATION CONTACT:

V 43/210 OCT 30 78

shall send, via first class mail, an envelope to the student bearing the contractor's return address and containing (a) a letter in the language, manner and form shown in Appendix E to the Order; (b) a copy, from an unanswered questionnaire, of that question or those questions to which the student had given inconsistent answers in her (his) first response; and (c) a first class postage-prepaid envelope addressed to the contractor.

b. Question 3. The contractor shall ignore the answers to question 3 in her (his) initial determination of eligibility.

c. Dropouts. Question 4 is to be answered only by those who did not complete NACS's conservation course. By checking the third response to question 4, the respondent to the questionnaire shall have met the requirement that the reason for not completing the course was that she (he) did not believe the course would help in getting employment in the conservation or ecology field. The contractor shall evaluate any answers to the eighth response to question 4 in order to make a reasonable determination as to whether the respondent to the questionnaire met this requirement. If the respondent to the questionnaire checks a qualifying answer and one or more disqualifying answer(s), but is not otherwise disqualified on the basis of an answer to any other question, then the contractor shall follow the procedure set forth in Paragraph III(6) of the Order. That is, within five (5) days after receiving the questionnaire, the contractor shall send, via first class mail to the student, an envelope bearing the contractor's return address and containing (a) a letter in the language, manner and form shown in Appendix E to the Order; (b) a copy, from an unanswered questionnaire, of that question or those questions to which the student had given inconsistent answers in her (his) first response; and (c) a first class postage-prepaid envelope addressed to the contractor.

d. Meaningful Attempts To Find a Job. Those who completed NACS's course in conservation must have made three meaningful attempts to find a job in conservation or ecology at least one of which was either a written application or a personal visit. Those who did not complete said course must have made two meaningful attempts. An attempt may be made in person, in writing, or by telephone. A "yes" answer to question 6(e) establishes the fact of one meaningful attempt. In determining whether any other action or effort constitutes a meaningful attempt, the contractor shall be governed by the criteria set forth in Paragraph III(9) of the Order. That is, a meaningful attempt is one in which the student:

(a) Filed a written application for employment with an agency or other employer in the conservation or ecology field, and can reasonably identify the agency or employer to which, and the approximate date on which, application was made;

(b) Wrote to an agency or employer in the conservation or ecology field to inquire about employment, and can reasonably identify the agency or employer to which, and the approximate date on which, the inquiry was sent;

(c) Contacted the North American School of Conservation for assistance in getting a job in the conservation or ecology field;

(d) Telephoned an employer in the conservation or ecology field to inquire about the availability of a conservation or ecology job but failed to apply for a conservation or ecology job because (1) she (he) was ineligible to apply, (2) she (he) chose not to apply because the salary was too low, or (3) she (he) was advised that no jobs were available; and can reasonably identify the agency or employer contacted and the approximate date of the contact; or

(e) Personally visited an employer in the conservation or ecology field to inquire about the availability of a conservation or ecology job but failed to apply for a conservation or ecology job because (1) she (he) was ineligible to apply, (2) she (he) chose not to apply because the salary was too low, or (3) she (he) was advised that no jobs were available; and can reasonably identify the agency or employer contacted, the person to whom she (he) spoke (name, position, title or description), and the approximate date of the contact.

A student who completed the course must have provided a total of at least three (3) acceptable responses under these criteria to questions 6(a) through 6(e) of the Eligibility Questionnaire, of which at least one (1) must have been an acceptable response under these criteria to question 6(a) or 6(c).

A student who did not complete the course must have made two (2) meaningful attempts to find a job; thus, such student must have provided a total of at least two (2) acceptable responses under these criteria to questions 6(a) through 6(e) of the questionnaire.

e. Obtained Employment. A student who obtained employment in the conservation or ecology field within two (2) years after completing, cancelling or being terminated from the course is not eligible for a tuition refund. Therefore, any student who answered "yes" to question 7 shall be deemed ineligible.

f. Out-of-Pocket Payments for Tuition. In determining the amount of refund to which an eligible class member is entitled, the contractor shall be guided by the provisions of Paragraph III(13) of the Order. Where an eligible class member's tuition was paid by a private business or organization or by a state or federal agency (other than the Veterans Administration) in whole or in part, that member shall not receive an amount greater than the amount not paid for by such business, organization or agency. To determine the amount of such tuition assistance an eligible class member received, the contractor shall contact NACS for any records it may have indicating the nature and amount of such assistance. If NACS does not have such records, then the contractor may refer to the response to question 8 of the questionnaire in determining the amount to be paid to the eligible class members.

If NACS's records indicate that an eligible class member had not paid for all of the lessons completed prior to cancellation or termination of her (his) enrollment, the contractor shall deduct from the refund to which the student is otherwise entitled the pro rata cost for the lessons she (he) competed but for which she (he) had not paid. Thus, for example, if a student had enrolled in the one hundred (100) lesson course with a total tuition cost of five hundred dollars ($500.00), and had completed sixty (60) lessons (for which the pro rata cost would be $300.00), but paid only two hundred and fifty dollars ($250.00) in tuition, that student would have fifty dollars ($50.00) deducted from the refund to which she (he) would otherwise be entitled.

g. Affidavit and Affirmation Forms. If a questionnaire is not properly sworn or witnessed, the contractor shall photostat and promptly return the original questionnaire to the respondent of the questionnaire along with new Affidavit and Affirmation forms and the following notice:

"We are returning your questionnaire because you did not properly sign it. Enclosed is a new Affidavit which you must sign before a notary public. *But* if you live more than twenty-five (25) miles from the nearest notary public, then sign the enclosed Affirmation before three witnesses (spouse and relatives don't count). Please sign the proper form and mail it along with the questionnaire within 2 weeks to (*name and address*). If you fail to do so, you will be ineligible for a tuition adjustment."

If respondent challenges the eligibility of a student initially determined to be eligible on the ground that the student signed before three witnessess rather than before a notary public notwithstanding the fact that the student lives within twenty-five (25) miles of a notary public, and respondent furnishes evidence that the student in fact lives within twenty-five (25) miles of a notary public, the contractor shall photostat and promptly return the original questionnaire to the student along with a new Affidavit and the following notice:

"We are returning the questionnaire because you did not properly sign it. Since you live within twenty-five (25) miles of a notary public, you should have signed the Affidavit before a notary public rather than the Affirmation before three witnesses. Enclosed is a new Affidavit which you must sign before a notary public. Please sign it and mail it along with the questionnaire within 2 weeks to (*name and address*). If you fail to do, you will be ineligible for a tutition adjustment."

h. Resolution of challenges. In resolving challenges to the contractor's initial determinations of eligibility, the contractor shall be governed by the provisions of Part III(11)(b) of the Order. That is, the contractor shall consider all evidence presented to it that bears on the appropriateness and reasonableness of the contractor's interpretation of responses to the questionnaire and all evidence presented to it that bears on the accuracy or veracity of a student's responses to the questionnaire. Such evidence may include, inter alia, (1) evidence that the student has answered a question on the questionnaire in a manner inconsistent with the student's answer or answers to a previous questionnaire or inquiry, (2) evidence that the student did not in fact file a written application or otherwise contact an agency or employer listed on the questionnaire, and (iii) the student's failure to have the questionnaire notarized or affirmed in compliance with the questionnaire's instructions. The contractor's decision in upholding or denying any challenge shall be fair and impartial. No financial or other material benefit shall accrue to the contractor contingent upon the nature of the outcome of her (his) decision.

ANALYSIS OF PROPOSED CONSENT ORDER TO AID PUBLIC COMMENT

The Federal Trade Commission has accepted an Agreement to a proposed Consent Order from North American Correspondence Schools.

The proposed Consent Order has been placed on the public record for 60 days for reception of comments by interested persons. Comments received during this period will become part of the public record. After 60 days, the Commission will again review the Agreement and the comments received and will decide whether it should withdraw from the Agreement or make final the Agreement's proposed Order.

THE COMPLAINT

The Complaint named as respondents National Systems Corp., North American Correspondence Schools, John T. McNaughton, Maurice H. Sherman, Eugene Auerbach, Richard C. Parsons, and Wallace O. Laub, all doing business in Newport Beach, Calif. It alleged that respondents violated section 5 of the Federal Trade Commission Act in connection with the offering for sale of vocational school correspondence courses by misrepresenting the availability of and the demand for jobs in the fields for which respondents purport to train their students; the potential salary range and entry level of available jobs; and the purpose of the sales persons' calls or solicitations. In addition, the Complaint alleged that respondents failed to disclose such material facts as the schools' dropout and job placement rate.

THE PROPOSED CONSENT ORDER

The proposed Consent Order prohibits North American Correspondence Schools alone from representing without substantiation: That there is a need or demand for persons completing any of respondent's courses; that opportunities for employment of any size are available to such persons; or that persons completing any such courses will or may earn any specified amount of money. It also prohibits respondent from making any representations about the salaries or positions obtained by graduates of respondent's courses, unless respondent possesses and relies upon a reasonable basis for the representations. The proposed Consent Order further prohibits respondent from misrepresenting: The value of any of respondent's courses in qualifying any person for employment in any field; the employment qualifications for conservation or any other field; the content of any testimonial used by respondent in any of its advertising; the prerequisites or qualifications for enrollment in any of respondent's courses; the purpose or use of respondent's qualification questionnaire; and the opportunities of persons completing any of respondent's courses in obtaining employment normally requiring a junior or senior college degree.

In addition, respondent may not represent that credits from its schools are transferrable to accredited institutions of higher learning, unless such is the case. Respondent is also required to: State that any testimonial was solicited, required, or paid for, when such is the case; obtain, at least 24 hours in advance, a prospective student's consent to a sales interview; disclose information about the employment of graduates; and provide each student with a cancellation notice and a cooling-off period.

Finally, the proposed Order requires that respondent pay restitution to eligible students who enrolled in respondent's North American School of Conservation between March 26, 1973 and March 25, 1976 and who either graduated or dropped out by June 30, 1977. Qualified graduates are entitled to $200 each; drop-outs, $100. To be eligible for such refunds, the student must also complete an eligibility questionnaire and have:

(1) After paying in full and completing all the course lessons, made three "meaningful attempts" (as defined in the Order) to find a job in the conservation or ecology field, at least one of which was either a written job application or a personal visit to an agency or employer for the purpose of finding a job; or

(2) After completing at least 10 examinations and paying a pro rata portion of the tuition, canceled her (his) enrollment in the course (or had her (his) enrollment terminated by respondent) and made at least two "meaningful attempts" to find a job in the conservation or ecology field.

The purpose of this analysis is to facilitate public comment on the proposed Order and it is not intended to constitute an official interpretation of the Agreement and proposed Order or to modify in any way their terms.

CAROL M. THOMAS,
Secretary.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

[24 CFR Part 1917]

[Docket No. FI-4669]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for Minnehaha County, S. Dak.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in Minnehaha County, S. Dak. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the lobby of the Courthouse, Minnehaha County, S. Dak. Send comments to: Mr. Nils Aspaas, Chairman of the County Board of Commissioners of Minnehaha County, Dakota State Bank, Baltic, S. Dak. 57003.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for Minnehaha County, S. Dak. in accordance with section 119 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Big Sioux River	Downstream State Route 38.	1,289
	U.S. Route 16	1,293
	Chicago Northwestern RR. bridge.	1,301
	Burlington Northern RR. bridge.	1,307
	County Route 121	1,310
	State Route 38A	1,431
	Interstate Route 90	1,433
	County Route 130	1,440
Skunk Creek	U.S. Route 29	1,419
	Marion Rd	1,425
	U.S. Route 16	1,432
	County Route 139	1,442
	County Route 142	1,447

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Bruceville-Eddy, McLennan County, Tex.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Bruceville-Eddy, McLennan County, Tex.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the office of the Bruceville-Eddy Fire Department, Bruceville-Eddy, Tex.

Send comments to: Hon. Richard Relyea, Mayor of Bruceville-Eddy, P.O. Box 9, Eddy, Tex. 76524.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Bruceville-Eddy, McLennan County, Tex. in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Hoolia Creek	Upstream corporate limits.	687
	West frontage road (upstream).	667
	Downstream corporate limits.	667
Tributary to Hoolia Creek.	Upstream corporate limits.	677
	West frontage road (upstream).	673
	East frontage road (upstream).	672
	Old farm to Market Road 107 (upstream).	666
Tributary to Hoolia Creek.	Downstream corporate limits.	653
South Cow Bayou, Lusk Branch.	Upstream corporate limits.	583
	Centerline of Soil Conservation Service structure No. 5 (upstream).	583

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: OCTOBER 16, 1978.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Lehi, Utah County, Utah

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Lehi, Utah County, Utah.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, 51 North Center, Lehi, Utah. Send comments to: Hon. Kenneth Blaine Singleton, Mayor, city of Lehi, City Hall, 51 North Center, Lehi, Utah 84043.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Lehi, Utah, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Dry creek	300 West—80 ft*.	4,560
	200 West—50 ft*.	4,563
	400 North—50 ft*.	4,564
	100 West—70 ft*.	4,566
	500 North—90 ft*.	4,567
	600 North—90 ft*.	4,570
	U.S. Highway 91—40 ft*	4,581
	Union Pacific RR. Culvert—30 ft*	4,567
	Interstate 15—50 ft*.	4,593
	Frontage road—50 ft*.	4,594
Waste ditch diversion	Denver & Rio Grande RR.—50 ft*.	4,551
	400 West—50 ft*.	4,557
	300 West—70 ft*.	4,561
	200 West—30 ft*.	4,567
	600 North—59 ft*.	4,569
	U.S. Highway 91—50 ft*.	4,581

Source of flooding	Location	Depth, in ft above ground
Dry creek	At intersection of 200 East and 950 North (shallow flooding).	1
	At intersection of 200 East and Union Pacific RR. (shallow flooding)	1

*Upstream from centerline.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Windsor, Windsor County, Vt.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Windsor, Windsor County, Vt. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Town Office, 147 Main Street, Windsor, Vt. Send comments to: Mr. Raymond Morris, Chairman, Board of Selectmen, Town of Windsor, Town Office, 147 Main Street, Windsor, Vt. 05089.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Windsor, Vt. in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Connecticut River.	Central Vermont RR.—100 ft*.	324
	Cornish covered bridge—100 ft*.	324
Mill Brook	Central Vermont RR bridge—20 ft*	324
	Broken dam 340 ft upstream of Main St.—50 ft**	330
	20 ft*	341
	1st crossing Union St.—30 ft*	345
	2d crossing Union St.—20 ft*	349
	Mill pond dam—50 ft**	351
	Mill pond dam—20 ft*	387

*Upstream of centerline.
**Downstream of centerline.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Winlock, Wash., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Olequa Creek	Winlock-Vader Rd.—50 ft*.	271
	Walnut Ave.—70 ft*	279
	Fir St.—70 ft*	282

* Upstream of centerline.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: October 10, 1978.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Bear Creek	Upstream corporate limit	1,000
	Confluence of Tributary No. 1	1,000
	Confluence of Tributary No. 2	1,000
	Confluence of Tributary No. 3	1,000
	Downstream corporate limit	1,000
Tributary No. 1	Confluence with Bear Creek	1,000
	Upstream corporate limit	1,000
Tributary No. 2	Confluence with Bear Creek	1,000
	Upstream corporate limit	1,000
Tributary No. 3	Confluence with Bear Creek	1,000
	Upstream corporate limit	1,000

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128), and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: October 10, 1978.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determinations for the Village of Argyle, Lafayette County, Wis.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the village of Argyle, Lafayette County, Wis. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Village Clerk's Office, Argyle, Wis. Send comments to: The Honorable Robert Wenger, Village President, Village of Argyle, P.O. Box 246, Argyle, Wis. 53504.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the village of Argyle, Wis., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
East Branch Pecatonica River.	About 680 ft downstream of southern corporate limits.	799
	250 ft upstream of Milwaukee St.	800
	100 ft upstream of western corporate limits.	801

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128); and the Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: October 10, 1978.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Baraboo, Sauk County, Wis.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Baraboo, Sauk County, Wis.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Clerk's Office, Baraboo City Hall, 135 Fourth Street, Baraboo, Wis.

Send comments to: The Hon. E. A. Madalon, Mayor, City of Baraboo, Baraboo City Hall, 135 Fourth Street, Baraboo, Wis. 54913.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Baraboo, Wis., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Baraboo River	At eastern corporate limits.	818
	At Manchester St	819
	Just downstream of waterworks dam.	822
	Just upstream of waterworks dam.	825
	Just upstream of Circus World Museum Bridge.	827
	Just downstream of Oak St. dam.	830
	Just upstream of Oak St. dam.	834
	At South Boulevard Broadway.	835
	Just upstream of Second Ave.	838
	160 ft downstream of western corporate limits.	843
	Just downstream of Shaw St.	846

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Village of Cleveland, Manitowoc County, Wis.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the village of Cleveland, Manitowoc County, Wis. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Village Clerk's Office, Cleveland, Wis. Send comments to: The Honorable Ralph Kaiser, Village President, Village of Cleveland, Village Hall, Cleveland, Wis. 53015.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the village of Cleveland, Wis., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Lake Michigan	Just downstream of Chicago, Milwaukee, St. Paul & Pacific Railroad.	1,000
	Just upstream of Chicago, Milwaukee, St. Paul & Pacific Railroad.	1,000
	Just downstream of Wisconsin Central Railroad.	1,000
	Just upstream of Wisconsin Central Railroad.	1,000
	Just downstream of Main St.	1,000
	Just upstream of Main St.	1,000
	Just downstream of Chicago, Milwaukee, St. Paul & Pacific Railroad.	1,000
	Just upstream of Chicago, Milwaukee, St. Paul & Pacific Railroad.	1,000
	Just downstream of Wisconsin Central Railroad.	1,000
	Just upstream of Wisconsin Central Railroad.	1,000
	Just downstream of Main St.	1,000
	Just upstream of Main St.	1,000

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: October 10, 1978.

quired by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Casro Creek	Western corporate limit	706
	Just downstream from Church Ave.	710
	Just upstream from Church Ave.	713
	Just downstream from Ahnapee & Western RR.	714
	Northern corporate limit.	719

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: October 10, 1978.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Winkelman, Gila County, Ariz.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Winkelman, Gila County, Ariz. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Town Hall, Winkelman, Ariz. Send comments to: Hon. Richard Copetillo, Mayor, Town of Winkelman, Town Hall, P.O. Box 386, Winkelman, Ariz. 85292.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Winkelman, Ariz., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Gila River	Intersection of Front St. and Hewes Ave	1,934
	Intersection of 2d St. and Stevenson Ave.	1,938
	Intersection of 6th St. and Valencia Ave.	1,942

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: October 10, 1978.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Audubon, Audubon County, Iowa

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Audubon, Audubon County, Iowa. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, Audubon, Iowa. Send comments to: The Honorable Jay Dee Mindenhall, Mayor, City of Audubon, 1004 Grandview Drive, Audubon, Iowa 50025.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Audubon, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Bluegrass Creek	1,800 ft downstream from Southside Ave.	1,286
	Just downstream from Southside Ave.	1,289
	100 ft upstrem from Southside Ave.	1,290
	Just upstream from Market St.	1,291
	Just upstream from Chicago Rock Island & Pacific RR.	1,292
	Just downstream from South St.	1,296
	Just upstream from West Broadway St.	1,299
	Northwestern corporate limits.	1,305

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Clive, Polk County, Iowa

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Clive, Polk County, Iowa. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, Clive, Iowa. Send comments to: Mr. Tom Reinhard, City Administrator, City of Clive, City Hall, Clive, Iowa 50053.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Clive, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entitles. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Walnut Creek	Just upstream of 73 St	832
	Just downstream of Chicago, Milwaukee & St. Paul RR.	833
	Just upstream of Chicago, Milwaukee & St. Paul RR.	835
	Just downstream of 86th St.	837
	Just stream of 86th St	839
	4,400 ft upstream of 86th St.	841
	1,600 ft upstream of 100th St.	854
	Just downstream of 114th St.	861
	West corporate limits	864
North Walnut Creek.	450 ft downstream of University Ave.	833
	Just upstream of University Ave.	834
	At North corporate limits.	837

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: October 16, 1978.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Ida Grove, Ida County, Iowa

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Ida Grove, Ida County, Iowa.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, Ida Grove, Iowa.

Send comments to: The Honorable Theodore E. Murphy, Mayor, City of Ida Grove, 301 Main Street, Ida Grove, Iowa 51445.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Ida Grove, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Maple River	Western corporate limits.	1,214
	400 ft downstream of U.S. Highway 59 and State Highway 175.	1,215
	50 ft upstream of U.S. Highway 59 and State Highway 175.	1,216
	1,400 ft upstream of U.S. Highway 59 and State Highway 185.	1,218
	3,000 ft upstream of U.S. Highway 59 and State Highway 175.	1,220
	Northern corporate limits.	1,222
Badger Creek	Western corporate limits.	1,214
	Downstream side of Rohwer St.	1,221
	30 ft upstream from 5th St.	1,228
	Upstream side of 7th St.	1,232
	Upstream side of South Main St.	1,236
	Southern corporate limits.	1,247
	1,250 ft upstream of southern corporate limits at limit of flooding in community.	1,252
Odebolt Creek	Western corporate limit	1,215
	Upstream side of Moorehead Ave.	1,218
	Upstream side of Washington St.	1,220
	1,630 ft upstream of Washington St.	1,222
	Just upstream of golf course footbridge.	1,226
	200 ft upstream of country road.	1,228
	470 ft downstream of Chicago & Northwestern.	1,230
	Southeastern corporate limits.	1,234

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: October 16, 1978.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Linwood, Leavenworth County, Kans.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Linwood, Leavenworth County, Kans. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, Linwood, Kans. Send comments to: The Honorable Ronald Smith, Mayor, City of Linwood, Box 146, Linwood, Kans. 66052.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Linwood, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Stranger Creek	1,600 ft downstream of Bridge St. at southeastern corporate limits.	796
	1,500 ft upstream of Bridge St.	797
	2,600 ft upstream of Bridge St. at northern corporate limits.	798

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

ance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-

listed below for selected locations in the town of Midland, Allegany County, Md. These base (100-year)

Source of flooding	Location	Elevation in feet, national geodetic vertical

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations

V 43 / 210 OC 30 78

ance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Friendsville, Garrett County, Md. in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Youghiogheny River	Downstream corporate limits.	1,470
	Upstream of confluence with Bear Creek.	1,470
	2,700 ft upstream of confluence with Bear Creek.	1,479
	Upstream side of confluence with Minnow Creek.	1,483
	Upstream side of Maple St.	1,484
	Upstream side of U.S. Route 43.	1,492
	Upstream side of U.S Route 42.	[illegible]
Minnow Creek	Downstream confluence with Youghiogheny River.	1,485
	Upstream side of Water St.	1,487
	Upstream side of Blane Franz Rd.	1,505
Bear Creek	Downstream limit of study and confluence with Youghiogheny River.	1,470
	Upstream side of 2d Ave	1,496
	Upstream side of Old Selbysport Rd.	1,504
	Upstream side of U.S. Route 48.	1,523
	Upstream side of Maple St.	1,532

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Hudson, Middlesex County, Mass., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Assabet River	Upstream corporate limits	214
	Chapin Rd. (upstream)	211
	Confluence of Hoe Brook	209
	Houghton St. (upstream)	206
	Broad St. (upstream)	204
	Main St. (upstream)	201
	Cox St. (upstream)	200
	Downstream corporate limits.	196
Assabet Branch No. 3	Mary Chris Rd. (upstream).	201
	Cox St. (upstream)	204
Assabet Branch No. 4	Downstream corporate limits	193
	Boston & Maine RR. (upstream)	207
Fort Meadow Brook	Fort Meadow Reservoir	236
	Causeway St. (upstream).	236
	Shay St. (upstream)	201
	Lewis St. (upstream)	196
	Chestnut St. (upstream)	187
	Main St. (upstream)	185
Hog Brook	Confluence with Assabet River	209
	River St. (upstream)	213
	1,600 ft above River St	221
	2,000 ft above River St	235
Danforth Brook	Confluence with Assabet River	206
	Ansley St. (upstream)	220
	Packard St. (upstream)	222
	Lois St. (upstream)	226
	Lincoln St. (upstream)	248
	Upstream corporate limits.	264

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Holyoke, Hampden County, Mass.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Holyoke, Hampden County, Mass. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, Mayor's Office, Holyoke, Mass. Send comments to: Hon. Ernest E. Proulx, Mayor, City of Holyoke, City Hall, Holyoke, Mass. 01040.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Holyoke, Mass., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Connecticut River	Boston & Maine RR.—100 ft*.	68
	State Route 116 bridge—100 ft*.	73
	U.S. Route 202 bridge—100 ft*.	112
Tannery Brook	Meadowbrook Rd.—70 ft**.	286
	Meadowbrook Rd.—20 ft*.	292
	Access Rd.—20 ft*	295
	Knox Rd.—70 ft*	313
Broad Brook (lower)	Rock Valley Rd.—20 ft*.	227
	Southampton Rd.—100 ft**.	232
	Southampton Rd.—20 ft*.	236
	Ross Rd.—20 ft*	238
	Keys Rd.—20 ft*	244

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Chelmsford, Middlesex County, Mass.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Chelmsford, Middlesex County, Mass. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Town Hall, 1 North Road, Chelmsford, Mass. Send comments to: Mr. William R. Murphy, Chairman, Board of Selectmen, Town of Chelmsford, Town Hall, 1 North Road, Chelmsford, Mass. 01824.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Chelmsford, Mass., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
River Meadow Brook.	U.S. Route 3*	103
	Billerica Rd.-50 ft**	108

SURFACE COAL MINING AND RECLAMATION OPERATIONS

Appendix—Alluvial Valley Floors Technical Guidelines

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Extension of comment period.

SUMMARY: This notice extends the period for the submission of comments specified in the notice published August 25, 1978 (43 FR 38035), proposing technical guidelines for preliminary identification of alluvial valley floors. The comment period expired on October 23, 1978. Requests for an extension were received from the public at a hearing regarding the proposed guidelines held on October 13, 1978, in Denver, Colo. This extension of 9 days will permit the preparation and submission of more detailed comments by interested members of the public.

DATE: Comments must be received on or before November 1, 1978.

ADDRESS: Comments should be sent to the Regional Director, Office of Surface Mining Reclamation and Enforcement, Region V, 1823 Stout Street, Denver, Colo. 80202.

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Montana Sulfur Oxides Control Strategy; Announcement of Public Hearing

AGENCY: Environmental Protection Agency.

ACTION: Announcement of time and place of public hearing.

SUMMARY: Notice is hereby given that a public hearing to receive comments on regulations proposed to correct deficiencies in Montana's Implementation Plan will be held on Wednesday, November 29, 1978, at 9 a.m. in the Civic Center auditorium, 1340 Harrison Avenue, Butte, Mont. Copies of the proposed regulations (43 FR 40240, Sept. 11, 1978), are available by writing: EPA, Air and Hazardous Materials Division, 1860 Lincoln Street, Denver, Colo. 80295. The docket (8A-78-2) in this matter is available for inspection at the above address as well as EPA Headquarters, Central Docket Section, 401 M Street SW., Washington, D.C. 20460. Written comments may also be submitted in advance of the hearing to: EPA Hearing Officer, Office of Regional Counsel, 1860 Lincoln Street, Denver, Colo. 80295.

DATE: Written comments should be submitted on or before December 15, 1978. A public hearing on the proposed action will be held on Wednesday, November 29, 1978, at 9 a.m.

ADDRESSES: Written comments should be sent to: Regional Administrator, Environmental Protection Agency, Region VIII, 1860 Lincoln Street, Suite 900, Denver, Colo. 80295. A public hearing on the proposed regulation will be held at the Civic Center auditorium, 1340 Harrison Avenue, Butte, Mont.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 611]

FOREIGN FISHING

Proposed Increase of Optimum Yield and Incremental Apportionment of Total Allowable Level

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Notice of proposed amendment to regulations.

SUMMARY: Foreign fishermen did not harvest their total allocations of certain species allocated to them by the preliminary fishery management plan for the trawl fisheries and herring gillnet fishery of the eastern and Bering Sea and northeast Pacific (PMP) (42 FR 9298). Consequently, the Director of the Alaska Regional Office (Regional Director) has determined that, as a result of the underutilization, the optimum yields (OY's) of those species can be increased. The Regional Director has determined further that the increased OY should be apportioned between the total allowable level of foreign fishing (TALFF) and reserves.

DATES: Comments are invited until November 9, 1978.

ADDRESS: Send comments to the Assistant Administrator for Fisheries, National Marine Fisheries Service, Washington, D.C., 20235. Please mark "Bering Sea" on outside of envelope.

FOR FURTHER INFORMATION CONTACT:

Mr. Harry Rietze, Regional Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska 99801, telephone: 907-586-7221.

SUPPLEMENTARY INFORMATION: The 1977 PMP for trawl fisheries in the Bering Sea (42 FR 9298) established TALFF's for 1977. The amended PMP for 1978 was developed in late 1977, on the assumption that the 1977 TALFF's would be fully utilized. However, this did not occur for all species. The following table depicts the extent of underharvesting in 1977:

[Metric tons]

Species	TALFF	Foreign catch[1]	Unharvested TALFF
Yellowfin sole	106,000	60,000	46,000
"Other flounders"	105,000	60,600	45,000
Pacific cod	56,500	31,500	25,000
Squid	10,000	8,400	1,600
"Other species (areas I, II, and III)	59,600	44,200	15,400

[1] Based on "best blend" estimates. TALFF's for other target species were almost completely taken.

Those species were underharvested in 1977, although biological data col-

[In metric tons]

"Species code"	"Species"	"Ocean area"	"Amended TALFF(mt)"

V 43 / 210 OC 30 78

Those species were underharvested in 1977, although biological data collected by the National Marine Fisheries Service indicates that the stocks could have been fished at a higher level. Consequently, the Regional Director proposes that the 1978 OY's be adjusted to reflect the underharvest, natural mortality, increase in weight of fish, and uncertainty as follows:

[In metric tons]

Species	OY increase
Yellowfin sole	20,000
"Other" flounders	20,000
Pacific cod	12,500
Squid	800
"Other" species (areas I, II, and III)	7,000

It is proposed that the increase in OY be apportioned among the TALFF, U.S. capacity, and reserves in the following manner:

[Metric tons]

Species	OY increase	TALFF increase	Reserve increase	U.S. capacity increase
Yellowfin sole	20,000	0	20,000	0
"Other" flounders	20,000	410	19,590	0
Pacific cod	12,500	1,570	10,930	0
Squid	800	170	630	0
"Other" species (areas I, II, and III)	7,000	0	7,000	0

Several factors support the proposed division of the OY increase. First, most of the reserve will not be taken, either by domestic or foreign fishermen. Most of the fishing in the Bering Sea is for pollock. Last year, although foreign fishermen harvested their full allocation of pollock, they generally harvested other species only incidental to the pollock fishery. The same situation is expected to occur this year. Thus, although large amounts of reserves are available, foreign fishermen are not expected to utilize them fully. U.S. harvest of these species is not anticipated. Although the reserves will probably go unused, their establishment will provide the National Marine Fisheries Service with some flexibility should other nations need additional allocations in order to harvest present allocations of primary target species.

The Assistant Administrator for Fisheries has determined that the 30-day "cooling-off period" required by the Administrative Procedure Act can be waived for the following reasons:

1. Discussion of the management plans for the Bering Sea groundfish fishery was on the public meeting notice (43 FR 30594) for the August 25-26 meeting of the North Pacific Fishery Management Council (Council).

2. This item was discussed at the public meeting of the Council on August 25-26.

3. This action will not disadvantage any party. The environmental impact is considered negligible and a "Negative Declaration" of environmental impact has been filed.

4. No time is required to adjust to the revised regulations that will result from this action.

Consequently, the Assistant Administrator has determined that this action be filed with the FEDERAL REGISTER as proposed regulations with a 15-day comment period.

Signed at Washington, D.C. this the 24th day of October 1978.

WINFRED H. MEIBOHM,
Acting Executive Director,
National Marine Fisheries Service.

§ 611.20 [Amended]

It is proposed to amend 50 CFR 611.20(c) by revising table I as follows:

1. Lines 24, 25, 33, 34, 36, and 37 as revised to read:

"Species code"	"Species"	"Ocean area"	"Amended TALFF(mt)"
006	Cod, Pacific	Aleutians and Bering Sea	[4]58,570
003	Flounders, other than yellowtail sole.	do	[5]139,410
002	Sole, yellowtail	Aleutians and Bering Sea	[6]106,000
001	Squid	do	[7]10,170
099	Other species	do	[8]93,600
080, 081, and 099	Armorheads, alfonsins, and other groundfish.	do	[9]2,000101

2. Footnotes 4+ are revised as follows:

[4]Does not include 11,930 metric tons held in reserve.
[5]Does not include 19,590 metric tons held in reserve.
[6]Does not include 20,000 metric tons held in reserve.
[7]Does not include 630 metric tons held in reserve.
[8]Does not include 7,000 metric tons held in reserve.
[9]The TALFF for armorheads, alfonsins, and other groundfish resources is subject to additional restrictions on total effort by foreign fishing vessels. No more than 50 vessel days of trawling and 50 vessel days of bottom longlining will be allowed in this fishery.

§ 611.93 [Amended]

Amend 50 CFR 611.93(b) by revising table I as follows:

1. In column 1, bottom line, add words "and revised" between the words "initial" and "TALFF."

2. In column 4 headed "Other flounders," strike "105,000," and substitute "139,410."

3. In column 9 headed "Pacific cod," strike "56,500," and substitute "58,070."

4. In column 12 headed "Squid," strike "10,000," and substitute "10,170."

GROUNDFISH OF THE GULF OF ALASKA

Fishery Management Plan Amendment; Proposed Implementary Regulations; Correction

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Correction to proposed rules.

SUMMARY: On October 6, 1978, a Notice of Proposed Rulemaking was published in the FEDERAL REGISTER (43 FR 46349), which would amend the Groundfish of the Gulf of Alaska management plan by increasing the quantity of certain species of fish in the "Joint-Venture" reserve. A table reflecting that change was inadvertently omitted by NOAA. That table is included in this correction.

FOR FURTHER INFORMATION CONTACT:

Mr. Harry L. Rietze, Regional Director, Alaska Regional Office, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska 99807, telephone: 907-586-7221.

SUPPLEMENTARY INFORMATION: Table 64 which appears in the FMP for Groundfish of the Gulf of Alaska on page 186 of the plan is amended. The amended table should be inserted on 43 FR 46351, between Table 62 which appears at the top of that page, and the amendments to the proposed regulations which appear in the middle of that page.

Signed in Washington, D.C., this the 24th day of October 1978.

WINFRED H. MEIBOHM,
Acting Executive Director,
National Marine Fisheries Service.

ACTION

COMPETITIVE NATIONAL VISTA GRANTS

Proposed Procedures

AGENCY: ACTION.

ACTION: Amendment to Proposed Notice of Competitive National VISTA Grants published October 5, 1978, at 43 FR 46153.

SUMMARY: The proposed notice set forth the competitive procedures under which applications for national VISTA grants will be accepted and reviewed in fiscal year 1979. It provided that to be eligible for consideration, an application must be prepared and submitted in accordance with the announcement and with forms, instructions, and program guidelines contained in the national VISTA grant application kit which was to be available on or after October 16, 1978. This amendment changes that date to November 13, 1978.

The notice also provided that applications are due by close of business December 16, 1978. This amendment changes that date to January 12, 1979.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

COMMITTEE ON AGENCY DECISIONAL PROCESSES

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that the meeting of the Committee on Agency Decisional Processes of the Administrative Conference of the United States, scheduled (43 FR 47586) for October 31, 1978, in the office of Ginsburg, Feldman & Bress, 1700 Pennsylvania Avenue NW., Suite 300, Washington, D.C., has been rescheduled for 10 a.m., Wednesday, November 1, 1978, at the same location.

The Committee will meet to discuss its draft recommendation based on Prof. Michael Baram's study of the use of cost-benefit analysis in Federal regulation.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify this office at least 2 days in advance. The Committee Chairman, if he deems it appropriate, may permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Committee before, during, or after the meeting.

For further information concerning this meeting contact David M. Pritzker, 202-254-7065. Minutes of the meeting will be available on request.

Dated: October 24, 1978.

RICHARD K. BERG,
Executive Secretary.

DEPARTMENT OF AGRICULTURE

Agriculture Marketing Service

PACKERS AND STOCKYARDS: ST. JOHNS HORSE AUCTION, ASHLEY, MICHIGAN, ET AL.

Proposed Posting of Stockyards

The Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards, Agriculture Marking Service, U.S. Department of Agriculture, has information that the livestock markets named below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 202), and should be made subject to the provisions of the Act.

MI—144: St. Johns Horse Auction, Ashley, Mich.
MI—143: Fenton Horse Sales, Inc., Fenton, Mich.
NC—150: Ashe Stockyards Co., Inc., Jefferson, N.C.
OK—198: Erin Springs Livestock Auction, Erin Springs, Okla.
TX—316: San Saba Cattle Auction, Inc., San Saba, Tex.

Notice is hereby given, therefore, that the said Chief, pursuant to authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), proposes to issue a rule designating the stockyards named above as posted stockyards subject to the provisions of the Act as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule, may do so by filing them with the Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards, Agriculture Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, by November 29, 1978.

All written submissions made pursuant to this notice shall be made available for public inspection at such times and places in a manner convenient to the public business (7 U.S.C. 1.27(b)).

Done at Washington, D.C., this 24th day of October, 1978.

EDWARD L. THOMPSON,
Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

Office of the Secretary

SEA GRANT REVIEW PANEL

Renewal

In accordance with the provisions of the Federal Advisory Committee Act, 5 U.S.C. APP., and the Office of Management and Budget Circular A-63 of March 1974, the Secretary of Commerce has determined that the renewal of the Sea Grant Review Panel is in the public interest in connection with the performance of duties imposed on the Department by law.

The Panel was first chartered in December 1976. Its purpose was to advise the Secretary of Commerce on broad policy with respect to the establishment and operation of a national network of sea grant colleges and programs.

The Panel's advice has been useful to the Office of Sea Program on: (1) Institutional programs and major individual project proposals for support and (2) plans and policies governing execution of the national sea grant program. The statutory Sea Grant Review Panel will continue to review and advise the Secretary with respect to: (1) Contracts and grants; (2) national sea grant projects; (3) sea grant colleges and regional consortia, (4) sea grant fellowships; and (5) such other matters as the Secretary refers to it for review and advice.

The Panel will also continue with a balanced representation of 15 members. The Chairperson will be elected from the membership. The Panel will operate in compliance with the provisions of the Federal Advisory Committee Act.

Copies of the Panel's revised charter will be filed with appropriate committees of the Congress, and the Library of Congress.

Inquiries or comments may be addressed to the Committee Liaison Officer, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, Washington, D.C. 20235.

Dated: October 20, 1978.

ELSA A. PORTER,
Assistant Secretary for Administration.

[3510-17-M]

ADVISORY COMMITTEE ON FEDERAL POLICY ON INDUSTRIAL INNOVATION, ET AL.

Meetings

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1976), notice is hereby given that the Advisory Subcommittee on Federal Procurement and Direct Support of R. & D. the Advisory Subcommittee on Regulation of Industry Structure and Competition, and the Public Interest Advisory Subcommittee will each hold a series of four meetings between November 1, 1978 and December 15, 1978. The exact time and place for each of these meetings have not yet been set because the subcommittees have not yet been organized. We are giving notice of these meetings now, however, because it may be necessary to hold one or more of these meetings within less than fifteen days from the date upon which a subcommittee is organized.

The work plan for the Domestic Policy Review on Industrial Innovation contains deadlines that require the subcommittees to begin their work promptly. For example, each of the first two subcommittees named above must produce a printed report of its recommendations by December 15, 1978. Once the time and place for the meeting of a subcommittee have been set, this information will be available from Mr. John R. Heiser, Room 3868A, U.S. Department of Commerce Building, Washington, D.C., telephone 202-377-3648. In addition we expect to publish in the FEDERAL REGISTER notices supplementary to this one specifying the time and place of subcommittee meetings as they are set. We expect all of these subcommittees to be organized by November 3, 1978.

The Advisory Subcommittees on Federal Procurement and Direct Support of R. & D., and on Regulation of Industry Structure and Competition, were established to examine the impact of Federal policy in each of the

above areas on industrial innovation and to identify and evaluate policy op-

tact the Scientific Advisory Board Secretariat at 202-697-4648.

grieved party within the time period specified in the regulations, the party

V 4 3 / 2 1 0 C 3 0 7 8 C

above areas on industrial innovation and to identify and evaluate policy options.

The Public Interest Advisory Subcommittee was established to examine the impact of Federal policy on industrial innovation from the point of view of the general public and to review the reports produced by the following five Advisory Subcommittees:

Advisory Subcommittee on Economic and Trade Policy.
Advisory Subcommittee on Environment, Health, and Safety Regulations.
Advisory Subcommittee on Federal Procurement and Direct Support of R. & D..
Advisory Subcommittee on Patents and Information.
Advisory Subcommittee on Regulation of Industry Structure and Competition.

The agenda for each of these meetings is:
1. Refine the scope of work.
2. Discuss the views and orientation of the subcommittee members.
3. Define the final report.

The meetings will be open to public observation. A limited number of seats will be available to the public and press on a first-come, first-serve basis.

Copies of minutes and materials distributed will be made available for reproduction, following certification by the Subcommittee Chairman, in accordance with the Federal Advisory Committee Act, at the U.S. Department of Commerce, Central Reference and Records Inspection Facility, Washington, D.C. 20230.

Further information may be obtained from Mr. John R. Heizer, Room 3868A, U.S. Department of Commerce, Washington, D.C., telephone 202-377-3648.

Dated: October 26, 1978.

[3128-01-M]

DEPARTMENT OF ENERGY

ISSUANCE OF PROPOSED DECISIONS AND ORDERS BY THE OFFICE OF HEARINGS AND APPEALS

October 2 Through October 6, 1978

Notice is hereby given that during the period October 2 through October 6, 1978, the Proposed Decisions and Orders which are summarized below were issued by the Office of Hearings and Appeals of the Department of Energy with regard to Applications for Exception which had been filed with that Office.

Amendments to the DOE's procedural regulations, 10 CFR, Part 205, were issued in proposed form on September 14, 1977 (42 FR 47210 (September 20, 1977)), and are currently being implemented on an interim basis. Under the new procedures any person who will be aggrieved by the issuance of the Proposed Decision and Order in final form may file a written Notice of Objection within ten days of service. For purposes of the new procedures, the date of service of notice shall be deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. The new procedures also specify that if a Notice of Objection is not received from any aggrieved party within the time period specified in the regulations, the party will be deemed to consent to the issuance of the Proposed Decision and Order in final form. Any aggrieved party that wishes to contest any finding or conclusion contained in a Proposed Decision and Order must also file a detailed Statement of Objections within 30 days of the date of service of the Proposed Decision and Order. In that Statement of Objections an aggrieved party must specify each issue of fact or law contained in the Proposed Decision and Order which it intends to contest in any further proceeding involving the exception matter.

Copies of the full text of these Proposed Decisions and Orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B-120, 2000 M Street, NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1 p.m. and 5 p.m., e.d.t., except federal holidays.

MELVIN GOLDSTEIN,
Director, Office of Hearings and Appeals.

OCTOBER 24, 1978.

PROPOSED DECISIONS AND ORDERS

C.L. Morris, Inc., Oil City, La., DEE—0032, crude oil

On October 4, 1977, C.L. Morris, Inc., filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart O. The Application for Exception, if granted, would permit C.L. Morris to sell the crude oil produced from the Fred K. Conn Lease located in Catahoula Parish, La. at exempt prices. On October 1, 1973, the Department of Energy issued a Proposed Decision and Order denying the Application for Exception.

Mid-Michigan Truck Services, Inc., Kalamazoo, Mich., DXE—1147, motor gasoline

Mid-Michigan Truck Services, Inc. filed an Application for exception from the provisions of 10 CFR 211.25. The exception request, if granted, would permit Mid-Michigan to receive refined petroleum products directly from the Gulf Oil Corp. rather than through Gulf's designated substitute supplier, the Bestrom Oil Corp. On October 5, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted.

Forty-seven petitioners, various cities and States, natural gas liquids and natural gas liquid products

Forty-seven petitioners filed a total of 307 individual Applications for Exception from the provisions of 10 CFR 212.165 in which they requested an extension of exception relief previously granted to those firms for individual gas processing plants. The exception relief which had previously been approved was scheduled to expire on or before September 30, 1978. On September 21, 1978, the DOE published amendments to 10 CFR 212.165. 43 Fed. Reg. 42984 (September 21, 1978). These amendments become effective on November 1, 1978, and provide that natural gas processors will be permitted to pass through automatically most of their increased non-product costs incurred in the production of natural gas liquids and natural gas liquid products at natural gas processing plants. In view of the regulatory change the DOE determined that a continuation of exception relief for those firms will not be necessary after October 31, 1978. However, the DOE determined that a limited extension of exceptions that expire on September 30, 1978, should be approved for the period of one month prior to the effect date of the amended regulation. Consequently, the DOE issued a Proposed Decision and Order with respect to each of the petitioners' natural gas processing plants which extended, for the period October 1 through October 31, 1978, the exception relief that was most recently granted to each of the petitioners.

Federal Energy Regulatory Commission

[Docket No. ES79-51]

BALTIMORE GAS & ELECTRIC CO.

Notice of Application

OCTOBER 20, 1978.

Take notice that on October 16, 1978, Baltimore Gas & Electric Co. (applicant), a corporation organized under the laws of the State of Maryland, with its principal business office at Baltimore, Md., and is qualified to do business in the States of Maryland and the Commonwealth of Pennsylvania, filed an application with the Federal Energy Regulatory Commission, pursuant to section 204 of the Federal Power Act, seeking an order authorizing the issuance of up to $200 million of unsecured promissory notes and commercial paper.

Proceeds from the borrowings will be used to provide funds for current corporate transactions and to provide interim funds for its construction program, which is expected to total $173 million in 1979 and $180 million in 1980.

Any person desiring to be heard or to make any protest with reference to said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, Washington, D.C. 20426, in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before November 3, 1978. The application is on file and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER79-25]

CENTRAL LOUISIANA ELECTRIC CO., INC.

Notice of Proposed Surplus Capacity Sale

OCTOBER 23, 1978.

Take notice that on October 16, 1978, Central Louisiana Electric Co., Inc. (CLECO) tendered for filing a Letter Agreement dated September 20, 1978 covering the sale of 100 MW of surplus capacity to Gulf States Utilities Co. (GSU) for twelve (12) months beginning November 15, 1978. CLECO states that GSU desires to purchase this capacity for its system needs and CLECO agrees to provide this capacity and that the Agreement will be beneficial to both systems. CLECO further states that deliveries will be made over existing interconnection facilities.

According to CLECO copies of this filing have been sent to GSU.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8, 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before November 3, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER79-171]

CENTRAL MAINE POWER CO.

Notice of Filing

OCTOBER 20, 1978.

Take notice that Central Maine Power Co. (Central Maine) on October 13, 1978, tendered for filing a rate schedule, capacity and related energy by Central Maine to Public Service Co. of New Hampshire (Public Service). Central Maine states that said sale is for a period commencing on the date of commercial operating of William F. Wyman Unit No. 4, scheduled for November 15, 1978 through Octover 31, 1979.

According to Central Maine a copy of the filing was served on Public Service and the Maine Public Utilities Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426 in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ER79-20]

THE CONNECTICUT LIGHT & POWER CO.

Notice of Application

OCTOBER 20, 1978.

Take notice tht on October 13, 1978, the Connecticut Light & Power Co. (CL&P) tendered for filing a proposed rate schedule with respect to Transmission Agreement dated September 1, 1978 between (1) Hartford Electric Light Co. (HELCO) and Western Massachusetts Electric Co. (WMECO) and (2) Holyoke Gas & Electric Department (HG&E).

CL&P states that the transmission Agreement provides for a transmission service to HG&E during the period from November 1, 1978 to October 31, 1981.

CL&P further states that the transmission charge rate is a monthly rate equal to one-twelfth of the annual average cost of transmission service on the NU system determined in accordance with § 13.9 (Determination of Amount of Pool Transmission Facilities (PTF) Costs) of the New England Power Pool (NEPOOL) Agreement and the uniform rules adopted by the NEPOOL Executive Committee, multiplied by the number of kilowatts which HG&E is entitled to receive.

CL&P requests an effective date of November 1, 1978, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 30, 1978. Protests will be con-

CONSUMERS POWER CO.

Notice of Filing

OCTOBER 20, 1978.

Take notice that on October 13, 1978, Consumers Power Co. (Consumers Power) tendered for filing an amendment (denoted Supplemental Agreement No. 10 and Supplement H) to an existing Interconnection Agreement, as amended, between Consumers Power and Northern Michigan Electric Cooperative, Inc., Wolverine Electric Cooperative, Inc., the City of Grand Haven, Mich., and the City of Traverse City, Mich. (MMCPP members).

Consumers Power requests an effective date of November 1, 1973, and therefore requests waiver of the Commission's notice requirements.

Consumers Power states that Supplement Agreement No. 10 and Supplement H provide for the transmission by Consumers Power, when conditions on Consumers Power's system permit, of 10 megawatts of capacity and associated energy provided by the Detroit Edison Co. to the MMCPP members.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

DELMARVA POWER & LIGHT CO.

Notice of Application

OCTOBER 20, 1978.

Take notice that on October 10, 1978, Delmarva Power & Light Co. (Applicant), incorporated under the laws of the State of Delaware, with its principal business office at Wilmington, Del., and is qualified to do business in the States of New Jersey, Pennsylvania and Maryland, filed an application pursuant to section 204 of the Federal Power Act, seeking authorization to issue up to $63 million of unsecured promissory notes and commercial paper from time to time prior to December 31, 1979, with a final maturity date of not later than December 31, 1980.

The short-term debt will be used to provide funds for interim financing of its construction program and other corporate purposes.

Any person desiring to be heard or to make any protest with reference to said Application should on or before November 1, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's Rules of Practice and Procedures (18 CFR 1.8 or 1.10). The Application is on file and available for public inspection.

[Docket No. ER79-24]

THE DETROIT EDISON CO.

Notice of Proposed Tariff Change

OCTOBER 23, 1978.

Take notice that The Detroit Edison Co. on October 17, 1978, tendered for filing an Interconnection Agreement between the City of Detroit and The Detroit Edison Co. Detroit Edison indicates that the agreement replaced in its entirety an interconnection agreement dated July 1, 1939, amended May 4, 1959 between the parties. The agreement is being tendered for filing at this time so that it may serve as a basis for comparison with a new agreement dated October 1, 1978, tendered for filing with this Commission on September 1, 1978 being Docket No. ER78-612, according to Detroit Edison.

Detroit Edison requests waiver of the Commission's notice requirements to allow for an effective date of October 1, 1971.

The proposed changes were desirable by the parties to assure adequate and fair compensation for services rendered and to encourage the availability of the full range of services, according to Detroit Edison.

Any person desiring to be heard or to protest said Agreement should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before November 3, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this Agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. RI78-82]

EDWIN L. COX

Notice of Amended Petition for Special Relief

OCTOBER 20, 1978.

Take notice that on July 14, 1978, as amended October 2, 1978, Edwin L. Cox (Petitioner), 3800 First National Bank Building, Dallas, Tex. 75202, filed a petition for special relief in Docket No. RI78-82 pursuant to § 2.76 of the Commission's Rules. Petitioner now seeks authorization to charge $1.68 per Mcf (Petitioner's original request was for $1.80 per Mcf) for the sale of gas to Southern Natural Gas Company from the Bradish Johnson No. 5 Unit Well in the Magnolia Field, Plaquemine Parish, La. Petitioner states that this well commenced the production of dry gas in 1967 and ceased production in 1969. Petitioner estimates that by performing a workover on the well an additional 211,000 Mcf of gas can be produced, however, it is not economically feasible at the current contract price for the gas produced.

Any person desiring to be heard or to make any protest with reference to said petition should on or before November 14, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. ER76-816]

GULF STATES UTILITIES CO.

Order Approving Settlement Subject to Condition

Issued October 20, 1978.

On March 13, 1978, Gulf States Utilities Co. (Gulf States) filed with the Federal Energy Regulatory Commission [1] a Motion to Certify Settlement Agreement and Record to the Commission in the above designated docket. On March 16, 1978, the Presiding Administrative Law Judge certified the Settlement Agreement and the Record to the Commission for its consideration and determination.

Notice of the proposed settlement was issued on March 24, 1978, with comments due by April 14, 1978. On April 14, 1978, staff filed comments in support of the settlement. However, staff noted that certain language in the Availability/Applicability sections should be excluded from the rate schedules since these provisions may be unduly restrictive, anticompetitive and contrary to the public interest, the Commission approves the agreement subject to condition for the reasons set forth below.

On July 29, 1976, Gulf States tendered for filing Rate Schedule WSM "Other Electric Corporation for Resale," proposing an increase in rates for certain municipal customers,[2] and rate schedule WSC "Wholesale Power to Rural Electric Distribution Cooperatives" proposing an increase in rates for certain cooperative customers.[3] In addition the tendered rate schedules were proposed to become applicable to the then existing individual contracts between Gulf States and the members of the Sam Rayburn Dam Electric Cooperative Inc. (Sam Dam), although no service was being rendered under these contracts.[4]

Gulf States further proposed that Rate Schedule WSC superseded the existing contract between Gulf States and Cajun Electric Power Cooperative (CEPCO). Although CEPCO was not receiving power under their existing contract with Gulf States, it was estimated that the CEPCO points of delivery served by Gulf States would require power in excess of CEPCO's own generation in 1978.

By Order issued August 31, 1976, the Commission rejected application of the proposed Rate Schedule WSC to the existing coniracts between Gulf States and Sam Houston Electric Cooperative, and between Gulf States and Jasper-Newton Electric Cooperative, as these contracts did not permit unilateral rate changes. The Commission accepted for filing the proposed Rate Schedule WSM to become effective subject to refund as to certain municipals on December 1, 1976, and accepted for filing the proposed Rate Schedule WSC for certain cooperative customers to become effective on September 2, 1976, subject to refund. The proposed rates were set for hearing.

Staff served Top Sheets on March 15, 1977, and settlement conferences were held. Testimony and exhibits were served by all parties and the hearing was set for November 8, 1977. Further negotiations on the morning of the hearing produced the settlement.

SETTLEMENT

The proposed settlement in Docket No. ER76-816 provides for a revenue level consistent with the cost of service in staff's revised Top Sheet and provides for an increase in resale revenues of $319,925 under Rate Schedule WSC to the rural electric cooperative customers, and $435,000 under Rate Schedule WSM to the municipal customers based on a test period for the 12 months ending December 31, 1975. The agreement provides for refunds to municipal customers for amounts collected over and above settlement rates, and allows the proposed rate increase as filed to the cooperative customers. The settlement rates would not result in an earned rate of return exceeding staff's recommended rate of 8.92 percent overall including 13.90 percent on common equity based on a common equity ratio of 33.17 percent.

The agreement further provides for a moratorium on increases in rates prior to April 1, 1979. Gulf States agrees that it will not use the Tax Adjustment Clause in Rate Schedules WSM and WSC as a basis for a change in rates absent a filing pursuant to § 35.13 of the Commission's rules and regulations. As noted in staff's comments filed April 17, 1978, the proposed Settlement Agreement includes language which restricts the customers' ability to resell power and energy furnished by Gulf States. Staff believes the language contained in the Availability/Applicability clauses may be unduly restrictive, anticompetitive, and contrary to the public interest.

DISCUSSION

We find that the settlement agreement between Gulf States and the named parties, in its totality, is neither unduly preferential nor unduly advantageous, and it establishes a just and reasonable rate level. Accordingly, the settlement should be accepted.

The only point of contention concerns the resale restrictions the settlement places upon the customers of Gulf States. The provisions in question read as follows:

SCHEDULE WSC WHOLESALE POWER TO RURAL ELECTRIC DESTRIBUTION COOPERATIVES

Availability

Availability in the territory in which Gulf States operates to Rural Electric Distribution Coooperatives for resale solely to ultimate consumers. Service under this schedule is subject to the terms and conditions specified in the Agreement for Electric Service to Rural Cooperatives to which this schedule is attached and made a part thereof. The charges specified in this Schedule shall apply separately to service supplied at each point of delivery.

SCHEDULE WSM OTHER ELECTRIC CORPORATIONS FOR RESALE

Applicability

This rate is applicable under the regular terms and conditions of the company to other electric corporations who contrast for electric service to be used for resale to ultimate consumers.

This Commission's predecessor traditionally looked with disfavor upon

[1] This proceeding was commenced before the FPC. By the joint regulation of Oct. 1, 1977 (10 CFR 1000.1), it was transferred to the FERC. The term "Commission", when used in the context of action taken prior to Oct. 1, 1977, refers to the FPC; when used otherwise, the reference is to the FERC.

[2] Rate Schedule WSM-Municipal Customers: Towns of Eeath, Rayne, Gueydan, Kaplan, Abbeville, St. Martinsville, Welsh, New Roads, Louisiana; Cities of Caldwell, and Newton, Texas; and Kirbyville Light & Power Co.

[3] Rate Schedule WSC-Cooperative Customers; Mid-South Electric Cooperative Association; Houston County Electric Co-op, Inc., and Cajun Electric Power Cooperative, Inc.

[4] The members of the Sam Rayburn Dam Electric Cooperative, Inc are as follows: The town of Vinton, La., the cities of Livingston, Jasper, and Liberty, Tex.; Sam Houston, and Jasper-Newton Electric Coopecatives. By order issued July 26, 1977 in Docket Nos. ER76-816 and ER77-375 Notices of Cancellation of the individual contracts with the Sam Dam Members were accepted and effective on the dates shown in the attachment to said order. Since the effective dates of termination have passed, the aforementioned Sam Dam members are, at present, served by Sam Dam through its contract with Gulf States. The Sam Dam-Gulf States contract was approved by the Commission by order issued May 5, 1977, Docket E-8121 and by its terms extends the Sam Dam-Gulf States power supply arrangement until 1980. See Gulf States Utilities Co. FPC No. 98

resale restrictions in wholesale contracts and rate schedule tariffs. *Cincinnati Gas and Electric Company*, Docket No. E-9126, Opinion No. 83, issued October 6, 1978, at p. 5. The anticompetitive effect of resale prohibitions is of course not conclusive under the Federal Power Act. It remains, however, a factor to be considered in determining whether a proposed rate is just and reasonable. *Id.* at p. 6. Gulf States' legitimate need for orderly power supply planning, we will delete the restrictions.[7] However, recognizing

State commission within whose jurisdiction the wholesale customers distribute and sell electric energy at

[6740-02-M]

[Docket Nos. CS72-421, et al.]

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to

V 43/210 0 C 30 0 78

resale restrictions in wholesale contracts and rate schedule tariffs. *Cincinnati Gas and Electric Company*, Docket Nos. E-8885 and E-8546, Order issued September 5, 1975;[4] *Wisconsin Power & Light Company*, 49 FPC 645 (1973); *Mississippi Power Company*, 45 FPC 269 (1971), *Georgia Power Company*, 35 FPC 436 (1966).

This Commission, like its predecessor, has the responsibility to consider antitrust policy in exercising its regulatory authority, including its examination of rates, terms and conditions for wholesale electric service. *Gulf States Utilities Company* v. *FPC*, 411 U.S. 747, 760-762 (1973). Gulf States' Applicability/Availability clause on its face prevents further wholesaling of power and energy purchased under the respective rate schedules. This gives Gulf States the power to eliminate or inhibit its bulk power customers as potential competitors of Gulf States for further wholesale sales. The Commission will not give its imprimatur to the proposed acquisition of market power.[5]

We do not find in the regulatory scheme under the Federal Power Act any public policy basis for allowing public utilities to employ tariff provisions to foreclose wholesale competition between a supplier like Gulf States and its bulk power purchasers. To the contrary, competition where feasible complements the regulatory scheme. According to the Supreme Court in *Otter Tail Power Co.* v. *United States*, "the history of Part II of the Federal Power Act indicates an overriding policy of maintaining competition to the maximum extent possible consistent with the public interest." 410 U.S. 366, at 374 (1973). It is axiomatic that competition creates pressure on electric utilities to reduce their costs and increase their efficiency in power supply production and marketing. This downward pressure on costs supports our direct regulation of rates to the ultimate benefit of consumers of electricity.

[4] The anticompetitive effect is similar to that of a market division or allocation of customers between competitors—conduct which the Supreme Court has held to violate the antitrust laws. *United States* v. *Topco Associates, Inc.*, 405 U.S. 596, 606-612 (1972). The situation here differs substantially from that in *Continental T.V., Inc.* v. *GTE Sylvania Inc.*, 433 U.S. 36 (1977), where the Court held that the imposition of resale restrictions by manufacturers on distributors of their products could be reasonable and procompetitive in some circumstances. In that case, Sylvania argued that restraining competition among its retail franchisees in sales of Sylvania television sets promoted more significant competition between Sylvania and other television brands. No such redeeming procompetitive virtues warrant the imposition of explicit resale prohibitions by electric wholesalers; there are no brand names to be promoted or brand reputations to be protected here.

The anticompetitive effect of resale prohibitions is of course not conclusive under the Federal Power Act. It remains for us to consider whether such prohibitions serve some significant regulatory purpose which cannot be achieved by a less anticompetitive method and which would render them in the public interest notwithstanding that desirable competition is impaired.

In this connection, we recognize that electric utilities must plan and construct sufficient generation and transmission to meet their future power supply requirements in an orderly fashion. Proper system planning requires utilities like Gulf States to commit to building necessary facilities well in advance of the time such facilities are needed actually to serve loads, and the utilities have an important interest in projecting their load growth and requirements as accurately as possible. Resale restrictions of the sort Gulf States has prescribed do serve this interest; they insure that the loads of wholesale customers will not vary by virtue of those customers adding or losing wholesale customers of their own. These restrictions are, however, an unnecessarily blunt device for this purpose, given their apparent anticompetitive effect and the availability of other, well-established ways for utilities to regulate their loads without impairing competition.[6]

We hold, therefore, that direct resale restrictions, such as the ones here, imposed by power suppliers on their wholesale customers are unreasonable and unjust. Moreover, we conclude that any such restrictions are so devoid of redeeming value in light of the availability of other well-established means of accomplishing the legitimate purposes of regulated utilities that they should be declared per se unlawful in this and all other cases in which the issue may be presented. The public interest does not require and should not tolerate any further record inquiry of this issue. By our action today we announce to all persons interested in our proceedings that we intend to consistently apply the precedent established in this case to strike down any similar resale restrictions presented for our approval.

Accordingly, we will direct Gulf States to remove the offending resale restrictions.[7] However, recognizing Gulf States' legitimate need for orderly power supply planning, we will declare these restrictive provisions null and void and of no legal effect ninety (90) days from the date of issuance of this order. This time period will permit Gulf States to refile substitute tariff provisions appropriate for system planning purposes.

The Commission finds: The settlement agreement filed in this docket on March 13, 1978, by Gulf States Utilities Co., as conditioned herein, is just and reasonable and should be approved and made effective as hereinafter ordered.

The Commission orders: (A) The settlement agreement filed with the Commission in this proceeding on March 13, 1978, as conditioned herein, is incorporated by reference, approved and made effective as of September 2, 1976, for Rate Schedule WSC, and as of December 1, 1976, for Rate Schedule WSM.

(B) Within 99 days of the date of issuance of this order, Gulf States Utilities Co. Shall file revised rate schedules excluding the restrictive language from the "Availability" section of Rate Schedule WSC, and from the "Applicability" section of Rate Schedule WSM. This order is without prejudice to Gulf States to file within that 90 day period appropriate tariff provisions in accordance with the discussion in the body of the order. Such refiling shall be subject to Commission review and approval.

(C) Within 30 days of the filing of the revised Rate Schedules WSC and WSM, Gulf States Utilities Co. shall refund all excess amounts collected over and above the rates stated in the settlement agreement with interest at 9 percent per annum.

(D) Within 15 days after refunds are made, Gulf States Utilities Co. shall file a compliance report with the Commission showing monthly billing determinants and revenues under prior, present, and settlement rates. The compliance report shall show the monthly settlement rate increase, the monthly revenue refund, and the monthly computation, together with a summary of such information for the total refund period. A copy of the report shall also be furnished each

[5] For example, utilities commonly include contractual provisions for obtaining timely notice of customers' increased and decreased requirements. A related concern—that a member of a wholesale class might gain a resale customer whose usage would make it inappropriate for the wholesale customer to continue to be served at the class rates—can similarly be accommodated by permitting Gulf States and other such wholesalers to include in their rate schedules appropriate language describing the class on the basis of such criteria as kW load, load factors etc.

[6] We note that the contract between Gulf States and the Intervenor Sam Dam (Gulf States Utilities Co. Rate Schedule FPC No. 98, SR-2) contains equally restrictive resale provisions as Rate Schedules WSM and WSC. Our announcement of the per se rule today renders such provisions unenforceable. (On Sept. 1, 1976, Sam Dam petitioned to intervene in the instant docket on behalf of its members whose individual contracts with Gulf States were affected by Gulf States' initial rate application in ER76-816. Sam Dam was granted intervention by Order issued Nov. 8, 1976.)

State commission within whose jurisdiction the wholesale customers distribute and sell electric energy at retail as well as to each affected customers.

(E) Insofar as this order accepts the settlement agreement filed with the Commission in this proceeding, it is without prejudice to any finding or order which has been made or which may hereafter be made by the Commission, and is without prejudice to any claims or contentions which may be made by the Commission, its Staff or any party or person affected by this order in any proceeding now pending or hereafter instituted by or against Gulf States Utilities Co. or any other person or party.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

JOHN T. NEWTON

Notice of Filing

OCTOBER 20, 1978

Take notice that on October 2, 1978, John T. Newton (Applicant), filed an application pursuant to section 305(b) of the Federal Power Act to hold the following positions:

Senior Vice President, Secretary, and Director, Kentucky Utilities Co., Public Utility and Senior Vice President, Secretary, and Director, Old Dominion Power Co., Public Utility.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before November 13, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. CS72-421, et al.]

McFARLANE OIL CO., INC. (McFARLANE OPERATING CO., INC., ET AL.)

Notice of Applications for "Small Producer" Certificates [1]

OCTOBER 20, 1978.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and section 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before October 27, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission in its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Certification of Stipulation and Agreement

OCTOBER 23, 1978.

Take notice that on September 14, 1978, Presiding Administrative Law Judge Samuel Kanell certified to the Commission a stipulation and agreement in this docket. If approved, the settlement will resolve all issues in this proceeding.

Any person desiring to be heard or to protest the proposed settlement should file comments with the Federal Energy Regulatory Commission, 325 North Capitol Street NE., Washington, D.C. 20426, on or before November 3, 1978. Comments will be considered by the Commission in determining the appropriate action to be taken upon the settlement. Copies of the settlement are on file with the Commission and are available for public inspection.

[Docket No. ER79-23]

MISSISSIPPI POWER & LIGHT CO.

Notice of Filing

OCTOBER 20, 1978.

Take notice that on October 13, 1978, Mississippi Power & Light Co. (Mississippi) tendered for filing an Agreement for Purchase of Power. Mississippi states that the Agreement provides for the sale of electric energy by Mississippi to Southwest Mississippi Electric Power Association (Southwest), to be delivered to a point near Brookhaven, Miss.

Mississippi further states that the Agreement is filed to supersede the present Agreement for Purchase of Power at the same delivery point, designated as FERC Rate Schedule No. 189.

Mississippi indicates that the date of service under the proposed Agreement is to be November 15, 1978, but requests that the filing be accepted on the date that initial service is actually rendered.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER78-338]

MISSOURI POWER & LIGHT CO.

Order Amending Prior Order, Denying Request for Rejection of Filing, and Denying Request for Imposition of Mobile-Sierra Standard of Proof

OCTOBER 23, 1978.

On September 7 1978, the City of Marceline, Mo. (City) filed a Motion for Expedited Commission Action on the City's June 28, 1978, Petition for Reconsideration. City's June 28 Petition requested reconsideration of our June 19, 1978, order in this proceeding. In its Motion, City requests "(1) a clarification of whether the Commission actually intended an unprecedented denial of City's request for rehearing by Commission failure to act within 30 days of filing, and (2) expedited disposition of the matters raised by City's June 28 filing." Our review indicates that our June 19 order needs no clarification and warrants no modification to reflect matters raised in City's June 28 Petition or its September 7 Motion. A brief outline of the procedural background leading to our decision in this proceeding is set forth below.

BACKGROUND

On May 19, 1978, Missouri Power & Light Co. (MP&L) tendered for filing proposed, revised rates applicable to six of its wholesale municipal customers [1] including the City of Marceline, Mo. Notice of filing was issued on May 26, 1978, with comments, protests, or petitions to intervene due on or before June 5, 1978. No timely filings were filed in response to the foregoing Notice. However, City filed a late Motion to Reject, Protest and Petition to Intervene on June 19, 1978. To date, the matters raised in this filing with the exception of City's request for intervenor status have not yet been ruled upon.

In its June 19 filing City requested that MP&L's May 19 filing be rejected for failure to conform to the due process notice requirements of 18 CFR § 35.8(a), or in the alternative, that the effective date of MP&L's filing be deferred until a final Commission determination of the justness and reasonableness to the rates proposed for City. City also requestd that the Commission require MP&L to meet the *Sierra-Mobile* [2] standard of proof before allowing the proposed rates to go into effect. In making the foregoing request, City acknowledges that the Federal Power Commission in Docket No. ER76-539 [3] held that language in the MP&L/City contract, which is currently effective and applicable to the instant filing, did not require that the *Sierra-Mobile* burden be met before rates could be changed prospectively.

On June 19, 1978, we issued an "Order Accepting for Filing, Suspending Rate Increases, Establishing 206(a) Proceedings, Ordering the Filing of Previously-Unfiled Agreements and Providing for Hearing" in this docket. Because of the lateness of City's June 19 Petition to Intervene, we could not have considered the arguments raised therein in that order. However, we ordered that the proposed rates applicable to City be deferred until we made a final determination of their justness and reasonableness pursuant ot section 206 of the Act.

On June 28, 1978, City filed a Petition for Reconsideration of our June 19 Order requesting that we modify that order to reflect the arguments and requests contained in City's June 19 late-filed petition. In support thereof, City cited Federal Power Commission orders of June 9, 1975 in Docket No. E-8570, *Southern California Edison Co.* and of December 22, 1975, in Docket No. ER 76-83, *Ohio Power Co.* [4] City restated its position that it failed to respond to our May 26, 1978, Notice of Filing in a timely fashion because MP&L failed to notify City as required by 18 CFR 35.8(a).

On July 5, 1978, MP&L filed a response to City's June 19 Motion to Reject, Protest, and Petition to Intervene. Therein, MP&L vigorously denied that City never received a timely notice of its filing and attached a copy of an affidavit of personal service mane by an employee of MP&L on the city manager of City on May 11,1978, to support its denial. MP&L agrees with the portion of our June 19 order requiring a final order after a section 206 investigation and hearing, prior to allowing the proposed rates applicable to City to go into effect. MP&L opposes City's request that it be required to meet a *Sierra-Mobile* standard of proof before being allowed to collect proposed rates from City prospectively, and cites the Federal Power Commission's order of June 4, 1976, in Docket No. ER76-539, *Missouri Power & Light Co.* for support.

On July 7, 1978, City filed a Supplemental Petition to Intervene requesting that the Commission modify its June 19 order to permit investigation of an alleged price squeeze in accordance with the requirements of Order No. 563.[5] On July 25, 1978, MP&L filed a response to City's Supplemental Petition incorporating therein by reference the objections contained in its July 5 Response to City's original, late-filed Petition To Intervene and further objecting to City's request to expand the scope of the proceeding to include price squeeze. On August 4, 1978, City filed an answer to MP&L's July 25 filing arguing that its price squeeze allegations were well-founded, and the MP&L's objections went to the merits of the alleged price squeeze and were more appropriate for resolution through discovery and hearing.

On September 7, 1978, the Presiding Administrative Law Judge issued an order "Granting Supplemental Petition for Leave to Intervene on Price Squeeze Issue," holding that City had met the requirements of 18 CFR 2.17 and that MP&L's objections as to price squeeze were premature.

On September 7, 1978, City filed the instant Motion for Expedited Commission Action on City's June 28, 1978, Petition for Reconsideration, therein restating its prior requests that MP&L's May 19 filing be rejected and that the Commission modify its June 19 order to impose the more stringent *Mobile-Sierra* burden of proof standard for determining the validity of a section 206 rate change to the City. City states that it filed the Motion pursuant to the direction of the Presiding Administrative Law Judge and that a grant of its June 28, 1978, Petition for Reconsideration establishing a *Mobile-Sierra* standard of proof could moot MP&L's filed case and the hearing schedule established by the Presiding Judge.

DISCUSSION

Our review of all the filings of MP&L and City to date indicates that two basic issues remain unresolved: Whether City's June 28 Petition for Reconsideration is properly before us in light of City's late-filed Petition to Intervene and, if so, whether we should modify our June 19 order to reflect City's requests that we reject MP&L's May 19 filing, that we impose a *Mobile-Sierra* burden of proof standard to gauge a section 206 rate change to City in this proceeding, or that we expand the scope of the proceeding to investigate an alleged price squeeze.

On August 14, 1978, we amended our regulations [6] to authorize designated presiding administrative law judges to act on petitions to intervene in pending proceedings for the sake of administrative efficiency. We note that prior to the Presiding Administrative Law Judge's September 7 order in this proceeding granting City's supplemental petition to intervene, City did not formally enjoy the status of an intervenor. Consequently, City's July 7 Supplemental Petition to Intervene requesting expansion of the proceeding to include price squeeze was properly directed to the Commission. The Presiding Administrative Law Judge's September 7 order granting City's Supplemental Petition exceeded his authority to the extent of allowing price squeeze to become an issue in this proceeding without action by us. Our June 19, 1978, order does not discuss price squeeze nor does it establish Order No. 563 procedures. Nevertheless, the Presiding Judge has set Order No. 563 procedures and cost-of-service discovery procedures, having found the City has met the pleading requirements of Order No. 563.

Our August 14, 1978, order establishing certain delegations was not intended to give presiding administrative law judges the authority to expand the scope of a pending proceeding by the process of granting petitions to intervene. The part of the August 14 order dealing with petitions to intervene gave presiding judges the authority only to permit interventions on those matters already at issue in the proceeding. Only the Commission can grant leave to expand the scope of a proceeding.

We believe it is in the public interest to authorize the investigation of the price squeeze issue in this proceeding. Accordingly, we shall amend our June 19 order to include the price squeeze issue and to authorize the implementation of Order No. 563 procedures. The portion of City's June 19, 1978, Petition requesting status as an intervenor not having been acted upon until September 7, 1978, the arguments and requests pertaining to City's request for rejection of MP&L's filing and for imposition of the *Mobile-Sierra* standard of proof, as set forth in City's June 19 and June 28 filings, were not properly before us until September 7, 1978, on which date the thirty (30) days referred to in 18 CFR 1.12(e) began to run on City's request that we modify our June 19 order.

In light of the foregoing, City's implication that our inaction to date on its June 28 Petition for Reconsideration may have constituted "unprecedented denial of City's request for rehearing by Commission failure to act within thirty (30) days of filing" is misplaced. Only a party to a proceeding has standing to file a Motion for Reconsideration of a Commission order pursuant to 18 CFR 1.12, and City did not obtain such standing until September 7, 1978, the same day it filed its Motion for Expedited Commission Action.

Since City's September 7 Motion incorporated by reference its June 28 Petition for Reconsideration, we find that the arguments and requests contained in the June 28 Petition are now properly before us for resolution.[7] The remaining question is whether we should modify our June 19 order by granting City's requests that we reject MP&L's May 19 filing and impose the *Mobile-Sierra* standard of proof.

The filings indicate a dispute between MP&L and City regarding whether City received adequate notice of MP&L's May 19 submittal to satisfy due process requirements. Although not conclusive, we find persuasive for the purpose of continuing to accept MP&L's filing, the affidavit of personal service attached to MP&L's July 5 Response to City's original late-filed Petition to Intervene. We note that City is an intervenor in this proceeding with full opportunity to protect its rights in hearing. City's request for rejection of MP&L's filing and for modification of our June 19 order to reflect such rejection must be denied.

The sole remaining issue is whether City's request that the *Mobile-Sierra* standard of proof be imosed in this proceeding should be granted. We find that it should not.

In our order of June 19, 1978, we note that in Docket No. ER76-539, MP&L sought to increase rates under the currently effective MP&L/City electric service contract, and our predecessor, the Federal Power Commission, held that proposed rates to City could not become effective until a final Commission order determined that section 206 requirements had been met.[7] The FPC made it clear that under the language of the MP&L/City contract, the *Mobile-Sierra* standard of proof was not applicable. MP&L is correct to point out that City addresses the same contract language in this docket to which the *Mobile-Sierra* standard was determined to be not applicable in Docket No. ER76-539.

City admits in its June 19, 1978, Petition that the FPC held that language in the City/MP&L contract only permits a change prospectively in City's rates upon a final Commission order applying section 206 standards. However, City asserts that the FPC was in error in Docket No. ER76-539 and, in effect, requests that we reconsider the FPC's prior determination. MP&L agrees that it can increase rates to City only prospectively, but objects to City's request that a stringent *Mobile-Sierra* burden be imposed.

Our review of City's Application for Rehearing of the FPC's April 26, 1976, order in Docket No. ER76-539, MP&L's Answer thereto, and the FPC's June 4, 1976, order granting City's Application, indicates that City did not address the issue of burden of proof standards in a section 206 pro-

[1] Cities of Centralia, Kahoka, Linneus, Marceline, Owensville, and Perry, all located in Missouri.

[2] *United Gas Pipe Line Co.* v. *Mobile Gas Service Corp.*, 350 U.S. 332 (1956); *F.P.C.* v. *Sierra Pacific Power Co.*, 35 U.S. 348, 355 (1956).

[3] *Missouri Power & Light Co.*, "Order Granting Petition for Rehearing and Amending Prior Order," issued June 4, 1976, Docket No. ER76-539.

[4] Because of our determination herein that the contenis of City's June 28 Petition are properly before us, we need not address these orders.

[5] 18 CFR 2.17.

[6] Order issued August 14, 1978, in Docket No. RM78-19, amended 18 CFR 1.8(a)(2) to allow participation in a proceeding as an intervenor "upon petition to intervene, by order of the Commission, the Secretary where an administrative law judge has not been designated, or the designated presiding administrative law judge in the proceeding". As a result the Presiding Judge's September 7, 1978, order granting City's Supplemental Petition to Intervene granted City status as an intervenor in this proceeding as of that date.

[7] On October 11, 1978, under signature of the Secretary of the Commission, we issued a Notice of Intent to Act on City's September 7, 1978, Motion.

[7] See Orders issued on April 26, 1976, and on June 4, 1976, in Docket No. ER76-539, *Missouri Power & Light Co.*

ceeding in that docket but merely argued successfully that MP&L did

contract upon a finding by the Commission that proposed rates are just

compensate Missouri primarily for increases in its cost of power.

Copies of this filing are on file with the Commission and are available for

[6740-02-M]

[Docket No. CP78-453]

V 43/210 0 C 30 78

ceeding in that docket but merely argued successfully that MP&L did not have the right to file unilaterally for a rate schedule change under section 205 of the Act. The FPC agreed with City, but adopted "as the burden of proof the just and reasonable standard of section 206 of the Federal Power Act rather than the *Mobile-Sierra* Standard [Footnote omitted]." City did not object to the FPC's adoption of section 206 standards in Docket No. ER76-539, but does object to our adoption of them in this proceeding.

Our review of the arguments raised by City to support its request that we modify our June 19 order to impose a *Mobile-Sierra* standard of proof indicates that they must be rejected. City asserts that section 1 of its contract with MP&L[8] is "in pertinent part identical" to language in section 12 of the 1948 Contract between Pacific Gas and Electric Co. (PG&E) and the Sierra Pacific Power Co.[9] under which language the Supreme Court imposed a heavy *Sierra* burden of proof. MP&L correctly points out that the language in section 1 of the Marceline Contract and the language in section 12 of the 1948 PG&E/Sierra Pacific contract are not identical. MP&L refers to the controlling legal principle cited in *Richmond Power & Light Co.* v. *FPC*, 81 F. 2d 490, 493 (1973); *cert. denied, sub nom. Indiana & Michigan Electric Co.* v. *FPC*, 414 U.S. 1068 (1975) to support its position:

> The rule of *Sierra, Mobile* and *Memphis* is refreshingly simple: The contract between the parties governs the legality of the filing. Rate filings consistent with contractual obligations are valid; rate filings inconsistent with contractual obligations are invalid.

Accordingly, our review indicates, and MP&L correctly asserts, that section 1 of MP&L's contract with City contemplates that rate changes would be permitted during the life of the contract upon a finding by the Commission that proposed rates are just and reasonable. Nowhere in City's June 19 late-filed Petition or in its June 28 Motion for Reconsideration does City refer to language in the City/MP&L contract which precludes a rate change under section 206 of the Act. Such a failure is fatal to City's request for imposition of a *Mobile-Sierra* burden in this proceeding.

Our finding that the language of the MP&L/City contract does not preclude a rate change pursuant to section 206 of the Act is consistent with precedent.[10]

The Commission orders:

(A) Our order of June 19, 1978, in this docket is hereby amended to authorize the investigation of the price squeeze issue and the implementation of Order No. 563 procedures.

(B) City's request that we modify our June 19, 1978, order in this docket by rejecting MP&L's May 19, 1978, submittal for failure to meet due process notice requirements, is hereby rejected.

(C) City's request that we modify our June 19, 1978, order in this docket to reflect the imposition of a *Mobile-Sierra* burden of proof standard prior to authorizing the use of proposed rates applicable to City, is hereby denied.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-30547 Filed 10-27-78; 8:45 am]

[8] 1. Company shall supply and Customer shall accept and pay for all electric energy it may require for the operation of its water works and other municipal requirements, street lighting system, and for distribution and sale to its electrical customers, at the rates and charges applicable to the two types of service hereby offered. The rates to be charged by the Company under this agreement shall be in accordance with the attached rate schedules marked Exhibit A and Exhibit B; *provided, however that said rates may be changed during the term of the contract but only with the approval of the appropriate regulatory agency having jurisdiction.*" (*Emphasis added.*)

[9] 12. This agreement shall become effective as of January 1, 1948, upon the procurement of an order by the Public Utilities Commission of the State of California authorizing the parties hereto to carry out the terms and conditions hereof. This agreement shall at all times be subject to such changes and/or modifications as said Commission may from time to time direct in the exercise of its jurisdiction."

[10] See *Appalachian Power Co.*, Docket Nos. ER76-799, ER76-800, order issued November 8, 1976, and *Louisiana Power & Light Co.*, Docket No. ER77-533, order issued September 30, 1977, wherein the FPC held that contractual phrases providing for rate changes only with the "approval" of the appropriate jurisdictional agency, prohibit a section 205 filing, but permit application under section 206 to set just and reasonable rates prospectively without having to meet the heavy *Sierra* standard.

[6740-02-M]

[Docket No. ER79-21]

MISSOURI UTILITIES CO.

Notice of Proposed Change in Rates

OCTOBER 23, 1978.

Take notice that on October 13, 1978, Missouri Utilities Co. (Missouri), tendered for filing a change in rates applicable to electric service rendered to its Central Missouri wholesale customers. Missouri indicates that these changes in rates are proposed to become effective as of November 16, 1978. Missouri further indicates that the proposed changes in rates are to compensate Missouri primarily for increases in its cost of power.

Missouri states that its current wholesale rates in Central Missouri are deficient by $160,239 annually based on sales volumes set forth in the statements accompanying its Notice of Change in Rates.

Copies of the proposed rate schedules and their revenue effect have been served upon the Missouri Utilities Co. wholesale customer, the City of California, affected by this filing, according to Missouri.

Any person desiring to be heard or to protest said notice should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules and Regulations (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before November 6, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. ER79-26]

NIAGARA MOHAWK POWER CORP.

Notice of Filing

OCTOBER 23, 1978.

Take notice that Niagara Mohawk Power Corp. on October 17, 1978, tendered for filing a letter agreement dated July 24, 1978, with New York State Electric & Gas Corp. Niagara Mohawk requests waiver of the Commission's notice requirements to allow for effective dates of April 1, 1977 and April 1, 1978, for the two proposed revisions comprising this filing.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before November 3, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-530]

OHIO EDISON CO.

Notice of Certification

OCTOBER 23, 1978.

Take notice that Presiding Administrative Law Judge, George P. Lewnes, on September 1, 1978, certified to the Commission an executed settlement agreement in the above-noted docket.

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington D.C. 20426, on or before November 13, 1978. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

[6740-02-M]

[Project No. 1934]

SOUTHERN CALIFORNIA EDISON CO.

Notice of Application for Use of Public Lands

OCTOBER 20, 1978.

Take notice that on May 12, 1978, an application was filed with the Federal Energy Regulatory Commission by the Southern California Edison Co. (correspondence to: D. J. Lowerison, Jr., Southern California Edison Co., P.O. Box 410, 100 Long Beach Boulevard, Long Beach, Calif. 90801), for use of public lands on the Mill and Mountain Creeks Project (Project No. 1934), located in San Bernardino County, Calif. and in the San Bernardino National Forest.

Applicant proposes to grant a 25-foot wide easement over project lands to the San Bernardino Valley Municipal Water District (District), to permit the District to construct and operate an underground pipeline. The pipeline would divert up to 4 cfs of water from the Mill Creek Nos. 2 and 3 Powerhouse tailrace to the three Yucaipa Lakes and for the irrigation of the Yucaipa Lakes Regional Park. Approximately 0.25 acre of project lands in section 13, T. 1 S, R. 2 W, S. B. B. & M. would be affected by the easement.

Anyone desiring to be heard or to make any protest about this application should file a petition to intervene or a protest with the Federal Energy Regulatory Commission, in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10 (1977). In determining the appropriate action to take, the Commission will consider all protests filed, but a person who merely files a protest does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any protest or petition to intervene must be filed on or before November 14, 1978. The Commission's address is: 825 North Capitol Street NE., Washington, D.C. 20426.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP77-31]

SOUTHERN NATURAL GAS CO.

Notice of Filing of Amendment to Stipulation and Agreement

OCTOBER 20, 1978.

Take notice that on September 20, 1978, Southern Natural Gas Co. filed with the Commission and the Presiding Administrative Law Judge William L. Ellis, an amendment to the stipulation and agreement previously certified to the Commission in this docket on May 18, 1978. The amendment modifies paragraph 8, Article II, of the original stipulation and agreement and pertains solely to the treatment of interperiod Federal income taxes.

Any person desiring to be heard or to protest the amendment to the proposed settlement should file comments with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on or before November 3, 1978. Comments will be considered by the Commission in determining the appropriate action to be taken upon the settlement. Copies of the amendment are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP78-453]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Application

OCTOBER 19, 1978.

Take notice that on July 31, 1978, Transcontinental Gas Pipe Line Corp. (Applicant), P.O. Box 1396, Houston, Tex. 77001, filed in Docket No. CP78-453, an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation on an interruptible basis of up to 30,000 dekatherms (dt) equivalent of natural gas per day for a limited term of 1 year from date of first delivery for Tennessee Gas Pipeline Co., a Division of Tenneco Inc. (Tennessee), all as more fully set forth in the application on file with the Commission and open to public inspection.

It is indicated that Tennessee would purchase natural gas produced in Ship Shoal Block 246A, offshore Louisiana, and deliver a scheduled daily delivery quantity of up to 30,000 dt into Applicant's Southeast Louisiana Gathering System at Ship Shoal Block 246B. Pursuant to a transportation agreement with Tennessee, Applicant proposes to receive the subject gas for Tennessee's account at the Block 246B location and transport and deliver a thermally equivalent quantity of gas, less 1.2 percent for gas lost and unaccounted for and fuel, and less reduction in volume and Btu content due to processing, if any, to Tennessee at existing points of interconnection between Transco's and Applicant's systems in Louisiana and Texas.

Applicant states that it would charge Tennessee for the proposed transportation service, an initial rate of 15.25 cents per dt transported and delivered to Tennessee, and 13.15 cents per dt for shrinkage, fuel and gas lost due to processing at the Shell Oil Co. North Terrebonne Gas Processing Plant (Terrebonne Plant), on Applicant's Southeast Louisiana Gathering System.

The application indicates that during the 1-year term proposed, Tennessee would make other arrangements to receive this gas into its system on a long term basis.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 26, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10), and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by

it in determining the appropriate action to be taken but will not serve to

it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. ER79-18]

UNION ELECTRIC CO.

Notice of Proposed Revised Service Schedule

OCTOBER 20, 1978.

Take notice that on October 13, 1978, Union Electric Co. (Union) tendered for filing First Amendment, First Revised Exhibits I and II, and First Revised Service Schedules A, G, and H to the Interchange Agreement dated April 11, 1977 between Union, Arkansas-Missouri Power Co., and Associated Electric Cooperative, Inc.

Union indicates that said revisions provide for certain changes in facilities to be installed under the Interchange Agreement and for revisions in certain rates under said Interchange Agreement.

Union requests a proposed effective date of September 15, 1978, and therefore requests waiver of the commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. ER76-399 and ER76-393]

WISCONSIN ELECTRIC POWER CO. AND WISCONSIN MICHIGAN POWER CO.

Notice of Filing

OCTOBER 23, 1978.

Take notice that Wisconsin Electric Power Co. on August 28, 1978, tendered for filing, in anticipation of a Commission order directing that refunds be made to the City of Kauhauma, the computation of refunds. The Company states that it anticipates such an order by the Commission in response to a remand from the District of Columbia Court of Appeals directing the Commission to "direct Wisconsin Michigan to refund promptly to the City all revenues attributable to the amount of the proposed increase collected prior to final approval."

Any person desiring to be heard or to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions should be filed on or before November 9, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUME,
Secretary

Western Area Power Administration

MILES CITY-BAKER-HETTINGER-NEW UNDERWOOD 230 KV TRANSMISSION LINE, MONTANA-NORTH DAKOTA-SOUTH DAKOTA

Draft Environmental Impact Statement; Public Hearings

AGENCY: Department of Energy.

ACTION: Notice of public hearings on draft environmental impact statement on 230 kV transmission line.

SUMMARY: Notice is hereby given that the Western Area Power Administration, Department of Energy, has issued a draft environmental impact statement on a proposed 230 kV transmission line from Miles City-Baker, Mont., through Hettinger, N. Dak., to New Underwood, S. Dak. This EIS is issued pursuant to DOE's implementation of the National Environmental Policy Act of 1969.

Public comments will be received respectively on the draft environmental impact statement at public hearings to be held on the dates and at the locations specified in the text of this notice.

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of Energy has prepared a draft environmental statement for the Miles City-Baker-Hettinger-New Underwood 230 kV transmission line. This statement (DOE/EIS-0025-D) was transmitted to the Environmental Protection Agency on August 31, 1978, and was made available to the public on September 27, 1978.

The statement concerns construction of a 528-kilometer (328-mile) 230 kV transmission line from Miles City, Mont., east to Hettinger, N. Dak., and south to New Underwood, S. Dak. The line is needed to provide additional high-voltage transmission capacity in the area to improve power system stability, to improve reliability of service to existing loads, and to provide increased capability to serve future load growth in the area.

Public hearings will be held on the following dates at the locations indicated below.

HEARING DATE, TIME, AND LOCATION

November 14, 1978, 2 p.m., Room 106, Community College, Miles City, Mont.
November 15, 1978, 2 p.m., Hettinger Armory, Hettinger, N. Dak.
November 16, 1978, 10 a.m., Grand Electric Cooperative Building, Bison, S. Dak.

The hearings are to receive views and comments from interested organizations or individuals relating to the environmental impacts of this line. Oral statements at the hearing will be limited to a period of 10 minutes. Speakers will not trade their time to obtain a longer oral presentation; however, the person authorized to conduct the hearing may allow any speaker to provide additional oral comment after all persons wishing to make comment have been heard. Speakers will be scheduled according to the time preference mentioned in their letter or telephone request, whenever possible, and any scheduled speaker not present when called will lose his or her privilege in the scheduled order and his or her name will be recalled at the end of the scheduled speakers. Request for scheduled presentation will be accepted up to 4:30 p.m., November 8, 1978, and any subsequent request will be handled on a first-come-first-serve basis following the scheduled presentation.

Copies of the draft environmental impact statement have previously been furnished to concerned State, Federal, and local agencies with environmental expertise, environmental organizations, and other interested members of the public.

Copies have been sent to the county commissioners in the following eight counties:

Custer County, Mont.
Fallon County, Mont.
Adams County, N. Dak.
Bowman County, N. Dak.
Slope County, N. Dak.
Meade County, S. Dak.
Pennington, S. Dak.
Perkins, S. Dak.

Copies are available for public inspection at public libraries in the following cities:

Mile City, Mont.
Baker, Mont.
Amidon, N. Dak.
Rapid City, S. Dak.
Bowman, N. Dak.
Hettinger, N. Dak.
Bison, S. Dak.
Sturgis, S. Dak.

Copies of the draft envrionmental impact statement are available at DOE public document rooms located at: Library, DOE, Room 1223, 20 Massachusetts Avenue NW., Washington, D.C.; DOE, Room GA 152, Forrestal Building, 1000 Independence Avenue SW., Washington, D.C.

A limited number of single copies are available for distribution by contacting the Billings Area Manager, Jim Davies, Western Area Power Administration, P.O. Box EGY, Billings, Mont. 59101.

Questions concerning the draft EIS may be addressed to Mr. Jim Davies, Billings Area Manager at Billings, Mont., post office box address above.

Organizations or individuals desiring to present their statements at the hearing should contact Jim Davies, Area Manager, Western Area Power Administration, Department of Energy, P.O. Box EGY, Billings, Mont. 59101, telephone 406-657-6533, and announce their intention to participate. Written comments from those unable to attend and from those willing to supplement their oral presentation at the hearing should be sent on or before November 22, 1978, so that they can be included in the hearing record.

FOR FURTHER INFORMATION CONTACT:

Mr. James Davies, Area Manager, Western Area Power Administration, Department of Energy, P.O. Box EGY, Billings, Mont. 59101, 406-657-6533 (FTS) 585-6533.

Issued in Washington, D.C., October 26, 1978.

WILLIAM P. DAVIS,
Deputy Director of Adminstration.

FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT SCIENTIFIC ADVISORY PANEL

Open Meeting

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Notice of open meeting.

SUMMARY: There will be a 2-day meeting of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Scientific Advisory Panel from 9:30 a.m. to 4:30 p.m. daily on Wednesday and Thursday, November 15 and 16, 1978. The meeting will be held in Room 1112A, Crystal Mall, Building No. 2, 1921 Jefferson Davis Highway, Arlington, Va., and will be open to the public.

FOR FURTHER INFORMATION CONTACT:

Dr. H. Wade Fowler, Jr., Executive Secretary, FIFRA Scientific Advisory Panel, Office of Pesticide Programs (TS-766), Room 803, Crystal Mall, Building No. 2, 1921 Jefferson Davis Highway, Arlington, Va., telephone 703-557-7560.

SUPPLEMENTARY INFORMATION: In accordance with section 25(d) of the amended FIFRA, the Scientific Advisory Panel will comment on the impact on health and the environment of regulatory actions under section 6(b) and 25(a) prior to implementation. The purpose of this meeting is to discuss the following topics:

1. Completion of Panel review of FIFRA section 6(b) action on Amitraz (BAAM) products;

2. A briefing will be given to the Panel by EPA on decision options under consideration by the Agency to conclude RPAR (Rebuttable Presumption Against Registration) action on Pronamide products;

3. Completion of Panel review of topics continued from previous meeting; and

4. In addition, the Agency may present status reports on other ongoing programs of the Office of Pesticide Programs.

Any member of the public wishing to attend or submit a paper should contact Dr. H. Wade Fowler, Jr., at the address or phone listed above to be sure that the meeting is still scheduled. Interested persons are permitted to file written statements before or after the meeting, and may upon advance notice to the Executive Secretary, present oral statements to the extent that time permits. Written or oral statements will be taken into consideration by the panel in formulating comments or in deciding to waive comments. Persons desirous of making oral statements must notify the Executive Secretary and submit a summary no later than November 9, 1978.

Individuals who wish to file written statements are advised to submit statements to the Executive Secretary in a timely manner to ensure appropriate consideration by the Panel.

STATUTORY AUTHORITY: Section 25(d) of FIFRA, as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.) and Sec. 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 86 Stat. 770).

Dated: October 23, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

IDAHO STATE DEPARTMENT OF AGRICULTURE

Issuance of Specific Exemption To Use Thiabendazole To Control Fungi in Stored Sugar Beets

The Environmental Protection Agency (EPA) has granted a specific exemption to the Idaho State Department of Agriculture (hereafter referred to as the "Applicant") for postharvest application of thiabendazole to control various fungi threatening 50,000 tons of sugar beets in storage areas in Idaho. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR 166, which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Room E-315, Washington, D.C. 20460.

According to the Applicant, about 50,000 tons of sugar beets could become infested with various fungi such as *Penicillium, Botrytis, Phoma,* and others. These fungi cause deterioration while the beets are in storage, resulting in a decline of the sugar content of the beets. These fungal diseases occur naturally in sugar beets; however, only those beets to be stored for more that 75 days could be seriously affected.

There are no registered alternative pesticides that can be applied as a post-harvest treatment to control fungal deterioration in sugar beets. The logistics and economics of the processing equipment made immediate processing of the beets infeasible.

The Applicant proposed to use Mertect 340-F, EPA Reg. No. 618-75; this product is already registered for preharvest field use on sugar beets to control *Cercospora* Leaf Spot. The rate of application is 42 ounce Mertect 340-F added to 100 gallons of water per 1 ton of sugar beets. The maximum amount of the product that could be used would be 165 gallons on 50,000 tons of sugar beets. Applications will be made by trained employees of the Utah and Idaho Sugar Co. The estimated economic loss without this treatment is $150,000.

Permanent pesticide tolerances of 0.25 ppm on sugar beets and 10 ppm on sugar beet tops have been established (40 CFR 180.242). Existing milk and meat tolerance should be adequate to cover the proposed use and no detectable residues are expected to occur in poultry tissues or eggs. The requested use will add only an insignificant amount of thiabendazole to the human diet. Based on an existing registered product of field application of thiabendazole to sugar beets, no serious adverse effects on the environment are expected.

After reviewing the application and other available information, EPA determined that (a) a pest outbreak of various fungi has occurred or is about to occur; (b) there is no pesticide presently registered and available for use to control the fungi on stored sugar beets in Idaho; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic losses may result if the various fungi are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until December 31, 1978, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. The thiabendazole product Mertect 340-F, EPA Reg. No. 618-75, will be used;

2. The rate of application will not exceed 0.42 ounces of the product per 1 gallon of water per 1 ton of sugar beets;

3. A maximum of 165 gallons of the product may be applied;

4. A maximum of 50,000 tons of sugar beets may be treated;

5. All applications will be made in storage areas under the control of the Utah and Idaho Sugar Co.;

6. All applications will be made by trained personnel of the Utah and Idaho Sugar Co.;

7. The Applicant is responsible for insuring that all the provisions of this specific exemption are met, and must submit a report to EPA summarizing the results of this program by August 1979;

8. All applicable directions, restrictions, and precautions on the EPA-registered label must be followed;

9. The EPA shall be immediately informed of any adverse effects resulting from use of thiabendazole in connection with this exemption;

10. This exemption is not a modification of any NPDES permits issued to the Utah and Idaho Sugar Co. and does not constitute a waiver of State or Federal discharge limitations. The Utah and Idaho Sugar Co. is required to contact the Idaho State Department of Ecology for possible amendments to NPDES permits;

11. The State of Idaho and concerned growers must seek the establishment of permanent tolerances for sugar beets through regular channels if the fungal disease is likely to continue to be a pest of sugar beets in Idaho; and

12. A thiabendazole residue level not exceeding 6 ppm in or on sugar beets has been determined to be adequate to protect the public health. Permanent tolerances for residues of thiabendazole and its metabolite 5-hydroxy-thiabendazole in meat and milk will not be exceeded as a result of this use. Secondary residues in poultry and eggs are expected to be below detectable levels. The Food and Drug Administration, U.S. Department of Health, Education, and Welfare, has been advised of this action.

STATUTORY AUTHORITY: Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.)

Dated: OCTOBER 23, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[6560-01-M]

[FRL 997-1; OPP-180243]

MICHIGAN STATE DEPARTMENT OF AGRICULTURE

Issuance of Specific Exemption To Use Thiabendazole To Control Fungi in Stored Sugar Beets

The Environmental Protection Agency (EPA) has granted a specific exemption to the Michigan State Department of Agriculture (hereafter referred to as the "Applicant") for postharvest application of thiabendazole to control various fungi threatening 65,000 tons of sugar beets in storage areas in Michigan. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain informtion required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Room E-315, Washington, D.C. 20460.

According to the Applicant, about 65,000 tons of sugar beets could become infested with various fungi such as *Penicillium, Botrytis, Phoma,* and others. These fungi cause deterioration while the beets are in storage, resulting in a decline of the sugar content of the beets. These fungal diseases occur naturally in sugar beets; however, only those beets to be stored for more than 75 days could be seriously affected. Fungal deterioration results in loss of processed sugar, loss of stored beets, and causes filter fouling which increases discharges of suspended solids and decreased sugar recovery. The Applicant anticipates that without a means of controlling the fungi, a monetary loss of up to $150,000 could result.

There are no registered alternative pesticides that can be applied as postharvest treatment to control fungal deterioration in sugar beets. The logistics and economics of the processing equipment made immediate processing of the beets unfeasible.

The Applicant proposed to use Mertect 340-F, EPA Reg. No. 618-75; this product is already registered for preharvest field use on sugar beets to control *Cercospora* leaf spot. The rate of application is 42 ounces Mertect 340-F added to 100 gallons of water; one gallon of this suspension will be applied to one ton of sugar beets. The maximum amount of the product that could be used would be 205 gallons on 65,000 tons of sugar beets. Applications will be made by a State-certified commercial applicator.

Permanent pesticide tolerances of 0.25 p.p.m. on sugar beets and 10.0 p.p.m. on sugar beet tops have been established (40 CFR 180.242). Existing milk and meat tolerances should be adequate to cover this use. The requested use will add only an insignificant amount of thiabendazole to the human diet. Based on an existing registered product for field application of thiabendazole to sugar beets, no serious adverse effects on the environment are expected.

After reviewing the application and other available information, EPA determined that (a) a pest outbreak of various fungi has occurred or is about to occur; (b) there is no pesticide presently registered and available for use to control the fungi on stored sugar beets in Michigan; (c) there are no alterntive means of control, taking into account the efficacy and hazard; (d) significant economic losses may result if the various fungi are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until December 31, 1978, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. The thiabendazole product Mertect 340-F, EPA Reg. No. 618-75, will be used;

2. The rate of application will not exceed 0.42 ounces per one gallon of water per one ton of sugar beets;

3. A maximum of 250 gallons of the product may be applied;

4. A maximum of 65,000 tons of sugar beets may be treated;

5. All applications will be made in storage areas under the control of the Monitor Sugar Co.;

6. Application will be made by a State-certified commercial applicator;

7. The Applicant is responsible for insuring that all the provisions of this specific exemption are met, and must submit a report to EPA summarizing the results of this program by August 1979;

8. All applicable directions, restrictions, and precautions on the EPA-registered label must be followed;

9. The EPA shall be immediately informed of any adverse effects resulting from use of tiabendazole in connection with this exemption;

10. This exemption is not a modification of any NPDES permits issued to Monitor Sugar Co. and does not constitute a waiver of State or Federal discharge limitations. Monitor Sugar Co. is required to contact the Michigan Department of Natural Resources for possible amendments to NPDES permits;

11. Michigan and concerned growers must pursue the establishment of a permanent tolerance on sugar beets through normal channels. if the fungal disease is likely to continue to be a pest.

12. Effluent from the processing plant will be monitored for residues of thiabendazole. Data from these tests will be submitted to EPA by October 1979; and

13. A thiabendazole residue level not exceeding six p.p.m. in or on sugar beets, has been determined to be adequate to protect the public health. Permanent tolerances for residues of thiabendazole and its metabolite 5-hydroxy-thiabendazole in meat and milk will not be exceeded by this use. Secondary residuc in poultry and eggs are expected to be below detectable levels. The Food and Drug Administration of the U.S. Department of Health, Education, and Welfare has been advised of this action.

STATUTORY AUTHORITY: Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.).

Dated: October 23, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[FRL 996-5]

STATUS OF TOXIC SUBSTANCES CONTROL ACT'S SECTION 8(e), SUBSTANTIAL RISK REPORTING

Public Participation Meeting; Request for Meeting Discussion Issues To Be Submitted In Advance

AGENCY: Environmental Protection Agency.

ACTION: Notice of public participation meeting; request for discussion issues to be submitted by the public in advance of the meeting.

PURPOSE: In the March 16, 1978 FEDERAL REGISTER (43 FR 11110), EPA published their "Statement of Interpretation and Enforcement Policy" concerning "Substantial Risk Notification under section 8(e) of the Toxic Substances Control Act." Since the publication of the policy statement, approximately 150 notices have been received. The Agency believes an open meeting to discuss section 8(e)'s implementation status would be beneficial to all interested parties.

DATE/LOCATION/TIME: The meeting will be held from 10 a.m. until 4 p.m. on December 7, 1978, at the Skyline Inn, Hall of States Room, 10 I Street SW., Washington, D.C.

MEETING FORMAT: A panel of EPA members will present a status report on section 8(e)'s implementation. The panel members will then conduct a discussion centered around the issues and questions submitted in advance by the public, concerning substantial risk notices. The meeting format will be informal, in order to generate a constructive discussion of section 8(e).

DISCUSSION ISSUES FOR THE MEETING SUBMITTED IN ADVANCE: Persons interested in submitting discussion issues and questions concerning TSCA substantial risk reporting should do so no later than November 22, 1978. EPA will respond at the meeting to all questions that it judges to be of interest to industry and public participants concerned with section 8(e) implementation. The questions, themselves, should preferably refer to specific problems or issues that persons have encountered in interpreting the meaning of the policy statement. Where possible, a hypothetical situation or reference to an existing section 8(e) notice should be submitted to illustrate the question.

ALL QUESTION SUBMISSIONS SHOULD BE SENT TO: Charles M. Auer, Assessment Division (TS-792), Office of Toxic Substances, U.S. EPA, 401 M Street SW., Washington D.C. 20460.

FOR FURTHER INFORMATION:

Call the Industry Assistance Office:

processing equipment made immediate processing of the beets infeasible.

maintain a record of all application sites in their respective States;

UTAH AND WASHINGTON DEPARTMENTS OF AGRICULTURE

Issuance of Specific Exemptions To Use Thiabendazole To Control Fungi in Stored Sugar Beets

The Environmental Protection Agency (EPA) has granted specific exemptions to the Utah and Washington Departments of Agriculture (hereafter referred to as the "Applicants") for post-harvest application of thiabendazole to control various fungi threatening 50,000 tons of sugar beets in Utah and 500,000 tons of sugar beets in storage areas in Washington. These exemptions were granted in accordance with, and are subject to, the provisions of 40 CFR Part 166, which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the applications on file with the Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Room E-315, Washington, D.C. 20460.

According to the Applicants, sugar beets awaiting processing could become infested with various fungi, such as *Penicillium, Botrytis, Fusarium, Phoma,* and others, which cause deterioration while the beets are in storage, resulting in a decline of the sugar content of the beets. These fungal diseases occur naturally in sugar beets; however, only those beets to be stored for more than 75 days could be seriously affected. Fungal deterioration results in loss of processed sugar, loss of stored beets, and causes filter fouling which increases discharges of suspended solids and decreases sugar recovery. The Applicants anticipate that without this treatment, losses could run as high as $150,000 in Utah and $1,500,000 in Washington.

There are no registered alternative pesticides that can be applied as a post-harvest treatment to control fungal deterioration in sugar beets. The logistics and economics of the processing equipment made immediate processing of the beets infeasible.

The Applicants proposed to use Mertect 340-F, EPA Reg. No. 618-75; this product is already registered for preharvest field use on sugar beets to control *Cercospora* leaf spot. The rate of application is 0.42 ounces Mertect 340-F added to sufficient water to treat one ton of sugar beets. The maximum amount of the product that would be used would be 175 gallons in Utah and an estimated 1,667 gallons in Washington. Applications will be made by employees of the Utah and Idaho Sugar Co. who have been trained to use the specialized equipment on the beet dump piling machinery.

Permanent pesticide tolerances of 0.25 p.p.m. on sugar beets, and 10.0 p.p.m. on sugar beet tops from preharvest use have been established. Existing milk and meat tolerances should be adequate to cover this use. The requested use will add only an insignificant amount of thiabendazole to the human diet. Based on an existing registered product for field application of thiabendazole to sugar beets, no serious adverse effects on the environment are expected.

After reviewing the applications and other available information EPA determined that: (a) Pest outbreaks of various fungi have occurred or are about to occur; (b) there is no pesticide presently registered and available for use to control the fungi on stored sugar beets in Utah and Washington State; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic losses may result if the various fungi are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicants have been granted specific exemptions to use the pesticide noted above until December 31, 1978, to the extent and in the manner set forth in the applications. The specific exemptions are also subject to the following conditions:

1. The thiabendazole product Mertect 340-F, EPA Reg. No. 618-75 will be used;

2. The rate of application will not exceed 42 ounces of the product in 100 gallons of water per 100 tons of sugar beets;

3. A maximum of 175 gallons of the product in Utah and 1,667 gallons in Washington may be applied;

4. A maximum of 50,000 tons of sugar beets in Utah and 500,000 tons in Washington may be treated;

5. All applications will be made in storage areas under the control of the Utah and Idaho Sugar Co. in the sugar beet growing areas in Utah and in central Washington. The Applicants will maintain a record of all application sites in their respective States;

6. All applications will be made by employees of the Utah and Idaho Sugar Co., who have been trained to the specialized equipment on the beet dump piling machinery, and under the direct supervision of a State-certified applicator;

7. The Applicants are responsible for insuring that all the provisions of these specific exemptions are met in their respective States and each must submit a report to EPA summarizing the results of these programs by August 1979;

8. All applicable directions, restrictions, and precautions on the EPA-registered label must be followed;

9. The EPA shall be immediately informed of any adverse effects resulting from use of thiabendazole in connection with these exemptions;

10. These exemptions are not modifications of any NPDES permits issued to the Utah and Idaho Sugar Co. and do not constitute a waiver of State or Federal discharge limitations. The Utah and Idaho Sugar Co. is required to contact the Utah State Department of Agriculture in that State and the Washington State Department of Ecology in Washington, for possible amendments to NPDES permits;

11. Effluent from the processing plant will be monitored for residues of thiabendazole. Data from these tests will be submitted to EPA by August 1979;

12. Thiabendazole residue levels not exceeding 6 p.p.m. in or on sugar beets, 50 p.p.m. for sugar beet pulp, and 40 p.p.m. for sugar beet molasses have been determined to be adequate to protect the public health. A residue level of 40 p.p.m. for sugar beet molasses will not result in significant residues in poultry or eggs. The Food and Drug Administration of the U.S. Department of Health, Education, and Welfare has been advised of this action; and

13. Washington State and concerned growers are urged to pursue the establishment of a permanent tolerance for this use of thiabendazole through regular channels, if the fungal disease is likely to continue to be a pest of sugar beets.

STATUTORY AUTHORITY: Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.).

Dated: October 23, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

FEDERAL COMMUNICATIONS COMMISSION

BROADCAST SERVICE WORKING GROUP 1979 WORLD ADMINISTRATIVE RADIO CONFERENCE

Schedule of Meeting

OCTOBER 19, 1978.

Pursuant to Pub. L. 92-463, notice is hereby given of the following meeting for November 1978.

WARC-79 INTERNATIONAL BROADCASTING SERVICE GROUP

Tuesday, November 28, 1978, 2:30 p.m.-4:30 p.m., Room A110, (FCC Annex) 1229 20th Street NW., Washington, D.C., Chairman: Stanley Leinwoll, FCC Liaison: Darrell E. Bauguess.

The Agenda will be as follows:

1. Call to order and announcements by the Chairman.
2. Approval of Minutes of previous meeting.
3. Discussion of results of SPM.
4. Report and discussion of meeting with International Broadcasters in Geneva, Switzerland.
5. Reports from Task Groups.
6. Further discussion.
7. Next meeting date and adjournment.

The above meeting is open to broadcast industry representatives and interested members of the general public.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

FEE REFUND PROGRAM

Commission Staff To Hold Public Meeting

OCTOBER 19, 1978.

The FCC has announced that members of the Commission's staff who are responsible for implementing its Over-$20 Fee Refund Program will hold a public meeting on November 1, 1978 beginning at 1:30 p.m. in the General Services Administration auditorium at 18th and F Streets NW., Washington, D.C.

The purpose of the meeting is to discuss, generally, the Over-$20 Fee Refund Program which the Commission outlined in its Notice of Inquiry in General Docket No. 78-316 (FCC 78-695, released October 6, 1978), to discuss the design of the refund system, to answer questions, and to entertain recommendations for changes in the refund program. There will be no discussion regarding a future Commission fee schedule or refund of fees of $20 and less.

Written comments regarding the Over-$20 Fee Refund Program, proposed in General Docket No. 78-316 are due by November 8, 1978. In addition to the general areas in which comments were sought by the October 6 Notice of Inquiry, individuals and businesses who may be entitled to refunds under this program are specifically requested to provide the Commission, in their written comments, with information as to the nature and extent of the recordkeeping and reporting burdens that will be created by the proposed Fee Refund Claim Form. (The proposed Fee Refund Claim Form was shown as Attachment B to the October 6 Notice of Inquiry, which is printed at 43 FR 46658-46692 (October 10, 1978).)

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[6712-01]

RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

Meetings

In accordance with Public Law 92-463, "Federal Advisory Committee Act," the schedule of future Radio Technical Commission for Marine Services (RTCM) meetings is as follows:

SPECIAL COMMITTEE NO. 73, "MINIMUM PERFORMANCE STANDARDS (MPS), MARINE OMEGA RECEIVING EQUIPMENT"

Notice of 4th Meeting. Tuesday, November 14, 1978, 9:30 a.m. Conference Room, Maritime Institute of Technology & Graduate Studies (MITAGS), 5700 Hammonds Ferry Road, Linthicum Heights, Md. 21090.

AGENDA

1. Call to Order; Chairman's Report.
2. Administrative Matters.
3. Reports of Working Groups.
4. Discussion of Response of Manufacturers and Users to request for comments on Regulations and Requirements Affecting MPS.
5. Discussion on User Surveys.

M. H. Carpenter, Co-Chairman, CDR T. P. Nolan, Co-Chairman, Maritime Institute of Technology & Graduate Studies, Linthicum Heights, Md. 21090, Phone: 301-636-5700.

EXECUTIVE COMMITTEE MEETING

The next Executive Committee Meeting will be on Thursday, November 16, at 9:30 a.m. in Conference Room 7200, Nassif Building, 400 Seventh Street SW. (at D Street), Washington, D.C.

AGENDA

1. Call to Order.
2. Administrative Matters.
3. Discussion on Petition to Amend By Laws, Article IV, Section 1.
4. Discussion on Resolution to Amend Constitution, Article VI, Section 8.
5. Acceptance of FY-78 Audit Report.
6. New business.

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. All RTCM meetings are open to the public. Written statements are preferred, but by previous arrangement, oral presentations will be permitted within time and space limitations.

Those desiring additional information concerning the above meeting(s) may contact either the designated chairman or the RTCM Secretariat (phone: 202-632-6490).

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[6730-01-M]

FEDERAL MARITIME COMMISSION

AGREEMENTS FILED

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street NW., Room 10218; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, La.; San Francisco, Calif.; Chicago, Ill.; and San Juan, P.R. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before November 15, 1978 in which this notice appears. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the act.

A copy of any comments should also be forwarded to the party filing the

agreements and the statement should indicate that this has been done.

ports of the United States, pursuant to the terms and conditions thereof. Significantly, the Agreement would provide: (1) that the

agreements and the statement should indicate that this has been done.

Agreement No.: T-3734.

Filing Party: Mr. Neal M. Mayer, Coles and Goertner, 1000 Connecticut Avenue NW., Washington, D.C. 20036.

Summary: Agreement No. T-3734, between North Carolina State Ports Authority (Port) and Seatrain Transportation, Inc. (Seatrain), provides for Seatrain's use of 6.325 acres of land, together with a building at Wilmington Port Terminal, and preferential use of: (1) Berths 7 and 8 on two consecutive preferential days; (2) a gantry crane of at least 40-ton capacity; and (3) a truck scale. As compensation, Seatrain will pay Port $55,120 per annum land rental and $4,190.70 per annum building rental. In addition, Seatrain will pay Port Wharfage, subject to a guaranteed minimum of 100,000 tons per contract year, and dockage at rates as set forth in the agreement. Seatrain will pay Port $200 a month for the preferential use of the truck scale. This agreement supersedes FMC Agreement No. T-3384, between the Port and Seatrain Lines, Inc., approved by the Commission January 25, 1977.

Agreement No.: T-3736.

Filing Party: Maxim M. Cohen, General Manager, Chicago Regional Port District, Butler Drive-Lake Calumet Harbor, Chicago, Ill. 60633.

Summary: Agreement No. T-3736, between Chicago Regional Port District (Port) and Ceres Terminals, Inc. (Ceres), provides for the 5-year lease of certain premises including Transit Shed No. 3 at lake Calumet, Chicago, Ill., to be used for the purpose of operating ship, barge, railroad and truck terminal, warehouse, and for the handling of goods and merchandise as well as commercial or industrial activities. As compensation, Ceres will pay Port $68,460 per annum, fifty percent of the net storage revenues derived from the usage of the open space, not to exceed $5,000 per annum, plus regular posted Harbor dockage and wharfage charges.

Agreement No. 8660-9.

Filing Party: Eliot J. Halperin, Esquire, Graham & James, 1050 17th Street NW., Washington, D.C. 20036.

Summary: Agreement No. 8660-9 modifies the basic agreement of the Latin America/Pacific Coast Conference to provide for the appointment of an independent policing authority as enforcement authority for self-policing.

Agreement No. 10160-1.

Filing Party: Jerzy Rozanski, Vice-President Traffic and Container Operations, Gdynia America Line, Inc., General Agents, One World Trade Center Suite 3557, New York, N.Y. 10048.

Summary: Agreement No. 10160-1 would extend the duration of the Polarctic Joint Service Agreement for 3 years, to and including December 15, 1981. Agreement No. 10160 is presently set to expire with December 15, 1978.

Agreement No. 10355.

Filing Party: Elmer C. Maddy, Esq., Kirlin, Campbell & Keating, One Twenty Broadway, New York, N.Y. 10005.

Summary: Agreement No. 10355, between The Bank & Savill Line Ltd. (B & S) and The Shipping Corp. of New Zealand Ltd. (SCNZ) or New Zealand Line Ltd., provides for the operation of a cargo service in the trade between Australasia, The Pacific Islands, The Caribbean, Central and South America and Mexico and Atlantic and Gulf ports of the United States, pursuant to the terms and conditions thereof. Significantly, the Agreement would provide: (1) that the parties may include in their future service as many as three container vessels and four breakbulb vessels; (2) for the scheduling of containership sailings at regular intervals as warranted, supplemented by conventional sailings as necessary; (3) that B & S shall be appointed managing agents of the service, general agents of the service in the United States, and established agencies of B & S, including SCNZ in New Zealand, are to be used; (4) for the apportionment of net revenues or deficiencies among the parties; (5) that the parties shall, from time to time, agree upon sailing programmes for their vessels; (6) for the acquisition of any additional vessels deemed necessary by charter or purchase; (7) for the submission to the Commission of an annual revenue tonnage report; and (8) for an initial period of effectiveness of 5 years.

Agreement No. 10356.

Filing Party: Frank J. Fagan, Vice President, Dart Containerline, Container Services Division, Five World Trade Center, New York, N.Y. 10048.

Summary: Agreement No. 10356, a cooperative working agreement filed on behalf of Orient Overseas Container Line Ltd. and Dart Containerline Co. Ltd., entitled *Equipment Interchange and Lease Basic Agreement* would permit the parties to lease cargo containers and/or related equipment between them in accordance with the terms and conditions set forth in the agreement.

By Order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Assistant Secretary for Education

COMMENTS ON COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

Pursuant to section 406(g)(2)(B), General Education Provisions Act, notice is hereby given as follows:

The Institute of Museum Services and the U.S. Office of Education have proposed collections of information and data acquisition activities which will request information from educational agencies or institutions.

The purpose of publishing this notice in the FEDERAL REGISTER is to comply with paragraph (g)(2)(B) of the "Control of Paperwork" amendment which provides that each educational agency or institution subject to a request under the collection of information and data acquisition activity and their representative organizations shall have an opportunity, during a 30-day period before the transmittal of the request to the Director of the Office of Management and Budget, to comment to the Administrator of the National Center for Education Statistics on the collection of information and data acquisition activity.

These data acquisition activities are subject to review by the HEW Education Data Acquisition Council and the Office of Management and Budget.

Descriptions of the proposed collections of information and data acquisition activities follow below.

Written comments on the proposed activities are invited. Comments should refer to the specific sponsoring agency and form number and must be received on or before November 29, 1978, and should be addressed to Administrator, National Center for Education Statistics, attention: Manager, Information Acquisition, Planning, and Utilization, Room 3001, 400 Maryland Avenue, SW., Washington, D.C. 20202.

Further information may be obtained from Elizabeth M. Proctor of the National Center for Education Statistics, 202-245-1022.

Dated: October 25, 1978.

MARIE D. ELDRIDGE,
Administrator, National Center for Education Statistics.

Description of a Proposed Collection of Information and Data Acquisition Activity

1. Title of Proposed Activity: Guarantee Agency Loan Information For Preparing Guaranteed Student Loan Program Budget.

2. Agency/Bureau/Office: Office of Education, Bureau of Student Financial Aid, Guaranteed Student Loan Program.

3. Agency Form Number: OE-671.

4. Legislative Authority for This Activity: Sec. 428 (A)(b)(3).

Each supplemental Guaranty agreement entered into under subsection (a) . . . "shall provide for making such reports, in such form and containing such information, as the Commissioner may reasonably require to carry out his functions under this subsection, and for keeping such records and for affording such access thereto as the Commissioner may find necessary to assure the correctness and verification of such reports; . . ." (P.L. 89-329 as amended by P.L. 94-482-20 U.S.C. 1078—1)

5. Voluntary/Obligatory Nature of Response: Obligatory.

6. How Information To Be Collected Will Be Used: The budget data obtained directly from each Guaranteed Agency will be used by the Guaranteed Student Loan Program in preparing accurate and timely projected budget estimates. New loan volume in the Guarantee Agency Program increased 14 percent from fiscal years 1975-1977, and is expected to increase approximately 60 percent from 1977 to 1979. Encouraged by the Education Amendments of 1976, 10 States established insurance programs during fiscal year 1977-1978, and an additional eight State agencies are anticipated to be created during 1979.

7. Data Acquisition Plan: a. Method of collection, Mail (There may also be telephonic inquiries for vertification purposes). b. Time of Collection, January or February. c. Frequency, Annually.

8. Respondent: a. Type, State Institutions (Guarantee Agencies). b. Number, 36 (current). c. Estimated average man-hours per respondent: 1.2 hours.

9. Information To Be Collected: For the current and next four (4) Federal Fiscal years, a. The number and dollar amount of guaranteed student loans committed and disbursed. b. Number of defaults claims. c. Amounts recovered. d. Request for loan advances and administrative cost allowance.

[FR Doc. 78-30520 Filed 10-27-78; 8:45 am]

Description of a Proposed Collection of Information and Data Acquisition Activity

1. Title of Proposed Activity: Proposal Application Form.

2. Agency/Bureau/Office: Department of Health, Education and Welfare/Office of the Assistant Secretary for Education/Institute of Museum Services.

3. Agency Form Number: IMS-102/IMS-103.

4. Legislative Authority for This Activity: Museum Services Act—Title II of the Arts, Humanities and Cultural Affairs Act of 1976. P.L. 94-462. Section 206. (a) The Director . . . is authorized to make grants to museums to increase and improve museum services . . . (20 U.S.C. 965).

5. Voluntary/Obligatory Nature of Response: Required to obtain or maintain benefits.

6 How Information Collected Will Be Used: Through the Institute of Museum Services, discretionary grant program funds are provided to museums for general operating support and special project support. The proposed application forms for the March 9, 1979 deadline requesting general and budgetary information have been developed to simplify the application process for the museum applicant and to expedite the Institute's review process.

Because of the unique nature of the Institute's grant program—one of the few programs that provide general dollars for operating expenses—the financial information needed for an effective grant review must contain data on the total operating budget of the museum, in addition to reflecting its long-range fiscal and program plans.

The information collected from the Institute's proposed application form will be used to evaluate the museums eligible for support during the March deadline. The museum applicants will be reviewed in relation to the Institute's published guidelines for its 1979 grants program determined by the National Museum Services Board, the Policy-making arm of the Institute.

Each question contained in the application form corresponds directly with the IMS published criteria for evaluation and is essential for a thorough review of each museum's operation. In addition, the Institute is requiring its grantees to notify us of any grants pending before other Federal agencies in an attempt to avoid duplication of funding efforts.

7. Data Acquisition Plan: a. Method of collection, Mail. b. Time of collection, March, 1979. c. Frequency, Annually.

8. Respondents: a. Type, Public or private non-profit museums. b. Number, 3,000. c. Estimated average man-hours per respondent, 3 hours.

9. Information To Be Collected: 1. A summary of the museums history and purpose. 2. A summary of the organizational structure and staff size of museum. 3. A summary of the size, type and quality of a museum's collection. 4. A summary of the curatorial and educational activities of the museum. 5. A summary of community outreach programs of the museum. 6. A copy of the museum's long-range financial and program development. 7. A complete detailed budget of the museum applicant.

Description of Proposed Collection of Information and Data Acquisition Activity

1. Title of Proposed Activity: Adult Education Clearinghouse.

2. Agency/Bureau/Office: U.S. Office of Education, Bureau of Occupational and Adult Education, Division of Adult Education.

3. Agency Form Number: OE 560.

4. Legislative Authority for This Activity: "Sec. 309A. The Commissioner shall establish and operate a clearinghouse on adult education, which shall collect and disseminate to the public information pertaining to the education of adults and adult education programs, together with ways of coordinating adult education programs with manpower and other education programs. The Commissioner is authorized to enter into contracts with public agencies or private organizations to operate the clearinghouse established or designated under this section." (20 U.S.C. 1208-1; P.L. 93-380).

5. Voluntary/Obligation Nature of Response: Voluntary.

6. How Information Collected Will Be Used: Data collected through the survey will be edited and reformated for inclusion in a catalog of adult education projects. The catalog, then, as an information product, represents a subset of a continuously growing adult education data base. The catalog and survey will provide the mechanism for the production of a data base that can be used for measuring program progress from a Federal viewpoint. Additionally, the information can be used by the Adult Education State Directors as a basis for reducing 306/309 project duplication, identifying areas of over or underemphasis, and measuring progress toward fulfilling the needs of priority target groups of adult education and manpower programs. Utilization of the results of the special demonstration and training projects, and the information exchange among practitioners in the field will ultimately lead to improved practices, products, and programs. This process will create a feedback loop which allows for interstate information exchange and the development of a data base.

7. Data Acquisition Plan: a. Method of collection, Mail. b. Time of collection, Fall, 1979-1985. c. Frequency, Annually.

8. Respondents: a. Type: Individuals (Directors of Adult Education Section 306(a)(4) and 309 projects operated in colleges and universities, local educational agencies, nonprofit organizations, and by individuals.) b. Number: 400. c. Estimated average man-hours per respondent: .5.

9. Information To Be Collected: Each respondent will provide a summary of their project which includes title, contact, objectives, description, evaluation, target audience, and products.

SEATTLE, WASH.

November 9, 1978; 4:30 p.m. to 9 p.m., Federal Building, Rooms 370-380, 915 2d Avenue, Seattle, Wash. *Submission date:* November 1, 1978

Any one wishing to speak at one of the hearings must receive prior approval from the Board and submit one written copy of testimony at the hearing. In order to be considered for approval, requests to speak at a particular hearing must be received no later than the submission date listed for that hearing, and should include the following information: Name of person wishing to testify, professional affiliation (if any), the hearing at which testimony will be given, a brief summary of the testimony (which should be limited to 5 minutes), and an address and telephone number at which the requestor may be reached during business hours. Requests should be submitted to the Ethics Advisory Board, Westwood Building, Room 125, 5333 Westbard Avenue, Bethesda, Md. 20016. Written materials of any length may be submitted for the record at any time and will be distributed to all members of the Board.

On November 10 and 11, 1978 the Ethics Advisory Board will hold a regularly scheduled meeting in rooms 370-380, Federal Building, 915 2d Avenue, Seattle, Wash. The meeting will begin at 9 a.m. on both days and be open to the public subject to limitations of available space. The agenda for the meeting will include discussion of the legal, ethical, scientific and social issues surrounding DHEW support of human in vitro fertilization and review of an application for departmental support of research involving fetoscopy.

Requests to testify or for information should be directed to Dr. Charles R. McCarthy, Westwood Building, Room 125, 5333 Westbard Avenue, Bethesda, Md. 20016, telephone, 301-496-7776.

Dated: October 25, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

Office of the Secretary

OFFICE OF THE INSPECTOR GENERAL

Statement of Organization, Functions, Delegations of Authority

Part AF of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare is amended to clarify the responsibilities of the Office of the Assistant Inspector General for Investigations.

SECTION 1. Section AF.20D.2.a.(ii) of part AF is amended to read as follows:

(ii) Implements guidelines and policies for the detection and investigation of actual or suspected criminal activity *or wrongdoing* by departmental grantees or contractors or by departmental employees in the performance of their official duties; (underscored language is new, modifying language published in 42 FR 17532; April 1, 1977).

SEC. 2. Section AF.20D.2. of part AF is amended by adding at the end thereof the following new paragraph:

(e) The Division of Special Assignments (AFEC):

(i) Is responsible for conducting criminal investigations of unusual complexity or which have multiregion or national implications and highly sensitive noncriminal investigations involving Department personnel, contractors, and grantees; for pursuing the civil and administrative aspects of criminal cases after resolution of the criminal charges; and for developing strategies, priorities and tactics for the investigation of criminal cases that cross regional lines or are national in scope;

(ii) Develops methods and techniques for the investigation and identification of the more sophisticated and complex fraud cases in the white collar crime area;

(iii) Assists the Assistant Inspector General for Investigations and the Special Agents-in-Charge in establishing and maintaining effective liaison and coordination of investigative and prosecutive efforts with all Federal prosecutive and investigative offices in connection with law enforcement planning in the areas of program fraud and other forms of white collar crime and which have national or multiregion implications;

(iv) Advises the Assistant Inspector General for Investigations in the identification of and formulation of proposed solutions of management problems identified during multiregion or national investigations;

(v) Participates in the investigation of allegations involving the more complex conflict of interest and employee misconduct cases;

(vi) Assists in the design and implementation of programs to train personnel of AFE and other offices in the Department that have investigative responsibilities (these programs will relate principally to the criminal law and procedures relative to investigations); and

(vii) Provides legal advice and assistance relating to criminal law to the Assistant Inspector General for Investigations in connection with the investigations which are assigned to the Division.

SEC. 3. Prior Statement of Organization, Functions, and Delegations of Authority. To the extent inconsistent with this statement, all previous statements of organization, functions, and delegations of authority, as well as currently applicable chapters of the Department's Organizational Manual are hereby suspended by this statement, except that all delegations in effect immediately prior to the effective date of this statement shall continue in effect until new delegations are made.

SEC. 4. Effective Date. This Statement shall be effective on October 20, 1978.

Dated: October 20, 1978.

WILFORD J. FORBUSH,
Acting Assistant Secretary for
Management and Budget.

OFFICE OF PROGRAM INTEGRITY

Statement of Organization, Functions, and Delegations of Authority

This notice amends the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare, Office of the Secretary, by revising Chapter AMM, Office of Management Analysis and Systems (OMAS), (42 FR 36312-13, July 14, 1977 and 43 FR 43389, Sept. 25, 1978) to establish an Office of Program Integrity. This office will report directly to the Deputy Assistant Secretary for Management Analysis and Systems. It will assist in setting up and operating a management system to measure the results of the Department's initiatives to improve the integrity of HEW programs by eliminating fraud, abuse, and errors.

To provide for the Office of Program Integrity, the functional statement for the immediate office of the Office of Management Analysis and Systems, as stated in AMM.20A, henceforth will contain the following additional functional assignment:

(3) Through the Office of Program Integrity: (a) Provides the Secretary, the Assistant Secretary for Management and Budget and other key officials with advice and assistance in the planning, implementation, and operation of a management system for achieving and measuring results from the Department's initiatives to improve the integrity of HEW programs by eliminating fraud, abuse, and errors; (b) administers HEW's program integrity reporting and tracking system and provides the Secretary with periodic assessments of agency integrity objectives, progress against those objectives, results of these efforts, and other program integrity activities; (c) furnishes advice and assistance to the principal operating components in designing and establishing quality control systems for improving the integrity of program activities; and (d) provides assistance and guidance to principal operating components to insure followup by them of the Inspector General findings through the medium of program integrity and quality control activities and systems.

Dated: October 18, 1978.

WILFORD J. FORBUSH,
Acting Assistant Secretary for
Management and Budget.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD-648; FDAA-566-DR]

CALIFORNIA

Major Disaster and Related Determinations

AGENCY: Federal Disaster Assistance Administration.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of California (FDAA-566-DR), dated October 9, 1978, and related determinations.

DATED: October 9, 1978.

FOR FURTHER INFORMATION CONTACT:

Judy Barrows, Program Support Staff, Federal Disaster Assistance Administration, Department of Housing and Urban Development, Washington, D.C. 20410, 202-634-7825.

NOTICE: Pursuant to the authority vested in the Secretary of Housing and Urban development by the President under Executive Order 11795 of July 11, 1974, and delegated to me by the Secretary under Department of Housing and Urban Development, Delegation of Authority, docket No. D-74-285; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on October 9, 1978, the President declared a major disaster as follows:

I have determined that the damage in the city of Laguna Beach, Orange County, in the State of California resulting from landslides beginning about October 2, 1978, is of sufficient severity and magnitude to warrant a major disaster declaration under Pub. L. 93-288. I therefore declare that such a major disaster exists in the State of California.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11795, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285, I hereby appoint Mr. Robert C. Stevens, FDAA Region IX, to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following area to have been adversely affected by this declared major disaster.

The City of Laguna Beach (Orange County).

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance)

WILLIAM H. WILCOX,
Federal Disaster
Assistance Administration.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[ES 18923]

FLORIDA

Filing of Plat of Survey

OCTOBER 27, 1978.

1. The supplemental plat of survey of lands described below, accepted on January 3, 1978, will be officially filed in this office effective at 10 a.m. on November 30, 1978.

TALLAHASSEE MERIDIAN

T. 3 S., R. 11 E.,
Lot 8, Section 31, containing 3.00 acres.

2. This supplemental plat was prepared to return as surveyed and provide an acreage and designation for a small parcel of land shown east of the Suwannee River on the plat of section 31, T. 3 S., R. 11 E., Tallahassee Meridian, approved in February 1826.

3. Lot 8 is over 50 percent upland in character within the interpretation of the Swampland Act of September 28, 1850.

4. Except for valid existing rights, this land will not be subject to application, petition, location, selection or any other type of appropriation under any public law, including the mining and mineral leasing laws, until a further order is issued.

5. All inquiries relating to these lands should be addressed to the Director, Eastern States Office, Bureau of Land Management, 7981 Eastern Avenue, Silver Spring, Md. 20910.

LANE J. BOWMAN,
Acting Director,
Eastern States.

NASA plans to respond to the subcommittee's recommendations on NASA's

Pursuant to carrying out its statutory duties, the Panel reviews, evaluates,

publishing this list in the FEDERAL REGISTER is to inform the public.

V 43/210 OCT 30 78

Utah. The Committee is made up of representatives of water-resources oriented groups, including national, State, and regional organizations, professional and technical societies, and the academic community. Its principal responsibility is to represent the interests of the non-Federal community on plans, policies, and procedures related to water-data programs. The Director of the U.S. Geological Survey is chairman of the Committee.

The meeting will convene at 8:30 a.m. on Tuesday, November 14. Featured items on the Tuesday morning agenda include: (1) A review of the progress made over the past year in the implementation of Office of Management and Budget Circular A-67, which provides guidelines for the coordination of water-data acquisition activities of Federal agencies; (2) a progress report on the Federal interagency project to develop the *National Handbook of Recommended Methods for Water Data Acquisition;* (3) a report of progress in the Geological Survey's program of regional aquifer systems analysis and river-quality assessment; (4) the increasing need for "real-time" water data; and (5) a report of the activities of the U.S. Council on Environmental Quality's Task Force on Environmental Data and Monitoring. A field trip to points of hydrologic and geologic interest in the Salt Lake City area is scheduled for Tuesday afternoon. Wednesday, November 15, is set aside for three concurrent working group sessions on ground-water quality and quantity data, recommended methods for water-data acquisition, and urban water-data needs. On Thursday morning, November 16, the working group reports will be presented and other business will be discussed. The meeting will be adjourned about noon on November 16.

Persons wishing to attend the meeting or desiring more information on the meeting should contact R. H. Langford, Chief, Office of Water Data Coordination, U.S. Geological Survey, 417 National Center, Reston, Va. 22092.

HENRY W. COULTER,
Acting Director.

KNOWN RECOVERABLE COAL RESOURCE AREA

Gallup, N. Mex.

Pursuant to authority contained in the Act of March 3, 1879 (43 U.S.C. 31), as supplemented by Reorganization Plan No. 3 of 1950 (43 U.S.C. 1451, note), 220 Departmental Manual 2, Secretary's Order No. 2948, and section 8A of the Mineral Leasing Act of February 25, 1920, as added by section 7 of the Federal Coal Leasing Amendments Act of 1975 (Pub. L. 94-377, Aug. 4, 1976), Federal lands within the State of New Mexico have been classified as subject to the coal leasing provisions of the Mineral Leasing Act of February 25, 1920, as amended (30 U.S.C. 201). The name of the area, effective date and total acreage involved are as follows:

(31) NEW MEXICO

Gallup (New Mexico) Known Recoverable Coal Resource Area; February 14, 1978; 182,067 acres.

A diagram showing the boundaries of the area classified has been filed with the appropriate land office of the Bureau of Land Management. Copies of the diagram and the land description may be obtained from the Conservation Manager, Central Region, U.S. Geological Survey, Stop 609, Box 25046, Federal Center, Denver, Colo. 80225.

Dated: October 18, 1978.

W. A. RADLINSKI,
Acting Director.

[Notice 78-53]

NASA ADVISORY COUNCIL (NAC) SPACE AND TERRESTRIAL APPLICATIONS ADVISORY COMMITTEE (STAAC)

Meeting

The Ad Hoc Informal Advisory Subcommittee on Geodynamics and Geology of the NAC-STAAC will meet on November 15 and 16, 1978, from 8:30 a.m. to 4:30 p.m. at NASA Headquarters, Room 226A, Federal Office Building 10B, 600 Independence Avenue SW., Washington, D.C. 20546. Members of the public will be admitted to the meeting at 8:30 a.m. on both days on a first-come, first-served basis and will be required to sign a visitors' register. The seating capacity of the meeting room is for 35 persons.

This subcommittee, comprised of nine members of the NAC-STAAC including the subcommittee chairman, Dr. Michael Chinnery, will review the current and planned 5-year program in geology and discuss the future direction of this program. In addition, NASA plans to respond to the subcommittee's recommendations on NASA's Geodynamics Program which was discussed at the previous meeting.

NOVEMBER 15, 1978

TIME AND TOPIC

8:30 a.m.: Chairman's remarks.
9 a.m.: Overview of NASA's resource observation program.
9:30 a.m.: NASA's response to subcommittee's recommendations.
10:15 a.m.: Five-Year Plan goals and objectives.
11:15 a.m.: Discussion.
1:30 p.m.: Global geology, geophysics, and geodynamics.
3:30 p.m.: Discussion.
4:30 p.m.: Adjourn.

NOVEMBER 16, 1978

TIME AND TOPIC

8:30 a.m.: USDI roles and missions of the U.S. Geological Survey.
9:30 a.m.: Nonrenewable resources.
11:30 a.m.: Discussion.
1:30 p.m.: Program funding requirements.
2 p.m.: Discussion of issues.
3 p.m.: Summary and recommendations.
4 p.m.: Adjourn.

For further information regarding the meeting, please contact Louis B. C. Fong, Executive Secretary of the Subcommittee, Washington, D.C., 202-755-8601.

Dated: October 24, 1978.

NASA AEROSPACE SAFETY ADVISORY PANEL

Meeting

The Aerospace Safety Advisory Panel will meet on November 30, 1978, in Room 7002, Federal Office Building 6, 400 Maryland Avenue SW., Washington, D.C. The Panel will present its annual report to the Administrator and Deputy Administrator. The meeting is open to the public and will begin at 1 p.m. and continue until 2:30 p.m. The seating capacity of the room is about 40 persons, including members and other participants. Visitors will be requested to sign a visitor's register.

The panel is chartered by Congress "to review safety studies and operations plans referred to it and shall make reports thereon, shall advise the Administrator with respect to the hazards of proposed or existing facilities and proposed operations and with respect to the adequacy of proposed or existing safety standards, and shall perform such other duties as the Administrator may request."

Pursuant to carrying out its statutory duties, the Panel reviews, evaluates, and advises on those program activities, systems, procedures and management policies that contribute to risk and provide identification and assessment of these for management. Priority is given to those programs that involve the safety of manned flight.

Chairman of the Panel is Mr. Herbert E. Grier. The contact for further information is Carl R. Praktish, Executive Secretary, Aerospace Safety Advisory Panel, 400 Maryland Avenue SW., Washington, D.C. 20546. Phone, area code 202, 755-8380.

Dated: October 24, 1978.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on October 23, 1978 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes:

The name of the agency sponsoring the proposed collection of information;

The title of each request received;

The agency form number(s), if applicable;

The frequency with which the information is proposed to be collected;

An indication of who will be the respondents to the proposed collection;

The estimated number of responses;

The estimated burden in reporting hours; and

The name of the reviewer or reviewing division or office.

Requests for extension which appear to raise no significant issues are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, 202-395-4529, or from the reviewer listed.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 15252]

AMERICAN STOCK EXCHANGE, INC., ET AL.

Commission Action Declaring Effective an Amendment to the Consolidated Tape Plan

OCTOBER 20, 1978.

The Securities and Exchange Commission announced that it has sent to the sponsors of the joint industry plan filed pursuant to Rule 17a-15 under the Securities Exchange Act of 1934, and declared effective as of May 17, 1974, a letter declaring an amendment to the plan effective as of October 20, 1978. The amendment establishes a procedure for storing and reporting last sale information received by the processor of the plan during a regulatory halt.

The text of the letter follows:

AMERICAN STOCK EXCHANGE, INC.
MIDWEST STOCK EXCHANGE, INC.
NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC.
NEW YORK STOCK EXCHANGE, INC.
PACIFIC STOCK EXCHANGE, INC.
PHILADELPHIA STOCK EXCHANGE, INC.

DEAR SIRS: This is in response to the filing by you on July 21, 1977, of an amendment to the joint industry plan (the "Plan") filed pursuant to Rule 17a-15 under the Securities Exchange Act of 1934 (the "Act") and declared effective by the Commission as of May 17, 1974, establishing a procedure for storing and reporting last sale information received by the processor of the Plan during a regulatory halt.

After a review of the amendment to the Plan, the Commission is of the view that the amendment represents an appropriate method for the reporting of last sale information received by the processor of the Plan during a regulatory halt. Therefore, having due regard for the maintenance of fair and orderly markets, the public interest and the protection of investors, the Commission has declared the amendment effective as of the date of this letter.

By the Commission.

Sincerely yours,

GEORGE A. FITZSIMMONS,
Secretary.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. 94-29, 16 (June 4, 1975), notice is hereby given that on September 20, 1978, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

EXCHANGE'S STATEMENT OF TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The American Stock Exchange, Inc. ("Amex") proposes to amend Exchange Rule 991 by deleting present Rule 991 in its entirety and proposes to adopt a new Rule 991. The text of the proposed rule is set forth below (brackets indicate deletions; italics indicate new material):

SALES COMMUNICATIONS

Rule 991. *(a) Approval by Registered Options Principal. All advertisements and sales literature issued by a member or member organization pertaining to options shall be approved in advance by a general partner or officer of the member organization who is a Registered Options Principal, and copies thereof, together with the names of the persons who prepared the material and, in the case of sales literature, the source of any recommendations contained therein shall be retained by the member or member organization and be kept readily available for examination by the Exchange for a period of 3 years.*

(b) Standards of Approval. No advertisement or sales literature shall be approved under paragraph (a) of this Rule which:

(i) contains any untrue statement or omission of a material fact or is otherwise false or misleading;

(ii) contains promises of specific results, exaggerated or unwarranted claims, opinions for which there is no reasonable basis or forecasts of future events which are unwarranted or which are not clearly labeled as forecasts;

(iii) contains hedge clauses or disclaimers which are not easily identifiable, which attempt to disclaim responsibility for the content of such literature or for opinions expressed therein, or which are otherwise inconsistent with such advertisement or sales literature;

(iv) otherwise fails to meet the standards prescribed by Paragraph 9495 of the Exchange Rules;

(v) would constitute a prospectus as that term is defined in the Securities Act of 1933, unless it meets the requirements of section 10 of said Act.

(c) Exchange Approval Required for Options Advertisements. In addition to the approval by a Registered Options Principal required by paragraph (a) of this Rule, every advertisement of a member or member organization pertaining to options shall be submitted to the Legal and Regulatory Policy Division of the Exchange at least 10 days prior to use (or such shorter period as the Department may allow in particular instances) for approval and, if changed or expressly disapproved by the Exchange, shall be withheld from circulation until any changes specified by the Exchange have been made and further, in the event of disapproval, until the advertisement has been resubmitted for, and has received, Exchange approval. The requirements of this paragraph shall not be applicable to:

(i) advertisements submitted to and approved by another self-regulatory organization having identical requirements regarding approval of advertisements pursuant to an arrangement approved by the Exchange;

(ii) Advertisements in which the only reference to options is contained in a listing of the services of a member organization; and

(iii) Advertisements approved within the last 6 months.

(d) Except as otherwise provided in the "Commentary" hereunder, no written materials respecting options may be disseminated to any person without prior or contemporaneous dissemination to such person of a current prospectus of the Options Clearing Corp.

(e) Definitions.—For purposes of this rule, the following definitions shall apply:

(i) The term "advertisement" shall include any material that reaches a mass audience through public media such as newspapers, periodicals magazines, radio, television, telephone recording, motion picture, audio or video device, billboards, signs, or through letters designed for customer mailing not accompanied or preceded by a current prospectus of the Options Clearing Corp.

(ii) The term "sales literature" shall include any communication for distribution to customers or the public (or which may be made accessible to customers or the public) which contains any analysis, report, recommendation, opinion, prediction or comment with respect to options, underlying securities or market conditions, or any seminar text which pertains to options and which is communicated to customers or the public at seminars, lectures, or similar such events, or any exchange-produced materials pertaining to options.

Commentary • • •

.01 The special risks attendant to options transactions and the complexities of certain options investment strategies shall be reflected in any advertisement or sales literature which purports to discuss the uses or advantages of options. In the preparation of communications respecting options, the following guideines should be observed:

A. Any statement referring to the opportunities or advantages presented by options should be balanced by a statement of the corresponding risks. The risk statement should reflect the same degree of specificity as the statement of opportunities, and broad generalities should be avoided. Thus, a statement such as "with options, an investor has an opportunity to earn profits while limiting his risk of loss," should be balanced by a statement such as "Of course, an options investor may lose the entire amount committed to options in a relatively short period of time."

B. It should not be suggested that options are suitable for most investors, or for small investors. Indeed, it is strongly suggested that there be included in all literature discussing the use of options a warning to the effect that options are not for everyone.

C. Statements suggesting the certain availability of a secondary market for options should not be made.

.02 Advertisements pertaining to options shall conform to the following standards:
